CALCUTTA,

The 20th September 1919.

ORDER APPOINTING AN OFFICIAL LIQUIDATOR.
Act VII of 1913.

In re The Liquidation of the Diamond Jubilee Flour Mills Company, Limited, Delhi.

Upon the resignation of Mr. Sri Ram, Bar-at-Law, Official Liquidator of the above named Company and upon reading the Resolution dated the 2nd September 1919 of the General Meeting of the Creditors and Shareholders of the said Company, the Court doth hereby appoint L. Basheshar Nath Goela, District Receiver of the Delhi District, Official Liquidator of the said Company on his filing security to the extent of Rs. 5,000 which he has done. And it is ordered that the said L. Basheshar Nath Goela, do on the 1st day of January, 1st day of April, 1st day of July and 1st day of October 1920 and the same days in each succeeding year, file his accounts in this Court. And it is ordered that all monies to be received by the said L. Basheshar Nath Goela, be paid by him into the Bank of Bengal, to the credit of the account of the Official Liquidator of the said Company, within 7 days after the receipt thereof.

Given under my hand and the seal of this Court this 26th day of September 1919.

E. KNOLLYS,
District Judge, Delhi

SUPPLEMENT TO

The Gazette of India.

No. 40. } CALCUTTA, SATURDAY, OCTOBER 4, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

WHOLESALE AND RETAIL (FORTNIGHTLY) PRICES

RETURN SHOWING the WHOLESALE and RETAIL PRICES of CEREALS, PULSES, OILSEEDS, SUGAR (RAW), SALT, ETC., in INDIA by DISTRICTS for the FORTNIGHT ENDING THE 31ST AUGUST, 1919

DEPARTMENT OF STATISTICS, INDIA

September 26, 1919

G. FINDLAY SHIRRAS,

Director of Statistics

Published by order of the Governor-General in Council

PREFATORY NOTE.

Prices of Country Produce and Salt in India at the end of August, 1919.

(a) *The last fortnight of August, 1919, as compared with the preceding fortnight.*

The wholesale prices of cereals and pulses in India at the end of August, 1919, as compared with the preceding fortnight, showed a fall of 1 per cent. The price of rice advanced by 2 per cent, but that of wheat fell by 2 per cent (unweighted average). Of the inferior grains, bajra prices decreased by 3 per cent, barley and maize by 2 per cent each, and jawar and gram by 1 per cent, while arhar dāl remained unchanged. Prices of ghi and raw sugar (gúr) fell by 1 per cent; salt showed no change. The all-India fluctuation is as follows:—

Article	PREVIOUS FORTNIGHT (15TH AUGUST 1919)		THIS FORTNIGHT (31ST AUGUST 1919)	
	Unweighted	Weighted	Unweighted	Weighted
Rice	100	100	102	103
Wheat	100	100	99	98
Barley	100	100	98	100
Jawar	100	100	99	101
Bajra	100	100	97	99
Maize	100	100	98	94
Gram	100	100	99	100
Arhar dāl	100	—	100	—
Ghi	100	—	99	—
Raw Sugar (gúr)	100	100	99	101
Salt	100	—	100	—

With regard to fluctuations in provincial prices, the rise of 20 per cent in rice in Assam, and the fall of 11 per cent in barley in Delhi, of 17 per cent in jawar in the Punjab, of 20 per cent in bajra in Sind-Baluchistan, and of 14 per cent in maize in the United Provinces are noticeable.

(b) *The last fortnight of August, 1919, as compared with the average of the preceding three years at corresponding date.*

At the end of August, 1919, wholesale prices of food grains and pulses in India showed an increase of 67 per cent (unweighted average) as compared with the average of the prices which prevailed at the corresponding date in the last three years. The price of rice advanced by 63 per cent (unweighted average), the weighted average showing a rise of 80 per cent. The increases in the chief producing provinces were 92 per cent in Bengal, 106 per cent in Bihar and Orissa, 50 per cent in Burma, and 70 per cent in the Madras Presidency. Wheat prices rose by 52 per cent, showing a rise of 41 per cent in the Punjab, 52 per cent in the United Provinces, 68 per cent in the Central Provinces and Berar, 50 per cent in the Bombay Presidency, and 65 per cent in Bihar and Orissa. Barley prices showed a rise of 54 per cent (unweighted average); the increase by using the weighted average was 69 per cent. The greatest rise was in Bihar and Orissa (96 per cent). There was an advance of 69 per cent in the price of jawar and of 62 per cent in bajra. The most marked rise in jawar was in Bihar and Orissa (177 per cent) and in bajra in the Madras Presidency (123 per cent). The price of maize rose by 59 per cent, showing the greatest rise (133 per cent) in Bihar and Orissa. Gram prices increased by 86 per cent; the rise of 117 per cent in the United Provinces and of 102 per cent in the Madras Presidency is noteworthy. The average price of arhar dāl in India showed a rise of 94 per cent; in Delhi and in the Madras Presidency it rose to more than 2½ times the average level. Prices of ghi rose by 36 per cent and of raw sugar (gúr) by 63 per cent. Salt prices advanced by 5 per cent in India; the greatest rise was in the North-West Frontier Province (47 per cent), but prices fell by 25 per cent in the Bombay Presidency.

* The figures under "Rice, husked" represent the prices of common rice.

NOTE.—These statistics are compiled from the fortnightly returns furnished by District Officers to Local Governments and Administrations, etc. They relate to the wholesale prices in the principal markets (not necessarily district head-quarters) in each province on the last (or nearest mart) day of each fortnight.

(The figures state prices in rupees per ten maunds)

* 5% barley, 3% dirt, and 30% red.

NOTE.—These statistics are compiled from fortnightly returns furnished by Local Governments and Administrations. They relate to the wholesale prices in the markets referred to above, which prevailed on the last (or nearest mart) day of each fortnight. The statistics for Karachi, Bombay, and Calcutta are compiled from the Chambers of Commerce Market Reports.

(a) Based on the price for the fortnight ending the 31st July, 1914, which is taken as 100.

India per maund of 82½ lbs

NOTE.—These statistics are entirely compiled from returns furnished fortnightly by Local Governments and Administrations. They relate to the retail prices in the head quarters of the districts and in the ports referred to above.

(a) Based on the price for the fortnight ending the 31st July 1914, which is taken as 100.

* Relates to Khauwa wheat.

[The figures state quantity per rupee in seers of 80 tolas.]

FOREIGN SEA-BORNE TRADE DURING AUGUST, 1919.

REVIEW of the SEA-BORNE TRADE of BRITISH INDIA for the month of August, 1919, and for the five months ended August, 1919.

FOREIGN COMMERCE.

AUGUST AND THE FIVE MONTHS ENDED AUGUST, 1919.

The trade returns of British India for August, 1919, as compared with those of its immediate predecessor, showed an increase in the import, but decreases in the export and re-export trade. The total imports of merchandise in August, 1919, were valued at R16,15 lakhs as against R14,94 lakhs in the preceding month, and the value of the exports was R25,61 lakhs as against R26,17 lakhs and of the re-exports R1,09 lakhs as against R1,72 lakhs. Imports increased by 8 per cent, but exports decreased by 2 per cent and re-exports by 36 per cent. As compared with August, 1918, imports and exports showed increases of 30 per cent and 8 per cent respectively, but re-exports decreased by 15 per cent. A review of the trade of the five months ended August, 1919, will be found on page 7.

The most interesting features of the month, as compared with the corresponding month of the previous year, were (1) a considerable decrease in the exports of rice, wheat, barley, gram, tea, castor seed, gunny bags, and gunny cloth, (2) a large increase in the shipments of raw and tanned hides and skins, raw cotton, cotton seed, groundnuts, linseed, and cotton twist and yarn (3) a large increase in the imports of sugar, silk, raw, and machinery and mill-work and (4) a large decrease in the imports of cotton yarns and piecegoods.

The quantity of wheat shipped in August, 1919, was only 826 tons as against 126,019 tons in August, 1918. The shipments were made mainly to Asiatic Turkey and Hongkong. Shipments of rice not in the husk decreased to 36,151 tons from 222,003 tons in August, 1918. The imports of cotton piecegoods decreased to 61 million yards from 88 million yards in August, 1918.

The following statement shows the monthly imports and exports of merchandise during April to August, 1919, as compared with the corresponding months of the preceding year :—

	IMPORTS				EXPORTS, INCLUDING RE-EXPORTS			
	1919	1918	Increase (+) or decrease (-) in 1919 as compared with 1918.	Per cent	1919	1918	Increase (+) or decrease (-) in 1919 as compared with 1918	Per cent
	R(lakhs)	R(lakhs)	R(lakhs)		R(lakhs)	R(lakhs)	R(lakhs)	
April	14,38	13,72	+ 66	+ 5	22,53	18,21	+ 4,32	+ 24
May	13,80	10,02	+ 3,78	+ 38	21,52	21,78	- 26	- 1
June	11,83	14,45	- 2,62	- 18	20,43	20,34	+ 9	+ 4
July	14,94	17,54	- 2,60	- 15	27,99	20,35	+ 7,54	+ 37
August	16,15	12,41	+ 3,74	+ 30	26,71	25,00	+ 1,71	+ 7
TOTAL (5 months)	71,10	68,14	+ 2,96	+ 4	119,08	105,69	+ 13,40	+ 13

The chart showing the course of monthly imports and exports, including re-exports, from April, 1918, to August, 1919, as compared with the pre-war average, is appended below :—

MONTHLY IMPORTS AND EXPORTS (INCLUDING RE-EXPORTS) FROM APRIL, 1918, TO AUGUST, 1919, AS COMPARED WITH THE PRE-WAR AVERAGE (1911-12 TO 1913-14).

(Private merchandise only.)

Note.—The numerical figure at the end of each vertical line represents the month beginning from January.

The actual net excess of exports, including re-exports, over imports was R10,56 lakhs in August, as against R12,95 lakhs in July, 1919. The statement below shows the figures of imports and exports, including re-exports, during July and August of the years 1917, 1918, and 1919, and the actual net excess of exports over imports during the same periods :—

	1917		1918		1919		Actual net excess of exports over imports		
	Imports	Exports, including re-exports	Imports	Exports, including re-exports	Imports	Exports, including re-exports	1917	1918	1919
	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)
July	10,06	15,52	17,54	20,35	14,94	27,89	5,46	2,81	12,95
August	14,51	19,13	15,54	25,00	16,15	26,71	4,63	12,59	10,56

Comparisons with July, 1919.—As compared with July, 1919, the most noticeable changes * were :—

Under imports : *increases* under sugar 16 D. S. and above (+R50 lakhs), jute mill machinery (+R11 lakhs), raw silk (+R31 lakhs), cotton piecegoods, grey (+R33 lakhs), and silk piecegoods (+R18 lakhs), but *decreases* under betel nuts, wire nails and tin unwrought, etc. (—R11 lakhs each), lubricating oils (—R23 lakhs), and kerosene oil (—R16 lakhs).

Under exports : *increases* under tea black (+R73 lakhs), lac (+R11 lakhs), oilcakes (+R10 lakhs), tanned hides (+R49 lakhs), sesamum seed (+R12 lakhs), raw jute (+R47 lakhs), raw hemp (+R18 lakhs), jute gunny cloth (+R25 lakhs), and gunny bags (+R51 lakhs), but *decreases* under raw hides (—R44 lakhs), raw skins (—R55 lakhs), rape seed (—R24 lakhs), linseed (—R17 lakhs), raw cotton (—R1,80 lakhs), and cotton piecegoods (—R23 lakhs).

* The articles of which the fluctuations were less than R10 lakhs are not specially noticed.

Comparisons with August, 1918.—As compared with August, 1918, the most noticeable changes* were:—

Under imports: *increases* under wheat (+R13 lakhs), sugar, 16 D. S. and above (+R1,02 lakhs), aniline dyes (+R10 lakhs), hardware (+R21 lakhs), motor cars and motor cycles (+R26 lakhs), iron or steel, sheets and plates (+R24 lakhs), electrical machinery (+R16 lakhs), railway carriages and wagons (+R29 lakhs), railway materials for construction (+R11 lakhs), jute mill machinery (+R13 lakhs), raw silk (+R31 lakhs) and silk piecegoods (+R23 lakhs), but *decreases* under raw cotton (—R10 lakhs), cotton yarn (—R34 lakhs), cotton piecegoods, grey (—R50 lakhs), white (—R67 lakhs), and coloured (—R24 lakhs).

Under exports: *increases* under lac (+R29 lakhs), raw hides (+R46 lakhs), raw skins (+R1,03 lakhs), cotton seed (+R54 lakhs), groundnuts (+R35 lakhs), linseed (+R1,92 lakhs), rape seed (+R15 lakhs), sesamum (+R14 lakhs), raw cotton (+R155 lakhs), raw jute (a) (+R49 lakhs), hides, tanned (+R55 lakhs), skins, tanned (+R52 lakhs), cotton twist and yarn (+R1,15 lakhs), hemp, raw (+R22 lakhs), oilcakes (+R19 lakhs), and bran and pollards (+R12 lakhs), but *decreases* under barley (—R20 lakhs), gram (—R26 lakhs), rice (—R1,68 lakhs), wheat (—R1,74 lakhs), tea, black (—R48 lakhs), castor seed (—R10 lakhs), jute, gunny bags (—R1,09 lakhs), and gunny cloth (—R1,46 lakhs), raw wool (—R32 lakhs), and opium (—R26 lakhs).

VARIATIONS IN CLASSES.

The variations in August, 1918 and 1919, as compared with July, 1918 and 1919, respectively, according to the four main classes of merchandise, are as follows:—

	July, 1918 R(lakhs)	August, 1918 R(lakhs)	Increase (+) or decrease (—) R(lakhs)	July, 1919 R(lakhs)	August, 1919 R(lakhs)	Increase (+) or decrease (—) R(lakhs)
IMPORTS						
1. Food, drink, and tobacco	3,09	1,86	—1,23	2,90	3,21	+31
2. Raw materials and produce and articles mainly unmanufactured	1,15	99	—5,01	1,40	1,41	—8
3. Articles wholly or mainly manufactured	12,87	9,24	—3,63	10,32	11,31	+99
4. Miscellaneous and unclassified	13	32	—11	23	22	—1
Total	17,54	12,41	—5,13	14,94	16,15	+1,21
EXPORTS						
1. Food, drink, and tobacco	5,80	7,08	+1,28	2,28	2,86	+58
2. Raw materials and produce and articles mainly manufactured	6,18	8,04	—14	14,84	12,55	—2,29
3. Articles wholly or mainly manufactured	7,74	10,37	+2,63	8,73	9,87	+1,14
4. Miscellaneous and unclassified	17	23	+6	32	33	+1
Total	19,89	23,72	+3,83	26,17	25,61	—56

*The articles of which the fluctuations were less than Rs. 10 lakhs are not specially noticed.
(a) Quantity decreased.

COMPARISON WITH THE IMPORTS AND EXPORTS OF THE PRECEDING MONTH (JULY, 1919)*

I.—Imports.

A LARGE INCREASE IN THE IMPORTS OF SUGAR BUT A DECREASE IN THE
IMPORTS OF WHEAT.

The imports of Food, drink, and tobacco in August, 1919, increased by R31 lakhs, as compared with the preceding month, to R3,21 lakhs. The imports of wheat in August, 1919, decreased to 7,039 tons, valued at R13 lakhs, consigned almost entirely from Australia. The imports of sugar, 16 D. S. and above, in August, 1919, increased in quantity by 24 per cent to 36,402 tons and the value (R1,90 lakhs), by 35 per cent, as compared with the preceding month (July, 1919). Imports from Java and China increased, while those from Mauritius and the Straits Settlements decreased. In the five months ended August 1919, the imports of sugar, 16 D. S. and above, amounted to 138,237 tons, valued at R 6,23 lakhs, as against 172,545 tons, valued at R5,05 lakhs, in the corresponding period of the previous year.

AN INCREASE IN THE IMPORTS OF RAW SILK AND A DECREASE IN THE
IMPORTS OF MINERAL OIL.

The value of the imports of Raw materials in August, 1919, decreased by R 8 lakhs only to R 1,41 lakhs. The quantity of silk, raw, imported in August, 1919, increased by 392,948 lbs as compared with the preceding month, to 552,117 lbs. The quantity of kerosene oil imported fell to nearly 2 million gallons from over 4 million gallons in July, 1919, and of lubricating oils to 1 million gallons from 3 million gallons in the preceding month.

AN INCREASE IN THE IMPORTS OF COTTON YARN AND COTTON PIECEGOODS.

The value of the imports of Manufactured articles in August, 1919, increased by R 99 lakhs to R11,31 lakhs. The quantity of cotton yarn imported in August, 1919, increased by 38 per cent to 880,126 lbs. The imports of cotton piecegoods, including fents, in August, 1919, increased by 9 million yards to 61 million yards, and the value (R 2,88 lakhs) by 12 per cent, as compared with the preceding month. Grey goods increased by 8 million yards or 21 per cent to 35 million yards, coloured goods by 1 million yards or 10 per cent to 9 million yards, while white goods showed a decrease. In the five months ended August, 1919, the total imports of cotton piecegoods amounted to 2,80 million yards, valued at R13,37 lakhs, as against 525 million yards, valued at R 22,96 lakhs, in the corresponding period of the previous year. Bars and channel (steel) increased by 21 per cent to 4,259 tons in August, 1919.

II.—Exports.

A SLIGHT INCREASE IN THE EXPORTS OF RICE AND WHEAT.

The exports of Food, drink, and tobacco increased in August, 1919, by R58 lakhs, as compared with the preceding month, to R2,86 lakhs. Exports of rice, not in the husk, amounted to 36,151 tons in August, 1919, showing an increase of 15 per cent and the value increased by 17 per cent, as compared with the preceding month. The marginal table shows the exports to the principal countries. Exports to the United Kingdom, Turkey, Asiatic and Mauritius increased, while those to Ceylon and the Straits Settlements decreased. In the five months ended August, 1919, the exports of rice amounted to 191,862 tons, valued at R 2,95 lakhs, as against 1,070,288 tons, valued at R11,22 lakhs, in the corresponding period of the previous year. Exports of wheat increased by 148 tons to 826 tons, valued at R2,19,208. In the five months ended August, 1919, the total exports of wheat amounted to 3,527 tons, as against 398,649 tons in the corresponding period of the previous year.

Exports of Rice, not in the husk

	July, 1919 Tons	August, 1919 Tons
To United Kingdom	88	2,045
„ Turkey, Asiatic	265	8,688
„ Mauritius	7	7,763
„ Ceylon	18,428	9,493
„ Straits Settlements	5,381	3,544
Total (including other countries)	31,556	36,151

* Comparison is made with the previous month, and not with the corresponding month of last year, owing to the present abnormal circumstances brought about by the war.

A LARGE INCREASE IN THE EXPORTS OF TEA.

Tea.

Shipments of tea in August, 1919, increased by 59 per cent to 29 million lbs., as compared with those of the preceding month. The United Kingdom took 28 million lbs as against 17 million lbs in July, 1919. The total exports in the five months ended August, 1919, amounted to 115 million lbs, as against 126 million lbs in the corresponding period of 1918.

A DECREASE IN THE EXPORTS OF RAW COTTON AND RAW WOOL AND A SMALL INCREASE IN THE EXPORTS OF RAW JUTE.

The value of the exports of Raw materials decreased by R2,29 lakhs to R12,55

	Exports of raw cotton	
	July, 1919 Tons	August, 1919 Tons
Raw cotton.		
To Japan	23,337	19,014

„ France	181	1,169
„ Spain	1,067	1,024
„ Italy	4,299	357
Total (including other countries)	35,091	25,014

lakhs. The marginal table shows the exports of raw cotton and jute to the principal countries. The shipments of raw cotton decreased in August, 1919, by 29 per cent to 25,014 tons, valued at R3,22 lakhs. Exports to Japan, United Kingdom, Italy, and Spain decreased, while those to France increased. In the five months ended August, 1919, the exports rose by 46 per cent to 124,693 tons, valued at R17,23 lakhs. The exports of raw jute in August, 1919, increased by 42 per cent, to 32,965 tons, valued at R1,83 lakhs. Exports to the United Kingdom, France, and the United States increased, while those to Japan and Italy decreased. In the five months ended August, 1919, the exports amounted to 146,417 tons, valued at R5,66 lakhs, as against 169,624

	Exports of raw jute	
	July, 1919 Tons	August, 1919 Tons
Raw jute.		
To United Kingdom	7,069	17,788

„ Japan	2,551,000	4,375,200
„ United States	2,009,000	2,446,850
„ Natal	953,000	373,000
„ Australia	1,946,000	3,805,700
Total (including other countries)	No. 22,461,000 tons 22,207	27,522,950 30,107

to R9,87 lakhs. Exports of jute gunny bags increased by 22 per cent in number, and the value by 38 per cent to R1,83 lakhs. The marginal table shows the exports to the principal countries. Shipments to the United Kingdom, Japan, Australia and the United States increased, while those to Siam and Natal decreased. In the five months ended August, 1919, the exports fell by 46 per cent in number to 143 millions, valued at R7,43 lakhs. Exports of jute gunny cloth showed a decrease and amounted to 104 million yards, valued at R2,78 lakhs. It will be seen from the marginal table that shipments to the United Kingdom, the Argentine Republic and Canada increased, while those to the United States, and Australia, decreased. In the five

	Exports of jute gunny cloth	
	July, 1919 yards.	August, 1919 yards.
Jute gunny cloth.		
To United Kingdom	6,447,000	8,166,200
„ Canada	2,168,000	2,892,000
„ United States	100,424,000	70,270,000
„ Argentine Republic	3,048,000	19,807,000
„ Australia and New Zealand	1,806,000	1,407,900
Total (including other countries)	yards 114,865,000 tons 28,104	103,982,100 26,868

months ended August, 1919, the exports decreased by 1 million yards, while the value thereof decreased by 25 per cent.

FIVE MONTHS ENDED AUGUST, 1919.

The summary of the results for the five months ended August, 1919, as compared with the corresponding period of 1913 (pre-war five months) and of 1918 is as follows :—

	April to August 1913 (Pre-war five months).	April to August 1918.	April to August 1919.	Increase (+) or decrease (—) per cent as compared with 1913.
Merchandise (private)—	R (lakhs)	R (lakhs)	R (lakhs)	
Exports, including re-exports	97,25	1,05,88	1,19,07	+13
Imports	72,18	68,14	71,10	+4
Actual net excess of exports over imports	25,07	37,54	47,97	+28

In the five months ended August, 1919, exports, including re-exports, were higher by R13,39 lakhs or 13 per cent than in 1918, and by R21,82 lakhs or 22 per cent than in 1913. In the same period imports increased by R2,96 lakhs or 4 per cent than in 1918 but were less by R1,08 lakhs or 1 per cent than in 1913. The net excess of exports over imports in these five months was R47,97 lakhs, as compared with R37,54 lakhs in 1918 and R25,07 lakhs in 1913. The total value of merchandise increased by R16 crores, or 9 per cent, to R190 crores.

TRADE IN THE FIVE MONTHS ENDED AUGUST, 1919.

In the five months ended August, 1919, as compared with the corresponding period of the preceding year, the quantity of imported cotton piece-goods decreased by 245 million yards or 47 per cent to 280 million yards, and the value (R13 crores) was less by 42 per cent. The value of cotton twist and yarn imported decreased by R2,24 lakhs to R1,18 lakhs, of articles imported by post by R81 lakhs, of woollen piecegoods by R38 lakhs, of salt by R52 lakhs, of raw cotton by R59 lakhs, and of matches by R24 lakhs. Wheat increased by R2,23 lakhs, sugar, 16 D. S. and above, by R1,19 lakhs, kerosene oil by R1,00 lakhs, lubricating oils by R40 lakhs, raw silk by R56 lakhs, motor cars and motor cycles by R92 lakhs, hardware by R66 lakhs, electrical instruments by R26 lakhs, electrical machinery by R56 lakhs, jute mill machinery by R41 lakhs, sheets and plates (iron or steel) by R1,39 lakhs, and silk piecegoods by R61 lakhs. Under exports, the quantity of rice not in the husk decreased by 878,426 tons to 191,862 tons and the value by R8,27 lakhs to R 2,95 lakhs, while wheat showed a decrease of 395,122 tons to 3,527 tons in quantity and of R5,40 lakhs to R9 lakhs in value. The quantity of raw cotton exported increased by 39,538 tons and the value by R2,69 lakhs. The quantity of raw jute exported showed a decrease of 23,207 tons or nearly 14 per cent. The value of coffee exported increased by R73 lakhs, of cotton twist by R4,42 lakhs and piecegoods by R1,65 lakhs, of raw hides by R2,74 lakhs, of raw skins by R4,40 lakhs, of skins, tanned, by R1,95 lakhs, of hides, tanned, by R 1,73 lakhs, and of seeds by R10,53 lakhs, while the value of barley decreased by R1,72 lakhs, of gram by R2,11 lakhs, of castor seed by R96 lakhs, of tea, black, by R1,00 lakhs, of gunny cloth by R3,55 lakhs, and of gunny bags by R1,78 lakhs.

Comparing the values of the imports and exports during the five months ended August, 1919, with those in the corresponding period of 1918, the chief increases and decreases are as follows:—

I.—Imports.			
		Increases	
	R		R
	(thousands)		(thousands)
Wheat	2,22,05	Silk, raw	55,96
Iron or steel, sheets and plates	1,39,40	Electrical machinery	55,64

TRADE BY PROVINCES.

The total imports and exports, including re-exports, of private merchandise into and from the several maritime provinces during the month of August 1919, as compared with those of July, 1919, are stated below :—

	IMPORTS		EXPORTS, INCLUDING RE-EXPORTS	
	July, 1919	August, 1919	July, 1919	August, 1919
	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)
Bengal	6.33	6.85	10.60	12.47
Bombay	4.93	6.00	10.60	9.42
Sind	1.00	1.32	2.72	83
Madras	1.34	87	2.42	2.04
Burma	1.31	1.11	1.55	1.35
Total	14.94	16.15	27.89	26.71

Under imports, Bengal showed an increase of 8 per cent, Bombay of 21 per cent, and Sind of 32 per cent, while Madras showed a decrease of 35 per cent and Burma of 15 per cent. Under exports, Bengal showed an increase of 18 per cent, and Madras of 9 per cent, but Bombay showed a decrease of 11 per cent, Sind of 69 per cent, and Burma of 13 per cent. These comparisons are with the preceding month (July, 1919).

BALANCE OF TRADE.

India's balance of trade during the five months ended August, 1919, as compared with the corresponding period of 1918, is shown in the appended table. The table takes into account the imports and exports of merchandise, and the net imports of treasure, on private account only :—

	Five months, April to August, 1918	Five months, April to August, 1919
	R (lakhs)	R (lakhs)
Exports of Merchandise, including Re-exports *	1,05.68	1,19.07
Imports ..	68.14	71.10
Excess of Exports over Imports	37.54	47.97
Net imports of Gold (private)†	3	90
" " " Silver (private)†	2	—7
Net Imports of Treasure (private)†	5	83
Net (private) Exports of Merchandise and Treasure	37.49	47.14
Council Bills and Telegraphic Transfers paid in India	25.70	15.78
Sterling Bills on London sold in India	20
Enfaced Rupee paper (net imports)	11	21
Interest on Enfaced Rupee paper	13	14
Net Balance of Trade in favour of India	11.55	31.26
Average rate of exchange	August, 1918 d. 17.778	August, 1919 d. 21.38(a)

In the five months ended August, 1919, the excess of exports over imports of private merchandise was R47.97 lakhs, as against R37.54 lakhs in the corresponding period of 1918, and the net imports of treasure on private account (excluding transactions which do not enter into the balance of trade) were RS3 lakhs, as against R5 lakhs last year. The net exports (merchandise and treasure) were thus R47.14 lakhs, as against R37.49 lakhs in 1918. The balance of trade, so far as shown by the statistics of merchandise, treasure, Council Bills, and Enfaced Rupee paper, was R31.26 lakhs in favour of India in the five months, April to August, 1919, as compared with R11.55 lakhs in the corresponding period of 1918.

The amount of Council Bills and Telegraphic Transfers paid in India in the five months ended August, 1919, was R15.78 lakhs, all of which were paid through the Treasuries, except R9,000 which were paid through the Paper Currency Reserve, but Reverse Council Bills were sold to the extent of R20 lakhs during the period, the net imports of funds by Council Bills thus amounting to R15.53 lakhs. In the five months ended August, 1918, the amount was R25.70 lakhs, of which R21.51 lakhs were paid through the Paper Currency Reserve and R4.19 lakhs through the Treasuries. In the five months ended August, 1917, the amount of Council Bills paid was R27.50 lakhs. As regards Enfaced Rupee paper, R2 lakhs represented the amount of paper enfaced to London and R23 lakhs the amount re-transferred from

* Exclusive of Government transactions.

† Exclude transactions which do not enter into the balance of trade.

(a) Approximate.

London in the five months April to August, 1919, while in the corresponding period of 1918, about R3 lakhs represented the amount of paper enfaced to London and R13 lakhs the amount re-transferred from London.

MOVEMENTS OF GOLD AND SILVER (PRIVATE AND GOVERNMENT). •

In the month of August, 1919, the imports of gold were valued at R5 lakhs (R3 lakhs being in the form of ballion and nearly R2 lakhs in sovereigns), as against nearly R85 lakhs in the preceding month; there were no exports of gold either in August or in July, 1919.

The imports of silver during the month of report were valued at over R1.13 lakhs, of which R1.12 lakhs were on Government account, as against over R8.37 lakhs on both private and Government account in July, 1919. The exports of silver in August, 1919, were valued at R19½ lakhs, of which nearly R1 lakh was on Government account, as against over R2 lakhs, both on private and Government account, in the preceding month.

DECLARED VALUE PER UNIT OF SELECTED ARTICLES.

The declared values per unit of certain selected articles imported and exported during August, 1913, 1918, and 1919, are noted below :—

		AUGUST								AUGUST					
		1913		1918		1919				1913		1918		1919	
<i>Imports</i>		R	A. P.	R	A. P.	R	A. P.	<i>Exports</i>		R	A. P.	R	A. P.	R	A. P.

								" gunny bags	no.	0	5 11	0	6 10	0	10 7
								" gunny cloth	yard	0	2 4	0	5 1	0	4 3

As compared with the corresponding month of the previous year (August, 1918), under imports, the declared unit value of cotton piecegoods, white, rose in July, 1919, by 10 per cent, and coloured by 11 per cent, of cotton twist and yarn by 13 per cent, of sugar by 83 per cent, while that of coal decreased by 3.4 per cent and grey piecegoods by 8 per cent. Under exports, raw jute showed an increase of 73 per cent, coffee of 35 per cent, rice of 6.1 per cent, coal of 18 per cent, indigo of 16 per cent, and wheat of 90 per cent, while manganese ore and jute, gunny cloth showed a decrease of 17 per cent each, and cotton raw of 3.4 per cent.

CUSTOMS REVENUE.*

The following table shows the gross Indian sea customs revenue (excluding salt revenue) collected on principal articles in August, 1919, as compared with July, 1919, and August, 1918 and 1913 :—

	August, 1913 (pre-war month)	August, 1918	July, 1919	August, 1919	Increase (+) or decrease (—) in August, 1919, as compared with		
	R (thousands)	R (thousands)	R (thousands)	R (thousands)	July, 1919 (thousands)	August, 1918 (thousands)	August, 1913 (thousands)

Total Export duty	5,16	36,98	26,94	31,85	+4,91	—5,13	+26,89

* The Indian Tariff (Amendment) Act, IV of 1916, took effect from 1st March, 1916.

(a) Excludes the 7½ per cent duty on explosives.
(b) „ „ „ „ petroleum.
(c) „ „ „ „ confectionery.

The customs duty figures are an index to the volume of the import trade only, since under exports jute, rice, and tea only were subject to duty in the month of report. In the five months ended August, 1919, the import duties decreased to nearly R4,99 lakhs from R5,09 lakhs in the same period of 1918, while the export duties fell to over R1,27 lakhs from nearly R1,57 lakhs. The grand total of gross Indian sea and land customs revenue (excluding salt revenue) in the five months, April to August, 1919, amounted to over R7,08 lakhs, as compared with R7,46 lakhs in the corresponding period of last year.

SHIPPING.

The following table shows the number and tonnage (net register tonnage) of vessels which entered and cleared with cargoes at ports in British India during August, 1919, as compared with July, 1919, and August, 1918 and 1913 :—

Entered with cargoes.

	STEAMERS.		SAILING VESSELS.		TOTAL.	
	No.	Tons.	No.	Tons.	No.	Tons.
August 1919	165	394,141	37	3,397	202	397,538
July, 1919	153	341,288	22	1,474	175	342,762
August, 1918	162	258,110	33	3,947	195	262,057
August, 1913 (pre-war month)	190	523,841	40	2,940	230	526,781

Cleared with cargoes.

August 1919	189	456,725	34	2,754	223	459,479
July, 1919	182	391,697	22	4,043	204	395,739
August, 1918	243	432,024	89	7,715	332	440,639
August, 1913 (pre-war month)	245	676,145	103	9,168	348	685,313

The total tonnage entered and cleared with cargoes in August, 1919, as compared with that in the preceding month (July, 1919) and in the corresponding month of 1913 and 1918, is shown in the last column of the table above. In the month of August, 1919, there were 202 arrivals* and 223 sailings† with cargoes in and from India. As regards tonnage, if a comparison be made with August, 1913, the corresponding pre-war month, it will be seen that there was a decrease in the tonnage of vessels cleared with cargoes of 225,834 tons or 33 per cent. The decrease in the entries (with cargoes) amounted to 129,243 tons or 25 per cent.

The shipping clearances with cargoes in the foreign trade from the ports of British India in the five months, April to August, 1919, as compared with the corresponding period of 1913, i.e., before the war broke out, were as follows :—

	TONNAGE (NET REGISTER TONNAGE) CLEARANCES IN THE FIVE MONTHS APRIL TO AUGUST.	
	1913 (Pre-war period)	1919
British ships (including British Indian)	2,793,328	1,784,520
Foreign ships	717,857	319,091
TOTAL	3,511,185	2,103,611

In 1919, as against 1913, the total tonnage clearances with cargoes declined 40 per cent. In 1913 the British (including British Indian) tonnage was 80 per cent and foreign tonnage 20 per cent of the total, while in 1919 the British (including British Indian) tonnage was 85 per cent and foreign tonnage 15 per cent.

* The details were as follows :—Bengal 34, Bombay 45, Sind 23, Madras 85, and Burma 15.

† The details were as follows :—Bengal 53, Bombay 49, Sind 22, Madras 79, and Burma 20.

RAILWAY STATISTICS.

Railway statistics, like the import and export statistics above, are a valuable index to the general movement of trade throughout the country, and show that the earnings from 1st April to 6th September, 1919, were R37,38 lakhs, as against R37,75 lakhs in the corresponding period of 1918, or a decrease of R37 lakhs.

TRADE OF ADEN IN AUGUST, 1919.

The grand total value of the imports and exports of merchandise, by sea, into and from the port of Aden amounted to R1,61 lakhs in the month of August and R7,63 lakhs in the five months ended August, 1919. The value of the principal articles of import and export was as follows:—

	AUGUST, 1919		FIVE MONTHS, APRIL TO AUGUST, 1919	
	Imports into Aden	Exports from Aden	Imports into Aden	Exports from Aden
	R (thousands)	R (thousands)	R (thousands)	R (thousands)
Cotton manufactures	12,83	21,46	1,36,05	1,41,23
Hides and skins, raw	17,13	42,28	67,70	1,22,33
Grain and pulse	6,76	3,46	27,47	14,13
Coffee	4,47	10,56	24,22	35,88
Coal	9,35	—	32,12	—
Tobacco, unmanufactured	1,50	76	10,92	13,20
Provisions	61	12	3,64	63
Sugar	1,22	—	7,17	—
Spices	51	—	5,13	—
Salt	—	1,95	—	4,84
Other articles	11,63	14,58	64,00	52,90
TOTAL VALUE	66,01	95,17	3,78,42	3,85,14

SHIPPING AT THE PORT OF ADEN IN AUGUST, 1919.

In August, 1919, 95 steamers with an aggregate tonnage of 224,780 entered at the port of Aden, while 96 steamers with 227,213 tons cleared from the port, and 15 sailing vessels (country craft) with 557 tons entered and 10 vessels with 534 tons cleared. These figures exclude Government vessels and vessels in ballast.

DEPARTMENT OF STATISTICS, INDIA

September 29, 1919

G. FINDLAY SHIRRAS,

Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA.

Joint Stock Companies.

AUGUST 1919.

During the month under report, 55 companies were registered with an aggregate authorised capital of over Rs. 4,87 lakhs, as against 20 companies with an aggregate authorised capital of over Rs. 76 lakhs in the corresponding month of the preceding year. Bengal alone accounted for 39 companies (Rs. 36 lakhs). For the five months, April to August 1919, the number of companies registered was 230 with an authorised capital of Rs. 37,99 lakhs, as against 103 companies with Rs. 15 lakhs of authorised capital in the corresponding period of the preceding year. The largest flotation in August was that of the Burma Fire and Marine Insurance Co., Burma (Rs. 50 lakhs).

Government of India Notifications, Appointments, Promotions, etc.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 3rd October, 1919.

No. 98.—WHEREAS by Resolution passed by the Secretary of State for India in Council on the 10th day of September, 1884, the provisions of section 1 of the Government of India Act, 1870 (33 and 34 Vict., c. 3), were declared applicable to the island of Perim;

10961

(1981)

1

AND WHEREAS by Resolution passed by the said Secretary of State for India in Council on the 30th day of September, 1885, the provisions of the said section were declared applicable to Aden;

AND WHEREAS by Resolution passed by the said Secretary of State for India in Council on the 9th day of November, 1886, the provisions of the said section were declared applicable to the Settlement of Aden and its dependencies for the time being, inclusive of the villages of Sheikh Othman, Imad and Hiswa, the island of Perim and Little Aden;

AND WHEREAS the places to which the provisions of the said section were declared applicable by the said Resolutions were and are part of the territories under the administration of the Governor of Bombay in Council;

AND WHEREAS the said provisions were repealed and re-enacted by the Government of India Act, 1915 (5 and 6 Geo. V. c. 61);

AND WHEREAS the Governor of Bombay in Council has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same,

AND WHEREAS the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the assent of the Governor General on the 29th day of September, 1919;

IN pursuance of the direction contained in section 71 (2) of the Government of India Act, 1915, the said Regulation is now published in the *Gazette of India*.

REGULATION No. V of 1919.

A Regulation to amend the Aden Settlement Regulation, 1900.

VII of 1900. WHEREAS it is expedient to amend the Aden Settlement Regulation, 1900; It is hereby enacted as follows:—

1. This Regulation may be called the Aden Settlement (Amendment) Regulation, 1919.

Short title.

VII of 1900. 2. After section 11 of the Aden Settlement Regulation, 1900, the following section shall be inserted, namely,—

“11A. (1) An appeal against any toll, cess, tax or other impost imposed by the Resident under section 11, and against any rateable value fixed for the purpose of any such tax in accordance with the rules under section 13, shall lie to the Judge of the Court of the Resident.

(2) Provided that no such appeal shall be heard by the said Judge unless—

(a) in the case of an appeal against a rateable value,—the appellant has, before presenting the appeal, made complaint to such authority and in such mode and within such period as may be prescribed by rules under section 13, and the

appeal is presented within one month of the date on which such complaint has been disposed of;

(b) in any other case,—the appeal is presented within one month of the date on which payment of the toll, cess, tax or impost is demanded.

(3) (a) Every rateable value fixed in accordance with the rules under section 13, against which no complaint has been made in accordance with such rules;

(b) the amount of every sum claimed from any person on account of any toll, cess, tax or impost under section 11, where no appeal therefrom is made under this section; and

(c) notwithstanding anything contained in Act II of 1864 (*An Act to provide for the administration of civil and criminal justice at Aden*), the decision of the Judge of the Court of the Resident upon any appeal under this section,

shall be final.

(4) In this section ‘Judge of the Court of the Resident’ includes the Resident and any Assistant Resident directed by the Resident to hear any appeal, or any class of appeals, under this section.”

H. M. SMITH,

Offg. Secretary to the Government of India.

FINANCE DEPARTMENT.

NOTIFICATIONS.

ACCOUNTS AND FINANCE.

MINT.

Simla, the 27th September, 1919.

No. 2521-F.—In the Notification by the Government of India in the Finance Department No. 2414-F., dated the 16th September 1919, prescribing the rates at which payment shall be made for gold taken possession of under the provisions of the Gold (Import) Act, 1917, the following note shall be inserted, namely :—

“ When firms or institutions have arranged to import gold into India and wish to avoid risks from possible variations in the acquisition rate before it is delivered to the Government of India, the Controller of Currency or, in the case of gold delivered at Bombay, the Accountant General, Bombay, will be prepared to contract on behalf of the Government of India to pay for the gold on delivery at the acquisition rate prevailing at the time the gold was purchased for shipment. Firms or institutions wishing to take advantage of this arrangement must declare the fact and date of purchase to the above officers without delay and as soon as they have received intimation thereof. The officer making the contract will take such undertaking as he thinks fit from the firm or institution to ship and deliver gold with all possible expedition for payment at the rate stated.

The India Office is prepared to make a similar arrangement with firms and institutions who find it more convenient to submit in London evidence of their having engaged gold for shipment to India.”

SEPARATE REVENUE.

OPIMUM.

The 29th September, 1919.

No. 1711-F.E.—It is hereby notified that in the calendar year 1920 not more than 4,000 uncertified chests of Benares opium will be offered for sale by auction at Calcutta. The Government of India reserve to themselves the right at any time without previous notice to reduce the quantity or alter the class of opium to be offered for sale.

PAY, ALLOWANCES AND FINANCE OFFICERS.

The 29th September, 1919.

No. 1712-F.E.—With reference to rule XIII of rules promulgated with the Finance Department's Resolution No. 1251-F.E., dated the 30th September 1914, published on pages 1643 to 1645 of the *Gazette of India*, Part I, dated the 10th October 1914, it is hereby notified for general information that an examination will be held at Calcutta in December 1919 for the

selection of probationers to fill five vacancies in the General List of the Indian Finance Department. Only those candidates will be entitled to compete at the examination who have been nominated by the Government of India in the Finance Department in accordance with the rules quoted above and amended by the Finance Department's Resolutions No. 1363-F.E., dated the 27th December 1915, published on pages 391 and 392 of the *Supplement to the Gazette of India*, dated the 4th March 1916; No. 301-F.E., dated the 8th April 1916, published on pages 435 and 436 of Part I of the *Gazette of India*, dated the 15th April 1916; No. 176-F.E., dated the 13th February 1917, published on page 417 of the *Supplement to the Gazette of India*, dated the 24th February 1917; No. 733-F.E., dated the 5th July 1917, published on pages 1222 and 1223 of Part I of the *Gazette of India*, dated the 14th July 1917; No. 1559-F.E., dated the 23rd December 1918, published on page 35 of the *Supplement to the Gazette of India*, dated the 11th January 1919.

CUSTOMS—WAR.

The 4th October, 1919.

No. 7882.—The following extract from the Board of Trade Journal, dated the 28th August, 1919, is published for general information :—

IMPORT RESTRICTIONS.

PROVISIONAL LIST OF KEY INDUSTRIES.

With reference to the Prime Minister's statement in Parliament on Monday, 18th August, on the subject of Trade Policy, the Board of Trade make the following announcement as to the steps which are proposed in connection with imports of goods from abroad.

Legislation will be introduced when Parliament re-assembles in the autumn :—

(a) For the protection of goods manufactured in Great Britain and Ireland against dumping by taking power to prevent the sale in this country of similar goods beneath their price in the country of origin ;

(b) to enable the Board of Trade to check any flood of imports (for instance, from Germany) that might arise from a collapse of exchange so disproportionate to costs of production in the country of origin as to enable sales to take place in this country at prices altogether below costs of production here ;

(c) to deal with unstable "key" industries in the following way :—

A limited number of unstable "key" industries will be scheduled, the products of which will be prohibited from importation into this country except on licence.

Pending legislation, a general licence under the Prohibition of Import Proclamations will be issued by the Board of Trade having effect as from the 1st September, 1919, and authorising the importation into the United Kingdom of all goods with the exception of those in the following list, which will be treated as unstable "key" industries.

- (1) All derivatives of coal tar generally known as intermediate products capable of being used or adapted for use as dyestuffs or of being modified or further manufactured into dyestuffs. All direct cotton colours, all anion colours, all acid colours, all chrome and mordant colours, all ~~acid~~ colours, all basic colours, all sulphide colours, all vat colours (including synthetic indigo), all oil, spirit and wax colour, all lake colours, and any other synthetic colours, dyes, stains, colour acids, colour lakes, leuco acids, leuco bases, whether in paste, powder, solution, or any other form.
- (2) (i) Synthetic drugs (including antiseptics).
- (ii) Synthetic perfumes and flavourings ; synthetic photographic chemicals ; synthetic tannins ; esters and acid derivatives of aromatic hydro-carbons ; alkaloids and their salts (except quinine) ; and the following organic chemicals :—Acetamide ; acetic acid ; acetic anhydride ; acetyl chloride ; camphor bromide, cinnamic acid and its salts ; ethylene bromide ; formamide ; formic acid and its salts ; gallic acid ; lactic acid and its salts ; nuclein ; paraldehyd ; pyrogallio acid ; saccharin or other substances of like nature or use ; salicin ; thymol.
- (iii) Analytical re-agents ; and the following fine chemicals :—Barium compounds ; cerium fluorides and fluorides of other rare earth metals ; hydro-sulphites and allied bleaching compounds ; hypophosphorus acids ; iron and ammonium citrate ; iron tartrate ; molybdic acid and its salts ; phosphorus oxides and halogen compounds ; salts of per acids and artificial peroxides ; silver nucleinate and proteinate ; tungstic acid and its salts.
- (3) Optical glasses, including lenses, prisms and like optical devices.
- (4) Scientific glassware.

- (5) Illuminating glassware.
- (6) Laboratory porcelain.
- (7) Scientific and optical instruments.
- (8) Potassium compounds.
- (9) Tungsten powder and ferro-tungsten.
- (10) Zinc oxide.
- (11) Lithopone.
- (12) Thorium nitrate.
- (13) Gas mantles and mantle rings.
- (14) Magnetos.
- (15) Hosiery needles, latch.
- (16) Gauges.

In addition to the above, in pursuance of the undertaking given by the President of the Board of Agriculture in the House of Lords on 19th March, 1919, the prohibition on the importation of hops will be continued for the present.

It is not proposed to make any additions to the above list unless and until Parliament so determine, with the possible exception that in the event of the contingency foreshadowed in paragraph (b) above arising it might be necessary to suspend temporarily all or any of the imports from the country affected by the collapse of exchange.

The Board of Trade announce, in explanation of the above, that pending legislation a General Licence under the Prohibition of Import Proclamations is to be issued to cover all goods with the exception of those set out in the list of key industries. In the case of Kerosene and Benzine (including White Spirit), Gas Oil and Fuel Oil, this general licence refers to total quantity of import, and does not affect the agreement entered into by the Government to limit the number of importing firms for the period of the existence of the Pool Board, and nine months thereafter to those firms which co-operated with the Government to form the Pool Board as a result of which the community received material benefits. The termination of the war organization of the Pool Board as from 31st January, 1919, was announced in the Press on 2nd January, 1919. The nine months period which has to elapse before other firms are allowed to import does not therefore expire until 31st October, 1919.

Further, it should be noted that in accordance with the provisions of Article 295 of the Peace Treaty, which requires all the parties to the Treaty to adopt the International Opium Convention, the importation of Opium and Cocaine, except under Home Office licence, remains prohibited.

No. 7884.—The following Royal Proclamation is published for general information :—

BY THE KING.

A PROCLAMATION.

REVOKING A PROCLAMATION, DATED THE 21ST DAY OF DECEMBER, 1917, RELATIVE TO THE IMPORTATION OF CERTAIN ARTICLES INTO THE UNITED KINGDOM.

George R. I.

WHEREAS by a Proclamation, dated the twenty-first day of December, 1917, made in pursuance of Section 43 of the Customs Consolidation Act, 1876, We thought fit, by and with the advice of Our Privy Council, to Prohibit the importation into the United Kingdom of all bonds, debentures, stock or share certificates, scrip and other documents of title relating to any stocks, shares or other securities; with the exception of matured bonds redeemable in the United Kingdom and coupons falling due for payment in the United Kingdom, and of any such goods imported under licence given by or on behalf of Our Treasury, and subject to the provisions and conditions of such licence :

AND whereas it appears to Us that the said Proclamation should be revoked :

Now, therefore, We, by and with the advice of Our Privy Council, hereby proclaim, direct and ordain, that the said Proclamation of the twenty-first day of December, 1917, shall be, and the same is hereby, revoked.

Given at Our Court at Buckingham Palace, this Eighteenth day of August, in the year of our Lord One thousand nine hundred and nineteen, and in the Tenth year of Our Reign.

GOD SAVE THE KING.

MINES REGULATIONS.

The 4th October, 1919.

No. 8010.—The following draft of amendments which it is proposed to make in exercise of the powers conferred by section 20 of the Indian Mines Act, 1901 (VIII of 1901), in the rules regarding mine managers and their certificates published with the notification of the Government of India in the Department of Commerce and Industry, No. 2968-82 (Geology and Minerals), dated the 21st April 1906, as subsequently amended is published, as required by the same section, for the information of persons concerned. Notice is hereby given that the draft will be taken into consideration by the Governor General in Council on or after the 4th January 1920.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date aforesaid will be considered by the Governor General in Council.

Draft Amendments.

- (1) For rule 29 of the said rules the following shall be substituted, namely,
 - " 29. Certificates of competency under the said rules shall be granted by the Board of Examiners and their decision regarding the grant of such certificates shall be final. Certificates granted by the Board shall hold good throughout British India, and shall be of two classes, namely first and second class."
- (2) Rules 38, 39 and 40 of the said rules are hereby repealed.

PATENTS AND DESIGNS

The 4th October, 1919.

No. 7880.—I, Frederick John Napier Thesiger, Baron Chelmsford, in pursuance of the powers reserved in the Trading with the Enemy Proclamations do hereby give and grant licence:—

- (1) To all persons residing, carrying on business or being in British India to pay
 - (a) on their own behalf or on behalf of any person or persons residing, carrying on business or being in British India;
 - (b) on behalf of any person or persons residing, carrying on business or being in any part of His Majesty's dominions outside British India who have been authorised to make such payments by the Government of that part of His Majesty's dominions; and
 - (c) on behalf of any other person who has been authorised or is permitted to make such payments by the Government of the country in which such person resides, carries on business or is,

any fees necessary for obtaining the grant, or for obtaining the renewal, of patents, or for obtaining the registration of designs, or trade marks, or the renewal of such registration, in an enemy country and to pay to enemy agents their charges and expenses in relation to the matters aforesaid;

- (2) To all persons residing, carrying on business or being in British India to pay on behalf of any fees payable on application for, or renewal of, the grant of patents, or on application for the registration of designs or trade marks or the renewal of such registration
 - (a) in British India;
 - (b) in any part of His Majesty's dominions outside British India where the payment of such fees on behalf of an enemy has been authorised by the Government of that part of His Majesty's dominions; and
 - (c) in any other country where the payment of such fees on behalf of an enemy has been authorised or is permitted by the Government of that country; and to pay
 - (a) agents in British India (including themselves);
 - (b) agents in any part of His Majesty's dominions outside British India who have been authorised by the Government of that part of His Majesty's dominions to act on behalf of enemies in connection with the matters aforesaid; and
 - (c) agents in any other country who have been authorised or are permitted by the Government of that country to act on behalf of enemies in connection with the matters aforesaid their charges and expenses, if any, in relation to the matters aforesaid.

CHELMSFORD,

Viceroy and Governor-General of India.

POST AND TELEGRAPH ESTABLISHMENTS.

The 4th October, 1919.

No. 8030.—Mr. Peary Lal Tandan, Superintendent of Post Offices, 1st grade and officiating Deputy Postmaster-General, 3rd grade, is appointed Deputy Postmaster-General, 3rd grade, Bombay, on probation for one year with effect from the 1st August 1919.

TRADING BY FOREIGNERS.

The 4th October, 1919.

No. 8069.—In exercise of the powers conferred by clause (a) of sub-section (1) of section 4 of the Enemy Trading Act, 1916 (X of 1916), the Governor General in Council is pleased to cancel the notification in the Department of Commerce and Industry No. 10257-W. II, dated the 21st October 1916, so far as it relates to Messrs. Cohn Brothers, and Fuchs.

No. 8070.—In pursuance of section 3 of the Indian Companies (Foreign Interests) Act, 1918 (XX of 1918), the Governor General in Council is pleased to declare Messrs. Charles Booth and Company (Calcutta), Limited, to be a Company with restrictive provisions within the meaning of the said Act and the following clauses of the Articles of Association of the said Company to be restrictive provisions :—

Article 4 (a).—No person other than a British subject or a subject of the United States of America, of France, of Italy, or of Belgium shall be admitted as a member or shareholder of the Company or be employed in the business of the Company as a Manager, Officer, Assistant, or in any other capacity.

(b).—If at any time by reason of the holder of any shares in the Company ceasing to be a British subject, or a subject of the United States of America, France, Italy or Belgium or coming under any arrangements under which he holds any shares in trust for, or on behalf of or in any way directly or indirectly under the control or directions of any body, person or corporation, other than a subject or corporation of Great Britain and its colonies, the United States of America, France, Italy or Belgium, the Directors shall serve upon the holders of the shares in question, a notice in writing requiring such holder to retire from the Company and upon such notice being given the shares shall not confer any vote or any of the privileges attaching thereto until they have been transferred.

The Gazette of India

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, OCTOBER 4, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 18th March 1919.

On and after 29th March and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Simla, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777-79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India."

CALCUTTA UNIVERSITY COMMISSION, 1917-18.

Report—Volume I, Part I. Analysis of Present Conditions (Chapters I—XIII). Royal 8vo. Paper. Rs. 2 (5s.)

Report—Volume II, Part I. Analysis of Present Conditions (Chapters XIV—XX). Royal 8vo. Paper. Rs. 2-4 (5s.)

Report—Volume III, Part I. Analysis of Present Conditions (Chapters XXI—XXIX). Royal 8vo. Paper. Rs. 1 (4s.)

Report—Volume IV, Part II. Recommendations of the Commission (Chapters XXX—XXXIX). Royal 8vo. Paper. Rs. 1-12 (5s.)

Report—Volume V, Part II. Recommendations of the Commission (Chapters XL—LII). Royal 8vo. Paper. Rs. 1-6 (5s.)

Selected Chapters of the Report of the Calcutta University Commission. Royal 8vo. Boards. Rs. 1 (3s.)

The University of Dacca being Chapter XXXIII of the Report of the Calcutta University Commission. Royal 8vo. Paper cover. As. 10 (3s.)

Women's Education being Chapters XIV and XXXVI of the Report of the Calcutta University Commission. Royal 8vo. Paper cover. As. 5 (1s.)

PUBLIC WORKS DEPARTMENT.

General Conditions of Contract for Electrical Works in the Public Works Department, India. Foolscap. Stitched. Anna 1 (1s.)

Hydro-Electric Survey of India—Preliminary Report on the Water Power Resources of India. Foolscap. Boards. Rs. 3-2 (4s.)

Irrigation in India—Review for 1917-18. Royal 8vo. Boards. Rs. 1-8 (4s.)

Practical conditions in determining the value of water power for electrical purposes. Foolscap. Stitched. As. 9 (1s.)

Supplement to the List of Electrical undertakings in India, 1916-17—Financial and Technical. Details of Licensed undertakings. (Revised to July 1919.) Foolscap. Stitched. As. 8 (1s.)

FOREIGN AND POLITICAL DEPARTMENT.

Quarterly List of the Foreign and Political Department, No. 51, corrected up to the 1st July 1919. Super-royal 8vo. Paper cover. Rs. 2-8 (4s.)

FINANCE DEPARTMENT.

Classified List of Officers of the Indian Finance Department (25th May, 25th June and 25th July 1919), Nos. 505, 506 and 507. Super-royal 8vo. Paper cover. As. 4 (2s.) each.

History of Services of Officers holding appointments in offices under the control of the Government of India. Finance Department, corrected to 1st July 1919. Rs. 1 (3s.)

Question papers set in the Indian Finance Department Examination held in December 1918. Foolscap. Paper cover. As. 8 (1s.)

DEPARTMENT OF COMMERCE AND INDUSTRY.

List of Coal Mines worked under the Indian Mines Act, 1901, in British India during the year 1918. Foolscap. Paper cover. Rs. 1-8 (8s.)

Report of the Chief Inspector of Mines in India (under the Indian Mines Act, VIII of 1901) for the year ending 31st December 1918. Foolscap. Limp. Rs. 2 (4s.)

DEPARTMENT OF STATISTICS.

Accounts relating to the Trade by Land of British India with Foreign Countries for April and May 1919 (Nos. 1 and 2 of 1919-20). Royal 8vo. Paper cover. As. 8 (2s.) each.

Accounts relating to the Sea-borne Trade and Navigation of British India for June and July 1919, Nos. 3 and 4 of 1919-20. Royal 8vo. Paper cover. Rs. 1-4 (2s.) each.

Annual Statement of the Sea-borne Trade of British India with the British Empire and Foreign Countries for the fiscal year ending 31st March 1919, Volume I. Foolscap. Limp. Rs. 4-12 (10s.)

Cotton Press Return, Nos. 17, 18, 19, 20, and 21 of 1919-20.—Return showing the quantity of Cotton pressed in the Pressing Factories, and of Cotton received in the Spinning Mills in India, in the half-months ending 18th and 31st May, 18th and 30th June, and 18th July 1919, together with progressive totals from 1st September 1918. Foolscap. Pies 6 (6p.) each.

Crop Forecasts—

First Cotton Forecast, 1919-20. Pies 6 (6p.)

Final General Memorandum on the Wheat Crop of 1918-19. Pies 6 (6p.)

First Forecast Sesamum (til or jhijli) Crop, 1919-20. Pies 6 (6p.)

First Sugarcane Forecast, 1919-20. Pies 6 (6p.)

Foreign Sea-borne Trade.—Return with a preface note, showing the imports and exports of merchandises (i.e., exclusive of Treasure and Government stores) by sea from and to the principal countries in the twelve months April 1918 to March 1919 as compared with the corresponding period of the previous year. Foolscap. Pies 6 (6p.)

Foreign Sea-borne Trade during May, June and July 1919.—Review of the Sea-borne Trade of British India for the months of May, June and July 1919, and for the two, three and four months ended May, June and July 1919, respectively. Foolscap. Stitched. As. 4 (1s.) each.

Imports into Chief Ports during April and May 1919.—Return showing the quantities of the Principal Staples of Agricultural Produce imported into Calcutta, Bombay, Karachi and Madras ports by rail, river and sea during April and May 1919. Foolscap. Stitched. As. 1-6 (1s.) each.

Indian Customs Revenue.—Return showing the total gross Indian Sea and Land Customs Revenue (excluding Salt Revenue) in the four months April to July and the five months, April to August of 1919-20, as compared with the corresponding periods of the preceding nine years. Foolscap. Pies 6 (6p.) each.

Joint Stock Companies—May, June and July 1919. Foolscap. Pies 6 (6p.) each.

Monthly Accounts relating to the Trade by Land of British India with Foreign Countries (March 1919), No. 12 of 1918-19. Royal 8vo. Paper cover. As. 8 (3s.)

Monthly Statistics of Cotton Spinning and Weaving in Indian Mills (May and June 1919), Nos. 2 and 3 of 1919-20. Royal 8vo. Paper cover. As. 2 (1s.) each.

Return showing the Imports into, and Exports from, Chief Ports of Wheat, Jute, Cotton and Rice, for the weeks ending 31st, and 28th June, 5th, 12th, 19th and 26th July, 2nd, 9th, 16th, 23rd and 30th August and 6th September 1919. Foolscap. Pies 6 (6p.) each.

Statistics of British India, Volume V, Education, 1917-18 (Eleventh Issue). Foolscap. Limp. Rs. 2-4 (5s.)

Statistics of British India, Volume III, Public Health (Tenth Issue). Foolscap. Limp. Rs. 1 (3s.)

Wheat Prices in India.—Return showing the Wholesale and Retail Prices of Wheat in India from the Second Half of July 1914 to the Second Half of May, first and second halves of June and first and second halves of July 1919. Foolscap. Stitched. As. 1-6 (1s.) each.

Wholesale and Retail (Fortnightly) Prices.—Return showing the Wholesale and Retail Prices of Cereals, Green, Oilseeds, Sugar (Raw), Salt, etc., in India by Districts, for the Fortnights ending the 31st May 15th and 30th June and 15th and 31st July 1919. Foolscap. Stitched. As. 6 (1s.) each.

ARMY DEPARTMENT.

Demobilisation Orders (India)—Supplementary Instructions for the Supply and Transport Corps, 1919 (Provisional). Royal 8vo. Limp. As. 10 (1s.)

Field Service Manual—Mountain Artillery Brigade. Headquarters and Battery (armed with 2-75-in. B. L. Guns) India, 1919. As. 4 (1s.)

Field Service Sanitary Notes, India, 1919. Cloth Limp. As. 12 (3s.)

Signal Training, Part I, 1917. (Roman Urdu.) Cloth. Limp. As. 10 (2s.)

INDIAN MUNITIONS BOARD.

Notes on wool in India. Super-royal 8vo. Paper cover. As. 12 (2s.)

Report on Portland Cement of Indian Manufacture by Mr. Henry A. F. Mugggrave. Foolscap. Paper cover. As. 3 (2s.)

RAILWAY BOARD.

Technical Paper No. 124.—Second Report of the Indian Railway Bridge Committee, November 1918. Foolscap. Paper cover. As. 8 (5s.)

LIST OF BOOKS FOR SALE AT THOMASON COLLEGE, ROORKEE.

Thomason Civil Engineering College Manual, No. XIV—

Surveying, Part I. Originally compiled by Lieutenant-Colonel F. FIREBRACE, R.E.; re-written and revised by C. J. VEALE, Esq., Professor of Surveying and Drawing, II Edition, 1915. Rs. 2-8.

Surveying, Part II. Originally compiled by Lieutenant-Colonel F. FIREBRACE, R.E.; re-written and revised by C. J. VEALE, Esq., Professor of Surveying and Drawing, II Edition, 1915. Rs. 2-6.

Thomason Civil Engineering College Manual, Section V, Examples of Estimating.—

Originally compiled by the late Ensign Peter Keay, Head Master, Upper Subordinate Class, Thomason Civil Engineering College, Roorkee, 8th Edition, 1915, entirely revised by F. W. HART, Instructor in Applied Science, Thomason Civil Engineering College. Rs. 3-8.

Notes on Lawn Tennis, Rowing and Sculling for beginners. By Captain E. W. C. SANDER, R.E. Paper cover. As. 10.

LIST OF NEW BOOKS AND PERIODICALS FOR SALE AT THE LIBRARY OF THE ASIATIC SOCIETY OF BENGAL, 1, PARK STREET, CALCUTTA.

SPECIAL CATALOGUE.

CATALOGUE OF THE SCIENTIFIC SERIAL PUBLICATIONS IN THE PRINCIPAL LIBRARIES OF CALCUTTA. COMPILED FOR THE ASIATIC SOCIETY OF BENGAL BY STANLEY KEMP, B.A. Rs. 5. INTERLEAVED COPY. Rs. 7-8.

SOCIETY'S PUBLICATIONS.

Journal and Proceedings—

Vol. XIV, 1918, No. 1-2. Rs. 4.

Vol. XIV, 1918, Nos. 5-9. Rs. 2 each.

Vol. XV, 1919, Nos. 1-2. Rs. 2 each.

Memoirs—

Vol. VI. Zoological Results of a Tour in the Far East. Part IV.—Brackish Water Polyclads. By DR. T. KADURARI. Sponges. By N. ANNANDALE, D.Sc., F.A.S.B. Rs. 2. Part V.—Crustacea Decapoda and Stomatopoda. By STANLEY KEMP, B.A., F.A.S.B. Mollusca of the Tai-Hu. By N. ANNANDALE, D.Sc., F.A.S.B. Rs. 4.

Vol. VII. No. 1. The Ormuri or Bargista Language, an account of a Little-known Eranian Dialect.—By SIR GEORGE ABRAHAM GRIERSON, K.C.I.E., PH.D., D.LITT. Rs. 4.

Vol. VIII. No. 2 Revision des Champignons appartenant au Genre *Nocardia*.—Par le Capitaine de Mello et Dr. J.F. St. Antonio Fernandes. Rs. 1-8.

BIBLIOTHECA INDICA.

Baudhayana Srauta Sutram, Vol. 3. Fasc. 2. As. 10.

Yoga Sastra. Fasc. 5. Rs. 1-4.

Akbarnama (Eng.) Vol. 3. Fasc. 10. Rs. 1-4.

Nyayavartika Tatparya Parisudhi. Fasc. 5. As. 10.

Prithviraja Vijaya. Fasc. 2. As. 10.

Shah Jahan Nama. Fasc. 3. Rs. 2.

Tantravartika (Eng.) Fasc. 15. Rs. 1-4.

Bardic and Historical Survey of Rajputana. (Veli Krisana Rukamani ri Rathora raja Prithi Raja ri kahi) Part I, Dingala Text with Notes and Glossary. Rs. 1-8.

The Odes of Shaikh Muslihu-d-din Sa'di Shirazi Fasc I. Rs. 1-8.

Maitra or Mahtayaniya Upanisad. Fasc. 2 As. 10.

Baudhayana Srauta Sutram. Vol. III. Fasc. 3. As. 10.

Minor Tibetan Texts. The Song of the Eastern Snow Mountain. Rs. 1.

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA.

A Bibliography of Indian Geology and Physical Geography with an annotated Index of Minerals of Economic Value. By T. H. D. LATOUCHE, M.A., F.G.S., Fellow of the Asiatic Society of Bengal. Part I—Bibliography of Geology of India. Part II—An Annotated Index of Mineral of Economic Value. Rs. 4 each.

Memoirs of the Geological Survey of India—

Volume XLII, Part 1. By J. COGGIN BROWN, M.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. The Burma Earthquake of May 1912. Rs. 3.

Volume XLIII, Part 2. By J. COGGIN BROWN, M.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. A Descriptive Catalogue of the Meteorites comprised in the collection of the Geological Survey of India, Calcutta (on August 1st, 1914). Rs. 1.

Volume XLV, Part 1. By A. M. HENON, B.Sc., F.G.S., Assoc. Inst. C.E., Assistant Superintendent, Geological Survey of India. The Geology of North-Eastern Rajputana and adjacent Districts. Rs. 3.

Volume XLII, Part 2. By R. D. OLDHAM, F.R.S. The structure of the Himalayas, and of the Gangotic Plain, as elucidated by Geodetic Observations in India. Rs. 3.

Memoirs of the Geological Survey of India, Palaeontologia Indica, New Series—

Volume VI, Memoir No. 1. By F. R. COWPER REED, Sc.D., F.G.S., Supplementary Memoir on New Ordovician and Silurian Fossils from the Northern Shan States (with plates I to XII). Rs. 3.

Volume III, Memoir No. 2. By S. S. BUCKMAN, F.G.S. The Brachiopoda of the Namyan Beds, Northern Shan States, Burma (with plates I—XXI). Rs. 5.

Volume V, Memoir No. 3. By Prof. HENRI DOUVILLE. Le Crétacé et Léocène du Tibet Central. Rs. 4.

Volume VI, Memoir No. 3 (with plates I to VIII). By F. R. COWPER REED, M.A., Sc.D., F.G.S. Ordovician and Silurian Fossils from Yunnan. Rs. 2.

Records of the Geological Survey of India—

- Volume XLVII, Part 1. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India: General Report of the Geological Survey of India for the year 1915. GUY E. PILGRIM, D.Sc., F.G.S., Offg. Superintendent, Geological Survey of India: Some Newly Discovered Eocene Mammals from Burma. G. DE P. COTTRE, B.A., F.G.S., Assistant Superintendent, Geological Survey of India: Miscellaneous Notes—Chemical Composition of the Red Marl of the Salt Range, Punjab, and corrective Note on the Age of the Tertiary of Java. Re. 1.
- Volume XLVII, Part 2. By L. LEIGH FERMOR, D.Sc., A.R.S.M., F.G.S., Superintendent, Geological Survey of India; and C. S. FOX, B.Sc., M.I.M.E., F.G.S., Assistant Superintendent, Geological Survey of India: The Deccan Trap Flows of Iluga, Chhindwara District, Central Provinces. J. COGGIN BROWN, M.Sc., F.G.S., M.I.M.E., Assistant Superintendent, Geological Survey of India: A Note on the Iron ore deposits of Twinngé, Northern Shan States. Re. 1.
- Volume XLVII, Part 3. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and ERNEST W. VREDENBURG, Superintendent, Geological Survey of India: Obituary: R. C. BURTON. The Mineral Production of India during 1915. Flemingostrea, an eastern group of Upper Cretaceous and Eocene Ostreidae (with plates 17 to 20). Re. 1.
- Volume XLVII, Part 4. By J. COGGIN BROWN, M.Sc., F.G.S., M.I.M.E., Assistant Superintendent, Geological Survey of India, Miss RUTH HOLMES, and H. WALKER, A.R.C.S., Assistant Superintendent, Geological Survey of India: Contributions to the Geology of the Province of Yunnan in Western China. 5. Geology of Parts of the Salween and Mekong Valleys (with plates 21 to 28). A Fossil Wood from Burma (with plate 29). The Visuni and Kkh Khara Aerolites (with plates 30 to 33). Re. 1.
- Volume XLVIII, Part 1. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and G. DE P. COTTRE, B.A., F.G.S., Assistant Superintendent, Geological Survey of India: General Report of the Geological Survey of India for the year 1916. A Revised Classification of the Gondwana System. Re. 1.
- Volume XLVIII, Part 2. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and Lieut. G. E. PILGRIM, D.Sc., I.A.R.O., Assistant Superintendent, Geological Survey of India. The Mineral Production of India during 1916. Preliminary Note on some recent Mammal Collections from the Basal Beds of the Siwaliks. Re. 1.
- Volume XLVIII, Part 3. By L. LEIGH FERMOR, D.Sc., A.R.S.M., F.G.S., Superintendent, Geological Survey of India, J. COGGIN BROWN, M.Sc., M.I.M.E., F.G.S., Assistant Superintendent, Geological Survey of India, and A. M. HERON, B.Sc., F.G.S., Assoc. Inst. C.E., Assistant Superintendent, Geological Survey of India, on the Crystallography and Nomenclature of Hollandite (with plate 1). Geology and Ore Deposits of the Baldwin Mines (with plates 2 to 8). Miscellaneous Notes—Monazite in Mergui and Tavoy. Re. 1.
- Volume XLVIII, Part 4. A. M. HERON, B.Sc., F.G.S., Assoc. Inst. C.E., Assistant Superintendent, Geological Survey of India, and Lieut. R. C. BURTON, B.Sc., F.G.S., I.A.R.O., Assistant Superintendent, Geological Survey of India. The Biana-Lalsot Hills in Eastern Rajputana (with plates 9-12). On the origin of the Laterite of Seoni, Central Provinces (with plate 13). Index. Re. 1.
- Volume XLIX, Part 1. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, J. COGGIN BROWN, M.Sc., M.I.M.E., F.G.S., Assistant Superintendent, Geological Survey of India, and R. FOURTAN. General Report of the Geological Survey of India for the year 1917. The Cassiterite Deposits of Tavoy. Les Echinides des "Bagh Beds" (Plates 1, 2). Re. 1.
- Volume XLIX, Part 2. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and R. D. OLDHAM, F.R.S. The Mineral Production of India during 1917. The Support of the Mountains of Central Asia. Re. 1.
- Volume XLIX, Part 3. By E. S. PINFOLD, B.A., F.G.S., Stud. Inst. M.M., C. S. MIDDLEMISS, C.I.E., F.G.S., and LALA JOTI PARNAD, B.A., F.G.S., Mineral Survey of Jammu and Kashmir State, and Captain MURRAY STUART, I.D.F., D.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. Notes on Structure and Stratigraphy in the North-West Punjab (with plates 4 and 5). Note on the Aquamarine Mines of Daso on the Braldu River, Shigar Valley, Baltistan (with plates 6 to 10). Preliminary Note on the Srimangal Earthquake of July 8th, 1918 (with plates 11 and 12). Re. 1.
- Volume XLIX, Part 4. By C. S. MIDDLEMISS, C.I.E., B.A., F.G.S., F.A.S.B., Superintendent, Mineral Survey of Kashmir, T. H. D. LATOUCHE, M.A., F.G.S., F.A.S.B., and K. HALLOWES, M.A. (Cantab.), F.G.S., A.R.S.M., A. Inst. M.M., Assistant Superintendent, Geological Survey of India. Possible occurrence of Petroleum in Jammu Province: Preliminary Note on the Nar-Budhan Dome, of Kotli Tehsil in the Ponch Valley (with plates 13 to 16). The Submerged Forests at Bomlay (with plates 17 to 19). On some Intra-Trappeans and a Silicified Lava from Hyderabad, S. India. Re. 1.
- Volume L, Part 1. By H. H. HAYDEN, C.S.I., C.I.E., F.R.S., Director, Geological Survey of India. General Report of the Geological Survey of India for the year 1918. Murray Stuart, D.Sc., Assistant Superintendent, Geological Survey of India. The Potash Salts of the Punjab Salt Range and Kohat (with plates 1 to 8). Murray Stuart, D.Sc., Assistant Superintendent, Geological Survey of India. Suggestions regarding the Origin and History of the Rock Salt Deposits of the Punjab and Kohat (with plates 9 to 25). Re. 1.
- Volume L, Part 2. By J. COGGIN BROWN, O.B.E., M.Sc., F.G.S., and A. M. HERON, B.Sc., F.G.S., Assistant Superintendents, Geological Survey of India. Distribution of ores of Tungsten and Tin in Burma (with plates 26 and 27). C. S. MIDDLEMISS, C.I.E., B.A., F.G.S., F.A.S.B., Superintendent, Mineral Survey of Jammu and Kashmir State. On the Inclination of Thrust plane or Recurved Fault, between the Siwalik and Murree Zone of formation, near Kotli, Jammu Province (with plate 28). E. S. PINFOLD, B.A., F.G.S., Two New Fossil Localities in the Garo Hills. G. DE P. COTTRE, B.A., F.G.S., Assistant Superintendent, Geological Survey of India. Report on the Sanni Sulphur Mines (with plate 29). E. J. REER. Miscellaneous Notes—Note on a spiral Impression on Lower Vindhyan Limestone (with plate 30). Re. 1.

PART VI.

Proceedings of the Indian Legislative Council.

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE INDIAN LEGISLATIVE COUNCIL ASSEMBLED UNDER
THE PROVISIONS OF THE GOVERNMENT OF INDIA ACT, 1915.
(5 & 6 Geo. V, Ch. 61.)

The Council met, at the Council Chamber, Viceregal Lodge, Simla, on
Thursday, the 18th September, 1919.

PRESENT :

His Excellency BARON CHELMSFORD, P.C., G.M.S.I., G.M.I.E., G.C.M.G., G.C.B.E.,
Viceroy and Governor General, *presiding*, and 52 Members, of whom 44
were Additional Members.

THE IMPORT AND EXPORT OF GOODS (AMENDMENT) BILL.

The Hon'ble Sir George Barnes :—" My Lord, I move for leave to introduce a Bill to extend the operation of, and otherwise to amend, the Import and Export of Goods Act, 1916. The Bill proposes to extend the operation of this small Act by two years and six months. Under the Sea Customs Act considerable powers already exist, but further powers are needed in order to continue our rationing of food-stuffs and for other purposes. It is accordingly necessary to continue the Import and Export of Goods Act in force a short time longer. I need not say that it is the policy of your Excellency's Government to put an end to all forms of control as soon as we possibly can."

The motion was put and agreed to.

The Hon'ble Sir George Barnes :—" My Lord, I beg to introduce the Bill, and to move that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English."

The motion was put and agreed to.

THE INDEMNITY BILL.

[The President ; Sir William Vincent.]

[18TH SEPTEMBER, 1919.]

11-7 A.M.

The President :—" We now come to the introduction of the Indemnity Bill, and on the introduction of the Bill there is an amendment proposed to be moved by Mr. Chanda. I think it will be convenient if I outline the course which I propose to take with regard to the motion to introduce the Bill and with regard to the amendment. I think it will be the sense of the Council that they would prefer one debate only on the amendment and the motion for introduction of the Bill, but I do not, by suggesting this, propose to exclude Mr. Chanda from the right to reply, which the mover of every amendment would have when he moves his amendment; and therefore I would suggest that we take the motion to introduce the Bill and the amendment as one debate; otherwise I should be under the necessity of keeping Hon'ble Members strictly to the discussion of Mr. Chanda's amendment. I think some Hon'ble Members might wish to discuss the matter more broadly. But of course if I give them that indulgence and do not keep them strictly to the discussion of Mr. Chanda's amendment, it must be on the understanding that there is only one debate on the motion to introduce the Bill and on Mr. Chanda's amendment. I think Mr. Chanda will probably agree to that."

THE INDEMNITY BILL.

11-10 A.M.

The Hon'ble Sir William Vincent :—" My Lord, I move for leave to introduce a Bill to indemnify officers of Government and other persons in respect of certain acts done under martial law, and to provide for other matters in connection therewith. This measure, my Lord, has been the subject of so much discussion both in the Press and by other competent authorities, that I think I ought to set out to the Council in some detail the reasons that have led the Government to introduce the Bill at this moment and to explain *seriatim* the effect of, at any rate, the more important clauses of the Bill; and I will ask Hon'ble Members to listen to me as carefully as they can, to follow in particular the detailed statement of the effect of the clauses, to view this matter without any kind of bias and to get rid of any misapprehension as to the intentions of Government or as to the meaning of the Act, which may have been created by writings or speeches outside this Council."

" My Lord, wherever martial law is declared, as it was recently in the Punjab, it inevitably follows that speedy and decisive action has to be taken by the executive officers of Government for the restoration of order. Not only does this responsibility lie directly on the supreme military commander, but also on those who are subordinate to him; that is, he gives orders which he thinks necessary, and it is their bounden duty to carry out those orders. It follows that frequently action which is just and proper, though not necessarily legal, is taken by these authorities."

" They cannot possibly wait in such circumstances to examine the law and see whether what they propose to do is strictly legal or not; delay at such a time is fatal. The authorities and the officers concerned have to act at once. Indeed, the very meaning of martial law is, that it confers powers to maintain order at any cost that may be necessary of life or property. That is the essence, as I understand it, of martial law. Such conduct will in some cases necessarily involve an infringement of the personal rights of individuals, either of their liberty or their rights in regard to property; and when martial law expires, an Indemnity Act of some character is the inevitable consequence. I think members in this Council will realise that if such an Indemnity Act is not passed, no officer charged with the very irksome and responsible duty of restoring order will ever act with the confidence that is really essential for the effective handling of the situation. If he has to wait, to hesitate, to examine the law, to consult legal authorities here and there, the time for action may be gone, and the

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Sir William Vincent.]

very mischief he seeks to stop develop to a dangerous degree. That such an Indemnity Act is the normal consequence of any period of martial law is, I believe, accepted by all constitutional writers. I do not wish to weary the Council by citations from a number of these, but I will content myself with one :—

‘ If at a period of national danger a breach of the law is demanded, if not by absolute necessity yet by stress of political expediency, the law breaker whether he be a General or other servant of the Crown who acts *bonâ fide* solely with a view to public interest may confidently count on protection by an Act of Indemnity

‘ Statutes of this description have been invariably, or almost invariably, passed after the determination of a period of civil war or disturbance and the very object is to protect officers and others who in the interests of their country have in time of common danger pursued an illegal course of conduct.’

These quotations are from one of the greatest writers on Constitutional Law, Dicey. In fact, we know that whenever there has been an insurrection or civil war, or invasion by a foreign power, Acts of this character have invariably been passed. There was one in England after the insurrection of 1715, again after 1745; we had one in this country after 1857, and more than one instance of such Acts is to be found in the various Colonial Legislatures, including the Legislature of South Africa. Further than this, when a military officer is acting under the stress of such circumstances, in a crisis of great magnitude, it is essential that he must have behind him some sanction to enforce his orders; reference to ordinary Courts in such cases is impracticable. It would involve delay which would be fatal to the very object he has in view. Consequently summary measures, often stern and always of a very speedy character, are necessary if order is to be restored. There are some who think that these summary orders necessarily connote injustice and an undue degree of harshness, but it is not correct to think that this is either the practice or the intention of many commanders. I should like to cite from the Martial Law Regulations passed in Lahore on this point. This is an order by Col. Frank Johnson, a somewhat well-known name.

‘ In order to prevent the occurrence of regrettable incidents it must be clearly understood that the institution of summary law neither necessitates nor justifies the committal of excesses, either in the maintenance of order or in enforcing obedience of martial regulations or the infliction of punishment. It cannot be too clearly impressed upon all ranks that temporary supersession of the ordinary process of civil law by the introduction of summary law does not mean that justice ceases to be administered; on the contrary, the suspension of the usual safeguards make it doubly imperative that all concerned should bear in mind that it is up to them to see that justice and not irresponsible violence is administered.’

“ It is however essential that the military authorities in such cases should have power to come to swift decisions of a most important character; power to take prompt action on all matters affecting the State; power to punish summarily and effectively those who endanger the peace.

“ My Lord, it may be said that martial law was not necessary in the Punjab and that the Government made a mistake in proclaiming it. I do not seek to argue that point now. I believe that any such course would be unfair to those concerned, primarily or indirectly concerned, until the evidence of the facts has been recorded by the Committee of Inquiry. The decision on that matter must rest with the Committee in a great measure and after their report has been received, with other authorities. But, irrespective of this question, the position of our officers must be protected. I do not know if I make myself clear on that point. What I wish to say is this, whether martial law was necessary or not, our officers, our subordinate officers were bound to carry out their duties, and to give effect to the orders given them and they cannot be penalised on that account. I think the case has been very clearly put on this point by a writer in, I think, the ‘ Civil and Military Gazette ’ recently. He called himself ‘ An Indian Student of constitutional law ’ or by some such title. I commend that article to the consideration of Members of this Council.

THE INDEMNITY BILL.

[Sir William Vincent.]

[18TH SEPTEMBER, 1919.]

It appears to me to put the case for an Indemnifying Act both impartially and fairly.

"So far I have been dealing with the part of this Bill which deals with indemnifying officers of Government. The second part deals with the validating to a certain extent of a number of sentences which have been passed. I shall explain this in detail later, but it is clear, as I said before, that where military officers are given power to issue certain orders, it is essential that they should also have authority to enforce those orders. There must be some sanction behind them, some power of enforcing order speedily and effectively and in many cases—in fact I believe this is the normal course—summary Courts are appointed to administer justice in such circumstances. They do not deal normally with all criminal cases, but only with cases arising out of a breach of military regulations or cases connected with the disturbances, and I believe I am right, so far as the Punjab is concerned, in saying that the duties of the summary Courts were confined to this class of cases; but I speak subject to correction on this matter. It is sometimes supposed that these summary Courts, however, dealt only with petty offences, such as breaches of military law regulations. That is an entirely incorrect assumption, and if Hon'ble Members will see the Statement that, I think, was laid on the table here recently, if not I will have it so placed, they will see that the summary Courts dealt with many offences of great gravity, such as arson, theft, rioting, breaches of the Railway Act—and they are really very serious—and offences under the Telegraph Act, which really meant the endangering of all communications both between the Local Government and their officers and between the Government of India and the Local Government. Many of these men are now under confinement, and I want to make it clear to the Council that, unless their confinement is now ratified in some manner, then the continued detention of these men in jail is illegal. In fact from the date on which martial law expired our only justification for retaining these men in custody was our intention to introduce an Act of this character at the earliest opportunity.

"My Lord, I will now, if I may, proceed to explain the Bill clause by clause. I will not deal with clause 1, which is of no great importance, but proceed at once to clause 2. That clause indemnifies any officer of Government, whether civil or military, from any action, civil or criminal, in respect of any matter or thing done for the purpose of maintaining or restoring order. But I want Hon'ble Members to read and fully consider the effect of the proviso to that clause 'provided that such officer or person has acted in good faith and in a reasonable belief that his action was necessary for the said purposes.' Those are really the governing words of the clause. I think I have already said, or at any rate I say now, that this Bill will in no way forestall the inquiry by the Committee, and I will proceed to justify that statement. I do not think that any member of this Council will for a moment suppose that the Committee of Inquiry, which assesses the blame for these disturbances, will recommend any form of punishment for any officer of Government who has acted *bona fide* and in a reasonable belief that what he did was necessary. Further, in any case the report of the Committee is not affected by this Bill. This Bill protects officers against proceedings in the Courts of justice. The report of this Committee, whatever be its value, will in no sense be evidence for the purposes of any such case; that is a matter which can only be decided on evidence in the Courts. The Government of India have decided, for the satisfaction of their own conscience and to meet the public demand, to appoint a Committee to inquire into these disturbances, and their action on the report of that Committee will not be limited or barred by this Act in any way. This Bill simply deals with suits and legal proceedings, and really all that it seeks to do is to protect from legal proceedings *bona fide* action taken with a reasonable belief that it was necessary to suppress disorder, and not any action taken *mala fide* or without good reason. We make no attempt by this Bill at any rate to protect officers who have been guilty of excesses which cannot be justified by the terms of this proviso. Now I myself shall be much surprised and disappointed if the

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Sir William Vincent.]

Council will not give protection to officers for actions of this character, actions which are morally right though they may be legally wrong, that is, actions for which no strict legal justification can be made out. If this Council says that in a time of this character when the country was in great disorder,—and I put it very mildly,—officers who acting on the understanding that martial law had been proclaimed by an authority which is superior to them, over whose actions they have no control, if officers acting on that assumption and acting *bona fide* and perfectly reasonably are not to be protected by Government, then the future prospects of Government officers is very serious. How can any member of this Council expect an officer to act confidently, firmly and decisively if he knows that this Legislative Council and the Government will repudiate his action at the first opportunity? Is he not entitled to come down here and say ‘I have done what I was told. I have acted perfectly reasonably, I have acted fairly, I have acted *bona fide*; now give me that protection which I am entitled to by all constitutional practice.’ My Lord, in a Resolution published by this Government some time ago, I think during the period of the disturbances, we solemnly promised that we would afford all those charged with the onerous duty of restoring order our full countenance and support, and it is in fulfilment of that promise that I now come to this Council and ask Hon’ble Members to ratify what we then promised, believing that that is a just and honourable course which must commend itself to all Members here. As I said before, I conceive it to be impossible that the Committee should censure any one who is not guilty, who has acted *bona fide* and in a reasonable belief, that his action was necessary, and the report of the Committee will not and cannot affect the liability of officers of Government in the Courts of law. That is the reason, my Lord, why I say that this Bill, which merely seeks to protect those who have done their duty, in no way forestalls the report of inquiry by this Committee.

“I now come on to section 3, and this is a section which, I am afraid, I shall have to explain at some length, because there exists considerable misapprehension about it. Section 3 says :

‘For the purposes of section 2 a certificate of a Secretary to Government that any act was done under the orders of an officer of Government shall be conclusive proof thereof, and all action taken for the aforesaid purposes shall be deemed to have been taken in good faith and in a reasonable belief that it was necessary therefor unless the contrary is proved.’

“Now a certificate of a Secretary to Government only proves, and the Hon’ble the Law Member will bear me out here, that the act was done under the orders of an officer of Government. Many private individuals during these recent disturbances have assisted Government in various ways, many indeed have been of the greatest assistance to the authorities; and all that this portion of the clause says is, that if any man acted under the orders of an officer of Government and can get a certificate to that effect, thus far and no further is that certificate conclusive proof of that fact. The question of *bona fides*, as I understand the Bill, is a matter for the Court entirely. That is, a man will go to the Court and it will be for the Court to say, whether his action was *bona fide* and reasonable, and what fairer proposition could be put to this Council? When a man goes down the Court shall have power to say, ‘yes, you did so and so, whether it was reasonable or not, that shall be judged by one of the Government judges acting in his judicial capacity.’ My Lord, if there is any cause of complaint in this matter, it might well be on the side of Government officers, that the Bill does not go far enough, and if Hon’ble Members will look to the Act of 1860, which was passed after the Mutiny, they will see that the provisions of that Act went very much further than this, and that when a Secretary to Government there ratified the conduct of an officer, this ratification absolved the man altogether from any possibility of a suit; that is the kind of certificate which apparently some Hon’ble Members think that this Bill provides. It does not. If this Bill had come on for consideration after the Commission of Inquiry, after the whole of these matters had been investi-

THE INDEMNITY BILL.

[*Sir William Vincent.*]

[18TH SEPTEMBER, 1919.]

gated, it might have been possible to frame it in that way. It is true, however, that this clause does go thus far, that it provides that 'all action taken for the aforesaid purposes,' that is for restoring order, 'shall be deemed to have been taken in good faith and in a reasonable belief that it was necessary therefor unless the contrary is proved.'

"My Lord, is a Government officer to be denied even that protection, that he shall be presumed to have acted in good faith, that he shall be presumed to be innocent until he is proved to be guilty! Is that much to ask from this Council? Is that a reasonable request, or is it not? I believe also that a clause of this kind is a normal condition—I speak again subject to correction—of many Indemnity Bills of this character.

"My Lord, I now pass on to clause 4, which sanctions the retention in custody of persons convicted by summary Courts. I have explained to this Council that many of these men have been convicted of serious offences; that they are in reality dangerous criminals whom it would be most unsafe to release wholesale upon the countryside. I believe—I have been told this by the Punjab Government also—that any such release would not be compatible with the public safety. But I ask Members of Council to read this clause again with clause 6. Clause 4 says: that every person confined under or by virtue of a sentence passed by a Court, or any other officer acting in a judicial capacity shall be deemed to have been lawfully confined and shall continue so until discharged by lawful order or released by order of the Governor General in Council. Clause 6, however, again limits that and restricts the operation of that clause. First of all it says:—

'Nothing in this Act shall apply to any sentence passed or punishment inflicted by or under the orders of any Commission appointed under the Martial Law Ordinance, 1919.'

"Members of this Council are aware that various persons who have been convicted by the Commissioners appointed under this Ordinance have appealed to the Privy Council. It would obviously be improper for us to attempt in any way by an Act now to invalidate the actions of those Commissioners. The sentences depend for their validity upon Ordinances already passed. I do not propose to discuss the question of these Ordinances here for one moment, nor would it be relevant to this discussion. All I wish to point out is, that this Bill in no way affects sentences by Commissioners appointed under the Ordinances. Then there is a second limitation, that the Bill in no way prejudices the right of any person who thinks he has been dealt with unjustly to appeal to the Privy Council from sentences of these summary Courts. There is no intention, even if there were the power, of which there may be some doubt, of interfering with that right. Any man who has been convicted by one of these summary Courts is at liberty to go and seek for leave to appeal to the Privy Council just as if this Bill had not been passed. I tried to make that clear because it has been suggested that in some way the action of this Government, in introducing this Bill, is intended to prejudice the authority and power of the Judicial Committee. It is quite clear to my mind that it is not so. It has been our deliberate intention to make that abundantly manifest to every reasonable man. At the same time, my Lord, I do admit that there are many men in this country, perfectly loyal citizens, men of weight and authority, who have grave apprehensions and felt great uneasiness as to many of these convictions. We believe that many of those apprehensions are ill-founded, but still there is no getting over the fact that there is this sense of uneasiness as to the correctness of all these convictions. That apprehension has been alleviated to a considerable extent, but not removed, by the admitted clemency of His Honour the Lieutenant-Governor and the debate on the Resolution to appoint a Committee to investigate these occurrences indicated—I think, on the part of many Members of this Council, Members not hostile to this Government, not unreasonably opposed to everything we do, but Members who are ready to co-operate with Government in this matter, in all matters,

THE INDEMNITY BILL.

[15TH SEPTEMBER, 1919.]

[Sir William Vincent.]

and who really seek to do what is right—uneasiness in the mind of many Members of this Council and a feeling that some of these sentences had not been examined with sufficient care; and there was further indication of that feeling in the proposal made for revising the terms of reference to the Committee. I think Hon'ble Members will remember the various suggestions. Well, to meet these apprehensions the Government of India have decided to have all these cases examined and revised by two Judges of the High Court, one being an Indian and one being a European, in order that they may recommend to His Excellency the Viceroy or the Governor General in Council, as the case may be, through the Local Government, such action as they think fit, either in the direction of remitting or commuting sentences, or any other course they may think desirable, having regard to the circumstances of the case. My Lord, it is the desire of the Government of India that full justice should be done in this matter. They are as anxious as any Member of this Council that innocent men should not be detained in jail. One point, however, I have not made clear, and that is, that our intention is that only the cases of those men who remain under sentence should normally be inquired into by these Judges, though they will also deal with any other cases which may specifically be referred to them by His Excellency or the Government of India.

"Now, I do hope that this will meet the approval of Council and indicate the desire of Government to prevent injustice. I believe that such a Tribunal as we propose, being composed of judicial officers, will be far more effective for the purpose of seeing that justice is done than any Committee of Inquiry which may be appointed to investigate the general occurrences. For, not only will the officers have the advantage of judicial experience, but, by reason of their being on the spot, they can be not to work immediately and directly. So that I hope the matter will be dealt with with reasonable expedition.

"There is only one other clause in the Bill, clause 5, to which I need draw attention, and that provides for the payment of compensation where the property of any person has been commandeered by the military authorities. Members of this Council are aware that when martial law is declared and when the military authorities take over control, they frequently have to, and frequently do, commandeer property for their own use, if such action is in the public interests necessary. All that this clause proposes is, that the Government should pay compensation for such commandeering and provides the means by which the compensation may be assessed.

"My Lord, summarising what I have said, I want to make one or two points quite clear. First, this Bill is the inevitable consequence of martial law. Whether martial law was necessary or not, we must at least protect our officers. The Bill will not in any way forestall the decision of the Committee of Inquiry. The indemnity of officers is limited, and reasonably limited, to those who have acted *bona fide*, the question of *bona fides* will be decided by the Courts, and the validating clause, to which I have referred already, does not affect either any case tried by the Commissions or any right of appeal to the Privy Council. Further, in order to prevent any injustice, and, so far as we are able, to enable us to exercise clemency, so far as is compatible with the public safety, we will have the cases of the men convicted by these summary Courts and still in jail revised by two of the best judicial authorities that we can procure. My Lord, I contend that this is a reasonable Bill, a Bill of the most moderate character, and that it only affords such protection as it is essential for us to give to our officers, which they have a right to demand of us and which it is our paramount duty to give them. I may be asked, why the Bill is introduced at this season. Indeed, I promised the Council to explain this, and, having regard to what your Excellency said, if I am only to speak once both on the Bill and the amendment, save for my right of reply, I ought to explain now why the Bill is introduced at the present juncture. The reason is very simple. If it is not passed now, if it is not brought into

THE INDEMNITY BILL.

[Sir William Vincent.]

[18TH SEPTEMBER, 1919.]

effect now, then our officers, officers who, *ex hypothesi*, have behaved fairly and properly, will be left liable to suits at the instigation of any malicious person. Is that reasonable, is that fair? I may be told that no suits will be brought in the immediate future. My Lord, suits might be brought, might even be decreed against them before any Bill was brought forward in this Council, not against men who have acted *mala fide*, but against those who have merely done their duty with the greatest care and in the most reasonable manner. I say to this Council that that is a position to which no reasonable man here can ask us to submit our officers. Many of the men against whom suits might be brought, against whom action might be taken, may have gone from this country. Should they be left with this sword of Damocles hanging over them although they have done nothing to deserve it? Is that fair? Then, there is another point. If this Council does not validate the detention in jail of these criminals, to whom I referred just now, then we shall have at once to release the whole number of these dangerous offenders on the world. I have told you that we have consulted the Punjab Government on this matter, and they were definitely of opinion that such a release was not compatible with the public safety. The men are not convicted of minor petty offences at all; they are men who were engaged in the burning and looting of stations, in the attacks on railway lines and in the cutting of telegraph wires, guilty of theft and very many of them of arson. They are a class of men who cannot be released with safety at present, and I submit that this Council will be well advised if they do not ask us to release them. My Lord, looking round the Council here, I see many members, who have large vested interests in the country. I should like to know how long they would retain their property, their wealth or even their lives if the forces of disorder were once to break loose in this country. I ask the Members of this Council to look at the question in that light. Is it not their bounden duty to afford protection to those who have undertaken terrible responsibilities in times of difficulty and done their duty *bona fide* and honestly? That is the question that I put to each Member here. I want them to visualise what the position of an officer of Government in such circumstances is. Take the case of a young military officer. He does not know whether martial law has been rightly or wrongly proclaimed. His one object is to perform his duty, to do it fairly and honestly. He is told that the country is in disorder and that his duty is to suppress it. He tries in a reasonable and fair way to carry out what he believes to be his duty, and then, when he comes to this Council for protection, my Lord, are we to say, 'No, we cannot give it to you until an inquiry has taken place', or 'Postpone it till some other day.' I do hope and trust that this Council will not endorse any such monstrous proposition. It is often assumed that it is only Europeans and Government that are interested in the maintenance of order. Hon'ble Members know that that is not so. Once rioting breaks out, who are the people who suffer? At least some Hon'ble Members of this Council know that they would be the first—their whole existence depends on the maintenance of law and order in this country. And how can they expect, how can any Member of this Council expect, military officers of Government to do their duty unless they receive reasonable support? A military officer is in a position of peculiar difficulty. If he does not suppress disorders, he is liable to censure, blame and punishment at the hands of his superior officers. If he does not take adequate measures, he may be removed from his office. Why, even civil officers in England have been held to blame for action of that kind. Take the case of the Mayor of Bristol. After the Bristol riots he was accused of failing to do his duty in not having taken adequate measures to quell the disorders and he was prosecuted. But, apart from his personal responsibility, every officer of Government in this country is responsible under the system of administration for the lives and property of many hundreds and thousands living under his charge. Let each Member visualise to himself what his position would be faced with these difficulties, often with insufficient forces at his disposal to cope with disorders, doing what he thinks to be his duty,

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Sir William Vincent ; Mr. Kamini Kumar Chanda ; the President.]

acting according as God gives him to see the right, and then being penalised and held liable to prosecution and persecution afterwards for no reason whatsoever.

“ My Lord, I have spoken with some heat because I want to make it plain that I conceive that refusal to grant the limited protection which we ask for our officers would be a gross injustice to those whom we have solemnly undertaken to protect.

“ My Lord, I have attempted throughout my speech to say nothing that can in any way prejudice the result of the inquiry by the Commission. I have dealt solely with principles, not with particular actions. Whether any particular action was reprehensible, whether it was right or whether it was wrong, is not a matter which comes within the scope of this Bill. That is a matter either for the Committee of Inquiry and subsequent action by Government or for decision by the Courts. I have endeavoured throughout my speech to avoid saying anything which may prejudice the inquiry. I have also endeavoured, and I hope successfully, to avoid saying anything which might promote racial ill-feeling, and I would ask Hon'ble Members who follow me, so far as they are able, to follow the same course, remembering always how far the deliberate promotion of racial feeling—no, I will cancel that word ‘deliberate,’ for I do not wish to excite any bitterness myself—I will say ill-feeling has been responsible for the deplorable loss of life, and for the terrible happenings in this country. I would ask each Member of this Council, in speaking to this motion, to realise that any intemperate language of his which may revive or promote such ill-feeling is a great danger, and to remember that the man who uses it is rendering a real disservice to this country and is pursuing a course of conduct the dangers of which, in present circumstances, it is difficult to overestimate.”

The Hon'ble Mr. Kamini Kumar Chanda :—“ My Lord, may I respectfully inquire of the Hon'ble the Home Member if this committee of judges will go into the question of conviction also and not only of the sentences ? ”

The President :—“ I certainly did not catch what the Hon'ble Member was saying.”

The Hon'ble Mr. Kamini Kumar Chanda :—“ I beg to inquire, my Lord, whether this committee

The President :—“ More slowly, please.”

The Hon'ble Mr. Kamini Kumar Chanda :—“ Whether this committee of judges will go into the question of convictions or only of sentences ? ”

The Hon'ble Sir William Vincent :—“ If it will make any difference to the Hon'ble Member's amendment, I shall be very glad to give this information.”

The Hon'ble Mr. Kamini Kumar Chanda :—“ My Lord, I beg to move this amendment which stands in my name and it reads as follows :—

“ That the consideration of the motion do stand over till after the submission of the report of the Committee of Inquiry into the Punjab affairs.”

“ My Lord, I wish at the outset to assure your Excellency and the Council that I have not taken upon myself to move this amendment with a light heart. I have listened to the very impressive and very weighty utterance of the Hon'ble the Home Member, and I am aware that your Excellency's Government

THE INDEMNITY BILL.

[*Mr. Kamini Kumar Chanda.*]

[18TH SEPTEMBER, 1919.]

is convinced of the imperative necessity, according to their information, of this legislation; and if I move this amendment, not to oppose the passing of this Bill, but for the purpose of postponing its consideration now, I can assure the Council that it is due to an impelling sense of duty. I have given the matter my most serious and, I may add, anxious consideration, and I felt it to be my duty to place this amendment before the Council. In doing so, regard being had to the considerations which the Hon'ble the Home Member has so impressively and eloquently pleaded for, in proposing my amendment in view of the circumstances, I propose to avoid, as far as possible, all debatable matters. Of course a certain amount of controversy and dispute is inevitable; I shall try to minimise it. There are so many matters to speak about and there is no time limit, and there might be a temptation to go on for a long time, but, my Lord, I shall try to be very brief; and for this purpose I do not propose to go into any individual cases about which it is charged that the administration of martial law has been guilty of excesses. There is one other remark which I wish to submit before I go into my motion. My Lord, it is a matter of great regret to us, I consider it almost as an irony of fate, that this painful episode in the administration of the Punjab Government should have to be discussed after His Honour Sir Edward Maclagan has assumed charge of the province. We know that in the short time he has been in charge of the province he has endeared himself not only to the province but to the country as a whole. It is well-known that every one heaved a sigh of relief when His Honour was able to take charge of the province. I am sure His Honour will understand that in bringing this matter at this stage, after His Honour has been in charge of the province, it is only from a painful sense of duty that we do so.

"Now, coming to the amendment, I may say at once that I agree to the general proposition which has been stated by the Hon'ble the Home Member, and which is also mentioned in the Statement of Objects and Reasons of the Bill, namely, that after a period of martial law such legislation is inevitable. In fact, I think the Hon'ble Member might go further and say with Professor Dicey whom he has quoted that in England such legislation is undertaken before the suspension of the Habeas Corpus Acts runs out. That is so in England; but, my Lord, my submission is this that the cases are not really analogous; the conditions obtaining in England are not the same as in this country. In England, it is well-known that it is the British Parliament with whom rests the question of the suspension of the Habeas Corpus Acts. Here under the Statute, it is your Excellency in Council who have to declare martial law. Therefore, the necessity which might exist in England for an Act of this kind does not necessarily exist in this country. Now, that apart, if we inquire as to why it is usual that in England suspensions of the Habeas Corpus Acts are always as a matter of course followed by a Validating Act, we shall see that that is because there has been up to now no case where the question of the necessity of the suspension of the Habeas Corpus Acts has been raised. It has always been accepted that there was clear necessity. Where there is undisputed necessity for the declaration of martial law or suspension of the Habeas Corpus Acts, of course the Validating or Indemnity Bill will follow as a matter of course. But, my Lord, here the case is different. Here it has been denied, it has been disputed that there was any necessity for this declaration of martial law. The public have complained that martial law was declared on insufficient, inadequate grounds; that there are grave doubts whether under the existing conditions it could be legally done, and that there have been excesses under that declaration. In view of all this that differentiates the case of India from that of England, I say, my Lord, that the question as to why while I do admit that a validating or indemnity Bill follows as a matter of course the declaration of martial law or suspension of the Habeas Corpus Acts, I oppose this motion or rather move that this motion do stand over does not arise. If the question can arise, my Lord, I submit the answer has been given to this by the Government themselves. I do not think there

THE INDEMNITY BILL.

[13TH SEPTEMBER, 1919.]

[*Mr. Kamini Kumar Chanda.*]

has been any case anywhere where there has been an inquiry about the necessity of martial law. I do not think there has been any case in India where a Committee of Inquiry was appointed to discuss and to investigate the necessity or legality of a declaration of martial law, but here the question was raised and the Government of India accepted straightaway the challenge as it were, and appointed a Committee of Inquiry to go into these matters. I submit, my Lord, that that has made all the difference. No doubt the composition of the Committee and the terms of reference do not fully satisfy the public demand; but that is another matter. Now, my Lord, what are the scope and the functions of this Committee of Inquiry? We learned from your Excellency's speech on the 3rd that the Committee of Inquiry was to inquire into and report about, among other things, the measures taken to cope with the disorders in the Punjab. What were the measures that were adopted in the Punjab? It is no other than the declaration of martial law. The question that arises is, whether there was any necessity for that declaration, whether it was proper to declare martial law, whether under the conditions obtaining at the time there was legal power to declare martial law, and whether it has been carried out properly. These are questions, my Lord, that this Committee will have to decide. Now what is the reason, the justice, the necessity for this Bill? If we look to the Preamble of the Bill we see it is stated:—

'Whereas owing to the recent disorders in certain districts in the Punjab and in other parts of India, it has been necessary for the purpose of maintaining or restoring order to resort to martial law'.

'Resort to martial law.' These, my Lord, are the very matters which this Committee of Inquiry will have to go into and report on; that is the basis of this Bill. I submit that that can hardly be fair. I submit that having referred this matter for inquiry by this Committee, the Government of India have divested themselves for the moment of the power of going into this matter. If you go on with this Bill then what is there remaining for the Committee to go into? What will remain, if you now assume that there was necessity for martial law, what would remain for the Committee to inquire into? Whether there was any necessity for martial law? But we are told by the passing of this Bill that there was a necessity, for the declaration of martial law. This is surely prejudging the question, it is tying the hands of the Committee, it is not fair. My submission is that on this ground you are prejudging the question. The Committee are in possession of the seizin as lawyers call it of this matter. This Council has no jurisdiction to go into the matter at this stage. Of course as the matter has been referred to the Committee, it would not be right for the Council now to go into the question, as to whether the declaration was necessary or legal, or whether it was properly carried out. My submission is this that, in view of this and in view of the complaint that martial law was improperly and illegally declared, I think we ought to state the case on which this demand is made. My Lord, what is the law under which this martial law has been declared? It is the Bengal State Offences Regulation, X of 1804. What are the conditions under which this Regulation can be enforced? The Preamble says that there are two conditions, in the first place, it must appear that the British Government is at war with any other power, or that there was a state of open rebellion in the country. These are the two conditions which give jurisdiction to the Government to enforce this Regulation in any place it wishes. Nobody will contend for a moment that at the time this declaration was made the British Government was at war with any other power. Then we have to fall back upon the second condition, namely, that there was a state of open rebellion in the country. On what is this condition based? What is the proof that there was open rebellion in the country at the time? My Lord, it is well known that after the Rowlatt Bill was passed in the teeth of opposition from the Indian members of this Council and the country, Mr. Gandhi, as a last resort, declared Satyagraha or passive resistance. We need not go into the question whether it was wise or not; it is a fact that he did so and the 6th of April was appointed as the Satyagraha day

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Mr. Kamini Kumar Chanda.]

to be observed in the country as a day of humiliation and prayer on which all business was to be suspended. We know that that was done in the country and that there was no disturbance anywhere. Now what about the Punjab? Was there any response in the Punjab to this appeal of Mr. Gandhi's? Now before going into the question I may tell the Council that on the 7th April His Honour the Lieutenant-Governor, Sir Michael O'Dwyer, held a Durbar and delivered a speech in the course of which he said 'From the Prince's palace down to the peasant's hut I find I can meet Punjabis of whatever class or condition without any suspicion or mischief'. That was on the 7th April. Surely this language could not have been used by the ruler of the Province if there was anything like rebellion there. It is inconceivable that such language could have been employed if there was anything indicating in the remotest degree that there was rebellion in the province, not only at that time but even a week after when martial law was declared. But what happened when this appeal of Mr. Gandhi was published, how was it received in the province? There is an account published in the 'Civil and Military Gazette', a newspaper which is not as a rule friendly to Indian aspirations and public movements. It is there stated that between 1 and 2 P.M., crowds had collected in the city and moved towards the Town hall where a meeting took place to protest against the Rowlatt Bills. This meeting was held between 5 and 6 P.M., the proceedings were orderly and no disturbances occurred in the city or outside the hall. Then what took place at Lahore on the 6th of April?

"We find, moreover, my Lord, that it was not only at Lahore, but at Ferozepore, Gurdaspore, Hissar, Jullundur, Mooltan, Muzzaferpore, Rohtak, Sialkot and Simla, demonstrations and *hartals* were observed but there were no disturbances. Is that the sign of open rebellion which somebody seems to have discovered in the Punjab? I think, my Lord, in a sense it might be said to be rebellion. We know that Sir Michael O'Dwyer was in the habit, both in season and out of season, somewhat aggressively, of priding himself that his province was the quietest, the most loyal and the most well-behaved of all the provinces in India and from which he was able to drive out the disease known as political agitation. Now these demonstrations in their intensity and widespread character must have shocked His Honour, awakened to a grim and unpalatable reality and forced the realisation to him most unwelcome, that his province was going to be infected, converted to the evil ways of the other and vicious provinces. We get an insight, we get some glimpse into his inner thoughts, if we turn to the speech of His Honour which he delivered at the Durbar the following morning when he said this: 'that the British Government which has crushed foreign foes and quelled internal rebellion could afford to despise political agitators.' Now what was the occasion for this remark, my Lord? I say that explains the psychology of the subsequent orders and proceedings. Well, I might point out that there were not only these demonstrations in utter defiance of his wishes, almost as a challenge to him, but what is more, the horror of horrors, there was at the time going to grow up what is called the Hindu-Moslem fraternisation. We read in the 'Civil and Military Gazette' on the 9th April: 'At Lahore there was a procession held accompanied by extraordinary scenes of Hindu-Moslem fraternisation. In Amritsar, the procession showed similar scenes of Hindu-Moslem fraternisation, speeches were delivered and votes of sympathy were passed with the Delhi martyrs.' It is exceedingly significant that that was placed as a piece of evidence in a case before the Martial Law Courts as evidence of rebellion. My Lord, this state of things, these demonstrations and *hartals*, and these scenes of Hindu-Moslem fraternization certainly were very uncomfortable, and it was felt that something must be done, some steps should be taken to nip in the bud the incipient rebellion in the Province, and we find that the first overt act in this campaign against political agitation was that on that very night Mr. Gandhi who was then on his way to Delhi on a peaceful

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Mr. Kamini Kumar Chanda.]

mission was obstructed under the orders of His Honour the Lieutenant Governor at a small station called Kosi, which is in the Punjab territory, and turned back and was escorted to Mr. Gandhi's province, Bombay. Well, that was wired all over the country as the arrest of Mr. Gandhi. What was the result? We know there have been very unfortunate happenings throughout the country. Now, my Lord, it is usual for the Anglo-Indian papers to put down these happenings to agitation against the Rowlatt Act. My submission is, my Lord, that the Rowlatt Act can no more be held responsible for these happenings than the action of Sir Michael O'Dwyer, which was described by Mr. Kali Nath Roy as an act of blazing indiscretion for which he was sent to jail for three years. Well, my Lord, let us see what happened in the Punjab. I say the news of the arrest of Mr. Gandhi was received at Lahore on the afternoon of the 10th. Let us see what happened there. But there is a difficulty here to find out what happened. On the following morning, the 11th, Sir Michael O'Dwyer acting under the Defence of India Rules, passed an order muzzling the Indian press, prohibiting the publication of any account that took place on the previous day. Now why this anxiety to keep the outside world in the dark as to the happenings at Lahore on the 10th? Therefore, the public outside Lahore, we had to rely on the Government Communiques and the accounts given in the Anglo-Indian press, for the events that took place at Lahore and other places on the 10th. Of course the Anglo-Indian press were evidently able to be above the orders of Government with regard to the publication of accounts of any events. The Government Communique is this: This is dated the 12th April:

'Lahore. The shops in the city and its vicinity were closed and a noisy crowd endeavoured to force its way towards the Civil Lines. This crowd was met with a small police detachment near the High Court, and on its refusal to abandon its progress was dispersed, under the orders of the District Magistrate by musket fire. At a later hour in the evening, the police were again compelled to fire on a disorderly crowd which attacked them with missiles in the vicinity of the Lahori Gate. Two persons were killed in the day's firing and about four others wounded.'

These are the words of the Government Communique, and the account that was published in the 'Civil and Military Gazette' was this:—

'A crowd collected in the bazar which rapidly grew and started coming down Anarkali. Then the mob which had assumed a very threatening attitude proceeded down the Mall. By this time the police were out in force, and a party of them stopped the mob. The Deputy Commissioner then arrived, and seeing the seriousness of the situation and the impossibility of stopping the mob by any other means, gave the order to fire. This produced some result, for the crowd went back and were forced up Anarkali Bazaar. Then they formed at the top of the Bazaar where they had to be dispersed again by fire. . . . The arrangements throughout were in the hands of the civil authorities as, thanks to their immediate and effective action, the necessity did not arise to ask the military to take charge.'

"But the 'Pioneer' went one better and in its account on the 13th it says:—

'The European residents, already disturbed by the news from Amritsar, had to face a serious situation created by an infuriated mob which was bent on mischief. Large forces of military and the police promptly dealt with the outbreak, and on more than one occasion had to fire on the mobs. Strong action resulted in the restoration of order and the city is now being patrolled. . . . Buckshot cartridges were used.'

"But on the following day it says:—

'Buckshot was supplied to the police, except for 5 rounds of ball issued by mistake.'

"On the 20th there was another Government Communique to contradict what appeared in the 'Leader' about this, and this is what it said:—

'The facts are that despite orders previously promulgated forbidding processions, a large crowd, probably of some thousands, marched from the city up the Mall, forcing back a small body of police which tried to bar their progress. The crowd consisted of city riff-raff and students,

THE INDEMNITY BILL.

[Mr. Kamini Kumar Chanda.]

[18TH SEPTEMBER, 1919.]

but the latter were grown up and not boys. The crowd was making its way to the civil station and would undoubtedly have committed excesses such as marked the Amritsar occurrences, had it been allowed access to the European quarters.

"These are all the accounts published by Government and the Anglo-Indian papers of the occurrences in Lahore on the 10th. What do they say? Never mind for the present that there are serious contradictions. Take the account substantially as it stands. I ought to mention, my Lord, that there is another fact. The 'Civil and Military Gazette' on the 16th of May stated that the Deputy Superintendent of Police was struck on his head which had to be bandaged. Now it is remarkable that this incident is not mentioned in the Government Communiques nor in the Associated Press telegram. As a matter of fact, this police officer was struck, his head was broken, there was a split. How is it that this incident does not find a place in the Government Communiques? The fact of the matter is that, as was discovered by the 'Civil and Military Gazette' later, it was 'caused by a policeman by mistake' and not by the mob, that is why it was not mentioned by the Government Communique. Now take the accounts as they stand, what do we find? That a mob, unarmed, it must be remembered, unarmed, 'of city rif-raff and students,' to quote the words of the Government Communique, were making their way from the city towards the Mall. What happened? It does not appear that any serious attempt was made to persuade the mob to go back, that civil force was attempted. But from a sense of panic the order to fire was given and there were casualties. What did they do? It is not stated anywhere that they did any injury to any one or destroyed any property on their journey from the city to the Mall. It was asserted in the latest Government Communique that they would have done mischief, but why is this assumed, it is not stated that up to then anything was done by that mob. Well, what were the objectives of the mob? Was an inquiry made to find out why this mob was proceeding towards the Mall? It was unarmed it must be remembered. Well if the object was to do any wrong, to break the law, is it conceivable that 'this rif-raff and students' would go unarmed, or would refrain from doing anything in the city or in their journey up the Mall? No inquiry was made as to why they were journeying to the Civil lines. If an inquiry had been made it would have been found that their object was nothing more than to interview His Honour himself and to intercede with him and ask him to withdraw that order against Mr. Gandhi. But what happened? This march of the unarmed mob of city rif-raffs and students was the first overt act of rebellion. Anyhow, my Lord, whatever happened then, it was put down in the course of an hour if it was a rebellion, it was quieted in an hour's time. We read in the Government Communique 'that by 8 P.M., the city was quiet; after that time no further disturbance occurred.' Thus in an hour's time this rebellion was put down.

"Then what happened on the following day, on the 11th? We find again from the Government Communique that on the 11th everything was quiet. Well, is that a sign, my Lord, of any rebellion at Lahore at the time? The solitary instance mentioned is that a mob of some three or four hundred people, unarmed, 'city rif-raff and students', were proceeding towards the Mall, and assuming that they were rioters, they met with their deserts because they were fired on by the armed police and there were some casualties, but after that everything was quiet and there was nothing on the following day. Then, on the 12th, what happened? On the 12th the Government Communique says:—

'On the morning of the 12th troops passed through Lahore city and occupied certain commanding points. At one point only the crowd obstructed the passage of the troops and brickbats were thrown. The police accompanying the march, under the orders of the District Magistrate, dispersed the crowd, two being killed and as many were wounded.'

"And the 'Civil and Military Gazette' on the 13th says:—

'The rendezvous for the march of troops and police through the Lahore city was the cross roads outside the railway station at 9-15 A.M. The crowd in front of the fort in Minato Park

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Mr. Kamini Kumar Chanda.]

had to be forced back and the cavalry dispersed it without using their lances. The crowd, however, came in again behind *in rear of the cavalry* and the Deputy Commissioner ordered a detachment of police to get behind the cavalry and fire.'

"And there was an Associated Press telegram which says that 'more than a dozen' had been wounded, some of them having received serious wounds. One of them who received 9 wounds on the chest died this afternoon. Nearly 10,000 people attended his funeral. The deceased was a student of the 4th year class and had come here to sit for the University examination.'

"Now, my Lord, as to the assumption that brickbats were thrown at the military, as stated in this Communiqué, it will be seen, neither the 'Civil and Military Gazette' nor the Associated Press telegram corroborates this. However, assuming that this was done, would that constitute rebellion, or would that make it a clear sign or proof that there was rebellion in the city so that you would have to declare martial law? Has it been inquired into by whom and under what circumstances these brickbats were thrown? There is a discrepancy again. One account says the cavalry were obstructed in front and brickbats were thrown, whereas another account says that when they passed through the city the mob came behind and threw brickbats? However, leave that alone. Does that alone constitute a state of rebellion in the city?

"My Lord, I have tried my best to see if there was any other case of rowdysm. I said there was no account published in the Indian papers or any other information than the Government Communiqués and the accounts in the Anglo-Indian papers and there is no allegation of any of this unlawful act anywhere.

"My Lord, beyond these two incidents, one on the 10th and one on the 12th, I have not come across anything mentioned in the papers as having taken place in Lahore. Well, I should feel grateful if the Hon'ble the Home Member will inform the Council if there was any other occurrence in Lahore, which justified the Government in declaring martial law. After this, my Lord, on the 14th, martial law was declared. We do not find on what grounds this order was based. Of course, attempts were made by interpellations in this Council to find out the grounds in justification of martial law, but they have not been answered. Martial law came into force at midnight between the 15th and 16th. Several days later, by another Ordinance, No. IV, this martial law was given retrospective effect so as to cover everything that was done from the 30th of March. My Lord, it is a serious question as to whether this can be done under the law. The matter has been placed before the Privy Council in the appeals which have been admitted, and we shall know the decision of their Lordships. Another question, my Lord, in this connection is, whether this could legally be done. We find, my Lord, that Lord Wellesley, in whose time this State Offences Regulation of 1804 was passed, issued instructions for the guidance of the Local Governments and therein it was stated (Circular of the Marquis of Wellesley, dated the 11th April 1805) 'Even if a person or persons charged with any overt acts of rebellion specified in Regulation X of 1804 shall be apprehended by any military officer, when not in the actual commission of offences of that description, they are to be delivered by the military to the civil power.' That was laid down in the Instrument of Instructions regarding this Regulation, and the Regulation itself shows that only charges against persons caught in *flagrante delicto*, that is red-handed, could be tried by martial law, and that was expressly declared in the Instrument of Instructions. Furthermore, my Lord, it appears that the Government of Bengal consulted the Advocate General, Mr. Spankie, at the time, and his opinion was to the same effect. Now, my Lord, this question becomes a serious one as to whether retrospective effect could be given to this Regulation by Ordinance No. IV. My submission is that here also the matter is before the Privy Council which has got seisin of the matter, and if you ask this Council now to decide, it would be wrong; you cannot go into this before their Lordships have decided the question as to whether martial law was rightly or lawfully given retrospective

THE INDEMNITY BILL.

[*Mr. Kamini Kumar Chanda.*]

[18TH SEPTEMBER, 1919.]

effect to by Ordinance, No. IV. And this Bill is based upon the assumption that the order was legal, because it is stated in the Bill that anything done between the 30th of March and the date of the passing of this Bill will be protected. Therefore, my Lord, taking all these questions into account, it would not be right to ask this Council to pass this Bill at this time. We must wait for the finding of the Committee, we must wait for the decision of the Privy Council on the questions raised as to the legality of the promulgation of martial law and the giving of retrospective effect to it. Well, let this Committee have a free hand to go into the matter, sift out facts, find out what was done, and then it will be time enough to go into the question of protecting the officers of Government who had carried out the instructions under martial law. The Hon'ble the Home Member has raised the point that, even assuming that martial law was not properly or legally promulgated, the question of protecting the officers of Government remains because it is no fault of theirs that they were called upon to carry out these orders. Now, my Lord, everything depends upon what the orders were and how they were carried out. You cannot say beforehand that you will pass a general law that every officer is protected for anything he did under any order given. Well, so far as that matter goes, that is already provided for under the existing law. Under the Penal Code if a public servant carries out an order given by a superior, whether legal or illegal, how far he is bound to carry it out is provided for in the general law. If the Committee finds out any specific instances not covered by the existing law, then it will be time enough to consider how far that law has to be supplemented. My submission is that at present we have got a general law. Then, my Lord, even in England instances have occurred where officers commanding the military have had to undergo prosecution for excess of zeal in discharging their duty when their services were requisitioned. In connection with the riots in County Clare in Ireland in 1852, a jury brought in a verdict of guilty of murder against the soldiers who had fired on a mob, but for which they would have lost their own lives. So, I submit, my Lord, that it is premature now to consider this point. The whole thing will depend upon what orders were given, how those orders were carried out. At present all that we need consider is provided for in the general law.

"Then, the other point raised by the Hon'ble Sir William Vincent is that, if you are to wait, there will be actions brought against Government officers and they may be decreed. My submission on this is that it is purely imaginary. If any action is to be brought by any man for damages against any officer of Government for anything done during the time martial law was in force, we know that probably at first notice will be given to Government or the Government officer concerned, and after the expiry of the statutory period only can a suit be filed. Then, assuming that no notice is given but suit filed, the mere fact that a suit is filed need not frighten us. Civil suits, it is well known, are not disposed of as expeditiously as criminal cases. Well, a plaint is filed, then a date will be fixed for the defendant to enter appearance and file his written statement. I do not know what the practice in the Punjab is, but I know in Bengal and Assam no date is fixed earlier than three weeks' time. Well, my Lord, if the defendant has to enter appearance before the Council meets the next time, surely the Courts concerned would be bound to grant postponement for filing written statements in such contingencies. Usually, you find in civil cases, two or four months, or even one year has been given for filing written statements in complicated cases. And in a case of this kind no Court will refuse to grant time for adjournment till the next Session of this Council at any rate. From now till the Delhi Session there is only time. First notice will have to be given two months before any suit is filed, and even after the suit is filed, you will get ample time to have the case adjourned till the meeting of the Delhi

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Mr. Kamini Kumar Chanda ; Sardar Sundar Singh Majithia.*]

session of this Council. Even if that is not enough you can easily provide for it in various other ways. You can pass the Bill in the Delhi Session and give it a retrospective effect so that it will cover any suit or action that may have been filed already. You can do more; you can have some provision suspending all these actions in the meantime, till the Council meets at Delhi. Apart from the questions arising from the fact that a Committee of Inquiry has been appointed, I think we should consider that public discussions of the happenings in the Punjab are bound to create some bad blood and should, if possible, be avoided, and that can be avoided if the Council does not rush through with this Bill now. Let the Committee inquire, find out the facts, sift out the facts, and then we can see how far officers ought to be protected, and how far there ought to be an Indemnifying Act. These are my submissions on which I respectfully venture to think that this Bill ought not to be passed at this stage. I spoke only of Lahore, but the same considerations apply as regards other places. With these remarks I place the amendment before the Council."

The Hon'ble Sardar Sundar Singh Majithia :—" My Lord,¹²⁻⁴ I must confess that some of us, non-official Members, who are not well versed in legal technicalities—being laymen so far as law is concerned—are placed in a very awkward position when they are required to assent to a measure like the one we are discussing to-day and for the introduction of which leave has been asked by the Hon'ble the Home Member. Persons like myself feel the weight of responsibility very heavy; I cannot say for others but for myself I have felt very keenly. We have, as dutiful subjects of the King-Emperor, a duty to His Majesty the King-Emperor and to the Government established under law in this country; but, on the other hand, being representatives on this Council of the people we owe a duty to our fellow subjects which we have to discharge to the best of our abilities. I can assure your Lordship that I have been feeling this responsibility very keenly and the tension on my feelings for the past few days has been very very great. Under such circumstances one could only bow before the All Omnipotent for light being granted for guidance in the path which may be the right path.

"When I first heard of the Indemnity Bill I was under the impression that we were to be asked to indemnify all actions of Government officers, whether they were done in good faith or not. Till I had seen the Bill, I was under this impression and as such I felt that I could not give support to such a measure, knowing as I do some of the inconveniences and indignities that some of my countrymen have suffered during the currency of the martial law in my province. I have not the remotest inclination to defend those who have broken the law, and I have no hesitation in saying that no Government can afford to let such actions go unpunished. No man who loves peace and order could possibly side with such people who break law and commit atrocities which cause feelings of horror and contempt in the minds of right-thinking and law-abiding persons. But, on the other hand, one cannot shut one's eyes to some of the doings in my province. My Lord, this, however, is not the place to talk of those things. So I would not touch that point at all, as I believe and as I think that they are to be sifted into by the Committee of Inquiry that has been appointed by your Excellency. On the other hand, I would not withhold protection to those officers of Government who have done their duty during these trying times conscientiously, and whose actions have been taken in good faith and in a reasonable belief that they were necessary for the maintenance of law and order in the country. I understand that after martial law an indemnifying measure has always been enacted. Such a measure was passed in 1860 in India. I am not a lawyer, but I am told that that measure was of a more severe nature and went much further than the one introduced to-day. I am also told that indemnifying measures have been passed in other countries also, such as South Africa and nearer home at Ceylon. I would therefore be prepared to give my assent to the measure before us to-day;

THE INDEMNITY BILL

[*Sardar Sundar Singh Majithia ; Pandit
Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

but I want to be assured fully that Government has no intention to afford protection to those who have acted against the strictest sense of justice and against good faith. Though personally I have no doubt on this point and I am sanguine that Government have no intention of that sort, but an assurance of this nature will satisfy public opinion in the country. One thing more, before I give my assent to the measure before the Council. I would like Government to agree and concede that all cases tried under martial law will further be examined and that wherever injustice is found to have been done, those who are detained in jails will be given their liberty. I am glad that the point has been conceded and that two High Court Judges will revise these judgments and I thank Government for this. I have no wish to ask any clemency for those who have committed atrocities ; but on the report of the Committee of Inquiry I would suggest that amnesty be granted, as I think that many of these unfortunate persons have in the heat of the roused feelings been led astray from paths of righteousness and of their duty as law-abiding citizens of the Empire. With this assurance that the Act does not white-wash all actions done in bad faith as against good faith and with the promise of a further reconsideration of the cases tried by martial law courts, I would give my assent to the measure before the Council. I have avoided making any mention of the unfortunate happenings in my province as this Council Chamber is not now the right place for these to be ventilated. They are in a way sub-judice and till the report of the Committee of Inquiry is published, we must suspend our judgments. The other day I asked for an assurance for the protection of persons who come to tender evidence before this Committee of Inquiry. I understand that the Home Member is willing to give that assurance and that steps will be taken to duly proclaim this to the people. I would, therefore, beg my Hon'ble friends and colleagues to refrain from bringing in matters which are now in the province of the Committee of Inquiry to inquire into and sift."

12-50 P.M.

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, the measure which the Hon'ble the Home Member has asked for leave to introduce is one of the most important measures which have ever been proposed by the British Government in this country, and it calls for very careful consideration. My Lord, the Hon'ble the Home Member has said that where there is disorder and it has been found necessary to proclaim martial law, certain acts have had to be done which may not be strictly justified in law, but may be morally defensible, and that an Indemnity Act almost as a natural consequence followed. Now, my Lord, the Hon'ble Member having raised the question, as it was necessary for him to raise, under what circumstances martial law should be introduced and under what circumstances an Indemnifying Bill or Act is permissible or justifiable, it is necessary for us to go somewhat into this question. I am not going far into the earlier Acts ; I shall start with the period mentioned by the Hon'ble the Home Member, the year 1715. Members of this Council will remember that that was the year in which James the Pretender came over to England, and wanted to wrest the throne of England. 6,000 Highlanders from Scotland joined his forces and there was a regular invasion, an invasion in which there was regular warfare, there were not merely riots and tumults, but actual war waged against the Crown of England. The Pretender was defeated and it was necessary to justify the acts which had been committed in the suppression of that rebellion ; it was in these circumstances that Parliament passed an enactment, like this, Chapter 39 of George I, says :—

'An Act to indemnify such persons who have acted in defence of his Majesty's person and Government and for the preservation of the public peace of this Kingdom in and about the time of the late unnatural rebellion from vexatious suits and prosecutions, And Whereas in the year of our Lord 1715 as well as in the time of, as before the unnatural rebellion, which began in or about the months of September or October in the same year, And whereas

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

divers Lord Lieutenants, Deputy Lieutenants, Justices of the Peace, Mayors, Bailiffs of Corporations, Constables and other officers and persons well affected to His Majesty and his Government in order to preserve our present happy establishment and the peace of this Kingdom and to suppress and to put an end to the said rebellion apprehended and put into custody and imprisoned several criminals and several persons who they suspected might disturb the publick peace or foment or promote riots, tumults, rebellions or evil designs against the Government; and also seized and used several horses, arms and other things and also pressed divers, horses, carts and carriages for the services of the publick; and did for the purposes aforesaid enter into the houses and possessions of several persons and did quarter and cause to be quartered divers soldiers and others in the houses of divers persons; and did divers acts which could not be justified by the strict forms of law *and yet were necessary and so much for the service of the publick that they ought to be justified by Act of Parliament and the persons by whom they were transacted ought to be indemnified.*

‘Be it therefore enacted,’ etc.

“Now my Lord, your Lordship will see and the Council will see that the essential point of this enactment is that there was a rebellion which had to be suppressed and put an end to. Secondly, that Parliament expresses itself satisfied that the acts which had been done and which could not be justified by the strict forms of law were yet necessary and that they ought to be justified by an Act of Parliament, and that the persons who committed them ought to be indemnified. That establishes the cardinal principle which underlies legislation of the character which is now before the Council. It is a principle which was re-enacted in 1745. There was a second Pretender, the late Pretender’s son, Charles Edward. He tried to invade England—that was in 1745. This time again 6,000 Highlanders joined his forces and later on the number rose to 9,000. There were regular pitched battles fought. Several members of the Scottish peerage and others joined the rebellion. There was regular war and the King’s loyal subjects fought against the enemies of the King and defeated them. That was in 1745. It was necessary after the rebellion had been suppressed to introduce an Act of Indemnity. This Act, Chapter 20 of George II, ran as follows:—

‘An Act to indemnify persons who have acted in defence of His Majesty’s person and Government and for the preservation of the publick peace during the time of the late unnatural rebellion and sheriffs and others who have suffered escapes occasioned thereby from vexations suits and prosecutions.

‘Whereas during the unnatural rebellion which began in or about the months of July or August in 1745 and still continues, divers Lieutenants, deputy lieutenants, justices of the peace, mayors, bailiffs of corporations, constables, and other officers and persons well affected to His Majesty and his Government in order to preserve our present happy establishment and the peace of this Kingdom and to suppress and to put an end to the said rebellion apprehended and put in custody and imprisoned or caused to be apprehended, put into custody and imprisoned several criminals and several persons who they suspected might disturb the publick peace or foment or promote riots, tumults rebellions or evil designs against the Government and also seized and used several horses, arms and other things and also pressed divers horses, carts and carriages for the services of the publick and did for the purposes aforesaid enter into the houses and possessions of several persons and did quarter and cause to be quartered divers soldiers and others in the houses of divers persons and did divers acts which could not be justified by the strict forms of law *and yet were necessary and so much for the service of the publick that they ought to be justified by Act of Parliament and the persons by whom they were transacted and ought to be indemnified.*

‘And whereas divers sheriffs gaolers and other persons may be or are in danger of being sued, indicted prosecuted or proceeded against by reason of escapes of prisoners let out or discharged by the persons engaged in the said rebellion.

‘Be it therefore enacted.’

“Here again the Council will note that the essential point in the preamble is that it was necessary to suppress and put an end to the rebellion and Parliament.

THE INDEMNITY BILL.

[Pandit Madan Mohan Malaviya.]

[18TH SEPTEMBER, 1919.]

was satisfied that acts had been performed that were not strictly according to law acts which were not only necessary but it was necessary that the servants of the public ought to be justified by an Act of Parliament. Now, my Lord, the third time that the English Parliament passed an Indemnity Act was in 1780; that was in connection with the Lord George Gordon riots. This was not a rebellion against the King by enemies of Great Britain, but this time the Catholic Relief Bill having been passed a certain section of Protestants in England could not bear the idea that it should be on the Statute-book, and they constituted a strong party and presented a petition to Parliament signed by 120,000 persons asking for the repeal of the Act. They went and invaded the Houses of Parliament. Sixty thousand persons were there, and the riot had to be suppressed. After the riot had been suppressed, Lord George Gordon escaped, but others got the punishment which the law considered fit for them, but after the riots had been suppressed an Act of Indemnity was passed. That was in the year 1780. The Act ran as follows :—

‘ Chap. LXIII, Geo. III. An Act to indemnify such persons as have acted in the suppression of the late Riots and Tumults in and about the Cities of London and Westminster, and Borough of Southwark and for the Preservation of the public peace.’

“ Now the preamble recited :—

‘ Whereas on the second day of June, in the year one thousand seven hundred and eighty a great number of disorderly persons assembled themselves together, in a riotous and tumultuous manner, near to both Houses of Parliament, and possessed themselves of the Avenues leading to the same, the said Houses being then sitting, and there committed great Acts of Outrage and Violence to many of His Majesty’s subjects; and afterwards proceeded to attack the Houses of some of the Publick Ministers, of Foreign Princes and States, residing at His Majesty’s Court, and to break into the Chapels belonging to such Publick Ministers, and to set Fire thereto, and continued riotously and tumultuously assembled for several Days and Nights; and during that Time attacked and set Fire to the Gaol of Newgate, the King’s Bench Prison, the Prison of the Fleet, and set at liberty the prisoners therein respectively confined, and broke other Gaols and Prisons, and set at liberty the prisoners confined therein, and set fire to, and pulled down, the Dwelling houses of divers of His Majesty’s peaceable subjects, in several Parts in and about the Cities of London and Westminster, and Borough of Southwark, and burnt and consumed the Materials and Furniture of the same, and did other Acts of Outrage and Violence; and whereas divers Magistrates and others have exerted themselves for the suppression of the said riots and Tumults, and for putting an End to the said Outrages, and for restoring and preserving the Publick Peace, and on the Occasions, and for the Purposes aforesaid, have done divers Acts which cannot be justified by the strict Forms of Law, and yet, were necessary, and so much for the Preservation of the Lives and Properties of His Majesty’s Subjects, and the Publick Safety and peace, that they ought to be justified by Act of Parliament, and the Persons by whom they were transacted ought to be indemnified; be it therefore enacted . . .

“ Now, my Lord, these enactments clearly lay down that the legislative body which is to give its sanction to the acts which were performed during a time of trouble were necessary for the suppression of a rebellion or riot which amounted to rebellion and that they were so very necessary that the legislative body ought to justify them and indemnify those who had taken part in them. It is not every ordinary riot which would come in the category of the riots mentioned there. It must be a riot which, as Lord Halsbury points out in his article on the Laws of England, must be a riot or rebellion amounting to war. This is what he says in Volume VI of the Laws of England :—

‘ As the source and fountain of justice, the Crown may issue such Commissions to administer the law as are warranted by the common or statute law. But it may not, without authority, establish Courts to administer any but the common law, and it may not, it is said, grant the right to hold a court of equity. The Crown may not issue Commissions in time of peace to try civilians by martial law; but when a state of actual war, or of insurrection, riot or rebellion amounting to war exists, the Crown and its officers may use the amount of force necessary in the circumstances to restore order, and this use of force is sometimes termed martial law. When once this state of actual war exists, the Civil Courts have no authority to call in question the actions of the military authorities, but the powers of the military authorities cease and those of the Civil Courts are resumed *ipso facto* with the termination of the disorder.’

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

" My Lord, the point on which I wish to lay stress is that there must be either a rebellion or insurrection or a riot amounting to war to justify resort to martial law. These are the general principles which the laws of England have laid down. So far as India is concerned, the matter rests on a more definite footing. The Government of India had empowered under Regulation X of 1804 to establish martial law in certain circumstances. Now it is essential to draw attention to the language of that Regulation, because your Lordship professedly acted under that Regulation in declaring martial law in the Punjab. My Lord, that Regulation was passed in 1810, and it ought to be remembered that it was passed at a time when the British Government was trying to establish its power in this country, when there were many small States trying to prevent its establishment or power in this country. That was the period during which this Regulation was passed. Little did I think, my Lord, I venture to say, that the authors of this Regulation had imagined that this Regulation would be resorted to in the Year of Grace 1919 after the great war had been won. However, the Regulation is as follows :

' WHEREAS during wars in which the British Government has been engaged against certain of the native powers of India certain persons owing allegiance to the British Government have borne arms in open hostility to the authority of the same and have abetted and aided the enemy and have committed acts of violence and outrage against the lives and properties of the subjects of the said Government; and whereas it may be expedient that during the existence of any war in which the British Government in India may be engaged with any power whatever, as well as during the existence of open rebellion against the authority of the Government in any part of the British territories subject to the Government of the presidency of Fort William, the Governor General in Council shall declare and establish Martial Law within any part of the territories aforesaid for the safety of the British possessions, and for the security of the lives and property of the inhabitants thereof by the immediate punishment of persons owing allegiance to the British Government who may be taken in arms in open hostility to the said Government or the actual commission of any overt act or rebellion against the authority of the same or in the act of openly aiding or abetting the enemies of the British Government within any part of the territories specified above, the following Regulation has been enacted by the Governor General in Council to be in force throughout the British territories immediately subject to the Government of the presidency of Fort William from the date of its proclamation."

" Now, my Lord, it is clear that this Regulation can only be justly put into force when there is either a war or open rebellion against the authority of the Government. Your Lordship in establishing martial law by the notification, dated Simla, the 14th April 1919, consequently said that :—

' Whereas the Governor General is satisfied that a state of open rebellion against the authority of the Government exists in certain parts of the province of the Punjab; now, therefore, in exercise of the power conferred on him he is pleased to make and promulgate the following Ordinance.'

" Now, my Lord, section 2 of the Bengal State Regulation provided that where the Governor General was so satisfied it was open to him to establish martial law, and that section also repeated that it was during the existence of open rebellion against the authority of the Government, or who may have borne arms in open hostility to Government that martial law should be established. In the notification dated the 14th April 1919 your Lordship was satisfied that a state of open rebellion against the authority of the Government existed in certain parts of the province of the Punjab. Now, my Lord, the public have not been told what were the circumstances which constituted a state of open rebellion in Lahore. I gave notice of certain questions and I wanted to find out what it was that constituted a state of open rebellion. But unfortunately the Government told me that the questions could not be answered in view of the fact that an inquiry had been ordered and that it would not be in the interests of the public that these questions should be answered. Now, my Lord, I submit that it was essential, and it is still essential,

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Sir William Vincent.*]

[18TH SEPTEMBER, 1919.]

first to inform the Council, when the Executive Government have come to the Legislative Council to ask for their support to ratify acts which are done under an Ordinance promulgated by the Governor General or the Governor General in Council, what were the circumstances under which martial law was proclaimed. I asked whether the Government would be pleased to lay on the table the correspondence which passed between them and the Punjab Government leading to the declaration of martial law in the Punjab. I also asked whether the Government would be pleased to state the facts and circumstances which, in its opinion, constituted a state of open rebellion against the authority of the Government in certain parts of the Province of the Punjab within the meaning of Regulation X of 1804 between the date on which the Ordinance was promulgated by the Governor General and the date on which open rebellion was declared to exist in the part of the Punjab to which the Ordinance had been applied. I am sure your Excellency will recognise that these questions sought to do nothing except what was right in the circumstances. I had heard that the 'Pioneer' had proclaimed that an Indemnifying Bill was going to be introduced in this Council, and I gave notice of a question an answer to which it would be necessary to have in order that I should be able

The Hon'ble Sir William Vincent :—"My Lord, may I rise to a point of order? Is it in accordance with the practice in this Council for an Hon'ble Member to refer in public to a question which has been disallowed? Is it not a fact that the Hon'ble Member has been reprimanded for doing this on a previous occasion?"

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, I do not know of a reprimand and I do not recognise any such reprimand. I am entitled on a Bill before the Council to draw attention to every fact in the Council. I was perfectly right. I submit, to do what I did."

"Now, my Lord, I asked for information, and, as I said before, in answer to my question I was informed that the Government could not answer these questions and numerous other questions of which I had given notice, as a Committee of Inquiry had been constituted or was going to be constituted and these matters would be dealt with by it. Now, my Lord, I would not complain of these questions not being answered if the Government also recognised the fairness, the wisdom of staying its hand until these facts had been placed before the Committee of Inquiry, and until the public had come to know of them. Your Lordship will kindly remember that since this unfortunate declaration of open rebellion in the Punjab, which among other evils contributed to the Afghan war, since the declaration of this open rebellion and the establishment of martial law in the Punjab, the Punjab Government shut the rest of India and the world out from all knowledge of the events which were happening in the Punjab. My Lord, not only were individuals not permitted to go in and expose the events that were taking place there to the light of day, but even the representatives of many respectable well-established leading papers in the country, and a man, himself a man of peace and of humanity, Mr. C. F. Andrews, when he asked permission—I hear a little laughter. My Lord, I do not know what the laughter is about. If it is to say that Mr. Andrews is not a man of peace and humanity, I am sorry for those who think so. Now, my Lord, I say a man of Mr. Hume's antecedents and character, devoted to the service of his fellow men, who goes to different parts of the world in order to serve his fellow men, who was appointed as the representative of several leading papers, who sought permission to go to the Punjab, even after he had paid a visit to Simla and was on his way to Lahore, was stopped at Amritsar and disgracefully dealt with and turned back from the Punjab. Now, my Lord, other papers were not allowed to send their representatives to the Province and other public men were not allowed to go there. The result was that we did not know what had

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

happened. From the information that we had, the All-India Congress Committee met and sent a long[cablegram to His Majesty's Secretary of State in which they drew attention to the seriousness of the situation.

"Now, my Lord, in that cablegram the All-India Congress Committee, which met on the 20th and 21st of April at Bombay, passed among others the following resolutions:—

'Resolved that the All-India Congress Committee deplores and condemns all acts of violence against person and property, which were recently committed at Amritsar, Ahmedabad, Viramgaum and other places, and appeals to the people to maintain law and order and to help in the restoration of public tranquillity; and it urges upon the Government to deal with the situation in a sympathetic and conciliatory manner immediately reversing the present policy of repression.'

'Resolved that the All-India Congress Committee places on record its strong condemnation of orders passed under the Defence of India Act by the Government of the Punjab, Administrator of Delhi and by the Government of India against a person of such well known noble character and antecedents as Mr. M. K. Gandhi. The Committee cannot help feeling that, if these orders had not been passed, some of the regrettable events which followed them may not have happened. The Committee requests the Government of India to withdraw its own order and to ask the Local Governments in question to do the same.'

"Then, my Lord, there was a cablegram which I sent to His Majesty's Premier and to the Secretary of State for India. I will read it as it stands without articles, etc.

'All-India Congress Committee desire most earnestly to represent to His Majesty's Government intense gravity of present situation in India, real causes and need for change of policy pursued at present. While deploring and condemning popular excesses which have occurred in some parts of country and which popular leaders have everywhere used their influence not unsuccessfully to restrain, Committee urge impartial consideration of circumstances which have so aggravated and embittered feelings of people throughout country as to make such outbreaks possible. Resolution of Government of India, dated 14th instant, describing present situation as arising out of Rowlatt Act agitation makes only partial statement of case. Undoubtedly intense universal bitterness of opposition to Rowlatt Act forced through legislature by official votes against unanimous protest of all non official Indian members and in face of unparalleled opposition throughout country was immediate cause of recent popular peaceful demonstrations but subsequent excesses were provoked by needless and unjustifiable action of Government of India, and Punjab and Delhi Governments against so revered a personality as that of Mr. Gandhi and against other popular leaders. For complete understanding, however, of present discontent and its causes other important factors must be considered.'

"Then, my Lord, after dealing with the causes which included India's services during the war, and the attitude of European and Anglo-Indian officials towards the Reforms and the fate of Turkey and the Rowlatt Bills, the Committee went on to say:—

'In such circumstances the two Rowlatt Bills were introduced and the principal one forced through Council in spite of unanimous opposition of non-official Indian Members, appeal for postponements and reconsideration and warnings of agitation that would inevitably follow throughout country which was stirred by this measure and uncompromising attitude of Government in degree unparalleled in history of country. Committee here cannot enter in detail as to justifiable apprehensions caused by passing into law of this Act.

'They are content to represent that it is total distortion of facts that an agitation against a measure placed on Statute-book in time of peace depriving subjects under any circumstances of sacred right of free and open trial and otherwise restricting fundamental liberties and depriving accused persons of normal and essential safeguards designed for protection of innocent persons should be regarded as an unreal agitation engineered by political agitators for their own ends. Committee have no authority to discuss merits of passive resistance movement led by Mr. Gandhi but would emphasise that nothing but feeling of high-souled patriotism and intense realisation of injustice involved in passing of this measure could have actuated man of his saintly character and noble record. Committee submit that so far as facts are publicly known no violence had anywhere been committed by the people until after the arbitrary restrictions placed on Gandhi's movements leading to his arrest and forcible deportation without any announcement about his destination while he was on his way to Delhi with object of pacifying people after unfortunate episode there on March 30th. Grave allegations were made

THE INDEMNITY BILL.

[Pandit Madan Mohan Malaviya.]

[18TH SEPTEMBER, 1919.]

that authorities in Delhi unjustifiably fired on crowds killing and wounding several. Government of India have ignored demands for inquiry into this and have published *ex parte* statement of Local Government exonerating local authorities on unconvincing statements. Had Gandhi been allowed to proceed Delhi Committee believe he would have restored normal conditions. Government on contrary by his arrest and deportation provoked outbreaks in Ahmedabad and Viramgaum. Outbreak had become imminent in Bombay also, but it was averted by wise action of authorities in restraining police and Military and efforts of Gandhi and other leaders pacified people and restored quiet.

Committee invite attention to the contrast between the rapidity with which tranquillity was restored in Ahmedabad by presence of Gandhi, his co-operation along with that of other leaders with authorities and continuance of disorders in Punjab where reckless and horrible methods of repression under Martial Law such as public flogging of citizens in streets, dropping of bombs from aeroplanes, wholesale firing on people assembled in streets, have been resorted to. These methods of repression have created horror and resentment throughout country.

Committee recognise need for strong measures to deal with popular violence where occurring and popular leaders and bodies and all public men are ready to co-operate with Government in putting down popular excesses and violent movements against authority, but use of such methods as have been in force in Punjab antagonise feeling of people towards Government and sow seeds of bitterness and distrust.

Committee most earnestly urge His Majesty's Government to intervene and put an end to these methods, and to order the appointment of commission of officials and non-officials to investigate causes of discontent and allegations of excesses by authorities in repressing popular outbreaks.

"My Lord, that was submitted on the 28th of April this year and it prayed that the Government should appoint an early Commission.

Committee strongly urge His Majesty's Government to consider that popular discontent has been provoked by causes set forth above. At Amritsar disturbances followed immediately on Sir Michael O'Dwyer's action in arresting and deporting Dr. Kitchlew and Dr. Satyapal. Committee most earnestly represent that situation cannot be dealt with alone by repression and attitude of sternness towards people displayed in Resolution of Indian Government of 14th instant which gives free hand to Local Governments to employ every weapon in armoury of repression and is sadly lacking in spirit of conciliation. Situation calls for highest statesmanship, which will deal with it in spirit which animated British Government and Indian people in their recent struggle for maintenance of liberty and freedom of peoples from despotic domination and not in a mood of ruthless repression.

"All-India Congress Committee feel that they can appeal with confidence to His Majesty's Ministers to consider this representation with sympathy and to take definite steps forthwith to reverse the policy of repression and to satisfy Indian feeling with regard to the Muhammadan question, the reforms and repeal of Rowlatt Act. Committee respectfully submit this action alone will secure real peace and contentment in the land."

[At this stage the Council adjourned for Lunch.]

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, the point to which I was drawing attention when the Council rose was whether there was open rebellion in Amritsar and Lahore and certain parts of the Punjab when this notification was published. Because, my Lord, the Bill starts with saying, it assumes, that there was open rebellion and all the acts which took place subsequent to the declaration that there was a state of open rebellion are based upon and flow from it, so to say. Now, my Lord, I have drawn attention to the general situation which existed in the Punjab and the country at about the time when this declaration was made. I have drawn attention to it in order that a birdseye view may be presented of the situation as a whole, and I have shown that the All-India Congress Committee drew the attention of Government to the fact that the disorders which had taken place had their origin not in anything in the attitude of the people so much as in the attitude of the authorities who had to deal with the people. Now, my Lord, I want to enter somewhat in detail into the circumstances which existed then. I consider it essential to do so in order that this cardinal fact,

THE INDEMNITY BILL.

[15TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

this key-stone of this whole unfortunate edifice, which constituted the establishment of martial law and its results, should be fairly and squarely fixed at its proper place.

"Now, what happened was, my Lord, that in the last Session of this Council the Rowlatt Bill was introduced. That Bill was opposed practically unanimously by all the Indian Members, and Government was urged to postpone legislation until another Session. The Government did not see fit to yield to that request. Agitation followed in the country and that agitation took one particular shape by the suggestion of Mr. Gandhi. That shape was that the people should express their dissatisfaction with the carrying out of the Rowlatt Act against the wishes of the people by observing a day of humiliation and prayer. My Lord, it is a pity that this action of Mr. Gandhi was not appreciated by all the Local Governments equally well; there were some, I am thankful to say, which appreciated it at its proper estimate and allowed the people to express their injured feelings in the way Mr. Gandhi had suggested. As a result of that suggestion on the 30th March last a *hartal* was observed, that is, a general closing of the shops was observed at certain places and also at Delhi. At Delhi somewhat unfortunate events took place. Some people tried to put pressure upon some confectioners at the railway station to persuade them to close their business that day, and a crowd assembled, and what took place there led to firing. I do not want to go into greater detail in regard to this matter, but I want to indicate the general fact that the mob was there and as a consequence of what happened, the firing that took place, people's minds were more embittered. That was the first blunder committed. Then, my Lord, a second time firing took place at Delhi and that also gave cause for more resentment. But notwithstanding this unfortunate firing and the loss of life, and the wounds which it inflicted upon some of the people, it is a fact, which cannot be gainsaid, that the 6th April 1919, which was the great *Satyagraha* day throughout the whole country, was observed throughout the country peacefully. No untoward incident has yet been alleged to have occurred during the observance of that *Satyagraha* day. Now, what, my Lord, was the *Satyagraha* day? Hindus and Mussalmans, and Indian Christians, and generally the whole Indian community agreed unanimously to abstain from doing any business that day, closed all their business shops, undergoing a great deal of loss in order to show the general resentment of the Indian community at the attitude of Government, and as a step which might persuade the Government to reconsider their position. Now, my Lord, that passed off well, as I say, and Local Governments other than the Punjab Government did not find in the demonstrations that took place any occasion for embarking upon a policy of repression. But not so the Government of the Punjab as it was then constituted. On the 3rd and 5th April, the Government of the Punjab issued orders against Dr. Satyapal and Dr. Kitchlew forbidding them from making speeches in public. These two gentlemen submitted to that order and nothing untoward happened in Amritsar in consequence thereof. The 6th of April was observed as a *Satyagraha* day in Amritsar, as well as in other places, and the day passed off peacefully there too. Three days after, there was the *Ram Navami* procession in Amritsar, that is the day on which Rama's birth is celebrated. It is a great day with the Hindus, but this time Muhammadans and Hindus united with each other in celebrating that day. That is to say, Muhammadans came forward to express their full fellow-feeling with the Hindus in observing that day, and there were great processions in Amritsar, and the Deputy Commissioner of Amritsar witnessed these processions from the Allahabad Bank, where he was, I am told, sitting at the time. My Lord, there is absolutely nothing against the Government in that procession. I am told that while the people shouted out 'Hindu Mussalman-ki-jai' and 'Mahatma Gandhi-ki-jai' they also shouted out 'King-Emperor-ki-jai'; it was a perfectly loyal demonstration and had absolutely nothing to do with any political feeling.

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

" But there was one feeling which is very important and which has its political value, and that was that Hindus and Muhammadans acted towards each other in a friendly way in which they had never done before in the history of Amritsar. Ordinary observances and caste restrictions and rules were put aside and their fraternising was a matter upon which every reasonable man, every God-loving man and man-loving man ought to rejoice. But on the following day at about 10-30 A.M. these two gentlemen, Dr. Satyapal and Dr. Kitchlew, were ordered to be deported from Amritsar. Nothing had happened up to the moment of their deportation which the public is aware of which would justify that order. They had been told to abstain from speaking in public; they had submitted to that order; nothing untoward had happened, there was no agitation which might endanger the public peace in Amritsar; and yet the Punjab Government thought it fit to issue this order of deportation against two men who were at the moment idolised by the people because they were honest and honourable men and the people felt that the orders were unjust orders.

" Now, my Lord, that was the second blunder committed in Amritsar. And what was the attitude that was behind that blunder? While other Local Governments noted the fact that public feeling was incensed against the attitude of the Government in the matter of the Rowlatt Bill, they thought it fit to allow that feeling to have its free and full expression.

" The Lieutenant-Governor of the Punjab, on the other hand, thought he must teach a lesson to those who were agitating. In a speech delivered from his seat in the Legislative Council he threatened action and also expressed his dissatisfaction. He said he would take very severe action and that threat he carried out unfortunately in the order of deportation. What happened? Before news of deportation was received business was going on as usual at Amritsar, banks were open, other public offices were open, in fact business men were transacting business as usual. When the news arrived there was a general feeling of resentment and sorrow. Shops were closed in a short time. At that time Mr. John, the Municipal Engineer, cycled through the city. He found people doing their business as usual, there was nothing to give any indication that trouble was coming, and when he passed through the crowds no one noticed him. He found crowds passing the National Bank, and the Chartered Bank, as also the Town hall and other public buildings. The crowd went in the direction of the Deputy Commissioner's bungalow, as has been stated in the evidence of officials as well as non-officials, their object was to go to the Deputy Commissioner and to request that these men, Doctors Satya Pal and Kitchlew, should be released. Up to then the mob showed no signs of mischief; they passed several public buildings without any thought of injuring them. When they reached the Amritsar foot-bridge they found that a military picket barred their proceeding further in the direction of the civil station. Now, at that place the mob was fired upon; they were at that time unarmed; I am told that they did not even have a stick in their hands; I am told that there was no attitude of defiance or violence, and at that time it is possible that the mob might have been gently pressed back, gently and firmly pressed back. It was then that firing was resorted to, and as a consequence the people became incensed, and that some persons then died and some were wounded. News was taken to the city; this fostered the resentment of the people. Firing was resorted to a second time near this bridge and more persons were killed. The Deputy Commissioner, in his own statement, says that before firing took place the mob did not commit any excesses. I have evidence to show that violence was done before the shops were fired. Now, my Lord, Mr. Miles Irving, the Deputy Commissioner, says that the worst that he expected from the deputation was a disorderly demonstration at his house. It is alleged on the side of the people that if this firing had not been resorted to, and if more restraint had been exercised, all the evils that followed might not have taken place. My Lord, what happened was deplorable.

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

Infuriated by having some of the mob killed or wounded, a portion of the mob went back to the city saying 'they have killed some of our men, let us fight them'. Up to that time the evidence proves that no harm was done, the mob then rushed back to where fuel is stacked, I have myself seen the stack of wood, they picked up pieces of wood near the railings and then lost their temper, returned and committed the foul murders that they did. I submit that these are the circumstances which we should bear in mind in considering what happened. I need not of course express my sorrow for the lives lost; every decent man must regret the fact that Mr. Stuart and Mr. Robinson and that other Europeans at the railway station were killed. The whole unfortunate affair was finished in the course of two hours. The report in the 'Civil and Military Gazette' says that at 5-30 p.m. all was quiet. I shall not go into the question whether the firing was justified or not, but I would draw attention to the fact that the first firing having taken place, and the mob having become infuriated, it went into the city to revenge itself by taking the lives of five European fellow-brethren. In a couple of hours all was quiet at Amritsar. There was no trouble on the 11th. The people brought back the corpses, the Hindus and the Moslems decided that they should accompany the corpses in honour of the men and buried or burnt them according to their religion. They finished the whole job before 9 or 10. Thousands of people came out to accompany the bier of the unfortunate men who had been killed, and yet not a single untoward incident occurred in Amritsar. After having buried or burnt the corpses the people came back to the city and all was quiet. On the 12th again all was quiet at Amritsar. On the 13th the Seditious Meetings Act was proclaimed in Amritsar. Up to that time all was quiet. I should like any Member on behalf of the Government to cite one single fact or circumstance which would show that after 5-30 on the 10th April, when these unfortunate deaths took place, at the railway station and banks, that there was a single incident at Amritsar which could by any stretch of imagination be construed into open rebellion. My Lord, what happened on the 13th? It is distressing to think of. On the evening of the 12th a certain number of persons tried to have a meeting held in a certain place in the city, very few people attended, but it was announced at the meeting that a meeting would be held on the following day at Jallianwala Bagh. This is a place which is surrounded on all sides by houses, there are three or four exits to it, the biggest exit is on one side and the smaller exits are not larger than the doors of this hall. I am told that between 16,000 and 20,000 persons assembled there. It was given out that Lala Kanhaya Lal, a very old and esteemed pleader of Amritsar, would preside. Lala Kanhaya Lal told me personally that he never was approached and that he never gave his consent to preside, that this was falsely given out.

"That was a ruse to draw the people to the meeting. Hearing that a man of his position and respectability was going to preside, many people came to attend the meeting. That day also happened to be, my Lord, the *Bysakhi* day.

"The *Bysakhi* day is one of the most important days in Amritsar, and on that day one of the biggest *melas* is held there. People come to Amritsar for the *mela* from long distances, not only from the interior parts of Amritsar, but from long distances, from Rawal Pindi and Peshawar. A number of Sikhs and Jats had come to Amritsar for the *Bysakhi* day. These people, not knowing that meetings had been prohibited assembled in the Jallianwala Bagh in large numbers, I am told they numbered about 20,000. The 'Civil and Military Gazette' states in its report that the people numbered about 6,000. But whatever the number may be, the gathering was certainly a very large one. My Lord, when the meeting had assembled, when several thousands of people had assembled, an aeroplane passed over the place where the meeting was to be held, and within half an hour or so of this, came the troops, and while the people were sitting down to hear the lecture which was being delivered by one of the men, the troops came and fired upon the people—and the people say

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

without giving them any warning or any time to run away from the meeting. Now, my Lord, it has been stated by the Hon'ble the Home Member, that 'the number of persons who had been killed there has been traced to 300.' But from a letter received this morning by me from a friend, I am informed, that the number of deaths which have been traced already amounts to 530 killed and 190 wounded, and among the 530 killed, he gives me the names of 42 boys whose ages range as follows: 1 from 7 months who was being carried by his father to the place, to 15, 17, 18, 14 and one of 4 years, more than one of 12 years, several of 14 years and several of 15 years. These are the names of the boys who were killed at this meeting. The names of many others might be forthcoming, but even if this list is final as I very much wish and hope it may be, even, then, my Lord, the number is appalling to think of, and it is also horrible to think of the fact that people assembled at a meeting sitting down to hear a lecture should be fired upon by His Majesty's troops, and when they were running for their lives they should still be fired upon, and that so many of them should be killed in a few minutes time. Now, my Lord, I should like the Hon'ble the Home Member with all his reading of history to cite one instance so horrible to think of as the one like the Jallianwala Bagh, and to tell me if any Government has attempted to pass an Indemnifying Bill to justify anything approaching the deeds that were perpetrated in the Jallianwala Bagh.

"My Lord, I will go back to Lahore for a moment. I will come back afterwards to the events that followed at Amritsar. But let me say here that even after this butchery in the Jallianwala Bagh—and the Bagh is now called the bloody Bagh—even after this the people did not show the smallest sign of committing any violence. They submitted to these atrocities, they calmly resigned themselves to it, and there is not one single incident mentioned which would justify anybody to describe the state of things in Amritsar, even after that event and before it was proclaimed, that there was a rebellion in Amritsar, as an act of violence or hostility to Government. This was, my Lord, on the 13th of April. On the same day by a notification, to which I have already referred, it was declared that a state of open rebellion against the authority of the Government existed in certain parts of the Punjab, and by an Ordinance this was extended to Lahore and Amritsar, which were the first which came in for the operation of this declaration. Now, I submit, my Lord, with great respect, there is nothing I know of, and I have taken pains to verify the facts, to justify the declaration that there was a state of open rebellion in Amritsar on the day that your Lordship was advised that there was rebellion. I will go back to Lahore. Lahore observed the 6th of April as a *Satyagraha* day. The day passed off peacefully. Up to the 10th no untoward event happened in Lahore either. On the 10th owing to the news of Dr. Satyapal and Dr. Kitchlew having been deported, there was all this trouble in Amritsar. The same day news was received in Lahore that Mr. Gandhi had been arrested, and deported to a place unknown, I mean to say, the place where he was deported was not announced. Now, my Lord, Mr. Gandhi, as is probably known, not only to my Indian friends but to every gentleman in this country or at least ought to be known, is a gentleman who is held in the highest reverence by millions of people. By his saintly character, by his desire not to hurt any fellow-man, by his desire to stand up for truth, justice and humanity, he has established himself in the affections and reverence of the people to an extent which is not enjoyed by any other of my fellow-countrymen. Mr. Gandhi having been responsible for the *Satyagraha* day being observed, he had to issue instructions that the day should be observed without any violence, without causing any hurt to any fellow-men; but certain unhappy events to which I have already referred having taken place at Delhi, public sentiment having been roused by these events, Mr. Gandhi was coming to Delhi to quiet the people and to see that feeling should not be further embittered. While he was on his way to Delhi, the Government of India was advised to issue an order confining him

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

to Bombay, and the Government of the Punjab and the Delhi administration issued orders prohibiting him from entering the Punjab and Delhi. My Lord, that was a gratuitous insult offered to Mr. Gandhi. Any Government ought to feel honoured by the presence of a man like Mr. Gandhi within its own jurisdiction, and in asking Mr. Gandhi to keep out from the Punjab and the Delhi province, the administrations of those places showed that they did not take the broadminded view which those at the head of administrations are expected to take in such matters. Well, the result was that as the news was received that Mr. Gandhi had been arrested and deported, the temper of the people was tried. At Lahore, a mob gathered and they were going towards the Government House towards the Upper Mall, in order, I am told, to go up to Government House to make a representation. They passed several European buildings; they passed several European gentlemen without showing the smallest sign of any desire to hurt anybody. The Europeans who have their shops on the Upper Mall did not find any of their shops injured, not even a pane injured. When they were on the Upper Mall at one place the police wanted to prohibit them from going any further and wanted to turn them back. They did not like to be turned back, but eventually they agreed and they did turn back, and their attitude in going back shows that if firing had not been resorted to, there would have been no evil consequence resulting from the presence of the mob at that place for a little while. A little gentle persuasion, a little firmer attitude, if need be, would have succeeded, that is the belief of a lot of people. Now, my Lord, that having happened, when the mob were going back near Anarkali, they were fired upon and certain persons lost their lives. This enraged public feeling, but what happened? I ask your Lordship to note that there is no people on earth that I know of, that I have read of, or heard of, who would have shown their law-abiding character better than did the people of Lahore and Delhi where the firing had been resorted to. They did not do anything, they went back to their homes. It was all quiet at 8 o'clock. Before the people had returned to their homes, Government House had been seized by panic. Messages were sent to the troops to be in readiness and to take up positions. Ladies in the Club and other places were told to hurry back home. Several of them did, but at 8 o'clock all was quiet, and those ladies who had gone to Government House were permitted to go back to their homes. The people did not do anything to justify the panic. The whole thing was over in a short time. Whether the firing was justified or not, leaving that question apart, the whole thing was over within an hour and a half or two hours, and there was quiet in the city, and that same day the Lieutenant-Governor was entertained at a party. That was on the 10th. What happened on the 11th? The people here again asked that they should be allowed to carry their dead in procession, and they performed the ceremonies that they had to, but nothing further happened. On the 12th there was a meeting at the Badshahi Mosque. The people had assembled there to express their regret at what had happened, the shops continued to be closed, but no harm was being done to anybody except the poor men, who were suffering for want of food, and Lala Harkishan Lal, to his honour it may be mentioned, said he would subscribe Rs. 1,000 to help to keep the people from starvation. At that meeting there was a Criminal Investigation Department man who went into the meeting and expressed sentiments which people resented. This man was roughly treated, his pugree was thrown aside, but afterwards the meeting passed off quietly; nothing more happened. When the people were going back they say they passed the troops and they say there was something which led the troops to fire. Again some of the people were injured, some killed. Now, my Lord, what happened afterwards? Even after this unfortunate incident the people kept quiet. There was nothing, not a flower-pot injured in Lahore, not a pane of glass broken by the people—I did not hear what the Hon'ble the Law Member said. . . .

THE INDEMNITY BILL.

[*Sir George Lowndes ; Pandit Madan Mohan Malaviya ; the President.*]

[18TH SEPTEMBER, 1919.]

The Hon'ble Sir George Lowndes :—" The Hon'ble Member was not intended to hear."

The Hon'ble Pandit Madan Mohan Malaviya :—" The noise was so great I thought something was said for me. "

The President :—" I am sure the Hon'ble the Law Member would have got up in his place if he had wished to put any question ; that is the usual course."

The Hon'ble Pandit Madan Mohan Malaviya :—" Now, my Lord, what are the incidents which the Hon'ble the Home Member, or anybody supporting the Bill, would expect as happening between the evening of the 10th and midnight on the 15th which would justify a declaration that there was a state of open rebellion in Lahore ? The Law Member has not uttered one word to justify that view. Now I submit that there was nothing ; that the people were living quietly ; that whatever action had been taken by the Government in the shape of placing the military and police in positions and everything else was done and there was quiet in Lahore. Whether the quiet was due to the action taken by Government or whether it was due to the innate good sense of the people is a matter which I will not go into. Any way the result was there. There was quiet in Lahore, and all the panic which resulted in ladies being frightened into leaving Lahore and being sent up to the hills seems to be utterly unjustifiable. My Lord, up to the 15th then if this was the state of Lahore and Amritsar, how is this Council being asked to assume that there was a state of open rebellion in those places ? Why should this sweeping Indemnifying Bill be put before this Council and the Council asked to support it ? Let me refer to a few other incidents that happened in the Punjab. It is said that this open rebellion was to be found in other places in a few days. But, my Lord, note the sequence of events. This was up to the 10th of March. I have shown that on the 10th of March what happened at Amritsar was due to the deportation of Dr. Satyapal and Dr. Kitchlew, and after the 10th to the news of the arrest and deportation of Mr. Gandhi and possibly also, though I cannot say, my Lord, to the receipt of the news of what had happened at Amritsar. Now beyond that we have nothing to show that there was a state of rebellion in those places. And what is the next place to which I should invite attention ? It is Gujranwalla. Gujranwalla kept quiet. Up to the 13th we did not hear of any untoward incident there. They had held a meeting ; they had discussed the *Satyagraha* day ; they had shown their opposition to the Rowlatt Act, but nothing further had happened. It was on the 14th, when the news of the Jallianwalla Bagh massacre reached Gujranwalla that the people committed some excesses. But let me tell you what they did. ' There was a complete and spontaneous *hartal* in the whole town ; everything went off orderly and everything was perfectly quiet in the town ' as the judgment in the Pleader's case shows. Then, my Lord, on the 13th as the news of the arrest of Mr. Gandhi had reached the town and the citizens were thinking of observing a *hartal* on the 14th, the matter of holding a meeting in case of the proposed *hartal* was considered at an informal meeting at the house of Diwan Mangal Sen. Please note, my Lord, what happened. Diwan Mangal Sen, one of the most esteemed men in Gujranwalla, who had made his contributions to His Majesty's Government during the war, and considerable contributions too, along with many other respectable men, were hauled up and tried as persons who had waged war against the King. On the 12th when they met to consider the matter, after having decided what they would do, they informed the authorities that the people had decided to close business on the 14th. Mirza Sultan Ahmed, the acting Deputy Commissioner, issued instructions to the Municipal Commissioners asking them to see that everything remained quiet on the 14th. They did not do so in a surreptitious way.

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

" They did all in a fair, frank and open manner and there was nothing wrong which they had to conceal. The proceedings of the meeting of the Municipal Commissioners and the conversations which took place with the Deputy Commissioner are, I understand, on the record.

" Now the morning of the 14th of April opened well. All was quiet. There was complete spontaneous *hartal* throughout the city on this day. A big *Bysakhi* day was held at Wazirabad which is visited by numerous people from Gujranwala and other places. Hence there was a tremendous rush for Wazirabad in the 7-30 train. Booking was therefore stopped and many people were thus kept back. Out of this arose a general feeling to the effect that either all or none should go to the fair at Wazirabad. The train moved and in the rush the guard was stopped from getting into his compartment. As the guard was left behind, the train stopped at the distant signal. The mob at the station rushed towards the train and succeeded in getting out of the train many of the people. The mob asked the driver to come down and the driver did so. There was thus nobody in charge of the engine. Some of the mischievous hooligans then took some burning charcoal from the engine and set fire to the old rejected sleepers lying near the Gurukula bridge. The happenings were purely accidental being due to the mischief of these very few people and were not at all premeditated. It is worthy of note that no damage at all was done to the bridge and the train passed away safely after some delay. Now, my Lord, as the mob was returning from the Gurukula bridge *via* the Grand Trunk Road, which runs parallel to the railway lines, it was increased by hundreds of other people from the town and the railway station. The news was on every lip that a slaughtered calf was hung up from a girder on the railway bridge on the Lahore side. Hindu and Muhammadan relations were perfectly friendly at the time, and people therefore suspected that this was the work of the C. I. D. This idea gained strength from the fact that there is a large number of Hindu temples in that vicinity. The effect of this idea was most unfortunate on the public. Munshi Din Muhamed, a local pleader and a Muhammadan leader, declared that it could not be the work of Muhammadans and that he would himself remove the carcase. This convinced the public that it was not the work of any Muhammadan acting on his own behalf and that it was the work of some police underlings. The excitement reached a very high pitch when people who had seen a slaughtered pig on the other side of the station gave this news to the mob. The mob had now reached the place where the slaughtered calf was hung up. Mr. Heron, the Superintendent of Police, had also reached the place. Some of the enraged mob caught Mr. Heron and managed to throw him down and snatch away his pistol. This they did because they thought the police underlings had done the mischief to which I have referred. These young men were however calmed down by Mr. Din Muhamed, who persuaded them to leave Mr. Heron alone and to give him back his pistol. When Mr. Heron had thus received his pistol he fired on the mob, particularly on those young men who had given it back to him. Now several persons were wounded—*vide* page 32 'Punjab Disturbances,' published under the authority of Government. Thereupon, the excitement was fanned into a flame. The crowd then returned to the railway station and demanded the blood of Mr. Heron who had so unjustly fired upon them, and one of the men who was so wounded died the following day. The huge crowd faced the police, the municipal commissioners and the magistrates who had all arrived at the railway station, for more than two hours, the Grand Trunk Road alone separating the two. The mob continued to yell, tremendously enraged at the spilling of innocent blood. Mr. Heron wanted to open fire on the mob, although the magistrates and the municipal commissioners were doing their utmost to push the mob back into the town. The latter had just succeeded in persuading some people to go back when a shot was fired,—accidentally or deliberately, I cannot say—by a police constable. This fanned the flame again into a fire.

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Mr.
J. P. Thompson.*]

[18TH SEPTEMBER, 1919.]

The crowd, which had so far been passive and sullen, now got enormously enraged at this. They swelled in number. Mr. Heron gave the order to fire. Fire was consequently opened and many casualties occurred. Thereupon the excited mob resorted to many acts of incendiarism, burning the post office, the dāk bungalow, the tahsildar's and the Honorary Benches' Courts, a block of the district courts, the railway godown, and the church. This again is vouched for in the 'Punjab Disturbances' published under authority

The Hon'ble Mr. J. P. Thompson :—"What authority has the Hon'ble Member for saying that the pamphlet entitled 'The Punjab Disturbances' was published under the authority of the Punjab Government?"

The Hon'ble Pandit Madan Mohan Malaviya :—"Is that not so? It is compiled from the 'Civil and Military Gazette,' second edition. Does my Hon'ble friend say that it is not published by the authority of the Punjab Government?"

The Hon'ble Mr. J. P. Thompson :—"The cover states by whom it was published."

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, if Mr. Thompson will not give me a direct answer I am sorry I cannot say more. I was told it was an authoritative publication. If it is not, I am sorry for the statement, but he ought to tell me whether it was or was not. We want facts. It contains many official Communiqués.

"Now, my Lord, the people who were wounded by the firing of Mr. Heron at the Siddhan bridge where the slaughtered calf was hung up were taken through bazaar to Niyadin where an open air meeting was all the time being held to keep the public engaged. At this meeting, speeches on Hindu-Muhammadan unity were delivered, and the people were advised to be calm, *vide* instruction given to the Manager of the Islamia School by the acting Deputy Commissioner to deliver a lecture at the meeting. The Manager's statement in the Pleader's case will be quite sufficient for that purpose. The point I am coming to is that this was all the trouble, the regrettable, unfortunate trouble. But it was all over by about 3 P.M. Moreover, there had been no riots in the city proper. The people had kept perfectly quiet in the city, and all these events occurred in the civil station outside the Circular Road. Between 3 and 4 P.M., just about the time when, as was said in the 'Civil and Military Gazette' report, the crowd was dispersing, aeroplanes arrived. Now, my Lord, the crowd had dispersed and the remnants of the crowd were dispersing when the aeroplanes arrived and bombs were dropped from the aeroplanes in several places. I have seen several of the places where these bombs were dropped, and I have learnt on the spot that several lives were lost, five in one place and two in another. When the crowd had dispersed or was going back, I should like the Council to be informed where was the necessity for dropping bombs from aeroplanes upon the town of Gujranwala? It was not in one place that bombs were dropped but in many places, and in places in the centre of the inhabited parts of the city which was all surrounded by houses. One bomb was also dropped in the boarding house of the Khalsa High School, where 160 boys were about the place at the time.

"Bombs were also dropped in the suburbs of Gujranwala where the mob had committed no excesses, and also outside the town of Gujranwala over the house of Lala Amar Nath, pleader, one of the Secretaries of the Home Rule League. A bomb was also dropped in another village close by, where I am told, a woman and child were killed by it. Now, my Lord, I should like anybody to tell me what earthly justification there could be for the dropping of half a dozen or may be more, I cannot say, bombs from aeroplanes over the

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

people of Gujranwala when the mob had dispersed or was dispersing. This happened on the 14th. Everything was then quiet in the town, and a bomb was dropped again in Gujranwala on the morning of the 15th. I should like to know what justification can be pleaded for these actions. Now, my Lord, in spite of all this the people kept quiet. There was no rising of the people, there was no violence committed by the people. What little happened near the railway station was under the circumstances which I have mentioned to you. One European gentleman, an engineer, I think, was living about a mile or so away, I cannot give the exact distance, but sufficiently far away from the scene where the mob had committed any excesses. There was no danger to European life and no insult to any European lady. Why then was this bombing resorted to? My Lord, I should like here to know what was there in the state of Gujranwala to justify the declaration, to bring it in the category of places where there was proclaimed to be a state of open rebellion?

"Now, it is noteworthy, and I wish the Council to note that the events which took place at Kasur, the regrettable murder of two Europeans there and the cutting of telegraph wires in some places, the derailment of trains here and there; these are the events which took place. The papers gave a list of them and you know them. These unfortunate regrettable events took place subsequent to the 10th of April, when a wrong had been done, when as the people believed an unjustifiable wrong had been done to a number of members of the public by the firing that was resorted to at Amritsar. My Lord, you must make allowances, take note, I mean to say, of the circumstances which surround the case, and the fact that these events took place in these places after the deplorable occurrences at Amritsar is a circumstance to be taken into account. I do not want to extenuate the evil that was wrought. I deplore it, but I think it will not be right, it would not be just to exclude from one's consideration the sequence of events in order in judging where how much blame ought to be allotted to one or other party or two certain parties. Now, my Lord, I leave the main incidents so far as they affect the question of a state of open rebellion at that. I would now invite your Lordship's attention to the second important part. What I have said has reference to the statement in the preamble of the Bill that 'owing to recent disorders in certain districts in the Punjab and other parts of India, it has been necessary for the purpose of maintaining and restoring order to resort to martial law.' I respectfully question the correctness, the truth, of this statement, and I submit that if the Council is not placed in possession of facts that may be in the possession of Government, if the Council is not placed in possession of facts which would justify the statement that there was open rebellion in Amritsar, Lahore and other places, this preamble of the Bill ought not to stand where it does.

"Then, my Lord, the second point to which I would invite attention is, in the preamble also. It says that it was necessary for the purpose of maintaining and restoring order to resort to martial law. Now, my Lord, what are the facts? I have submitted that all was quiet at Amritsar at about 5-30 or so on the afternoon of the regrettable day when several European and Indian lives were lost. On the 11th and 12th there was no violence on the part of the people. On the 13th the violence that took place was on the part of some of the authorities and not of the people. Beyond the 13th nothing took place on the part of the people. How was it necessary, then, for the purpose of maintaining or restoring order to resort to martial law? Order had been restored; the passions, the regrettable passions which had led to certain crimes, had been exhausted, had exhausted themselves. The people felt that there was nothing more to be concerned about. There is one important circumstance to which I will draw attention in this connection. The Hon'ble the Home Member made a fervent appeal to those of my friends who have been blessed with large stakes in the country to reflect what would be their fates and the fates of their property if law and order were not to be preserved. Let me tell the Hon'ble

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

Member and all who may wish to know it that the police in Amritsar was practically absent after these disorders and that the people themselves organised parties and kept watch and ward over the city and very few unfortunate events occurred ; I believe that none occurred at all, so far as I am told. The people finding that the police were not doing their duty in keeping watch and ward and giving protection, organised themselves into parties and protected their town from any mischief either within or from outside. I submit, therefore, that the statement that it was necessary for the purposes of maintaining or restoring order to resort to martial law is not correct, so far as Amritsar is concerned.

“ Now, let me come to Lahore. Is it correct in the case of Lahore ? I have submitted that while Lahore had a large European population neither at the time of the trouble on the 10th nor at any other time was any European in danger of his life or of his liberty. It is said, as was pointed out by Mr. Chanda, several days after the events that a European police officer had received a hurt and that his head had to be bandaged, but it was also stated that the hurt had been caused to him by a policeman. That being so, my Lord, I ask every Member of this Council to call for information which would convince him that there was any danger which any reasonable man—men who are overtaken by cowardice or who have a craven fear, an indefinable fear may run into panic—but I should like to know any circumstances which could have led any decent man, European or Indian, to think that his life or honour was in danger in Lahore during the days between the 10th and 15th April, when it was declared that Lahore was in a state of open rebellion. I submit it was not. I submit that it is to the credit of Lahore that though these unfortunate events, shooting of some innocent persons, had occurred, it kept its head cool and it did not give its fellow-citizens, its European fellow-citizens, men or women, any cause to think ill of the people of Lahore. It did not give any fellowmen among Europeans any cause to adopt an attitude of resentment much less of vindictiveness towards any fellowman, and yet, my Lord, it was declared that Lahore was in a state of rebellion. I submit it was not, and that is a cardinal point in dealing with this Bill.

“ My Lord, what are the orders that were issued under martial law, which even by the wildest stretch of the imagination can be said to have been demanded for maintaining or restoring order ? What are the facts which made it necessary to issue the orders for maintaining or restoring order in Lahore ? I gave notice, my Lord, I tried to elicit facts by a string of questions ; unfortunately as I have said before Government have not thought fit to answer them, and I take it, I am entitled to take it by implication, that they have admitted the truth of it ; at any rate until on behalf of Government facts contrary to those implied in my questions are stated, I am entitled in dealing with a matter of such grave importance as this Bill to assume that the truth of those statements cannot be impeached. Now, my Lord, what are the martial law orders that were issued ? Before I proceed further I should like to refer to the particular martial law order to which the Hon'ble the Home Member drew attention. If in the light of subsequent events the spirit of that order had been observed, we should not now be discussing this Bill to-day. But unfortunately the acts carried out went far beyond and greatly against the spirit of that order. The first question to which I shall draw attention is that of flogging. How many persons were flogged and for what offences ? I have looked into the question and I find that there is a provision that flogging should not be one of the punishments to be inflicted by the Martial Law Commission. If I am right, and I think I am right, then it is regrettable that flogging was resorted to to the extent it was during the continuance of martial law at Lahore, Amritsar and other places. My Lord, can anyone tell me that it was necessary to resort to flogging in order to maintain order or to restore order ? With the ample military resources of the

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; the President.*]

Empire to which your Lordship referred in your speech on the 3rd instant, did the Government stand in any danger of having their authority upset if they did not resort to this vile form of inflicting punishment on a fellow-man. I should like to know what justification can be pleaded for the flogging that was resorted to in various places. My Lord, leading men were arrested in Amritsar. I will refer to the orders as I find them in order to save time.

"My Lord, I asked the Government to be pleased to lay on the table copies of orders and proclamations, posters, notifications and notices issued by the administrators of martial law in the Punjab"

The President :—"Order ! Order !! The Hon'ble Member is entirely out of order. He knows perfectly well that this is a question he put forward to me as President to be allowed or disallowed. I disallowed it for reasons which appear on the face of the rules in regard to the asking of questions. The Hon'ble Member knows perfectly well that no discussion in Council can be permitted in respect of any order of the President under rule 7 or rule 8. I cannot allow the Hon'ble Member to proceed with what is really a discussion of my orders in regard to that matter."

The Hon'ble Pandit Madan Mohan Malaviya :—"Thank you, my Lord. I did not propose to discuss your Lordship's order. I wanted information and I was going to explain why I have not got it."

The President :—"You proposed to discuss it in another way."

The Hon'ble Pandit Madan Mohan Malaviya : "True, indirectly that would be the result, my Lord."

The President :—"Quite so. I am glad that the Hon'ble Member has made that admission. That is exactly what he is aiming at, and I do not intend to permit it."

The Hon'ble Pandit Madan Mohan Malaviya : "My Lord, the propriety of your disallowing the question was not the point I had in mind ; what I wished to explain was, that I was not able to refer to proclamations, etc., which had been issued. I hope, my Lord, that you will feel that that is the correct explanation. I am in the unfortunate position that in discussing a Bill of this comprehensive character which deals with martial law I have to refer to martial law notifications, etc., and if I refer to the difficulties in which I am placed, I have not the remotest idea, my Lord, directly or indirectly, of making a reference to the propriety of your disallowing my question. Many martial law orders and notices were issued. I am unfortunately not in a position to place them all before the Council, because I have not got them. I shall try to show that all could not possibly be justified on the ground that they were necessary for the purpose of maintaining or restoring order. That is the point on which I am asking the attention of the Council. Let me refer to one. I am told that in a lane known as the Durga Koti Wali Lane every Indian irrespective of age or position had to pass through crawling on his belly the whole length of the lane. British soldiers were placed there to see that the order was obeyed. I should like to know if this was necessary for the purpose of maintaining law and order ? Then, my Lord, the electric lighting and the water-supply of the whole of the city of Amritsar including the civil lines was cut off for four or five days from the 12th of April last. It is also a fact that a large number of wells in the city of Amritsar had been closed when Mr. King was Deputy Commissioner, because he thought that the water of the wells was not healthy. By the shutting off of electricity and water supply much hardship was inflicted on the people. I should like to know how this was necessary in order to maintain order or to restore order ? Then, my Lord, it is said that a number of people, very respectable people, including bankers, lawyers and doctors, were kept handcuffed in pairs for several days. They were

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

kept in an open racket court, where it was very hot in the day, and very cold at night. They were kept handcuffed continuously for 24 hours of the day for several days together and they had to eat, drink, sleep and attend to the calls of nature whilst handcuffed in pairs. I should like to know if it was necessary for the maintenance of law and order to issue such orders or carry out anything of that sort? Further, I am told that when on the 15th April the aeroplanes did their work and frightened the people of Gujranwala as they did, there was not the smallest suggestion that there was any spirit of rebellion or resistance in the town.

"The Deputy Commissioner of Gujranwala, with a strong body of police and European soldiers and with an armoured car marched to the house of Lala Mela Ram, B.A., LL.B., pleader, and arrested and handcuffed him and took him away, without allowing him to dress himself or to speak to his family. The party then met Mr. Labhsingh, M.A. (Cantab), Barrister-at-law, and arrested and handcuffed him and chained him with Lala Mela Ram. They proceeded to the houses of twenty other gentlemen (pleaders, bankers and other respectable citizens) and arrested and handcuffed and chained them all together. The persons so arrested and chained together were marched to the city, two and two, headed by a Hindu and a Mahomedan, to ridicule Hindu and Mahomedan unity as was stated at the time by Colonel O'Brien. Two Municipal Commissioners under the order of Colonel O'Brien walked in front of the procession thus formed and pointing to the aeroplanes hovering overhead kept on shouting to Indian people to make way for the prisoners on pain of being bombed or shot down. After being thus paraded through the principal streets of the town the prisoners were taken to the railway station and put into an open coal truck which was guarded by a number of European soldiers with fixed bayonets and by an armoured engine with a gun directed towards the prisoners. The prisoners were not allowed to leave their places even for the purposes of attending the calls of nature, and some of these gentlemen had to be there and to suffer all the trouble in the condition they were. My Lord, I am further told that on reaching Lahore railway station and before being removed to the jail, the prisoners were kept for about ten hours along with thirty other prisoners in a room which opened by means of an iron barred and panelled door into another room which was used as a latrine. My Lord, I am told that a number of pleaders and other respectable citizens in the town of Shahupura in the District of Gujranwala, were arrested and treated in a manner similar to that adopted at Gujranwala and were subjected to similar inconveniences and indignities when being taken to Lahore. I am told further that almost the entire population of the town of Shahupura above the age of 10 years, irrespective of rank or social position, was summoned by Mr. Bosworth Smith, I.C.S., Joint Deputy Commissioner and one of the Martial Law Officers, and made to sweep a large open piece of ground. I am told, further, my Lord, that a large marriage party of certain Mahomedans of the village of Rajgarh within the Municipal limits of Lahore was arrested and the members thereof were convicted by one of the Martial Law Officers. My Lord, these are some of the allegations which have been made in regard to the unfortunate events at Amritsar and Gujranwala. I should like to know which of these punishments was necessary for the purpose of maintaining or restoring order. Now, my Lord, I will draw the attention of the Council to some more facts, to give them an idea of the indignities perpetrated in other parts. I will draw the attention of the Council to the allegation, among others, that Moulvie Ghulam Mohi-ud-din, pleader of Kasur, who had last year been publicly rewarded for his services in connection with the War and Moulvie Abdul Qadir, a senior pleader of Kasur, were arrested and kept in confinement for some weeks in an improvised lock-up near the railway station, and were then

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

released without any charge or trial. I am told that several school boys at Kasur were flogged, and I should like to know how that was necessary for the purpose of maintaining law and order. My Lord, it has been stated, and the facts cannot be denied, that Mr. Manoharlal, M.A. (Cantab), Bar-at-Law, formerly Minto Professor of Economics at the University of Calcutta and now a prominent member of the Lahore Bar, and a Syndic of the Punjab University, was arrested and kept in jail for nearly a month, including one week of solitary confinement. Will anybody tell me why it was necessary to put this respectable gentleman to this indignity? Will anybody tell me why this gentleman was arrested? I am told his whole sin was that he happened to be one of the trustees of the *Tribune* paper which had enraged some of the officials, particularly the Head of the Punjab Government. For the crime of being a trustee of a paper which was edited by a gentleman whose name was known and whose articles have been pronounced by most competent and sober Indians to have been written very carefully, this respectable gentleman, a member of the Bar and a Minto Professor, was subjected to this indignity. I should like to know from the Council's own lips how much indignity was inflicted upon him and how much hardship he suffered. I should like to know why this was done? Then Rai Sahab Seth Ram Pershad, a Municipal Commissioner in Lahore, one of the largest house proprietors and bankers of Lahore, was arrested in April last and marched in handcuffs to the Central Jail, a distance of nearly three miles, kept in solitary confinement, and then released without trial after several weeks. Does the Hon'ble the Home Member ask the Council to indemnify these officers who inflicted these indescribable indignities upon their fellowmen as respectable as any Member of this Council? Does the Hon'ble the Home Member mean to ask the Council to indemnify officers against such acts? My Lord, the list is long. I do not wish to take up the time of the Council unnecessarily except to the extent that it may be necessary to impress upon every Member of this Council the necessity of examining carefully the proposals in the Bill and the proposal which is now before the Council before giving its assent. My Lord, there is a case from Amritsar, of Dr. Kedar Nath, a retired Civil Surgeon, aged 60 years, who had been invalided in 1909 on account of heart troubles; he was arrested and handcuffed and marched through the streets with 62 other prisoners to the jail and kept in confinement for a fortnight with two other prisoners in a cell which was meant for one person and then released without trial. Now, martial law notices were posted at the houses and shops of a number of people at Lahore with directions that the occupants must guard the posters, and that if they were damaged, torn or disfigured, the occupants would be severely punished under martial law. My Lord, one of these persons, an English lady, the wife of Pir Taj Din, herself told me that she had to keep a watch to see that the posters stuck to their house were not damaged or torn so that she and her husband might not come in trouble, and all this trouble could not be prevented by the fact of her being an English woman. I should like to know why it was necessary to subject respectable people to all this hardship and indignity?

"My Lord, the manner in which the students were dealt with can be gleaned from another incident to which I will call the attention of the Council. The students of Lahore have been wronged beyond expression, and I should like to know how it was necessary for the maintenance of law and for restoring order to deal with the students in the manner that was done. All the students of the Dayanand Anglo-Vedic College, the Dayal Singh College, Lahore, and the Medical College at Lahore were required to attend roll calls before military officers when they were made to stand in the sun guarded by the military with fixed bayonets and this process was continued for three weeks immediately preceding their University examinations.

"In the case of the King Edward Medical College, the total distance which the students were made to traverse on foot in the summer heat for attending the roll call, amounted to not less than 16 miles a day. Some students actually

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

fainted while going to, attending, or returning from, such roll call parades and it was after that that a nearer place was fixed for taking the roll-call. My Lord, the Principals of certain Colleges in Lahore were coerced by the Martial Law Administrator to inflict very severe punishments on a certain percentage of their students without regard to any evidence of their guilt. Some of them were expelled, some were rusticated, some were sent down one year, and I am told that a number of students were fined. I am told that the total number of students who have been subjected to this injustice and wrong is about a thousand. I should like to know how this was necessary to maintain order.

“ My Lord, it has been alleged by some of those who were tried that in the cases tried by some of the officers who were empowered to deal with these cases, especially towards the close of the martial law period, the accused were convicted without the whole defence evidence being heard, even though witnesses were present, on the ground of want of time. For instance, in the case of Lala Gurdasram and Lala Shivaram, pleaders of Hafizabad in the District of Gujranwalla, who were sentenced to two years' rigorous imprisonment each by Mr. Wace, I.C.S. My Lord, a student, Ramlok, son of Daulatram, aged 17 years, was arrested on the 25th April, and having been detained in police custody for three weeks, was released for want of evidence against him. Several days after his release, his father Daulatram appeared as a defence witness for one Ram Ditta and deposed that the police had asked Ram Ditta to turn an approver but he had refused to do so. On this his son Ramlok was re-arrested on the following day and put on his trial for the very same offences for which he had been arrested and released before. The trial of Ramlok was fixed for the 9th and 10th June, but as martial law was going to be withdrawn at midnight on the 9th June, the trial was accelerated to the 5th June without any previous intimation having been given to the accused or to his father. The accused was tried and sentenced to one year and seven months' rigorous imprisonment for offences under sections 147, 426 and 506, Indian Penal Code, by Mr. A. L. Hoyle, I.C.S., officer presiding over summary courts under martial law, without any chance being given to him to produce his defence.

“ And, my Lord, one Bhagwansingh, a meat seller of Lyallpur, was arrested on the 6th June last and placed before the Martial Law Summary Court on the 7th June; on the 8th June part of the evidence was heard, and the case was adjourned; but as martial law was to be withdrawn at midnight on the 9th June, the case was taken up at 11 o'clock that night without any opportunity being given to his counsel to be present, and the accused was sentenced to three months' rigorous imprisonment.

“ My Lord, in some of the cases tried by the Martial Law Commissioner constituted under Ordinance No. 1 of 1919, no record of evidence of witnesses, either for the prosecution or the defence, has at all been made, nor judgments recorded, though heavy sentences have been awarded. For example, the case of *Crown versus Fazla*, son of Gumardi Kakezai, convicted under section 124-A, and sentenced to transportation for life by the Commission presided over by Lieutenant-Colonel Irvine, on the 26th of April 1919, and trials Nos. 20 and 21 of Hansraj and Hariram of Amritsar, before the Commission presided over by the Hon'ble Mr. Justice Leslie Jones, I.C.S., Judge of the High Court of Judicature at Lahore, convicting the aforesaid persons to seven years' rigorous imprisonment each under section 412, Indian Penal Code. Now, my Lord, in several other cases examination of outside witnesses for the defence was refused except by interrogatories. In some, no one would like to believe it, but in some cases even the offence with which a man is charged has not been mentioned. I hold in my hand a copy of an order with findings dated 26th May 1919, passed in the Court of A. L. Hoyle, Esquire, Magistrate, 1st Class, of the Lyallpur district at Lyallpur, in Martial Law Cases held at Lyallpur, for Dijkote Tehsil, Lyallpur.

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

It says :—

‘ Finding—All accused guilty.

‘ Penalty or disposal :—

‘ Accused No. 1, Basant Ram, 2 years’ rigorous imprisonment,

‘ Accused No. 2, Charan Dass, 9 months’ rigorous imprisonment,

‘ No. 3, Jawandar Ram, 9 months’ rigorous imprisonment,

‘ No. 4, Bhagat Singh, 6 months’ rigorous imprisonment.

(Sd.) A. L. HOYLE,

Summary Court.

“ My Lord, this is the way in which people have been deprived of their honour and liberty. Is it meant that these cases shall be indemnified ?

“ There is another copy of an order dated 28th May 1919 with finding, passed in the Court of the same gentleman, Mr. A. L. Hoyle, Magistrate, 1st Class, at Lyallpur.

‘ Finding.

‘ Accused 1 to 12 each guilty of rioting (section 147, Indian Penal Code) and offence under section 25 of the Telegraph Act, accused 13, 14, 16 guilty under section 147, Indian Penal Code, accused 15, 17, 18 doubtful.

‘ Penalty or disposal.

‘ Accused Sita Ram (1) 2 years’ rigorous imprisonment for each offence, accused Ram Dutt 6 months’ rigorous imprisonment for rioting and 18 months’ rigorous imprisonment for the offence under section 25, Telegraph Act, Amar Nath (2), Kesar Mall, Gyan Chand, Amar Nath (6), Agya Ram, Kaka Ram, Hari Chand, Divan Chand, Girdhari, Sita Ram (12), 6 months’ rigorous imprisonment for rioting and 1 year’s rigorous imprisonment under section 25 Telegraph Act. All sentences consecutive.

‘ Kesar Singh, Teja Singh and Bhag Singh 3 months’ rigorous imprisonment, Nand Singh, Balwant Singh and Jaimal Singh acquitted.

“ Now, my Lord, this is the way in which havoc has been made of the liberty and honour of many fellow-subjects of ours.

“ My Lord, there are other instances to some of which I must invite attention. An order was issued that every Indian who should pass by a European must salaam, and in some places they were told that they must get down from a carriage if they were driving at the time. In several instances unfortunately several Indians were flogged or otherwise punished for not salaaming to Europeans and not carrying out this martial law order. In one case one Gopaldas, son of Deviditta Mal, caste Arora, of Akalgarh, who was a telegraph peon at Lyallpur during the martial law days was arrested for not salaaming a European officer to whom he had gone to deliver a telegram and that he was given five stripes for it in jail, although he protested that he had actually salaamed the officer and was willing to do so again. I should like to know, my Lord, if this was necessary in order to maintain law and order. In some of the districts where martial law was in force orders were issued that every Indian driving in a carriage or riding a horse must get down when he passed by a European, and, further, that Indians carrying open umbrellas must close and lower them when they met a European.

“ My Lord, the evil was not confined to these few places and these few cases to which I have drawn attention. There has been much more injustice done, and I shall draw attention to one of these that occurred in Ramnagar. I am reading from the Judgment at Ramnagar, my Lord. There were 28 persons accused. No un-toward event happened at Ramnagar at any time.

“ When the news of Gandhi’s arrest reached there, I am told that a few boys expressed their mourning for the event and went to bathe in a river in the locality

THE INDEMNITY BILL.

[*Sir William Vincent ; Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

The Hon'ble Sir William Vincent:—"May I inquire, my Lord, if this is the Ramnagar where the King's effigy was burnt?"

The Hon'ble Pandit Madan Mohan Malaviya:—"This was alleged but it was an untruth."

The Hon'ble Sir William Vincent:—"I only wanted to know, my Lord."

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, my friend thought that he had scored a great point in mentioning that. I have not less respect for His Majesty the King Emperor than the Hon'ble Sir William Vincent has, but I will show to your Lordship and to the Council that an untrue story was concocted and had to be abandoned, and that the facts would not justify the punishment which was inflicted upon the people. Now, my Lord, at Ramnagar, on the 15th instant, a certain number of boys met together and expressed their grief or resentment, whichever you please, at the arrest of Mr. Gandhi and the Rowlatt Act. They went and had a bath in the river which runs through the locality. The event passed off, no notice was taken of it, and it was reported that there was quiet in Ramnagar. A few days afterwards the Deputy Commissioner, Colonel O'Brien I think it was, went there, certain instructions were given and the Revenue Assistant called a meeting of the citizens of Ramnagar and arrested four men. Several days afterwards, I think it was on the 12th of May or the 28th May, I do not exactly remember which, 23 or 24 other persons were got hold of and also *challaned*. Another man was subsequently arrested and so the party was made up to 28. The charge against them was that they had burnt the effigy of the King. I will read the judgment to your Lordship. It says:—

'Bhagwan Dass, Kapur Chand and Barkat Ali are eye witnesses to the fact that a mob of Hindus in whom the 28 accused were included burnt the effigy of King George on the bank of a creek of the Chenab near the town of Ramnagar and then marched back through the town. The leader in this was Hari Singh Giani, Headmaster, who produced a small effigy which he burnt on a funeral pyre on the bank and throughout acted as crier, while others answered as chorus. The cry raised was 'Rowlatt Bill Kala Bill Marya' (and His Majesty's name is brought in and abused) 'The Rowlatt Bill, Black Bill is dead' (and abuse of the King Emperor). 'The ashes were cast into the river by Hari-Singh and most people bathed as purification. Other witnesses one Hindu and several Muhammadans, give evidence that Hari Singh Giani, Daulat Ram, Balmokand, Karam Chand and Gobind Sahai organised a *hartal* on the afternoon of the 15th and had called all the Hindus to a meeting near the river. On their return they came through the town headed by Hari Singh as crier, shouting out Rowlatt Bill Kala Bill marya (the Rowlatt Bill, the Black Bill, is dead, and abusing His Majesty—I am translating the words, I do not wish to utter them). 'The crowds are said to have consisted of about 200; but all three principal witnesses united in naming the 28 accused. Some named others but these have been weeded out where not corroborated. The witnesses who saw the crowd return also named the accused though one or two were doubtful in the case of 5 or 6.

* * * * *

'All the accused plead not guilty. Most of them call witnesses for good character or for *alibis* of no value. It is noticeable that witnesses for the defence do their best to prove their own absence during the period of the alleged offence, which suggests that they are not prepared to deny that such a thing took place.

* * * * *

'Of the defence witnesses worth noticing, those for Balmokand tried to prove an *alibi* for him in Gujranwala. He himself claimed to be in Gujranwala up to 1-30 on the 15th.

* * * * *

'Other witnesses speak of having met Balmokand on the road. But they avoid arguments which might agree and be tested on cross examination. On the other hand, it is shown by evidence that Balmokand rode off from Gujranwala and passed Manchor 3 miles from Ramnagar at midday on the 15th.

* * * * *

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

'It is indisputable that the affair of burning the King Emperor (he says burning the King Emperor but he evidently means the effigy of the King Emperor) took place. There certainly was a *hartal* and the people went to the river. Although a few witnesses for the defence try to declare that there was no *hartal* ever, this is disproved by the first report when it was known that anything more serious had happened and also by the anxiety of the majority of the defence witnesses to prove their own absence. The evidence that the King Emperor was burnt in effigy by Hari Singh with the plaudits of the mob sitting round him is also ample. Two Hindus and one Muhammadan gave evidence to this, as also to the casting of the ashes into the river and the purification of the Hindus by bathing. Many more witnesses prove the return of the party through the town with Hari Singh chanting in front 'Rowlatt Bill Kala Bill marya, etc.' The case did not come to light for a week and could not be investigated till later, but this was due to the absorption of all officials in the outrages elsewhere and the Sub-Inspector in those of Akalgarh. The story is not one that would have been invented. I find that the case has been well sifted and that the 28 accused are proved by the evidence of the prosecution to have been there * * *

'The offence is so gross that the accused are lucky in not having been sent up to a Tribunal. Hence the maximum imprisonment must be inflicted on almost all. Many of the accused are wealthy and heavy fines are very suitable. I sentence them as under :—

1. Daulat Ram,
2. Balmokand,
3. Karam Chand,
4. Gobind Sahai,
5. Hari Singh,

to rigorous imprisonment for two years, of which three months to be in solitary confinement and to pay fines of rupees one thousand each, or in default rigorous imprisonment for six months in addition.

" Now, my Lord, the people say that if there was a fair trial it would be established that this story was entirely untrue, and that they did not burn the effigy of the King Emperor. Now, these people, as the judgment says, were wealthy and respectable, and for that reason they were sentenced to such heavy punishment and such large fines, which, in the case of such people, is a very serious matter. These respectable people had no reason to indulge in such foolish and wicked mischief, but you subject them to trial in a summary court, where their honour is concerned, and you do not give them an opportunity to establish their innocence, and they are sentenced to two years' rigorous imprisonment. These are the cases in which the Bill seeks that the sentences shall be confirmed. I submit, my Lord, that nothing could be a grosser wrong than to ask the Legislative Council to confirm sentences of this nature, where men have not been given an opportunity to have their defence properly put and where they have not been given an opportunity to appeal to a higher tribunal.

" Now, my Lord, I will not deal with any more cases. I think what I have submitted is sufficient to show how great is the need for having the facts of these unfortunate times sifted and well established before an Indemnifying Bill should be dealt with by this Council. As I have submitted before, there are two points essential in asking for an Indemnifying Act. One is, that there should have been either open rebellion or war against the King or riots or insurrection which amounted to war, and, secondly, it should be necessary to show that, even if such a necessity arose and that the acts done were such as in the language of the three Statutes which he quoted were so much to the good of the public, so much for the benefit of the public, that those acts ought to be justified by the Legislature, and that the officers who did them ought to be indemnified. I submit, my Lord, that this has not been shown to be the case. Now, the Hon'ble the Home Member tells us that the question whether martial law was necessary will be discussed and settled by the Committee of Inquiry, but he says 'Go further. Take the fact that martial law was declared. Then I ask you to consider the case, the position, the pitiable position, of those officers

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

who were ordered or directed or commended to do certain acts. We promised them in our Resolution of the 14th of April 1919 that we would give them our ample support. We are bound in honour to protect them from the results of actions which they undertook upon that assurance.' My Lord, that is begging the whole question. If you are not right in giving them that assurance, that assurance will not stand them in good stead. You ask that the Council should pass this indemnifying measure, and you say that the question whether martial law was necessary or not shall be determined by the Committee of Inquiry. I submit that this is a preposterous proposition to put forward before this Council. What will be the effect of the decision by the Committee of Inquiry as to whether there was open rebellion in Lahore or Amritsar or not? In the quotation to which I have referred Earl Halsbury has made it clear that the Crown may not issue commissions in times of peace to try civilians by martial law; but when a state of actual war, or of insurrection, riot or rebellion amounting to war exists, the Crown and its officers may use the amount of force necessary in the circumstances to restore order.

"The cardinal point is, whether there were circumstances which justified the declaration of martial law. You cannot go on to deal with this Bill without first dealing with that cardinal point. If you think that you owe it in courtesy to the Inquiry Committee which you have constituted to leave the decision on that important matter to them, I say in fairness to every one concerned, including the Government, stay your hand, do not proceed with this Bill. Wait for the result of that inquiry. Let the facts be sifted out and when the facts have been sifted out, indemnify officers for all acts done in good faith with reasonable care and caution, for restoring order or maintaining it, wherever it might have been necessary. No sensible man would for a moment object to His Majesty's officers or those acting under their instructions being indemnified and protected against the consequences of acts done by them in good faith with reasonable care and caution in circumstances where the existence of martial law would be justified. But where the existence of martial law is not justified, where the very foundation upon which martial law rests is non-existent, I submit, these officers have to take their chance of having their cases adjudged and determined in the light of equity and justice by ordinary Courts in the country.

"Now, my Lord, the Hon'ble the Home Member said he did not want to prejudice the inquiry that the committee is going to make. But I am sorry to say his observations read outside this Council and in England will leave only one impression, though he may never have meant it. His speech could not be better framed if the object was to prejudice the inquiry than it was framed. My Lord, the Hon'ble the Home Member says: 'Well, I do not want to go into the facts—that is a matter for the Committee of Inquiry. But the Committee of Inquiry are not going to censure any man for performing any act in good faith.' What is this, my Lord? Why raise the question now? When you say the Committee of Inquiry is not going to pass any censure upon Government, what, I ask, is the Committee going to be allowed to do? Either state things frankly and fairly and leave the matter to the Committee's decision, or say frankly, as you have the power to say it, that you do not want any inquiry into these dark deeds and that you want to throw a veil over them. Throw it if you can; in this country you can do it, but of course the fear of the English public and Parliament might deter you from doing so. In that case I say stay, wait, do not proceed with this Bill until you have the report of the Committee of Inquiry. The Committee of Inquiry will certainly be prejudiced if they read the speech of the Hon'ble the Home Member. They might well take it as their instructions from the Government, because the Hon'ble the Home Member does represent your Excellency's Government in all these matters, even more perhaps than your Excellency does. Therefore, with this speech before the public, the public at any rate will consider it very remiss on that part of the representative

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

of the Government to give expression to the opinions and remarks to which the Hon'ble Member has given expression to-day. The Hon'ble Member also said that he did not want to prejudice and points to a provision in the Bill, particularly guarding against the effect of this Bill upon any judgments which the Privy Council may wish to pronounce. But, my Lord, if you indemnify acts in the manner in which you are doing with the provisions in this present Bill, well may their Lordships of the Privy Council complain that you have done what no ordinary citizen is expected to do, namely, to pronounce judgment on some important aspects of the case before they have had time to deal with them. My Lord, I wish here to make it very clear that I have done all that I could as an individual Member of this Council to postpone the discussion of questions of fact and law relating to the events that have occurred. I gave notice of questions—I do not refer to them now—I am only showing how I gave notice of these questions with a view to elicit facts which might postpone the introduction of the Bill. Many Members of this Council, if not all, were anxious and they expressed their desire to the representatives of Government that the introduction of this Bill might be delayed until the Committee of Inquiry had submitted their Report. My Lord, we are not anxious for any particular verdict. God knows I am not anxious that the fault or guilt shall fall upon any particular individual. I only want the facts to be proved; I only want that the facts being proved whosoever may have been responsible for these facts should stand a trial before the public opinion of this country and the public opinion of the High Court of England. We are only anxious that if you adopt a particular course, if you appoint a Committee of Inquiry to go into those facts, we only think it fair that a discussion upon facts which the committee has to deal with or the law which the committee may have to consider should be avoided. I should have been very glad to avoid such a discussion—it has been forced upon me and I wish this to stand on the record of the proceedings of this Council. But, my Lord, we are driven to this. The dead men of Amritsar and of other places, their souls appeal to us to point out to your Excellency's Government the facts which are cardinal, of vital importance, in a consideration of this affair. The men who have lost their sons, the men who have lost their brothers, the women who have lost their husbands, the mothers who have lost their sons who are mourning the deaths of these persons who have met an untimely end, they call for the most careful consideration of this affair. They call that no decision should be arrived at and that no Act should be passed which would prejudice a proper consideration of their case. The Government cannot say that the delay of a few months will really prejudice their position. If the Hon'ble the Home Member, advised by the Hon'ble the Law Member, felt that if a Bill like this is not passed every moment of detention of numerous persons who have been condemned by the Martial Law Commissions and the Martial Law Summary Courts in jail is an unjustifiable detention of such persons, why did the Government not introduce the Bill earlier? Why did you not call a meeting of the Legislative Council earlier to deal with this matter? If they have allowed so much time to pass, if it is only now that public opinion is forcing attention to those questions, to what has happened in the manner in which it is doing, that they now sit down and consider what they should do, and if they now want to introduce provisions to safeguard them, I say they might well have waited, they might well wait another few months until the Committee have reported.

“My Lord, there is a provision giving retrospective effect to the Bill; that provision might be of some use to those who want this Bill in order to prevent any evil result which they do not desire in cases which they may institute. I do not know of any case which has been instituted. I believe the Punjab has been frightened out of description; the Punjabis have been terrorised in a manner in which I have not known the people of any other part of the country to have been terrorised. In spite of the presence of Sir Edward Maclagan in the Punjab that terror has not yet entirely been removed from the minds of the

THE INDEMNITY BILL.

[Pandit Madan Mohan Malaviya.]

[18TH SEPTEMBER, 1919.]

people. In this state of things they are not anxious, I do not know that many are anxious, to institute any suits. I do not know that any suits have been instituted and that many are anxious to rush forward with cases into the Courts. All that they desire at present is, to know what has happened and to have it established and then to consider what should be done. Indeed, they might well expect the Government to take such action as the Government might think fit. Because you cannot expect that where the number of persons to whom injury has been done is so large and many of them are poor, it is hard to expect that they will be able, that many of them will be able, to seek redress and to obtain it. It is only if the conscience of the Government, to which the Hon'ble the Home Member referred, if the conscience of the Government should be stirred by the recommendations of this Committee of Inquiry, if the Government should think it that they owe it to His Majesty's Government and to the name of Britain and to British justice, to bring certain persons, they may be Indians, they may be Europeans, to bring certain persons to justice, it is only then there would be a chance of justice being done.

"My Lord, there is no reason why the Government should be in a hurry to proceed with the Bill.

"Now, having said this much on the general aspect of the Bill, I shall now address myself to some of its provisions and to the remarks which the Hon'ble the Home Member made in regard to it. The Hon'ble the Home Member said that, when martial law is introduced, the officers of Government have no time to wait, to examine things that they must take action, that they may perform acts which are illegal, but so long as they perform acts which are moral and proper they should be protected. From what I have said it will appear that it is very important to find out which acts come under that category, which though not legal are right and proper. Then he said that an Indemnity Bill of some character is the inevitable sequel of the introduction of martial law. I have myself said in the early part of my address that an Indemnity Act of a certain character may be inevitable, but this involves two important questions. What are the circumstances in which an Indemnity Act is passed? and what would be its nature? The Hon'ble the Home Member quoted Dicey, who himself says that the time the Act is passed must be one of national danger. I have shown that there was no national danger. In a few cases individuals lost their reason, were carried away by passion and committed acts, but we cannot say that these constituted national danger. My Lord, in this connection I wish to draw attention to the contrast furnished by a case I shall cite, and to which reference was made in the cablegram of the Indian Congress to which I alluded before in Council. At the time there was trouble at Lahore there was also trouble at Ahmedabad and Viramgam. His Excellency the Governor of Bombay allowed Mr. Gandhi to go to Ahmedabad and see the people and to work freely among them. He was able to satisfy the people and to quiet them, also to censure them for the outrages they had committed. Martial law was gone in a few days. That was all that was needed at places like Amritsar and Lahore at the utmost. I say there was no justification for martial law in Amritsar, because it was stated to be quiet after 5-30. Assuming even that there was justification for martial law on the 10th April, it should have been withdrawn by the 12th or 13th. The action taken in Ahmedabad forms a happy contrast and affords an instructive lesson in the light of what has happened here. The Hon'ble the Home Member says that there must be a period of national danger when martial law is introduced. I agree with him, but I submit that there was not a period of national danger in the Punjab to justify the introduction of martial law. The other point that he referred to in the quotation from Dicey was, that the acts done must be *bona fide* and solely in the public interest. It is only in such cases that the persons can be indemnified. I ask the Council, in view of what I have said, to judge whether a Bill of such a sweeping character should be placed before the Council in the light of events that exist now, at a time of non-ascertainment of facts and of the allegations.

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

which have been put forward on behalf of the people. Then he referred to various Colonial Legislatures including the South African which have passed Indemnity Acts.

"I may mention here that members of this Council are put to great inconvenience for want of a good library for ourselves. We have at times to borrow books, not only from the library of the Legislative Department which perhaps causes a little inconvenience, but also to get them from distant places in order to carry on our work. I am indebted for a copy of the Cape of Good Hope Act to the Hon'ble the Law Member, who at my request allowed me to refer to it. The absence of such books hampers our work; if we had such books we might be able to save the time of the Council. In the case of this Cape of Good Hope Act the question was considered by a Commission consisting of the Lord Chief Justice, General Ardagh and Judge Bigham of His Majesty's High Court. It consisted of a court of gentlemen of the type I should like to have seen here. It would support some other points to which reference was made in a previous Resolution. Now to come to this Act, VI of 1900. This was passed while the Boer war was going on. It set out the circumstances under which the Act was introduced. It was to punish those persons who had taken up arms against Her Majesty the Queen or otherwise assisted her enemies. It was for the suppression of hostilities and for the maintenance of good order. My Lord, this Act cannot afford any parallel for the legislation which is now under consideration. The Act passed in 1902, No. 4 of 1902, is also important. It was an Act to indemnify the Governor of the Colony and the officer commanding His Majesty's forces in the Colony and all persons acting under their authority and in good faith in regard to acts done or committed during the existence of martial law, to validate certain sentences passed by courts-martial or military courts and to confer certain powers on Commissioners to inquire as to, and reporting on such sentences being still unexpired. And it promised indemnity in respect of certain acts, matters and things whatsoever that were ordered as necessary for the suppression of hostilities or the establishment and maintenance of good order and government in or for the public safety of the Colony between certain dates.

"Now, my Lord, I submit that here again it had reference to the suppression of hostilities or the establishment of good order and government. It has to be shown that this was necessary.

"Secondly, my Lord, this Act which, I think, has been taken as a model for the Bill which is now before the Council points out that it is only acts done or committed during the existence of martial law which can be indemnified. The Bill in the Statement of Objects and Reasons does say that 'the object of the Bill is to indemnify officers of Government and other persons for acts done *bona fide* in the course of martial law during the recent disorders, and to provide for the continuance of the sentences passed by courts established under martial law.' Yet, the Council will see that the provisions of the Bill go far beyond it. Whether this was deliberate or unintentional, I cannot say, but the Council will see that the Bill says in clause 2 'No suit or other legal proceeding whatsoever, whether civil or criminal, shall lie in any court of law against any officer of Government, whether civil or military, or against any other person acting under the orders of any such officer for or on account or in respect of any act, matter or thing ordered or done or purporting to have been ordered or done for the purpose of maintaining or restoring order in any part of British India on or after the 30th of March 1919 and before the commencement of this Act.'

"Now, my Lord, martial law as we all know was proclaimed in Amritsar, and it came into force in Lahore on the midnight of the 15th or rather at 12 o'clock of the night between the 16th and the 17th. By what justification

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Sir
George Lowndes.*]

[18TH SEPTEMBER, 1919.]

events which took place from the 13th March to the date on which martial law was proclaimed have been included in this draft of the Bill, I am unable to understand. Ordinarily such a Bill should be confined to the period during which martial law prevailed, but this Bill goes beyond that period, and the second terminus which it fixes is the commencement of this Act. I should like to know what justification there is for that either.

"My Lord, the second point to which I would refer is this. This Bill says that 'provided that such acts, matters or things were ordered or done in good faith in a reasonable belief that they were necessary for the said purpose.' This, my Lord, is very objectionable. All that you ought to provide for is, that action should be done in good faith and were in fact reasonable, necessary or expedient. You cannot say that if a man were to shoot his fellowman he has acted in a reasonable belief or in good faith. Now, is that man to be indemnified? In this matter I would draw attention to a few observations of Mr. Justice Chamberlain in one of the State trials which took place in 1799. It was the case, my Lord, of *Wright vs. Fitzgerald*. Wright brought a suit against Fitzgerald for assault and battery. He had been flogged by the order of Fitzgerald. 50 lashes had been given to him and in addition 50 more. Now, in disposing of that case, Mr. Justice Chamberlain proceeded to charge the jury as follows:—'His Lordship said that the jury were not to imagine that the legislature, by enabling Magistrates to justify under the Indemnity Bill, had released them from the feelings of humanity, or permitted them wantonly to exercise power, even though it were to put down rebellion. No; it expected that in all cases there should be a grave and serious examination into the conduct of the supposed criminal; and every act should show a mind intent to discover guilt, not to inflict torture. By examination or trial he did not mean that sort of examination and trial which they have been then engaged in, but such examination and trial, the best the nature of the case, and the existing circumstances would allow of.' That was what Mr. Justice Chamberlain said. He said that 'every man, whether Magistrate or not, was authorised to suppress rebellion, and was to be justified by that law for his acts, it is required, that he should not exceed the necessity which gave him the power; and that he should show in his justification, that he had used every possible means to ascertain the guilt which he had punished; and above all, no deviation from the common principles of humanity should appear in his conduct.'

"My Lord, the Legislature is asked at this moment

The Hon'ble Sir George Lowndes:—"Will the Hon'ble Member kindly give me the reference?"

The Hon'ble Pandit Madan Mohan Malaviya:—"It is State Trials, Vol. XXVII, 1820. Now, my Lord, I submit that in these remarks of Mr. Justice Chamberlain, we get a great guidance for our work in which the Council is at present asked to engage itself. We are not a Court sitting here to consider whether a person charged for having committed any particular act during the recent disturbances should have a decree passed against him or should be exempted. The Legislature is sitting at present to lay down the principles and the provisions under which the case of such a man should be tried and considered, and, I submit, the remarks of Mr. Justice Chamberlain are therefore of peculiar help and guidance to us here.

"In the Bill what is provided is that—

'It is expedient to indemnify officers of Government and other persons in respect of acts, matters and things ordered or done or purporting to have been ordered or done for the purpose of maintaining or restoring order, provided that such acts, matters or things were ordered or done in good faith and in a reasonable belief that they were necessary for the said purposes.'

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

"Now, my Lord, my particular objection is to the expression 'in a reasonable belief.' I submit that would make it impossible for any plaintiff, ordinarily speaking, to succeed in any suit which he might institute against any individual who had wronged him. And that is particularly so when you look at section 2, for it says that no suit shall lie against any officer of Government who may have done certain things, 'provided that such officer or person has acted in good faith and in a reasonable belief that his action was necessary for the said purposes.'

"Now, my Lord, I submit that the officer must not only show, even apart from the rules of evidence in section 3, to which I shall refer later, that he had not only done the act in good faith, but he should have done it with reasonable and proper care and consideration. In the words of Justice Chamberlain 'he should not have deviated from the common principles of humanity which should always appear in his conduct.' Now, I submit, my Lord, that the Bill goes much further than this and gives a protection which is not justified by previous enactments, or by considerations of reason and justice. In that case, my Lord, the charge was that Fitzgerald had been wrongly flogged. In this case we have many cases in which flogging was resorted to rather freely. In that case, in concluding the judgment of the case, Lord Elverton, speaking of the defendant, for whom it had been pleaded that he had done many acts of loyalty, said: 'he had indeed manifested his loyalty most fully for he had manifested it in blood and written it in blood on the plaintiff's back'. My Lord, here too the backs of many persons bear evidence of the deeds that have been done, and they should be allowed to ask those who so injured them to prove that they had acted with reasonable care and caution in the interests of public peace and good order, and not deviating from the principles of humanity.

"My Lord, these provisions to which I have drawn attention become much more objectionable when you come to clause 3 which says:—

"For the purpose of section 2 a certificate of a Secretary to Government that any act was done under the orders of an officer of Government shall be conclusive proof thereof, and all action taken for the aforesaid purposes shall be deemed to have been taken in good faith and in a reasonable belief that it was necessary therefor unless the contrary is proved."

"My Lord, what is given with one hand is taken away by this clause in section 3 of the proposed Bill, because if a certificate from a Secretary to Government that any act was done under the orders of an officer of Government shall be conclusive proof thereof, and all action taken for the aforesaid purposes shall be deemed to have been taken in good faith and in a reasonable belief that it was necessary therefor, I submit you are shutting out all chances of success for any plaintiff who may wish to have a suit instituted, to have an injury done to him investigated. You say, unless the contrary is proved, an action shall be deemed to have been taken in good faith and a reasonable belief that it was necessary. Let us assume—I may be doing an injustice to the gentleman, but I have him as an illustration—that Mr. Mani Lal, Barrister-at-law, instituted a suit, brings an action for compensation, for damage for the wrong done to him in his being confined in the manner in which he is confined, in a cell and otherwise, why should he be asked to prove that the person who caused him the injury acted without good faith and without a reasonable belief? Why should not the burden of proving that he acted in good faith and reasonable belief be cast upon the defendant? It ought to be sufficient for the purpose of a fair trial of a character like that in any Court that the plaintiff should state before the Court on oath the facts of the case, and if the facts of the case did not show that he was either a criminal or had been condemned, or that he was guilty of any act for which he should be locked up, then it should be for the defendant to establish that the facts were such that he could not but act in the

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[18TH SEPTEMBER, 1919.]

manner in which he did, and that therefore he should be excused for having so acted. It is a double wrong, my Lord, a double wrong to plaintiffs, to persons who are subjected to all these humiliations and wrongs, that they should be called upon to prove that those who oppressed them had acted without good faith and without reasonable belief. I submit, my Lord, this clause should be deleted, and it is only possible for anybody to think of having a chance of success if it should be deleted. Then, my Lord, in this connection I may say that to require the plaintiff to prove that he has acted in good faith and reasonable belief is entirely wrong. How can the plaintiff exercise an attribute of omniscience, how can he search into the heart of the defendant and show an intimacy with the motives of a stranger only known to him by his tyranny and oppression, and prove that the injury he received has been the consequence of malicious intention, a thing which it is impossible for him to prove, or that the act has been done in the suppression of rebellion. Motives can only be inferred from actions, and it is for the defendant to show that his motives were such as to justify his actions being excused. It will be entirely difficult for the plaintiff to prove things specially within the knowledge of the defendant. My Lord, I submit therefore that this portion of the Bill is open to grave objection, and that it takes away in one clause what it appears to give in another.

" Now, my Lord, there are other objections to which the Bill is open. I will go back to the preamble:—

' Whereas owing to the recent disorders in certain districts in the Punjab and in other parts of India, it has been necessary for the purpose of maintaining or restoring order to resort to martial law.'

" Now, my Lord, this would bring in other places. I do not know how this wide wording will affect acts done in Delhi, for instance, and in Calcutta. The object of the Bill should be clear and the language that is used should be modified in order to make it clear. I am not sure, as the preamble stands, whether it does not also cover places where no martial law was established.

" Then, my Lord, I come to clause 4, confirmation and continuance of martial law sentences. This Bill provides that :—

' Every person confined under and by virtue of any sentence passed by a court or other authority constituted or appointed under martial law and acting in a judicial capacity, shall be deemed to have been lawfully confined. And, my Lord, it goes on to say : and shall continue liable to confinement until the expiration of such sentence, or until released by the Governor General in Council or otherwise discharged by lawful authority.'

" My Lord, I must say that this provision of the Bill has shocked me most. I think, my Lord, that the statement of the Hon'ble the Home Member made it clear that the Government of India are conscious that, unless an Indemnifying Bill of the nature now before the Council, that is to say, unless a legislative provision of the nature embodied in clause 4 is passed by this Legislative Council, the detention of men who have been sentenced by martial law courts will be illegal. I take it, my Lord, that that is the position. That being so, I submit it is wrong to these people that the help of the Legislature should be invoked, not for remitting or wiping off the convictions or sentences, but for confirming them and continuing them. My Lord, it seems to me that the Bill was not conceived with sufficient care and deliberation ; that the various acts and provisions which were necessary were not fully considered at one time ; and it seems to me that, if the model of even the Acts of South Africa had been kept fully before the mind of the Government, the Bill might have been drafted, might have been cast, in a different mould, might have consisted of different provisions. The Hon'ble the Home Member, and, I suppose, the Hon'ble the Law Member, perhaps on referring to the South Africa Act, Act IV of 1902 of the Cape of Good Hope, have noticed that there was a provision made for a revision of the sentences of those who had been convicted or sentenced by the martial law authorities. Now, my Lord, perhaps

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; Sir George Lowndes.*]

to make up for that omission, the Hon'ble the Home Member has to-day announced the decision of the Government of India that two Judges of the High Court will be appointed to revise the sentences passed by summary courts. I welcome that announcement, but it only strengthens my suspicion that the matter was not considered in all its aspects when the Bill was drafted. Now, my Lord, I want to draw attention to the provisions of the Act of the Cape of Good Hope. May I ask the Hon'ble the Law Member for a copy of that Act, Act IV of 1902?"

The Hon'ble Sir George Lowndes:—"It might save the Hon'ble Member trouble if I were to inform him that that was not the Act which we took as a model at all, but the later Act of 1915, of which he does not appear to know."

The Hon'ble Pandit Madan Mohan Malaviya:—"I thank the Hon'ble the Law Member. I did not know of the Act of 1915 or, at any rate, I did not remember it in the midst of the Statutes which were noted by my friends who have been working for me in this matter and helping me. But I am thankful to the Hon'ble the Law Member for informing me of it, and I shall feel thankful to him if he will let me have a copy of that Act also."

The Hon'ble Sir George Lowndes:—"Certainly, after the Hon'ble Member has finished."

The Hon'ble Pandit Madan Mohan Malaviya:—"My friend, the Law Member, need not be so afraid of letting me look at the Act before I finish; I might find some help from it. However, I shall be content for such courtesy as he thinks fit to extend to me."

"Now, my Lord, this Act, Act IV of 1902, contains a very important provision regarding the confirmation of sentences passed by military courts. I beg to draw your Lordship's attention and the attention of the Council to this section, which runs as follows:—

"The several sentences pronounced by Courts-Martial constituted and convened by proper authority, and holden in districts of this Colony in which martial law was proclaimed or imposed, and during the existence thereof, upon persons not ordinarily subject to Military Law tried by such Courts for acts of high treason, murder, or for all or any other crimes or offences whatsoever, or for all or any contraventions of any Regulations expressed or purporting to be issued under martial law and commonly termed Martial Law Regulations are hereby confirmed: and all such persons confined in any prisons or other legal places of confinement within the Colony under or by virtue of such sentences shall be deemed to have been and to be legally confined there, and shall continue to be so confined, there or elsewhere, as the Governor may direct, until the expiration of the sentences respectively passed upon them or until they are discharged by lawful authority, and such sentences shall be deemed to be sentences duly passed by duly and legally constituted Courts of this Colony and shall subject in each and every case to the provisions of the ninth and tenth sections hereof be carried out or otherwise dealt with, in the same manner, and sentences of such Military Courts as aforesaid shall be followed by the same disabilities, if any, as sentences of the Courts of this Colony."

"The second part of this goes on to say:—

"Each and all of the officers of the prisons or other legal places of confinement mentioned in the preceding sub-section who have, or had, at any time in good faith received into, or kept in confinement any of the persons mentioned in the said preceding sub-section shall be deemed for all purposes to have acted legally."

"And the third part is also important. It went on to say:—

"All persons in this Colony who have been deported without the limits thereof under and by virtue of any of the foregoing sentences referred to in the preceding sub-section shall be deemed to have been and to be legally deported without the limits of this Colony, and such acts or cases of deportation as aforesaid shall be deemed to be among, and shall be included under the acts, matters and things referred to in the second section of this Act."

"Now, my Lord, the object of this, I submit, was to legalise the sentences which had been passed no doubt, but there was the important fact that there was a war waged against the Queen, I think it was then. Secondly, my Lord, it was to confirm the sentences, particularly in the case of persons not ordinarily subject to military law tried by such courts for acts of treason, murder or

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Sir George Lowndes.*]

[18TH SEPTEMBER, 1919.]

for other crimes or offences or for any contraventions of any Regulations expressed or purporting to be issued under martial law and commonly termed Martial Law Regulations. Now, my Lord, this provision was made and the object was that the punishments which had been inflicted should be regarded as legal and that a suit should not lie against persons because they had confined these men in imprisonment or deported them. Your Lordship will have noted that in section 2 jailors are indemnified, in part 3 certain acts are validated, and, therefore, I submit, the object was more to legalise the acts which had been done and the punishments which had been suffered and which might be suffered as a matter of necessity until they were remedied later on. And this was accompanied, my Lord, by a very salutary provision, because your Lordship will be pleased to note that while this General Indemnity Act was passed on the 15th September 1902, there was a Commission appointed at the same time, dated the 2nd of August 1902. Edward VII, by the Grace of God of the United Kingdom of Great Britain and Ireland, appointed a Commission. That was in the first schedule of the Bill. It was not an extraneous announcement by the Hon'ble the Home Member that the Government of India would be pleased to appoint two High Court Judges—and here I may say that the public have come, my Lord, not to have the same confidence in High Courts after the troubles in the Punjab—to revise sentences passed by summary Courts. My Lord, this ought to be a part of the Bill so that the public might know that there is sufficient and adequate provision made for a revision of those sentences.

“The first Schedule, my Lord, sets out the Commission passed under the Royal Sign Manual and Signet appointing the Right Hon'ble Baron Alverstone, Sir John Charles Bigham and Major-General Sir John Charles Ardagh, to be Commissioners to inquire into the sentences imposed by the military courts established under martial law in the South African Colonies and Protectorates and appointing Gilbert Mellor, Esq., to be Secretary to the Commission. Your Lordship will see that the Lord Chief Justice of England was the President of the Commission and Justice Bigham ‘one of the justices of our High Court of justice’ was a member and also General Sir John Charles Ardagh, K.C.I.E., was a member. Now, I draw attention to certain provisions of this Schedule. It runs :—

‘WHEREAS in consequence of the war declared by the late governments of the South African Republic and Orange Free State against Her late Majesty Queen Victoria, it became necessary to proclaim martial law in our colonies and protectorates in South Africa; and whereas certain persons have been by military courts established under martial law in the said colonies and protectorates sentenced to terms of penal servitude and of imprisonment and to the payment of fines and are now undergoing the said sentences and have not paid but are liable to pay the said fines :

‘AND WHEREAS the aforesaid war having now ceased it is expedient that inquiry should be made with regard to the aforesaid sentences with a view to ascertaining whether we might properly and without danger to the public safety of our said colonies and protectorates extend our grace and mercy to any of such persons and where such sentences and any and which of them might properly be by us remitted or reduced.

‘Now, know ye that we considering the premises and reposing great trust and confidence in your fidelity and discretion and integrity, do authorise and appoint you the said..... (three persons) to be our Commissioners to inquire into the said sentences imposed by military courts established under martial law in our said colonies and protectorates and with as little delay as possible to report to us in writing under your hands and seals respectively whether in the case of the said persons and of which of them respectively who shall be at the date of your report then undergoing any such sentence or who shall not have paid but shall then be liable to pay any such fines, it is expedient, having regard to all the circumstances relating thereto, that such sentences of fines should be remitted or reduced.’

“Now, my Lord, your Lordship will please note the expression ‘and to report with as little delay as possible.’ That, my Lord, was incorporated as part of the Bill. I shall feel grateful to the Hon'ble the Law Member if he will kindly give me Act VI of 1900 also . . .

The Hon'ble Sir George Lowndes :—“I was in hopes, my Lord, that I had not got it, but I have.”

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

The Hon'ble Pandit Madan Mohan Malaviya :—“ Now, my Lord, there is an important provision in this Act of 1900, to which I invite the attention of Council and the Government. My Lord, the whole attitude of the Government as disclosed in the case of these two enactments and as disclosed by the Bill presented to this Council shows, I am sorry to say, a regrettable difference. Now, my Lord, in the case of this Act of 1900 (VI of 1900), there was a provision to confirm sentences, merely to legalise, as I have pointed out already, what has been done. This is what it says :—

‘ All actions, indictments and legal proceedings whatsoever which might be brought or instituted in any of the courts of this colony against His Excellency the Governor of the Cape of Good Hope or the officer for the time being in command of His Majesty's Forces in this colony or against any person or persons acting under them or either of them respectively, in any command or capacity, civil or military, for or on account or in respect of any acts, matters, and things whatsoever in good faith advised, commanded, ordered, directed or done as necessary for the suppression of hostilities in or the maintenance of good order and government or for the public safety of this colony between the date of the commencement of a state of war between Her Majesty's Government and the Governments of the South African Republic and the Orange Free State and the date of the taking effect of this Act, shall be discharged and become and be made void.’

“ Then, my Lord, it is said in section 5 :—

‘ In all cases of convictions for high treason or other crimes of a political character during the period specified in section 1 of this Act, where such convictions have taken place before courts-martial or military courts constituted, convened and held as in the last preceding section set forth or where they have taken place before the ordinary criminal courts having jurisdiction over them, it shall be lawful for the Governor, should he consider that any such case would, had it been dealt with after the taking effect of this Act, have been a case proper for the consideration of the Commissioners appointed under section 33 hereof, to order that the said sentences imposed upon such persons shall be altered into the sentence laid down in section 50 of this Act. The person affected by any such sentence shall thereupon become liable to suffer the penalty imposed by the said fiftieth section and no other.’

“ That is to say a sentence under section 50 has been substituted for the one already imposed. Section 50 says :—

‘ The said Commissioners shall, after hearing the evidence, if any, for and against the accused, decide whether he is guilty or not of the charge brought against him, and in all cases in which an accused person shall be found guilty, the said Commissioners shall adjudge that he shall be, for the period of five years and no longer, disqualified from being registered as a voter or from voting for the election of members of Parliament, or of a Divisional or Municipal Council, or of a Village Management Board or from being or continuing to be a member of Parliament, or from holding any public office, or continuing upon the Commission of the Peace, or from serving upon a Jury in civil or criminal cases, anything contained in any Law or Act of Parliament to the contrary notwithstanding; and thereupon such person shall be in Law absolutely disqualified, in regard to all the aforementioned matters and his name, if upon any existing voters' list, shall be and is hereby removed therefrom, and the vote of any such person given at any such election shall be null and void and may be struck out in any proceeding in which the result of such election is challenged in any competent court. Save as hereinafter provided the findings or decisions of the said Commissioners shall not be subject to appeal to or review by any Court whatever.’

“ Now, my Lord, you will see what an important difference of outlook and aim these provisions of the indemnifying Acts to which I am referring show as compared with the provisions of this Bill. My Lord, these Commissions were appointed as part of the Bill, and they were given power to wipe off all other sentences and to substitute a municipal disqualification. It was not in ordinary trifling cases, cases of not salaaming a European, but it was in cases of high treason and in all cases of convictions for high treason or for other crimes of a political character during the period specified in section 1 of that Act.

“ The other day, my Lord, I brought forward a Resolution and urged that the Government might consider the advisability of the Committee of Inquiry (or the commission which I suggested) being empowered where they thought fit to recommend to His Majesty's Privy Council that convictions by Martial Law Commissions and Martial Law Summary Courts might be annulled or modified. My Lord, this Act to which I make reference shows further reason in support of my proposition. It is said by the Hon'ble the Home Member that the Government of India are going to appoint two High Court Judges to

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Sir
William Vincent ; The President.*]

[18TH SEPTEMBER, 1919.]

revise these sentences. My Lord, the Government of India cannot constitute a court. The Government of India cannot constitute a regular court. The Governor General can no doubt introduce martial law and constitute certain courts under martial law, but the Government of India cannot constitute a regular court.

" If these two High Court Judges are to revise the sentences that will not be a court. They will only be advisers, very honourable advisers of the Government of India in respect of the cases which the Government of India may deal with. I submit with confidence, notwithstanding what the Hon'ble the Law Member may say to the contrary on this point, that the Government of India cannot by appointing two High Court Judges to revise sentences passed by martial law invest them with the authority of a legal court

The Hon'ble Sir William Vincent :—" I never suggested anything of the kind."

The Hon'ble Pandit Madan Mohan Malaviya :—" I thank the Hon'ble the Home Member for removing my doubts on the point. I should like to know what will be the position of the two Judges. I should feel grateful to the Hon'ble the Home Member if he will make the point clear, it will save time. I do not know if they are merely to advise, whether their opinions will be merely recommendations to be considered by the executive Government, or whether they will have power to deal with sentences, wipe out convictions, reduce sentences or whatever else they would like to do. I should be very grateful if the Hon'ble the Home Member will enlighten me on that point."

At this point the Hon'ble Mr. Malaviya resumed his seat.

The President :—" The Hon'ble Member will proceed with his speech."

The Hon'ble Pandit Madan Mohan Malaviya :—" My Lord, I take it, in the absence of any explanation from the Hon'ble the Home Member that the matter is left vague. I submit that in the absence of further information these two Judges will be merely advisers to the Government. I submit that that will not be a satisfactory position. Next, I should like the Government to consider the propriety of including in the terms of reference some direction such as that contained in Act VI of 1902 of the Cape of Good Hope. By this time, in view of what has happened and that has not been contradicted or controverted, it is time for the Government of India to make up its mind to release these persons who are undergoing imprisonment from further humiliations and hardships. I submit that this is a suitable moment for the Government to consider this matter. If the Bill proceeds as it is, then, I submit, the position will be this. We do not know how long these High Court Judges may take to deal with the cases of these men, the procedure has not been indicated, and therefore no one can form any idea of the time and therefore 'every person confined under and by virtue of any sentence passed by a court or other authority constituted or appointed under martial law and acting in a judicial capacity shall be deemed to have been lawfully confined and shall continue liable to confinement under the expiration of such sentence or until released by the Governor General in Council or otherwise discharged by lawful authority.' I submit that that is not a satisfactory position, particularly in view of the remarks which the Hon'ble the Law Member made. He said he had consulted the Government of the Punjab, and it was of opinion that it would be dangerous to let off any of the men who were undergoing imprisonment at present and who were under sentence passed by martial law. I suggest that if it should be pointed out to His Honour the Lieutenant-Governor of the Punjab that if there are persons who are considered dangerous, there are provisions under the existing enactments by which they can be taken up and judicially proceeded against and confined. There are many provisions under the existing enactments which enable the executive Government or any Government to proceed against persons of doubtful character or dangerous and bind them over to keep the peace and to be of good behaviour. It is

THE INDEMNITY BILL.

[18TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; the President.*]

open to the Government to have them tried in the regular courts in the ordinary way. Great complaints have been made that these convictions and sentences are illegal. The Hon'ble the Home Member has practically admitted the truth of this contention and, unless some provision such as I am referring to is enacted, these unhappy men will continue in jail. That being the position I submit that there should be some provision by which these men should at an early date be set free to enjoy the liberty to which they are entitled, and if they are not entitled to that liberty by a reason of any act of wrong doing the ordinary courts of the law should be allowed to deal with them. I need hardly draw attention to the remarks of Lord Halsbury, but it is my duty to refer to certain information which has been printed and reproduced in an excellent volume by Sheikh Nabi Bakhsh, a Vakil of the Punjab High Court. Your Lordship and the Council have noted what Lord Halsbury states in the 'Laws of England' that the powers of the military authorities cease, and those of the civil courts are resumed *ipso facto* on the termination of disorder. Disorder terminated long long ago and martial law was also discontinued partly in May and partly in June, and finally last month. I think it was about the 25th or 28th of August. Therefore the course I am suggesting is the right course to be pursued ; let there be such a provision enacted as that to which I have drawn attention, unless it be a case of murder or arson ; let the men be proceeded against in the ordinary way. They have the right to choose in the matter and some may not choose that course. This question of martial law has been very carefully explained in various places. For instance, Justice Sir James Fitz James Stephen, a Judge of the High Court of the Queen's Bench Division, in his book the History of Criminal Law of England, says. I will read only his summing up to save time. He says, "I will sum up"

The President :—"I understand it is your summing up also."

The Hon'ble Pandit Madan Mohan Malaviya :—"No my Lord, I am reading the summing up of Sir James Fitz James Stephen."

The President :—"All right, proceed."

The Hon'ble Pandit Madan Mohan Malaviya :—"He says :—"

"I may sum up my view of martial law in general in the following propositions. Martial law is the assumption by officers of the Crown of absolute power exercised by military force for the suppression of an insurrection and the restoration of order and lawful authority. The Officers of the Crown are justified in any exertion of physical force extending to the destruction of life and property to any extent and in any manner that may be required for the purpose. They are not justified in the use of the cruel and excessive means but are liable civilly or criminally for such excess. They are not justified in inflicting punishment after resistance is suppressed, and after the ordinary courts of justice can be re-opened."

The principle by which their responsibility is measured is well expressed in the case of Wright *versus* Fitzgerald. Wright was a French Master at the schools in Clonmell who after the suppression of the Irish rebellion in 1799 . . .

The President :—"The Hon'ble Member really must not repeat himself. We have already had the case of Wright *versus* Fitzgerald for half an hour."

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, I am quoting the summary of Sir James Fitz James Stephen"

The President :—"I am quite aware of that. But we have all heard the case of Wright *versus* Fitzgerald for half an hour this afternoon, and I do not propose that we should hear it again."

The Hon'ble Pandit Madan Mohan Malaviya :—"Very well, my Lord. Then Sir James Fitz James Stephen proceeds to say :—"

'The Courts-martial as they are called, by which martial law in this sense of the word is administered, are not properly speaking, Courts-Martial or courts at all. They are merely

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; the President.*]

[18TH SEPTEMBER, 1919.]

committees formed for the purpose of carrying into execution the discretionary power assumed by the Government. On the one hand, they are not obliged to proceed in the manner pointed out by the Mutiny Act and the Articles of War. On the other hand, if they do so proceed they are not protected by them as the member of a real court-martial might be except so far as such proceedings are evidence of good faith. They are justified in doing, with any forms and in any manner whatever is necessary to suppress insurrection, and to restore peace and the authority of the law. They are personally liable for any acts which they may commit in excess of that power, even if they act in strict accordance with the Mutiny Act and the Articles of War.

"Therefore, my Lord, after the resistance has been suppressed the ordinary courts of justice can be re-opened and cases of persons who cannot be released entirely might well be referred to such courts. I will refer to one other opinion, namely, that of Mr. Justice Spinkie. Writing on this subject,—this is a written opinion, dated the 27th April 1818 :—

"The manifest intention of Government in its legislative capacity was, that none but cases of the simplest and most obviously criminal nature should be the subject of trial by the courts martial; the fact, whether a person was taken in the actual commission of an overt act of rebellion, or taken in the act of openly aiding and abetting the enemies of the state or taken in open hostility, might safely be tried by such courts; and such a provision for trial was calculated to prevent military severity in the field becoming absolute massacre. But all complex cases depending upon circumstantial proof and requiring either a long examination of facts or a discriminating inference from facts in themselves equivocal were purposely withdrawn from the cognizance of these tribunals. It never was intended that courts-martial should try, as those have done, acts even of criminal nature, in which the prisoner was not taken and unless the acts were open overt acts and of the most material palpable quality."

In another portion he says 'that the moment the order is ceased the ordinary jurisdiction of the courts can be resumed'. Now, my Lord, I submit that the provisions of the Bill as they stand are unsatisfactory, and leave should not be given to introduce the Bill in its present form. Now, if the Bill is not introduced, my Lord, in its present form, as I have said before, not much harm will be done, and the Government will be in a position to deal with the matter after the report of the Committee of Inquiry. I wish, my Lord, to point out the grave injustice and disadvantage which is likely to result if the Bill is passed at present. Of course it is in the power of your Excellency's Government to pass the Bill. We know it. We have had recent experiences to convince us of it. You do command a large official majority in this Council. The representatives of the people are few. But I submit, my Lord, in this matter it would be right and proper that your Excellency's Government should consider what the public opinion of the country is. Shall we stop now?"

The President :—"Is the Hon'ble Member concluding his speech?"

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, I should like to conclude to-morrow."

The President :—"The Council will now adjourn till 11 o'clock to-morrow. We shall sit from 11 to half-past 1, and we shall sit again from 3 until we finish."

The Council then adjourned to Friday, the 19th September 1919, at 11 A.M.

SIMLA :

H. M. SMITH,

The 30th September, 1919.

Offg. Secretary to the Government of India,
Legislative Department, Simla.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE INDIAN LEGISLATIVE COUNCIL ASSEMBLED UNDER
THE PROVISIONS OF THE GOVERNMENT OF INDIA ACT, 1915.
(5 & 6 Geo. V, Ch. 61.)

The Council met at the Council Chamber, Viceregal Lodge, Simla, on
Friday, the 19th September, 1919.

PRESENT :

His Excellency BARON CHELMSFORD, P.C., G.M.S.I., G.M.I.E., G.C.M.G., G.C.B.E.,
Viceroy and Governor General, *presiding*, and 52 Members, of whom 44
were Additional Members.

QUESTIONS AND ANSWERS.

The Hon'ble Maharaja Sir Manindra Chandra Nandi 11-5 A.M.
asked :—

1. "To what extent have the cultivation and production of cotton increased during the last five years in each province, and what action do Government propose to take on the report of the Cotton Committee?" Increase of
cultivation
and
production
of cotton.

The Hon'ble Mr. R. A. Mant replied :—

"A statement* giving the area and yield of cotton in each Province (including Indian States) in India for the five years ending with 1918-19 is placed on the table.

The Resolution of the Government of India in the Revenue and Agriculture Department, on the Report of the Indian Cotton Committee, which was published in the Supplement to Part I of the Gazette of India, dated the 9th August 1919, indicates broadly the lines on which it is proposed to deal with the recommendations in the Report of the Committee."

The Hon'ble Maharaja Sir Manindra Chandra Nandi
asked :—

2. "What are the causes of the high prices of food grains, and how far, if at all, is profiteering or any other remediable factor responsible for the same, in each province?" Causes for
rise in
prices.

*Vide Appendix.

QUESTIONS AND ANSWERS.

[*Mr. R. A. Mant ; Maharaja Sir Manindra Chandra Nandi ; Rao Bahadur B. N. Sarma ; Sir Dinshaw Wacha.*]

[19TH SEPTEMBER, 1919.]

The Hon'ble Mr. R. A. Mant replied :—

"I would refer the Hon'ble Member to what I said in the debate on the Resolution moved by the Hon'ble Mr. Chanda on the 15th instant."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Action contemplated for checking the rise in prices.

3. "Will Government be pleased to indicate the lines on which action is contemplated for checking the upward course of prices of foodstuffs, and for affording adequate relief against the same?"

The Hon'ble Mr. R. A. Mant replied :—

"I would refer the Hon'ble Member to the same debate. I may add that the Committee which Council recommended the Government of India to appoint to consider this question will meet to-morrow at Gorton Castle."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Taking over of rice intended for England by Government.

4. "Has the attention of Government been drawn to a statement appearing in the 'Rangoon Times' that the Royal Commission on wheat supplies holds in Burma large quantities of rice bought last year and apparently not needed in England, and that the same might be taken over by the Government of India for meeting the demand of Bengal and Madras? Are Government making inquiries in the matter?"

The Hon'ble Mr. R. A. Mant replied :—

"Yes. The unshipped balance of old crop rice held in Burma by the Royal Commission on Wheat Supplies amounts to 18,800 tons. The statement that this rice is not needed in England is not correct. The Royal Commission recently asked to be permitted to purchase an additional quantity of 25,000 tons of rice in Burma, but this request was refused."

The Hon'ble Rao Bahadur B. N. Sarma asked :—

Improvement of stocks of food supplies throughout the country.

5. "What proposals, if any, have been resolved upon to improve the stocks of food supplies throughout the country?"

The Hon'ble Mr. R. A. Mant replied :—

"I would refer the Hon'ble Member also to the reply which I have just given to the Hon'ble Maharaja Sir Manindra Chandra Nandi."

The Hon'ble Sir Dinshaw Wacha asked :—

Indian traders in East Africa.

6. "(a) Has the attention of Government been drawn to a statement made by the Indian Merchants' Chamber in their representation to the Government of Bombay regarding East African trade to the effect that colour prejudice which is responsible for a great deal of mischief in South Africa has begun to make itself felt even in East Africa, and that the segregation campaign is in full swing there too?"

"(b) Have any steps been taken, or are any steps intended to be taken, to safeguard the rights and privileges of the Indian trading community in that country?"

QUESTIONS AND ANSWERS.

[19TH SEPTEMBER, 1919.]

[Sir George Barnes ; Sir Dinshaw Wacha.]

The Hon'ble Sir George Barnes replied :—

"The attention of the Government of India has been drawn to a statement which was published in the Press made by the Committee of Indian Merchants' Chamber and Bureau regarding East African trade.

I regret to say that the statement of the Committee that colour prejudice has begun to make itself felt in East Africa, appears from the information which we received from various sources, to be not unfounded. In March last we received a deputation of Indians from East Africa, headed by Mr. Alibhai Jeevanji, and were much impressed with the sober and convincing way in which they stated their grievances. His Excellency the Viceroy at once telegraphed a summary of their grievances to the Secretary of State and urged strongly that their claims should receive sympathetic consideration. The memorial presented by the deputation was subsequently forwarded to the Secretary of State with a despatch, in which the Government of India urged that there was no justification in a Crown Colony or Protectorate for assigning to British Indians a status in any way inferior to that of any other class of His Majesty's subjects resident in the Colony. The Government of India further urged not only that the more galling disabilities of Indians in East Africa should be removed, but also that their claims to a share in the government of the country, by adequate representation on the Legislative Council and on local bodies, should be sympathetically considered.

The Committee's statement also refers to another grievance, which was not mentioned by the deputation, namely, that an attempt is being made to remove Indian ginneries from leading industrial places like Kampala. It had already been brought to the notice of the Government of India that the cotton policy of the Uganda Government was likely to injure Indian trade interests. We have more than once addressed the Secretary of State on the subject, protesting most strongly against restrictions on trade which particularly affect the Indian owned ginneries at the ports. The Hon'ble Member will be glad to hear also that a meeting of the Uganda Chamber of Commerce, at which only one Indian was present, passed a resolution that the proposals of the Uganda Government, if carried out, would constitute a very grave injustice to the ginning industry and would be a serious interference with the freedom of trade.

Regarding the policy of segregation to which the Hon'ble Member specifically refers, we have received papers from the Secretary of State from which it appears that a Report on Sanitary Matters in the East Africa Protectorate, Uganda and Zanzibar, by Professor W. J. Simpson, C.M.G., M.D., F.R.C.P., has recommended the division of residential areas into separate zones, in which different building regulations should be enforced by the sanitary authorities. The Secretary of State has already protested against any such division being based on racial discrimination, and has pointed out that Professor Simpson himself has observed in his Report that the division into separate zones would not prevent any European, Asiatic or African from owning land or buildings in any zone, provided they conformed to the provisions relating to these zones. The Secretary of State for the Colonies has promised to give further consideration to the question."

The Hon'ble Sir Dinshaw Wacha asked :—

7. "Have Government formulated any definite proposals regarding the report of the Indian Industrial Commission? If so, what are the proposals?"

Report of
the Indian
Industrial
Commission.

QUESTIONS AND ANSWERS.

[*Sir George Barnes ; Mir Asad Ali, Khan Bahadur ; Sir William Vincent ; Mr. R. A. Mant.*]

[19TH SEPTEMBER, 1919.]

The Hon'ble Sir George Barnes replied :—

" I have nothing to add to the statement made on this subject by His Excellency the Viceroy in his speech at the opening of this Session of the Council, which gives all the information at present at our disposal."

The Hon'ble Mir Asad Ali, Khan Bahadur, asked :—

The Indian Majority Act.

8. "(a) Are Government aware of the decision of the Madras High Court in S.A. No. 1277-1916, regarding the right of a Muhammadan girl to release her dower ?

(b) Has their attention been drawn to a letter on 'The majority of Muhammadan women', which appeared in the 'Madras Mail' of the 5th March 1918 ?

(c) Do Government contemplate a change in the provisions of the Indian Majority Act, 1875, so as to exempt Muhammadan women of sixteen years of age and over, (who according to Muhammadan Law have attained majority) from the operation of the Act ? "

The Hon'ble Sir William Vincent replied :—

" (a) Yes.

(b) No.

(c) Government will examine the question of the desirability of amending the Act of 1875."

The Hon'ble Mir Asad Ali, Khan Bahadur, asked :—

Measures taken to control and check the growth of food prices.

9. "(a) What measures have been adopted and what further measures are proposed to control and check the growth of food prices in the different provinces ?

(b) Will Government lay on the table a statement for each province, describing the steps taken so far to mitigate the sufferings of the poor on account of the high prices of foodstuffs ? "

The Hon'ble Mr. R. A. Mant replied :—

"The Foodstuffs Commissioner has been instructed to write a report on the operations of his Department in the past year, and this report will be published. It will contain information in general terms on the questions referred to by the Hon'ble Member. Local Governments will no doubt consider the advisability of obtaining, for publication, similar reports from their Directors of Civil Supplies."

The Hon'ble Mir Asad Ali, Khan Bahadur, asked :—

Pension of Mahomed Hayat of Kurnool.

10. "(a) Have Government received any petitions from Mahomed Hayat, Khan Bahadur, a political prisoner at Kurnool, regarding the increase of his pension ?

(b) If so, what action do they propose to take in the matter ?

(c) Do they propose to grant substantial allowances to the Khandans at Kurnool ? Are not these Khandans now in receipt of small pensions ? "

QUESTIONS AND ANSWERS ; THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Lieutenant-Colonel R. E. Holland ;
Mir Asad Ali, Khan Bahadur ;
Pandit Madan Mohan Malaviya.*]**The Hon'ble Lieutenant-Colonel R. E. Holland** replied :—

"(a) A petition dated the 17th October 1911 was received direct from Muhammad Hayat Khan and was sent to the Government of Madras with the request that the petitioner might be informed that his representation could not be entertained by the Government of India unless submitted through the local authority. Further direct petitions were received in December, 1911, January, 1913, and February and August 1919, and were similarly forwarded to the Local Government for disposal.

(b) The Government of India do not propose to take any action in the matter unless they are addressed by the Local Government.

(c) The Kurnool pensions are administered in accordance with principles formulated by the Government of Madras in 1890 and approved by the Government of India. The Government of India have not received from the Madras Government any proposals for the increase of any of the pensions now granted, nor have they any recent information as to the amounts disbursed to individual pensioners."

The Hon'ble Mir Asad Ali, Khan Bahadur put a supplementary question which was inaudible.

The President :—"I think if the Hon'ble Member would let Colonel Holland hear his supplementary question, he would be able to reply to him."

The Hon'ble Mir Asad Ali, Khan Bahadur :—"Regarding this third part, I should like to know whether the Government of India will ask the Local Government for their opinion on account of the scarcity and high prices of grain?"

The Hon'ble Lieutenant Colonel R. E. Holland :—"I understand that the Hon'ble Member wishes to know whether the Government of India will ask the Local Government whether, on account of the high prices of grain, some increase might not be made in the pensions. I have discussed the matter with the Hon'ble Mr. Marjoribanks, and I propose to go through the file with him and, if I may answer the Hon'ble Member privately afterwards, I think he will be satisfied."

THE INDEMNITY BILL—(Contd).

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, I would like to draw attention to two other matters relating to the Bill which are to my mind of great importance. One is that clause 6, the savings clause, says :—

11-12a.w

'Nothing in this Act shall prevent the institution of proceedings by or on behalf of the Government against any person in respect of any matter whatsoever.'

This no doubt reserves to the Government the right of instituting any proceedings by or on behalf of the Government against any person. But, except for this, the right of private individuals to bring any suit or to institute any legal proceedings against any individual are restricted by the provisions of clauses 2 and 3. Now, my Lord, I have already submitted that clause 2 of the Bill bars a suit and says :—

'No suit or other legal proceeding whatsoever, whether civil or criminal, shall lie in any court of law against any officer of Government; * * * * * provided that such officer or person has acted in good faith and in a reasonable belief that his action was necessary for the said purposes.'

THE INDEMNITY BILL.

[Pandit Madan Mohan Malaviya.]

[19TH SEPTEMBER, 1919.]

“ And then comes clause 3 which says :—

‘ For the purposes of section 2 a certificate of a Secretary to Government that any act was done by the orders of any officer of Government shall be conclusive proof thereof, etc., unless the contrary is proved.’

“ Now, my Lord, the result of these two clauses taken together is, as I submit, practically to make the chance of success for any private individual very very small, and I submit this is not right. I want to illustrate how very unjustly the provisions of this Bill will operate to make it difficult for any individual who may have been injured to obtain justice. I would like to draw attention to one concrete case which occurred at Amritsar. That case is the case of Mr. Gurdial Singh Salariya, Barrister-at-law. This gentleman was in the District Court along with several others on the 10th of April, 1919, when he heard that there had been firing resorted to and that there was trouble owing to the deportations. He and other pleader friends consulted together and resolved to inform the Deputy Commissioner that they thought they might go and help, and, with his consent, went to try and quiet the trouble. They did go there, and this gentleman and his friends who were with him laboured for a long while to quell the mob and to turn them back. He succeeded also to a large extent in sending back part of the mob from the railway overbridge, and, in order that he might do his work better, obtained the loan of a horse from a policeman with the help of the Deputy Commissioner and rode about appealing to people to go back. While he was doing this, the military fired upon the mob. There was a crowd near the overbridge; he found the military ready to fire and he shouted out at the top of his voice to stop. He requested the Deputy Commissioner to give him some time to persuade the crowd to go back, and, while he was doing so, they began to fire all at once without warning this gentleman that they were going to fire. Luckily, he escaped. The Deputy Commissioner in his statement before one of the Martial Law Commissions said that this gentleman, Mr. Gurdial Singh, ‘ went with his permission to push back the mob and that he was genuinely trying to do so.’ He further says that ‘ owing to a dangerous rush of the crowd, it was necessary to fire, while Gurdial Singh was trying to keep them back, and that he had been pointed out to the soldiers as a friend. He ran serious risk of being shot and deserves credit for having tried to quell the mob in a brave and determined manner.’ This was the statement made by the Deputy Commissioner of Amritsar in the case when Mr. Gurdial Singh was tried. Now, my Lord, having done this, this gentleman went home. This was on the 10th of April. On the 23rd of May a policeman, a constable in white clothes, went to him in court and asked him to accompany him to the Kotwali, where he was wanted by the police. He went there and was placed before the Deputy Superintendent, I think. He was asked a few questions and was politely told that he was to go to jail where he was to be confined. Now, my Lord, this gentleman was kept in Amritsar for two days or so and then he was removed, handcuffed, to Lahore. On the morning of May, the 26th, he was made to walk on foot from the railway station at Lahore to Montgomery Hall, was kept there the whole day sitting on the ground. Then, my Lord, he was removed to the Central Jail and was put in an iron cage, seven feet by 2½, although his guardian had paid Rs. 30 in order that he might be put in another place. Now, my Lord, he was removed the next morning to that other place. He was not long there and was sent on to another jail. This gentleman was arrested on the 23rd, was put on his trial on the charge of having taken part on the 5th April, 1919, to bring about *hartal* on the 6th. It was proved that he was lying ill at home on that day by the evidence of a surgeon, I think a civil surgeon. The second charge was that he was a speaker at the meeting of the 6th April, the great *Satyagraha* day meeting. He did admit that he did take part, and all glory to him for having taken part in that meeting. The third charge against him was that he had incited the mob at the railway bridge on the 10th April, when he had at the risk of

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

his life tried to send back the mob to the city, and further that he had on horseback gone down to the city and delivered an inflammable speech. Now, my Lord, the Deputy Commissioner was examined and he deposed to the fact that this gentleman had honestly endeavoured at the risk of his life to quell the mob, and to send them back to the city. The question put to the Deputy Commissioner was 'Do you know as a fact that Gurdial Singh Salariya did his best to keep the mob back on the 10th April 1919?' The answer was 'Yes, this is the only conclusion to be drawn from the action I saw.' Then the question was 'Did you actually see him shouting and entreating the mob on the carriage bridge to disperse?' and the answer was 'Yes, I remember him distinctly as he swarmed up a lamp post to address the crowd better.' Then he was asked 'Did his attitude and efforts against the mob appear to you genuine?' The answer was 'Yes, I certainly think they were genuine.' Then again 'Was Gurdial Singh in danger of being shot when he was roaming about facing the mob and telling them to get back and thus did real service?' The answer was 'Yes, owing to the dangerous rush of the crowd it was necessary to fire while he was trying to keep them back and though he had been pointed out to the soldiers as a friend he ran serious danger of being shot. He deserves credit for having tried to keep the crowd back in a brave and determined manner.' Now, my Lord, this gentleman was put on his trial and kept in jail from the 23rd May for nearly a month and a half. He was subjected to all these indignities and to all the humiliation and trouble of being kept there. In the judgment in his case the Martial Law Commission said: 'This accused was present at the meeting of the 6th April. (That of course was a crime in the eye of the Commission.) But we are not satisfied that he had joined the conspiracy. His actions on the 10th April as deposed to by the Deputy Commissioner indicate that he was supporting the authorities to the best of his powers and at some risk to himself. Hans Raj (the approver) does not attribute any acts to him, merely saying that Gurdial Singh had told Bashir that he had done what he could on the 10th. Mr. Herbert (the Crown Advocate) did not press the case against him and we acquit him.' Now, my Lord, I should like to ask what would be the position of Mr. Gurdial Singh if he was to seek some compensation, some remedy for the gross, unjustifiable wrong done to him. Here is a man who at the risk of his life rendered service to the Government and the public at the time of the disorder, while the Deputy Commissioner and the Police Superintendent who saw him work at the railway bridge were still in Amritsar, this gentleman was arrested and *challenged* in a humiliating manner and kept in jail for a period of a month and a half, had to undergo all the anxiety, trouble and indignity and humiliation of arranging for his defence and had to be acquitted after all. Is he, if this proposed Bill is passed, to be defeated in a suit, unless he can swear that there was in the minds of his assailants and persecutors a malicious intent? Or is it right that he should be able to go into the Court, state the facts and ask his persecutors to plead whatever excuse or justification they may have to plead? Which will be the right course? Which will be the fair procedure? I submit, there can be only one answer. The man has been obviously unanswerably wronged. You want by this Bill to shut him out from having a chance of success in a suit for damages, by the provisions you seek to incorporate in this Bill. He goes with his suit or plaint into the Court, and the answer is that no suit will lie unless it is proved by the plaintiff that the defendant had not acted in good faith and in a reasonable belief that the steps that had been taken against him were necessary for the purposes of maintaining or restoring order. I submit, my Lord, I cannot imagine a grosser perversion of what should be the right procedure than what is incorporated in this Bill. I have drawn attention to this case for two reasons, first, that the provisions of clauses 2 and 3 are entirely unjust and ought to be entirely deleted, I mean so far as the proviso to clause 2 is concerned and so far as the new rule of evidence incorporated in clause 3 is concerned. I would also refer to it to show that though clause 6 of the Bill gives to Government the power to proceed against any person against whom they may

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Sir
William Vincent.*]

[19TH SEPTEMBER, 1919.]

think it fit to, the case of private individuals who may wish to proceed against those who have arrested or harassed or subjected them to oppression, is not taken sufficient care of. My Lord, it may be said that the Bill provides that the Government can proceed against any person in respect of any matter, and that it will be only reasonable to expect that in a case like the one that I have mentioned the Law Member of the Government would advise, and the Home Member would advise the Government of India to institute a suit to find out who were the persons who were responsible for all the humiliation and indignity and suffering inflicted upon Mr. Gurdial Singh and commit them to trial. That should ordinarily be the case, my Lord; but unfortunately in the circumstances of the situation, it is not given to private individuals who have suffered to expect, to have a reasonable expectation, that such a course would be pursued. I regret to say it, but it is a fact which I ought to mention that, while I have heard much indignation expressed at the acts of lawlessness that were committed by some sections of the mob, I have not heard one word of sympathy from the Government benches with those who have lost their lives, their relations or the other sufferers in consequence of these troubles, except my European fellow-subjects for whom I share the sympathy with members of the Government. My Lord, it has been a sad thing for me to reflect that while such outrageous events have happened, while the casualties have been ascertained to the extent that has been done, there should not have been one word of sympathy, expressed on behalf of Government with these men who have suffered

The Hon'ble Sir William Vincent:—"May I offer a word of explanation? I said quite definitely in this Council that no one deplored the loss of life more than I did. It is unfair to say that I did not express any sympathy with those who suffered."

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, I take it, I will accept it, that the Hon'ble Member did mean to express sympathy with Indians"

The Hon'ble Sir William Vincent:—"Not only mean to, but I did do it."

The Hon'ble Pandit Madan Mohan Malaviya:—"I am glad to be assured, my Lord, that the Hon'ble Member did express sympathy with Indians as well as Europeans who had suffered. But I still expected a more sympathetic attitude on the part of Government in order to give an assurance to the public that if there are any cases in which these facts are found to exist, if the wrongs done cannot be justified, that the Government will itself proceed to bring the offenders, the wrong-doers, the oppressors of His Majesty's subjects to trial. This brings me to one other aspect of the question, and that is the question of compensation for the damage sustained. In the Cape of Good Hope Act, VI of 1900, there is a whole chapter devoted to the provision for compensation for damage sustained from military operations. Now, what does clause 5 of the Bill before us provide? It says—'Where under martial law the property of any person has been taken or used by any officer of Government, whether civil or military, the Governor General in Council shall pay to such person reasonable compensation for any loss immediately attributable to such taking or using to be assessed upon failure of agreement by a person holding judicial office not inferior to that of a District Judge to be appointed by Government in this behalf'. My Lord, the Bill confines itself to loss of compensation for property used for military purposes. But what about the lives that have been lost in military operations? Lives that are much more valuable than any property lost. I submit that the proper course would be to incorporate in this Bill a provision to the effect that the Committee which is to be constituted under this Act

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

should have power to decide what compensation should be given to those who have suffered loss of life or limb, for many have suffered in limb, as well as those who have suffered loss of property. In this respect the Bill is defective, and for this reason also I submit that the Government should reconsider the situation. The Council will have noted that my proposal is not that no Indemnity Bill should be introduced and passed, but that such a Bill should not be introduced at present, that it should be kept back until the Committee of inquiry has reported. I would point out in this connection that this is not such a wide suggestion as it may seem to some people. After the dark days of the Mutiny the Government was in no hurry to pass an Indemnity Act. The Indemnity Act was passed in the year 1860; it received the assent of the Government of India on the 2nd August 1860; that is two years after the mutiny had been suppressed. I submit, my Lord, that the Government would not be unwise, and that no interests would be jeopardised if the Government do not proceed with the Bill at present. I am strengthened in urging this before Council by the reports which I have received, both telegrams and letters have been coming from different places expressing the deep sense of dissatisfaction among the general Indian public at the Government proceeding with this Indemnity Bill. I will first read a telegram I have received from Lahore. It runs—'Members of the Indian Association, Lahore, respectfully enter their emphatic protest against the statement made by the Hon'ble Malik Umar Hyat Khan at the recent meeting of the Imperial Legislative Council that the people of the Punjab do not want a Commission of Inquiry into the happenings of April last. As a matter of fact, the entire province demands a searching investigation by an Imperial Commission, unconnected with the administration of the country; the fact that public meetings of protest cannot be held owing to Ordinances and official orders should not be misconstrued. They wish further to give expression to strongly felt public opinion of the Punjab that passing of the proposed Bill at the present stage will not only be premature but also prejudicial to the conduct of proper inquiry. There will be ample time for enactment of a law for the protection of officials after the Commission of Inquiry has pronounced its verdict as to the necessity of a declaration of martial law and suggestions of measures and methods adopted in its working. The Punjab Association feel in any case that there is absolutely no necessity for validating sentences illegally passed by Martial Law Commission and officers. They pray that the Government will be pleased to abandon the Bill at present.' This is one of several telegrams received. I also wish to show how the public have expressed themselves. Sir Narayan Chandavakar, Vice-President of the National Liberal Association, cabled to the Secretary of State and to your Excellency a few days ago praying among other things that the Indemnity Bill at the present stage should be abandoned, as its necessity depends on the result of inquiry by the already appointed Commission. Then again, my Lord, 'Ditcher' in 'Capital' has said that it is obvious that the passing of the Indemnity Act and the findings of the Committee will be purely academic. The 'Daily News' of London has observed in referring to the proposed Commission that 'the provision for a complete whitewashing of the official policy of the Punjab is made doubly certain by the resolve to protect officials by the Act of Indemnity before the inquiry is entered on. This policy, for which there is no defence, recalls the direct action taken after the Ceylon disturbances in the first year of the war. By such un-British tactics the British name is besmirched.' The Indian papers have almost without exception written strongly against the policy of proceeding with this Bill before the Committee has made its report. There is hardly time for me to refer to the opinions of the 'Leader,' the 'Bombay Chronicle,' the 'Nation,' the 'Bengalee' and other papers. But what, I think, is better is to invite attention to a very valuable article from the pen of Sir Narayan Chandavakar which has been published in the 'Indian Social Reformer.' The other day the Hon'ble the Home Member relied upon a letter published by an anonymous 'Indian student of constitutional law' for support of his view in introducing

THE INDEMNITY BILL.

[Pundit Madan Mohan Malaviya.]

[19TH SEPTEMBER, 1919.]

this Indemnity Bill. I was rather taken aback; it seemed to me to be a great fall for the Hon'ble the Home Member of the Government of India to refer to an anonymous writer for support of the policy decided upon by the Government of India. However, that is the concern of the Hon'ble the Home Member. I now present as a contrast a very valuable contribution to the discussion of this Bill, the opinion of a gentleman who has acted for years as an honoured Judge of the Bombay High Court, officiated as Chief Justice for some time and was also Chief Justice in Indore for several years. On important occasions he has laid the Government of India under an obligation by expressing well-considered opinions on constitutional questions. Writing in the 'Indian Social Reformer,' Sir Narayan Chandavarkar writes: 'Surprise is expressed in some quarters that Indian politicians of all shades of opinion have opposed the decision of the Government of India in introducing an Indemnity Act in the Imperial Legislative Council at the earliest convenient moment for indemnifying all the officers in respect of their acts in connection with the recent disturbances.' Then he cites the authority of Mr. Dicey in support of the principle which is enunciated in Mr. Dicey's book, called 'A leap in the dark.' My Lord, I may mention that this book—'A leap in the dark'—was published in 1893. The purport was to examine the leading principles of the Irish Home Rule Bill which was introduced in that year in Parliament. In Mr. Dicey's opinion one of the most important defects of that Bill was, that its provisions relating to the restrictions on and safeguards against the legislative power of the contemplated Irish Parliament contain no prohibition against the passing of an Act of Indemnity by that Parliament. Mr. Dicey said:—

'Of all the laws which a legislature can pass an Act of Indemnity is the most likely to produce injustice. It is on the face of it the legislation of illegality, the hope of it encourages acts of vigour, but it also encourages violations of law and of humanity. The tale of flogging Fitzgerald in Ireland, or the history of Governor Eyre in Jamaica, is sufficient to remind us of the deeds of lawlessness and cruelty which in a period of civil conflict may be inspired by recklessness or panic and may be pardoned by the retrospective sympathy or partizanship of a terror-stricken or vindictive Legislature.'

Further on he writes:—

'An *ex post facto* is the instrument which a legislature is most apt to use for punishing the unpopular use of legal rights. There is not a landlord, there is not a magistrate, there is not a constable in Ireland who may not tremble in fear of *ex post facto* legislation. There is no reason as far as the Home Rule Bill goes, why the gaoler who kept Mr. William O'Brien in prison or the warders who attempted to pull off his breeches, should not be rendered legally liable to punishment for their offences against the unwritten law of Irish sedition. No such monstrosity of legal inequity will, it may be said, be produced. I admit this, but the very object of prohibitions (against the passing of an *ex post facto* law) 'is the prevention of outrageous injustice. The wise founders of the United States prohibited to Congress and to every State legislature, the passing of *ex post facto* legislation.'

"Now, my Lord, going further and dealing with the particular Home Rule Bill and commenting upon the absence from it of a prohibition against the passing of an Indemnifying Act, Mr. Dicey says that it was necessary that there should be a prohibition. He says:—

'Circumstances no doubt may arise in Ireland, as in other countries, under which the maintenance of order or the protection of life may excuse or require deviation from the strict rules of legality. But the question whether these circumstances have arisen will always be decided far more justly by the Parliament at Westminster than it can be decided by the Parliament at Dublin. Can anyone really maintain that a Parliament in which Mr. Healy, or, for that matter, Colonel Saunderson might be leader, would be as fair a tribunal as a Parliament under the guidance of Mr. Gladstone or Lord Salisbury for determining whether an officer, who, acting under the directions of the Irish Government and with a view to maintain order at Belfast or Dublin, should have put an agitator or conspirator to death without due trial had or had not done his duty.'

"Now, my Lord, as Sir Narayan Chandavarkar says, substitute India for Ireland and substitute Simla for Dublin and so on, and it would appear that the

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

passage applies very much to the proposal now before the Council. I submit that in view of these very weighty expressions of opinion, the Government would be wise in postponing action in this matter of an Indemnifying Bill. My Lord, it is open to the Government, it is in the power of the Government, as I said yesterday, to pass the Bill by the official majority which it commands. But I would appeal to your Excellency that your Excellency may reconsider this question and not flout public opinion which has been so widely expressed in this matter. My Lord, it may be that the Government can carry on the administration of the country without paying heed to public opinion, but it is not the right thing to do. The right thing to do would be to act in accordance with all the principles for which the blood of Britons and of Indians was shed in the last great war, to do that which is right, to do that which truth, justice and honour demand, and in this matter truth, justice and honour demand that where so many deplorable acts have been committed, where so much illegality has been committed, where so many indignities have been offered, when there are such serious allegations regarding the action of His Majesty's officers, civil and military, when there are serious allegations regarding the attitude of the Government of India itself in the matter of the Punjab administration during the last few months, I submit, my Lord, the right thing to do would be to stay your hand and to let this matter lie over until the Committee of Inquiry has reported. When the Committee of Inquiry submits its report, I venture respectfully to say that the right course for the Government of India would be to submit that report to His Majesty's Government and ask them, in view of the facts which may then be established, to consider which acts of the officers of His Majesty's servants, civil or military, should be indemnified, and to also consider what compensation should be offered on behalf of the public, that is the Government, to those who have suffered unjustly during these disturbances and riots. I ask, my Lord, for an attitude of greater sympathy, an attitude of greater desire to do justice between man and man, between Indian and European, between one subject and another, not in any vindictive spirit, not in any revengeful spirit, but purely with a desire that justice should be done, and that right should be done. For these reasons, I most earnestly appeal to your Excellency and to your Excellency's Government to reconsider the matter and not proceed with this Bill. If this is done, my Lord, the whole country will feel grateful; in England and in India public opinion will feel that your Excellency's Government have at the last moment even recognised the force and weight of public opinion and bowed to it. My Lord, the mightiest Government has to bow to public opinion. It so happens that in this matter the public voice is not strong, but, I submit, we must always appeal in this matter to what we find in England, and I submit with great respect that no Government in England would have dared to bring forward a Bill of this character in the circumstances which have been disclosed in this debate, and I submit, my Lord, that the Government here, though it has the power, it ought not to exercise that power, and ought to wait until the Committee of Inquiry has reported. I make this appeal in the name of those who have lost their lives, in the name of those who have lost their limbs in these recent disturbances, in the name of those who have suffered indescribable indignities, in the name of those who are undergoing imprisonment at this moment unjustly in His Majesty's jails, in the name of those women who are in mourning by the loss of their husbands, their relations, or sons, in the name of all those, my Lord, I appeal to your Excellency's Government to stay the hand of Government and to wait for the Committee of Inquiry, and then to decide what should be done. When the Committee of Inquiry has reported, the public can see what are the facts, and what is the right course to pursue in those circumstances. Every reasonable man in this Council will then offer his support to the measure that may then be proposed.

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Mr. J. P. Thompson.*]

[19TH SEPTEMBER, 1919.]

“ My Lord, I submit this is what the situation demands. I hope that your Excellency's Government will not judge this matter merely by the opinions of a few members who have the privilege of sitting in this Council. I hope, in deciding this matter, your Excellency will have referred to the vast multitude of Indian opinion outside this Council and also to the opinion in England. If you decide having regard to that opinion, I have no doubt that your Excellency will come to only one conclusion, and that is, to postpone the introduction of this Bill till the Committee of Inquiry have reported.”

11-40 A.M.

The Hon'ble Mr. J. P. Thompson :—“ With your Excellency's permission, I should like to make a few remarks on the amazing speech, to the last quarter of which we have just been privileged to listen. I do not propose to touch on the legal questions, or questions of constitutional law which have been raised by the Pandit. They will no doubt be dealt with by the Legal Member, if he thinks there is anything in them that merits a reply. Nor do I propose to deal with the details of the administration of martial law by military officers ; that is a matter for one of my military colleagues to deal with. Nor again shall I touch on the general questions of the justification for the introduction of martial law, the alleged provocative action of the Punjab Government in deporting Kitchlew and Satyapal and excluding Mr. Gandhi from the Punjab, or such other matters of a general nature. I propose to confine myself to the specific allegations which have been made by the Pandit of misconduct and mal-administration on the part of civil officers who were responsible for the administration of justice during the period of martial law. Before I start with the allegations made by the Hon'ble Pandit, there were two remarks which fell from the speaker who preceded him which, I think, require a passing notice. The first point was the statement made by Mr. Chanda that on the 11th of April orders were issued by the Punjab Government prohibiting the publication of any accounts in the newspapers. The order that was passed, my Lord, was an order requiring any newspaper, whether English or Indian, to submit any accounts which it proposed to publish of the events which had taken place for precensorship before publication. It was an order which, as I have said, applied both to the English and the Indian press, and there was nothing whatever to prevent any newspaper which desired honestly, and for the public good, to publish true information from publishing it.

“ The second point in Mr. Chanda's speech on which I wish to make an observation is, his allegation that it was out of revenge for the fraternisation between the Hindus and Muhammadans at the festival of *Ram Navmi* on the 9th of April that Sir Michael O'Dwyer excluded Mr. Gandhi. Now, my Lord, I have the greatest admiration for Sir Michael O'Dwyer, but I do not think that any one here would claim for him that he was a prophet. The fraternisation at the *Ram Navmi* took place on the 9th of April ; the orders for the exclusion of Mr. Gandhi were passed, so far as I remember, some 48 hours before that fraternisation took place.

“ I now come, my Lord, to the allegations which have been made by the Hon'ble Pandit. I am afraid my remarks must of necessity take rather a discursive form, but I do not see that I can deal with the allegations which have been made in any better form than by taking them in the order in which the Hon'ble Member has made them, and I think in all the cases with which I shall deal I shall be able to show the Council that the story which has been given by the Pandit is a distortion or an exaggeration, or a misunderstanding of the facts. The first case he mentioned was that of the exclusion of a gentleman from the Punjab who was so well-known that the Pandit could not even give us his correct name ; he called him Mr. Hume

The Hon'ble Pandit Madan Mohan Malaviya :—“ Mr. C. F. Andrews.”

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. J. P. Thompson.]

The Hon'ble Mr. J. P. Thompson :—" His real name was Mr. C. F. Andrews, but the Pandit called him Mr. Hume. Now, my Lord, the facts in regard to the exclusion of Mr. Andrews are these. On the 5th of May the Punjab Government received a telegram from the editor of the 'Independent' newspaper at Allahabad saying that he, along with the editors of the 'Bengalee', 'New India,' the 'Amrita Bazar Patrika,' the 'Hindu' and the 'Leader' proposed to depute Mr. Andrews to the Punjab with a view to report to the Indian press on the condition of affairs in the Province with special reference to the administration of martial law. Now, my Lord, at the time when that request was made, two of the papers on whose behalf it was made had been excluded from the Province—one more of them has been excluded since—and almost all of them have distinguished themselves by the bitterness of their attacks on the Punjab Administration. Now, my Lord, I put it to the Council, if these papers wished to obtain the good offices of the Punjab Government with the military authorities in order to enable Mr. Andrews to enter the martial law area, was this quite the most tactful way of doing it? Could the Punjab Government be expected to use their good offices on behalf of newspapers whose bitter criticism, whose unfair criticism of what had been done had earned for them exclusion from the Province? I do not think there is a single Member here, my Lord, who will answer that question in the affirmative.

" I now pass on to the Pandit's allegations about the Jallewalian Bagh. I do not wish to dwell on this extremely painful incident, but I merely wish to offer one or two remarks in regard to the number of casualties. The Hon'ble Member has hinted that more than a thousand persons were killed there. He told us yesterday that his latest information was that 530 had been traced. Now, my Lord, I daresay we shall never know the exact number of persons who met their deaths in that garden. But what the Punjab Government have done is this. We made a proclamation in Amritsar and in the surrounding villages inviting all persons who had any information in regard to the names of those who had met their deaths there to come forward and give that information to Government. We knew that private organisations were at work collecting information on the same subject. We gave instructions to the local authorities that they were to see that this proclamation was brought to the notice of those persons so that they might have no excuse for not coming forward and giving us any information that they possessed. I make no doubt, my Lord, that that proclamation also came to the notice of the Pandit. Our enquiries show that the total was 291, and I claim that any information which asks us to accept figures beyond this must be received with the gravest suspicion.

" I now come, my Lord, to the case of the Badshahi Masjid. In this case an Inspector of the C.I.D. was assaulted in the Badshahi Masjid in Lahore on the 12th April.

The facts as given in the judgment are as follows :—

' On that day, —on the 12th of April,—' a meeting with political objects was held in the Badshahi Mosque, Lahore, which was to be addressed by leading Hindus. Many Hindus were present and many people armed with sticks. Maulvi Abdul Hai, having recognised Chaudhri Ali Gauhar, C.I.D. Inspector, who was present in plain clothes, made an inflammatory speech against the C.I.D. in general saying that no progress with their objects was possible until the C.I.D. were eliminated. He pointed out Ali Gauhar as an object of immediate attack and the others then set upon Ali Gauhar who was beaten with sticks on the body. His assailants had him at their mercy but did not kill him.'

" Now, what is the story to which the Hon'ble Member gives the weight of his authority, in regard to the origin of that attack. He tells us that that Inspector had drawn on himself the resentment of the crowd by certain remarks that he had made. I have before me, my Lord, the record

THE INDEMNITY BILL

[*Mr. J. P. Thompson ; Pandit Madan Mohan Malaviya.*]

[19TH SEPTEMBER, 1919.]

of that case. I have been through the whole of the evidence from start to finish, and there is not a suggestion anywhere, neither in the statements of the witnesses for the prosecution nor in the statements of the witnesses for the defence, nor in the statements made by the accused themselves ; nor is there any hint in the cross-examination of the witnesses for the prosecution, of this story which the Hon'ble Member has told us.

"Now, my Lord, I do not wish to use hard words about the Pandit, but I put it to the Council that the suggestion that he has made is not one which comes within the limits of fair controversy, stretch them how far you will. In this Council, my Lord, we are all supposed to be Hon'ble Members. It is a title that is given to us on account of the position we occupy, and not with regard to the moral character of Members who occupy that position. But I do claim, my Lord, that that title justifies the public in expecting from Members who speak in this Council a standard of honour and fair dealing, straight dealing, which, I think, the Pandit has failed to reach in the present instance

The Hon'ble Pandit Madan Mohan Malaviya :—"I am sorry for that."

The Hon'ble Mr. J. P. Thompson :—"The next allegation with which I will deal is, one to the effect that the electric and water supply of the whole city of Amritsar, exclusive of the Civil Lines, was cut off for about five days, about the 12th of April last, and that a large number of wells in the city of Amritsar had been closed under recent orders when Mr. King was Deputy Commissioner there. I understand that six wells were so closed. As regards the stoppage of the supply of electricity, on the 10th of April the mob attacked the power house and stopped the electric light plant working. On the 11th they prevented repairs being done and power was cut off that evening by order of the General Officer Commanding and remained cut off until the 19th. As regards the water supply, I am informed that on the night of the 10th the water supply was cut off by the Municipal Engineer, as there was a rumour in the city that the supply had been poisoned, though who published that rumour I cannot say, but it was found necessary to shut off the supply again on the following day, and it remained shut off until the 14th by order of the General Officer Commanding.

"The next incident that the Hon'ble Member dealt with was another Amritsar incident. He told us that several very respectable people, under-trial prisoners, including bankers, lawyers, doctors and so on—the class of people, in brief, who always 'rot' when sent to jail—were handcuffed in pairs and confined for several days in the racket court at Amritsar where they were subjected to several kinds of inconvenience. Temporary arrangements were made for the confinement of prisoners in the racket court in Amritsar ; they were provided as soon as possible with shelter, but they were not handcuffed, so I am informed, for more than two or three days. And the picture which the Hon'ble Member has drawn of the inconveniences to which they were put is very largely exaggerated. I would remind the Council that at the same time at which these honourable gentlemen were confined in the racket court English women and children were also confined in the Fort because of the violence of the people outside. They remained there some days deprived of all the comforts and conveniences that they had in their own houses, and in some cases without even the decencies of ordinary life. Is this Council going to condemn the temporary arrangements which were made for these respectable gentlemen of Amritsar, when it finds that English women and children were subjected to not dissimilar inconveniences within a few yards of the place where these people were confined ?

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. J. P. Thompson.]

"I now come on, my Lord, to the case of Gujranwala. The Hon'ble Member told us that on the 15th of April last Colonel O'Brien, Deputy Commissioner of Gujranwala, with a strong body of police and soldiers and an armoured car marched round the city arresting people right and left; that the persons so arrested were chained together and marched to the city two and two, headed by a Hindu and Muhammadan, with a view to ridiculing Hindu-Muhammadan unity, and that, 'in the words of Colonel O'Brien,' two Municipal Commissioners marched in front of the procession so formed and, pointing to the aeroplanes hovering overhead, kept on shouting to the people to make way for the prisoners; and that, after having been paraded through the principal streets of the town, the prisoners were taken to the railway station and put into an open truck guarded by a number of European soldiers with fixed bayonets, and so on. Let me read to the Council a description which is based on information supplied by Colonel O'Brien himself to explain what it was that happened. I should tell the Council that the outbreak in Gujranwala in which such a vast amount of damage was done to Government property took place on the 14th. On the morning of the 15th, Colonel O'Brien felt himself in a position to make arrests. He did not think it safe to lodge the prisoners in the local jail. In order to make certain that there would be no trouble, he asked by telephone that an aeroplane and a special train should come out in the afternoon. It was essential that no warning should be given to those who were to be arrested. He laid his plans accordingly. A list was prepared and a route arranged. He then started with the police to make arrests, as well as a party of British soldiers to prevent resistance. There was no armoured car. Pleaders, barristers, and others believed to be concerned in the outrages were arrested and handcuffed. As the party pursued its route, a Muhammadan and a Hindu, both members of the Municipal Committee, went well in front to warn the people against resistance. There was no intention of ridiculing Hindu-Muhammadan unity, and, if a Hindu was linked with a Muhammadan, it was by accident and not by design. The party arrived at the station within a quarter of an hour of the time fixed to find that the only accommodation for the escort and the prisoners was an open truck. It was nearly 5 o'clock, the journey to Lahore would take two hours, and there was no time to be lost. It is possible that all concerned may have been put to some inconvenience. It is not alleged that there was anything more than this, and the essential thing was to get the prisoners into Lahore as soon as possible.

"The Hon'ble Member's statement went on to deal with what happened at Shekhupura, where, he said, Colonel O'Brien had committed very much the same atrocities. The arrests at Shekhupura were made with equal celerity as he had to visit on the same day Chuharkhana, Moman, Dhaban Singh and Sangla, at all of which places outrages had occurred. The Shekhupura prisoners were taken to Lahore by an armoured train which Colonel O'Brien found at Chichoki Mallian.

"The next atrocities to which I turn were those which were committed at Kasur. Kasur is a small place about 35 miles from Lahore where two British warrant officers were killed on the 12th. I cannot lay my hands at this moment on the statement which was made by the Hon'ble Member in regard to the outrages on respectable persons at Kasur; but it related, I remember, to two pleaders, Ghulam Mohiyuddin and Abdul Kadir; it was stated, if I remember aright—the Hon'ble Member will correct me if I am wrong—that these two persons were confined for a long period, many weeks, in a lock-up at the station. The facts as given by the Sub-divisional officer are as follows:—

'Ghulam Mohiyuddin and Abdul Kadir were arrested and were confined in the police station; and once or twice they were detained by the military in the temporary lock-up near the station when brought from the police station with other prisoners for evidence or identification. They were released after a few days at my request in my presence by the officer commanding when I had decided that the evidence as to their being rioters was not true.'

THE INDEMNITY BILL.

[Mr. J. P. Thompson.]

[19TH SEPTEMBER, 1919.]

"The other Kasur case to which the Hon'ble Member referred was the case of certain boys who were said to have been flogged there. The story is true. Six boys, three of them belonging to the Municipal Board High School and three belonging to the Islamia School, were caned at Kasur. The headmaster of the Municipal Board High School had invoked military assistance to deal with the boys who had acted very insubordinately and joined hands with the pupils of the Islamia School. The officer commanding directed the headmaster to choose the worst offenders and sent them up for punishment. In addition, two school-boys sent by the commission for summary trial were caned—three strokes each—by the martial law officer after trial.

"The next case to which the Hon'ble Member referred was that of Mr. Manohar Lal, a distinguished graduate of Cambridge University and a barrister-at-law. He was one of the trustees of the 'Tribune' as the Pandit told us, and the question had been raised as to whether, when the editor of the 'Tribune' was being prosecuted, it would be possible to prosecute the trustees too, or at any rate the resident trustee who happened to be in Lahore at the time and was believed to have taken considerable interest in the management of the paper. It is true that Mr. Manohar Lal was arrested and that he remained in confinement for the space of about a month. It is not true, as the Hon'ble Member stated, that his family were kept out of his house for a week; his house naturally was locked up after his arrest as it might have been necessary to make a search, but his family were allowed to return and did return, I understand, the very next day.

"The Hon'ble Pandit then went on to tell us that hardship was inflicted on respectable persons in connection with the custody of martial law notices. Now, my Lord, that is a matter primarily which concerns my Hon'ble friend on my left. But it is a matter of such vital importance to the civil population that the meaning of these punishments which were inflicted in regard to martial law notices and the procedure that was adopted in order to safeguard them should be properly understood, that I make no apology for making a few remarks to the Council on the subject. Martial law notices are a most important part of the machinery of martial law. If you create new offences you must advertise them; otherwise well-meaning people have not a fair chance. The man who tears down a martial law notice may be the cause of an honest man being shot. When such notices were first put up, it was found that they were torn down and defaced. Colonel Johnson interviewed the leaders of the people and they promised to arrange for the publication of the orders in the different quarters of the city. They failed to fulfil their promise. Colonel Johnson accordingly decided to impose on selected owners of property the duty of protecting them. It is true that a number of persons connected with public movements or interested in persons who had been arrested were selected because they were *prima facie* the persons in whose custody the notices would be safest. My Lord, I can say with regard to this policy that its success was ample justification for any hardships that might have been inflicted. After this class of property owner had been made responsible for the safe custody of the notices, I believe hardly any were torn down or defaced.

"The Hon'ble Member then went on to state that in some cases tried by martial law officers, especially towards the close of the martial law period, the accused were convicted without the whole of the defence evidence being heard, and even that witnesses who were present in Court or attended the Court for that purpose were not heard. He gave the case of two pleaders, Lala Gurdasram and Lala Shivaram, of Hafizabad in the district of Gujranwala. Well, my Lord, I have not had time to make inquiries from each Deputy Commissioner as to what happened in his district, but I have made inquiries from the district in which this particular case occurred, and the answer I have received is as follows:—

'It is not the fact that martial law courts refused to hear witnesses for the defence who were present in court or attended the court for that purpose. In the case mentioned, as in some

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Mr. J. P. Thompson ; the President ;
Pandit Madan Mohan Malaviya.*]

others, the court exercised its discretion in not summoning certain witnesses named by the accused when such witnesses lived in distant places and the accused could allege no real reason for producing them as witnesses and it appeared they were named as such merely for purposes of vexation and delay.

"From Gujrunwala, the Hon'ble Member went to Lyallpur and he stated that there was a man named Ram Lok at Lyallpur, son of one Daulat Ram who was arrested on the 25th April, was detained in police custody for over three weeks and then released for want of evidence; that after his release his father appeared as a defence witness for one Ram Ditta and was asked to become approver but refused to do so; that on this his son Ram Lok was re-arrested on the following day for the offence for which he had been arrested and released before. He then went on to say that the trial was unduly expedited at the end owing to the approaching termination of martial law. Now, my Lord, Ram Lok was not arrested on the 25th April, he was arrested on the 28th May. He was not detained in custody for three weeks; he was convicted on the 5th of June. His arrest had nothing whatever to do with the evidence given by his father on behalf of Ram Ditta and indeed, the police at the time, I am assured, did not know what evidence his father had been giving in the case against Ram Ditta. Finally, my Lord, the accused pleaded guilty.

"The Hon'ble Member then went on to speak of men who had been sentenced to long terms of imprisonment without any evidence having been recorded or any judgment having been written. Well, I can quite understand the Hon'ble Member feeling a little bit disoriented when he deals with cases in which there are not full records. Full records are what he has been accustomed to, and it gives him something of a shock to find that a man has been sent to jail on a scanty record. I need hardly perhaps tell him that a scanty record does not mean scanty evidence; but it may be news to him to know that no court martial ever gives any reasons for its findings, and the procedure of these courts was much more that of courts martial than of the ordinary courts of law. The particular cases which the Hon'ble Member has selected are not very fortunate ones. He has taken the case of a man named Fazla, *tonguwala*, who, he says, was sentenced to transportation for life for waging war against the King, without any evidence being recorded.

"I have seen the record and the Judge's notes. Two sides of foolscap are covered with the notes

(At this point the Hon'ble Mr. Malaviya got up.)

The President :—"Order, order. The Hon'ble Member must not interrupt. He has had his say and Mr. Thompson now has the ear of the house."

The Hon'ble Pandit Madan Mohan Malaviya :—"The Hon'ble Member is wrong. I did not refer to the case of Fazla."

The Hon'ble Mr. J. P. Thompson :—"The record is in the possession of Sir William Vincent. I am certain of the facts I have stated.

"The other case the Hon'ble Member mentioned was that of Hari Ram and Hans Raj. These two men were prosecuted for being in possession of Amritsar loot. It is true that in this case no evidence was recorded, but it is not true that there was no judgment. There was a judgment, which sets out the facts of the case and the reasons for the finding.

"Then the Hon'ble Member passed on to a consideration of what is known as the salaaming order at Lyallpur. The justification for this order is not really a matter for me, but I happen to have the record of the case he referred to; so I think perhaps I am justified in making a few remarks about it. I do not wish to justify, it is no part of my business to justify, the infliction of

THE INDEMNITY BILL.

[*Mr. J. P. Thompson; Pandit Madan Mohan Malaviya.*]

[19TH SEPTEMBER, 1919.]

sentences of flogging for the non-salaaming of British officers. But in the particular case which the Hon'ble Member mentioned, the man who was convicted had previously been warned that he was committing a breach of martial law in not salaaming British officers and the offence for which he was punished was his second offence.

"My Lord, the Hon'ble Member read out to the Council the judgment of Colonel O'Brien in the Ramnagar case, in which the King was burned in effigy. This case has engaged the attention of the Punjab Government. We made some further inquiries with a view to ascertaining whether the facts were as found. As the Council will gather from what the Hon'ble Member has said, the case is one which has attracted a certain amount of attention. The case was examined by two officers independently of Colonel O'Brien, and both reported, after going through the case, that there was no ground for distrusting the conclusions arrived at by the officer who had tried the case. The Hon'ble Member tells us that some of the accused were not arrested till the 28th May. He then said that the people were of such position that it was impossible for them to have committed the offences that were alleged against them. My Lord, we have adduced against the reasoned judgment of an officer who had heard the evidence, an officer of long experience, who must, I think, have been in charge of one district or other in the Punjab for nearly twenty years, we have adduced a misstatement and an opinion. I claim that that is not sufficient to justify Government in remitting the punishment of these men.

"The last cases with which the Hon'ble Pandit referred were certain cases tried by Mr. Hoyle. He said that the particulars in the judgments were scanty. The records I hold in my hand (shown to Council). This is the record of one case, 5 pages of evidence written in a small hand, and this is the record of the other case, 8 pages of evidence. The cases tried by Mr. Hoyle were, as a general rule, tried with great care, and I should not be afraid to show the records to the most hostile critic.

"That concludes the examination of the detailed allegations of the Hon'ble Pandit. I trust I have succeeded in convincing the Council that the allegations made by the Pandit show a degree of credulity, not to say gullibility, lack of proportion and a power of closing his eyes to everything that can possibly be said on the other side, that justify me in saying that it is difficult any longer to have any confidence in his power to appreciate any political situation, or his willingness to admit that there is anything whatever to be said in favour of those who are unfortunate enough to differ from him. As regards the Hon'ble Pandit's credulity, I should like to tell the Council a story. The Pandit has recently been paying a number of visits to Amritsar, in the course of which he has been making those inquiries the valuable results of which he has indicated to the Council in his speech. During the course of one of these visits he paid a visit to the Jallianwala Bagh. After his visit there he reported to the Municipal Committee that there were corpses down the well and that they constituted a grave danger to the health of the locality. On examination it was found that he had mistaken an earthen pot for the head of the corpse and a bundle of cloth that had been looted for the body

The Hon'ble Pandit Madan Mohan Malaviya:—"There was one corpse, several of us saw it."

The Hon'ble Mr. J. P. Thompson:—"I adhere to my statement of fact. If the Hon'ble Member believed in his own story, I am sure he would have found one little minute during the 4½ hours he addressed the Council to bring in that picturesque touch. This is an example of the Hon'ble Pandit's credulity. He tells us that he had the evidence of two of his senses, his eyes and his nose, as regards the presence

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. J. P. Thompson.]

of the corpse. I ask the Council whether we are to take statements which he has only on hearsay and to rate them at any higher value than the evidence of his own senses. I have mentioned this story because, I think, it is important for the Council to realise what a terrible enemy we have had to contend against in the rumours spread about the country during the past troublous months. I think it will help the Council to correlate the intelligence and mentality of the Hon'ble Pandit with that of the lower orders of the people among whom those rumours find credence and have currency. I should like to give the Council some examples of these rumours, because, I believe it is only in this way that it will understand what an unrivalled field the agitator in this country has if he chooses to set about sowing false rumours in the countryside. The rumours in regard to the Rowlatt Act are known to everybody here and I need not do more than refer to them; such rumours as that no one should be allowed to possess more than 10 bighas of land, that 50 per cent. of the produce was to be taken as Government dues, that no marriages were to be allowed until the parties had been examined by a Government medical officer and so on. I do not wish to say anything more about those rumours, nor do I wish to deal with those rumours which dealt with things which are not inherently impossible. For instance, there was a rumour going about which, I believe, found wide credence that at one period of the disturbances a personal attack was made on Sir Michael O'Dwyer, and his Private Secretary drew out his revolver and shot not his assailant, but the Hon'ble Mian Muhammad Shafi. No, it is another kind of rumour to which I want to draw the attention of the Council, they illustrate better the difficulties of the situation with which we have to deal, rumours which savour of magic or faerie. We had stories that the Germans had signed the peace with an ink which would fade and that there would soon be no evidence that the treaty had been signed at all. We had stories that Mr. Gandhi was distributing magic emblems in the shape of miniature swords which would inspire the holders with an undying hatred against the British Government. We had stories that the Amir during the recent hostilities had called to his aid a regiment of paladins from Samarkand, against whom no mere human force could stand. But perhaps the most extraordinary of all rumours which got about was a rumour which gained wide credence in the district of Muzaffargarh. It is a district which lies along the Indus in the extreme south-west of the province. It is inhabited mainly by Mahommedans. A rumour got about that on the night of the *Shab-i-barat* all those who had died in the influenza epidemic at the last autumn would rise from their graves. The *Shab-i-barat* is the night on which Mahommedans believe that God records the actions which will be performed by all human beings in the coming year, and the names of all those who are to die or to be born. Pious Moslems keep awake all night in the hope of catching a glimpse of the glory of the Almighty. The rumour, as I said, spread and with it went an order to the women of the district that they should be ready that night in the graveyards with clothes for the dead, against their expected resurrection. The rumour was contradicted before the night arrived, but I believe that there were many poor women who watched by the graves that night, in the hope that at midnight the graves would open and their lost ones would rise again.

"I have nothing more to say, my Lord. I do not propose, as I told the Council, to deal with the question of the causes of the recent discontents. But there is one statement which I do not feel I can let pass unchallenged. The Hon'ble Mr. Chanda and the Hon'ble Pandit Malaviya have both told us that the *Satyagraha* movement was innocent in connection with these disturbances. My Lord, I should like to tell the Council a story. It came to my notice a few days ago in connection with an appeal for mercy for an unfortunate man who had been condemned to death. There were in Lahore two brothers, Indian Christians. They were both in service and they lived with their families in the same compound. The master of one of them went to Bombay and took

THE INDEMNITY BILL.

[*Mr. J. P. Thompson ; Major Malik Sir Umar Hayat Khan.*]

[19TH SEPTEMBER, 1919.]

his servant with him, and he went away leaving his wife and two little children, aged six and three, in charge of his brother. While he was away his wife died. His brother sent word to him to return. He was very poor and so borrowed a few rupees for the funeral in the absence of his brother. A few days later his brother returned. When he returned, it was the days of the *hartal* in Lahore and the shops were all closed. He found both of his children ill ; it was partly illness and partly starvation. Milk was what he wanted for them and milk he could not get. All day long he tried to obtain it, but without success. The shops were shut and none would sell. In the evening he returned in despair. Late at night his brother who had been out on the same errand like him returned with empty hands, and when he opened the door of the hut where the children slept, he found there two little bodies lying on the bed with their throats cut. At whose door, my Lord, will those two lives be laid ? ”

12-39 P.M.

The Hon'ble Major Malik Sir Umar Hayat Khan:—“ My Lord, a telegram has just been received, and I believe two or three pleaders sitting together have drafted it in the name of the whole of the Punjab to delay this Bill. Of course, all the other subjects of His Majesty, who form about 99 per cent, have also to be kept in view. I had agreed, some of the members had agreed, if Government did not bring forward this Bill, to remain silent ; but now that the Bill is before the Council, I wish to say what I originally wanted to.

“ While welcoming the Bill which is a very ordinary measure and always follows disturbances and martial law, I am of opinion that it has come rather late, and now that it has come it should be passed at once. It is a good thing that hitherto no one has sued any of those subordinates who acted under orders of their superiors and who in turn acted with the best of intentions to speedily quell a fire, the flames of which would have spread to the rural population from which the Army is recruited and that, plus the Frontier troubles at a very critical time of the year, may have proved disastrous for a while. I hope that the loyal soldiers and other officials will not be left a minute more without the protection of this most urgent Bill and that it will be passed into law.

“ Before the Bill was introduced we had many consultations, and the main objections to the Bill were that it would prejudice the Committee of Inquiry and hamper its work and that the unwarranted acts of various individuals and officers would go unpunished. It looks as if the Government of India had deputed a spy with us because they have framed the Bill in such a way that they have met all the possible objections which one could raise. This could be seen from the Statement of Objects and Reasons where it is clearly pointed out that ‘ It gives protection only to acts done in good faith and in a reasonable belief that they were necessary,’ etc. It continues further :—‘ It thus leaves open the question of fact in any given case to be considered by the intended Committee of Inquiry, and does nothing to prejudice the Committee’s findings or the action which Government may take upon its report.’

“ Now coming to the preamble of the Bill in which it is said :—‘ It has been necessary for the purpose of restoring order to resort to martial law.’ I would like to offer certain observations to show the state of various places in the province where martial law was necessary.

“ Apart from the section which was responsible for the disturbances the general population deplored it and positively knew that this was all due to an organised conspiracy, and it will not be out of place to quote a portion of the address presented by the Muhammadan community of the Punjab on the eve of Sir Michael’s departure. This community form the majority of the

THE INDEMNITY BILL.

[Major Malik Sir Umar Hayat Khan.]

[19TH SEPTEMBER, 1919.]

population. On that occasion representatives of nearly all the districts of the Punjab were present. It runs as follows :—

‘ Although towards the conclusion of your Honour’s brilliant régime the enemies of law and order as a result of an organised conspiracy which may be the outcome of a foreign influence succeeded in deluding a section of the people into riots and disturbances, yet it is a standing tribute to your Honour’s far-sighted statesmanship and firmness that the situation was soon got well in hand and by using the speedy and effective method of martial law peaceful life is once more possible for the law-abiding citizens of our chief towns.’

‘ Later on when all the spiritual leaders met to condemn the action of the Amir of Afghanistan in declaring war against India and thus naturally against His Majesty’s Muhammadan subjects and to say farewell to Sir Michael they said :—

‘ We condemn the actions of those enemies of the country whose conspiracy has brought about disturbances in the country.’

‘ So from this it will be seen that the general public apart from evil-doers recognised that there was a conspiracy at the bottom of all these affairs.

‘ The Hon’ble the Home Member held an inquiry into the doings of the *Gadhr* Party, i.e., those who wanted to bring about mutiny in the beginning of the war and what were their methods? They intended to cut the telegraph wires, break the railway lines, derail the trains and plunder the public, etc. What did the recent conspirators do? They took exactly the same line and the whole thing was very cleverly managed. Meetings were convened in the mosques to unite Muhammadans. It was known that the Muhammadans had strained feelings about the Turkish affairs, and if their mosques were bombed or fired upon, it would infuriate them. Such meetings were held in Delhi, Lahore and various other places. The same thing was planned in Amritsar with regard to the Sikhs in which they succeeded to a good extent and spread all sorts of rumours about the Durbar Sahib, the Golden Temple. But it was owing to the loyalty and far-sightedness of the Sikh nation that their designs were frustrated. The similarity of action which I explained the other day in various centres at one and the same time illustrates that the origin was the same. The time of a great fair chosen to spread the propaganda with much ease was cleverly fixed where people from all the rural parts of the country assemble so that they may carry it with them to the villages. The columns of the extremist newspapers were engaged for propaganda and though we may now satisfy ourselves that the editors of some such papers were punished they had done their work.

‘ On the 5th of April last every thing was so ripe that all sane thinkers knew the trouble had arrived. Though this was also known to the authorities and though some arrangements of police and troops were made as a safeguard, I am sorry to say the authorities were yet doing things in a half-hearted manner. Knowing that there would be trouble, I offered my services with my men and sowars to help the Police which were accepted, and from that time onward I continued to work throughout the disturbances helping the Police, Publicity Board and the military authorities.

‘ From this it will be clear that everyone knew perfectly well the impending danger. Although the Lahore authorities prohibited the forming of any procession next day, the 6th of April, all such orders were disregarded and though the facts were reported and later on they saw it for themselves, they were weak in not enforcing their orders. This weakness so encouraged the mob that from that date onward no man with a title or one considered to be of the Government party could appear among the public. The war cries of ‘ Hindoo Mussalman ki Jai ’ meant that both the communities had joined in a common cause by eating and drinking together. The excitement of the public went on increasing while the prestige of Government went on decreasing. When on the 10th things reached their climax, all this time the Punjab Government was hesitating and minimising the gravity of the situation.

‘ As the martial classes of the Punjab were about to give a farewell party to the Lieutenant-Governor, and as most of the leading men including the

THE INDEMNITY BILL. —

[Major Malik Sir Umar Hayat Khan.]

[19TH SEPTEMBER, 1919.]

members of the Provincial Council were present, a deputation waited upon a high official to impress the delicacy of the situation just before disturbances had broken out. When the disturbances had broken out on the 10th, the Punjab Government summoned all the representatives of Lahore, as well as those of the other parts of the Province, to discuss the situation, and out of thirty or forty members representing all sections and classes, except two, were all unanimous in advising the Government to be firm and take strong and immediate action so that the disturbances would not spread to the rural areas. But I am sorry to say that the Punjab Government did not follow the advice and still hesitated to take any proper action. This was interpreted by the people as inability of the Government to do anything, and disturbances at various places like Gujranwala, Kasur, etc., were the result. Had martial law been introduced earlier it would have saved many lives and disastrous results. I have dealt with this at some length to show the state of affairs. Most of the students who were approached by some of their teachers were wearing the black badges of martyrs and did not attend the schools and colleges. The Railway employees had also been approached and had struck work. Apart from the various strikes a Danda Battalion with heavy clubs was in charge of Lahore city who terrorized all the peace-loving people who wanted to assume normal conditions. Free food was supplied to all these and other evildoers while the rest of the population could not get sufficient to eat, many having reached the point of starvation. The Council will have heard the sad story which Mr. Thompson has just related of those children who could not get food.

"A regular agency of exaggerated rumours against the Government was opened. The emissaries reached Peshawar and then further on to Kabul. This will prove, I hope, the necessity of the preamble of this Bill.

"It will be admitted on all hands that acts committed by the soldiers under orders of their superiors are *bona fide*. But if it may be considered that the higher officials are to be blamed for harshness I have already stated the case of some at Lahore for so delaying action.

"In Gujranwala, the rebels the whole day burnt building after building belonging to the Government as well as the records, church and station, and the authorities took no action till evening, when some aeroplanes turned up. If the night had fallen before their arrival none can foretell what would have happened during that time.

"The excuse that the local authorities have put forward at Gujranwala that they did not fire and allowed everything to be set on fire all the day long was that young children were put forward as a shield, and had they fired upon the mob the children would have been killed. But this was no novelty as the same thing was tried at Malakwal and even at Anritsar, which fact you would have heard and seen when a photo was shown in a debate the other day. The law clearly provides in section 106 I. P. C. for it.

"Thus the authorities cannot hold it as a good excuse. It is said one of the bombs was thrown intentionally on a Boarding House at Gujranwala, and the officer in the machine is accused for it. It will not be out of place if I say this from my experience that bombing by aeroplanes is not always very accurate and generally does not hit the target one wants to. At an Arab village we had a camp scattered in about a mile square. A famous Turk came to bomb us in an up-to-date German machine. In all his attempts he missed the whole camp and hit a mule at a good distance away from the camp.

"In many other places all the Government stacks of fodder were being burnt and all the grass preserves were used as common property. Even His Majesty's effigies were made and burnt.

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Major Malik Sir Umar Hayat Khan.]

"It was not only in Gujranwala that this was done, but I know of certain cases in Lahore where students and a few others did this. The evidence was not sufficient to prosecute, but it is a fact that this was done. All attempts were made to approach soldiers to detract them from their allegiance, but thanks to God, owing to their staunch devotion and loyalty as well as their knowledge of the strength of the British Arms, all attempts were frustrated on which mostly the conspirators depended and all their calculations went wrong as those of the Kaiser William, and law and order was restored. All of those who were trying to quell disturbances and at the same time had to meet the Frontier troubles, faced a critical situation, and no one for a moment could predict that all this dark cloud and storm would pass away in such a short time. So provision had to be made for all eventualities.

"If all this does not show that it was a conspiracy of waging war against the Crown and the necessity of martial law, no one can understand what more was needed.

"My Lord, when all are accusing the Punjab Government for hasty steps, we who know the facts complain of their over-cautiousness which has been mostly the cause of some of the mufassil disturbances and maintaining martial law for such a long time. Had martial law been introduced three days earlier it would not have been necessary to continue it more than a week or two, and there would have been no necessity of constituting courts under the law nor would so many people have gone to jails.

"My Lord, I have patiently heard my friend the Hon'ble Pandit Sahib and I not only praise his endurance but congratulate him on his masterly speech in defence of those accused in the recent disturbances. It is simply natural that in so doing he should advocate their cause and theirs only. But this is only one side of the shield. The accused that he has pleaded for are a fraction of a class which in itself is a fraction of the population of our province. The dumb masses of the rural population were never counted an asset in politics, but now they have become such so as to be reckoned. The acts of some of these criminals brought restrictions on the free movements of this overwhelming peace-loving population and the inconvenience that they had to undergo for the acts of the above-mentioned few made them come out of their general silence. Their feelings could be only known to those who live among them and know their language. In the village Daras as well as in trains abuses were levelled on the class which brought about the troubles in the Province, through which they were suffering so much. But as they do not possess an organ their prepondering voice is lost.

"Though a case has been made out minimising the gravity of the situation and certain challenges have been thrown out, I accept some. It has been said in the debate by my Hon'ble friend who sits on my left that the Government Communiqué said everything was quiet at Lahore.

"The feelings in Lahore, though were at the highest which could be ascertained from many acts, had to be minimised when a Communiqué for the general public in the Punjab was prepared. Any intimation of gravity to the public would have brought about disastrous results in the rural masses.

"There was a question of joint press telegram not coinciding with the Government Communiqué. The reason was that one of the criminals was responsible for so wrongly reporting, who has been brought to book and is now in jail.

"I would now like to state some questions of fact not in a form of speech but taking them one by one.

(1) It is said that of the cases where the Indemnity Act came into operation in England there were sixty thousand people who demonstrated against the Law. I can safely say that the mob in Lahore was well over a lakh and perhaps even two.

THE INDEMNITY BILL.

[Major Malik Sir Umar Hayat Khan ;
Maharaja Sir Manindra Chandra
Nandi.]

[19TH SEPTEMBER, 1919.]

(2) It has been discussed that one of the acts to justify martial law was in the case where jail birds were set free. This was being attempted in Gujranwala that evening, if the aeroplanes would not have arrived.

(3) There is no denial about the fact that when the *Gadhr* Party started its operations there were widespread disturbances in the rural places like Jhang and Muzaffargarh, etc., and if not nipped in the bud by the Punjab Government, things might have resumed exactly the previous course even this time.

"Jhang and Muzaffargarh disturbances were in rural parts and it was possible that such could occur in that connection all over the country.

"On the 6th, many of the students in defiance of law went to the River Ravi and formed a procession which was strictly prohibited by the Government authorities. When I first met them, as I had volunteered to do, there was no policeman in uniform so as to stop them. Their demeanour in forcing the shops to be closed and keep away people from their business was such that it was essential that they should be forbidden to take part in politics, and I hope the authorities responsible will be called on for not exercising better control.

"During this time when there was a grave danger that the rural population might be affected I was deputed to go to my district for two days. I found that a campaign of false statements was being carried out in trains as well as in the mufassil. Some of these were that Lahore and Amritsar were lost to the Government, and that they were rapidly losing other places, the army was out of hand and the Europeans were being killed wholesale. The rumour was that all the communications were being cut and parties had started for doing so in each district. In my district I had to raise within a day three hundred horsemen to look after a long Railway line and the authorities had to raise some more men to guard various other portions of the Railway line.

"A reserve had to be kept in hand at the Headquarters to rapidly move to any site of disturbances. It was owing to these precautions that nothing happened there and the same sort of measures had to be taken in nearly all the districts.

"It has been said that *Jai* of King Emperor was also repeated by the mob. I am sorry to say that it was not the word '*Jai*' but it was '*Hai, Hai.*'

"From Delhi came letters and men to press on the shopkeepers to suspend business. Some of those who used to buy cloth from the big firms and were given latitude to pay money after it was sold, the demand came that if they would not suspend business they would be required to pay money immediately. If this was done their bankruptcy was sure and certain. Thus they were forced into the arena.

"Some poor men who were in debt to these people had also to join them.

"Then it is said that nothing serious happened in Lahore. The reason is that later on ample arrangements were made; the army was on the spot and the evil-doers were absolutely helpless to be able to do anything. As long as they were not checked some heads were being split in the language of my Hon'ble friend on my left.

"The Western Punjab next to the Frontier was so frightened by the disturbances in the east and declaration of war in the west that they all collected to form organizations to save themselves.

"I only put forward these few remarks at the end to throw some light on the real state of things, and with these remarks I support the Bill."

The Hon'ble Maharaja Sir Manindra Chandra Nandi :—"My Lord, I have read in the newspapers and in pamphlets and

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Maharaja Sir Manindra Chandra Nandi ;
Mr. W. E. Crum.*]

have heard many things, and received also telegrams about the disturbances of the Punjab, and I quite realise the gravity of the situation in the Punjab that necessitated the adoption of special measures. I would not be true to the traditions of my house, if I were not to view with the profoundest regret and abhorrence the loss of European lives and the other outrages committed by the mob. But I venture to doubt whether it would be expedient now to pass this measure, in view of the appointment of a Committee of Inquiry, and also in view of the strong expressions of opinion even on the part of the sober and moderate section of the public and the Press in India urging its postponement.

“ My humble opinion is that the inquiry should be expedited as much as possible, and the Bill suspended for the time being.”

The Hon'ble Mr. W. E. Crum :—“ My Lord, I rise with no wish 1-4 P.M. to prolong this discussion, but rather in the hope that what I have to say may possibly persuade members that there is very little use prolonging it and talking in the strain we have heard so far. The Hon'ble the Home Member in the speech with which he opened the discussion made the point very clear indeed, that we were here not to discuss the question as to whether martial law should or should not have been ordered, but that we were here to discuss the question as to whether those officers who have been acting under martial law and who have committed possible offences against civil law, as to whether Government who has promised those officers protection should protect them or not. Now, my Lord, the Hon'ble Mr. Chanda and the Hon'ble Pandit have spoken for a very long time in this Council, and for some time I was at pains to discover what the object of their speeches was. I do not think that they could possibly pretend that their intention was to persuade this Council that we were here for a discussion as to whether martial law was justified or not ; and it seems to me that the only object and certainly the only effect that their speeches could have would be to persuade people outside this Council that Government had done wrong in ordering martial law, and therefore prejudicing not only the people, but also the Committee of Inquiry which is about to sit. Well, my Lord, they have had their answer. I doubt whether this Council has ever listened to a more convincing or a more crushing reply than that of the Hon'ble Mr. Thompson. The original speeches of the two Hon'ble Members and the reply will go out to India, and the original speeches and the reply will be weighed in the balance, and I should not at all be surprised if the Hon'ble Pandit was not sorry that he had ever touched upon the subject as to whether martial law should have been ordered or should not have been ordered.

“ Now, my Lord, there was one point which I must say puzzled me for a considerable time in the speeches of the Hon'ble Mr. Chanda and the Hon'ble Pandit, and that was the question as to what would happen to these officers of Government who had obeyed the orders of the Government and had thereby possibly exceeded civil law, if it was eventually decided that Government were wrong in ordering martial law, and therefore, if as I understood the Hon'ble Pandit to suggest, indemnification could not be allowed. As far as I could make out the Hon'ble Mr. Chanda made no reference to this subject. The Hon'ble Pandit said that these officers must take their chance.

“ Now, my Lord, I can conceive of no more dishonest, no more ridiculous, no more piteous attitude for any one to take up than to suggest that, when Government had told its officers that they would be protected, they should not be protected ; and to my mind it is upon this point, and this point alone, that the discussion to-day should continue. Government have said that they will protect their officers. Are Government going to protect them or not ? I wonder if the Hon'ble Member realises, I wonder if other members of this Council realise what would happen to India, to any country, if when Government has given a promise it goes back upon that promise. The result would be nothing but chaos ; from the highest officer in Government service down to the latest joined sepoy and the lowest village chowkidar, every one would be afraid to do his duty ; and, my Lord, I do press this upon non-official

THE INDEMNITY BILL.

[Mr. W. E. Crum; Rai Sita Nath Ray
Bahadur; Mr. W. M. Hailey.]

[19TH SEPTEMBER, 1919.]

members of this Council, that the point before them is that we are not here to discuss whether Government were right in ordering martial law or not, that we are not here to discuss whether this man was rightly put in prison or was not rightly put in prison, but that we are here only to discuss one point, namely that Government have given a promise—are they to fulfil that promise or are they not ?”

1-10 P.M.

The Hon'ble Rai Sita Nath Ray Bahadur :—“ My Lord, in rising to support the amendment proposed by my friend the Hon'ble Mr. Chanda, I have no desire to minimise the gravity of the situation caused by the recent events in the Punjab. But now that your Excellency's Government have been pleased to appoint a Commission to inquire into the matter I fail to understand what harm will come if the introduction of the Bill is postponed till the Commission have submitted their report.

“ I fully realise the paramount duty of Government to protect their servants who have acted under orders and acted *bona fide* and in good faith in the discharge of their duties. And had not the special circumstances in the Punjab and the popular demand induced Your Excellency's Government to appoint a Commission of Inquiry I am sure my friend would not have been justified in pressing the amendment. But as matters stand I think there will be no harm in acceding to his request. True, in the meantime suits may be instituted against Government officers. But suits of a contentious nature in which written statements have to be filed and witnesses examined cannot be disposed of before four or five months, *i.e.*, before the Council meets at Delhi. Even if urgency is felt the Government of India which will move to Delhi in about a month's time can call an emergency meeting of the Council at Delhi and have the Bill passed into law. As the Bill is to have retrospective effect, the interests of the officers of Government will in no way be prejudiced by deferring the passing of the Bill till the Commission of Inquiry have submitted their report.

“ I beg to reiterate that it is the paramount duty of Government to protect its officers who in an emergency are called upon to act and who act under orders and in the discharge of their duties, and I have no mind to say that Government should not protect its servants nor any mind to minimise the gravity of the situation created in the Punjab.”

[At this stage the Council adjourned for Lunch.]

2-47 P.M.

The Hon'ble Mr. W. M. Hailey :—“ My Lord, if I rise to address the Council it is not with any desire to add to the number of the Punjab champions. It is perfectly true that I have spent more than half of my official career in that province. I have every affection for it, I owe every obligation to it ; but I have been away from it long enough, not to believe that the Punjab is always above criticism, just, my Lord, as I also possess a very strong disinclination to join that band of thinkers who seem to consider that everything that is done in the Punjab is wrong, and that the Punjab service must be inevitably and invariably condemned, without benefit of clergy.

“ My Lord, I rise simply because I have had the opportunity of studying closely many of the facts in connection with these disturbances, and although I think the Council is very well able to judge of the value of the arguments adduced by the Hon'ble Pandit in defence of his case, yet there remain a number of facts, of which the Council should, I think, be put in a position to learn the truth. I hold they have not all been represented by the Hon'ble Pandit in their actual light, and that is my reason for rising to address the Council now. The first thing, my Lord, on which the Hon'ble Pandit dwelt at some length, and I take it that this was the salient point of his case, that martial law was unnecessary. If it was introduced without justification, then he argues that the whole case for this Bill falls to the ground. I take it, and I think I have interpreted him rightly, that he holds that constitutional practice will alone justify the introduction of a Bill of this nature if martial law was

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. W. M. Hailey.]

in itself justifiable and introduced in a good cause. Now, he first of all drew a picture of what the state of things was before the 30th March. He said that nowhere at that time was there any inclination or any intention of rebellion. In fact, if I may say so, the only sinister aspect in the picture was a Government which persisted in passing the Black Act, and that there was somewhere in the dusty background of the North a reactionary Lieutenant-Governor who was determined to pounce upon and punish agitation. I think, my Lord, we must admit that those who originated the agitation which we hold led to these disturbances, those who originated that agitation, had no intention of producing rebellion. When in this Council we were threatened with an agitation which would disturb the good relations between the Government and the people, and when that threatened agitation was followed up in the Press and on platforms throughout the country, then I think those who promoted it had no idea of producing an open rebellion against the Crown. But I maintain they produced an atmosphere which was in itself dangerous and liable to bring about a rebellion. If they did so, it was not without warning from their own friends. As early as January last the *Bengalee* newspaper, and I quote the *Bengalee* because the Hon'ble Pandit also referred to it with approval, warned them that they were playing with fire. Later on, and I am glad to quote another of their friends, Mrs. Besant—even if she no longer ranks as such—warned them that an agitation of passive resistance would only lead to riot and bloodshed. Bengal, which knows something of the meaning of prolonged agitation, refused to have anything to do with the particular form of agitation which they originated and supported. I maintain, therefore, that those who promoted this agitation were fully warned of what was likely to happen, and I maintain that Government, if it had expected that trouble was likely to arise from that atmosphere, was justified in that expectation. However, the *hartal* came off in certain places of the Punjab on the 30th March, and I freely admit that up to that time there was no disorder. Now let me go to the second stage, that which ends on or about the 6th of April. There again there were nowhere signs of open disorder. It is true at Amritsar there were inflammatory posters put up, one of which called on the people to 'die and kill,' but the attitude of the crowds was not such as to lead anybody to suppose at that time that any disorder was contemplated. Now I go a step further, and I take the events that followed on the 6th April, the universal *hartal* of the 6th April. The Hon'ble Pandit has taken us in some detail into those events, and I must follow his narrative in detail. He first of all takes Amritsar, and he says that Amritsar was all peaceful, was all quiet, up to the 10th April, and that subsequently if any trouble arose it was due to the action of Government in first of all forbidding Dr. Kitchlew and Dr. Satya Pal to speak in public, and, in the second place, in deporting them. I realise the action of Government in deporting Dr. Kitchlew and Dr. Satya Pal needs justification. The justification is this. When subsequently a Martial Law Commission sat to decide the case of these gentlemen, it found that they had from the 30th March indulged in language which was not only likely but which was intended to bring the Government of the country into contempt. It found that on the 8th April, following the *hartal*, they had held private meetings, the sole object of which was to keep up the excitement. But what was the population in which the excitement was to be kept up, the population of the Central Punjab?

"I yield to no man in my admiration of the sterling virile and martial qualities of the men of the Central Punjab. We owe much to those qualities in many a hard contest, but they have some of the defects of their virtues. When the Rowlatt Commission was writing of men of this class, it said that in their case the interval between thought and action was very short, and if once they gave way to the appeal of inflammatory addresses, they were likely to take speedy action such as would be subversive both of law and the future of the constitution. And these were the men among whom the excitement was

THE INDEMNITY BILL.

[*Mr. W. M. Hailey.*]

[19TH SEPTEMBER, 1919.]

to be kept alive. There were moreover local causes at work at Amritsar. That is to say there had some time before been very keenly contested municipal elections, and the candidates and their enemies had engaged bands of hooligans, who, we know, were subsequently largely instrumental in perpetrating the atrocities on the 10th of April. There were besides a very large number of Kashmiri Muhammadans to whom vigorous appeals had been made to show sympathy for the cause of Turkey, and these appeals had not been without effect in inflaming their feelings. Now, a Government faced with a situation like that has to take its precautions. It would be blameworthy if it did not take such precautions, and I maintain that anybody with a knowledge of administration, with an interest in the maintenance of law and order, could come to no other conclusion than that the men who were mainly instrumental in keeping alive that excitement should be removed from the scene of their activities. That decision was announced to the Deputy Commissioner on the evening of the 9th April. On the 10th morning he took certain precautions. I do not desire to take up the time of the Council with too much detail, but I am obliged to follow the narrative of the Hon'ble Pandit in this respect. He was afraid of a demonstration by an excitable and inflammable people, a demonstration mainly directed towards the release of Dr. Satyapal and Dr. Kitchlew, and he therefore put out pickets to prevent the crowd from crossing into the civil lines. When the news of the deportation was known in the city, his anticipations were justified; a crowd collected and attempted to go to the civil lines, and it was at this point that the first conflict occurred. This is what happened. I think anybody would assume from the Hon'ble Pandit's narrative that this was more or less a peaceable crowd,—I admit that it was unarmed—that it was a peaceable crowd and could have been dealt with by peaceable methods. The words at all events, I think, that he used were that all it required was a gentle pushing back. Now, my Lord, I daresay there are some here who have had some experience of crowds. If they have, they will bear me out when I say that, if you have a picket of a few mounted men, it is exceedingly difficult to indulge in moral suasion of that kind. At all events what happened was that, so far from the crowd being gently pushed back, they violently pushed the picket back. It was reinforced by a small body of infantry. When it was further pressed back, it was then, and then only, that the order was given by a First class Magistrate to fire. Now that was the beginning of all the trouble, and the Hon'ble Pandit, I think, will have us believe that if that picket had not fired, none of the subsequent troubles of the Punjab would have ensued. I maintain that the subsequent events afford perfectly good evidence that something would have happened if that picket quietly let the crowd go past. What did happen in Amritsar is unfortunately too well-known to everybody. And with every desire to avoid embittering feelings by reciting the events, I must refer to some portion of them. It was not only that Banks were burned, that Churches were burned, that a number of Europeans were murdered; it was not only that. The fact was that the whole thing was done with the utmost ferocity; that Europeans were not only murdered but that indignities were heaped upon them. I do not say this with any desire to embitter feelings; I only say it as showing the temper that the crowd was in; I only say it as showing that even if that picket had not fired there, trouble would have arisen elsewhere. And it seems to me that it is unreasonable to say to this Council, that you must look on the previous provocation given to this crowd, as affording—I do not think the word 'justification' was used; I do not think the word palliation was used—but I think it was said that you must look on the action of the picket's firing as some sort of explanation of the subsequent action of the crowd. Disorder did not stop there; and this is a dangerous feature to which I wish to call attention; it did not stop at murder and arson; it did not stop at showing the utmost cruelty to a woman and searching out another woman with every intention of murdering her. It did not stop there. The crowd went on.

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. W. M. Hailey.]

afterwards seeking to destroy communications. It burned Bagtanwala station ; it attacked and looted Cheharta Railway Station. I find it curious that the Hon'ble Pandit omitted to call any attention to this dangerous tendency of the crowd. The Hon'ble Pandit left Amritsar for a time and went to speak of Lahore. Now at Lahore he equally said that the atmosphere between the 6th and the 10th was quiet and peaceful, and the only reason that trouble arose in Lahore was that the Government excluded Mr. Gandhi from the Punjab. First, as to the exclusion of Mr. Gandhi from the Punjab. I think that also requires explanation, and, if possible, justification. I have described something of the atmosphere that there was in the Punjab at the time, and the Hon'ble Mr. Thompson has referred to the extraordinary rumours which were set on foot regarding the operations of this Act. These were rumours which did not appeal primarily to educated people ; the bulk of the rumours were such as appealed with exceptional force to the land-owning classes. He has told us, and there is every evidence to support what he said, that people were circulating rumours that the land-owning class was to lose its status ; that men who had previously been proprietors were to become tenants ; that land-revenue was to be raised ; that produce was to be taken instead of cash ; and these are exactly the type of rumours which are likely to produce among a vigorous population and cultivators trouble the end of which no man can foresee. The population at large then had been told that the Act involved such consequences, and they had learnt that there was only one man in India that could help them in the situation. I do not think Mr. Gandhi was known personally in the Punjab, but he had acquired there the reputation, as somebody said (I think it is mentioned in one of the judgments), the reputation of a *rishi* and a *wali*. I certainly have read one speech in which the coming of Mr. Gandhi was compared to the coming of Christ, to the coming of Muhammad and to the coming of Krishna. Now, that was the man who, if I should use the words of a speaker at Amritsar, was to break the power of the bureaucracy ; that was the man around whom the whole of the agitation centred ; that was the man who by his new device of passive resistance was to relieve the people of the burden with which they were threatened. They understood nothing of the real meaning of passive resistance. So little did they understand the meaning of this peaceful movement of Mr. Gandhi's that, as Mrs. Besant afterwards said, people who committed arson and assaulted women did so with the name of Mr. Gandhi upon their lips. We have been told—I have seen it stated in the newspapers—that Mr. Gandhi's action in coming to the Punjab was a peaceful one, that had he gone there he would have stilled all angry passions, and restored tranquillity. My Lord, I think I am right in saying that Mr. Gandhi could not even address a Punjab crowd in a language which would be understood by them. How then was he to still those angry passions ? What possible effect would Mr. Gandhi's arrival in the Punjab have had except to make people believe that there was truth in these sinister rumours to make people believe that he had come there to continue the fight against Government ? With a population such as that which I have described, a belief of that sort would have been bound to lead to fresh disaster. I maintain that no one with any feeling for the security of the Province could have safely allowed Mr. Gandhi to have arrived in the Punjab at that juncture.

“ I have been obliged to interrupt the course of my narrative, and I will now continue it. The attitude of Lahore, the Hon'ble Pandit said, was open to no exception. There had been no trouble, there had been no disorder, everything was peaceful. Well, my Lord, a gentleman who was subsequently prosecuted, an editor of one of the newspapers, himself admitted that at this juncture the atmosphere was highly surcharged, and that the people at large were in a state of very unusual excitement. The Commission which subsequently sat to judge the facts, in what is known as ' the Lahore Leaders case,' were of opinion that the fraternisation at the Ram Naumi on the 9th was used for

THE INDEMNITY BILL.

[Mr. W. M. Hailey.]

[19TH SEPTEMBER, 1919.]

sedition purpose. We know that Honorary Magistrates and members of the Municipal Committee, who were believed to have taken the part of Government and attempted to dissuade the people from closing their shops, were threatened; we know that many of them were practically confined to their houses. Then, again, we also know that the feeling of the people was being worked up by a variety of literature in the shape of posters. Let me proceed now to the actual incidents of the 10th. It has been very widely stated that all that the crowd intended to do, when it went up to the Upper Mall on the 10th, was to make a peaceful demonstration in front of Government House. It has been insinuated in various quarters that it was a small crowd of students. The best authority we have so far on the nature of the crowd and on the nature of what it did, is the judgment of the Commission. These Commissions may be attacked as having no legal authority, their sentences may be attacked as being too severe, but is this Council going to believe that these judicial officers would perjure themselves by misstating the facts on which they have founded their judgment? That is an impossible supposition. They state the case as follows, and I must quote at some length :

' Towards evening a large and excited mob collected in Lahore City. Leaflets were distributed to it and some of its members were heard shouting both in English and in vernacular that Amritsar had been taken and the situation was well in hand in Lahore, as three gates were already held and a fourth would soon be closed. Headed by a man carrying a black flag, the mob proceeded with shouts of 'Gandhi ki Jai', and 'Shaukat Ali ki Jai' from the Lohari Gate through Anarkhali to the Upper Mall. Some of its members entered the compound of the Government Telegraph Office, but turned back on seeing a detachment of the Royal Sussex which were guarding the building with fixed bayonets. By the time the mob had got as far as the Lawrence Statue, it numbered some thousands. There it was intercepted by two Indian Police officers, with a handful of armed constables who were brought up at the double from Anarkhali Police Station through the High Court grounds. These police lined the road in front of the mob but they were pressed back for a distance of about 200 yards as far as the Soldiers' Club. It was then getting dusk.

' At this juncture Mr. Fyson, the District Magistrate, Mr. Cooks, Deputy Inspector-General, Criminal Investigation Department, and Mr. Clarke, Deputy Superintendent of Police, arrived on the spot. Mr. Fyson ordered the mob to retire, but they pressed round him. One of them seized him by the shoulder from behind and they began to go through the thin line of police. They also attempted to get round them by going through the compound of the Soldiers' Club. After some minutes Mr. Fyson, who, owing to the uproar, had difficulty in making himself heard, ordered the police to withdraw a little further up the Mall in order to prevent them being overwhelmed by the mob, and then, as there was no other means of stopping its progress, gave the order to fire. About a dozen rounds were fired and then the mob was pressed slowly back to the city. Near the Bank of Bengal Mr. Clarke was thrown down, but his assailant escaped.'

And now comes what I consider the salient point of this judgment :

' It is beyond doubt that the Lahore mob which marched on the Civil Station of Lahore was actuated by the same motives as that of Amritsar. It was essentially part of the same insurrection, and it was fully aware of what had happened to the neighbouring town the same day. It was rapidly becoming more threatening, and had already displayed its contempt of the authority and person of the District Magistrate. A collision was inevitable, and had the mob proceeded a little further up the Mall, it would have found a supply of deadly weapons ready to hand. Had it not been checked where it was, there was the gravest danger that it would have hurried on, in the confusion and darkness, to the commission of awful crimes.'

That is the opinion of the Commission which had heard both sides of the case, and it is their deliberate opinion that, had the mob not been checked then, it would have committed grave disorders similar to those which occurred at Amritsar. There was a subsequent incident on the same day which the Hon'ble Pandit minimised in the same way as he minimised this. I find myself under the necessity of referring to this also at some length. I might say that the military had by this time arrived and were ready to assist the police.

' When the mob was driven back from the Mall it did not dissolve, but was slowly pushed back by a small force of police into the Nila Gumbaz Chawk and up the Anarkhali towards

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. W. M. Hailey.]

the Lohari Gate. There it was reinforced by a crowd issuing from the city, and the police under Mr. Clarke, Deputy Superintendent of Police, were held up at a point a little short of the cross-roads where the Circular Road cuts across the Anarkhali. Mr. Broadway, Superintendent of Police, came up with a small body of police and cavalry, but even so the forces of order were unable to disperse the mob which showered brickbats upon the police and sowars. Two or three rounds of buckshot fired at the roofs of some houses from which the shower of missiles was most persistent failed to do more than check the attack from that quarter. A message brought Mr. Fyson, Deputy Commissioner, to the spot: he went forward into the crowd to reason with Pandit Rambhaji Dutt or Lala Duni Chand (he does not remember which) who were there, but all efforts to disperse the mob failed, and at last some half a dozen rounds of buckshot were fired. The mob was then dispersed without further firing.

'We commend to the notice of Government the admirable conduct of all concerned in dealing with the mob.'

'Now, those who listened yesterday to the description of this particular incident from the lips of the Hon'ble Mr. Chanda are at liberty to compare the two narratives, and are at liberty to attach their own weight to the statements made by him. He dwelt on this incident at some length, based his description merely on certain statements in the newspapers. He did not refer to the judgment of the Commission, although he had then, I assume, in his possession a copy of it, because later on he alluded to it. Now those were the incidents of the 10th. By 8 o'clock, as the Hon'ble Pandit says, the troops were in the city, and everything was quiet on that night and during the 11th. So peaceful was the city, says the Hon'ble Pandit, 'that a meeting was held at the Badshahi mosque.'—I have his words here—'to express indignation at what had happened.' He merely mentions an incident on the 12th to which the Hon'ble Mr. Thompson also referred, namely that a C. I. D. Inspector, Ali Gauhar, was assaulted. Now what really happened was this. I take it from the reports of the various judgments of the Commission. On the 11th all shops were closed and an enormous crowd of Hindus and Muhammadans, said to number 25 thousand people, collected at the Badshahi mosque, inside which a banner was hung with the inscription 'The King who practises tyranny cuts his own roots underneath.' This is the meeting which the Hon'ble Pandit says passed over quietly. Well, let us see the facts. After the speech of Lala Rambhaji Dutt Chowdhry, an incident occurred which will show exactly what kind of meeting it was. This incident is described in the judgment of the Commission, dated the 29th April 1919. An ex-sepoy, named Balwant Singh, was brought in. He shouted a false story that Indian Regiments had mutinied in Lahore Cantonment and were marching on Amritsar and Lahore. He also stated that they had killed about 200—250 British soldiers and that he himself had killed six. He claimed to be a soldier and was dressed as one. He was garlanded and carried in triumph to the pulpit—he, a Sikh, was carried in triumph to the pulpit—of the mosque, and there he was called upon to make a speech. This he was unable to do and he shortly afterwards disappeared. Then, states the Commission, as a result of an orgy of oratory, the rabble left the mosque, led by hooligans who carried sticks and shouted seditious cries and destroyed pictures of His Majesty. The allusion to the band of hooligans requires some explanation. It was an organised body, described as follows by the Commission:—

'They marched two deep carrying their sticks as if they were rifles at the slope or trail. At constant halts they knelt, by numbers, as if in a firing position. On numerous occasions Chanan Din made inflammatory speeches proclaiming that he and his band were rebels and looked, not to His Majesty the King, but to Germany, Turkey and Kabul as their suzerains. He invoked the assistance of God and of these powers to overthrow the British Government. He also made reference to the Rowlatt Bill. Chanan Din's speeches were applauded by the mob, and the 'Fauj,' as it passed along, was joined by recruits who were supplied with sticks.'

'Now, what the feelings which actuated the people who got up this affair is very well shown by a poster, which, I will not say was issued on this date,

THE INDEMNITY BILL.

[Mr. W. M. Hailey.]

[19TH SEPTEMBER, 1919.]

but which certainly issued either on this date or a day or two afterwards. I will read some extracts from it :

‘ When Mahatma Gandhi arrived at Palwal, the English monkey informed him that his entry into the Punjab was forbidden, and that he should please go back. He replied that he would never go back ; then that big monkey arrested him. Reports of his arrest reached here at once.’

The first part is merely abuse—that matters little ; but the second part is noteworthy.

‘ When the news reached Amritsar, the *Danda Fauj* of the brave Sikhs set fire to the Bank, the Railway Station and Electric Power House. They cut the telegraph wires and removed the railway line. The *Danda Fauj* of Amritsar bravely killed a number of European monkeys and their Sikh regiments have revolted and deserted. Oh Hindu, Muhammadan and Sikh brethren, enlist at once in the *Danda Army*, and fight with bravery against the English monkeys. God will grant you victory. Do not apprehend that God does not help us. Cast away such a notion out of your heart. God helps us at all times and hours. Conquer the English monkeys with bravery. God will grant victory. Leave off dealings with the Englishmen, close offices and workshops, fight on. This is the command of Mahatma Gandhi.’

And there is a good deal more, very much to the same purport :

‘ Oh Hindu, Muhammadan and Sikh brethren, do you know of the incident that took place at the Mall Road on the night of the 10th April ? The Hindus and Muhammadans who were martyred that day were your own and they sacrificed their lives. Does not this incident excite you ? What is the reason ? Were not those who were made martyrs in Hira Mandi on the 12th April your own brethren, and died at the hands of the tyrants ? Does the Prophet of God command you not to fight against the tyrant ? No, never, the Prophet himself fought, and has commanded us too to destroy the tyrants as he did. Should we not be ashamed ourselves that while the tyrant is up to all sorts of cruelty, we are sitting quiet ? Oh Hindu, Muhammadan and Sikh brethren, raise the cry of Allah Akbar and kill the Kaffirs. Get ready soon for the War and God will grant Victory to India very soon. Fight with enthusiasm and enlist yourselves in the *Danda Army*.’

That was the spirit which actuated this quiet and peaceable city on the 11th and 12th. But even if on the 11th and 12th there was nothing beyond what I have described in Lahore city itself, what about the state of Lahore district ? On the 12th a violent outbreak occurred at the neighbouring town of Kasur, the headquarters of a sub-division in the Lahore district. The Kasur outbreak will be particularly interesting to Council because it had to be quelled entirely by Indian officers. What happened there ? The crowd, excited, inflamed, went to the railway station. It attacked a train in which there were a number of Europeans. It attacked, but fortunately did not injure owing to the bravery of an Indian gentleman, a European woman and her three children ; but it killed two British warrant officers and injured two commissioned officers. In that case at least I claim that no one can say that there was either justification or ‘ explanation’ for the violence of the mob ; none of that crowd had been fired on by the police or military ; the only firing was the discharge of the revolvers by the two unfortunate warrant officers when they were in danger of their lives. After murdering the two Europeans, the mob continued its course through the small town and burnt all the Government property that came within their reach. That is an incident which, I think, will disprove entirely any suggestion that the action of the crowds in the Punjab where they broke out into violent excesses was due to any sort of provocation or had any sort of justification.

‘ I have carried the narrative up to the 12th. The date is important because it was on the 13th that a reference was made to the Government of India on the subject of the declaration of martial law. I ask the Council to note the state of things in the Punjab as a whole on the 13th, when that question came up for consideration. You cannot take these incidents as isolated ; you cannot say ‘ After all the military had got possession of Amritsar ; there were large forces in Lahore ; no further trouble was to be anticipated.’ You cannot say that. You have got to look at what was happening not only in those two cities, not only at

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Mr. W. M. Hailey*]

what had happened in Kasur, but at what was happening all round. It is very easy to sit in this Council Chamber, my Lord, in that atmosphere of protection of life and property which is the outcome of our rule; it is very easy to sit here and threaten us with agitation; it is equally easy, again, to sit here after the atmosphere of law and order has been restored and to minimise the magnitude of the events which took place in the Punjab. Some Members of this Council may have fallen into the first mistake; I hope that none will fall into the second. Let me state, as briefly as I can, the nature of the problem as it presented itself to the Government of India when they decided to introduce martial law. There had been outrages at Amritsar, outrages which showed a strong and very bitter racial feeling. At Lahore the crowd had, at the Badshahi Mosque, openly welcomed the false news that the Sikhs had mutinied in Amritsar, had destroyed portraits of the King, had supported the formation of an organized force of hooligans, had attempted to force the closure of the railway workshops. At Kasur they had murdered Europeans and destroyed all the Government property within reach. But it goes further than that. Everywhere attacks had been made on the communications. Bhagtanwala station had been burnt, Cheharta station looted, Khem Karan and Patti stations had also been attacked, the communications had been so far impaired that, as your Excellency reminded us, it was impossible to communicate with Lahore from Simla except by means of wireless. There was every proof then that disorder was spreading outside the cities. In cities it is a comparatively simple problem to deal with disorder; you can send troops and isolate them; but when you have communications attacked, and the telegraphs cut all over the province, how are you to meet the situation? You are dealing with a warlike, virile, martial people, suddenly filled with a spirit of disorder. We know that in a number of villages in the Punjab the people had begun to believe that law and order had completely broken down. I would cite the case of the attack on the Treasury at Tarn Taran, the attempt made by villagers on the line at Gumanpura, or better still the case in which a mob of villagers burnt the records at Aulakh. I maintain that, in the circumstances, there was every proof that rebellion had broken out, and not only broken out, but was spreading through the Central Punjab. It was in these circumstances that your Excellency agreed to martial law. I will go further and say that you cannot judge of the justification of the order merely by the antecedent circumstances and facts; you ought to take into consideration also what happened immediately afterwards, since that also shows what the state of the Punjab was. The Hon'ble Pandit has referred to what happened at Gujranwala on the 14th, and as usual minimises the disorders that occurred there. He very unfairly, I think, tried to throw the greater part of the onus on the police officer in charge of the station; he said the subsequent disorders were due to the officer firing off his revolver. Will Council believe that before the revolver was fired two railway bridges had been set on fire, telegraphs cut and the Post Office also set on fire? He referred again to the hanging of a calf from the railway bridge, and he thought that the fact afforded some sort of explanation of what happened afterwards, since the public believed that the Criminal Investigation Department had done it. That suggestion caused at the time a ripple of laughter in Council, and I will therefore avoid criticising it. But, my Lord, when I hear him tell the story about this calf, and the pig said to have been killed near a mosque, I could not help thinking of the expression we so often use about a cock and a bull. There was no justification for the disorders and outrages that took place at Gujranwala, for they took place before the crowd was fired on at all. It was not, as he would have us believe, a mere fortuitous collection of schoolboys bent on wanton mischief that set fire to the railway bridges, nor was it a mere fortuitous collection of people that pulled up the permanent way or which deliberately cut the communications with Lahore. The firing by the police at Gujranwala did

THE INDEMNITY BILL.

[Mr. W. M. Hailey.]

[19TH SEPTEMBER, 1919.]

not result in many casualties; and it was fortunate perhaps in the circumstances, since this was a case in which a young officer, without any senior Magistrate to give him assistance, had to deal with matters on his own responsibility, and to quell disorder which resulted in the burning of the railway station and a number of Government buildings, the burning of the church, and the looting of the good shed where there were goods to the value of eight lakhs of rupees. I protest against the allegation that there was any explanation or justification in anything that that police officer did for the action of the mob. That was one instance of what happened on the 14th, and it was not an isolated instance. If disorder had stopped there, you might say that the declaration of martial law was hasty; but it did not stop there. I have the record here of a large number of cases showing the extent of the disorder and the danger to communications, though I will not venture to try the patience of the Council by reading them all. Let me finish the record of the 14th. On that day—the day of the trouble at Gujranwala—an attack was made on a European officer in the train at Hafizabad. Wires were cut near Batala in the Gurdaspur district, there was a strike on the Railway in Hissar district, workmen stoned the time-keeper's office at the Railway workshops at Lahore, telegraph wires were cut between Lahore and Amritsar, and an unlawful assembly, at which decision was taken to indulge in general looting, was held at Padhana. Down in the south there was a railway strike at Samasata, and the telegraph wires were cut. Up in the north at Rawalpindi seditious notices were found posted calling on the people to rise during the night. At Rohtak there was a joint attack on the line by the mob and the railway staff, a railway bridge was damaged and attempts made to wreck a mail train. At Sialkot wires were cut between Sialkot and Wazirabad. Now I come to the 15th. At Gujrat a crowd attacked the Railway Station, and smashed the telegraph instruments; the police had to fire on the mob. At Malakwal junction in the same district a mob was only prevented from making trouble at the station by the presence of troops. In the Jhelum district a train was derailed on the main line at Kala. At Sialkot wires were again cut near Dhariwal. In Lahore District grass stacks were set on fire near Bhangali and Padri. At Hafizabad in the Gujranwala district the mob attempted to rescue men arrested damaging telegraph wires and the police had to fire on them. At Chuharkhana, also in the Gujranwala district, the station was attacked, railway lines torn up, telegraphs cut and the station burnt and looted. The market was only saved from the mob by the arrival of an armoured train. Close by, the Dhaban Singh Railway station was burnt and all the telegraph wires cut, and late at night the Momun station was burnt. At Wazirabad in the same district a mob pelted the troops at the station with stones, cut wires at the station, and then burnt the house of the Rev. Mr. Bayley, a missionary who had resided for very many years in the district and who (as the Commission stated in their judgment) was greatly respected by everybody; he was a linguist of wide renown, and the mob burned not only his property, but what was even more valuable, they burnt the records of many years' scientific labour. At Gojra in the Lyallpur district a mob endeavoured to get an engine driver to refuse to start his train by telling him that the troops at Multan had mutinied. A number of telegraph wires were cut in Rohtak. At Sialkot, an attempt was made to fire a railway carriage in a siding. Let me go on to the 16th. In the Gujrat district a mob entered the Town Hall at Jalalpur Jatan, insulted the Municipal Commissioners, and damaged the furniture, and at night the railway line was dismantled near Malakwal resulting in the derailment of a train next morning and the loss of two lives. In the Jhang district telegraph communication was interrupted between Jhanj and Subhaga. In the Lahore district telegraph wires were cut at Changa Manga and at Raewind. In Rawalpindi, telegraph wires were again cut. In Sialkot, the permanent way was attacked between Sialkot and Wazirabad and the wires cut. In the Gujranwala district all the wires were cut near Sangla station and a murderous

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. W. M. Hailey.]

attack made on a European telegraph Inspector. Wires were cut in four other places on the Sangla-Shadara line.

"I leave the 16th and come to the 17th. In the Gurdaspur district telegraph wires were cut between Chhaina and Dhariwal, and three other places, and telegraph wires were cut between Kaler Kalan and Kunja in the Jullundur district. In the Lahore district, near Jhallo and Harbanspura, an attempt was made to derail a train by placing obstructions on the line. In the Lyallpur district a party proceeded to a neighbouring village and returned after breaking the telegraph insulators and cutting telegraph wires *en route*. At Lyallpur itself a stack of Government *bhoosa* valued at Rs. 50,000 was set on fire and burnt. In Rawalpindi, telegraph lines were interrupted near Gujar Khan. Trouble did not even stop on the 17th. On the 18th, in the Ferozepore district, obstructions were placed on the railway line; in the Gurdaspur district canal wires were again cut. In the Jullundur district Sidhwan flag-station was burnt. On the same day, the 18th, at Lyallpur, an attack on Moman Kanjan station was only interrupted by the arrival of troops, and a gang of villagers from a village colonised by Manjha Jat Sikh colonists, came out at night and tried to wreck the line between Toba Tek Singh and Jhaniwalla. Well, I fear, I have already wearied you by narrating this series of events, but it was essential in order to prove my point that I should bring them to the notice of the Council. It is impossible to allow any minimising of what happened in the Punjab between the dates I have mentioned. I maintain, and I repeat to the Council, that not only should we take into consideration what happened before the declaration of martial law, but we are entitled to quote as justification of our action what happened immediately afterwards as showing the real state of the province.

"Now I will not attempt to deal at any length with the legal aspect of the case. It was necessary, for the declaration of martial law under Regulation X of 1804, that there should be either war or open rebellion. I understand that jurists have differed as to what constitutes open war, but, I believe, it is fully accepted that to establish the existence of war you do not need the existence of an army with all its paraphernalia. What is quite certain, and what, I think, I may with confidence place before the Council is this, that to justify a declaration of open rebellion, it certainly does not require the existence of an army or of an attack by armed forces. Why the Hon'ble Pandit himself referred in the course of his speech yesterday to open rebellion in the Gordon riots. I maintain that the Gordon riots, which were treated by martial law, were in no wise as serious as what happened in the Punjab on the dates I have mentioned. There you had a case, and readers of 'Barnaby Rudge' will remember it well, in which crowds assembled more or less out of religious animosity, burnt chapels and ended up by burning distilleries; yet under the law of England it was held to justify the application of martial law; what is more, the action taken to suppress disorder was held to justify the application of an Indemnity Act. I put it to the Council that the justification necessary for Government to declare the existence of a state of rebellion, is a matter of common sense, and I maintain that the account which I have given of what happened in the Punjab in the middle of April would justify any Government in declaring that there was a state of rebellion in the Punjab. If the Council will agree with me that Government merely exercised ordinary common sense in making that declaration, then, I think, a great part of the Hon'ble Pandit's case falls to the ground.

"His contention was that if martial law was not justified, then an Indemnity or Validation Act is not justified. I maintain the state of things in the Punjab shows very clearly that martial law was justified, and it follows as a corollary that you must have an indemnity and that you must have a validation.

"My Lord, when I began to speak I intervened more or less as giving evidence of facts. But there is one other consideration which, before I sit

THE INDEMNITY BILL.

[*Mr. W. M. Hailey; Mr. Sachchidananda Sinha.*]

[19TH SEPTEMBER, 1919.]

down, I should like to put to the Council. India is only now on the threshold of its political career, and it will not escape all the surging troubles which have come to the world since the war, since the beginning of unrest in the world at large. The officers of State, Indians as well as Europeans, and in the future probably more Indians than Europeans, will have to deal with those troubles. I have quoted to you one case at least in which an Indian officer, without any European support, had to deal with very serious trouble, the case at Kasur: there are other cases, such as that of Tarn Taran and Hafizabad. I ask the Council to reflect whether it is wise that officers of State, and particularly Indians, should feel that they are without support in dealing with troubles such as those I have enumerated. I feel myself the case of Indians to be infinitely harder in this respect than that of Europeans. They are liable to criticism of the most intimate nature, I mean in their families and in the circle of their friends. If they do anything which is thoroughly unpopular, they are liable to social and perhaps even to religious ostracism. Is it right, is it fair, to hesitate for one second to give them support for the reasonable use of their discretion? I appeal to the Council to view this case with some sense of proportion, and with something of insight into the future. I appeal to it not to look at it in any spirit of partisanship. If I may, I should like to quote the words of one who, I think, was not less distinguished by patriotism and by love of his country than those who have been most keen in their attack on this Act in the last few days. Before the Hon'ble Mr. Sastri left Bombay, he spoke as follows:—

'At the same time he was one of those who believed that the Punjab Government had had good cause to use strong measures—perhaps the measures they had used were excessively strong, far stronger than the necessity of the case required—but they had had a case for the use of strong measures. No Government in the world, however mild or sympathetically disposed, would have sat quiet without using stringent measures to restore order when they had a mob sprinkling kerosine oil on buildings and burning them down, clubbing and burning Europeans to death. They were bound to render to Government the most cordial co-operation in bringing things once again to a normal state.'

"Now I quote those words, my Lord, because, I think, they show that an Indian public man, distinguished for his public spirit, can yet give Government its due, can yet recognise the gravity of the situation in the Punjab, and can retain his right of free criticism, without falling into the attitude of the persistent and unreasonable partizan. It is the spirit of that speech which I commend to the Council in dealing with this question."

8-50 P.M.

The Hon'ble Mr. Sachchidananda Sinha :—"My Lord, in the course of the last few days I find I have been called upon to address this Council for the second time upon the Punjab affairs. On the first occasion it was due to the Resolution of my friend, the Hon'ble Pandit Malaviya, that I had to address this Council; now it is in connection with a Government Bill that I find I have again got to express my opinion. The Hon'ble the Home Member in introducing the Bill yesterday and asking for leave of this Council made a speech, which if I may say so without impertinence, was free from any trace of bitterness or acerbity. If anything, it was a little unnecessarily forceful, due perhaps to his emotional Celtic temperament, but otherwise I have no grievance against it. And, I may say in justice to him that, in introducing the Bill his opening words were solicitous of the co-operation of non-official Members of this Council, and he begged of us not to import into our speeches any needless acrimony or bitterness. I may venture to say, my Lord, that the Indian Members who have so far spoken have, on the whole, adhered to the suggestion thrown out in such a friendly way by the Hon'ble the Home Member. But I wish I could say that the suggestion had been as well received and acted up to, in the spirit in which it was sought to be pressed, by the European Members in this Council. I am sure I am voicing the unanimous opinion of almost all the Indian non-official

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Mr. Sachchidananda Sinha ; Mr. J. P. Thompson*]

Members of your Lordship's Council when I say that the friendly admonition of the Hon'ble the Home Member was completely lost upon the Hon'ble Mr. Thompson, about which it will be necessary for me to say a few words later. But before I do so, I desire to express, if I may be allowed, my whole-hearted appreciation of the spirit underlying the Hon'ble Mr. Hailey's speech. Mr. Hailey has presented, it seems to me, the case for the Government in a spirit of such remarkable fairness and with such skilful advocacy as to carry conviction to a certain extent even to the minds of his opponents, and this is the highest compliment I can pay to him. If all speeches, my Lord, on the Government side were as fair and as skilful, I am sure the non-official Members of this Council could be easily persuaded, even on most contentious matters to see, at least partially, eye to eye with the Government. But before I make my submissions to your Lordship in regard to the Bill and the reasons why, after most careful consideration, I have not been able to agree with the Hon'ble the Home Member as to the desirability of its introduction at the present moment, I should like to say--and I am sure some of my European Colleagues here, if not all, will agree with me--that the language which was indulged in this morning by the Hon'ble Mr. Thompson is to be strongly deprecated. Because we non-official Members of the Council express opinions which may not suit the views and sentiments of our European Colleagues, for them to indulge in the style and language and make personal attacks as did the Hon'ble Mr. Thompson on Mr. Malaviya, I submit, my Lord, with the greatest deference, is highly objectionable. Mr. Malaviya is a gentleman who is quite capable of defending himself: he will survive Mr. Thompson's attack, as he has done others in this Council and outside. He is a gentleman held in the highest esteem throughout the length and breadth of India for his devotion to the country, and, however much you may differ from his views or his manner of presenting his case, there can be no justification for anybody to have made a personal attack on him as Mr. Thompson did this morning

The Hon'ble Mr. J. P. Thompson : "My Lord, may I rise to a personal explanation? I did not attack the Hon'ble Pandit for his opinions, but for his statement of fact."

The Hon'ble Mr. Sachchidananda Sinha : The Hon'ble Mr. Thompson told us—I quote his words--that he was a great admirer of Sir Michael O'Dwyer. Those who listened to his speech this morning hardly needed that assurance, for those who remember the famous speech of Sir Michael O'Dwyer in this Council must have felt satisfied that the Hon'ble Mr. Thompson's own way of handling facts is reminiscent of the methods of the late Lieutenant-Governor of the Punjab. When I find the Hon'ble Mr. Thompson charging the Hon'ble Pandit Madan Mohan Malaviya with distortion, exaggeration and misunderstanding, when I find him, again, charging Pandit Madan Mohan Malaviya with credulity, gullibility, a lack of the sense of proportion and the power of closing his eyes to the political situation, and when I find him subsequently winding up his peroration by saying that in intelligence and mentality he was correlated with the lower orders, I bespeak to these the attention of the Council and venture to ask whether it is a fair presentment of the case or one that can be justified.

"Now, my Lord, I shall pass on to other matters. The Hon'ble the Home Member was pleased to commend to the attention of this Council—and, I think, he particularly looked hard at me when he did so, as if he tried to stare me out of countenance—certain articles which had appeared in the 'Civil and Military Gazette' of Lahore on this question by an anonymous scribe who signs himself as 'An Indian student of Constitutional Theory and Practice'—a rather long and pompous designation under which he takes shelter. The Hon'ble the Home Member asked us particularly to read those articles which, he said, put before us the whole case in defence of the Bill which we are

THE INDEMNITY BILL.

[*Mr. Sachchidananda Sinha.*]

[19TH SEPTEMBER, 1919.]

now discussing. The Hon'ble the Home Member did not at the same time ask us to read a reply to those articles which appeared in the 'Tribune' of Lahore. Perhaps he had not seen it himself. Now, this writer, my Lord, who has taken refuge in anonymity, says some very interesting things in his articles which have a bearing upon the point we are discussing now. I believe the Home Member asked us to read the articles for the reason that the writer says:—

Indian publicists and Indian editors (I am afraid I come under both these categories) should have, therefore, no sort of quarrel or dispute with the coming Indemnity Bill. Any unreasoned or obstinate opposition will show how ill-equipped and ignorant of the very A B C of the constitution are our leaders in the Legislative Council and the writers in the Press.

I fear it was for this particular reason that the Hon'ble the Home Member commended the articles to our special attention. Further on, I find that this anonymous writer who comes to teach us the elementary principles of Constitutional Law concludes by saying:—

I also hope that the Indian Members of the Imperial Legislative Council, and particularly the Hon'ble Mr. Malaviya, on whom the mantle of the irreconcilable Oppositionist seems by an irony of circumstance to have descended, will not fritter away their energy and their time in an unreasoned, purposeless and infructuous opposition to a constitutional practice that stands hallowed by the observance of centuries in democratic England itself.

Personally, my Lord, I shall be sorry, indeed, to waste a minute of my time in any unreasoned, purposeless or infructuous opposition to a Government measure. It has been my effort all my life to offer reasoned criticism and not to lead a purposeless, infructuous opposition. The writer seems to forget that, whatever weight of reason there may be on our side, any opposition here to a Government measure is bound to be, so far as we are concerned, infructuous, because, when the Government bring in a measure, there are behind the Front Government Benches the serried ranks and solid phalanx of our official friends, 35 strong, who sit here for the purpose of supporting the Government in any measure the latter like to bring in, whether it affects the European non-officials or the Indian.

Theirs not to reason why,

Theirs not to make reply,

Theirs but to vote and die.

What is the good in a Council like this for any of us to try and persuade the Government? Once they have made up their minds that a measure has to be got through this Council, the old shibboleth of the responsibility for maintaining law and order being on the Government is trotted out and there are those 35 valiant soldiers to vote down any opposition that we may have to offer. Therefore, it is not for the purpose of carrying on any infructuous opposition that I have to place before your Lordship a few observations. The reason for it is this. Your Lordship's Government, as the Executive, have done certain things, have taken a certain line of action. Your Lordship's Government now come before this Council to ask the moral assent of the non-official Members to the view taken by the Executive. If I am not asked for my moral assent, if the Government simply ignore me, I shall make no grievance of that. I shall not take up in that case a minute's time of this Council. But when the Hon'ble the Home Member gets up and puts forward reasons and arguments before me and asks me to give my moral assent—for my vote does not count for anything—then I am bound to examine his arguments and make my submissions as I conceive them to be.

“Coming, therefore, to the question of moral assent, my first submission is that in the preamble of this Act I find it stated—

‘Whereas owing to the recent disturbances in certain districts in the Punjab and in other parts of India, it has been necessary for the purpose of restoring order to resort to martial

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Mr. Sachchidananda Sinha ; Sir William Vincent.*]

law,' and so on, and so forth.

Now supposing the preamble had been worded like this:—'Whereas owing to the recent disturbances in certain districts in the Punjab and in other parts of India, the Governor General in Council had deemed it right and proper to establish martial law therein', I would have had nothing to say against it. But when your Lordship's Government ask my assent to the declaration that it was necessary to proclaim martial law, I am entitled to say that, quite apart from whatever views I may hold, it will be prejudicing the work of the Committee your Lordship's Government have been pleased to constitute, if I were to give my assent now to this preamble as it stands. Therefore, quite apart from the facts as to what transpired in the Punjab—I have heard different versions of them; one was given by the Hon'ble Pandit Madan Mohan Malaviya who put forward the cases of those persons, subjects of His Majesty the King-Emperor, who are said to have grievances in the matter, while contrary versions have been given by Messrs. Thompson and Hailey who say that the facts are not exactly as the Hon'ble Pandit Madan Mohan Malaviya put before the Council—what I say is this. You have constituted a Committee to go into this matter, to analyse and sift the evidence and to come to certain conclusions. What will be the value of those conclusions if we now assent to this preamble that it was necessary for the Government to declare martial law? Therefore, my submission is, that by assenting now to this preamble the non-official Members of this Council, whether Europeans or Indians, will be making the work of the Committee infructuous, and here I may be permitted to refer to one or two observations which were made . . .

The Hon'ble Sir William Vincent:—"May I inquire, my Lord, with a view to shorten the debate, if the Hon'ble Member's objection to the Bill is confined to this statement in the preamble? Because, I may say now, my Lord, that Government are quite prepared to reconsider the question of this preamble."

The Hon'ble Mr. Sachchidananda Sinha:—"That, my Lord, is but one of my objections. That is No. 1. But certainly if the Government will meet us half-way, it will be of great importance. I hope the Hon'ble Member will agree to that alteration. Now, my Lord, when the Hon'ble the Home Member put that question, I was going to deal with one or two observations of my friend, the Hon'ble Mr. Crum. Without the least desire to cast any aspersion of even the mildest character on my esteemed friend, I do say that I can quite understand his difficulties in not being able to appreciate the points—the legal points—involved in this Bill. To him the matter of fact is that Government have done certain things; they gave certain promises to their officers, and why should not those promises be carried out by the Government? That is the way it strikes him and he, therefore, characterised the attitude of those who oppose this Bill at the present stage as dishonest, ridiculous and piteous—rather unnecessarily strong words those, for which there is no justification. He also said that it seemed to him that the only object of those persons who are offering opposition to this Bill is to persuade the public outside this Council that the Government have done something wrong. Well, I desire to assure him that, far from that being the object of those of us whose misfortune it is to differ from the view of the Hon'ble the Home Member, we are trying to persuade the Government to do what we conceive to be right. That is my answer to the Hon'ble Mr. Crum. I think that in saying what he did he did a great injustice to us, who come here at the sacrifice of time, money and energy from different places in British India to serve our country to the best of our lights.

"Now, my Lord, this Bill deals, leaving the preamble alone, with martial law and indemnity, and to be able, therefore, to appreciate the points involved,

THE INDEMNITY BILL.

[*Mr. Sachchidananda Sinha.*]

[19TH SEPTEMBER, 1919.]

we must have a clear notion of what these two are. I am aware that I am addressing the official benches and also the Hon'ble the Law Member, who is a great authority on the subject. But I make these submissions for his attention also. Now, what is martial law? Martial law is defined, my Lord, in various standard works of legal literature; but I have no desire whatever to quote them. I shall only invite your Lordship's attention to what I find Lord Morley in his memorable 'Recollections' wrote to Lord Minto, when there was some talk of martial law being established a few years back. He said: 'Martial law is only a fine name for the suspension of all law.' And again; 'If you declare martial law in India, it will be a gigantic advertisement of national failure.' Well, it is not for me to say whether the declaration of martial law in the Punjab this year was or was not a gigantic advertisement of national failure on the part of British statesmanship; but we must remember that when we talk of martial law in the Punjab, it means that for the time being there was no law at all, that the whole legal machinery was suspended, and that, as a matter of fact, things were done which would never have been done otherwise than under the cloak of martial law. I shall now, with your Lordship's leave, read out one short passage from a judgment of Lord Chief Justice Cockburn in the well-known case of Phillips v. Eyre (4 Q. B. D. p. 225), to show what an act of indemnity really amounts to. He said: 'There can be no doubt that every so-called Indemnity Act involves a manifest violation of justice inasmuch as it deprives those who have suffered wrongs of their vested right to the redress which the law would otherwise afford them, and gives immunity to those who have inflicted those wrongs not at the expense of the community for whose alleged advantage the wrongful acts were done, but at the expense of individuals who, innocent possibly of all offences, have been subjected to injury and outrage, often of the most aggravated character. It is equally true, as was forcibly urged on us, that such legislation may be used to cover acts of the most tyrannical, arbitrary and merciless character, acts not capable of being justified or palliated even by the plea of necessity, but prompted by local passions, prejudices or fears, acts not done with the temper and judgment which those in authority are bound to bring to the exercise of so fearful a power, but characterised by reckless indifference to human suffering and utter disregard of the dictates of common humanity. On the other hand, however, it must not be forgotten that against any abuse of local legislative authority in such a case protection is provided by the necessity of the assent of the Sovereign acting under the advice of Ministers, themselves responsible to Parliament.' Now, I can quite understand an Act of Indemnity not working unnecessary hardship on the subject population, where the measure is assented to by the Sovereign on the advice of his Ministers and with the assent of Parliament. But, here, my Lord, where the Government of India, the executive of the King-Emperor in this country, do certain things and then come and ask for the assent of this Council, with a standing official majority at their back, surely that cannot possibly convince the people that the action of the Government was right; and that the Government in asking this Council to pass this Bill will not be asking assent to a measure which might be of the most tyrannical and arbitrary character. That is the whole difficulty which we have to face in regard to this Bill; and that is why we have to be so very careful. Now, my Lord, apart from that, we find that in this Bill there are provisions of a very serious character, and it is, therefore, difficult for us to assent to the policy of this Bill. Take, my Lord, for instance, apart from the preamble, the provision in clause 2, which fixes the period of immunity from 'on or after the 30th of March 1919' and brings it down to the time when martial law had been completely withdrawn. In other words, by making this provision your Excellency's Government are asking our assent to give the operation of martial law retrospective effect. Now, this question was raised in the House of Commons in 1906 by Mr. Ramsay MacDonald who, your Lordship may remember, was

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Mr. Sachchidananda Sinha ; Sir George Lowndes ; the President*]

appointed a member of the Royal Commission on Public Services in India by His Majesty's Government. I mention this fact so that it may not be said by the Hon'ble the Home Member in referring to Mr. Ramsay MacDonald : ' Oh, he is a crank,' and all that sort of thing. Well, he raised the question as to whether it was desirable to give retrospective effect in legislation of this kind to the administration of martial law. This is what he said : ' The second point was that this incident, the murder of two policemen, took place on the 8th February, and martial law was proclaimed on February the 9th ; that the incident took place at a time when there was no martial law in the colony, at a time when the civil law was still in operation ; yet the natives accused of the murder of the policemen were tried by martial law. Was martial law to be made retrospective in the future ? Bad as martial law undoubtedly was and unjustified as those were, as he thought, who declared it, ten thousand times more unjustifiable was it, that this negation of all law should be made retrospective and to cover acts committed previously to its being proclaimed.' The Right Hon'ble Mr. Winston Churchill who was called upon to defend that measure giving retrospective effect to it said this in reply : ' Martial law is no law at all. Martial law is brute force. The only restriction on martial law is, that no more force is used than necessary, and where more force is used than necessary, persons may afterwards be called to account unless covered by an Act of Indemnity. The Hon'ble Member for Leicester suggested that it was illegal to try these men by martial law for an offence committed before martial law was proclaimed. Of course, all martial law is illegal, and an attempt to introduce illegalities into martial law is like attempting to add salt water to the sea.' Now, under clause 2 it is proposed to give retrospective effect. The Hon'ble the Home Member advanced no sounder argument than did Mr. Churchill when he talked of adding salt water to the sea. Then, we find in clause 3 of the Bill that the ordinary rule of evidence is completely reversed, and we note that the burden of proof is cast on the plaintiff or the prosecutor . . .

The Hon'ble Sir George Lowndes :—"I think the Hon'ble Member is making a mistake when he says that the burden is thrown on the prosecutor."

The President :—"I think it was a slip of the tongue."

The Hon'ble Mr. Sachchidananda Sinha :—"It is hard for your Excellency to realise what our difficulties are in speaking a foreign tongue in this Council. We are apt to make mistakes. Then, I find here further in one clause, that there is no limitation as to the places where officers are to be protected. I have no desire to take up any further the time of the Council, but my submission is that many cogent reasons have been advanced by us why your Lordship's Government should postpone the consideration of this measure. Firstly, by the words in the preamble we shall be nullifying the effect of the report of the Committee. We shall be calling upon them to assume that it was necessary to declare martial law. Now, Mr. Hailey may be satisfied as to that and Mr. Thompson also, who was Sir Michael O'Dwyer's right hand man. I daresay he is, but we naturally feel a certain amount of diffidence about this point. Secondly, I have shown that the Bill is open to great objection in the matter of giving retrospective effect. Your Lordship's Government are no doubt aware that since it was announced in the ' Pioneer ' of Allahabad that the Government were going to bring in an Indemnifying Bill, Indian public opinion has been roused. It has been insistent that this Bill should not be proceeded with at the present time. My Hon'ble friend, Mr. Malaviya, referred in some detail this morning to the strong volume of public opinion on this subject. He showed by quotations from a well-known London paper that public opinion, even in London, sees no justification for the Government's action in this matter. In India, I can assure your Lordship, almost

THE INDEMNITY BILL.

*Mr. Sachchidananda Sinha ; Sir William
Vincent ; Mr. H. McPherson.]*

[19TH SEPTEMBER, 1919.]

every shade of public opinion, the so-called moderate and the so-called extremists, are unanimous in asking Government to forbear from pressing this Bill. Not only people of supposed advanced views, but even such a moderate man as Sir Narayan Chandavarkar, an ex-Chief Justice, whom, I believe, the Hon'ble the Home Member appointed last year as one of the advisers of Government....

The Hon'ble Sir William Vincent :—"He was appointed by the Bengal Government."

The Hon'ble Mr. Sachchidananda Sinha :—"Then the Government of Bengal are entitled to praise for their choice in having appointed him as their adviser. I understand from the papers that even he sent to your Lordship a telegram asking your Excellency not to press this Bill at the present time. He has also written a long article in the 'Indian Social Reformer' from which the Hon'ble Mr. Malaviya quoted certain passages. Now, my Lord, I do venture as a responsible adviser of your Government to say that it is not right for the Government of India to flout public opinion in this way and say to us : 'Oh, we are responsible for maintaining law and order, the responsibility is cast on us by Parliament, and we shall do what we think proper.' That, my Lord, is a wholly wrong attitude. Public opinion has got to be appreciated ; it has got to be considered and given due weight to. We are apt to believe that public opinion came into existence in this country only with British rule, and that it came here along with certain other Western ideas. As a matter of fact even in the early days people who had not acquired English education knew the value of public opinion. My Hon'ble friend Mr. Shafi will appreciate the well-known lines of the great Hindustani poet, A'tash

'Sun to sahi Jehan men hai tera fisana kya

kahli hai tujhe khalk-e khuda ghaebana kya'

which means 'do for God's sake listen to what people are saying about you and pay some respect to it.' That shows that public opinion was held in great respect even in earlier days. Therefore, I say, put off the Bill for two or three months. I understand the Committee will soon be out and will submit their report by the end of the year. Is there any advantage in pressing this matter at this stage notwithstanding public opinion to the contrary? I protest, my Lord, against the Government acting in defiance of public opinion; the result of such action in the past has been acerbity and ill-will on the part of His Majesty's Indian subjects. It is not desirable that the Government should repeat that experiment. I feel strongly that that would be a blunder. I do not want an indefinite postponement ; if that was meant I should vote against it. I am in favour of a Bill of Indemnity—the only question is, should it be passed now, before the autumn Session is over? I do hope your Lordship will take into your careful consideration the view I have put forward. A large number of Indian Members of this Council, including the Hon'ble Maharaja of Kassimbazar and the Hon'ble Rai Sita Nath Ray, take the same view as I do. My Lord, your Government will be in a stronger position by listening to and accepting the suggestion we have jointly made."

4-28 P.M.

The Hon'ble Mr. H. McPherson :—"My Lord, I have no desire to prolong this debate unduly, but I have a point of view to explain which, I think is of some importance and do not see why we others, who are here only to vote and die as my Hon'ble friend Mr. Sinha says, should be precluded from stating our views to the Council because one Member takes up an extravagant and quite unfair proportion of its time. I will try to be as brief as possible. I do not propose to follow previous speakers into the details of the unhappy events in the Punjab, but merely to say a few words regarding what I conceive to be the general attitude of the Indian public in other provinces towards the late disturbances, and the present situation, for I consider that this is by no means

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Mr. H. McPherson.]

fairly represented either by the writings which appear in the public press or by the speeches made in this assembly, including that of my Hon'ble friend Mr. Sinha from Bihar and Orissa who has just appealed so strongly to public opinion. From these writings and speeches, one might imagine that the whole of India is boiling over with indignation against the measures taken to suppress the Punjab disturbances, and that it is entirely opposed to the passing of the present Bill, regarding it as a mere device to save from the just consequences of their acts those responsible for these measures.

"My Lord, I venture to think that this is a wholly false picture of the general attitude of the Indian public towards these troubles, and that in order to gain a true perspective for the consideration of the present Bill, it is necessary to realize a little more clearly and a little more impartially what India outside the Punjab really thinks about the recent unhappy events in that province.

"Speaking for my own province, Bihar and Orissa, I most emphatically deny that the province as a whole or even any considerable section of the educated classes in Bihar and Orissa shares the views which have been placed before the Council by the Hon'ble Mr. Sinha and other non-official Members.

"I do not ignore the fact that Mr. Sinha's views coincide with those which twice a week are thundered forth in the 'Searchlight,' nor that they were endorsed a month ago by the Bihar Provincial Conference assembled at Darbhanga, when resolutions were passed deploring in the strongest terms the Punjab disturbances and condemning the methods used for their suppression. Nor do I forget that Mr. Sinha is the chosen representative of the non-official members of the Local Legislative Council, while I am a mere official, but even an official, my Lord, has eyes and ears, opportunities of observation and sources of knowledge, and, speaking as one who was in close touch with all shades of opinion in Bihar and Orissa during the critical times of April last, I can honestly say with the fullest confidence that in this matter neither Mr. Sinha's views nor the resolutions of the Darbhanga conference, nor the writings in the 'Searchlight' are any index to the true sentiments of the province.

"Through the dark days when the tragedy of the Punjab was unfolding itself and every hour brought fresh news of senseless outrages committed under the reign of mob law, of dastardly attacks on isolated Europeans and defenceless women, of the mad destruction of property both sacred and profane, of the wholesale interruption of communications, there was no feeling present, in the minds of all classes in Bihar and Orissa except one of nervous apprehension lest the epidemic of madness might not be checked, but might spread to our own borders and there revive that spirit of lawlessness of which we had had bitter experience less than two years before. We could not forget our own dark days when in one district, Shahabad, mob rule had prevailed for a time and neither life, property, nor the honour of women was safe. I venture to think that amongst our people the Hon'ble Pandit would find few to subscribe to his theory that the Punjab mobs never indulged in the game of pillage, arson and murder till they had been provoked by the indiscretions of the police or the troops, and that as soon as they had finished their little game, they resumed the role of quiet and inoffensive citizens, on whom to impose martial law was a terrible mistake.

"And when the prompt and decisive measures taken in the Punjab to restore law and order at length proved successful, there was, I assert, no feeling left in the minds of people but one of profound thankfulness that the helm of the State had been held by strong hands, that danger had been averted, and that India had been spared the horrors of a Civil war. Later this feeling of grateful relief was acutely intensified when the menace of war appeared on the North-West Frontier, showing in its true light the

THE INDEMNITY BILL.

[Mr. H. McPherson.]

[19TH SEPTEMBER, 1919.]

significance of the Punjab outbreak, and it dawned upon them that the peace of India had been rudely threatened by the combined forces of internal disorder and foreign invasion.

"There was, my Lord, little, in those days, of criticism that the measures adopted in the Punjab had erred on the side of severity. This was a new fact which it was left to a certain school of politicians in the province to discover four months later when they met together at Darbhanga. There assembled in the full security of public peace, while they mildly deplored the outrages of the Punjab (some went so far as to ascribe these to a sinister desire on the part of certain officials to discredit the Reform Scheme), they strongly condemned the measures taken to suppress the disturbances, and suggested that the situation was one which might have yielded to 'tactful and delicate handling.'

"As the Hon'ble the Home Member mentioned the other day, these hostile critics who denounced the stern methods of the Punjab were the same people who two years before blamed the Local Government of Bihar and Orissa because they did not adopt more drastic measures at the outset and nip the Shahabad riots in the bud.

"They belong, I fear, to a school of thought which can see no good in any act of Government, and think that any stick is good enough to belabour the poor official.

"My Lord, I can assure you that there is, happily, in my Province a vast body of sane and sober-minded citizens who have no sympathy with these critics, who had nothing but gratitude for the suppression of the Punjab outbreak, and who regarded the resolutions of the Darbhanga conference, in the language of at least one local paper, as monstrous, futile and uncalled for.

"This large class is not very vocal; perhaps not as vocal as it should be: its sentiments are not to be gathered from the reports of public assemblies: it is apt to be thrust aside and overborne on such occasions: but it is a very large class indeed and its feelings are none the less deep and genuine that they have to be gathered from private utterance rather than from public speech.

"And no one, I say, can seriously deny that this large class, and the still larger class of cultivators, who have little time for politics and no desire except for peace to earn their daily bread, pray for nothing more ardently than that maintenance of law and order which was secured in the Punjab, and which is the sheet anchor of India's prosperity.

"My Lord, I venture to express the opinion that the class, for whom I have tried to speak, now desire nothing better than to forget the past and reach forward to the promise of the future. They do not even want a Commission or Committee to rake up evil memories. Nothing would please them more than a whole-hearted and complete response to the eloquent appeal which your Excellency made on the opening day of this Session, to avoid futile wrangling over the past and the fanning of racial bitterness.

"If confronted with the present Bill, I have no doubt that they would acquiesce willingly in its provisions, regarding it as a necessary sequel to those measures which proved the salvation of India's peace, and a bare act of justice to those officers of Government who were charged with the unpleasant task of suppressing public disorder.

"It amazes me, my Lord, that in spite of your Excellency's appeal there are those in this Council who seem determined to keep the unhappy memories of the past alive, and who appear to value the personal safety of riotous mobs above the peace and prosperity of India. Equally with them, I deeply deplore the loss of human life which occurred in the Punjab, and it is the saddest of reflections of all that amongst those who were killed were certain

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Mr. H. McPherson; Lieutenant-General Sir Havelock Hudson.*]

persons who were innocent of evil and even children, but that is the tragedy of these occasions not uncommon. I have here a recent issue of the 'Pioneer' in which there is a brief account of the late Boston riots. It runs thus :

'Following the police strike, rioting was renewed last evening when two men and a boy were killed and a number injured, including women and girls, in collisions between the mob and troops who used a machine gun. Finally cavalry cleared the streets.'

"My Lord, the lives of these innocent victims in the Punjab lie at the door, not of the Military and the Police who only did their duty, but of the law-breakers who composed the mobs and still more of the recreants who pulled the strings from behind and worked the mobs to fury. We must not forget that had these lawless crowds not been sternly checked, their example would have spread desolation throughout the length and breadth of India, when the question would have been one not of hundreds but of thousands or tens of thousands of lives, and the growing prosperity of this great land would have received a blow from which it would never have recovered.

"With these words, I would appeal to my non-official Colleagues in this Council to accept the present Bill and show their faith in the British justice, which they so often invoke. They have witnessed the tremendous sacrifices of blood and treasure which the British race has willingly offered in the cause of righteousness and freedom, and they have only a week ago joined in the tribute to these sacrifices. Is it reasonable to suppose that the same race should have laid aside its noblest instincts in its dealings with fellow citizens in India who have borne their full share in these sacrifices? If there has been in the Punjab even a hairbreadth's departure from the spirit of British justice, we may have every confidence that the distinguished Committee which has been appointed to investigate the whole question, will not fail to bring it to light. Let us not meanwhile deny to the mere agents of Government the protection to which they are entitled by every precedent of history."

The Hon'ble Lieutenant-General Sir Havelock Hudson :— 44

"My Lord, my only reason for intervening in this debate is to clear up one or two remarks which have been made by my Hon'ble friend the Pandit as regards the action of certain officers and others connected with the suppression of rebellion in Amritsar. I do not think the Hon'ble Member has given these events in their clear perspective, or in their proper perspective. The first event to which I shall refer is the Jallianwala Bagh, and in order to give the situation as it would appear to the Officer Commanding at Amritsar, I must ask your Lordship's permission briefly to state the situation at Amritsar on the 10th of March. We have the attempts of the crowd in the Civil Lines, the troops stoned and ordered, after due warning, to fire; the attack on the Telegraph Office; the Telegraph Master rescued by an Indian Officer when in the hands of the mob; the murder of a European guard at the goods station; the murders of the Manager and Assistant Manager of the National Bank; the murder of the Manager of the Alliance Bank; the attack on the Chartered Bank; firing of the Town Hall and its sub-post office; looting of other post offices; attack on the Zenana Hospital; the assault on Miss Sherwood; the burning of the Indian Christian Church, and attempt to fire the C.M. S. Girls Normal School; the murder of a sergeant of the Military Works Department; a second attempt of the mob to break into the Civil Lines; troops again stoned and ordered to fire, later on towards nightfall systematic destruction of all lines of rail and telegraph communication; and, finally, the destruction of two small railway stations and the looting of a goods train.

"My Lord, does not this read rather like the preamble of the Indemnity Act on the Gordon riots of which the Hon'ble Pandit kindly made us a present? The above would be the situation as it would appear to an officer who found himself in a position such as confronted the General when he assumed command at

THE INDEMNITY BILL.

[Lieutenant-General Sir Havelock Hudson.]

[19TH SEPTEMBER, 1919.]

Amritsar on the 11th April last. It will be realised, I think, that the situation was one of unexampled gravity. The Commissioner of the Division had definitely stated 'that the situation had passed out of his control,' that he must rely on the military authorities to restore order by the exercise of military force. The city was in the hands of an unruly mob; organised attacks had been made on Government property; Banks had been burned and looted; railway and telegraph communications had been interrupted; inflammatory posters inciting to 'die and kill' had previously been posted on the clock tower in the heart of the city, and the lives of Europeans had been taken in circumstances which I shall not describe in detail. It would be clear to the officer in command that the rebellion was not confined to Amritsar alone. He would be aware of the riots at Delhi and Lahore, and he would have had an opportunity of gauging the temper of the people by his personal observation. He would have been aware of the danger of the spread of the rebellion into the surrounding districts. As an officer in a highly responsible position he would know that it was his duty to take all measures necessary to restore order, and that his actions would be judged by the measure of his success in so doing. He would also know that he would be held personally responsible for any action of his which might be considered to be in excess of the reasonable requirements of the situation. You cannot conceive that any officer on whom such a responsibility had been thrown would enter on his task in any spirit of light-heartedness; nor would an officer of his seniority and experience (he had 84 years' service) set about his task with a disregard of the sanctity of human life or with a desire to exact reprisals for the acts of rebellion which had already been committed. His first act would be to dispose his troops with a view to the protection of life and property. His second would be to warn the populace as to the result, if it became necessary, to use military force in the suppression of further disorder. These are the steps which were in fact taken by the officer in command at Amritsar.

"On the 11th and 12th he re-organised his troops and on the 12th he marched a column round and through the city in order that a display of force might have its effect on the minds of the populace. We have it on record that the bearing of the inhabitants was most insolent, and that many spat on the ground as the troops passed. From the shouts of the mob it was clear that they were in an entirely unrepentant spirit. No military force was used on this occasion as the officer in command decided to issue proclamations as to his future intentions before employing such force. From a military point of view he would have been quite justified, I hold, in using force on that day, but the General Officer Commanding decided to pursue his policy of patience and conciliation. A proclamation was issued on the evening of the 12th and on the morning of the 13th April, the Officer Commanding marched with a body of troops through all the main streets of the city, and announced by beat of drum his intentions of using force should occasion arise. The people were permitted to collect in order to hear the proclamations.

"The announcement that unlawful assemblies would be dispersed by fire was received with jeers and cries indicating that the mob had no belief in the sincerity of the warning given. While the troops were still in the city, information reached the Officer Commanding at about 12 o'clock that, in spite of his proclamation, a big meeting of rebels would be held at the Jallianwalla Bagh at 4-30 that afternoon. As this place had been used before for meetings, and as large assemblies had been addressed by the heads of the agitation on the 29th and 30th March and the 2nd April, and as a dense mass meeting had assembled here on the 6th during the *hartal* and had listened to speeches intended to bring Government into hatred and contempt, it would have been clear to the officer in command that he might expect deliberate defiance of his orders. Now, he was well aware of the events of the 10th of April when the murders of Europeans and the attacks on

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Lieutenant-General Sir Havelock Hudson]

property had been made and when the firing which had been employed to suppress these disorders had been totally inadequate. The Officer Commanding at Amritsar had to decide about midday on the 13th of April how he would act if the projected meeting took place in direct defiance of his authority. After making dispositions for the safety of his command, he found that he had but a small striking force at his disposal. I believe the number was 25 men of one regiment and 25 men of two other regiments, belonging to the Indian Army, and, in addition, 40 Gurkhas armed with *kukris* only, and two armoured cars. Realising the gravity of the situation the officer commanding did not send, as he might have, a subaltern in charge of this small force. He realised that it was an occasion on which he, and he alone, must exercise the full responsibility. He marched this force straight to the Jallianwalla Bagh leaving the armoured cars which he had also taken with him, behind, because they could not get into the Bagh. On reaching the Bagh his force was confronted by a vast assembly, some thousands strong, who were being harangued by a man who was standing on a raised platform. The Hon'ble Pandit would give us to believe that this was a fortuitous meeting of villagers and that they were listening to a lecture. That was not so in accordance with the facts, so far as I have been able to gather. It was clearly the duty of the Officer in Command to disperse this unlawful assembly. Realising the danger to his small force, unless he took immediate action, and being well aware of the inadequacy of the measures taken to restore order on the 10th of April, he ordered fire to be opened. The crowd was dispersed and the force was withdrawn. I have given the Council this narrative to show how the situation would be viewed by the soldier, and will content myself with saying that from a military point of view the sequence of events justified the exercise of military force, and that the object of its exercise was fully attained. Also, from a purely military point of view, the Officer in Command would have been gravely at fault had he permitted the elements of disorder to continue unchecked for one moment longer.

"The next point which I wish to turn to is another one to which reference has been made. It is the issue by the Officer in Command at Amritsar of orders that any persons who wished to pass the scene of the assault on Miss Sherwood should be made to crawl on their hands and knees. As this incident has been described at a meeting of the Bombay Provincial Congress Committee and All-India Home Rule League as a 'petty assault on a woman', I think it only right to remind this Council of what actually had occurred. In the first place, I would say that this is not merely an isolated instance of an attempt to assault European ladies. We have it on record that on the 10th of April the mob entered the Zenana Hospital in their endeavours to find the lady doctor in charge, who however escaped. After leaving the building the crowd again returned, on information given by a disloyal servant, to search for her again, breaking open the rooms and cupboards in their search which was fortunately fruitless. On the same day the mob attempted to set fire to the Church Missionary Society's Girls' Normal School, in which were four lady missionaries who remained hidden. I am sorry to have to refer in some detail to the assault on Miss Sherwood, but it is necessary, because I wish this Council to view the situation as the Officer Commanding on the spot must have viewed it. This lady had for many years been working in the city and was greatly respected, and the assault on her was characterised by extreme brutality. The following abridged account is taken from the judgment of the Commission which tried her assailants:—

'When she was bicycling from one of her schools to another, she encountered a mob which raised cries of 'kill her! she is English'. She wheeled round and tried to escape but took a wrong turning and had to retrace her steps. She reached a lane where she was well-known and thought she would be safe, but the mob overtook her and she was also attacked from the front, being hit on the head with sticks. She fell down, but got up and ran a little way where she was again felled, being struck with sticks even when she was on the

THE INDEMNITY BILL.

[Lieutenant-General Sir Havelock Hudson.]

[19TH SEPTEMBER, 1919.]

ground. Again, she got up and tried to enter a house but the door was slammed in her face. Falling from exhaustion she again struggled to get up, but everything seemed to get dark and she thought she had become blind.

" Her dress was seized, her hat was pulled off, she was struck with fists, she was caught by the hair and beaten on the head with shoes and was finally knocked down and struck on the head by a *lathi*. She suffered grave injuries to the scalp and was in a critical condition when she left for England.

" I feel sure that the Council will agree that it is not surprising that the Officer in Command took the view that some unusual measures were necessary to bring home to the mob that such acts of violence directed against defenceless women could not be tolerated. Something was required to strike the imagination and impress on all the determination of the military authorities to protect European women. This Council can readily understand how easily the feelings of soldiers would be outraged by acts of this nature and that they might be led to uncontrolled reprisals. Incidentally it is worthy of note in this connection that we have no charge against any of our soldiers during this rebellion. It is easy, my Lord, to criticise the orders issued by the Officer in Command at Amritsar, but the circumstances were altogether exceptional and the punishment, though humiliating, was not such as to cause danger to life or physical hurt. Except on one occasion when a body of prisoners were brought down the street in which Miss Sherwood had been assaulted, no compulsion was brought to bear on any individual to submit to the order. The order remained in force for a period of five days and there is good reason for the belief that, except for the party of prisoners already mentioned, those who were subjected to the order came voluntarily to submit to it for the sake of notoriety or martyrdom. One man after going down the street on his hands and knees three times had to be stopped giving further exhibitions.

" My Lord, the order was of course an unusual one and not one which might have been considered necessary by other officers in like circumstances. The Officer in Command at Amritsar will doubtless be prepared to justify his action should he be called upon to do so.

" The next point to which I wish to refer is, the use of aeroplanes at Gujranwala. I am not concerned in justifying to the Council the order given by responsible authority to send aeroplanes to Gujranwala on the 14th and 15th April. I merely wish to explain from the point of view of an officer who receives such orders how he would act in aid of the civil power and for the protection of life and property when so ordered. The situation, as far as it was then known, would be explained to him and his action would be left to his discretion. In this particular instance information was received by the military authorities at Lahore that a mob had attacked the railway station at Gujranwala, had looted the goods shed and had set fire to the Tehsil, the Dāk Bungalow, the courthouse and the Church. It was known that there was only a small body of police at Gujranwala at the time and no troops. Owing to the interruption of communications, to despatch troops would have involved excessive delay. If any measure of protection were to be afforded in time, the use of aeroplanes provided the only possible solution. Well, I think, I must explain to the Council the limitations of aeroplanes when used for such a purpose. It is not possible for the pilot or observer to communicate with persons on the ground, either to obtain information or to issue warnings as to the measures he intends to adopt. In the first place, the noise of the engines precludes all verbal communication, and aeroplanes have not yet reached that development when they can hover in mid air. From their bird's eye view the pilot and observer are able to ascertain that buildings are burning, that railway communications have been interrupted and trains destroyed, and that crowds are collected; they cannot easily discriminate between the innocent and the guilty; but, on the other hand, from this bird's eye view the observer is able to get a much

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Lieutenant-General Sir Havelock Hudson.]

better idea of the general situation than an officer who is only on foot. When, however, it is clear from the nature of the damage that general rebellion is in progress it may be a reasonable assumption that the crowds are collected with criminal intent. The presence of an aeroplane over a crowd is in itself a warning to those engaged in disorder that they are likely to be taken to account unless they disperse; and the dropping of the first bomb (the effect of which is local but the noise of which is considerable) affords a further warning which can hardly be mistaken. It may of course be argued that a bomb cannot be dropped nor a machine gun fired from an aeroplane with any great degree of accuracy. This may be true, but when the mark aimed at is an unlawful assembly it is not very material whether those in front or behind are made to suffer. It may be remembered that it is often just those persons who are most responsible for incitement to disorder who keep in the background and urge others forward to commit excesses. There is even a third category which never appears on the scene at all. Even admitting that the aeroplane in its present state of development is not an ideal instrument for enforcing order, still where as in the case of Gujranwala no other military assistance was available, we must not blame the Officer Commanding the aeroplane for the limitations of his machine. My Lord, my object in recounting to this Council in some detail the measures taken by the military authorities to reconstitute civil order out of the chaos produced by the state of rebellion, is to show that there is another side to the picture which is perhaps more apparent to the soldier than to the civilian critic. No more distasteful or responsible duty falls to the lot of the soldier than that which he is sometimes required to discharge in aid of the civil power. If his measures are too mild he fails in his duty. If they are deemed to be excessive he is liable to be attacked as a cold-blooded murderer. His position is one demanding the highest degree of sympathy from all reasonable and right-minded citizens. He is frequently called upon to act on the spur of the moment in grave situations in which he intervenes, because all the other resources of civilisation have failed. His actions are liable to be judged by *ex post facto* standards, and by persons who are in complete ignorance of the realities which he had to face. His good faith is liable to be impugned by the very persons connected with the organisation of the disorders which his action has foiled. There are those who will admit that a measure of force may have been necessary, but who cannot agree with the extent of the force employed. How can they be in a better position to judge of that than the officer on the spot? It must be remembered that when a rebellion has been started against the Government, it is tantamount to a declaration of war. War cannot be conducted in accordance with standards of humanity to which we are accustomed in peace. Should not officers, and men who through no choice of their own are called upon to discharge these distasteful duties, be in all fairness accorded that support which has been promised to them? My Lord, I feel before I conclude, I must make a reference to the amendment which the Hon'ble Mr. Chanda has proposed. I must confess that I heard this with some amazement. I suppose there is no class that has really suffered more by the disturbances in the Punjab than the forces of the Crown. Here they were at the close of four years of war; most of them were looking forward to demobilization and their hard-earned leave and many of them to a return home. They were suddenly called on to perform what is the most distasteful duty, as I have said before, which soldiers are ever required to carry out. They had nothing to do with the outbreak of the disturbances or with the imposition of martial law. They only did their duty and, as a recognition, the Hon'ble Member suggests that Government should defer till some indefinite date the fulfilment of their promises of support. My Lord, it may be within the recollection of Members of this Council that Hon'ble Members both inside and outside this Chamber, have repeatedly referred, and that with legitimate pride, to the services rendered by India and more especially the Indian Army. It was

THE INDEMNITY BILL.

[Lieutenant-General Sir Havelock Hudson; [19TH SEPTEMBER, 1919.]
Rao Bahadur B. N. Sarma.]

only last week that this Council listened to the Hon'ble Mr. Sarma's eloquent tribute to the services of that Army, and yet it is that very Army that the Hon'ble Mr. Chanda by his callous amendment to this Bill would leave in the lurch. For what effect would the amendment have if accepted? Officers and men would be liable to prosecution for any illegal act committed under martial law, and as martial law is in itself no law, all their acts under that law would be illegal. Actions for damages, for illegal arrest and a host of other charges could be preferred against them, and the question whether they acted in good faith would have no force with the courts which try their cases. My Lord, I think all soldiers would view with suspicion, if not horror, the airy suggestion that Mr. Chanda made that the actions would not come up at once, that they would be postponed for a month, then perhaps for two and then again for three months and so on indefinitely. The Manual of Military Law, which is the soldier's only guide, is silent as regards martial law; there is only one chapter in the whole of that book relating to martial law, but that chapter is written by Lord Thring, and there is one sentence in it, which is the soldier's sole guarantee, which I quote below: It runs as follows:—

'It is only necessary to add that, when a proclamation of martial law has been issued, any soldier who takes, in accordance with the official instructions laid down for the guidance of those administering martial law, such measures as he honestly thinks to be necessary for carrying to a successful issue the operation of restoring peace and preserving authority, may rely on any question as to the legality of his conduct being subsequently met by an Act of Indemnity.'

"The Government, my Lord, have taken the only honourable course and that is to introduce an Indemnity Bill on the earliest possible occasion. To have done otherwise would have been the negation of Government and repudiation of its obligations."

5-5 P.M.

The Hon'ble Rao Bahadur B.N. Sarma:—"My Lord, I am glad before I vote I have had an opportunity of listening to the statement of the case on behalf of the Punjab Government and of the military authorities. It is a matter of very vital importance that we should look at the question impartially and dispassionately and not fall into the error of saying 'ditto' to whatever the people say, at the same time reviewing the course which the Government may ask the Council to ratify. What does the Bill ask us to do? In the first place, it asks us to state as legislative authority that martial law was necessary to restore order in the Punjab. I do not think that is open to argument. The second point is, we are asked to protect the civil and military officers who have acted under the orders of Government in accordance with the promises made to them that they would be protected in whatever they did recently for the purpose of carrying out what Government had in view. I may note in this connection, my Lord, that the Bill does not confine its operations to the events which have occurred after martial law had been declared. It relates to events which preceded the declaration of martial law in the various districts of the Punjab. Therefore, I may say at once that there is a complete answer that people can give to this Bill as it stands, namely, that it is not a Bill intended merely to carry out the promises which Government made to its officers after martial law had been declared, but also to ratify the action of the Military and Civil authorities in the suppression of these disorders before martial law had been declared. It is open to the Government to bring in a Bill for the purpose of giving protection to its Civil and Military officers. As to what took place before martial law I quarrel with the position. This is a vital point. Then clause 3 throws the onus on the people of saying that any particular act which Government wished to carry out was not *bona fide*. If the question stopped there, there might be something to be said for the Bill, but we are asked to go further. We are asked to say here whether we feel martial law was justified or not; whether martial law was kept in force longer than the necessity required; whether it was legal on the part of the Government; whether they were right in passing

THE INDEMNITY BILL,

[19TH SEPTEMBER, 1919.]

[Rao Bahadur B. N. Sarma.]

Ordinance No. V or not. In any event we are asked to ratify all the convictions and sentences of the Summary Courts in respect of which the public are not in a position to know whether justice has been done or not done by reason either of the absence of the record or the absence of the full judgment. I ask the Council's attention especially to this aspect of the question, because the Hon'ble Mr. Crum and those who followed him had taken into consideration the fact that we are asked to keep in prison those who might have been wrongly convicted, convicted on the passion of the moment, the matter may have assumed a different aspect. I am one of those who believe that any disorder whatever should be sternly put down at the initial stage. I am not going to quarrel with any measures that Government thought necessary for this purpose. I go further and say that those responsible should be severely punished. I go further and I agree with the Hon'ble the Home Member that, whether the Government were right or wrong, the officers who carried out their duties under the orders of Government, especially in a country like India, ought to be protected if they acted humanely and in accordance with the dictates of a civilised Government. There is no quarrel with the Government on that score, but, my Lord, I feel that the constitutional issues at stake in this controversy between the people and the Government are of such vital importance that we would do well to consider carefully before according sanction to this step. I understand there is justification for the belief held by the people that if there is grave disorder, the Government are prepared to treat the people of India like cattle—no consideration is necessary so long as it is expedient to bring about peace and order and to protect the lives and property of Europeans. That, my Lord, is our issue that has been raised by this unhappy controversy, and it is therefore necessary to examine in detail whether these are real issues insanctioning this Bill, and as to whether people are merely clamouring for the punishment of officers who have carried out their duties in a difficult time with reasonable precautions and regard to human life and suffering. It is not necessary in this case to consider whether some of the old dicta uttered by constitutional writers really justify Government in their action in declaring martial law necessary. On that basis I think people have some justification for thinking that in some of the occurrences, it may be riots and disorders, in the case of an unarmed mob, there was no justification for the employment of martial law. I am not going to take up the time of the Council longer, because whether martial law is employed or not, I take it that the civil power has every right and justification for asking the military and the police to come to its aid in suppressing disorders, and provided the duties are carried out *bona fide*, in good faith, and with due caution, there is no necessity for any mere technicalities; but on the question of constitution it has been said that martial law having been declared, it is necessary to introduce this Indemnifying Bill, but, I think, my Lord, it is necessary to state that in the view of many of us martial law was unnecessary and should not have been declared. In this connection I would draw the attention of the Council to what Mr. Dicey says on this question. He says:—"The question for our consideration is, on what principle, and within what limits, does armed resistance to the authority of the Crown, either on the part of an invading army, or on the part of rebels or rioters, afford a legal justification for acts done in England by the Crown, its servants, or loyal citizens, which, but for the existence of war or insurrection, would be breaches of law." Throughout the question is treated as one of civil war, and, I think, the essence of the whole thing is, whether a section of the population, whether large or small, resisted with arms the authority of the Crown.

"Now, my Lord, the second point to which I would invite the attention of the Council is, whether according to all writers on martial Law, it is not considered to cease the moment the necessity ceases. I do not think there is any single writer who states that in order to prevent a future trouble, in order to

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma.*]

[19TH SEPTEMBER, 1919.]

prevent similar mishaps, in order to preserve order, even though the disorders have been suppressed, martial law can be continued especially during a time when civil courts are in working order. Therefore, my second point would be, my Lord, that after the 21st or 22nd of April when according to the Press Communiqués order had been restored in the Panjab, it was not right, it was not proper, for the Government to have continued martial law and to have created those tribunals to exercise jurisdiction in respect of all offences, whether those offences were committed or not. This has a vital bearing upon the question as to whether the Council will be justified in confirming the convictions and sentences passed by those tribunals, even though the Government have given us the assurance that they would be re-considered by two High Court Judges.

“ Then the third point, my Lord, and what I look upon as the more important point, is this, and that is the moral aspect of the question. There are two theories of Government, one theory which attempts to employ only the civilized methods, however long and protracted may be the struggle between the forces of order and disorder. And the other based upon the theory that in a country which is not thoroughly civilized, it is open to the Government to resort to terroristic methods if the object in view is an honest one, if the end to be achieved is the restoration of peace and order, and that it would not be wrong to humiliate a whole race, to subject them to indignity or to do whatever is necessary to terrorise or cow the population if the object in view is to be achieved. My Lord, if the second theory is advocated, and that was the example that was set to us by some of the old sovereigns and perhaps it would be advocated even now by a few, but which has been repudiated most wholeheartedly by all civilized Governments in the world, and for the suppression of which theory Great Britain herself has allowed herself to run into a debt of 8 thousand millions and the de-population of her fair provinces. The question, my Lord, now is as to whether any British officer of the Indian Government can be allowed to rule India on the second theory, because the view I take of the facts is that there are several British officers who are under the impression that so long as order and peace are restored, if a person believes that it is reasonable to do anything which attains that end, and if that theory is to be accepted, then certainly the Government are perfectly right in bringing forward clause 2. But if that theory is repudiated, as I hope it will be repudiated by every true Britisher and by the Government, then it seems to me, my Lord, that on the face of it, it is impossible to throw the onus upon the Punjab Public of proving that the several acts, both by the military and civil authorities, are acts which can be justified by rules of morality or by rules of humanity. It is therefore I find it difficult to give my vote to this clause, although I agree that the officers are to be protected. It is necessary that my view, which I believe is also the view of a large section of the people, is open to criticism and it must be demolished if it is unfair, because it is the view held by a large section of the Indian population, and it is well that the hollowness of that view should be exposed in all its bareness in order that people may take a right view of the situation. My Lord, how do we look at the situation? The way in which we look at the situation is this, and it is easier for me to do so because I am not hampered by some considerations which may hamper others. Although I objected to the Rowlatt Act, I never was in favour of an agitation on the lines of the Satyagraha movement. I was unpopular on that account, and therefore I say I am able to speak with greater fulness than many others. But, my Lord, it must be said, that it was not the Satyagraha movement which was responsible for these unhappy events, although it was the occasion, and although—here I agree with the Hon'ble Mr. Hailey—it created a certain atmosphere which led to these disturbances, it was not the real cause, but it was the unhappy view of the Punjab Government that the prestige of the British race should be upheld against the warlike races of the Punjab by methods which cannot be justified

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Rao Bahadur B. N. Sarma,]

in other provinces. We find that on the 30th of March there was no disorder ; on the 6th of April there was no disorder. I assume for argument's sake that Satyapal and Kitchlew were preaching sedition and were trying to bring about excitement. Was there anything to prevent the Government from arresting these men and putting them on their trial ? There is nothing to which the Indian public submits so cheerfully and loyally as an open trial. It is this theory of keeping up prestige by deportations, by secret methods, which the public have been resenting, and it was the deportation of these two men, whatever action may have been justifiable against them, which was resented. That is the way in which we look at it. Well on the 10th some precautionary measures were taken. Assuming that the mob was unruly and assuming that it was incumbent on the officers to shoot some members of the mob, that would not afford any justification whatever for the lawless action of the mob after that. That is reprehensible and it ought to be put down with a stern hand. I agree with that also. But it affords an explanation of this tension between the British Government and the people on some subjects which has been produced, especially in the Punjab on account of the difficulties in that Province and other causes. It is that tension which led to this racial difficulty. When the mob thought that they were unjustly dealt with, they did not distinguish between the British citizens and the British Government or between individuals. It affords an explanation, as I have said, but no justification. And then followed the unhappy incidents of the mob on the 10th. Hon'ble Members will notice that up to the evening of the 10th there was no unhappy incident in Lahore. Communications were interfered with for a little time, but there was time for the news from Amritsar to reach Lahore before the unhappy incidents in Lahore took place, and therefore—I will not say it is right—there are many people who believe that the unhappy incidents in Lahore were the result, the natural result of the provocation which was given to the British community by the savage doings of the mob in Amritsar on the morning of the 10th. Then a large number of Indian lives were sacrificed ; it may have been right, I will not question that now. But, my Lord, I cannot help thinking that, after the explanation which was given by General Hudson, people would be willing to think that the Jallianwala episode was not the result of the unhappy tension and temporary dislocation of certain officers who wanted to show what their attack upon European lives would mean. I think it was by way of reprisals. The public will still unhappily continue to think that it was by way of reprisals, by way of revenge, and not for a possible violation or disobedience of the orders of the authorities in prohibiting a meeting. They think that was taken advantage of to teach the mob a lesson, because it is impossible for us to conceive that when men from all parts of the Punjab, Jats and other cultivators who had nothing to do with politics, were collected in large numbers for the *Bysaki* fair, no precautions would be taken against shooting down such a large mob simply on account of the reason that it was a lawless mob which violated and disobeyed the injunctions of the Government. Hon'ble Members will notice that it was only that morning that the Seditious Meetings Act was proclaimed to be in force. It was on the 13th morning. There was hardly time for the public to know that meetings were prohibited under that Act. But I should assume that a certain section of the people did know of the prohibition and in spite of the prohibition went there, and others gathered there from curiosity or because there happened to be a fair. But no explanation has been forthcoming to the effect that the mob resisted or did any act which justified the shooting down of any person. And what is more important to notice is, assuming, for argument's sake, that a few shots were thought to be necessary to cow down the people and send them away, there was no justification for shooting down 300, 500 or a thousand as is generally believed. That, my Lord, is the crux of the whole situation. There was one reference in General Hudson's speech which gives a partial support to this. The General Commanding felt that the punishment

THE INDEMNITY BILL.

[Rao Bahadur B. N. Sarma.]

[19TH SEPTEMBER, 1919.]

that was awarded on the 10th was not sufficient to teach the people a lesson; they were still continuing to be insulting, and therefore it might be, inasmuch as good order and peace were in his hands, he felt that a few more drastic measures had to be taken and hence this unhappy incident.

"I must meet a point raised by the Hon'ble Mr. Hailey, and that was in regard to the incident at Kasur. The incidents at Kasur on the 12th are partly explainable by the incidents at Amritsar on the 10th and the incidents at Lahore on the 10th. I am not justifying the acts of the mob; I am not in any way palliating what they have done; I am only suggesting that it is an explanation, but an explanation which would show that there was no rebellious tendency in the land, that it was only bitter resentment at the thought that British officers should have shot down Indians, and Indians thought it was unjustly done. I do not say it was unjustly.

"Then what follows after the 13th? I think the papers will show that the news reached Gujranwalla before the 14th morning when a train was held up there. And it must be remembered that shopkeepers and all classes came to Amritsar for the *Bysaki* fair from all parts of the Punjab and carried back reports, it may be exaggerated reports, of what had taken place in Gujranwalla all over the Punjab, and there is nothing surprising in people becoming lawless suddenly when they felt that they were most inhumanly dealt with. I do not say it is a right feeling or a wrong feeling, but that is the feeling, and is there anything impossible in the view that with such inflammable material in the Punjab, as we are told, the mob should have behaved in that way? Then in Gujranwalla we find, possibly after the spreading of this news, it is impossible to say without an inquiry, because there was time for the news to reach them, after the spreading of this news, we find all the incidents in Gujranwalla taking place, the burning of the railway station and the other actions of the mob. Here, my Lord, I must as a Legislative Council Member decline to sanction the action either of the civil authorities or the military authorities in using bombs and aeroplanes. Even in a state of war—but we are not concerned with that. At any rate in peaceful times, even with a lawless mob like that in Gujranwalla, they are not justified. That is a doctrine to which we should not give our legislative sanction. It would be most mischievous and harmful and dangerous.

"And there seems to be absolutely no necessity for the authorities to have asked for this aeroplane to drop bombs not merely there but in adjoining villages and it can only be considered to be vengeful? Various issues of the *Civil and Military Gazette* of that date show that the mob were dispersing. General Hudson says 'How was the officer commanding to know whether the mob was dispersing or not?' Of course, if the civil authorities had given the military authorities the necessary sanction, I would not blame the military authorities. They have to support the civil authorities and their action might be justified. But, I think, the civil authorities do not give any explanation as to why they allowed the use of bombs or whether they sanctioned their use. And whatever may be the merits, as regards the action of the military authorities, the civil authorities cannot be exonerated in respect of this action. And this was done before martial law was proclaimed, so that the action of the officers who shot down people in Amritsar and Lahore and the action at the Jhallianwalla Bagh on the 13th and the action at Gujranwalla before the proclamation of martial law, which was between the 15th and 17th—I speak subject to correction—would not come within the purview of this Act and within the preamble of this Act if you justly follow the procedure which has been followed in other countries by following up martial law with an Indemnity Bill. Therefore, I have to deal with this simply because the Government have asked this Council to give protection to officers who acted before martial law was proclaimed. Ordinarily, they are liable to be

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma ; Mr. W. M. Hailey.*]

brought before the courts, the civil and military authorities would be liable to be brought before the civil Courts, and I do not know whether on previous occasions protection has been given—I am speaking subject to correction—but at any rate the preamble does not justify it. Now the action of the authorities in dropping bombs, if that is true, is a matter which I think cannot and ought not to be brought within the purview of this Act. The answer of the Hon'ble the Home Member may be 'Yes, but why argue this. We say if it is not done *bona fide* and in a reasonable belief to produce a particular result, the officers will be condemned by the Courts; we do not protect them.' But, my Lord, if the whole transaction from start to finish proceeds upon the basis that British officers are justified in humiliating the Indian public and in the employment of any means that may be necessary to bring about the desired result, if we accept that theory, what justification have we in allowing any British officer to be punished? Therefore we shall have to make up our minds as to that at the outset. Assuming that that was the belief of British officers, or of Indian officers for the matter of that or of the Government for the matter of that, assuming that they felt that any humiliating action is justified, any drastic action is justified, in order to bring about the result, then all we can say is that we shall have nothing to do with the Bill. We can never subscribe to that doctrine. I argue simply because I believe that the Government would not subscribe to that doctrine, British officers would not subscribe to that doctrine and no Britisher would subscribe to that doctrine.

"Then, my Lord, we find that there were incidents on the 11th, 12th, 15th, 16th, 17th, and so on. May I say in this connection, my Lord, that I believe that the attempt to humiliate the educated classes has been indirectly responsible for these unhappy events. There is no going away from that point. Sir Michael O'Dwyer has told us and in distinct terms on more than one occasion that he did not believe in these mild methods, that he did not believe that the country is in a fit state for the introduction of any reforms on a reasonable scale. He has told us that the educated Indian is really a menace to the British Government"

The Hon'ble Mr. W. M. Hailey :—"May I rise to a point of order."

The Hon'ble Rao Bahadur B. N. Sarma :—"I beg the pardon of the Council for using that. I meant a section of the educated community is really a menace to the British Government."

The Hon'ble Mr. W. M. Hailey :—"My Lord, I merely rose to a point of order. I desired to obtain some verification for the statement which the Hon'ble Mr. Sarma has made. He has now corrected it."

The Hon'ble Rao Bahadur B. N. Sarma :—"I think the speeches of Sir Michael O'Dwyer—I am not accusing him of dishonesty, I only mention his view, his honest view of what is right and proper—show that he thought that a section of the educated Indian public was pursuing a career which was ruinous to the Government as well as to the country, and there was no love lost between the Indian Press and himself. Bearing these facts in mind, and bearing in mind the fact that the Commissioners in their judgments look upon various acts of these educated men as having brought about these results, there was nothing surprising in the action which was taken by the Punjab Government against various educated men, leaders in various cities, vakils and others, in handcuffing them and subjecting them to trial and punishment. There is nothing surprising in that. They may be justified in doing it, but I am bringing this out to show that that led to a storm of indignation throughout the province. If at a crisis like that the Government chooses to shoot down the mob, the Government chooses to punish all educated Indians,

THE INDEMNITY BILL.

[Rao Bahadur B. N. Sarma.]

[19TH SEPTEMBER, 1919.]

to humiliate them, to make every educated Indian salaam a European, to make them crawl on their bellies, I ask, my Lord, has not that very action produced the results which were meant to be remedied? Therefore, here is an explanation, not a justification, for the action of the mob or for the action of the educated classes. If they went wrong throughout the Punjab there was a very good explanation for the occurrences. But, my Lord, it is not necessary to go at any greater length into what occurred in the Punjab, except by way of supporting my proposition that the whole of India feels that she has been disgraced. That is the feeling, my Lord, and I hope the Government will try to assuage that feeling and show that it is unjustified. Unfortunately, the whole of India feels that the Indian public have been grossly insulted by the action of the authorities in the Punjab. Well, there may be some who are sceptical on the point; but, turning to the statement of trials by summary courts and area officers, in the districts of Lahore, Amritsar, Gujranwala, Gujrat and Lyallpur, I find a number of cases in which men have been whipped for not salaaming European officers. Well, take that for granted that it might have been done in a reasonable belief to teach the Indians a lesson. That is not the question at issue. The order should not discriminate between Indian and Indian because we are living in democratic times. But there was nothing to prevent the troops from whipping a High Court Judge for disobeying this order and refusing to salaam a European. Is it, therefore, wrong on the part of the Indian public to deeply resent this action of the authorities as being wholly unjustified and as the Government of India ask us to ratify the convictions based upon such grossly uncivilized methods? That is the point at issue, my Lord. If the Government say that these convictions would be set at naught, that the men would be released, then it might be quite a different thing. But we are asked by the Government of India to ratify the convictions of these men who have suffered gross indignity for opposing an illegal and inhuman ordinance passed by the military authorities. I therefore submit, my Lord, that as the Bill stands, it is self-condemned. We appeal to the moral convictions; of course we know perfectly well that legalities have not much force and validity in troublous times; but all authorities in England and elsewhere are agreed on this point, that moral considerations must prevail, that the officers who seek protection must appeal to morality and to say that they have behaved as humanly and in as civilized a manner as possible. I submit, my Lord, on behalf of the Indian public that it is impossible for them to ratify and sanction these convictions if they have a spark of self-respect in them, if they have anything worth considering in them. I have already alluded to the fact, my Lord, that it is impossible, having regard to the events at Jallianwalla Bagh and elsewhere, to raise the presumption in the manner in which it is sought to raise it. I pray that the Government will deal only with cases which took place after the martial law ordinances were issued. Then that would exclude from the purview of our consideration a large number of actions which have to stand on their merits under the common law of the land. If they are to be brought in on the ground that the essence of martial law is a necessity and that those people are entitled to protection, then I humbly pray, my Lord, that the onus of having acted in good faith and in a reasonable manner should be laid upon them. I also ask, my Lord, as to why there is in this clause the phrase 'reasonable belief that those measures are necessary for the purpose of maintaining order, etc.' in addition to the words '*bona fide*'? Hon'ble Members will see that it would be extremely difficult, if not impossible, for any plaintiff or any prosecutor to show that the officers who were concerned in the discharge of these duties did not believe them to be necessary. That would be an impossible position to take up. The only point would be as to whether they were reasonable in believing them to be necessary. But if it is the sentiment of the British public as voiced loudly by several European papers that they are very sorry that Sir Edward Maclagan should have pursued this clemency policy which is likely to mar all the good

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma ; Sir George Lowndes.*]

work done by his distinguished predecessor, when we see that that is the atmosphere, if I would think that this was the mentality at the time, that this was the atmosphere at the time, then I say, my Lord, it is necessary that we should carefully consider what they might consider to have been a reasonable belief that their actions were justified by necessity. But we, my Lord, as legislators, find absolute difficulty in ratifying any action which is based upon ideas of revenge, reprisals or upon methods which should not be pursued which are acknowledged should not be pursued. That is my real difficulty. My real difficulty is not that I am unwilling to protect officers, even though the martial law proclamation and orders were wrong—even assuming that I am prepared to protect the officers, but not all officers who have acted in particular ways.

“I have only a few words to add with reference to clause 4, and that is this. Hon’ble Members will find that these summary courts were established or have acted in exercise of powers granted to them by Ordinance IV. The Ordinance, my Lord, gives these tribunals power to deal with any offences whether they were connected with these troubles or not, any offences which occurred after the 30th March, in accordance with the law of the land, but I suppose following the procedure of Ordinance No. I of 1909 as far as may be

The Hon’ble Sir George Lowndes :—“I think the Hon’ble Member has made a verbal slip; that Ordinance has nothing whatever to do with summary courts; it deals only with commissions.”

The Hon’ble Rao Bahadur B. N. Sarma :—“Or rather courts which were empowered to deal with cases just as summary courts-martial are empowered to do

The Hon’ble Sir George Lowndes :—“The Hon’ble Member is, I think, mixing up two different things. Commissions were appointed under the first Ordinance, and under Ordinance No. 4 the Commissions were entitled to try these persons. In addition there were summary courts appointed by the martial law authorities.”

The Hon’ble Rao Bahadur B. N. Sarma :—“I shall be glad to proceed upon the footing that these courts should have followed the ordinary procedure and should have dealt with these cases and have ordered those punishments which are awardable under law. I have made a mistake. It is true that under the first Ordinance the Commission shall have all the powers of a general court-martial under the Indian Army Act, and shall, subject to the provisions of this Ordinance in all matters, follow so far as may be the procedure regulating trials by such courts-martial prescribed under the said Act. Provided that where in the opinion of the convening authority a summary trial is necessary in the interest of the public safety such authority may direct that the Commission shall follow the procedure prescribed for a summary general court-martial by or under the said Act, and the Commission shall, so far as may be and subject to the provisions of this Ordinance, follow such procedure accordingly. Provided further that sections 78, 80 and 82 of the said Act shall not apply to any trial under the Ordinance. Then this is the other Ordinance which I was referring to. ‘This Ordinance may be called the Martial Law (Further Extension) Ordinance, 1919.’ I shall be glad to hold the other view notwithstanding anything contained in the Martial Law Ordinance I of 1919 the Local Government may by general or special order direct that any commission appointed under the said Ordinance shall try any person charged with any offence committed on or after the 30th March 1919. There is no limitation there. Thereupon the provisions of the said Ordinance shall apply to such trials accordingly and the commission may pass in respect of any such offence any sentence authorised by law. I think, therefore, that it was competent to the officers who dealt with cases under this

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma ; Mr. J. P. Thompson ; the President.*]

[19TH SEPTEMBER, 1919.]

Ordinance to follow the procedure that was prescribed in Ordinance No. I. Even in respect of trials which did not fall within Ordinance No. I but were matters under the Penal Code or which were taken up by the convening authority before these tribunals. However, that is a matter which I shall leave now. Hon'ble Members turning to this statement will find that a very large number of convictions in accordance with this Ordinance were passed towards the end of April, the beginning of May, June and July. This was dated the 21st April when according to the Press Communiques order had been restored and everything was quiet, barring a few incidents here and there. I do not say that there was no fear of a recurrence of those events, that is unnecessary for my argument; but the Press Communiques that were issued would show clearly . . . I will take one.

"I take one. On the 22nd of April the following Press Communique was issued: 'Situation seems to be well in hand . . . disturbances except the cutting of telegraph wires.' I am not going to argue that reports of disorders were not coming in, it is unnecessary to argue the point, there may have been disturbances, but all I can say is that the disturbances had been quelled by the 30th. My point is that martial law cannot be invoked and should not have been invoked after the 21st of April for the purpose of administering justice for the further prosecution of measures of Government—we are not concerned with them. My submission is that on the 21st or 22nd of April the ordinary courts should have been allowed to proceed. It may be said that if that were done it would not have been possible to get through the work expeditiously. There was nothing to prevent Government from appointing additional tribunals to deal with the offenders. I take strong exception to the ordinary safeguards which are open to the public being removed by executive action in a time of peace"

The Hon'ble Mr. J. P. Thompson :—"My Lord, in the absence of Mr. Hailey, may I explain for the Hon'ble Member's information that disturbances were not over by the 20th of April? There were several cases of cutting of telegraph wires."

The President :—"Order, order. The Hon'ble Member may rise to a point of order or for a personal explanation, and if Mr. Hailey is not here, Sir William Vincent who has yet to speak, can reply to the point."

The Hon'ble Rao Bahadur B. N. Sarma :—"Subject to correction, I should like to say that though these disturbances continued till May or June there was no justification for the continuance of martial law. It was not necessary for a sporadic disturbance. According to all constitutional writers this rebellion, which I am assuming for the sake of argument, would justify martial law coming to an end by the 21st or 22nd of April. Therefore we need not ratify the action of the Executive Government in introducing a new procedure in removing the normal safeguards to which British Indian subjects of His Majesty are entitled. My submission is that the ordinary tribunal and normal procedure should have been followed. The judgments show that the normal procedure was not followed. There were 236 offences tried and my submission is that we as a legislature would not be justified in ratifying and validating all these convictions and sentences. Sir William Vincent had a very powerful argument in support of his position when he said that the Government of the Punjab felt that if these convictions are not upheld and if the men are let loose there will be no safety. Another argument was that if these men were tried over again this would lead to great public expense. My Lord, there is no escape from that. I do not want any man rightly convicted to escape, but Government could put these men on their trial in the ordinary courts and the public peace will not then be disturbed, people will have confidence that whatever may have been done in a time of panic, if done honestly and *bona fide*, Government

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma.*]

rightly recognise any injustice that may have been committed and therefore will follow the normal procedure. Let the man be tried under the usual procedure, with the usual safeguards, a certain amount of money may have to be spent, but it would be usefully spent. There is no difficulty in the way of accepting the suggestion that has been thrown out that two High Court Judges, or ten High Court Judges should go into these sentences. My Lord, unless the Judges see the statements made by witnesses which have been recorded, I cannot see how the Judges are to deal with all the cases. I am sure where the records are full it will be competent for the Judges to set aside these convictions or advise the Government of India to do so. But where we have only pencil notes or no notes of evidence or where the evidence is meagre, my submission is the Judges will not be able to remedy matters, in some instances at least, inasmuch as we know a record has not been kept. It is impossible for the Government of India to inspire public confidence, and I feel it would be well for the Government not to press for clause 4, asking us to ratify whatever has been done under martial law by these tribunals. My Lord, a word, I think, is necessary from me in addition to what the Hon'ble Mr. Sinha said in reference to what fell from Mr. Malaviya. I have asked for certain information to be given, and for the publication of certain correspondence. The Government felt very rightly that in the public interests this should not be disclosed. I cannot help thinking that in the interests of the public it should be disclosed, so that both the parties may be ready for the tribunal. I think it would be well if both parties should state their case so that the truth may come out; on the other hand, the view of Government may be justified on various points and the other people would not press it, so both parties would come prepared. In the absence of that information, and inasmuch as there is an uneasy feeling in certain sections it was the duty of the Hon'ble Mr. Malaviya to bring forward the grievances of the people. This duty he has discharged and we are grateful to him for it. I maintain that in regard to the statements made, no one would have been more happy than many of us if these facts were untrue. But beyond one or two statements of officials, namely, whether a C. I. D. officer had been murdered or European officials suffered some injury I do not think there was any reply worth mentioning, but beyond one or two statements of an inconsequential nature, namely, as to whether a C. I. D. officer was insulted and as to whether particular European officers did not receive injury, I do not think on essential points there was any reply worth mentioning. That is a question, I suppose, of difference of opinion amongst the Council, but at any rate some of those points were not answered.

"Then, my Lord, ridicule is properly applicable to show up a man who makes pretensions which are absolutely unjustifiable. That is a perfectly legitimate weapon, but what was the occasion for the use of the strong language that was employed in regard to the Hon'ble Pandit Malaviya? The Hon'ble Pandit has kindly shown me the correspondence, and we find that, unless the Hon'ble Mr. Thompson made a personal inquiry into the question of a corpse that was found in the well, which has absolutely no political aspect, it is rather difficult to say who is in the wrong. The people think that the administrators of this land lend a ready ear to those who always flatter them, to the police and to other officials. That is the trouble. Now the Hon'ble Mr. Thompson takes up the position of a Municipal Commissioner and tells us that 12 or 13 others went to the well and found nothing and 8 days afterwards they found a corpse. Meanwhile, it would not have been possible for that corpse to have been removed. As a matter of fact even the Commissioners seem to have taken the pains to see what was there. I only allude to this to show, my Lord, that on such scanty materials Hon'ble Members of this Council do not deserve attack and they require protection. Of course the protection is both ways, but, I think, my Lord, the Hon'ble Members were perfectly right.

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma ; Sir George Lowndes ; Pandit Madan Mohan Malaviya.*]

[19TH SEPTEMBER, 1919.]

"My Lord, I have tried my level best to see whether I could support this Bill. I have some difficulties along with the Government in pressing for a complete postponement of this measure. It is true that the officials have to be protected. I agree with Sir Sivaswami Iyer that it is incumbent upon the Government to bring in a Bill by way of a temporary measure to safeguard the interests of the officers who were employed in the work and protect them pending the result of an inquiry before Government makes up its mind as to how best to deal with these officers. That no reasonable man can object to. But, my Lord, notwithstanding some safeguards, there is great danger in giving undue protection to these officers, some of whom do not at least deserve any protection having regard to the events which have transpired. The officers, my Lord, were very anxious that their doings should not be known to the public. They shut out the general public from the Punjab; the Indian press in the Punjab was muzzled. Even Mr. Andrews who wanted to go there was prohibited. Under those circumstances is it strange in our saying they should wait patiently until the general public has had an opportunity of judging as to what has actually transpired? The officers did not want to take the public into their confidence, and therefore it is not unreasonable for us to ask that this measure should be postponed until the Committee of Inquiry has submitted its report; but I do not do even that, I ask the Government to give them temporary protection. But I cannot see my way either to ratify all these convictions and sentences or to give complete protection irrespective of the inquiry to every officer even subject to the safeguards mentioned."

6-12 P.M.

The Hon'ble Sir George Lowndes:—"My Lord, this has been a day of telegrams and I should like to add my quota. I have received, as I am sure I ought to inform the Council, a telegram from the Wardha Home Rule League protesting against the introduction of this Bill. I have no doubt that this protest will meet with the consideration it deserves in this Council. The Hon'ble Pandit also referred to, and read out a telegram from, the Indian Association of Lahore. Members of this Government have also received the same telegram, but in their case it has not been signed, and it would be interesting if the Hon'ble Pandit could let us know by whom his copy is signed. The Secretary of that Association, I understand, is now confined in one of His Majesty's jails, and, I think, we ought to know, who has signed it on his behalf. (After a pause).

I do not think I need wait till the Hon'ble Pandit

The Hon'ble Pandit Madan Mohan Malaviya:—"Perhaps I have given it to the Reporters. So far as I can remember, it was not signed, but I am sure it was signed. I can say, my Lord, that the Indian Association is an Association of long standing in Lahore. (After a pause).

I have just got the original telegram. I had it in my pocket, I thought I had given it to the Reporters and it had not come. The telegram is not signed."

The Hon'ble Sir George Lowndes:—"My Lord, I begin my remarks by saying that I regret very deeply the events which have happened in the Punjab and in other parts of India. No one deplotes more than I do the loss of life, both Indian and European, which has occurred, and I would add no one deplotes more than I do that it is in most cases the dupes who have suffered and the agitators behind them who have escaped. But my object in rising at this late hour in Council is not so much to express my regret, though I am glad to have the opportunity of doing so, but to deal as shortly as I can with the constitutional position of martial law in our polity in India.

'And I doubt if, with all that has been said, the real position has been explained to the Council. The Hon'ble Pandit, I think it was, on a previous

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Sir George Londees.*]

occasion contented himself with saying, as has been repeated to-day, that martial law is the negation of law. But an epigram like that never can contain more than a germ of the truth, and it was hardly sufficient for the Hon'ble Pandit and other lawyers who have followed him to dismiss the whole subject of martial law as summed up in that short epigram. There is a great deal more behind it which it is essential that we should consider in connection with this Bill. No doubt it is true in one sense that martial law is the negation of law, but in every civilized country in the world it steps into the place of the civil law when occasion requires. It is not only in our own Empire and in our own history that martial law has a definite place. It will be found in the constitution of pretty well every continental country of Europe. It is specifically provided for in the French constitution and is there known as a 'state of seige,'—I am translating of course. It can be declared, in France, by the President on the advice of his Ministers if the Chamber is not sitting. In our own constitution it has been known from the very earliest days. But before I come to the historical side, which I shall deal with—as shortly as I can—I think I should explain the basis of it. The law of which it is said to be the negation is the thing that provides for normal conditions, but for normal conditions only. Abnormal conditions are left to be met by extraordinary measures. The Code of Criminal Procedure in this country provides for police measures to deal with riots. If they get beyond the police, the police can call in the military to their aid, but it is still the civil arm which is dealing with what has occurred, and the military are called in to their aid only. If matters go beyond this, charge must be taken completely by the military. The law does not attempt to provide further than that. Abnormal conditions have now arisen, and the enforcement of law and order is, and has to be, handed over to those who can do it by force of arms. The line, I think Hon'ble Members will agree, between riot and insurrection and revolution is a very thin one in every case. What is a riot this morning may be an insurrection this afternoon, and a revolution to-morrow. If you are unable to put it down at the outset, you may find that a fire has been lighted which all the fire-engines of the country cannot extinguish. It is that thin line which is the difficulty in all such cases. There is the line first of all between disturbances which the police can quell by themselves, and others for which they must call in the aid of the military, and there is the line between what the police aided by the military can deal with, and the situation that must be handed over entirely to the military arm. Once that last line is overstepped, it is no longer a mere riot, conditions are no longer normal; it is a case for what we have called martial law, that the name is a convenient one and no more, I quite agree. It arises only when the civil arm is no longer able to maintain order. That is why it is a negation of the civil law; it is a negation of the law because the law has failed and for no other reason. Whatever we may like to call it, a rebellion or an insurrection, —whatever politicians in this country may like to call it—, we have to deal with the facts not with the words we use to describe them. The question we have to consider here is, whether at the time when martial law was put in force in India the situation was such that the civil authorities were unable to cope with it. Therefore, let us not quarrel over words or discuss the difference between rebellion, insurrection and revolution. The practical question before the Council is, whether there had arisen in the Punjab at this time a state of things with which the civil authorities were unable to deal. We have been told in this Council that no such state of things existed. I would much rather have left the question where my Hon'ble friend, Sir William Vincent, left it in his opening speech, not discussing whether it was necessary to proclaim martial law, but leaving that to be considered by the Commission. I would rather merely assume that martial law was declared, for, as my Hon'ble Colleague put it, it follows essentially from that that there must be an act of indemnification and validation. Some Hon'ble Members, led by that redoubtable champion of the liberties of the people, who is still sitting here after his temporary disappearance, thought fit to go into all the happenings, for what purpose, I frankly

THE INDEMNITY BILL.

[Sir George Lowndes.]

[19TH SEPTEMBER, 1919.]

say, I cannot conceive. What this Bill proposes is that only acts which were done *bona fide* and which were believed to be reasonably necessary for the restoration or maintenance of order are to be the subject of indemnification, or validated in part, nothing else. The Hon'ble Pandit spent some hours telling us of a number of acts that would not be covered by the Act. He went through the whole history of what had happened in his own way recounting to us a great number of things which he told us could not have been *bona fide*, which could not have been necessary, and therefore, if I may say so, would not have been touched by this Act. What was his object, I repeat, I cannot conceive, unless possibly the time has come when it may be necessary for the Hon'ble Member again to seek re-election, and we may consider this as an election speech, in which, *pace* Mr. Sinha, terminological inexactitudes are often thought to be excusable. But it was not only the Hon'ble Pandit, but other Hon'ble Members have taken up definitely the position that there was never any situation (I am not attempting to put it in their own words) with which the civil law could not have coped. We began the other day with my Hon'ble friend Raja Sir Rampal Singh, whose absence I greatly regret to-day, for I dislike criticising any one in his absence, but he has, I may presume, thought it wise to beat a strategic retreat. The Hon'ble Raja Sir Rampal Singh, coming from the fastnesses of his ancestral castle in Oudh, said there was no rebellion, no insurrection—only a few little disturbances! Of course, sitting at home in safety, it was quite easy for him to say to himself there is no fire going on; there is no trouble! If you are a long way away and your house is not in danger of the conflagration, it is easy to take up this attitude. I strongly suspect that my Hon'ble friend from Oudh did not want to see the fire and I suggest that the most charitable way of looking at his speech is that it was written for him by a friend.

"Then we have my Hon'ble friend Mr. Ayyangar, who indeed is present, but whom I fear I shall not be able to make cognisant of my words at the moment. From the religious solitude of far Madras, he tells us again, that there was no rebellion, nothing serious was going on at all. I think the expression he used, so far as my memory serves me, was that only 'a few rash acts' were committed in the Punjab.

"Then we come to my Hon'ble friend Mr. Chanda. He put it in the forefront of his argument that there was no rebellion there, nothing that the civil arm could not deal with. And where does the Hon'ble Mr. Chanda come from? Assam! He too has come from the confines of India to say there were no serious disturbances in the Punjab. Can nobody tell us any better than this? Are there no members here who belong to the Punjab, who have been in the middle of these disturbances, who know what happened, who have seen what happened? There are surely many of them in this Council, but has any one of them told us that there was no rebellion in the Punjab, that there was nothing that could not be put down by the civil arm? Is it not an extraordinary fact that to find support for the opposite view you have to go to a member from Assam, a member from Madras—I am glad I do not have to speak in the plural of Madras—a member from the fastnesses of Oudh and, if I may say so, the self-constituted Special Commissioners from the United Provinces. Now, if other members of the services who sit here had not replied in detail to what I do not hesitate to call the monstrous statements of the Hon'ble Pandit, I should have taken some pains to reply to them in detail; but it is not necessary for me to do so now. Let me come now to the speeches of my Hon'ble friend Mr. Sarma and of my Hon'ble friend Mr. Sinha, who seems to think that we come here to talk about martial law and the doings in the Punjab with kid gloves on our tongues. I do not. Let us all say what we think. I shall not blame any Hon'ble Member who says what he really thinks, and surely in this Council I am entitled to say what I really think. But I will only say that the speech of my Hon'ble friend the Pandit was characterised by certain terminological inexactitudes, a phrase

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Sir George Lowndes.]

which has, I believe, parliamentary sanction. I have said that no member from the Punjab has come here to tell us that there was not a rebellion in the Punjab; I only use that word for convenience. But is there no one else to whom I can appeal who, at all events, does not bear the ticket of Government upon his back? I seem to remember one Horniman as somewhat of an ally of the party which the Hon'ble Pandit, I believe, now leads. I have some recollection of a letter of his published in the newspapers. It did not seem to accord with the view which is taken by his lieutenant now. I have got the words here—the expression used by Mr. Horniman of *Bombay Chronicle* fame, if I mistake not, was 'the recent deplorable revolutionary outbreaks'. Then there was another stout ally, a former ally at all events of that same party, Mrs. Annie Besant. I am sure many Hon'ble Members in this Council will remember the words of wisdom that fell from her with regard to the situation in the Punjab. Let me remind them, I quote from her letter in the 'Times of India' of the 19th of April 1919:—

'I ventured to urge before this movement was started that its logical result was riot and bloodshed, and to point to the danger of a revolutionary movement here. Surely what had happened in Europe was warning enough and I even noted the elements here on which Bolshevist propaganda might work. Are there not in the Punjab signs of such a movement? The cutting of telegraph wires, the derailling of troop-trains, the burning of railway stations, the attacks on banks, the setting free of jail birds, are not the actions of Satyagrahis nor even of casual rioters, but of revolutionaries.'

I understand that Mrs. Annie Besant has now been disowned as an ally of the party over which my Hon'ble friend, the Pandit, now presides with such skill, but those were words coming from the very party of which the Hon'ble Pandit is now the lieutenant, and I doubt if there is any Member of this Council who, if the proposition is put in the way I have put it, namely, whether there was a situation with which the civil arm was unable to cope, could do otherwise than admit the fact.

"Let us get so far in the argument. Now the next question that arises—I am dealing largely with theory now—is, is it or is it not the duty of every stable Government to maintain law and order in the country? I might go a little further, and say, is it not the first duty of every stable Government to do this? There again I think that even the Hon'ble Pandit will not venture to answer me in the negative. If it is so, if it is the first duty of Government to maintain the public peace, if that is accepted, does it not follow essentially from that that the Government must have the power to do so? If it is necessary to go beyond what I call the civil arm and invoke the direct intervention of the military, the situation is that which we describe as martial law. If it is the duty of Government to do that, do not Hon'ble Members think that it must follow that Government has the right to do it, and that there must be some sanction behind it? Writers on Constitutional Law have always struggled to find the sanction for martial law. There are three schools of thought which have existed in the past. The first school of thought, which has very much behind it historically, asserts that it is in the inherent power of the Crown to proclaim martial law. Let me not be misunderstood. I mean that if it is in the power of the Crown to put martial law in force, then the municipal courts are unable to take cognizance of cases arising out of it, because what has been done has been by the prerogative of the Crown. I say there is a great deal historically in favour of that view. I do not wish to trouble the Council at length with this, but I think it might interest Members to hear what such a great man as Pitt said in introducing the second Irish Indemnity Bill. He said:—'The Bill which I have to propose is not one to *enable* the Government of Ireland'—mark the word '*enable*,' I am not merely emphasising it, it is in italics in the report—'to *enable* the Government in Ireland to declare martial law in districts where insurrection exists, for that is a power which His Majesty already

THE INDEMNITY BILL.

[Sir George Lowndes.]

[19TH SEPTEMBER, 1919.]

possesses'. That is probably the *locus classicus* of the doctrine that it is a right and a power which the Crown inherently possesses, but it goes possibly a little further than that, because it has been recited that the Crown has that power in at least two Statutes which have been passed by Parliament, and therefore Parliament has at all events tacitly acquiesced in that doctrine. However many constitutional lawyers doubted whether the right of the Crown to enforce martial law could exist after the Constable's Court by which it was ordinarily enforced and by which trials were held had been abolished—and that was in the late Tudor times—and therefore they struggled to find a substitute for the prerogative of the Crown in the sanction of the Common Law itself which the opposite school always denied.

"Here again I do not wish to labour the point. The argument was that the power, as we lawyers say, flowed from the duty, the duty connoted the power following the legal maxim '*necessitas, quod cogit, defendit*,' and there is a considerable school of thought who still maintain that position. But in more recent times another school of thought has taken what is possibly a half way course and argues that though there may be a prerogative right in the Crown, though there may be a power under the common law to enforce martial law, the safer view at all events to take is that martial law should be followed by validation and indemnity. I think Hon'ble Members will see that this is common sense in many ways. After the disturbances have been put down, we do not want the battles fought all over again in the Courts; what we want is peace and quiet. For this reason the policy has always been to validate afterwards in order to prevent these discussions in the Courts when the crisis is over. That view certainly holds the field in modern times, namely, that though martial law may not be necessarily the negation of law, though it may have a foundation in the law, yet it undoubtedly takes the place of the ordinary civil law in abnormal circumstances, and therefore it is always desirable, always even necessary, for the reasons I have given, that a Validation or Indemnity Act should follow it. Hon'ble Members have referred, particularly Mr. Sarma, to the Regulation of 1804, under which martial law at all events in some districts was put in force. That Regulation, as no doubt Hon'ble Members will remember, gives to the Government powers to establish martial law and for trials to be held by courts martial. Now, power to establish martial law is in itself a statutory sanction for martial law; remember that 'martial law' means, I need not cite again the quotation from Steven's History of Criminal Law, to which the Hon'ble Pandit has referred. Martial law means the military taking the place of the civil arm in order to enforce law and order. This power to establish martial law is derived from the Legislature in the case of the Regulation of 1804, and we have to read into the words 'martial law' the various things which it connotes, that is to say, if we have statutory power to establish martial law, that makes legal *ipso facto* every act which can be justified by martial law. We in India therefore are in the position of having statutory power to proclaim martial law though it none the less leads us to resort to indemnity. But martial law has not been enforced under the Statute in all districts. It has been enforced under the inherent power in other places. I need only refer to the case of Bombay which is probably not covered by the Bengal Regulation. But notwithstanding that we have statutory power to put martial law into force in some parts of India, it is none the less necessary, for the reasons I have already given, to have an Indemnifying and Validating Bill. This, if I may say so, is agreed to by every sensible Member of this Council. The only argument I have heard against it is that of the Hon'ble Members who said that there were no serious disturbances in the Punjab, and of those who said 'By all means let us have an Indemnity Bill, but not to-day.' Well, that it is necessary to have some Indemnity Act is beyond question. I will tell the Council in a moment what a length of precedent there is for it. But apart from its being strictly constitutional, I should like to put the question very plainly indeed to some of my Hon'ble

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919]

[*Sir George Lowndes ; Pandit Madan Mohan Malaviya ; the President.*]

friends in this Council, and I would appeal especially to my Hon'ble friend the Maharaja of Kassimbazar, whose speech indicated a somewhat hesitating acceptance of the proposals now before this Council. Do you or do you not want to be protected in your lives and property, whatever may happen in India? Do you wish the Government to do what I have spoken of as the first duty of the Government, namely, to protect your life and property? And that if they cannot do it through the Police, do you wish them to do it by the use of the Military? Let us have a plain answer to that question from any one who is not prepared to agree to a Validating Bill. If you do not want it, tell the Government you do not want and the Government will not do it. Let me tell you this that if this Council will not indemnify the soldiers who have had to enforce martial law in order to preserve the public peace, they will not willingly do it again. You cannot place these unpleasant duties on your officers and at the same time leave them, as Mr. Chanda suggests, at the mercy of the Courts. That is not the way to treat officers whom you have asked to protect your lives and property. You have got to indemnify them at the earliest possible opportunity, and unless, I say, you do that, they cannot be asked to take any risks in protecting you. Why should they? Why should a man, in order to protect your life and property or to protect my life and property or anyone else's, do that which he knows may subject him to the direst penalties of the law? Remember when we talk of indemnifying officers, it is not the high officers of Government that you are asked to indemnify. It was the Gurkha soldiers who fired on the mob and, may be, killed people; it is the Indian soldiers and Indian officers whom you are asked to indemnify just as much as the British officers. Every soldier who fires according to orders and, may be, kills a person may be liable under the common law of the country to be indicted for murder. If my property is in danger, or my life is in danger from a mob, whether it be in Amritsar, Delhi or Lahore, can I ask the soldiers to fire upon the mob to protect me if I am not prepared to back them up afterwards by an Indemnity Act at the earliest possible opportunity? Surely not. Let Hon'ble Members come out into the open, let them say that they do not want to be protected, they do not want their lives and property to be protected, let them do what the Hon'ble Pandit suggested, constitute among themselves a body of watch and ward, let us get rid of the police

The Hon'ble Pandit Madan Mohan Malaviya:—"We do not want our lives to be protected at the expense of others." --

The President:—"Order, order. The Hon'ble Member has had his say."

The Hon'ble Sir George Lowndes:—"I thank the Hon'ble Pandit. It reminds me of a statement once made by one of the most eminent Judges in India to counsel who protested against being interrupted. He said do not worry, Mr. So-and-so; an interruption always shows me where the shoe pinches.

(The Hon'ble Mr. Malaviya here rose to interject a remark.)

The President:—"The Hon'ble Member has for a long time been a Member of this Council and knows perfectly well what order means. I must ask him to observe order."

The Hon'ble Sir George Lowndes:—"It may interest the Council to hear that I had the curiosity to have looked up in our reports the number of interruptions recorded in this Council during the whole of last year. The total was 51. Of these, the Hon'ble Pandit was responsible for 29. It appears to me that he has had rather more than his due share."

THE INDEMNITY BILL.

[*Sir George Lowndes ; Pandit Madan Mohan Malaviya ; the President.*]

[19TH SEPTEMBER, 1919.]

"Now, I say if you want officers of Government and soldiers under their orders to protect the lives and property of people, you must be prepared to indemnify them. I say it is necessary, and in accordance with common sense, and that it is in accordance with the practice of hundreds of years in this great Empire to which we have the honour to belong. The limits are perfectly well understood. The limits within which indemnity will be given are the limits of good faith and doing that which is reasonably necessary.

"They are clearly laid down in every book on Constitutional Law. We are not asking Hon'ble Members in this Council to go beyond that. I shall show in a moment that we are not asking them to go nearly so far as has been done in some cases. If Hon'ble Members will look back to constitutional history, they will note that in the earliest days the turbulent Barons were controlled by martial law.

"In Wat Tyler's rebellion in the time of Richard II martial law was put in force, and though it was directly contrary to the terms of the Magna Charta, men who had taken part in that rebellion were tried by court-martial or even put to death without any legal form of trial at all. Coming on to later times we find again put in force in Jack Cade's insurrection in Henry VI's reign. I do not want to go back for a precedent to ancient days. I only want to make it quite clear to the Council that the enforcement of martial law has been a part of the British constitution from the very beginning, from Norman times through Tudor times, down to the days of the Hanoverian House and on to the present day.

"When we come to the Georges, the questions involved are probably more important, as we get the Acts which have already been referred to. I do not propose to refer to them in any detail except to correct certain inexactitudes which have crept into the Hon'ble Pandit's arguments with regard to them. We have first of all the 1715 Act to which my friend the Hon'ble Pandit referred. I regret to have to refer to it again, but, with almost characteristic inexactitude the Hon'ble Pandit only read from the preamble of the Act and forgot to read the operative part of the Act. He told us that the Act did not do what as a matter of fact it does. One cannot always, I am afraid, collate from the preamble to an Act what is enacted by it. But let me read on after the long preamble,—the enacting part is there. The only part which the Hon'ble Pandit did not read, as far as I remember, was this: 'All personal actions, etc., for anything done in order to suppress the Rebellion in 1716, shall be discharged. And if commenced again, the person sued may plead the General Issue, etc., Double Costs.' But the preamble was the only part in which the Hon'ble Pandit was interested, because he preferred to

The Hon'ble Pandit Madan Mohan Malaviya :—"May I rise to a point of order?"

The President :—"On a point of order."

The Hon'ble Pandit Madan Mohan Malaviya :—"I want to explain that I was arguing on the preamble, and it was not necessary for me to read the whole of the Act."

The Hon'ble Sir George Lowndes :—"Neither necessary, my Lord, nor advisable for my Hon'ble friend's arguments.

"I do not think I need say anything more about this. Hon'ble Members have heard the Act read, apart from the operative part, by my Hon'ble friend the Pandit.

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Sir George Lowndes.]

"Next we come to the 1745 Act, and there again the Hon'ble Pandit's researches did not go far enough. The Hon'ble Pandit referred to 19, George III, Chapter XX, which was an Indemnity Act, and which was passed after the disturbances, but he apparently did not find out that before the rebellion began Parliament passed another Statute authorising martial law being put in force. Therefore, they began before the Pretender's invasion by authorising the putting in force of martial law, *i.e.*, you have got curiously enough, almost the same position which we have in India now, that is to say, they were allowed by Statute to establish martial law, as we are here, yet after it was all over they proceeded to indemnify by the Statute to which the Hon'ble Pandit referred. The Indemnity Act of 1745 is practically in the same terms as the one of 1715. The Hon'ble Pandit put forward a tentative argument with regard to these Acts that they can be no model for us because they were dealing with invasions from outside, 'rebellions' in what may be called the technical sense. He suggested that that was quite a different case. There he said 8,000 Scotsmen flocked to the Pretender's flag and there was a regular war. But I am afraid that argument is destroyed entirely by the next Act of 1780 which dealt with the Gordon riots,—as the Gordon riots were nothing in the world if not a purely internal disturbance. My Hon'ble friend Mr. Hailey reminded you of their history,—most Members of this Council will no doubt remember the story in 'Barnaby Rudge,' it was hardly more than a riot, but a riot in the morning which might have been a rebellion in the afternoon, and it had to be dealt with by martial law. In that case there was, I believe, no statutory power given to proclaim martial law, but afterwards Parliament granted an indemnity in respect of all the acts that were done. I may perhaps read from the Act of 1780 again. It is very interesting, because it shows how far Parliament went. After the part the Hon'ble Pandit cited namely:— 'Divers Acts which cannot be justified by the strict Forms of Law, and yet were necessary'—that is the part the Hon'ble Pandit read—it goes on 'That All Personal Actions and Suits, Indictments and Informations, which have been, or shall be, commenced or prosecuted, and all Molestations, Prosecutions, Proceedings whatsoever, and Judgments thereupon (if any be), against the said Magistrates, or other Persons for, or by reason of any Act, Matter or Thing commanded or done on the Occasions, and for the Purposes aforesaid, or any of them before the twentieth day of June, one thousand seven hundred and eighty, shall be discharged and made void; and every Person, by whom any such Act, Matter or Thing, which shall have been commanded or done, before the said twenty-fourth Day of June, one thousand seven hundred and eighty, shall be freed, acquitted and indemnified, as well against the King's Majesty. * * *

"It will be seen that the Hon'ble Pandit was again somewhat inaccurate in saying that it had only a very limited application. It may seem so if you read only the preamble, but if you read the operative part of the Act, it indemnifies and makes good every act done by every person for the suppression of that rebellion.

"Well, let me continue the history as shortly as I can. We come next to the Irish trouble in 1798, which resulted in what is often called the Battle of Vinegar Hill.

"There, again, they not only had the Indemnity Act, 41 George III, C. 104, but Parliament gave beforehand power under Act 39, Geo. III, C. 11, to enforce martial law. So, again, the position was almost exactly what we have here. First of all the power given by the Legislature to put martial law in force, and secondly, the indemnity for anything done under it. It is in connection with the 1798 rebellion in Ireland that the case of Wright and Fitzgerald arose. I think the Hon'ble Pandit referred to it, or, at all events, to the summing up of Mr. Justice Chamberlayne. It is a typical and illustrative case and, I think, the Council may like to know just a little bit more about it. Fitzgerald was a

THE INDEMNITY BILL.

[Sir George Lowndes.]

[19TH SEPTEMBER, 1919.]

High Sheriff and Wright, as the Hon'ble Pandit told us, was a school master. Fitzgerald ordered Wright, at any rate according to the allegation, to be flogged with 500 stripes (they did not do things by half measures in those days), and he was flogged, and according to the evidence flogged in Fitzgerald's presence, under the most harrowing circumstances, circumstances, I may say, almost as harrowing as those which the Hon'ble Pandit, with such oratorical effect, described to us yesterday. The Judge summed up, as the Hon'ble Pandit has told the Council, there was a sympathetic Irish jury, and he was awarded £500 damages. The Hon'ble Pandit did not care to read any further than that. If he had looked on a little further, he would have seen that the case went on to the Court of Exchequer and was quashed and Fitzgerald, the High Sheriff, got his full costs. Therefore, the end was not quite where the Hon'ble Pandit left it. So much for Vinegar Hill and Wright and Fitzgerald.

"Now let us pass on to 1803, Emmett's Insurrection it is usually called. That was a case which was curiously like the present one. A mob went about in Dublin killing everybody they met who did not belong to their persuasion. In a fit of what, I suppose, my Hon'ble friend Mr. Ayyangar would call rashness, or it may have been pleasantry, they killed the Lord Chief Justice. There was no time for Parliament to authorise the proclamation of martial law, but the Government put it in force and they passed the usual Indemnity Act 43, George III, C. 117. I do not wish to speak about martial law in Ireland at this day, though it is a matter which touches us very nearly. Many Members of this Council may no doubt know that Ireland is at present under martial law, but they have not got to the indemnity stage yet. Let us now go to South Africa. I am only endeavouring to show the Council how entirely constitutional the putting in force of martial law is when the civil arm cannot cope with disturbances, and that in every case it is almost necessarily followed by an Indemnity Act at the earliest possible moment. In South Africa, the story begins with 1835; again in 1846, and again in 1850, martial law had to be put into effect, and in every case there was an Act of Indemnity passed by the local Legislature. The case, therefore, is in this respect nearer to our own. Then in 1900 and again in 1902 and again in 1914 in South Africa, we find martial law in force and Indemnity Acts passed which the Hon'ble Pandit has or would have referred to, if he had had the books. In 1900 there was Act VI of 1900 which was a full Indemnity Act, much fuller than this one. I think perhaps I may go into the terms of it very shortly. Hon'ble Members will find in that Act that very objectionable clause which, I think, my Hon'ble friend Mr. Sarma, and, if I remember aright, Mr. Sinha, have referred to; 'every such act, matter or thing referred to in the preceding sections shall be presumed to have been advised, commanded, ordered, directed or done, as the case may be, in good faith until the contrary shall be proved by the party complaining.' The terms are little wider than in our Bill. By that Act they indemnified people in respect of 'any acts, matters and things whatsoever in good faith advised, commanded, ordered, directed or done as necessary.' I draw attention to those words because, in drafting the Bill which is before the Council, we have had all these models before us, and what we have in the Bill about 'in the reasonable belief that it was necessary,' is merely a translation of the expression I have quoted which you find all through these recent South Africa Acts—I mean '*done as necessary*.' I think any lawyer will agree with me that 'done as necessary' means done in the belief that it was necessary. But in order that there should be no doubt about it, we have thought it was better to translate it into plainer language.

"When we come to the second of the more modern South Africa Acts, we find exactly the same words; it is to be an indemnity 'for or on account of or in respect of any acts, matters and things whatsoever in good faith advised, commanded, ordered, directed or done as necessary for the suppression of hostility and the establishment and maintenance of good order.' Then, again,

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Sir George Lowndes.]

there is exactly the same clause with regard to the presumption; 'every such act, matter or thing referred to in the preceding section shall be presumed to have been advised, commanded, ordered, directed or done, as the case may be, in good faith until the contrary is proved.'

"Let me for one moment dismiss, if I can do so, the argument that has been raised on this. It has been suggested that we are doing something outrageous in providing in this Act that the onus of proving ill-faith is to be on the man who alleges. But is this not the essence of our criminal law? I may be wrong in thinking so; but this is why I ventured to interrupt my Hon'ble friend Mr. Sinha, who put forward, as I thought, the suggestion that it was not for the prosecution in criminal cases to prove intent or ill-faith. But, is it not the basis of the law which we have inherited from the British constitution, that you presume every man to be innocent until the contrary is proved? And does this go any further than that? At all events, it has been adopted in every modern Validation Act, and we have frankly followed on the same lines. I was asked by the Hon'ble Pandit whether I had taken the Act of 1906 for my model. I told him that the actual model was the most recent Act of all, the 1915 Act. I think probably the Council will agree with me that, so far as I am responsible for the drafting of any Bill, I follow the most recent model; and that is what I have done, though, as I said before, we have, I believe, examined every Indemnity Act we could get before we started to draft this Bill.

"Now as to Act XI of 1915, of which I am glad I was able to give my copy to the Hon'ble Pandit though I am afraid rather late. It provides that 'every act, matter or thing referred to in sub-section (1)—the general words are in the previous section—'shall be presumed to have been advised, commanded, ordered, directed or done (as the case may be) in good faith until the contrary is alleged and proved by the party complaining.' We have that again. Then we have the specific provision with regard to sentences, which again I may read and, I think, Hon'ble Members will see that our Bill does not go nearly as far as this really.

'The several courts-martial and military and special tribunals constituted and convened by or on the authority of the Government or its officers during the period aforesaid for the trial and punishment of persons guilty of treasonable, seditious or rebellious conduct, or of persons subject to military law shall be deemed to have been constituted in accordance with law, and the several sentences pronounced by all such courts and tribunals, as well as by Magistrates' courts or other inferior courts, for any contravention of, or failure to comply with, any law or statutory regulations known as martial law regulations, or any orders or instructions, given on the authority thereof, are hereby confirmed.'

Hon'ble Members will notice that we have not gone as far as that in our Bill. Sub-section (2) says:—

(2) 'Every person confined in any prison, gaol, lock-up, or in any other place whatever under and by virtue of any such sentence aforesaid shall continue liable to be confined therein or elsewhere as the Minister of Justice may direct, until the expiration of such sentence, or until released by the Governor General in the exercise by him of the Royal mercy, or until otherwise discharged by lawful authority.'

(3) Every such sentence shall be deemed to be a sentence passed by a duly and legally constituted court of the Union, and shall be carried out or otherwise dealt with in the same manner as the sentences of such a court.'

Those are the material sections of the latest South African Act, and there is a great deal more in it that my Hon'ble friends will see follows largely the previous models of 1900 and 1902.

"Then if I may pass away from South Africa and follow up the other cases in which martial law has been proclaimed and followed by indemnity, we have

THE INDEMNITY BILL.

[Sir George Lowndes.]

[19TH SEPTEMBER, 1919.]

the very well-known case of Jamaica in 1865. A long pamphlet dealing with all that happened has been published at the Tribune Office, an office, I think, not unknown to my Hon'ble friend the Pandit; and it was to me rather remarkable that he did not refer to the contents of that pamphlet in any way at all. Perhaps we should be glad he did not or he might have been addressing the Council till now. But there was much in that pamphlet which, I am sure, gave him food for reflection. It deals with the well-known case of Governor Eyre. He arrested a man called Gordon, who was believed to be the centre of the insurrection in Jamaica, outside the martial law area altogether, and executed him. An Indemnity Act was passed by the local Legislature, and then Gordon's widow came to England and prosecuted Eyre under an Act which allows Colonial Governors to be prosecuted in England, for the death of her husband, claiming damages. The case was a *cause célèbre* at the time, and allegations much like those that have been made by the Hon'ble Pandit were made with regard to the doings in Jamaica. The case came before the Grand Jury. The Grand Jury were charged by one of the greatest of Judges, and they did as they were entitled to do, as men of common sense would do presumably in such a case, they threw the indictment out and there was an end of it; they would not allow it even to be tried. There was another case to which the Hon'ble Mr. Sinha, if I remember aright, referred in connection with the Jamaica riots. That was the case of Eyre and Phillips. But the sole question there was, whether Eyre the Governor was within the Indemnity or not; there was no other question concerned. My Hon'ble friend Mr. Sinha has referred to the report of the case in the Queen's Bench. I should have liked to refer to the report in the Court of Exchequer, but when I asked for the book, I found that the Hon'ble Pandit had unfortunately taken it away to the farthest end of Simla. It has now been given to me, but too late for me to quote. All I need point out is, that the only question before the Court was whether this case was covered by the Indemnity Act or not, whether an Indemnity Act passed by a local Council could indemnify its own Governor because he was a party to it. I am speaking from recollection, but, I think, the Hon'ble Mr. Sinha will agree that that was substantially the sole question decided in that case.

"Then let us come nearer home, to Ceylon. In Ceylon, they had martial law in 1848 and they had a local Indemnity Act there, but I am afraid I have not got it. The same thing happened in St. Vincent in 1862; martial law proclaimed and followed by an Indemnity Act. And as the Council have been told, in India, after the Mutiny, we had an Indemnity Act, Act XXXIV of 1860. It is rather material perhaps to refer to that Act because Hon'ble Members will at all events see that, in bringing this Bill before the Council, we have not gone as far as we might have. The Act of Indemnity of 1860 was in very wide terms. I need only read section 2, which is the material one.

'All acts done since the tenth day of May, 1857, in connection with the late disturbances by officers of Government or by persons acting under their authority or otherwise, in pursuance of an order of Government, or which shall have been or shall be ratified by the executive Government, are hereby confirmed.'

That meant that the Executive Government was made the sole arbiter as to whether a man was to be indemnified for a particular act or not. Surely we have got a good deal more liberal a measure here, in that we leave it to the Courts to decide whether any act complained of was done *bona fide* and in the reasonable belief that it was necessary for the suppression of disorder.

"With regard to the question of reasonable belief, which has been somewhat attacked, it may be useful to read to the Council what one of the greatest Lord Chancellors said in the House of Lords in a debate on the Gordon Riots in 1780. It appears to me very material on this point. Lord Thurlow was the Lord Chancellor at the time, and he came down from the Woolsack to address the

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Sir George Lowndes,]

House. Of course I am not going to read the whole speech, but only a very short passage. Hon'ble Members will remember that the Gordon Riots were purely civil disturbances. There was no case of an invasion from outside. The Gordon Riots were very similar to the present case. They were an attempt to overawe the Government and induce them to repeal the Catholic Disabilities Act which had recently been passed. The cry was 'No Popery' 'Repeal, repeal.' This was very much like the object of these disturbances in the Punjab which was to get this very timorous Government to repeal the Rowlatt Act. Lord Thurlow said:

'Under these circumstances it was, and after it had been in vain endeavoured to quell the riots by the intervention and authority of the Civil Power, that the Military were employed; and therefore, the case being so far similar to the Rebellion in 1715 and 1745, that there was an actual insurrection, that the laws of the land were trampled under foot, and the King's Government opposed. The military as well as everyone in a brown coat were justified in the commission of such trespasses and acts of homicide for the purpose of restoring the public peace as were justifiable in the year 1715 and in the year 1745.'

This disposes entirely of what I may call the argument of the Hon'ble Pandit that martial law is only applicable where there is a case of invasion. In the Gordon Riots the military and private persons were entitled to do everything that they were entitled to do in 1715, and in 1745 when martial law, as Hon'ble Members will remember, had actually been declared by Act of Parliament, though here it had not. I will continue my quotation 'to do everything that was justifiable in the years 1715 and 1745 for the purpose of putting an end to the rebellion then on foot in the Kingdom. Not that he meant to say that either soldiers individually or collectively any more than private persons might not in their endeavours to quell the outrages, etc., lately committed have been guilty of some things which, under a cool legal investigation would appear to be contrary to law and punishable either by the Common or Statute Law of the Realm, for, undoubtedly, in opposing, repressing, and quelling such daring outrages as had been perpetrated, the military, as well as individuals, must necessarily have been forced into excesses; but when the occasion was duly considered, and the extreme hurry and violent confusion in which all men who joined in restoring the public peace were obliged to act, those excesses would be seen to have been unavoidable, and to be the proper objects of an Act of Indemnity, but not an Act more necessary for the military than for other persons who had done as the military had done, and been instrumental in effecting that good purpose which the military had effected.'

"My Lord, I think three points emerge very clearly from this speech of Lord Thurlow. The first is, that the power of enforcing martial law where disturbances have gone beyond the civil arm is very akin to the right of self-defence; it is so not in the case of soldiers only, but of everybody else. Secondly, it shows that we should look at the acts done in the light in which the Council are asked to look at them under this Bill, namely, considering whether the persons who did them did them in good faith and in the reasonable belief that they were necessary. The third point is quite clear from what the Lord Chancellor says. In doing that we have to take into account the circumstances of the time, the excitement of the moment, and the fortunate fact that the man may have no one to consult. These are the legitimate circumstances which have to be taken into account. That, I venture to submit, is very material. In this connection I draw the attention of Council to the fact that the Bill reserves power to Government to prosecute in any case where it may find it necessary. No one in dealing with this Bill has referred to that point. Clause 6 (c) runs 'Nothing in this Act shall prevent the institution of proceedings by or on behalf of the Government against any person in respect of any matter whatsoever.' Thus Government is not precluded from taking any action against an officer that is necessary. Then I draw attention to clause 6 (b), in which though we have con-

THE INDEMNITY BILL.

[*Sir George Lowndes ; Sir Dinshaw Wacha ; The President*]

[19TH SEPTEMBER, 1919.]

firmed sentences we have not gone nearly as far as was the case in the South Africa Acts. We have left the right of appeal to the Privy Council fully open. Under that clause if any appeal goes to the Privy Council, it will be decided as if this Act had not been passed. We cannot do more. If these sentences are monstrously unjust, if these tribunals have no jurisdiction, if there has been a denial of justice, if there has been a travesty of justice, (I believe I am correctly repeating expressions which have been used in this Council), the Courts are open and in England, the Privy Council will listen to any appeal on these grounds if a case can be made out. Years ago in *Dillet's* case it was laid down on what lines the Privy Council will hear appeals in criminal cases. If, as I say, there has been any denial of justice, we have left it open to the person aggrieved to go to the Privy Council, if there has not been a denial of justice, surely the sentences must be confirmed.

"There is much I should like to say in answer to my Hon'ble friend Mr. Sinha and again in answer to the speech of my Hon'ble friend Mr. Sarma, but I am afraid that at this hour I must resist the temptation. However, I cannot help referring in conclusion to one dictum of my Hon'ble friend Mr. Sinha. He said 'what is the good of my trying to persuade the Government.' I think I may console myself with the retort 'What is the good of my trying to persuade Mr. Sinha?'"

7-20 P.M.

The Hon'ble Sir Dinshaw Wacha :—"My Lord, I did not intend to make a speech of more than 10 minutes, but after the very lucid and illuminating speech of my Hon'ble friend the Law Member I shall detain them for even a briefer time. I think every Member of the Council must feel grateful to Sir George Lowndes for his very clear and convincing exposition of the legal and constitutional technicalities to which the Hon'ble Pandit and the Hon'ble Mr. Sarma had taken such pains to expatiate on in their respective speeches. After the light thrown on these technicalities by Sir George Lowndes and the terse manner in which he expounded the facts and the circumstances under which the various Indemnity Bills referred to by the Hon'ble Mr. Malaviya had been enacted, I am fully convinced that there cannot be any two opinions on the expediency of the introduction of the Bill originally. I am free to confess I was in favour of the amendment for the postponement moved by the Hon'ble Mr. Chanda, but I repeat I cannot help supporting the legislation after the clear exposition of the Hon'ble the Law Member. Before the Hon'ble the Law Member made his speech I was a little doubtful as to whether or not I should accept the Bill, but having heard it explained to-day by the Hon'ble the Law Member with his usual forensic ability, a fact with which we were familiar in Bombay before he came here, I think the Council will be satisfied that the Bill should be allowed to pass. Well, there was one point that puzzled me and it is this. In all the cases put before us I should like to know from the Hon'ble the Law Member or the Hon'ble the Home Member whether the inquiry that is now going to be made will clash with the Bill, that is to say, what will be the effect if the Commission think that certain officers had committed such excesses that they could not be tolerated and therefore of course that they must not be indemnified. I should like to know also if there are any instances, as in the present case, of an Indemnity Bill being followed by a Committee of Inquiry."

The Hon'ble Sir George Lowndes :—"My Lord, may I answer the question?"

The President :—(Addressing Sir Dinshaw Wacha). "Do you wish Sir George Lowndes to answer that question?"

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[Sir Dinshaw Wacha ; Sir George Lowndes ; Mr. K. V. Rangaswamy Ayyangar.]

The Hon'ble Sir Dinshaw Wacha :—" Yes, for this reason that a doubt exists in the minds of some people in Bombay and other places. They think that a postponement is necessary in order that we may know exactly the scope of the inquiry."

The Hon'ble Sir George Lowndes :—" The question has rather a double barrel aspect. In the first place as regards the South African case there was a Commission of Inquiry appointed by the very Act which granted the Indemnity. That very Act created the Commission ; therefore although there was a Commission of Inquiry an Act of Indemnity was passed. The Commission appointed by His Majesty was empowered to inquire into sentences and they validated the Acts just as we do now.

" The second aspect of the question was whether the Act will in any way affect the position. I have not the least hesitation in answering that question. The only thing that we by the Bill seek to validate are acts done *bona fide* for the maintenance of law and order, and the Council may take it from me that this Bill will not in any way prejudice the Commission of Inquiry."

The Hon'ble Sir Dinshaw Wacha :—" I am satisfied, my Lord, and I hope other Members of Council are satisfied too. I support the Bill."

The Hon'ble Mr. K. V. Rangaswamy Ayyangar :—" My Lord, I cannot attend the night Session of the Council as my health does not permit of it in this cold Simla night, however much I may wish to be here to cite my reasons against the introduction of the Bill. So I have to forego the discharge of my duty I owe to my Punjab brethren.

" But I have to say a word in connection with the remarks of the learned Law Member who has charged me for minimising the Punjab incidents, for my saying that some of those disturbances were rash acts, committed by stray individuals. This is quite a different charge from that brought by the Home Member the other day ! By rash acts I only meant that the disorders were due to the passing excitement of some stray members of the crowd, and that they were not at all due to an organised conspiracy. I had separately mentioned the horrible murders of Amritsar and other places and so by rash acts, I was referring to the unlawful incidents at Lahore and similar places where the mob did not obey the orders of officers but assembled in meetings and joined processions.

" I did not at all minimise or tried to minimise events at the Punjab either the murder of Europeans or that of Indians. On the other hand, my Lord, some of my European friends charge me for over-estimating the events there and caring too much for them. I did not say that murder and arson committed by the mob were rash acts or the loss of life of nearly 300 people, as the Hon'ble the Home Member put the estimate of deaths, was a rash act. I was and am only grieved to find that the sacredness of human life and human misery has not at all been seriously taken into consideration either in the Punjab or in the discussion here. While the massacre of the Armenians gives so much uneasiness that it outrages the sense of humanity and all the finer instincts of the English nation, it is only unfortunate that the grave incidents committed at the Jullianwalla Bagh, the throwing of bombs from aeroplanes at Gujranwala and such other incidents do not provoke similar sentiments in the same nation.

THE INDEMNITY BILL.

[*Mr. K. V. Rangaswamy Ayyangar; The President; Sir William Vincent; Pandit Madan Mohan Malaviya.*]

[19TH SEPTEMBER, 1919.]

"I cannot but commend to the Council the suggestion which my Hon'ble friend, Mr. Sarma, pointed out and which emanated from Sir Sivaswamy Iyer, the President of the Madras Liberal League. Sir Sivaswamy Iyer has wired to the Secretary of State as follows:—'Introduction now of the Punjab Indemnity Bill is exciting much dissatisfaction. Adjustments of principle and scope of indemnity to necessities of the case will be practicable only after the Inquiry Commission. If immediate legislation is needed, we would strongly suggest a mere suspensory Bill, suspending actions and prosecutions against officers pending the Commission and appeals in Privy Council, and suspending limitations against the parties aggrieved.' This expedient should satisfy the Government, but should the Government insist on the Indemnity Bill, it should be followed by an Amnesty Bill vouchsafing amnesty to all those who are dealt with by martial law. This will go a long way to soothe the bitter feelings."

7-29 P.M.

The President :—"Before calling on Sir William Vincent to reply to the debate, I should like to state that Mr. Chanda who moved the amendment is absent to-day through ill-health, and that is the reason why Mr. Chanda is not here to reply to the debate on his amendment. Hon'ble Members will remember that when this debate was begun it was on the clear understanding that there should be one debate on the amendment as well as on the substantive motion for leave to introduce the Bill, and I told Mr. Chanda at that time that that would not preclude him from having a right of reply on his amendment. I now call on Sir William Vincent to reply."

7-30 P.M.

The Hon'ble Sir William Vincent :—"My Lord, I do not know if I shall be in order if, before replying on this debate, I give to Council some new information, with reference to the Committee of Inquiry. I think the Council will be interested to know that the Secretary of State has now sanctioned the addition of one Indian and one European member to that Committee. This information has really no connection with the Bill, but it is a matter in which the Council is greatly interested."

"My Lord, when I closed my opening speech on this Bill, I said that I had avoided, as far as possible, prejudicing any question that would come before the Committee or saying anything that might provoke racial feeling. I believe it has generally been accepted by this Council that that was my attitude. But I was a little surprised to be accused by the Hon'ble Mr. Malaviya, of all people in this Council, of attempting to prejudice the work of the Committee and that, because I had ventured to put it to the Council,—and I think Sir George Lowndes also said the same thing,—that if the Committee of Inquiry appointed to inquire into this matter found that a man had acted reasonably and *bona fide*, I was quite sure they would not hold him in any way to blame. Well, after I spoke the Council heard the various statements made by the Hon'ble Member himself, attempts to create prejudice, to minimise various facts and to place before Council *ex parte* statements as to particular incidents on which it was suggested that this Council should condemn particular officers or particular actions. My Lord, the Hon'ble Member has received such severe

The Hon'ble Pandit Madan Mohan Malaviya :—"May I rise to a point of order, my Lord?"

The President :—"Personal explanation or point of order?"

The Hon'ble Pandit Madan Mohan Malaviya :—"A correction, my Lord."

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*The President ; Pandit Madan Mohan Malaviya ; Sir William Vincent.*]**The President :—**“ Personal explanation ? ”

The Hon'ble Pandit Madan Mohan Malaviya :—“ Exactly, my Lord. I never said that the Council should condemn any officer on *ex parte* statements. I said their actions should be sifted by the Committee of Inquiry and then judgment pronounced.”

The Hon'ble Sir William Vincent :—“ My Lord, the Hon'ble Member has received such severe castigation from the Hon'ble the Law Member that it really would be an act of cruelty to say anything more of his speech. I can only say that, even if I had in any way been guilty of attempting to prejudice the decision on any point by the Committee or of creating an atmosphere of bias in respect of any matter, it would have been a case of Satan reproving the sin, for no man has been more guilty in that respect than the Hon'ble Member himself. But I leave it to Council to judge if I said anything which could prejudice the inquiry. My Lord, I regret very much, however, that an attempt has been made by the Hon'ble Member and by others to place particular incidents before the Council to make *ex parte* statements as to what happened on particular occasions, because I think that statements on the one side necessarily evoke from others contradiction, and that this Council was therefore placed in a very unfortunate position in regard to such incidents—incidents of which as the Hon'ble Mr. Sinha said, the Council do not know much of which they now have had stories from one side and stories from the other, and I feel that it would have been much better if both sides had left all these incidents alone. Such a course would not have affected this Bill and Council could have left the whole of the facts to the Committee of Inquiry to decide.

“ I must, however, myself quite clearly disclaim any intention to justify any particular action. It was for instance suggested that I was attempting to indemnify officers who were concerned in the Jhalianwalla Bag incident. My Lord, I had no such intention, nor can such an intention be deduced from the Bill. The question whether these officers will be indemnified or not will depend on the findings of Courts as to whether their action was *bona fide*, and reasonable or not. I do not seek in any way to prejudge the point.

“ In the course of the debate the Hon'ble Sir Dinshaw Wacha inquired whether the passing of this Bill would in any way affect the Committee of Inquiry. The answer has been given. The Committee of Inquiry is an administrative Committee. Its report will have no legal effect. The result will be, when it reports that the opinions and recommendations will have to be decided by the authorities in order to see whether any person is to be punished or censured or commended administratively ; but that has nothing whatever to do with the Courts. That Report will not be evidence in the Court. The legal liability of those concerned is a separate matter and can only be settled by either the common law or a Bill of this character.

“ My Lord, it has been said that martial law was not necessary. I was anxious to abstain from expressing any view on the point at present ; but as the subject has been dealt with at such length, I wish to add one word to the discussion, and that is to read the actual message—if I may with your Lordship's permission do so—on which the Government of India declared martial law. The Council have learned from Mr. Hailey's speech and from other Members all the incidents which preceded the 13th of April, and it is not necessary for me to reiterate them. Well, on that day, all other telegraphic communication being cut, we received the following message by wireless telegraph :—

‘ Railway stations between Kasur and Amritsar looted, British soldier killed. ’ (As a matter of fact there were two.) ‘ Two British officers injured at Kasur. ’ (There were more people

THE INDEMNITY BILL.

[*Sir William Vincent.*]

[19TH SEPTEMBER, 1919.]

than two injured.) 'Bands of rebels reported on the move, Kasur treasury attacked; state of open rebellion exists in parts of the districts of Lahore and Amritsar. Lieutenant-Governor with the concurrence of the General Officer Commanding the 16th Division and Chief Justice of the High Court requests the Governor General in Council to direct him to suspend the functions of the ordinary criminal courts in Amritsar and Lahore districts and establish martial law therein and direct the trial of offenders under section 2 of Regulation 18 of 1914. Situation critical. Moveable column starts marching from Ferozepore to Amritsar through worst tract with guns to-morrow.'

"I want to put it to any Member of this Council whether, if he had been a Member of the Government of India at that time, with the information which is now before the Council, on receipt of a telegram of that kind, he would not have acted exactly as the Government of India did: if any officer would have dared to take the responsibility of not accepting a recommendation of that character. That is all, my Lord, on the question of martial law, but I think that this message adds to the information before the Council.

"My Lord, it has been said that this present Bill goes too far. I do not think it necessary for me in any way to discuss that point. It has been fully debated already by the Hon'ble the Law Member. Many detailed criticisms of various clauses were put forward which, if I may say so, appeared to me to be irrelevant in a debate of this character. We ought now really only to discuss the question as to whether an Indemnity Act of this character is necessary or not, and that is a question about which, I believe, nearly all the Members in this Council have been now convinced. It has been said, however, that we ought to postpone the Bill, because actions will not be brought at once, or if they are brought, postponement may be secured. Another suggestion was, 'you should bring the Act in now, but make it an Act which will only suspend civil or criminal proceedings against officers.' I would point out in answer to these suggestions that an action begun now may be decided before any Indemnity Act could be passed after the report of the Committee is received, and any lawyer member of this Council will know how difficult it would be to pass an Indemnity Act in regard to a suit either commenced or decreed. As to pending suits, is it fair that we should leave officers who, *ex hypothesi*, as I said before, have done their duty, with a possibility of being sued—or that we should say to them 'Well, you may be indemnified for doing what was right or you may not, we will tell you that six months later, when the Committee of Inquiry, which has nothing really whatever to do with your legal liabilities, has decided some other point.' I submit that is not a right position for Government to take.

"My Lord, there is only one other matter to which I wish to draw attention and that arises out of the remarks made by the Hon'ble Sardar Sundar Singh Majithia. He asked me to give him an assurance that those who gave evidence before the Committee would in no sense be harassed by the police. I am glad to give him that assurance, and I am quite sure that His Honour the Lieutenant-Governor will give full effect to it.

"Another point was that I was asked whether if the Committee should find that any officer of Government had been guilty of improper conduct, he would be punished. My Lord, I have already said that it is our hope that we may be able to publish the report of this Committee, and it is certainly not our intention to treat the recommendations of this body as of no account in so far as we may accept their views. Any recommendations which they make will have to be considered, and such action as we think necessary will certainly be taken upon them."

The motion for postponement of the Bill was put and negatived.

The motion that leave be given to introduce the Bill was put and agreed to.

THE INDEMNITY BILL.

[19TH SEPTEMBER, 1919.]

[*Sir William Vincent.*]

The Hon'ble Sir William Vincent:—"My Lord, I now introduce the Bill and move that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English."

The motion was put and agreed to.

The Council then adjourned till Tuesday, the 23rd September, 1919, at 11 A.M.

SIMLA;

NOTE.—(a) Includes figures for Baroda for 1914-15 and 1915-16.

(b) The figures for 1918-19 are provisional estimates and are taken from the Final General Memorandum on the Cotton crop of 1918-19 published by the Director of Statistics in the Supplement to Part II of the Gazette of India, dated 22nd February 1919.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE INDIAN LEGISLATIVE COUNCIL ASSEMBLED UNDER
THE PROVISIONS OF THE GOVERNMENT OF INDIA ACT, 1915.
(5 & 6 Geo. V, Ch. 61.)

The Council met at the Council Chamber, Viceregal Lodge, Simla, on
Tuesday, the 23rd September, 1919.

PRESENT :

The Hon'ble SIR GEORGE LOWNDES, K.C.S.I., K.C., *Vice-President, presiding,*
and 41 Members, of whom 36 were Additional Members.

QUESTIONS AND ANSWERS.

The Hon'ble Mr. W. E. Crum asked :—

11-5 A.M.

1. " With regard to the position of subjects of late enemy countries and their return to India, will Government be pleased to state :—

Exclusion of
Germans
and enemy
subjects
from India.

(a) for how long they are prepared to exclude Germans and subjects of other late enemy countries from India ?

(b) what steps they are taking regarding Article 438 of the Peace Treaty ?

(c) whether they are prepared to permanently exclude German missions from India ? and

(d) what circumstances will guide them in making exceptions to repatriation of interned enemy subjects ?"

QUESTIONS AND ANSWERS.

[*Sir William Vincent; Mr. W. E. Crum.*]

[23RD SEPTEMBER, 1919.]

The Hon'ble Sir William Vincent replied :—

" (a) The Government of India are in correspondence with the Secretary of State for India on the subject of the admission into, or exclusion from, India of subjects of countries which are or have been at war with His Majesty. They hope to be in a position very soon to make a public announcement of their policy in this matter.

(b) The properties and undertakings of all German missions in India, including the Basel Mission Trading Company, have been vested in the provincial Custodians of Enemy Property, boards of trustees have been formed, and the properties and undertakings are being transferred from the Custodians to the trustees in accordance with Article 438 of the Peace Treaty.

(c) The Government of India will act in accordance with any decision which may be arrived at by His Majesty's Government. His Majesty's Government have decided that missionary and other philanthropic societies or organizations of alien enemy nationality, and their individual members of alien enemy nationality or birth, irrespective of their religious belief, cannot be re-admitted to India for a period which may be defined hereafter.

(d) The Government of India have decided that every German and Austrian at present in India is to be repatriated, subject to exceptions only in cases where there are very special reasons for granting exemption from repatriation. Each case will be considered on its merits. Exemption might be granted on the ground that an individual was by birth a British subject; that he has married and brought up a family in India and has entirely severed his connection with his own country; or that he is a native of territory which has ceased to be German or Austrian territory as a result of the Peace Treaty. But it is impossible to specify all circumstances which the Government of India might think sufficient.

In the United Kingdom, in the case of Germans married to British-born wives and deported from England to Germany, the wives have been allowed to stay in England or follow their husbands to Germany, as they preferred. In the case of British-born children of such parents, the law does not authorize the deportation of British subjects, but it has been the practice in England to include the names of very young children in the mother's permit. When the children are of school-going age or over, each case has been dealt with individually. In such cases the practice has been to make inquiries and try to ascertain whether the children wished to go or stay, and in the latter event whether there were relatives in England who could take care of them. The Government of India propose to be guided by the same principles in dealing with British-born wives and children of Germans and Austrians who were interned in India and are to be repatriated."

"The Hon'ble Mr. W. E. Crum :—" May I ask a supplementary question? Can the Hon'ble Member say how soon he will be able to give a definite answer to (a)?"

The Hon'ble Sir William Vincent :—" We have telegraphed about this matter to the Secretary of State recently, but I am unable to say the exact date on which a final decision will be reached."

The Hon'ble Mr. W. E. Crum asked :—

**Evasion of
Indian
income-tax.**

2. " (a) Has the attention of Government been drawn to an announcement reported to have been made by the Secretary of State in the House of Commons on 17th July regarding apparent evasion of Indian income-tax?

(b) What steps are Government taking to improve the machinery of collection and to prevent evasion?"

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[*Mr. H. F. Howard ; Rao Bahadur B. N. Sarma ; Sir William Vincent.*]**The Hon'ble Mr. H. F. Howard** replied :—

“(a) Yes.

(b) The Government of India are fully aware of the importance of improving income-tax assessment and preventing evasion. Before the passing of the new Act they had put to Local Governments (which, it should be remembered, are in charge of the administration of income-tax) the question whether the time had not come for the more general employment of specially trained and whole-time income-tax establishments. The importance of tightening the administration has been generally recognised, and though the diversity of conditions in the several provinces renders the application of any uniform system impracticable, the majority of Local Governments are, it is understood, taking up the suggestion, and it may interest the Hon'ble Member to learn that recently in the cities of Calcutta, Bombay and Rangoon, the income-tax establishments have been considerably strengthened. Special additions have also been made to the staff in the Punjab, the United Provinces and Madras, while certain improvements in the machinery have been introduced in the districts of Bengal. It is hoped that with this strengthening of the assessing staff a progressive improvement will be secured in the direction of enforcing liability to the tax where it is now being evaded. The Government of India also hope to obtain from Mr. Watkins, the expert in income-tax administration, whose services have been kindly lent to them in connection with the Excess Profits Duty by the Board of Inland Revenue of the United Kingdom, useful advice in connection with the whole subject.”

The Hon'ble Rao Bahadur B. N. Sarma asked :—

3. “Will Government be pleased to state approximately the rough estimates of the world's production of gold and silver during 1919-20 and 1920-21.”

World's production of gold and silver.

The Hon'ble Mr. H. F. Howard replied :—

“The Government of India have not seen any authoritative estimates of the world's production of gold and silver during the current and next years, and in view of the various uncertain factors involved, they do not think that it will serve any useful purpose for them to attempt to frame any such estimates for the public information.”

The Hon'ble Rao Bahadur B. N. Sarma asked :—

4. “(a) Has any conclusion been arrived at in fixing the salaries of Europeans and Indians serving in India and doing the same work?”

System adopted in fixing the salaries of Europeans and Indians serving in India.

(b) Is there to be any differential treatment, and, if so, on what principle?

(c) Is the European allowance to be the same in respect of all services or to vary with the service and status, rank and length of service of the individual? If so, what are the differences?”

The Hon'ble Sir William Vincent replied :—

“No conclusion has been arrived at.”

The Hon'ble Rao Bahadur B. N. Sarma asked :—

5. “What is the value of the gold and silver employed in arts in the various countries during the ten years prior to the war?”

Value of gold and silver employed in arts.

QUESTIONS AND ANSWERS.

[*Mr. H. F. Howard ; Rao Bahadur B. N. Sarma ; the Vice-President.*]

[23RD SEPTEMBER, 1919.]

The Hon'ble Mr. H. F. Howard replied :—

" The information asked for by the Hon'ble Member is not available except as regards the United States, where in 1916 the amount of gold consumed in the industrial arts was valued at slightly over 51 million dollars, *i.e.*, about £10½ million, while the silver consumed amounted to somewhat over 32 million fine ounces.

In the case of India, it is impossible to say how far the gold and silver which has gone into consumption is held in the form of coin, and how much has been melted down for use in the arts."

The Hon'ble Rao Bahadur B. N. Sarma asked :—

Exchange
compensation
allowance.

6. " Will Government be pleased to state the reduction, if any, in the expenditure under exchange compensation allowance (1) during the official year 1918-19, and (2) during the four months ending on 31st July 1919, and the reduction anticipated during the succeeding eight months?"

The Hon'ble Mr. H. F. Howard replied :—

" The expenditure on account of exchange compensation allowance was reduced from Rs. 43½ lakhs in 1917-18 to less than Rs. 7½ lakhs in 1918-19, and to *nil* during the first four months of the current year. No expenditure on this account is anticipated during the remaining eight months."

The Hon'ble Rao Bahadur B. N. Sarma asked :—

Collection
of taxes.

7. " Do Government propose to consider the desirability of arranging for the collection of some taxes during the slack months of the trading season ? "

The Hon'ble Mr. H. F. Howard replied :—

" The Hon'ble Member's question is not understood. The collection of Government taxes goes on through both the slack and the busy seasons of the year."

The Hon'ble Rao Bahadur Sarma :—" May I request that the dates of the collection of revenue be postponed so as to enable the money to be used for the benefit of the trade ? That is the question I wish to ask."

The Vice-President :—" I understand that the Hon'ble Member desires to ask a supplementary question."

The Hon'ble Mr. H. F. Howard :—" I am afraid I did not catch what the Hon'ble Member said."

The Hon'ble Rao Bahadur Sarma :—" May I ask the question as to whether the dates of collection of certain of these taxes might be postponed till the slack season so that during the busy trade season the money may remain with the trade ? "

The Hon'ble Mr. H. F. Howard :—" I am afraid, Sir, that we want all the money that we can get as early as we can get it. That is the answer to the Hon'ble Member's question."

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma ; Mr. R. A. Mant ; Mr. H. F. Howard ; Rai Sahib Seth Nathmal.*]**The Hon'ble Rao Bahadur B. N. Sarma** asked :—

8. “ (a) Do very wide differences exist between province and province, adjoining districts and even parts of the same district in prices of foodstuffs ? Differences in prices of foodstuffs in various districts.
- (b) Are Government in a position to say whether this is due partly to the inability of the Railway Companies to meet the normal traffic demands ?”

The Hon'ble Mr. R. A. Mant replied :—

“Full details of the wholesale and retail prices of food-grains in the different provinces and districts of India for the second half of July will be found in the Supplement to the Gazette of India for the 13th September. An examination of these statistics discloses considerable differences in the retail prices of food-grains, but it is not possible to assign any one cause for these variations. Marked differences in the price of rice, for instance, in adjoining districts may be due purely to local causes as when communications are temporarily interrupted by floods, or they may be due to the fact that District Officers have not reported the price of the same quality of rice. But the principal cause is probably that suggested by the Hon'ble Member, namely, the inability, of the railways to cope with all the traffic offering. This has compelled Government to control the inter-provincial movements of food-grains, and retarded the leveling process which is ordinarily promoted by free communications. The Government of India are now advised that the railway position is improving, and they are consulting Local Governments as to the possibility of relaxing control over the internal movements of food-grains.”

The Hon'ble Rao Bahadur B. N. Sarma asked :—

9. “ (a) Will Government be pleased to state to the extent of the latest figures available, the existing currency in cheques, notes and metal in the various countries having principal trade relations with India ? Metallic and paper currency.
- (b) Is there in such countries sufficient metallic currency behind the cheque and paper currency according to the accepted standards prior to the war ?
- (c) What proposals, if any, do Government contemplate for assisting India to compete industrially and commercially successfully with other countries ?”

The Hon'ble Mr. H. F. Howard replied :—

“ (a) I lay on the table a statement* giving the latest information available regarding the note circulation, and coin and bullion reserve held against the latter, in the United Kingdom, Japan, the United States of America, France and Italy. No information is available regarding cheques or the metallic currency actually in circulation.

(b) Government regret that they have no information on the point.

(c) This opens up such very wide matters that it is not practicable to deal with them by means of question and answer. I can only refer the Hon'ble Member to the Report of the Industries Commission.”

The Hon'ble Rai Sahib Seth Nathmal asked :—

10. “ (a) With reference to the policy of Imperial preference reported to have been announced by the Chancellor of the Exchequer in the House of Imperial Preference.

* *Vide* Appendix A.

QUESTIONS AND ANSWERS.

[*Rai Sahib Seth Nathmal ; Sir George Barnes ; Mr. H. F. Howard ; Sir William Vincent.*]

[23RD SEPTEMBER, 1919.]

Commons, were the Government of India previously consulted or was Indian public opinion on the subject in any other way presented before His Majesty's Government?

(b) If the answer be in the negative, do Government propose to represent to His Majesty's Government the considered public opinion in India after ascertaining the same?"

The Hon'ble Sir George Barnes replied :—

"The Government of India were consulted on the general question of fiscal policy arising out of the Resolutions of the Paris Conference held in June, 1916, though no specific reference at that time was made to Imperial preference. The Government of India did also ask Local Governments for their views on general questions of trade policy after the war, and in doing so, made a reference to the question of preferential tariffs. The replies of Local Governments indicated that a scheme of Imperial preference would, on the whole, receive the approval and support of the majority of the commercial community in India. But no discussion of the general principle has been invited. The replies were placed before the Secretary of State."

The Hon'ble Rai Sahib Seth Nathmal asked :—

Consideration of the establishment of a State Bank in India.

11. "(a) Is it not a fact that the Chamberlain Commission on Indian Finance and Currency in 1913 suggested the appointment of an expert committee to examine the question of the establishment of a State Central Bank in India?"

(b) Do Government propose to ask the Secretary of State to refer the matter to the committee now sitting in London for consideration and for working out in detail a definite scheme capable of immediate adoption?"

The Hon'ble Mr. H. F. Howard replied :—

"The answer to (a) is in the affirmative and to (b) in the negative. I may add that I propose to give a brief explanation of the position in connection with the Resolution which Mr. Sarma will shortly move."

The Hon'ble Rai Sahib Seth Nathmal asked :—

Katarpur Bakrid riot case.

12. "(a) Has the attention of Government been drawn to the editorial column of the 'Amrita Bazar Patrika' of the 18th August, 1919, relating to the Katarpur Bakrid riot case and the severity of the sentences passed on the accused, in which it is stated that 8 have been condemned to death and 135 sentenced to transportation for life, that among the 8 condemned there are 3 *mahants*, one doctor and one aged banker, and that among those transported for life there are high *pandas*, municipal commissioners and secretary, zamindars and bankers as also a Sub-Inspector of Police?"

(b) Do Government propose to take any action to reduce the sentences or to grant pardons in the above case?"

The Hon'ble Sir William Vincent replied :—

"(a) The attention of Government has been drawn to the article in question."

(b) It is understood that the sentences are being considered by the Local Government. The Government of India have not received any application from any of the convicted persons."

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[*Rai Sahib Seth Nathmal ; Sir William Vincent ; Sir Arthur Anderson.*]**The Hon'ble Rai Sahib Seth Nathmal** asked :—

13. " With reference to the reply given in this Council by the Hon'ble Sir Reginald Craddock in answer to a question asked by the Hon'ble Maharaja Sir Manindra Chandra Nandi on the 19th September 1916, will Government be pleased to state what further action the Government of India and the various Local Governments have taken for placing the ancient systems of medicine on a scientific basis and for increasing their usefulness ? "

Ayurvedic and Unani systems of medicine.

The Hon'ble Sir William Vincent replied :—

" Local Governments have been consulted in the matter and their unanimous opinion is that before anything can be done in the direction of placing the Ayurvedic and Unani systems of medicine on a scientific basis, it is essential that there should be a strong movement among indigenous practitioners to reform and organize themselves, and of such a movement there is at present little or no evidence. The Government of India consider, however, that the scientific investigation of the properties of indigenous drugs is likely to be fruitful, and may help to achieve the object which the Hon'ble Member has in view, of increasing the usefulness of the ancient Indian systems of medicine. An investigation on these lines is to be made by the Drugs Manufacture Committee which has recently been appointed. This Committee will, amongst other matters, inquire into the value of indigenous medicines and will collect information regarding the mineral and vegetable drugs not included in the British pharmacopoeia which are at present most commonly used by those who practise the Ayurvedic and Unani systems."

The Hon'ble Rai Sahib Seth Nathmal asked :—

14. " Will Government lay on the table the correspondence, if any, between the Government of India and the Central Provinces Administration relating to the constitution of a Chief Court at Nagpur ? What action do Government propose to take on the proposals made by the Central Provinces Administration ? "

Constitution of a Chief Court at Nagpur.

The Hon'ble Sir William Vincent replied :—

" A decision on the question of constituting a Chief Court at Nagpur has been postponed for the time being on financial grounds. As no final decision has yet been reached, the Government of India are not prepared at this stage to lay the papers on the table. I shall be glad to give the Hon'ble Member further information privately if he wishes."

The Hon'ble Rai Sahib Seth Nathmal asked :—

15. " Will Government be pleased to lay on the table a statement showing the superior appointments, *i.e.*, gazetted appointments, made to the various branches of the Railway service during the years 1916-17, 1917-18, and 1918-19 classified as below :—

Higher appointments on Railways.

Europeans. Eurasians. Hindus. Muhammadans. Others."

The Hon'ble Sir Arthur Anderson replied :—

" A statement* is laid on the table. The figures given therein do not include officers of the Audit and Accounts Department, State Railways, who are provided by the Indian Finance Department."

The Hon'ble Rai Sahib Seth Nathmal asked :—

16. " What is the actual expenditure on the construction of New Delhi from the date of the undertaking of the works up to 31st March 1919 ? "

Expenditure on New Delhi.

* Not included in these Proceedings.

QUESTIONS AND ANSWERS.

[*Mr. R. A. Mant ; Mr. K. V. Rangaswamy Ayyangar ; Sir William Vincent ; Mr. N. F. Paton ; Mr. H. F. Howard.*]

[23RD SEPTEMBER, 1919.]

The Hon'ble Mr. R. A. Mant replied :—

"The outlay on the New Capital at Delhi up to the end of 31st March 1919, was as follows :—

		Rs.
Actual expenditure to end of 1917-1918	...	2,63,02,409
Approximate expenditure in 1918-1919	...	41,27,000
Total	...	3,04,29,409 "

The Hon'ble Mr. K. V. Rangaswamy Ayyangar asked :—

Appointment of a non-official commission to inquire into the Calcutta disturbances of September, 1917.

17. "(a) Is it a fact that the Calcutta public appointed a non-official commission consisting of Messrs. L. P. E. Pugh, A. Tyabji, H. D. Bose, C. Vijayaraghavachariar and Agit Prasada to inquire into the Calcutta disturbances of September, 1917 ; that the said commission sat for about a month in Calcutta and after an open public inquiry, submitted a report to Government ?

(b) Will Government be pleased to lay the said report on the table and to state to what extent they propose to give effect to the recommendations of the said commission ? "

The Hon'ble Sir William Vincent replied :—

" (a) and (b) No such report has reached the Government of India."

The Hon'ble Mr. N. F. Paton asked :—

Government Loan and hoarding of Silver Rupees.

18. "(a) Is it a fact that a very small amount of new money has been invested in the recent Government Loan as compared with the very large sums subscribed and being subscribed to Joint Stock Companies ?

(b) Are Government satisfied that the terms of their recent Loan were such as to enlist the full financial support that might otherwise have been obtained ?

(c) Is it a fact that very large quantities of silver rupees are being hoarded throughout India ?

(d) Are Government prepared to consider the advisability of commencing issues of Premium Bonds concurrently with the issue of the next Loan, with a view to bringing into circulation these hoarded rupees ? "

The Hon'ble Mr. H. F. Howard replied :—

" (a) Government do not consider that the amount subscribed to their recent loan, namely, over 21 crores, compares unfavourably with the sums now being invested in companies.

(b) Government are satisfied that the terms of their loan were as liberal as the circumstances justified.

(c) Government have no exact information as to the amount of rupees now in hoards, but it is probable that the facts are as stated in the question.

(d) Suggestions for the issue of premium bonds were carefully examined two years ago. Even if the issue of such bonds were a measure free from objection *per se*, Government do not consider that it would have any material effect in bringing hoarded rupees into circulation."

QUESTIONS AND ANSWERS.

[28RD SEPTEMBER, 1919.]

[Mr. Sachchidananda Sinha ; Mr. H. F. Howard ; Sir William Vincent.]

The Hon'ble Mr. Sachchidananda Sinha asked :—

19. "(a) What truth, if any, is in the following statement of alleged facts as given by the *Statesman* :— The value of the sovereign.

"If you land in the country with a sovereign the Government will take it away from you and give you eleven rupees three annas in return. If you are in the country and happen to have a sovereign and take it to the Currency Office you will get fifteen rupees for it. On the other hand, if you take it to the bazar you will find purchasers at twenty-one rupees. But if you accept it you will be committing an offence.

(b) If the facts be as stated above, do Government propose to take any action in the matter and, if so, what action? If no action is proposed to be taken, will Government state the reasons?"

The Hon'ble Mr. H. F. Howard replied :—

"(a) The facts are substantially as stated.

(b) Government recognise the present anomalous position in which there are three prices for gold, namely, (1) the bazar price, (2) the price paid by Government for gold acquired by them on import into India, and (3) the legal tender rate at which sovereigns are received at the currency office. The anomaly should however, disappear when the present artificial restrictions on the movement of gold into India are removed, and when the ultimate rate at which gold will be legal tender in India has been determined as a result of the deliberations of the Currency Committee now sitting in London. As regards the bazar price of gold the Hon'ble Member will no doubt have noticed that the premium has recently been greatly reduced owing to the fortnightly sales of gold by Government."

The Hon'ble Mr. Sachchidananda Sinha asked :—

20. "(a) Has the attention of Government been drawn to the Resolution of the Government of Bihar and Orissa on the administration of the Jails in that province in the year 1917-18, showing that 13,777 prisoners were admitted to hospital as against 6,579 in the previous year, that the daily average number in hospital was 662 against 310, the total number of deaths rose from 237 to 581 and the death rate from 32.9 to 63.4 *per mille*? Jail administration of Bihar and Orissa.

(b) Have Government in their possession information about the Jail administration of any other province or provinces, during the same period, showing either an equally bad or even a worse state of affairs? If so, will Government be pleased to furnish the same?

(c) If the answer to (b) be in the affirmative, has the Provincial Government concerned tried to explain the situation by urging the same view as the Bihar and Orissa Government that 'it is difficult to resist the conclusion that the officers of the provincial service who have taken their places as medical officers or Superintendents of Jail work have been unable to adapt themselves to it or to control their subordinates'?"

The Hon'ble Sir William Vincent replied :—

"(a) Government have seen the Resolution of the Government of Bihar and Orissa on the administration of the jails in that Province in the year 1918.

(b) A statement* is laid on the table showing for each Province in 1917 and 1918 the ratio per mille of average strength—

(i) of admissions into hospital,

*Vide Appendix B.

QUESTIONS AND ANSWERS.

[Sir William Vincent ; Mr. Sachchidananda Sinha.]

[23RD SEPTEMBER, 1919.]

(ii) of daily average number sick, and

(iii) of deaths from all causes.

(c) Almost every Local Government has at one time or another drawn attention to the deterioration in the efficiency of the administration of the Jails Department during the last few years owing to the absence on military duty of many regular officers of the Indian Medical Service belonging to that Department.

The increase in the death-rate in most provinces is greatly deplored by the Government who are endeavouring to secure the speedy return to civil duty of as many officers of the Department as possible."

The Hon'ble Mr. Sachchidananda Sinha asked :—

Acceptance
of "dalis" by
Government
officers.

21. "(a) Has the attention of Government been drawn to a Resolution dated Ranchi, the 16th July 1919, issued by the Lieutenant-Governor of Bihar and Orissa on *dalis*, in which His Honour in Council has been pleased to declare his decision that from the 1st of September, 1919, 'no Government officer shall be permitted to accept *dalis*' ?

(b) Has the attention of the Government been drawn to the leading article on the subject in the *Searchlight* of August 17th last, in which that journal expresses its appreciation of the said action of the Lieutenant-Governor in Council ?

(c) Is the practice in regard to receiving *dalis* in other provinces the same or about the same as that which obtained in Bihar and Orissa before the promulgation of the recent Resolution ? If so, do Government propose to invite the attention of other Local Governments to the Resolution with a view to their taking similar action ? If not, will Government state their reasons therefor ?

(d) Are there any rules on the subject of presents or *dalis* issued by the Government of India ? If so, will Government lay on the table a copy thereof ?

(e) In the matter of receiving presents by Government officers, are there any rules of the Government of India which make a differentiation between Indian and non-Indian non-officials prohibiting acceptance of presents from the former but not from the latter ? If so, will Government be pleased to state the reasons for maintaining such a difference ?

(f) If any such rules of differentiation be in existence, would it not be open to Government officers in Bihar and Orissa to continue to accept presents or *dalis* from non-Indian non-officials, in spite of the Resolution promulgated by the Lieutenant-Governor in Council and would not the effect of the said Resolution to that extent be nullified ?

(g) If the answer to the part (f) be in the affirmative, do Government propose to so revise the rules as to remove the differentiation in this matter between Indian and non-Indian non-officials ? If not, why not ?"

The Hon'ble Sir William Vincent replied :—

" (a) The Government of India have not seen the Resolution referred to.

(b) The Government of India have seen the newspaper article referred to.

(c) The Government of the Punjab has, it is understood, issued an order prohibiting the acceptance of *dalis*. The Government of India have not precise information as to the practice in other Provinces. The matter is one entirely in the discretion of Local Governments : but the Government of India

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[*Sir William Vincent ; Mr. Sachchidananda Sinha.*]

are prepared to draw the attention of other Local Governments to the orders issued by the Governments of the Panjab and Bihar and Orissa.

(d) A copy of rule 2 of the Government Servants' Conduct Rules is laid on the table.

(e) Rule 2 of the Government Servants' Conduct Rules provides that a Government servant may not, without the previous sanction of the Government of India, directly or indirectly accept, either on his own behalf or on behalf of any other person, any gift, gratuity or reward, or any promise of a gift, gratuity or reward, from any native of India. The rule does not mention gifts from persons other than Indians. The rule was based on the East India Company Act, 1772 (13 Geo. 3, c. 63), which prohibited the acceptance of presents from any of the natives of Asia. The offering of presents to Government servants is not a European custom.

(f and g) As already stated, the Government of India have not seen the Resolution said to have been issued by the Government of Bihar and Orissa."

The Government Servants' Conduct Rules.

2. A Government servant may not, without the previous sanction of the Government of India, directly or indirectly accept, either on his own behalf or on behalf of any other person, any gift, gratuity or reward, or any promise of a gift, gratuity or reward from any Native of India.

The Head of a Government or Administration or a Political Officer may accept from any Native Prince or Chief a ceremonial gift which is deposited in the Government Toshakhana and for which a return present is made at the Government expense. Any Government servant may accept a complimentary present of flowers or fruit or similar articles of trifling value. The practice of giving such presents should however be discouraged.

When a gift of substantial value cannot be refused without giving offence, it should, unless the Government of India by special order otherwise direct, be delivered up to the Government."

The Hon'ble Mr. Sachchidananda Sinha asked :—

22. "(a) Have any steps been so far taken to carry out the recommendations of the Public Services Commission in the matter of increase of salaries of the members of the Provincial Civil Services—Executive and Judicial—in any province? If so, in which of them?"

Increase of salaries of members of the Provincial Civil Services.

(b) Are Government aware that the members of these two services have been very hard hit by reason of their comparatively small salaries and the recent abnormal rise in prices?

(c) If no steps have been taken so far, do Government propose to deal with the question at an early date? If so, when may the orders fixing the revised scale of salary be expected?"

The Hon'ble Sir William Vincent replied :—

"The Hon'ble Member is referred to the replies given on the 15th and 17th September to similar questions by the Hon'ble Rai Sahib Seth Nathmal and the Hon'ble Sardar Bahadur Sardar Sundar Singh Majithia."

QUESTIONS AND ANSWERS.

[Mr. Sachchidananda Sinha; Sir Arthur Anderson; Sir William Vincent; Mr. Kamini Kumar Chanda.]

[23RD SEPTEMBER, 1919.]

The Hon'ble Mr. Sachchidananda Sinha asked :—

Dismantling of the Bhagalpur-Bounsi section of the East Indian Railway.

23. "(a) Are Government aware that the dismantling of the Bhagalpur-Bounsi section of the East Indian Railway has caused very great inconvenience to the people of the Bhagalpur and Santal Perganas Districts in Bihar?

(b) Is it a fact that the people of the tracts affected have submitted a memorial to the Commissioner of the Bhagalpur Division, as stated in an editorial paragraph in the *Searchlight* of Patna in its issue of 17th August last?

(c) Is it true as further stated therein that 'the earth-work on the railway track and the masonry work of the bridges and also the station buildings . . . are all intact and only the iron materials have to be supplied and laid on'?

(d) If the answer to part (c) be in the affirmative, do Government propose to take in hand the restoration of the line as soon as possible? If not, will Government be pleased to state the reasons for delaying re-opening the line, and also the approximate time at which the public may look forward to travelling on that section of the East Indian Railway."

The Hon'ble Sir Arthur Anderson replied :—

"The replies to (a) (b) (c) and the first part of (d) are in the affirmative. I may explain for the Hon'ble Member's information with regard to the second part of (d) that it is the intention to utilise second-hand rails for relaying the line as soon as these can be obtained, but it is not possible yet to forecast a date. Government are alive to the necessity for relaying dismantled lines as soon as possible."

The Hon'ble Mr. Sachchidananda Sinha asked :—

The Punjab Inquiry Committee.

24. "(a) Has the attention of Government been drawn to the statement of the *Englishman* in its issue of September 6th, 1919, in an editorial paragraph under the heading 'By the way' in which is noticed the personnel of the Punjab Inquiry Committee, that 'Sir Chiman Lal Setalvad is the second Presidency Magistrate at Bombay'?

(b) Is it not a fact that Sir Chiman Lal Setalvad who has been appointed a member of the Committee is a non-official, an Advocate of the Bombay High Court and at present the Vice-Chancellor of the Bombay University?

(c) If the answer be in the affirmative, will Government be pleased to state whether there is any foundation for the *Englishman's* statement?"

The Hon'ble Sir William Vincent replied :—

"(a) Yes.

(b) Yes.

(c) No."

The Hon'ble Mr. Kamini Kumar Chanda asked :—

Training of Indian cadets at Sandhurst.

25. "(a) Is it a fact that Indian cadets have been sent to Sandhurst for training? (b) Have the sons of any Indian officers been selected for this course of training? (c) If not, is it in contemplation to make any such selection?"

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[Major General Sir Alfred Bingley ; Sir William Vincent ; Mr. Kamini Kumar Chanda ; Sir George Barnes.]

The Hon'ble Major General Sir Alfred Bingley replied :—

“(a) Yes. Ten Indian cadets have been admitted to Sandhurst.

(b) No.

(c) The sons of Indian officers are accepted gladly, but the standards of education or of fitness in other respects cannot be lowered on their account.”

The Hon'ble Mr. Kamini Kumar Chanda asked :—

26. “In how many cases since the Indian Press Act, 1910, was enacted have there been appeals in the different High Courts against orders of forfeiture and in how many cases, if any, has the appeal been successful ?”

Order of forfeiture under the Press Act of 1910.

The Hon'ble Sir William Vincent replied :—

“Since the introduction of the Indian Press Act, 1910, fifteen appeals have been preferred to High Courts against orders of forfeiture of security, eleven of which were rejected on their merits, while one was successful. Three are still undecided.”

The Hon'ble Mr. Kamini Kumar Chanda asked :—

27. “(a) Is it a fact that Indian labourers employed in Ceylon estates are sentenced to imprisonment for breach of labour contracts and other labour offences ?”

Indian labourers in Ceylon.

(b) Is it a fact that the Government of Ceylon has under contemplation a new labour Ordinance to secure increased recruitment in India? If so, do Government propose to ascertain the provisions of the contemplated legislation and take steps to safeguard the interests of Indian labourers ?”

The Hon'ble Sir George Barnes replied :—

“(a) In Ceylon an Ordinance of 1865 contains penal sections imposing imprisonment for labour offences. It also makes an employer liable to imprisonment for refusal to pay wages when due. The law is a general one, and applies not only to estate labourers but all servants, labourers and journeymen artificers. The Hon'ble Member will find in paragraph 43 of the Report made to the Government of India by Mr. Marjoribanks and the Hon'ble Khan Bahadur Ahmad Thanbi Marakkayar Sahib Bahadur in 1917 particulars of the extent to which the penal sections of this Ordinance were used in 1915 in the case of the estate labourers and their employers. The number of persons charged with labour offences in 1915 appears to have been only about one per cent of the total labour force. I may say that both the Madras Government and the Government of India have already addressed the Secretary of State on the subject of this Ordinance, and we have been informed by the Secretary of State that the Colonial Office have asked the Ceylon Government earnestly to consider how far it might be possible to dispense with all punishment for labour offences.

(b) With regard to the second part of the Hon'ble Member's question, we know that a Committee was appointed by the Government of Ceylon in 1918, which was to advise how increased recruitment might be secured from India. The Government of India have not yet received a draft of any proposed new labour Ordinance in Ceylon, and will certainly ask that they may have an opportunity of communicating their observations on any measure affecting Indian labourers which the Government of Ceylon may have in contemplation.”

QUESTIONS AND ANSWERS.

[*Mr. Kamini Kumar Chanda ; Major General Sir Alfred Bingley ; Maharaja Sir Manindra Chandra Nandi.*]

[23RD SEPTEMBER, 1919.]

The Hon'ble Mr. Kamini Kumar Chanda asked :—

Publication of the report of the Medical Services Committee.

28. "(a) Do Government propose to direct the publication of the report of the Medical Services Committee ?

(b) Will this Council be permitted to make suggestions before action is taken by Government on the report ?

(c) What were the terms of reference to the Committee, and the personnel of the Committee ? "

The Hon'ble Major General Sir Alfred Bingley replied :—

"As regards (a), the report of the Committee is still under consideration by the Government of India, and is therefore treated as confidential for the time being. Its publication at a later stage will, however, be considered.

As regards (b), Government will be glad to consider any suggestions which Members of this Council may have to make in regard to the subjects dealt with by the Committee.

As regards (c), the attention of the Hon'ble Member is invited to the reply given to a similar question asked by the Hon'ble Mr. Surendra Nath Banerjea on the 7th March, 1919."

The Hon'ble Mr. Kamini Kumar Chanda asked :—

Concessions to Civil Assistant Surgeons holding temporary commissions in the Indian Medical Service.

29. "(a) Is it a fact that those Civil Assistant Surgeons who hold temporary commissions in the Indian Medical Service will soon revert to civil employment ? (b) Is it proposed that after reversion they will retain the honorary rank held at the time of reversion ? (c) Do Government propose in consideration of their services and honorary rank to grant them other concessions, such as first class travelling allowance, etc. ? "

The Hon'ble Major General Sir Alfred Bingley replied :—

"(a) Owing to the present shortage of medical officers, it is unlikely that Civil Assistant Surgeons, who hold temporary commissions in the Indian Medical Service, will be permitted to resume civil employment in the near future. Certain officers, however, whose return to civil duty has been specifically asked for by their Local Governments, have already been reverted, or will be reverted shortly.

(b) The general question of permitting temporary officers in the Army to retain their rank as an honorary distinction on release from military service, is under consideration. The decision that may be arrived at on the subject will be applicable to temporary officers of the Indian Medical Service.

(c) The memorials which have been received from some temporary officers of the Indian Medical Service, praying for certain concessions, are under consideration."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Railway line between Dacca and Aricha.

30. "(a) Are Government considering the desirability of constructing a Railway line between Dacca and Aricha ?

(b) Are Government aware of the great difficulties of communication between the city of Dacca and the headquarters of the Manikganj sub-division and the western part of the district generally ?

(c) Is it a fact that repeated representations have been made to the Local Government urging the desirability of constructing this line which will facili-

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[*Maharaja Sir Manindra Chandra Nandi ;
Sir Arthur Anderson ; Mr. H. F.
Howard ; Sir William Vincent.*]

tate communication in a comparatively inaccessible part of the country, and shorten the distance between Calcutta and Dacca ? ”

The Hon'ble Sir Arthur Anderson replied :—

“ A communication on the subject has just been received from the Government of Bengal. It will be given early attention by Government. The replies to (a) and (c) are therefore substantially in the affirmative, while to (b) the reply is that Government have no special information on the subject.”

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

31. “ (a) Will Government be pleased to lay on the table a statement showing the rates and extent of allowances sanctioned, in view of the high prices, to officers serving in the various departments of the Government of India and the different Provincial Governments ? Allowances sanctioned on account of high prices.

(b) On what principles have the amounts of these allowances been fixed ? Do they bear any proportion to the increase in the rate of the prices of the necessaries of life ? If so, what is the said proportion ? ”

The Hon'ble Mr. H. F. Howard replied :—

“ (a) The attention of the Hon'ble Member is invited to the statement furnished to the Council, in reply to him, at the meeting held on the 19th March 1919. A revised statement* bringing up to date the information then given, regarding special allowances sanctioned by the Government of India, is laid on the table.

(b) The concessions sanctioned have been based on the recommendations of Heads of Imperial Departments and Local Governments, who are in the best position to estimate the degree of relief required. No general ratio has been adopted between the scale of allowances and the rise in prices.”

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

32. “ (a) Have Government received any proposals of the Government of Bengal in regard to the question of re-organisation of the Provincial Judicial Service ? Re-organisation of the Provincial Judicial Service.

(b) Are Government aware that the opinion of the Local Government as embodied in Resolution No. 6279-A., dated Calcutta, the 19th November 1918, has not met with the approval of the public in Bengal, particularly in so far as it deviates from the recommendations of the Public Services Commission ?

(c) Are Government aware that the proposals made therein are considered very unsatisfactory, especially as regards the fixing of Rs. 175 as the salary in the probationary grade, the first grade of Munsiffs (on Rs. 500) being made a selection grade, and the proposed time-scale and maximum salary for Sub-ordinate Judges ? ”

The Hon'ble Sir William Vincent replied :—

“ (a) The reply is in the affirmative.

(b) and (c) The Government of India have been informed by the Government of Bengal that numerous opinions were received in reply to their Resolution No. 6279-A., dated 19th November last, but are not aware that they were on the whole adverse to the scheme put forward in that Resolution. The proposals

*Not included in these Proceedings.

QUESTIONS AND ANSWERS.

[*Sir William Vincent ; Maharaja Sir Manindra Chandra Nandi ; Mr. R. A. Mant.*]

[23RD SEPTEMBER, 1919.]

of the Local Government have not yet been taken into consideration as the replies from the Local Governments on this section of the recommendations of the Public Services Commission are not yet complete."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Government
control of
rice.

33. "(a) Is it a fact that the Government control of rice resulted in an increase of export from Bengal during the six months succeeding the appointment of a Foodstuffs Commissioner ?

(b) What control, if any, has been exercised by the Foodstuffs Commissioner over the export of rice overseas and coastwise from Bengal, since his appointment, through what agency has such control been exercised, and with what result ?

(c) Was any maximum limit as to quantity fixed by the Foodstuffs Commissioner, beyond which export of rice would not be allowed from Bengal ? If so, when was such limit fixed, what was the limit, and on what considerations was it based ?

(d) Did Government make any attempt to ascertain the maximum capacity of Bengal for export of rice when the Foodstuffs Commissioner assumed control, and to see that it was not exceeded ?

(e) In fixing any such maximum limit did the Foodstuffs Commissioner take into consideration the actual requirements of Bengal ?

(f) Is it a fact that for a long time after the assumption of control over the movement and supply of rice, Burma rice imported into Calcutta was entirely ear-marked for other provinces and not allowed to be consumed in Bengal ?

(g) Is it a fact that while this was the case, the price of rice consumed in Bengal was steadily rising ?

(h) When was Burma rice first permitted to be imported for Bengal under license and under what circumstances ?

What quantities of such rice have since been absorbed in Bengal month by month, and with what effect on the price of rice in Bengal ?

The Hon'ble Mr. R. A. Mant replied :—

"(a) Yes.

(b) Exports to foreign countries were either prohibited or restricted to definite quantities. Exports to Madras were not interfered with until July last when they were stopped altogether. Control was exercised through the Collector of Customs. Foreign exports between January and June 1919 were 260,000 cwt. less than in the previous year, and as most countries included in the rationing scheme have drawn their full allotments for the year, exports by sea from Calcutta have now been closed down.

(c), (d) and (e) No maximum limit was fixed, but at the Delhi Conference in October 1918 it was reported by the Bengal representative that the surplus available for export from Bengal amounted to 240,000 tons. This figure of course took no account of the surplus available from the winter rice crop of 1918. In regulating exports from Bengal, the Government of India took into account not only the estimated surplus from Bengal and the minimum requirements of these countries, (2) the essential requirements of other provinces, (3) the relative prices of rice in the different provinces, and (4) the comparative ease with which Bengal could be restocked owing to the proximity of Burma.

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[Mr. R. A. Mant ; Maharaja Sir
Manindra Chandra Nandi.]

(f) No indents for Burma rice were received from Bengal till May last.

(g) and (h) The price of rice did not begin to rise rapidly in Bengal till May last, and 1,000 tons of Burma rice were at once placed at the disposal of the Director of Civil Supplies, Bengal, by the Foodstuffs Commissioner. The allotment was raised to 3,000 tons in June, but at the end of that month the Director of Civil Supplies reported that the demand for Burma rice in Bengal was very small and that there was little prospect of the allotment being absorbed. On July 8th he confirmed his previous statement and reported that the Burma rice shops opened in Calcutta had definitely proved a failure. Nevertheless, the allotment of 3,000 tons was repeated in July and August. The demand is now brisker, and arrangements have been made to land 70,000 tons of rice in Calcutta in the current month, of which less than 25,000 tons are for provinces other than Bengal. In addition, exports of rice from Burma to Chittagong have been freely allowed, 48,091 tons having been shipped to the latter port between the 1st January and the end of August. Full information regarding the price of rice in Bengal will be found in the answer to the next question."

The Hon'ble Maharaja Sir Manindra Chandra Nandi
asked :—

34. " (a) Will Government be pleased to make a statement showing, province by province, the course of the average retail prices of rice during the last eight months? Retail prices of rice.

(b) At what wholesale rates are controlled supplies of Burma rice available at the importing centres, and how do the retail prices thereof vary, in the different provinces?

(c) Is controlled Burma rice available at all District and Sub-divisional headquarters and other important markets?

(d) Have the retail prices of controlled Burma rice been fixed at every place in the different provinces from the very beginning? If so, what are the said rates?

(e) If the answer to part (d) be in the negative, will Government be pleased to state if there was anything to prevent profiteering by retail dealers in such controlled rice?

(f) Is there anything in the different provinces to prevent a retail dealer in rice from selling a license obtained from a District Officer for a supply of Burma rice, to another person? Is he under any obligation to import the entire quantity covered by the license into any particular locality in the province within a prescribed period of time? If not, to what extent can such a locality, for the requirements of which the license is granted, count upon the supply?"

The Hon'ble Mr. R. A. Mant replied :—

"(a) A statement* giving the statistics required, as far as they are available, is laid on the table.

(b) The information asked for is not available. The Foodstuffs Commissioner fixes the ex-hopper prices of the different qualities of rice in Burma, the f. o. b. charges, and, in consultation with the Shipping Controller and the Steamer Companies concerned, the rates of freight. It is left to the local authorities to fix the landing charges at the port of entry, and the rate of

*Not included in these Proceedings.

QUESTIONS AND ANSWERS.

[*Mr. R. A. Mant ; Maharaja Sir Manindra Chandra Nandi.*]

[23RD SEPTEMBER, 1919.]

importers' profit, and to fix the wholesale and retail prices at which the rice may be sold.

(c), (d), (e) and (f) Questions relating to the distribution and control of the rice imported from Burma within the limits of a province should be asked in the Legislative Council of the province concerned."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Consign-
ments
of rice.

35. "(a) Has the attention of Government been drawn to a statement made at a meeting of the Bengal Legislative Council on the 4th July, last, by the Hon'ble Mr. Irwin to the effect that 2½ lakhs maunds of rice consigned to Bihar and Orissa were accumulated at three stations on the Darjeeling Kissenganj branch line for want of adequate transport facilities, and that some of the rice was rotting and some actually growing out of the bags, while people in the neighbouring district of Darjeeling were crying out for supplies? Is the statement correct?

(b) Is the carrying capacity of railways taken into account by the Foodstuffs Commissioner or Directors of Civil Supplies in fixing the allotment of rice in any particular case?

(c) What steps have been taken for the prevention of similar occurrences in future?

(d) Is it a fact that occurrences similar to the above have happened at several other railway centres?"

The Hon'ble Mr. R. A. Mant replied :—

"(a) The congestion of the rice traffic on the Darjeeling-Himalayan Railway in April last was brought to the notice of the Foodstuffs Commissioner in the beginning of May, and the attention of the Controller of Traffic was at once drawn to the matter. Inquiry showed that the congestion was due to the heavy demands for wagons on the East Indian Railway. This Railway had to restrict the Bengal and North-Western Railway at the junctions, which Railway in its turn had to restrict the Eastern Bengal Railway. These restrictions reacted on the Darjeeling-Himalayan Railway. As soon as it was possible to do so, the East Indian Railway increased the number of wagons at the transshipment points and the congestion was cleared. The Government of India have received no complaints regarding the alleged deterioration of the rice.

(b) The carrying capacity of railways is taken into account as far as possible; but the Hon'ble Member will see from the answer to the first part of his question, that it is not easy to forecast the position on a given length of railway at a given time.

(c) The Foodstuffs Commissioner works in close touch on the one hand with Provincial Directors of Civil Supplies, and, on the other, with the Railway Board.

(d) The Government of India have received no complaints of similar occurrences elsewhere."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Relief
afforded
on account
of high
prices.

36. "(a) What various steps have been taken in each province for generally affording relief against the high prices of foodgrains in areas outside those in respect of which famine has been declared?

(b) Have Government any information as to what steps have been taken in the various Native States towards the same end?"

QUESTIONS AND ANSWERS.

[23RD SEPTEMBER, 1919.]

[Mr. R. A. Mant ; Maharaja Sir Manindra Chandra Nandi.]

The Hon'ble Mr. R. A. Mant replied :—

"(a) The question of the control of prices within the different provinces is one for the Local Governments concerned, and the Government of India have received no detailed reports as to the measures adopted. They understand, however, that in most provinces Burma rice has been used for the purpose of controlling prices. Arrangements have been made at the ports for rigorous control of the rice imported from Burma, and cheap grain shops have been opened in most provinces by district boards, municipal councils and private agencies at which Burma rice is retailed either at cost price or at very small profit. In Bombay city over 120 of these cheap grain shops have been opened, and the Government of India understand that in the Presidency as a whole more than 400 similar shops have been established. In some provinces action has been taken under the Articles of Commerce Ordinance to requisition stocks of foodgrains unreasonably withheld from the market, and in the North-West Frontier Province, where of course conditions are special, maximum prices of foodstuffs have been fixed under the Defence of India Rules.

(b) Similar action has been taken in several Indian States and many of the Durbars have also prohibited the export of foodgrains from their States."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

37. "(a) What action has been taken in regard to the Grand Trunk Canal Scheme of Bengal ?

Grand Trunk Canal scheme and improvement of silted up rivers of Bengal.

(b) How much is the said scheme estimated to cost, and what particular locality will the proposed canal serve as a means of communication ?

(c) Is there any comprehensive scheme before Government for the improvement of the old rivers of Bengal which are silting up ? If so, how much is it estimated to cost and when is it likely to be taken up ?

(d) How far, if at all, is the Grand Trunk Canal project likely on financial grounds to retard the carrying out of any scheme for improving the existing waterways of Bengal ? "

The Hon'ble Mr. R. A. Mant replied :—

"(a) A project for the construction of the Grand Trunk Canal in Bengal has recently been received from the Local Government, and is at present under the consideration of the Government of India.

(b) The scheme, as recommended for sanction by the Government of Bengal, is estimated to cost Rs. 2,88,30,500 and is designed to provide direct routes, suitable for steamer navigation, between Calcutta and—

(i) the Ganges, *via* the Madhumati and Gorai rivers ;

(ii) Assam, Cachar and Sylhet *via* the Madaripur Bil Canal ;

(iii) Barisal.

(c) No comprehensive scheme for the improvement of the rivers of Bengal has been submitted to the Government of India.

(d) The construction of the Grand Trunk Canal is unlikely to retard, on financial grounds, the prosecutions of any schemes for the improvement of existing waterways which the Local Government may desire to take up."

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Rao Bahadur B. N. Sarma.*]

[23RD SEPTEMBER, 1919.]

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

11-36 A.M.

The Hon'ble Rao Bahadur B. N. Sarma :—"Sir, the Resolution I beg to move runs as follows :—

'This Council recommends to the Governor General in Council that a State Bank on the lines suggested by Professor Keynes in his annexure to the report on the Indian currency be established in India at a very early date.'

Sir, I sincerely wish that a Resolution of such an important character relating to banking had been moved by a member connected with commerce and banking. I feel the great disadvantage of a layman like myself venturing to bring before this Council a Resolution of this description. But my justification for doing so is the enormous importance of the subject coupled with the recent movements to place the banking facilities of India on a proper basis. There is an impression, which I believe to be accurate, that there is a movement on foot to amalgamate the three Presidency Banks and place additional facilities at their disposal. It is, under those circumstances, Sir, that I venture to bring forward this Resolution. I feel fortified in the soundness of the propositions that I am asking the Council to accept by the fact that I have the examples of almost every European country behind me. We have State Banks in France, Italy, Germany, Austria-Hungary, Russia, Netherlands, Belgium, not to speak of Japan, and recently legislation was undertaken in the United States of America to constitute a Central Federal Board and regional banks for the purpose of decentralising the functions and placing on a sound footing the banking facilities of America. I may go further and say that the Government of India, so far back as 1901, were distinctly of opinion that a Central Bank should be established in India for the purpose of relieving them of part of their responsibilities and placing India on a sound banking footing. These are the exact words of the Government of India Resolution :—'We desire at the same time to record our deliberate opinion that it would be distinctly advisable, if practicable, to establish a Central Bank in India so as to relieve Government of its present heavy responsibilities and to secure the advantages arising from the control of the banking of the country by a solid and powerful central institution.'

"Professor Keynes in collaboration with his colleagues went into the question at the request of the Chamberlain Commission and has formulated a scheme going into considerable detail as to the lines on which a Central Bank can and ought to be established in India. I have therefore the authority of a very eminent Professor of Economics and businessmen behind me in the proposals that I put before the Council.

"It is unnecessary for me to state that the principle I ask the Council to accept is the necessity for the establishment of a Central Bank; then that that Central Bank should be largely, if not wholly, controlled with regard to its general policy by the State. As to whether it should take up the question of the paper currency, gold standard and other subjects along with banking facilities are matters upon which no one need be wedded to any particular doctrine. Recent events have taught us very important lessons and they would necessarily be taken into consideration in assigning functions to this State Bank. But I am asking the Council to accept the principles underlying the recommendations of Professor Keynes, and, I think, it will not be very difficult to convince the Council of the soundness of this proposition. Sir, the events during the last few stirring years have convinced us that behind the banking system of every country lies the credit of the whole country, the credit of the Government, and it was shown that it would be absolutely impossible, in times of crisis, for the banks to undertake the work which they were doing in peace times, without State assistance. It was

RESOLUTION re ESTABLISHMENT OF A STATE BANK IN INDIA.

[23RD SEPTEMBER, 1919.]

[Rao Bahadur B. N. Sarma.]

also shown that, owing to the enormous growth of Government securities, Government loans and credit facilities, in other countries, something of the same sort should be attempted in India in order to place India on the right track, and enable her to compete and hold her own successfully with the other countries of the world. All well-organised countries have learnt to make one pound go as far as five for all practical purposes. We are yet in a primitive state and we have to improve our banking system, if even the existing wealth of the country is to be utilised as it ought properly to be utilised. It is unnecessary to expatiate at great length on this point, but a few figures would convince Hon'ble Members of the enormous progress made in foreign countries during recent years and how woefully behind we are at the present moment. Hon'ble Members will find that there were in the United States 3,294 banks in 1890, whereas the number had gone up to 7,560 in 1915. And the capital and surplus was in dollars 316 millions in 1890 and have gone up to 794 millions in 1915, that is by more than 400 millions. We find also that in Japan there has been enormous progress. There were in 1916 the Bank of Japan with 11 branches, and 51 special banks with 77 branches, 1,407 ordinary banks and 2,163 branches, Savings Banks with 184 branches, altogether about 2,143 principal and 3,731 branches. Whereas in 1915-16, under banking and loan, the aggregate number was shown as 480 for the whole of India with a population of 315 millions, and the total capital was only 834 lakhs. Turning to the principal banks, Hon'ble Members will find that the capital of the Presidency Banks and the larger Indian joint stock banks is only 713 lakhs of rupees, and the reserves are about 524 lakhs. Together with the reserves, the capital will be about £8,000,000 or 12 crores of rupees. There are only 71 principal banks and 371 branches. The very large number of banks in a smaller area with a smaller population as compared with the facilities in India with its large area and population should convince clearly Hon'ble Members that we have to make very great strides in keeping up the pace. But that is not the only point. We find that the Government have been practically doing a large part of banking work. The Finance Minister and his establishment have been very hard worked, especially during the last five years, and the Currency Department must have given them no end of trouble. We have the Paper Currency and other policy managed by the State which does what banking experts do in other countries, in collaboration with the Government officials. • We have the same state of things in the India Office. We have at the present moment the business of managing about £30 millions of securities in the Gold Standard Reserve alone and 54 millions in the Paper Currency. Those securities comprise stock of various kinds and treasury bills, and one important question would be how to manage them so that we may suffer no loss either in capital or interest; and we have suffered loss already by reason of depreciation in the value of the stocks we hold. Hon'ble Members will also notice that at present it would be difficult to convert the stocks and bills into gold even if it were necessary to do so, and it may not be necessary to convert the whole of the gold standard reserve having regard to the fact that our exports are in excess of our imports, and the present exchange and currency position has also been strengthened. The management of the gold currency reserve, the other stocks and bills we hold is one which would fall legitimately within the operations of a bank, while it is being at present managed by the Government. And our paper currency also has been enormously increased. From 60 crores it has gone up to 180 crores, and it is also necessary that there should be some expert body which can control this enormous growth and work it on sound lines. I think between 16 and 20 crores of rupees of notes have been issued, during the last four months, since we last met in Delhi. It is thus clear that there is necessity for a very highly trained expert body, being created at an early date for the purpose of helping the Government, with a clearly avowed responsibility. The advantages which are

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Rao Bahadur B. N. Sarma.*]

[23RD SEPTEMBER, 1919.]

generally claimed for a State Bank I need hardly dilate upon at very great length. They are chiefly the following :—

- (1) the facilitating an increase of branches ;
- (2) the partial release of Government balances through their being deposited in a central institution ;
- (3) moderation of the wide fluctuation of the bank rate and its normal high level ;
- (4) the introduction of rediscount facilities ;
- (5) the obviating the existence of the independent treasury system taking large sums off the money market ;
- (6) obviating the objection to holding large sums at loan for short periods in the London money market ;
- (7) the pushing on of the further circulation of notes, by increasing the facilities for convertibility ;
- (8) the removal of the responsibility of Government officials for a variety of financial and semi-financial business ;
- (9) the command of financial and business experts instead of civilian officers, however well trained they may be in the latter portion of their lives ;
- (10) the constitution of a buffer between the Secretary of State and vexatious criticism ;
- (11) the introduction of increased stability into the Indian banking system ;
- (12) the development on sound lines of native joint stock banks ;
- (13) the possibilities of its leading to the development of co-operative banking ; and
- (14) the control of the bank rate.

That is one of the important questions which has been considered in great detail by Professor Keynes, and there are many more of the like nature.

“ Now, Sir, one of the questions which has been agitating the minds of the commercial community especially was as to how to divert the treasury balances if the money was not wanted by the Government, into the general banking system of the country for the purpose of helping trade, and the Chamberlain Commission felt that the existing state of things was absolutely unjustifiable and required strong justification before it could be continued. This is what the Commissioners say at page 34 :—

‘ Close on £9,000,000 was thus locked up from the market in the Reserve Treasuries as compared with about £3,500,000 a year before, while only £3,752,000 out of the total of £19,268,200 was placed with the banks. Only a comparatively small portion of the £2,198,300 deposited at branches of the banks can be regarded as readily available in the money market, but as this money would be for the most part necessarily located in much the same places under any system, it may be counted as being at any rate more available for trade than if it had been in district treasuries. The causes which led to this state of things on the 31st March 1913 were mainly a sudden slackening off in the demand for Council drafts, unaccompanied by any noticeable slackening of internal trade in India, and a record surplus of revenue over expenditure. It appears to us that a system which leads in certain circumstances to the locking up of nearly £9,000,000 during the busiest period of the commercial year, and £5,400,000, more than under the same system was summarily locked up in the previous year, requires very strong justification.’

Therefore, one of the main objects which we must have in view is how to enable this public money to help trade, when money is wanted. Well, it has

RESOLUTION re ESTABLISHMENT OF A STATE BANK IN INDIA.

[23RD SEPTEMBER, 1919.]

[Rao Bahadur B. N. Sarma.]

been suggested in several quarters that we might simply amalgamate the Presidency Banks, exercise some sort of superficial control over them and place our treasury balances, or such money as can be spared at their disposal, in order to help the objects we have in view. Then Professor Keynes says at page 61 :—

'It seems clear that Government cannot entrust any of its existing duties to private hands. It has also become plain that, whether a State Bank is established or not, Government, so far from relinquishing old duties, must bend itself to new ones.'

Then on another page he says that the Government must, if they place their treasury balances at the disposal of any amalgamated Central Bank, control largely the conduct of that Bank, and the question is, whether the control should be of the nature suggested here, namely, governing completely the larger policy with an eye to general public interests without sacrificing commercial interests, or whether we ought to leave these private bankers to do what they can with Government assistance, slightly encouraged or slightly advised by Government officials. I think Professor Keynes says clearly that this enormous amount cannot and ought not to be entrusted to these banks, amalgamated or not, and that some rigorous system ought to be enforced with regard to control. And the other reasons are given in continuation of what I have read out to you. They are :—

'The functions of the note issue, it is generally agreed, must be extended, and an element of discretion must be introduced where there was previously none. As in the case of the note issue, so in the case of the cash balances, there must be less rigidity of rule and more discretion. Now, with a State Bank, all this would be easy, and there are plenty of precedents to look to ; but as soon as an attempt is made to work out precisely by what sort of procedure these objects are to be attained in the absence of a State Bank, it becomes apparent that it is not altogether through chance or obtuseness that such desirable changes have not been made long ago. The existing system has been deeply conditioned by the absence of a State Bank. The history of the management of the cash balances, for example, bears witness to this. At no time has anyone supposed the existing system to be perfectly satisfactory. It has established itself because it is the only system which frees the officials from the exercise of a discretion for which they do not feel themselves competent and from which they therefore shrink. The evidence is that actual practice has always tended to be more rigid than the actual letter of the rule laid down by the Secretary of State ; and the choice lies between a good deal of responsibility *without* thoroughly satisfactory machinery for the discharge of it, and a little more responsibility *with* such a machinery. The balance of advantage is with the second alternative.'

Now to take up the question as to whether we can place all our treasury balances with these Presidency Banks. One objection I have, Sir, is that, even at present, I feel that very much more money is being kept with the Presidency Banks—subject to correction—than is necessary, without interest. Hon'ble Members will find that the State is under an obligation of keeping without interest only about 75 lakhs of rupees roughly with these Presidency Banks. But the figures that were furnished to the Chamberlain Commission, quoted at page 723, show that roughly between 3 and 4 crores, running into 5 crores in 1913, were kept with the Presidency Banks. Now the Hon'ble Mr. Howard has kindly placed me in possession of some of the later figures. I find, turning to the published figures, that the cash balances in the Public Treasuries and in the Presidency Banks ranged between 14 and 22 crores in 1916-17 and 18 and 32 in 1913-14. In the slack months of this year May, June, July and August, we find that the totals were roughly 16 crores. Of this, with the Presidency Banks on the 31st of May 1919 we find 834 lakhs, on the 30th June 1919, 783 lakhs, on the 31st July 1919, 776 lakhs, and on the 31st of August 1919, 975 lakhs. I have been told that the amounts have been reduced latterly, that they would work out to about 600 crores, 235 lakhs in the Reserve Presidency Head Offices and 365 in branch offices. Hon'ble Members will therefore see that enormous sums of money have been kept with the Presidency Banks free of interest for several years past. Now you will

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Rao Bahadur B. N. Sarma.*]

[23RD SEPTEMBER, 1919.]

find that, with the increased growth of currency, with increased taxation, with increased commerce, that the treasury balances must necessarily be larger and, therefore, the amounts placed at the Presidency Banks would also be larger, and, I think, if treasury balances were also to be placed at their disposal, the increased amounts would roughly run to not less than 7 or 8 crores of rupees. Now, would it be just to the other banks of the country thus to back up the Presidency Banks? I do not want to introduce any racial questions into this,—but I must invite attention to the injustice which would be done simply because it is a question of all-India trade, all-India commerce and all-India interests. It is also necessary to bear in mind the sentiments of the people. Hon'ble Members will find that, as against 735 lakhs of capital and reserve in the Presidency Banks, we have the other larger banks with a capital of about 524 lakhs, that is about 72 per cent. Of course, many of them are very small and it may not be safe to keep large balances with them, but still the question remains as to whether they would not suffer by the constitution of a Central Bank not subject to real State control. Professor Keynes made it clear that, in order to encourage Indian Joint Stock Banks and Native State Banks, a Central Bank with State control is absolutely necessary. Then, turning to the question of increasing the number of branches I submit, Sir, that the figures which I have quoted from Japan, the United States of America, not to speak of those of other European States, would show clearly that we must increase rapidly and enormously the number of branch banks. Fifteen hundred small towns have taluq treasuries, and there are 270 district treasuries; in all of them branches may and should be opened. The past history of the Presidency Banks shows that they established only 62 branches during so many years. One reason is, that the banks look legitimately to their own profits; the percentage of profits is 14, 16 and 12 and so on; whereas under the State law of Germany you find a gradation of profits allowed and the dividends run from 6 or 9 per cent. You find the same thing in America also, that these banks have paid only between 3 and 4 per cent dividends. Therefore, there is no use in disguising from our eyes the fact that the Presidency Banks or an amalgamation thereof is not likely, even if they were compelled to do so, to push forward as vigorously the increase in branches as a State bank would do,

“Then, Sir, there is the question of safeguarding Indian interests. A large number of shareholders as shown by Mr. Vidyasaagar Pandya are Europeans and rightly so, because they have invested their money and at any rate they are keener bankers than other people. But, at the same time, the largest influence wielded in any Central Bank under the circumstances would be European and rightly so too. If the State control be of a very very subsidiary or superficial character, it is believed that there would be absolutely no chance of Indian banking institutions getting their proper share. I wish to submit that this would lead to very bitter resentment; and any policy which does not equally help the Indian joint stock banks should not be embarked upon.

“There is another point also, Sir, and that is this; we are going to have a semi-federal system of Government in India; the Provincial Governments would wish to have a very much larger voice than they have at present over the banks within their jurisdiction, and the Legislative Councils would desire to exercise very strong control and wield real influence to promote the development of the banking system; and I would, therefore, submit that the federal state system should be followed; we would have then a board corresponding to the United States federal boards, somewhat under the control of the Government, *i.e.*, people, and adequate safeguards have been provided by Professor Keynes, in his detailed scheme to see that the shareholders exercise true control in real banking and to prevent banking or commercial interests being sacrificed unduly. The scheme provides for decentralisation, for absolute control by the shareholders in the domestic concerns of the bankers in the province, while at

RESOLUTION *re* : ESTABLISHMENT OF A STATE BANK IN INDIA.

[23RD]SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma ; the Vice-President ; Maharaja Sir Manindra Chandra Nandi.*]

the same time the general policy of the country, the general good of the country would not be allowed to be sacrificed for the sake of private interests, however legitimate they may be, by the State control which is provided there. There would be necessity for various modifications therein, but I submit that in essence it is a sound scheme and provides both State and shareholders' control

The Vice-President :—"I must remind the Hon'ble Member that he is coming to the end of his time."

The Hon'ble Rao Bahadur B. N. Sarma :—"Then, Sir, there is the important question of purchasing gold and silver. The independent treasury system in India has created a very large number of treasury experts. Similarly, there would be every likelihood that a State bank would encourage the growth of a large number of banking experts, European and Indian. After all we are human; I suppose we would like to help our own friends and kith and kin, and therefore it legitimately follows that the Indian interests—however lofty and high-minded people particular individuals may be sometimes—would not receive the same encouragement under an amalgamated private bank as under a system of State management and control. I, therefore, submit to the consideration of the Council the immediate necessity for asking the Government to establish a central bank, inasmuch as there are so many interests which have to be conserved, encouraged, solidified, without mutual friction or risk of friction. I submit that the control of the State ought to be much larger than may be possible in the case of a private central bank, and that can be provided for without sacrificing any interests whatever, in the scheme outlined by Professor Keynes. I, therefore, submit that an analogous scheme, modified by the lessons which have been taught by the war, should be adopted immediately by the State, because, I think, there is no problem of more vital importance than this question of improving the banking facilities in India. The Industrial Commission has asked for it. Hon'ble Members will also see that whereas Government loans were only a few crores of rupees prior to 1916, when the Government vigorously undertook to advertise and to show the people the necessity for coming to their assistance, about 40 or 50 crores were forthcoming in a year. Therefore, we have abundant resources; our agricultural resources are not poorer than those of any other country if properly developed. We may not have as much gold and silver as in other countries in a fluid form which can materially help the progress of the industries and commerce of the country; but still if the Government should undertake the development of banking as the people have got very very great confidence in what the Government undertakes, deposits would be readily forthcoming, and from the hoards if there be any. Much has been done for co-operative credit, much has been done for agriculture; but I think what has been done is a very very tiny fraction of what has to be done; and unless we have a broad liberal policy of expansion—and we cannot have a broad policy unless there are experts behind the Government to advise and initiate the broad policy and to encourage and to put it into effect—I do not think there is a bright future before us. We cannot after all expect a private banker, however eminent and high-souled he may be, to sacrifice his own profit for the sake of the general good. Past history shows that a *laissez faire* policy will not do if we are to achieve any real or rapid progress. I, therefore, submit that this Resolution deserves to be accepted by the Council."

The Hon'ble Maharaja Sir Manindra Chandra Nandi :—12-0 P.M.
"I rise to accord my cordial support to this Resolution. The question of the establishment of a State Bank in India is an old one. It seems the Government has not yet been able to make up its mind in this question, but in view of its importance, I would strongly urge an early settlement. At

RESOLUTION *re* : ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Maharaja Sir Manindra Chandra Nandi.*]

[23RD SEPTEMBER, 1919.]

the present time the Government performs many functions which belong, strictly speaking, to a State Bank. It reserves to itself the monopoly of Note Issue ; it holds large sums of money in its treasuries ; it manages the cash balances and portions of the Reserves ; it regulates the foreign exchanges. All these functions are performed by one of the Departments of the Secretariat. They are, on the whole, performed well, but a State Bank is likely to provide a more efficient and expert machinery which will be in greater touch with the commercial world and be more cognisant of the financial needs of the people. It will also enable the Government to take over in the interest of the community other banking functions. The present arrangement is defective in many respects. Vast sums of money now lie idle in coffers of the Government during the months of the year in which the stringency of the money market is the greatest. This is hardly satisfactory. The proper utilisation of the various reserves—which, I hope, will henceforward be held in India—is also an important matter. But the most important question is the financing of the industrial and commercial concerns of the country. In an able Note prepared by Mr. J. M. Keynes, in collaboration with Sir Ernest Cable, for the use of the Chamberlain Commission, Mr. Keynes pointed out the many advantages of a State Bank to the Government and to the business-world.

“ I do not wish to dilate on these advantages, but I may add that the advantages to the people are likely to be quite as great. In the words of Mr. M. deP. Webb ‘ a State Bank of this character, undertaking the whole of India’s monetary business, internal and external, whilst adding greatly to the Government’s power and prestige, would at the same time greatly encourage the banking habit amongst India’s timid millions and would thus be a source of strength to the great masses of the people as no other institution could.’ Mr. Keynes has also replied to the adverse criticisms of the proposal, and these replies appear to me to be quite convincing.

“ In this connection I may be permitted to observe that an amalgamation of the three Presidency Banks will not solve the problem and would be open to very serious objection. Referring to Mr. Dickson’s scheme of 1867 for amalgamating the three Presidency Banks, Lord Mayo wrote to the Secretary of State : ‘ I submit that it is not for the interest of a State that a great institution of this kind should grow up for all India, the interest of which may in time be opposed to those of the public, and whose influence at any rate may overshadow that of Government itself.’ These words are as true to-day as they were in 1867.

“ Indian opinion is practically unanimous in its demand for a State Bank. Our worthy Colleague, Sir Dinshaw Wacha, in reviewing the evidence recorded by the Indian Currency Commission, expressed himself in favour of the proposal. Mr. J. M. Keynes, a member of the Chamberlain Commission and a great authority on questions of Indian Finance, is a strong advocate of a State Bank. Sir Lionel Abrahams, after carefully weighing the advantages and disadvantages of the proposal, gives his opinion in its favour. Among European merchants, Sir Ernest Cable and Mr. Webb welcome the proposal. But opposition comes from the Presidency and Exchange Banks which fear a strong possible rival. But the ‘ vested interests ’ question is not really so serious as it seems. It is, I believe, quite feasible to safeguard all legitimate interests.

“ In 1901, the Government said, ‘ it would be distinctly advisable, if practicable, to establish a Central Bank in India, so as to relieve Government of its present heavy responsibilities and to secure the advantages arising from the control of the Banking system of a country by a solid and powerful Central Institution.’

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[23RD SEPTEMBER, 1919.]

[*Maharaja Sir Manindra Chandra Nandi; Pandit Madan Mohan Malaviya.*]

"I trust the Government sticks to this view, and I hope it will establish a Central State Bank at an early date. At present India and the United States are the only important countries of the world which have no State Banks. In the United States efforts are being made to start a State Bank, and, I believe, it will not be for long that India will lag behind."

The Hon'ble Pandit Madan Mohan Malaviya :— "Sir, I ^{12-15 P.M.} rise to give my hearty support to the proposal contained in the Hon'ble Mr. Sarma's Resolution. It may seem a rather large order recommending to the Governor General in Council that a State bank on the lines suggested by Professor Keynes should be established at an early date. It may be said that this is a case in which the appointment of a Committee further to consider the question and to report would be the natural and more reasonable course. I think, having in view the past history of this question, the framing of the Resolution should not be too severely scrutinised. I hope the Government will see their way to declare their intention of taking early steps to have this matter investigated. There has been a large body of expert opinion which holds that there should be a State bank established in India. The history of banking in this country is somewhat unsatisfactory. I do not wish to take up much time over this question, but, I think, I should draw attention to what I said on the subject before the Industrial Commission. I there urged 'that the question of a Central State Bank having branches in every province should be taken up at an early date. The Presidency Banks have rendered inestimable service to Europeans in carrying on trade and commerce with India. They cannot under their existing charter help industries.'

"The position of the Presidency Banks has been an obstacle in the way of the creation of a State Bank in this country, and it is very necessary briefly to refer to the work of the Presidency Banks. When the Government withdrew the right of issuing notes from the Presidency Banks in 1860 they agreed to help them by allowing them the use of public balances. The Hon'ble Mr. Sarma has pointed out how huge these balances have recently been, and I think it is time for the Government to consider the situation. In a Finance Department memorandum of the 20th December 1860 to the Bank of Bengal [quoted by Sir (then Mr.) James Brunyate at page 81 of his valuable work 'An Account of the Presidency Banks'] the extent to which the Government admitted the obligation to compensate the Banks for the withdrawal of the right of issue was indicated as below :—

'The Bank of Bengal cannot be admitted to have any claim as of right to compensation, but they are certainly in a position deserving of much consideration and one in which they may equitably look for all reasonable support on the part of Government.'

"Government agreed to compensate them by giving them their cash balances without interest to the extent of 70 lakhs to the Bank of Bengal and 50 lakhs to the Banks of Bombay and Madras. In practice, as Mr. Sarma said, these balances have been very heavy. Sir James Brunyate points out in his book at page 99 :—

'Long before 1876 the Secretary of State had come to the conclusion that the Banks had been sufficiently compensated for the loss of their note issue.'

"It is high time therefore for the Government to consider the question whether these balances will be placed with Presidency Banks. If a decision is arrived at that the Government is not bound and that it is not fair in the interests of the public that these heavy balances should continue to be placed with Presidency Banks, the question arises how is the Government to deal with these balances? The need for a State Bank is obvious. I submit, therefore, that this proposal should be taken up earnestly at an

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Pandit Madan Mohan Malaviya.*]

[23RD SEPTEMBER, 1919.]

early date and disposed of in an equitable and practical way. The proposal for a single Bank of India to take the place filled by the three Presidency Banks was before the Government of India between 1860 and 1876, but no decision was arrived at on the subject. The question was taken up by the Royal Commission on Indian Finance and Currency. They expressed no final opinion upon it, but recommended that it should be taken up at an early date. They said in paragraph 222 of the Report :—

‘We regard the question, whatever decision may ultimately be arrived at upon it, as one of great importance to India which deserves the careful and early consideration of the Secretary of State and the Government of India. We think therefore that they would do well to hold an inquiry into it without delay and to appoint for this purpose a small expert body representative both of official and non-official experience, with directions to study the whole question in India in consultation with the persons and bodies primarily interested, such, as the Presidency Banks, and either to pronounce definitely against the desirability of the establishment of a State or Central Bank in India at the present time, or to submit to the authorities a concrete scheme for the establishment of such a bank fully worked out in all its details and capable of immediate application.’

“That was in 1914; then the war came and the question was postponed and the Hon’ble Mr. Sarma has rendered a service to the Government and to the public by bringing forward this Resolution so that the question may be prominently brought to the front.

“Now, Sir, the next point which is a matter of importance is, what is the Government going to do? I do not know what the Hon’ble Mr. Howard will tell us; I hope he will tell us that the Government have decided to take up the question without any further delay and have the matter properly considered so that the Government may be in a position to decide upon the course to be followed. Personally speaking, I submit that there cannot be two opinions now about the need and the utility of a Central State Bank. When we look round and see the tremendous changes which have taken place in other countries, and when we compare the system of banking in India with the systems prevailing in the United Kingdom, in the United States of America, in Germany and in Japan, one cannot help feeling a great regret that this question of Banking in India should not have been tackled in a better way during all these decades. Japan was in a very backward condition in 1872. In the year of Restoration it had a very poor system of banking. The Japanese Government on the advice of Prince Ito invited a gentleman from London to organise its finance department. He introduced a sound system of banking, and the Financial Annual of Japan now shows what enormous progress they have made. It is a great pleasure and satisfaction to see how they have extended their system of banking and how they have helped their trade and commerce with their banks. I need not refer to the system of banking in Germany, because it is well known that her recent huge commercial prosperity was built up by her Banks. The United States of America have very extensive State Banks, and they have all been put on a sound footing, I venture to say by the federal system they have adopted which is a guarantee against disasters to individual banks. Now, the Government of India have it, under their contemplation that there should be a great industrial development in this country. Industrial development needs banking facilities. It is impossible to think of any great development of our trade and industries unless there is a sound system of banking. That system has not only to be sound, but it has to be extensive too. The Hon’ble Mr. Sarma has pointed out how great is the need of having branches of Banks in various parts of the country. This need cannot be met unless the Government tackles the problem in a serious way, unless the Government examines the whole system of banking which is necessary for India. It is not only in one department, but in various departments, that the need for banking facilities is felt. The European community is receiving a certain amount

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[23RD SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ;
Mr. H. F. Howard.*]

of support. I do not know whether they have any complaint that more facilities are needed, but most certainly the Indian community does need many more financial facilities for the purposes of trade and commerce and of industries. Apart from this, I submit that in a country like India with all the enormous sums which are available to the Government, it is a pity that there should not be one Central State Bank which should serve as a reservoir in which all the surplus revenue of the country should be gathered and which should be, so to say, the fountain to feed the different provinces and activities in different directions in different parts of the country. The building up of the Government of India, has been a great achievement to our British friends, but it is some time now that they supplemented the administrative side of it by developing and building up to its full extent the financial and banking side also. We have to promote very great development in the direction of Railways, in the direction of industries ; we have to promote irrigation ; we have to promote co-operative credit societies and co-operative banks, and we have to promote small industries, and every one of these and many more will mean an organized, sound and extensive system of banking in the country. To my mind, the keystone of the whole system of banking would be a well-organized State Bank, and I therefore strongly commend the consideration of this question to the Government. I hope we shall not have to wait long to hear that the Government have decided to appoint a Committee of experts to advise on the question and to invite public opinion with the determination to decide this question before long. I hope that India will not have to wait long for such a time. I do not want to touch upon the other questions connected with the proposals now before the Council, questions as to how our currency and silver and other cognate subjects should be affected by the decision of Government upon this question. I am content to draw attention of the Government to the great need of having this question properly and fully considered. I hope the Government will do the needful and earn the gratitude of the people."

The Hon'ble Mr. H. F. Howard :—" Sir, I can say at once that Government are wholly in accord with a great many of the remarks which have fallen from previous speakers. We fully recognise the importance of a very large increase in banking facilities in this country and the necessity for their very much wider distribution. This is essential, as the Hon'ble Mr. Sarma and other speakers have pointed out, if the economic development of India is not to be impeded, and if the people are to be weaned from their habits of hoarding coin and bullion. This subject has been ventilated in this Council and, as the Hon'ble Pandit has also stated, has also been placed in the forefront of the recommendations of the Industries Committee. The necessity for it has further, I may say, been impressed upon us during the various currency difficulties that we have had in the last few years, as has also the necessity of greater co-operation between us and the banks. 12-29 P.M."

"I do not therefore think that I need labour this aspect of the case any further. It is sufficient to say that we are at one as to the necessity for increase in the development of banking, and the only possible point of difference between us is the best method of securing our object. I think most Hon'ble Members will have seen from the announcements that were made in a tentative way at the last half-yearly meetings of the three Presidency Banks, that the question of their amalgamation is under consideration. I can, I think, without divulging any confidence, state briefly the history of what has taken place. During the war we all of us felt that our banking arrangements left a great deal to be desired, and also that much greater co-operation is desirable between the three Presidency Banks themselves. The proposal suggests the fable of the old woman with the bundle of sticks. When the sticks were tied together they held, whereas the single stick might break. Well, we were unable, any of us, to take

RESOLUTION *re* : ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Mr. H. F. Howard ; Pandit Madan Mohan Malaviya ; the Vice-President.*]

[23RD SEPTEMBER, 1919.]

the question very much further at the time I do not think a great many people realise how exiguous our own staff was ; Government had its hands absolutely full of current problems which were engaging their attention, and we had not time to devote ourselves for many things which, though *per se* very desirable and almost essential, could not be attended to at the time. The banks again were all very short-handed and they have been themselves very hard put to it to carry on. We had, for example, a great many complaints at the delay in the issue of our loan scrip ; but I think, in the circumstances, it is marvellous that the banks were able to do what they did, and Government owe all concerned a very great debt for the assistance they have given to us. Practically as soon as the Armistice was declared, the three Presidency Banks came together, and when Sir James Meston went to Bombay he was confidentially approached by them as to the way in which the Government would look on the question of their amalgamation. Well, we were only too glad to receive any advance of this kind on the Banks' part. Some informal discussions with the Banks followed, and they eventually put before us a scheme which we have passed on with our observations to the Secretary of State.

“ It comes to this then, that we have before us a definite scheme for making a start in the direction of an improvement in banking facilities . . .

The Hon'ble Pandit Madan Mohan Malaviya :—“ May I ask the Hon'ble Member to give us some idea of the scheme that he has in hand ?”

The Vice-President :—“ If the Hon'ble Member wishes to make a personal explanation he may rise ; he has no right to rise otherwise.”

The Hon'ble Mr. H. F. Howard :—“ I was just about to justify my statement by saying that the development of banking facilities was put forward as the basis of our discussion with the Banks, and they have undertaken, if this scheme goes through, to put before themselves the ideal of opening a branch in every district in India, and have further undertaken, within the first five years, to open no less than 100 branches in different districts, of which Government shall have the option of nomination 25 per cent. I think Hon'ble Members will admit that that is a very great and rapid advance, and that if this scheme goes forward, we shall at any rate make as reasonably rapid a step on the way towards the extension of banking as we can hope for.

“ I have myself quite an open mind as to the relative theoretical merits of a State and a private bank as the central institution. But apart from any question of theory, the essential thing now seems to me to be to get on with the business. I therefore quite agree both with the Hon'ble mover in not suggesting any further references to a Committee, and with the Hon'ble Pandit that the delay involved by a reference to a Committee is undesirable. I should, however, like just to make one or two remarks about the question of State *vs.* non-State banks which have fallen from Hon'ble Members. The Hon'ble Mr. Sarma held up to us the examples of the State banks in France and Germany. What has happened there ? Being State banks, their resources have during the war been absolutely exploited by their Governments. Loans have been taken from them on a huge scale with the result that those banks are now, I believe, in a very parlous position, certainly the bank in Germany is. The function of a bank towards Government loans is not to take them all up in block and embarrass its resources. The function of a bank in this respect, whether a State bank or a private bank, is to act in the way of a sponge, take a certain amount off Government in the first instance with the object of distributing part of it among *bona fide* investors. That function has only in part been performed by these large State institutions on the continent,

RESOLUTION *re* : ESTABLISHMENT OF A STATE BANK IN
INDIA.

[23RD SEPTEMBER, 1919.]

[Mr. H. F. Howard]

who have been embarrassed if not crippled as a result of their direct connection with the Government. I merely mention this as a fact and not that I rely on it to support any theoretical view on one side or the other, because I realise that there is a great deal to be said on the theoretical side, and possibly also on the practical side, for a State institution.

"The case of the United States too is again quite different. There, again, they have not got to start to build up a new machine as it were *ab ovo*; they had merely to put the coping stone on a very large congeries of running institutions which exist throughout the length and breadth of North America. I believe the national banks in America number something like 8,000, but I am not quite certain of the figure. This meant that, not only had they something to build upon, but they also had practically unlimited personnel with which to man the new institutions which they were setting in operation. Mr. Keynes' scheme of course presupposes that we should build on our existing Presidency Banks. There are, however, always two parties to such an arrangement. I do not know how the Presidency Banks would like to be taken over lock, stock and barrel like that. We certainly could not force them into anything of the kind. We could refuse them a renewal of their charter, but it would be quite open to them to carry on as ordinary banks, and if we in those circumstances wished to start a State Bank, we should have to start with nothing to build on at all. That seems to me to be quite out of the question, and the only real practical solution, looking at it as a commercial proposition, seems to me to be to use the machinery which we have, which is in running order and which commands public confidence. It does not follow, however, that by any initial step we take now, we are definitely committed for all eternity to a private bank as compared with a State bank. My only point is, it is quite clear that however we start, we must, if we wish to get a move on at all, start with some existing institutions, so that we can get on with the minimum of delay. When we have once proceeded as far as an amalgamation and have secured some closer co-operation with Government than is practicable under present conditions, the new institution, the Imperial Bank of India, can then be allowed to develop in the way in which development seems to be best required; whether in the direction of a State Bank or not I should not like to commit either Government or the Banks or anybody else now; but there is nothing to prevent it from developing as necessary.

"I have spoken of the possible closer connection with Government. It would be out of place for me to go in any detail into the new arrangements which the Banks have proposed, and which we are inclined to favour, because they have still to be approved by the Secretary of State and to be laid before the shareholders of the Banks. I may say, however, that they contemplate that the new Bank should have at the top a central board, which should have on it representatives of all the Banks. That Board, however, could not meet weekly or daily as would be required of a managing agency. The representatives could naturally not be continuously absent from their local section of the new Bank where they would be required in order to carry on their own business.

"There will therefore have to be a smaller working body or Executive Board for current management. The spheres of the local boards of the new banks will at first correspond to the existing spheres, that is to say, Bombay, Madras and Calcutta. On the Central Board with representatives of these will be associated the Controller of Currency. The central Executive Board will consist of three or four representatives, of whom one will be the Controller of Currency. It is proposed that the Controller of Currency will, apart from being a member of this Board, have power to require the Board to hold up any matter which he may consider to be of vital importance as affecting either the financial policy of Government or the safety of its balances.

RESOLUTION *re* : ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Mr. H. F. Howard ; Rao Bahadur B. N. Sarma.*]

[23RD SEPTEMBER, 1919.]

" I think that I can best deal with the other points which arise in the order in which they have been raised by Hon'ble Members. One very important point which the Hon'ble Mr. Sarma raised was the future treatment of the Gold Standard Reserve and of the Paper Currency Reserve. Well, as regards the ultimate future, I regard this as an open question, but with the constitution of the new bank, as it is proposed, it is very doubtful whether management of either of these could rightly be entrusted to that bank at the outset. Mr. Keynes himself postulated that the Paper Currency Reserve should so be taken over by the State Bank. But even in London, where very large paper currency issues were made during the war, and their future is uncertain, Lord Cunliffe's Committee recommended that it would be out of the question to make over the control of the £1 note issue to the Bank of England until matters had come back to normal. In any case our Paper Currency administration could not be made over to the Central Bank until conditions again reached normality, and that may be a question not of one year or two years, but it may be five years or more. At any rate that question must be at present and continue to be an open one. As I think the Hon'ble Mr. Sarma himself realised it might very well be an open one whether the bank is a State-owned Bank or whether it is not.

" Similarly, with regard to the Gold Standard Reserve, I think the Hon'ble Mr. Sarma rather implied that Professor Keynes contemplated that the State Bank should take over the Gold Standard Reserve. . . .

The Hon'ble Rao Bahadur B. N. Sarma:—"No, there has been a change since."

The Hon'ble Mr. H. F. Howard:—"At any rate, that was not the case. He merely contemplated that the bank should intervene in connection with the Gold Standard Reserve—I think I am correct in stating that—when it had to be utilised for the purpose of regulating exchange.

" We now come to the very important question of our balances. The Hon'ble Mr. Sarma has recognised, and the Hon'ble the Pandit has also recognised, the importance of Government balances being placed, as far as possible, at the disposal of trade. We have gone a long way in that direction in the last few years. The reserve treasuries are at present exiguous. They very seldom now-a-days run to more than a crore. It is necessary to retain as much as that when you have three separate institutions, as otherwise it would be very difficult to provide at call the funds necessary, say, in Bombay to meet Council Bills. It is true we have recently gone very much further than in the past in that direction by placing our reserve treasury balances with the banks; but this is due to two causes, first, and more important from the public point of view, in order that the money market should be rendered as easy as possible for trade; then, for Government operations, if the market gets tight, we have more difficulty in floating our loans and great difficulty in carrying on. That is the second reason. However, our present contracts with the banks are not, as one or two Hon'ble Members seem to think, rather one-sided. Until the war they were a constant bone of contention between us and the banks. We received every year, if not oftener, representations from the banks that they were very inadequately recompensed for the important services which they render to Government. This was recognised. The question of a modification of the existing banking arrangements kept on cropping up, and it was decided to ask the banks not to move for revision of their contracts immediately, until some of these other larger and more important questions were settled, but it was at the same time arranged that we should place with them rather larger balances at their head offices as a standing matter than they were strictly entitled to under their contracts.

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN
INDIA.

[23RD SEPTEMBER, 1919.]

[*Mr. H. F. Howard.*]

"Mr. Sarma has referred to the large sums which are kept at the branch offices of the banks. These, however, are not kept at these offices merely for the use of the banks, but because we have at several of these branches very important liabilities continually coming upon us and we have got to keep a sufficient balance there in order to meet them. It may be said that these branches include not merely small out-of-the-way places but large towns like Rangoon, Karachi, Cawnpore and Lahore. At Karachi, for instance, we have huge disbursements to make, say of 50 lakhs, or more, while in Rangoon we have, I believe, to keep a balance of at least 40 lakhs. We should have to keep very much more money in these places if we only had treasuries there. A good deal of this money is only 'till money,' and the same applies to the money kept at our present district treasuries. The latter balances (which are not of course held at the banks) ordinarily run to 6 or 7 crores distributed probably over 200 treasuries, that is to say, our average balances at each of these treasuries run to something like 3 lakhs only. The amount at individual treasuries is therefore small; it is 'till money.' There is no question of making over this 'till money' at the district treasuries until the Presidency Banks extend their operations by opening branches at the places where these district treasuries exist. That is to say, if the Presidency Banks in one year open 20 new branches, well, then, they will automatically secure the control over twenty times 3 lakhs. But that again is not a very great additional recompense for the work which the Bank will do at those treasuries. It will always have to find funds for us when we want to spend them, but it helps its cash and, therefore, possibly may help to make it profitable to open branches at those places.

"Another question which the Hon'ble Mr. Sarma asked was, would it be legitimate for us to give our funds to one bank only as distinct from other banks? Well, I can only say that the surplus funds which we keep are relatively small; though we have to keep a very large sum as a working minimum in order to keep going. We have got these very large disbursements to make from day to day. We may have to pay out 50 lakhs at one place and 20 lakhs at another, and you cannot without notice either take that money away from a bank or provide it at a treasury without making some arrangements. In fact, we find it very difficult to work with a total balance of less than 14 crores. Now and then for a week or two we may have large balances; for instance in the last week of the loan (about the end of August) we received four or five crores; it may be another week or two before that money is spent. It will be necessary for me to explain to Council to-morrow that so far from our being full of resources as some Hon'ble Members here have said from time to time, we have, from day to day, from week to week and from month to month, with the very greatest difficulty, been carrying on.

"From another point of view also I should like to say that these arrangements with the banks have not been altogether one-sided. If we have any surplus we are very glad to leave it with the banks for the reasons I have just said, namely, that it helps us in our own operations and helps trade also. On the other hand, if we have not got any money surplus to our requirements and the banks still want some assistance, we ask them to take a loan from us of that money and charge interest to them for that loan, and we have done so on more than one occasion. In their turn the banks have always showed themselves ready to help us whenever we have been in a tight corner, as we have unfortunately been more than once. I shall not be disclosing any secret when I say that they have charged us only 3½ per cent. which compares very favourably with the rates at which we are generally able to raise such money by way of treasury bills

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[*Mr. H. F. Howard.*]

[23RD SEPTEMBER, 1919.]

or otherwise. Last year we received advances to the extent of 17 crores ; and this year also we have similar advances to the extent of 13 crores.

" There is just another point which arises here. I think it was rather implied that if the banks had to take responsibility for holding larger balances on behalf of Government they would require to be strengthened. It is proposed that the banks should raise additional capital.

" Then there was some question with regard to the relative treatment of Europeans and Indians, with reference to which I should just like to make a few remarks. I think that it is not generally realised, the extent to which presidency banks do even at the present time help internal trade. Apart from operations connected with business at the presidency-towns, they do help the financing of the internal trade of India to a very large extent by their purchases and re-discounting of internal bills of exchange, known generally as 'hundis'. The shroffs, mahajans, chetties and others who either directly or by their relations with smaller 'banks' of the same kind largely finance the movement of produce and of important articles of commerce, such as piece-goods in the up-country markets, rely to a very great extent upon assistance from the presidency banks when in a season of active trade their whole capital is fully employed. On some occasions, for example, the amount of hundis held by the Banks of Bengal and Bombay has exceeded a third of their total advances, and during the busy season the proportion is rarely less than a quarter. The connection of the Presidency banks with up-country trade is thus already very close and intimate. It must not be understood that the financing by these banks of the internal trade and the assistance given by them to Indian financiers and merchants is limited by the extent of their hundi business. A substantial portion of the cash credits given by the Banks represent advances made directly against produce hypothecated to the banks by Indian traders. Again, loans against Government and other approved securities are frequently made to Indian concerns. In any case, with the increase in the number of branches up-country it is clear there will be a substantial increase in the assistance given by it to help the internal trade of the country.

" Mr. Sarma referred in this connection to a statement made apparently by Mr. Vidya Sagar Pandya that the shareholders in the Presidency Banks were predominantly European. I am not sure of the other banks ; but taking the case of the Bank of Bombay, I find that there are 20,000 shares in the Bank, of which 7,447 are held by Europeans and 12,553 by Indians. Mr. Sarma then developed his argument by saying that on that account the Indian trade did not get its proper share of advances. As I have said just now, the amount of the hundi business alone, apart from other advances, has been sometimes one-third of the whole advances and at any rate not less than one-fourth even during the busy seasons. The bank of Bombay have kindly furnished me with the figures of their advances to Europeans and Indians respectively. The advances to Indians amounted to 654 lakhs, while the advances to Europeans amounted to 140 lakhs. Of this advance to Europeans, 35 lakhs were advanced against the new loan to enable them to subscribe to it ; the corresponding figures for Indians were two lakhs ; so that if we deduct these figures from the total, you get about 650 lakhs for Indians and 105 lakhs for Europeans, that is to say, approximately 6 to 1. I have not got similar figures for the Bank of Bengal ; but Sir Norcott Warren informs me that the relative proportion is probably 49 per cent to Indians and 51 per cent. to Europeans ; that is perhaps not unnatural, as the jute trade at this time of the year absorbs very large advances indeed. As regards Madras, I have the figures given to the Hon'ble Pandit before the Industries Commission. Approximately 110 lakhs are advanced on the average to Indians and about 80 lakhs to Europeans. I think it is perhaps not unnatural that the Bank of Madras, with reference to whom most of these allegations have been made, is able to do the least in

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[23RD SEPTEMBER, 1919.]

[*Mr. H. F. Howard ; Rao Bahadur B. N. Sarma.*]

assisting trade of all the Presidency banks, whether European or Indian. It must not be forgotten that the resources of that bank are very much smaller. That fact is reflected again in the further fact that the bank rate is invariably, I think, 1 per cent. higher than the other presidency banks' rates. I may say that Sir Bernard Hunter has frequently complained that he did not have resources to help trade in his presidency in the way in which he would have liked. I should like to quote here one remark which he made before the Industries Commission. He was asked by the Hon'ble Pandit 'you yourself feel that these are not sufficient for the financing of industries in this presidency?' Sir Bernard Hunter said 'I have always thought that India is under-banked and one difficulty is to get resources with which to open more branches. We have got to remember that a bank has two sides ; on one side it borrows and on the other side it lends. In new branches my experience is that it is always in one way that banking facilities are wanted, that is facilities for loans. There is no object in opening branch banks when you have not got enough money to go round. That is the sole reason of the want of development of banking in this presidency.' Well, I may say that Sir Bernard Hunter has told me often that he is very anxious to open as many branches as he can in spite of that difficulty, and, I think, it is only because of the war that the Bank of Madras did not two or three years ago increase the number of branches. That difficulty will very largely be remedied in so far as Madras is concerned by the institution of a central bank when it will be possible in the slack season in Calcutta or Bombay for the central executive agency to allocate funds to Madras.

"Then there was just one further point about which I should like to make one remark, and that is the question of assistance by the central bank, whether it is a State bank or a non-State bank, to industries.

"We contemplate of course that any Central Bank must help to finance industries as far as it can do so on the security of liquid assets. There can be no question of any Central Bank which is a bankers' bank financing new industries, where it will be necessary to lock up its funds for an indefinite period ; if it did that it would endanger the whole banking arrangements of the country.

"I think it will be seen from these remarks that we do agree with a great deal of what Mr. Sarma has said, and I am glad to have this matter ventilated in the Resolution. We do want to get on with the business quickly, but we are unable to go into the theoretical side of the question and to consider what in some circumstances would be the best, namely, whether a State or a non-State Bank. It is for these reasons that I regret the Government cannot accept this Resolution."

The Hon'ble Rao Bahadur B. N. Sarma :—"Sir, we are deeply grateful to the Hon'ble Mr. Howard for his clear statement of what the Government proposes to do in this matter ; we are glad that the Government recognise that additional banking facilities will have to be placed in the hands of the people. I should like, however, to state that we regret that the Government should have come to a decision about the practical steps to be adopted without following the procedure recommended by the Industrial and Currency Commissions and giving the public opportunity for discussion. I can understand that one of the objects in doing so may be that the Government wanted to push on this question as quickly as possible from the practical point of view, and that the only procedure which seemed open to them was to amalgamate the three Presidency Banks as a first step ; and the rest was to come later as circumstances permitted. But, Sir, I think this statement, so far as it has been disclosed to us, does not seem to be satisfactory from the Indian point of view. Instead of the Presidency Banks working separately, except occasionally when they meet

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.[*Rao Bahadur B. N. Sarma.*]

[23RD SEPTEMBER, 1919.]

together for the purpose of formulating a general policy to govern them, which policy it is optional with any of them not to adopt, they are going to have a central board of management. That is so far to the good; then so far as the Government are concerned, they propose to place the treasury balances at the disposal of the central bank, the extent of which would be dependent partly on the development of their branches. The only control so far as I can see to be exercised by the Government from what was explained to us, is that of the Controller of Currency who is to be on the board when there is a question of general financial policy involved, or when he feels that the safety of the Government balances may be endangered by any proposals. I do not see that the control of the Government is intended to be very effective in any other direction. The only return for the placing of necessary balances at the disposal of the bank by the Government is going to be that the amalgamated bank undertakes to open 100 branches in five years. Ordinarily the Central Banks would be interested in opening branches only where they can make a large profit, but 35 of these places are to be chosen by the Government. There is no doubt that in the ordinary course of business the Presidency Banks would have increased their capital in so far as it might have been necessitated by trade, but they have now promised to do so and no one disputes this fact that a large proportion of the business that has been done in the past was with Indians, but it must be so inasmuch as the vast majority of the traders are Indians. But the point is, whether there was not an undue preference where there was an option and it would not continue to be so in future. It is a natural consequence from the composition of the shareholders and the management, and we must try to regulate the future so that nobody may be prejudiced and have reason for complaint. The Hon'ble Mr. Howard gave figures for Bombay but not Madras or Calcutta, the Madras figures are against him; the vast majority of the shareholders were in 1913, Europeans. The shareholders of the Bank of Bengal were mainly Europeans in 1909 according to the Capital, I do not know how far that is correct now. The fear of the Indians is when the three banks are amalgamated that the management would be almost exclusively European in the Central Bank and in the absence of rigorous control by the State, the condition of things may be worse in future than it is at present. It may be that a province which is far distant from the centre like Madras may instead of being benefited be occasionally sacrificed for the trade interests of other provinces or centres. My submission is that under the new system the Indian community, commercial, banking, industrial or agricultural, is not likely to fare better but worse than under the old system; except that as the result of additional money being forthcoming, it would result in an advantage to all. Another point is that so far as I can see it does not look very advantageous to the public that the State should sacrifice interest on crores of rupees, though the aggregate sum may be varying from day to day, for the sake of only 100 branches being opened in five years. I do not think that is a profitable financial bargain. I realise that the Government have difficulties and that they have not here a very large number of efficient Banks which they can utilise for building up a State Bank, and the most influential banks are the Presidency Banks. But my submission is that it would be absolutely wrong if the tentative proposals are not placed before the Indian Bankers and Indian commercial and public men, before the Secretary of State pronounces upon them and before a final decision is arrived at. That is our quarrel. Let these tentative terms be published. Let all the Indian Bankers know what they are and how they would affect them, and let there be public criticism, and let this criticism be forwarded to the Secretary of State and let him, after going through these criticisms, arrive at his conclusions, and let the final negotiations and bargains 'be struck,' let there be an expert committee consisting of Indians

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA.

[23RD SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma ; The Vice-President.*]

as well as Europeans by whom these questions can be threshed out; the Presidency and other banks and the Government sitting together at a round table may consider what the various difficulties are and arrive at some solutions. But I submit, Sir, that the whole of the private negotiations between the Government and the three Presidency Banks, however well meant they may be, will be taken amiss, and for justifiable grounds. This is of course but a repetition of the old procedure; when a matter is under communication with the higher authorities it is a secret and cannot be published. When the higher authorities have pronounced an opinion, it comes too late for the public to suggest any modifications, and the public will be asked to wait for a reasonable time to see how the thing works and that takes years. This is extremely unsatisfactory. Therefore, I submit, that the public and the Members of this Council ought to be given an opportunity to pronounce upon these tentative proposals before definite conclusions are arrived at and before it becomes too late to suggest a revision. My submission therefore is that it was wholly unwise on the part of Government that they should have kept these negotiations secret. I knew from the answer which the Hon'ble Sir James Meston gave to my question in Delhi that he was not favourably disposed towards the appointment of a committee, as suggested by the Commissions, and that is the reason why I have brought forward this Resolution in a somewhat definite form, it was also because the proposals for the amalgamation of the Presidency Banks were maturing.

"Sir, there are some matters of detail to which I would like to refer for a moment. I never thought that industries would be directly financed from the Central Bank or that it can deal with any but liquid assets. It must be a bankers' bank. The point is as to whether we have anything on record to justify the assumption that in the past any very great zeal was exhibited by the Presidency Banks in forwarding the cause of Indian industries, manufacturing or agricultural, and from our past experience we have no reason to believe that our future would be so bright. That is the reason why we are asking for greater Government control.

"Then with regard to the treasury balances, I knew that with regard to the branches, much of it, as was stated in the Commission's Report, is there for Government treasury purposes. But as was pointed out, there are occasions when large sums like 3 crores, 6 crores and 9 crores could be utilised without interest much in excess of what has been agreed to. Of course if the terms and the services as between the Government and the amalgamated bank have been arranged already, well let us know exactly what those terms are, and let us know how much interest is going to be sacrificed for those services, and what those services are going to be; the mere opening of 100 branches, and the promise to increase the capital are, I venture to submit, not services worth having for such a heavy price. I realise that the working balance would have to be about 14 crores and the amounts would be fluctuating, but still I submit that we have on record that sums to the extent of 5, 6 and 7 crores have been with the Presidency Central Banks and they could utilise them, and hereafter, as I have said, with the additional money that would flow from increased taxations and currency, the resources would be improved and the amounts would be larger.

The Vice-President:—"I must ask the Hon'ble Member to bring his remarks to a close as his time is up."

The Hon'ble Rao Bahadur B. N. Sarma:—"I therefore propose that if the Hon'ble Member could give me an assurance that this question would be more favourably considered than it has been, and the proposals would be published for public criticism before the Secretary of State would pronounce upon them, I have not the slightest objection to withdraw this Resolution; but if he says that nothing can be done, I should press the Resolution for a vote."

RESOLUTION *re* ESTABLISHMENT OF A STATE BANK IN INDIA ; RESOLUTION *re* ELECTRIFICATION OF RAILWAYS.

[*Mr. H. F. Howard ; Rao Bahadur B. N. Sarma ; Mr. W. E. Crum.*]

[23RD SEPTEMBER, 1919.]

The Hon'ble Mr. H. F. Howard :—" Sir, may I say a word or two in answer to the points raised by the Hon'ble Member ? Firstly, I do not think that we can publish the scheme before the Secretary of State has had an opportunity of expressing an opinion. He may or may not accept the proposals which have been put forward. Any publication of the scheme before he has done so is to be very much deprecated because it would obviously lead to speculation in the shares.

" With regard to shares the Hon'ble Mr. Sarma seems to make rather a grievance that more shares

The Hon'ble Rao Bahadur B. N. Sarma :—" I am stating only the facts. "

1-17 P.M. **The Hon'ble Mr. H. F. Howard :—**" I do not know against whom he makes a grievance that more shares are not held in Madras or Bombay, but I know as another fact that there is no prohibition in the Statutes of the Banks against Indians or others acquiring shares of the Banks.

" There is another point I should like to refer to, and I should be very glad if the Hon'ble Mr. Sarma would give me some help. He says that we are sacrificing a great deal of interest as a result of the branches of the banks taking over our balances at our District Treasuries. I should like to know how else we can get interest at present on what is only 'till money' and if Mr. Sarma would explain, I should be very grateful.

" Then there is another point which, I regret, I omitted to mention. The Hon'ble Mr. Sarma suggested that the only control that we shall have over the banks will be that exercised by the proposed position of the Controller of Currency on the Administrative Board. That is not the case. The proposals, if agreed to, or in whatever form they are agreed to, will obviously have to be embodied in a new Act which will involve an entire re-casting of the present Presidency Banks Act, and the details of that will certainly have to come before this Council and considered by this Council. Of course Government may at that stage be committed to some main principles, but there will still be several important questions of detail, for example, the nature of control to be exercised by the Controller of Currency and so forth. That is all I have to say."

The Vice-President :—" I understand the Hon'ble Member desires to press the Resolution before the Council."

The motion was put and the Resolution was rejected.

RESOLUTION *re* ELECTRIFICATION OF RAILWAYS.

1-20 P.M.

The Hon'ble Mr. W. E. Crum :—" Sir, I beg to move that—

' This Council recommends to the Governor General in Council the immediate consideration of the electrification of the suburban railways within 25 miles of Calcutta and of the improvement generally of local passenger transport and terminal facilities.'

" Sir, about a fortnight ago the Hon'ble Mr. Phelps moved a Resolution in the Bengal Council to the effect that a Committee should be appointed to discuss the question of the rise in rents in Calcutta. The Resolution was accepted by Government, and therefore in a way it may seem rather premature that I should move this Resolution about improving communications ; but without doubt one of the reasons for the rise in rents in Calcutta is that the demand for land in the immediate neighbourhood of

RESOLUTION *re* ELECTRIFICATION OF RAILWAYS.

[23RD SEPTEMBER, 1919.]

[Mr. W. E. Croom.]

Calcutta has outstripped the supply, and therefore it is absolutely necessary that people who want to live near Calcutta at reasonable rents must go outside. This has been the case, of course, in most of the big towns of Europe; London, Manchester, Liverpool all have very large suburbs which have steadily increased, and as they have increased, the railway communications with them have improved. Already there is a very large number of the working population of Calcutta who come in every day. In the year 1903 by the railways round Calcutta there was a daily influx to Calcutta from within 25 miles of 10,663 passengers. In the year 1918 this had risen to 25,792. The railways by which these passengers come in are the Eastern Bengal State Railway, the East Indian and the Bengal Nagpur Railway and the two small railways, the Howrah-Amta and Howrah-Sheakhala Railways. To give the Council an instance of the number of people who come to Calcutta daily, the proportion who come to Calcutta, I may instance the clerks in my own office. We have 276 clerks. Out of this no less than 99, or 36 per cent. come in daily by train to Calcutta. Out of these 99, 55 have to leave their houses before 8 o'clock in the morning and do not get home till 7-30; and of course there is no doubt about it, that the reason is bad communication. I might take as an instance the East Indian Railway. Between 5-20 and 6-20, which is the time when most people go home from the offices, there are three trains between Howrah and Bandel, that is a distance of 25 miles. Each of these trains takes a little over an hour and 20 minutes to do the journey, and they stop at every single station, 15 stations. Now, if that line was electrified and you had more frequent services of trains, and instead of having long and expensive trains to run, you could have short trains of three or four carriages, you could have a frequent service of trains, and instead of stopping at every station they could stop at every two or three. If you are able to run your trains, electric trains, so that they stop at every two stations, you would do that 25 miles in 50 minutes instead of one hour and 20 minutes, thus saving half an hour on each journey, or an hour a day for every passenger who came backwards and forwards to Calcutta. And I daresay that could be still further improved, and you could have the trains stop at every three stations perhaps. Of course it is perfectly obvious that it would be an advantage to the travelling public who have at present to wait half an hour if they miss a train, to get another in ten minutes. The same applies to all the other lines, and I am perfectly well aware that there are only three of these lines which concern the Government in that the Howrah-Amta and Howrah-Sheakhala are purely private lines. But perhaps the Howrah-Amta and Howrah-Sheakhala need this electrification more than any other because they are more crowded and the conditions of travelling are distinctly worse than they are on the big railways. For that reason though I would not expect for one moment that Government should consider themselves the electrification of these railways which are private railways. But, I think, it is very desirable that any Committee which meets in Calcutta or elsewhere to discuss this question should also consider the question of these two small railways.

"Then we come to the point as to how this electrification is going to be carried out, because it is a very expensive project to consider the electrification of so many railways. I understand that the cost of actually electrifying the railway, that is providing the necessary rolling-stock and the wiring for carrying the electricity and so forth, is about double the cost of the power station. And before the war the total cost of electrifying the Eastern Bengal Railway for 25 miles or 30 miles was estimated, I think, at something like a million pounds. That would include the power station. If, however, the railways could all be persuaded at the same time to electrify, the cost of a central power station would be very much decreased. Therefore, I would like to suggest that, if Government are willing to consider this question, they should consider the question of a central power station. In that case I have the assurance of Sir Rajendra Nath Mukerjee that he would be prepared also to electrify the two small lines. It is a lot of money to be found and I have

RESOLUTION *re* ELECTRIFICATION OF RAILWAYS.[*Mr. W. E. Crum ; Sir George Barnes.*]

[23RD SEPTEMBER, 1919.]

spoken about that to several people in Calcutta before I left, and the conclusion that I came to was that if Government would be prepared to guarantee to a certain extent that they would take power from the central power station for these various railways, I think there would be no difficulty in finding the money for the central power station in a somewhat similar way to that in which private railways are financed. But it is not only with the railways leading to Calcutta that I would ask that the Government should deal, but with the facilities in Calcutta itself. The Hon'ble Mr. Bompas the other day, in a note to the Improvement Trust of Calcutta said: 'There is no city of the same size outside China so badly provided with public means of locomotion as Calcutta.' Even if you get the passengers to Howrah or Sealdah, they have still got a very long way to move before they get to their offices. A few years ago, I believe, the question of a central station in Calcutta was considered, and it was abandoned on the score of expense; and presumably if the expense was too great then, it would be far too great now. That was for a central station in the neighbourhood of Bowbazar.

"What I think the Government might consider is, whether it would not be feasible to electrify the Port Trust line from Chitpore down towards the jetties, and whether passengers could not be brought in from Sealdah in that direction. There is no doubt, I suppose, that we would have certain vested interests in the form of the jute balers and other people who have jute presses and land and jute godowns along that line raising objections. But when this matter of removing the jute trade was considered by the Port Facilities Commission about five years ago, the Commission reported that they were willing to agree that the jute trade should be left there for the present, but that if the line was required for other more important reasons, the question of its removal would have to be decided.

"I have no doubt about it that it is a very important thing for all our clerks in Calcutta that they should be able to get nearer to the actual business premises, and, for these reasons, I hope that the Government will be able generally to accept my Resolution, which is only asking for an inquiry into the whole question."

1-30 P.M.

The Hon'ble Sir George Barnes :—"I may say at once, Sir, that the Government fully realise the importance of the subject-matter of the Hon'ble Member's Resolution, and have no hesitation whatever in accepting it. The electrification of our railways in the neighbourhood of the great cities of India is of great importance, because by that means, as the Hon'ble Member has pointed out, we shall increase the carrying capacity of our railways in dealing with suburban traffic and shall make it more possible for people to live outside the great cities. In this way, a considerable step will be made towards solving the housing problem, which Mr. Crum has told us is so acute in Calcutta and which, I am sure, my Hon'ble friend Mr. Nigel Paton would say is even more acute in Bombay. But I should not like the Hon'ble Mr. Crum or other Hon'ble Members to think that we have taken no steps in the direction of investigating the possibilities of electrification. In 1914, the Government appointed some experts to go into the question of electrifying the railways running into Calcutta, and a report was made by those experts; but, unfortunately, in 1914, the war broke out, and all these projects have had to stand over. The scheme in question was favourably reported on, but it has, as I say, suffered the fate of many other projects during the war. The scheme referred to the Eastern Bengal Railway only. The East Indian Railway had also had under consideration the electrification of a part of their system, the part that is nearest to Calcutta, and there has been a suggestion of a joint powerhouse to serve both these systems, *i.e.*, the Eastern Bengal Railway and the East Indian Railway. I do not know at the present time what the views of the Bengal Nagpur Railway are, but the Bengal Nagpur Railway management has never been backward in adopting a forward policy.

RESOLUTION *re* ELECTRIFICATION OF RAILWAYS; RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO THE ARMY IN INDIA COMMITTEE.

[23RD SEPTEMBER, 1919.]

[*Sir George Barnes; Mr. W. E. Crum; The Vice-President; Mr. Sachchidananda Sinha.*]

"I was glad to hear the Hon'ble Member suggest that the electricity needed should be provided by some central power-house, and I gathered from what he said that private enterprise in Calcutta would be willing to embark upon this. There seems to me very considerable advantage in private enterprise coming in here, always provided that the electric current can be provided for the railway systems in question at a reasonable rate, because, if private enterprise comes in and supplies the power-house, we shall have so much more money available for railway development in other directions. Mr. Howard has just told me that the amount set aside in this year for capital expenditure on railways in India is 17·7 millions sterling. That is a large sum but, as you all know, our railways have fallen into very bad repair during the past five years, and we want an enormous sum to set our open lines in order.

"As regards the question of how I can best help this project along, I would suggest that when I come down to Calcutta, as I hope to do during the cold weather, I should call a meeting of the three big systems interested and, if the Hon'ble Member thinks it advisable, I should be very glad to invite those who are in control of the two smaller systems which he also mentioned and one or two representatives of the Bengal Chamber and the Bengal National Chamber. Let us all sit round a table and see if we cannot evolve some scheme for furthering the project outlined in the Hon'ble Member's Resolution. I should like, however, to remind him that the needs of Calcutta for electrification do not stand alone; the need of Bombay is even more urgent, for the housing problem there is extremely acute, and I am sure that the Hon'ble Members who represent Bombay would be quick to point this out.

"Sir, I shall be very glad, as I say, when I come down to Calcutta, to discuss this question, and I hope the course I suggest will meet the Hon'ble Member's wishes."

The Hon'ble Mr. W. E. Crum :—"Sir, I am very pleased that the Hon'ble Member has accepted my Resolution and I do not think there is anything more to say. I am very grateful that the Government will take the matter in hand, and the method by which the Hon'ble Member proposes to do it is, I think, exceedingly satisfactory." 1-33 P.M.

The motion was put and the resolution was adopted.

The Vice-President :—"The next Resolution on the list is the Hon'ble Mr. Sinha's Resolution. I do not know whether he thinks he will be able to finish it before 2 o'clock."

The Hon'ble Mr. Sachchidananda Sinha :—"I do not think so, Sir. We might take it after the recess."

The Vice-President :—"After this the 'deluge,' so far as Resolutions are concerned. We shall not sit after 2 o'clock."

The Hon'ble Mr. Sachchidananda Sinha :—"Then I shall move it now."

RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO THE ARMY IN INDIA COMMITTEE.

The Hon'ble Mr. Sachchidananda Sinha :—"Sir, I rise to move the Resolution which stands in my name and which runs as follows :— 1-36 P.M.

"This Council recommends to the Governor General in Council that he may be pleased to make a representation to the Secretary of State for India (or, if need be, to His Majesty's

RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO THE ARMY IN INDIA COMMITTEE.

[*Mr. Sachchidananda Sinha.*]

[23RD SEPTEMBER, 1919.]

(Government) that an Indian member chosen from the non-official Indian members of this Council be appointed to the Indian Army Commission recently constituted.

"As the Council may be aware, the Secretary of State has recently appointed an Indian Army Commission, and the constitution and the personnel of this Commission have been duly announced. The personnel of the Commission, Sir, has not given satisfaction to the public either in England or in India, and I find that on August 6th Mr. Fredrick Roberts asked a question in the House of Commons of Mr. Montagu on the subject. He asked the Secretary of State for India—

'whether the Indian Army Commission will inquire into the grievances of the Indian section of the Army and of Indians generally with regard to the military policy of the Government; why no Indian is appointed a member of the Commission; whether the omission will be made good before the Commission commence their work; whether the Right Hon'ble gentleman is aware of the strength of the feeling against Sir Michael O'Dwyer for his recent administrative acts in the Punjab; and why he has been appointed in the face of such feeling?'

Mr. Montagu replied:—

'Under the terms of reference the Committee is concerned with general questions of military administration and organisation, not with grievances; but I am considering the appointment of an Indian member. I do not see that recent administrative acts in the Punjab have any bearing on this inquiry.'

"Captain Ormsby-Gore also asked the Secretary of State for India 'why no Indian has been appointed on Lord Esher's Committee on the Indian Army?'

"Mr. Montagu replied. 'The appointment of an Indian to the Committee on the Army in India is under consideration.'

"That will satisfy the Council that even in England exception has been taken to the constitution and the personnel of the Committee. In India, since the announcement was made, public opinion has been insistent that there should be at least one Indian public man to represent the Indian point of view on this Committee. It has also been given out, Sir, though not formally, that an Indian gentleman has been offered a seat on this Committee and that he has accepted it, but no formal announcement has been made so far of that. The name of the gentleman said to have been appointed, however, has not satisfied Indian public opinion, and for this reason that the gentleman whose name has been given out is known to be merely a military expert and can thus advise the Committee on military matters only, but he is not in a position, regard being had to his experience of Indian problems, to advise the Committee on the financial aspects of Indian Army administration, nor on those which affect the public at large. It was under the impression that an Indian gentleman had already been appointed, or was going to be appointed, that I first desired to word my Resolution in the way that there should be an additional Indian Member, but when I learnt that no formal announcement had been made to that effect, I altered the Resolution to the form in which it stands now on the agenda paper. However, I hope that the Hon'ble Sir Alfred Bingley will look into the spirit of the Resolution and not take up the wording of it. As the resolution stands, you will notice, Sir, that I make no distinction between the elected non-official members of this Council, and the nominated ones. There are 32 non-official members of this Council, of whom 27 are elected and 5 nominated. I have no desire to make any invidious distinction between the two classes of members, and therefore I have not put the word 'elected' in my Resolution. I leave it open to the Government to choose whomsoever they like, an elected member or a nominated one. At the same time, I hope that in order to satisfy the public demand the gentleman chosen by the Government will be one who comes within the definition of a public man. I need not mention names to the Council; there are many elected members of this Council who are well-known public men, and any of them would be able to make a very good member of

RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO THE ARMY IN INDIA COMMITTEE.

[23RD SEPTEMBER, 1916.]

[*Mr. Sachchidananda Sinha ; Major-General Sir Alfred Bingley.*]

this committee. I have been told that the question of appointing an Indian public man does not arise inasmuch as that committee has been constituted not with a view to going into any special grievances of Indians or about any other matters except those of military administration and organisation. That may be, and in that view there may be no harm in appointing an Indian military expert to advise the committee. At the same time I take it that this committee will deal with financial problems also. Unless I am greatly mistaken it will be impossible for the committee to consider the military administration of the country without going into the financial aspects of the case. Indian public opinion for the last fifty years has been insistent that there has been an ever-growing and increasing expenditure on the Indian Army, far beyond the resources of the people of India ; and therefore, I think it highly desirable that on this committee there should be somebody who can put forward not only the expert military view of the matter, but also that which the people of India hold on this question. When I speak of the people of India I know my Hon'ble friend, Mr. Macpherson, will get up and say 'There are certain non-political classes who have said nothing about this matter' But when I say 'the people of India' I am not talking of these non-political classes, the 'dummies and mummies' ; I am talking of those who are politically minded, those who think out things for themselves ; and I say that this class has been insistent that during the past fifty years the Indian Army has been a very expensive luxury for the people of our country, that it costs a very large sum of money, far beyond the means of the people. I, therefore, contend that there should be a second Indian member on the Committee, who will be a public man chosen from among the elected members of this Council, and who can best advise the Committee on this particular point.

"I have only one word more to say, as I am speaking against time. It is sometimes said : 'Oh, well, in a technical matter like this, how can an Indian public man be useful ?' But that contention seems to me to be futile. In England we have civilian Secretaries of State for War and Under Secretaries of State for War ; they are not, so far as we know, drawn from the ranks of the Army ; but they are taken from civilian classes. Here on this committee I understand there are to be two civilians, Sir Godfrey Fell and one other gentleman. In this country we find our civilians not only advising on military affairs, but doing all kinds of things, as heads of telegraphs and post offices, police, education, and various other departments. Therefore, I think that there can be no serious objection to an Indian civilian, by which I mean an Indian public man, being appointed on this committee ; and I hope Government will see their way to accept my Resolution, and that they will recommend somebody from this Council from amongst the elected Indian members whose appointment will give satisfaction to the public. With these remarks, Sir, I beg to move the Resolution."

The Hon'ble Major-General Sir Alfred Bingley :—"The Resolution which the Hon'ble Member has just moved is one which Government is quite prepared to accept and has, indeed, anticipated. The Secretary of State, with the concurrence of His Excellency the Viceroy, has appointed the Hon'ble Major Malik Sir Umar Hayat Khan Tiwana, who is a member of this Council, to be a member of the Army Committee.

1-45 P.M.

"Sir Umar Hayat Khan has served in France and in Mesopotamia and has rendered valuable service in connection with recruiting. He belongs to a class which has rendered conspicuous service throughout the war, and his knowledge of the army and of the races from which it is recruited will be of special value to the Committee, as it is knowledge gained in the field as well as under peace conditions.

RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO THE ARMY IN INDIA COMMITTEE

[*Major-General Sir Alfred Bingley.*]

[23RD SEPTEMBER, 1919.]

“ As there seems to be some doubt as to the composition of the Committee I may mention that the other members are :—

President :

VISCOUNT ESHER.

Members :

SIR MICHAEL O'DWYER, late Lieutenant-Governor of the Punjab.

LIEUTENANT-GENERAL SIR H. V. COX, Indian Army, Secretary, Military Department, India Office.

LIEUTENANT-GENERAL SIR W. C. JACOB, Indian Army, Commanding 2nd Army Corps, Army of the Rhine.

LIEUTENANT-GENERAL SIR H. HUDSON, Indian Army, Adjutant General in India.

LIEUTENANT-GENERAL SIR J. P. DU CANE, late Commanding 15th Army Corps in France.

SIR G. FELL, Indian Civil Service, late Financial Adviser, Military Finance Branch, Finance Department, Government of India.

MAJOR-GENERAL SIR W. GILLMAN, late Chief of the General Staff in Mesopotamia.

Secretary :

BRIGADIER-GENERAL C. M. WAGSTAFF, Royal Engineers.

“ It may be of interest if I make a few remarks as to the objects of the Committee. It is considered that the time has now arrived for reviewing our military position in the light of the experience gained during the last five years.

“The system of army administration now in force is the system which was introduced in 1906 on the highest military advice then obtainable, namely, that of Lord Kitchener.

“The sponsors of that system—the then Secretary of State for India and his expert advisers laboured however under an important disadvantage—a disadvantage for which they were in no way responsible—they had not the recent experience of a great war to guide them.

“Needless to say it does not follow that a system which is found workable in peace time will necessarily prove a sound one in war. However smoothly things may run when conditions are normal, defects are liable to disclose themselves under the strain and the altered conditions of actual war.

“The Admiralty system of administration in England has existed for a long period of years without undergoing any radical alteration. This is because it has been handed down from the period of the great naval wars, and because it may be said to be founded on the proved requirements of war. It has seldom been the subject of attack and may be said to have the confidence of the Empire.

“The War Office has not been so fortunate. During the latter half of the last century no other public department came in for so much hostile criticism. Great changes were frequent and stability of administration was not attained until a comparatively recent period.

RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO THE ARMY IN INDIA COMMITTEE.

[23RD SEPTEMBER, 1919.]

[*Major-General Sir Alfred Bingley ;
Pandit Madan Mohan Malaviya.*]

" Our military system in India has just been subjected to the strain of the greatest war in history. It was but natural that defects and shortcomings should have revealed themselves—in fact it was in the light of what I have said inevitable that it should be so. Nevertheless, in spite of these defects, the system now in force has enabled India to more than double her army in the course of the war and to raise over a million of men. It has enabled her to maintain great Expeditionary Forces overseas and to play a distinguished part in the world-wide struggle now happily ended. To achieve these results, it has been necessary to remedy defects as they appeared; but it will be readily recognized that anything that could be done in this direction was necessarily in the nature of a temporary expedient. Any general revision or reconstruction of the system of military administration had to await the conclusion of the war.

" It now behoves us to turn to the best possible account the invaluable experience acquired during the past five years, experience which has been bought at a great price and which, let us hope, is unlikely to recur in the lifetime of those who have survived. We want to extract the last ounce of benefit from the lessons which the war has afforded us, and to ensure that for the expenditure we incur on the Army of the future, we secure the maximum of efficiency. The best way of doing this is to bring to bear on the problem the best brains and the most recent experience available. The Committee which is about to assemble is composed of men of great ability and distinction, and all of them have special qualifications for the work before them.

" It will be the business of the Committee to—

- (1) Inquire into and report, with special reference to *post bellum* conditions, upon the administration and, where necessary, the organization of the Army in India, including its relations with the War Office and the India Office, and the relations of these two Offices with one another.
- (2) Consider the position of the Commander-in-Chief in India in his dual capacity as Commander-in-Chief and Member of the Executive Council, and to make recommendations.
- (3) Consider and report upon any other matters which they may decide are relevant to the inquiry.

" It will be realised that the problems with which the Committee has to deal are difficult and complex, and that their task is one of great magnitude; but I think that this Council and the public may rest assured that the matter is in thoroughly competent hands.

" The Hon'ble Member has suggested that there is a desire in Indian circles, and more especially among the Indian elected Members of this Council, to provide for the safeguarding of Indian interests, particularly as regards military expenditure, by appointing an additional Indian Member to the Committee. I can assure him that this is a function that can safely be left to the Government of India, and that there is no necessity for going beyond the terms of his Resolution. Nevertheless, if any Members of this Council are anxious to explain their views in regard to military expenditure or any other matter coming within the scope of the Committee's inquiry, I have no doubt that the latter will be glad to examine them and consider their recommendations."

The Hon'ble Pandit Madan Mohan Malaviya :—" Sir, I am disappointed at the reply which the Hon'ble Sir Alfred Bingley has given. It was well known very long before notice of this Resolution was given by the Hon'ble Mr. Sinha that our Hon'ble Colleague Malik Sir Umar Hayat Khan was to be a member of this Committee. Without saying one word

RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO THE ARMY IN INDIA COMMITTEE.[*Pandit Madan Mohan Malaviya.*]

[23RD SEPTEMBER, 1919.]

regarding his qualifications as a military man, I may say in this Council without a semblance of disrespect or discourtesy to him that the announcement did not satisfy the Indian public interested in the question of the proper and efficient administration of the Indian Army. And not only was dissatisfaction expressed in this country, but I think the Hon'ble Mr. Chintam, the editor of the 'Leader' wrote an article in the 'Times' or some paper expressing that view. Now it was in order to give expression to those sentiments that the Hon'ble Mr. Sinha gave notice of his Resolution. He has not said one word against the Hon'ble Sir Umar Hayat Khan, nor do I wish to say one word against him as regards his qualifications to express an opinion upon military matters. But it will be recognised by the Council that the questions which have been referred to this Committee, which I am glad will be presided over by Lord Esher, are of very deep importance to the people of this country as a whole. The Government have recognised the importance of this question by nominating a very strong Committee. There are eight gentlemen who represent the civil and military elements among the European element. Now there is one Indian member on this Committee. Putting aside everything regarding the high qualifications of the Hon'ble Sir Umar Hayat Khan as a military man, I ask the Council, I ask the Hon'ble the Army Secretary to say whether he is satisfied that this is fair, whether in a matter of such public concern to the people of India, for we Indians constitute a large fraction of the Indian Empire, we Indians pay the taxes which support the Army, we supply effective soldiers and labour and we are affected by mismanagement and inefficiency, in the medical or other services which are a necessary part of the army administration. We Indians are deeply and vitally interested in the question. Is it right, is it fair of the Government to take only one Indian member to represent the Indian point of view and to put forward the Indian point of view? I submit that it is not. The bulk of the Army is Indian; Indians are interested, they suffer along with their British fellow subjects from mismanagement in the Army. We have had complaints of mismanagement in Mesopotamia; there have recently been complaints about the medical arrangements in the Afghan war. Did Indians suffer or did they not suffer? Look at the question from any point of view, look at it from its military aspect, it affects Indians much more than their British fellow-subjects, look at the financial aspect, it will be seen that it affects the Indians much more than their European fellow-subjects; look at it from the medical or any other aspect and you will find that Indians are more deeply and vitally affected than Europeans. Therefore it is only fair that this Committee should be increased by an Indian. I do not complain of any member who has been appointed, but you owe it to the public to put on some other Indian gentleman who may be able to watch the inquiry from the point of view of the general Indian public. It may be said that the questions to which Sir Alfred Bingley referred will be purely questions for military experts. Military experts will be wanted there and they are there, but there are other questions which affect the general civil population. In England, as the Hon'ble Mr. Sinha pointed out, military questions are not left entirely to the military. Military men are very good and they deserve our gratitude for the sacrifices they make and for the dangers to which they are exposed. But I may be permitted to remark that there are questions which are not purely expert in their character; there are questions in which civilians may be allowed without being considered impertinent to offer an opinion. Such questions are discussed in the English Parliament times without number. Was not this great system which you are going to rectify the result of a discussion between a civilian Lord Curzon and a military man Lord Kitchener? Has not the experience of the war shown that the views held by Lord Kitchener were not correct and that there was much in the views of a civilian like Lord Curzon to commend themselves

**RESOLUTION *re* APPOINTMENT OF AN INDIAN MEMBER TO
THE ARMY IN INDIA COMMITTEE.**

[23RD SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; the
Vice President.*]

to the consideration of military men ? If this was so you cannot dispense with the views of civilians. You cannot dispense with the views of Indian public men, are they not interested, have they not sons and relations who have fought in the war ? Have these men not contributed towards the success that has been achieved by His Majesty's arms in the war ? "

It being 2 o'clock :

The Vice President.—"I am afraid I must call upon the Hon'ble Member to resume his seat."

The Council then adjourned to Wednesday, the 24th September 1919, at 11 A.M.

SIMLA ;

The 2nd October, 1919.

*Includes previous weeks. The actual number of cases and deaths during the week ending September 20th were 374 and 307, respectively.

Figures for Bihar and Orissa are not available. For the remainder of India 1,451 deaths were recorded, a marked advance over the number returned in the preceding week. In the corresponding week of last year 2,155 deaths were registered.

SIMLA :

The 2nd October 1919.

F. H. G. HUTCHINSON, LIEUT.-COL., I.M.S.,

Sanitary Commissioner with the Government of India.

H. SHARP.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 2nd October 1919, based on the Indian Daily Weather Reports of the period.

1. Rainfall occurred daily in the Peninsula and extended during the last two days of the week into Central India and the east of the United Provinces. There was also fairly widespread rain in Upper Burma and Assam, with local falls in Bengal and Bihar and Orissa, but over nearly the whole of north west India, weather was drier than usual.

2. *Burma.*—Local rain fell in Lower Burma on the 25th and the 27th September and 1st October, and in Upper Burma on the 26th, 27th, 29th and 30th September.

Northeast India, including Orissa.—In Assam rainfall was nearly general on the 25th, 26th and 29th September, and local on the other days. In Chota Nagpur nearly general rain fell on the 1st October, with local or individual falls on three other days. Local rain fell in Bengal on the 27th, 28th and 29th September, in Orissa on the 28th September and 1st October, and in Bihar on the 1st October; there were a few falls on four other days in Bengal and on two other days in the other two sub-divisions.

The United Provinces, Central India and the Central Provinces.—Rainfall was nearly general in Central India East on the 30th September and 1st October, in the west of the Central Provinces on the 30th September and in the east of the United Provinces on the 1st October; there was local rain on one other day in the east of the United Provinces and on three other days in the west of the Central Provinces. Local rain fell in Central India West on the 30th September and 1st October, and in the east of the Central Provinces on the 29th and 30th September and 1st October; individual falls occurred on four other days in the latter area.

Northwest India.—In the North-West Frontier Province rainfall was local on the 26th September and occurred at a few stations on the 25th September. In Gujarat there were a few falls of rain on five days in the week. Over the rest of the division weather was dry except for a light fall at Sonamarg.

The Peninsula.—Nearly general rain fell in Malabar, the Bombay Deccan and Hyderabad on all the days except the 1st October, in the Konkan and the Madras Deccan on all the days except the 26th September, in Mysore between the 25th and 28th September, and on the north Madras coast between the 27th and 30th September. In south-east Madras rainfall was nearly general on the 30th September and local on three other days.

3. The chief amounts of rainfall reported were as follows:—

September 25th. Silchar 3·71", Shillong 5·19", Cherrapunji 13·40", Chittagong 2·91", Sonamarg 0·18", Parachinar 0·22", Surat 0·65", Bombay 0·96", Malegaon 1·60", Sholapur 1·30", Bijapur 0·33", Belgaum 0·57", Aurangabad 1·76", Gulbarga 0·25", Raichur 0·64", Hyderabad (Deccan) 1·90", Chitaldrug 2·10", Mysore 0·83", Cuddapah 1·78" and Bellary 1·06".

„ 26th. Moulmein 1·00", Bhamo 2·35", Silchar 2·27", Bombay 0·81", Poona 1·68", Nizamabad 1·28", Gulbarga 1·35", Hyderabad 2·47", Mangalore 0·71", Calicut 0·84", Negapatam 1·25", Trichinopoly 2·59", Masulipatam 0·75", Cocanada 0·87" and Ootacamund 1·10".

September 27th. Mandalay 3·05", Lashio 1·00", Akola 0·57", Amraoti 0·49", Nagpur 0·90", Bombay 1·98", Karwar 1·21", Mangalore 1·64", Calicut 2·30", Malegaon 1·00", Ahmadnagar 1·49", Poona 1·96", Sholapur 1·58", Bijapur 0·94", Parbhani 2·80", Chitaldrug 2·55", Trichinopoly 1·64", Bellary 1·76" and Masulipatam 2·25".

28th. Bassein 1·02", Myitkyina 1·18", Sibsagar 1·56", Tezpur 1·08", Silchar 2·72", Jessore 2·42", Chanda 1·16", Veraval 0·45", Marmagao 3·01", Karwar 1·30", Cochin 1·11", Trivandrum 1·17", Malegaon 1·03", Ahmadnagar 1·60", Sholapur 1·12", Bijapur 2·13", Gulbarga 1·03", Bangalore 1·26", Trichinopoly 1·66", Salem 1·00", Madras 2·83", Cuddapah 2·85", Nellore 2·24", Masulipatam 2·00", Cocanada 0·90" and Vizagapatam 1·43".

29th. Lashio 0·75", Silchar 2·17", Bogra 3·51", Akola 0·50", Amraoti 0·71", Pendra 0·97", Surat 1·37", Marmagao 0·90", Karwar 2·66", Mangalore 1·47", Malegaon 1·68", Sholapur 1·03", Aurangabad 1·15", Parbhani 2·81", Gulbarga 1·50", Hyderabad (Deccan) 1·20", Bangalore 1·07", Cuddapah 0·86", Masulipatam 0·95", Cocanada 1·32" and Vizagapatam 0·71".

30th. Rangoon 1·17", Yamethin 1·40", Mandalay 1·28", Bhamo 1·02", Silchar 1·20", Naya Dumka 0·95", Lucknow 1·40", Sutra 1·22", Khandwa 1·01", Hoshangabad 1·36", Saugor 1·51", Raipur 0·98", Hanamkonda 2·20" and Pamban 1·85".

October 1st. Dibrugarh 1·15", Cherrapunji 1·75", Dinajpur 1·35", Ranchi 2·77", Gaya 0·94", Gorakhpur 1·48", Allahabad 1·24", Cawnpore 0·75", Jubbulpore 1·05", Pachmarhi 0·95", Jagdalpur 1·67", Surat 1·50", and Ratnagiri 0·90".

4. The week's rainfall was 20 per cent. or more in excess in Upper Burma, Assam, Chota Nagpur, Gujarat, the Central Provinces, the Konkan, the Bombay Deccan, Hyderabad, Mysore, and the Madra Presidency; and was 20 per cent. or more in defect in the Bay Islands, Lower Burma, Bengal, Orissa, Bihar, the United Provinces West, the Punjab, Kashmir, the North-West Frontier Province, Rajputana, and Central India West. It was either equal to the normal or differed from it by less than 20 per cent. in the United Provinces East, Central India East and Berar. No rain usually falls at this time of year in Baluchistan and Sind.

The rainfall from the 2nd May to date is 20 per cent. or more in defect in the Bay Islands, Kashmir, Sind and Hyderabad North; and is 20 per cent. or more in excess in Chota Nagpur, Baluchistan, Rajputana West, Central India, the Central Provinces West and Mysore. In the remaining divisions the rainfall of the period differs from the normal by less than 20 per cent.

B

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
27th September 1919.

Burma.—During the week light to moderate rain was general throughout the Province. Transplanting of winter rice is completed in almost all the Lower Burma districts and in irrigated tracts of Upper Burma. Replanting in flooded areas is progressing in Upper Burma. Harvesting of early sesamum is nearing completion. Cultivation of miscellaneous crops continues. Standing crops are generally in good condition. Health of cattle is generally satisfactory. The price of unhusked rice and of white rice at Rangoon remains unchanged at Rs. 150 and 385, respectively.

Assam.—During the week the weather was seasonable and favourable. Harvesting of autumn rice and jute, and plucking of tea and transplanting of winter rice continue. Outturns and prospects of crops are fair. Cattle disease is reported from seven districts. The price of common rice has ceased rising.

Bengal.—Cyclone of unusual severity accompanied by heavy rain passed over districts of Dacca division and Khulna on 24th, causing immense damage to standing crops and livestock. Tracts actually affected and extent of damage are not yet known. The rainfall during the week was generally light to moderate in rest of the Province. Weeding of winter paddy and cutting and steeping of jute are approaching completion. The average price of common rice for the Province has fallen by about 1·7 per cent. as compared with that of the previous week. Total number of persons in receipt of gratuitous relief in the Brahmanbaria subdivision of the Tipperah district was 7,208.

The weekly report on famine in Bankura is as follows:—The rainfall was insufficient. Agricultural prospects are favourable. 88 works are open. Cash doles were given in 18 unions. Numbers relieved on works were 18,067. Gratuitous relief by cash doles 2,807, paddy husking advances 3,683, weavers 782, better class poor 580, total 7,852, grand total 25,919. The increase in numbers on works is due to the completion of field operations. The decrease in numbers on cash doles is due to closure of gratuitous relief in 63 unions. Numbers relieved on private works were 725. 400 persons were relieved on weekly doles, and 900 on daily doles and cooked food by charitable societies. The public health on the whole is good. Outbreak of malaria and influenza is reported from certain localities. Cloth is being distributed to destitutes. Relief measures are adequate. The price of common rice varies from 5½ to 5¾ seers per rupee.

Bihar and Orissa.—Light rain was fairly general over the Province. Harvesting of autumn crops is in progress. Preparation of lands for sowing of spring crops has commenced in some districts. Standing crops are doing well. More rain is wanted for paddy in parts of Champaran, Bhagalpur, Balasore, Angul and Puri. The daily average number of persons on test works was 2,419 in Angul, 241 in Manbhum and 416 in Singhbhum. Gratuitous relief was given to 7,769 persons in Bhagalpur, 11,782 in the Santal Parganas, 9,030 in Angul, 8,262 in Cuttack and 608 in Hazaribagh. The number of persons attending relief works was 529 in Bhagalpur, 2,796 in the Santal Parganas and 874 in Angul. The price of common rice has risen in three districts, fallen in eleven and remained stationary in the remaining districts as compared with that of the preceding week. The price of maize varies from 6 seers a rupee in Ranchi to 10 to 12 seers in Godda (Santal Parganas) and 15 seers in Chatra (Hazaribagh). Of sixteen districts which report the price of the articles it has risen in one district, fallen in eight and remained stationary in others. Cattle disease is reported from nine districts. During the week ending the 20th September 27,306 persons were given gratuitous relief and 7,014 attended test works in eleven Feudatory States of Orissa, viz., Athgarh, Baramba, Dhenkanal, Hindol, Narsinghpur, Nayagarh, Talcher, Tigiria, Bamra, Daspala and Khandpara.

Famine report not received.

United Provinces.—During the week light rain fell in a few districts only. Preparation of lands for spring crops and harvesting of autumn crops continue. Sowing of spring crops has commenced in places. The condition of standing crops is good. Prospects are favourable. The condition of agricultural stock is good. Fodder, water and market supplies are sufficient. Prices are stationary.

The weekly report on scarcity is as follows:—There was no rain. Agricultural operations are in progress. Cattle are in good condition. Fodder is sufficient. Prospects are good. The public health is generally good. Distress is disappearing. Gratuitous relief was closed in Etawah on 27th September. Numbers relieved:—Central Doab—private works 692 and gratuitous relief 1,919, total 2,611.

Punjab.—During the week the weather remained dry. Rain is badly wanted everywhere for spring sowings and for standing crops which are generally good on irrigated and

average on unirrigated areas. Picking of cotton and reaping of maize and fodder, etc., are in progress. The yield is expected to be average to good. Sowings of gram and oilseeds continue and are generally normal. Cattle are healthy and fodder and water are sufficient. Prices have fallen slightly in some districts and are stationary in others. They are generally above scarcity rates. Prices of wheat:—Ambala 6½, Rawalpindi 6½, Lyallpur 6¾, Ferozepore 7 and Lahore 7½ seers per rupee.

North-West Frontier Province.—During the week slight rain fell in one district. Sowings of rapeseed, vegetables and gram are in progress in one district. Standing crops are generally average but crops are reported to be withering on unirrigated areas in one district. Prices of wheat:—Peshawar 7½ seers and Dera Ismail Khan 7½ seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Fodder is sufficient.

Kashmir.—During the week the weather was generally dry and mild. Harvesting of autumn crops is in progress. Cattle are generally healthy except in Gurez. Prices are high in the Muzafferabad district and fluctuating in the Valley. Cholera exists in the Baramulla district.

Rajputana.—During the week the rain fell in a few places of Rajputana and Merwara. Rain is needed in Marwar and Jaisalmer. The weather is hot and occasionally cloudy. Harvesting of autumn crops has commenced in Southern, Central and parts of Eastern Rajputana States. Lands are being prepared for spring sowings. Pasturage and water are abundant. The condition of agricultural stock is improving. Small pox is prevailing in some places in Marwar. Prices are stationary or falling slightly.

Central India.—During the week the rainfall was partial and reported insufficient in parts of Baghelkhand. Autumn crops are in being weeded and harvested. Lands are being prepared for spring crops. Standing crops are fair to good condition except where they have been damaged by excessive rain. The probable outturn is fair to good. Agricultural stock is generally good except cattle disease is reported in parts of Gwalior, Bhopal, Baghelkhand and the Southern States. Prices are high.

The weekly report on famine in Bundelkhand is as follows:—Distress is not acute. Number on relief works is gradually decreasing. People are reverting to agricultural operations. No wandering or emaciation is reported. Relief measures are adequate. Suspensions of land revenue are being granted. Takavi advances are sufficient. The public health is generally good except that cholera exists in some places. Prices range from 5 to 7½ seers per rupee, save in Bijawar, Chhatarpur and Alipura where *lodon* is available from 8 to 12 seers per rupee. Numbers on relief in thousands:—works 3.3, gratuitous relief 8.1, total 11.4.

Central Provinces.—During the week the weather has been clear and occasionally cloudy. Saugor, Jubbulpore, Mandla, Narsinghpur, Wardah and Hushangabad were practically rainless. Elsewhere light to moderate showers were received not exceeding 5½ inches. Preparation of lands for spring crops is in full swing all over the province. The condition of standing crops is generally satisfactory and prospects are favourable but some more rain is required in Jubbulpore, Mandla, Chanda and Buldana. Harvesting of pulses continues and that of rice has begun in places. Fodder and water are sufficient. Cattle are faring well but disease is reported from parts of eight districts. Fluctuations in prices are unimportant.

Feudatory States:—Prospects of autumn crops are generally good.

The weekly report on famine and scarcity is as follows:—The public health is good except for some cases of cholera and malaria at places. The number of persons on works is slightly up. Gratuitous relief has been closed from end of September except in two districts. Prices of food-grains are stationary. Numbers on works in famine districts were 14,987. Numbers on works in scarcity districts were 6,096. Numbers on gratuitous relief were 11,486. Numbers relieved at subsidised cheap grain shops in Berar were 265.

Bombay.—Good rain fell during the week in the Presidency Proper. More rain is needed in parts of Kaira and Dharwar. Standing crops are flourishing except in parts of Sukkur, Thar Parkar and Nawabshah where they have been slightly damaged by insects. Harvesting of early crops has commenced. Preparations for spring crops have commenced in some places. Fodder supply is sufficient. Green grass is plentiful. Agricultural stock is generally sufficient. Cattle are in good condition. Water is sufficient. Prices of food-grains are high but generally steady.

The weekly report on famine and scarcity is as follows:—Good rain fell during the week in affected districts of East Khandesh Ahmednagar, Poona, Bijapur and Belgaum. The rainfall was general and beneficial to standing crops except in parts of Ahmednagar where they have been damaged by excessive rain. Break is needed in parts of Ahmednagar and Poona for spring sowing. Operations of sowing are in progress in East Khandesh.

Bijapur and Belgaum. Relief works continue in Ahmednagar but will be closed by middle of October. Relief operations ceased in East Khandesh from 30th September. Numbers on relief works on the last day of the week ending 27th September were works 5,000, dependants 3,365. Numbers on gratuitous relief including village servants in affected districts and Kathiawar Agency have increased from 29,881 as reported in last week's telegram to 30,025, Bijapur where rains had held off till latter part of September being responsible for the increase. No increase in mortality and crime is reported. The public health is generally good. Water and fodder supply are adequate and the condition of cattle is generally satisfactory. Prices of food-grains are still high. In other respects the situation is unchanged.

Hyderabad.—During the week the weather was seasonable and favourable. The average rainfall was one inch and 68 cents. Autumn crops are being harvested and early rice crops are doing well. Sowings of spring crops are progressing generally. Cattle disease to some extent is reported in the Nalgonda, Warangal, Adilabad and Karimnagar districts. Prices of grains continue high. *Juar* sells at $3\frac{1}{2}$ seers per rupee in the Raichur district.

The weekly famine report for week ending the 20th September is as follows:—Situation is not so grave. The rainfall during the week was good and heavy in some taluqas but not well distributed and on the whole was insufficient. Numbers on relief works are stationary. Emaciation is still found in Talingana taluqas. Cheap grain shops continue in Hyderabad city and one in the Warangal district. Land revenue has been suspended in affected parts. Takavi is being advanced for wells and other agricultural purposes. Government Fodder Depots are supplying fodder in affected parts of Mahratwara. Prices of staple grains continue to be high. *Juar* sells at $5\frac{1}{2}$ seers and rice 3 seers per rupee. Number on relief in thousands for week ending 11th September :—works 36 and gratuitous relief 42, total 78.

The weekly report on famine for 27th September 1919 is as follows:—The situation is improving. The rainfall during the week was good and general throughout, but more rain is needed for spring and rabi crops. Numbers on relief works are fluctuating. Emaciation has much decreased in Telingana Taluqas. Cheap grain shops continue in Hyderabad city and one in the Warangal district. Land revenue has been suspended in affected parts. Takavi is being advanced for wells and other agricultural purposes. Government Fodder Depots are supplying fodder in affected parts of Mahratwara. Prices of staple grains continue high. Rice sells at $3\frac{1}{2}$ seers and *juar* $5\frac{1}{2}$ seers per rupee. Numbers on relief in thousands for week ending the 18th September—works 29, gratuitous relief 33, total 62.

Mysore.—During the week the rainfall was good. Standing crops are in fair condition. Cattle are generally healthy. Water and fodder are available. Prices are high and fluctuating. Prospects of season are fair. Weeding and transplanting are in progress in parts.

Coorg.—The week was wet. Transplanting of rice is almost completed. Picking of cardamum and reaping of crops continue. Cattle are generally healthy. Water and fodder for cattle are available. The public health is fair. Prices of food-grains are high.

Madras.—During the week the rainfall was very heavy in Travancore, heavy in Bellary, Malabar and the hills, good in Godavari, Kistna, Kurnool, Banganapalle, Sandur, Anantapur, South Arcot, central districts of Tanjore, Madura, Ramnad, South Kanara and Cochin and light or fair elsewhere. Standing crops are in fair condition generally but fading or damaged in small areas in Guntur and Ramnad. Harvesting of paddy and dry crops is limited with outturn generally fair. Sowing of second crops is proceeding in West Coast and that of early paddy and dry crops is progressing elsewhere. The condition of cattle is generally good. Water is insufficient except in Ganjam, Godavari, Cuddapah, Chingleput, West Coast and the hills. Pasture is sufficient except in parts of eight districts. Fodder is insufficient in parts of nine districts. Prices are generally steady or falling. Prospects are improving in Kistna and northern parts of Ganjam, and elsewhere they are fair generally.

The weekly report on famine in Ganjam is as follows:—Relief works 28 in Goomsur, 5 in Udayagiri, 32 in Kallikota and Attagada, 3 in Humma, Biridi, Palur and 1 in Ronabha are in progress. Labourers and small agriculturists are mostly affected. People are resorting freely to works and their physical condition is generally fair. Relief measures are adequate. Cloth distribution is being provided by private charity. Prices of rice in Goomsur 4.5 seers, in Udayagiri 4.5 seers, in Kallikota and Attagada 4.8 seers, Chatrapur 4.4 seers and of *ragi* in Kallikota and Attagada 5 and Chatrapur 6.9 seers per rupee. Numbers on relief works, incomplete figures, were 54,262, gratuitous relief incomplete figures 91,265, total 1,45,527.

J. HULLAH,

Offg. Secretary to the Government of India.

J. HULLAH,

Offg. Secretary to the Government of India.

No. 949-151.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

AGRICULTURE.

Simla, the 2nd October 1919.

RESOLUTION.

Among the many questions which have been brought into prominence by the war that of the possibility of organising and developing the Sugar Industry in India stands high in importance. It is not a new question. It has been considered by the Board of Agriculture in India from time to time, and formed one of the main subjects of discussion at its last meeting at Poona in December 1917, when the necessity for a Bureau of Information on the industry was emphasized. A beginning in this direction has already been made; and Mr. Wynne Sayer of the Indian Agricultural Service was in February last placed on special duty to undertake the collection and co-ordination of all available information regarding the industry. But this is only a beginning and the Government of India realise that much remains to be done if any material expansion of the industry is to be looked for.

2. Regarding the desirability of such expansion there can be no doubt. The food value of sugar is high: the annual consumption has been increasing steadily for many years, and in India no less than elsewhere. Sugar-cane is indigenous in India which until very recent years stood first of all countries in the world in its area under cane and its estimated yield of cane-sugar, and even now ranks second only to Cuba. Yet it is notorious that the yield both of cane and raw sugar per acre and the percentage of available sugar extracted from the cane are undesirably low. While, therefore, India should be in a position, as she was in the past, to produce a surplus of sugar for export, she has in fact had to supplement her own supplies by imports the tendency of which steadily to increase has only been checked by war conditions. The same conditions have also served to emphasize the disadvantages involved in relying upon external sources of supply. The world prices of sugar have risen enormously, with the result that, while imports between 1913-14 and 1917-18 fell in quantity from 900,000 to 500,000 tons approximately, they rose slightly in value from 14.96 to 15.32 crores. The beet sugar industry has been disorganised over extensive areas in Europe and, if India cannot now look to herself to supply her own wants, she is faced with the alternative of either reducing her consumption of sugar, or paying increased amounts to obtain it.

3. But if the desirability of extending the sugar industry in this country is obvious, the difficulties involved are hardly less so. Apart from the difficulties attending the cultivation and manufacture of cane-sugar in all countries, the Indian industry is confronted with problems which are either peculiar to India or exist there in a special degree. The systems of land tenure exhibit great variety and are complicated by the customary laws of inheritance and joint ownership. Again, the bulk of the sugar produced in India is consumed in its crude state as *gur* or jaggery; and this fact has an essential bearing on the prospects of a successful venture for the production of factory sugar in any particular locality. There are indications that the incentive of present prices of sugar is attracting considerable attention to India as a further source of supply; and that the necessary capital and business enterprise would be forthcoming if the whole question both in its agricultural and manufacturing aspects were thoroughly investigated, and the conditions essential to the establishment

of an organised industry authoritatively defined. The Government of India are, therefore, of opinion that the time is opportune for the appointment of a representative Committee to investigate the problem in all its bearings and to advise whether a definite and co-ordinated line of policy can be laid down for the promotion of further development. They have accordingly, with the approval of His Majesty's Secretary of State, decided to appoint a Committee for this purpose during the coming cold weather, under the presidency of Mr. J. MacKenna, C.I.E., I.C.S., Agricultural Adviser to the Government of India, and with the following terms of reference:—

1. to examine the various sugarcane growing tracts of India with a view to determining the nature of the expansion possible in such tracts either by the development of a factory industry or by improvements in the existing indigenous methods;
2. to examine the possibility of consolidating the areas under cane and of the extent to which this is limited by the existing systems of land tenure;
3. to report on the work already done by the Sugar Expert with regard to the breeding and selection of improved varieties of cane and to make suggestions as to the extent and direction in which this work can be further expanded;
4. to examine the present methods of co-ordinating work on sugarcane adopted by the Agricultural Departments working in the various provinces and the efficiency of agricultural practice in vogue in India or recommended by the Agricultural Department;
5. to examine the existing sugar factory industry in India and to advise in what localities and under what conditions a factory industry can be successfully established;
6. to examine the economic and labour conditions now prevalent in the various districts where expansion of the sugar industry is likely and the question of improving railway facilities and other means of transport which may be required with a view to furthering the spread of the industry;
7. to investigate the work that is being done in the introduction of improved small power plants and small power factories;
8. to review the position of India with regard to the world's sugar supply and to formulate recommendations for the improvement of that position;
9. to investigate the conditions under which refined and raw sugar and molasses are imported into India;
10. to examine the effects of controlling such imports by a duty, and, where necessary, grading this duty so as to give preference to sugar grown in British dependencies; and
11. to examine the present conditions governing the manufacture of rum under license from Government and the question of distributing such Government contracts.

The Committee is expected to assemble on October 26th. It will tour to such extent as may be necessary for the local examination of existing conditions, and it will examine witnesses with a view to the thorough consideration of all shades of informed opinion. The Government of India trust that Local Governments and Administrations and their officers will afford the Committee all facilities for the furtherance of its investigations, and will comply with any requests for information or advice which it may address to them.

4. The Government of India are not yet in a position to announce the names of all those who will serve as members of the

the Committee ; but its composition and personnel, in so far as these have already been decided, will be as follows :—

1. Mr. J. MacKenna, C.I.E., I.C.S., Agricultural Adviser to the Government of India, *President*.
2. A member of the Indian Civil Service as Vice-President (to be nominated later).
3. The Hon'ble Mr. Lalubhai Samaldas, C.I.E., Bombay.
4. Sir Frank Carter, Kt., C.I.E., C.B.E., of Messrs. Turner, Morrison and Company, Calcutta.
5. Sirdar Jogendra Singh, Punjab.
6. Mr. J. W. Macdonald of Messrs. Henry Tate and Sons., Ltd., Sugar Refiners.
7. } Two other experts to be obtained from England (will be announced
8. } later).
9. Mr. Wynne Sayer of the Indian Agricultural Service.

In addition to the above the Committee will co-opt Mr. A. B. Shakespear, C.I.E., of Messrs. Begg Sutherland and Company, Cawnpore, as a member for the period of its tour in the United Provinces, and it is proposed similarly to co-opt a representative of the industry in Southern India. Mr. A. E. Gilliat, I.C.S., will act as Secretary to the Committee.

The Secretary to the Government of Madras, Revenue Department
 The Chief Secretary to the Government of Bombay.
 The Secretary to the Government of Bengal, Revenue Department.
 The Chief Secretary to the Government of the United Provinces.
 The Revenue Secretary to the Government of the Punjab.
 The Revenue Secretary to the Government of Burma.
 The Secretary to the Government of Bihar and Orissa, Revenue Department.
 The Hon'ble the Chief Commissioner of the Central Provinces.
 The Hon'ble the Chief Commissioner of Assam.
 The Hon'ble the Chief Commissioner and Agent to the Governor General in the North-West Frontier Province.
 The Hon'ble the Agent to the Governor General and Chief Commissioner in Baluchistan.
 The Chief Commissioner of Ajmer-Merwara.
 The Chief Commissioner, Coorg.
 The Chief Commissioner, Delhi.

ORDERED that a copy of the Resolution be communicated to all Local Governments and Administrations, to Mr. J. MacKenna, C.I.E., I.C.S., President of the Sugar Committee and to the members of the Committee and to the Finance, Commerce and Industry and Foreign and Political De-

partments, and to the Secretary to the Committee, for information

ORDERED also that the Resolution be published in the Supplement to the *Gazette of India* for general information.

J. HULLAH,

Offg. Secretary to the Government of India.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 10th October, 1919.

No. 94.—The following Statutes are published for general information :—

1. TREATY OF PEACE ACT, 1919.

(9 & 10 Geo. 5, Ch. 38.)

AN ACT FOR CARRYING INTO EFFECT THE TREATY OF PEACE BETWEEN HIS MAJESTY AND CERTAIN OTHER POWERS.

[31st July, 1919.]

WHEREAS, at Versailles, on the twenty-eighth day of June, nineteen hundred and nineteen, a Treaty of Peace (including a protocol annexed thereto), a copy of which has been

laid before each House of Parliament, was signed on behalf of His Majesty, and it is expedient that His Majesty should have power to do all such things as may be proper and expedient for giving effect to the said Treaty :

Be it therefore enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

1.—(1) His Majesty may make such appointments, establish such offices, make such Orders in Council, and do such things as appear to him to be necessary for carrying out the said Treaty, and for giving effect to any of the provisions of the said Treaty.

Power of His Majesty to give effect to Peace Treaty.

(2) Any Order in Council made under this Act may provide for the imposition, by summary process or otherwise, of penalties in respect of breaches of the provisions thereof, and shall be laid before Parliament as soon as may be after it is made, and shall have effect as if enacted in this Act, but may be varied or revoked by a subsequent Order in Council and shall not be deemed to be a statutory rule within the meaning of section one of the Rules Publication Act, 1893 :

56 & 57 Vict.
c. 66.

Provided that, if an Address is presented to His Majesty by either House of Parliament within the next twenty-one days on which that House has sat after any Order in Council made under this Act has been laid before it praying that the Order or any part thereof may be annulled, His Majesty in Council may annul the Order or such part thereof, and it shall thenceforth be void, but without prejudice to the validity of anything previously done thereunder.

(3) Any expenses incurred in carrying out the said Treaty shall be defrayed out of moneys provided by Parliament.

Short title.

2. This Act may be cited as the Treaty of Peace Act, 1919.

2. MERCHANT SHIPPING (WIRELESS TELEGRAPHY) ACT, 1919.

(9 & 10 GEO. 5, CH. 38.)

AN ACT TO MAKE FURTHER PROVISION WITH RESPECT TO WIRELESS TELEGRAPHY ON SHIPS.

[16th August, 1919.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

1.—(1) Every seagoing British ship registered in the United Kingdom being a passenger steamer or a ship of sixteen hundred tons gross tonnage or upwards shall be provided with a wireless telegraph installation, and shall maintain a wireless telegraph service which shall be at least sufficient to comply with the rules made for the purpose under this Act, and shall be provided with one or more certified operators and watchers, at least, in accordance with those rules :

Wireless telegraphy requirements.

Provided that the Board of Trade may exempt from the obligations imposed by this Act any ships or classes of ships if they are of opinion that, having regard to the nature of the voyages on which the ships are engaged, or other circumstances of the case, the provision of a wireless telegraph apparatus is unnecessary or unreasonable.

(2) The Board of Trade, in consultation with the Postmaster-General, shall make rules prescribing the nature of the wireless telegraph installation to be provided, of the services to be maintained, and the number, grade, and qualifications of operators and watchers to be carried :

Provided that no ship shall be required to carry more than one operator unless more than one operator would have been required under the provisions of the Merchant Shipping (Con-

4 & 5 Geo. 5,
c. 50.

(3) If this section is not complied with in the case of any ship, the master or owner of the ship shall be liable in respect of each offence to a fine not exceeding five hundred pounds, and any such offence may be prosecuted summarily, but, if the offence is prosecuted summarily, the fine shall not exceed one hundred pounds.

(4) A surveyor of ships or a wireless telegraphy inspector may inspect any ship for the purpose of seeing that she is properly provided with a wireless telegraph installation and certified operators and watchers in conformity with this Act, and for the purpose of that inspection shall have all the powers of a Board of Trade inspector under the Merchant Shipping Acts, 1894 to 1916.

If the said surveyor or inspector finds that the ship is not so provided, he shall give to the master or owner notice in writing pointing out the deficiency, and also pointing out what in his opinion is requisite to remedy the same.

Every notice so given shall be communicated in the manner directed by the Board of Trade to the chief officer of customs of any port at which the ship may seek to obtain a clearance or transire, and the ship shall be detained until a certificate under the hand of any such surveyor or inspector is produced to the effect that the ship is properly provided with wireless telegraph installation and certified operators and watchers in conformity with this Act.

(5) The obligations imposed by this Act shall not come into operation while the obligations with respect to wireless telegraphy on ships imposed by the Defence of the Realm Regulations remain in force, but shall be in addition to, and not in substitution for, the obligations as to wireless telegraphy imposed by the Wireless Telegraphy Act, 1904, or any Order in Council, or regulations made thereunder, or by the Merchant Shipping (Convention) Act, 1914. ^{4 Edw. 7. c. 24.}

2. The foregoing provisions of this Act shall, as from a date three months after the coming into operation of the obligations imposed by this Act on British ships registered in the United Kingdom, apply to ships other than British ships registered in the United Kingdom while they are within any port in the United Kingdom in like manner as they apply to British ships so registered.

3.—(1) This Act may be cited as the Merchant Shipping (Wireless Telegraphy) Act 1919, and the Merchant Shipping Acts, 1894 to 1916, and this Act may be cited together as the Merchant Shipping Acts, 1894 to 1919. ^{Short title and construction.}

(2) This Act shall be construed as one with the Merchant Shipping Act, 1894, and “passenger steamer” shall mean a steamer which carries more than twelve passengers, and “wireless telegraphy inspector” means an officer appointed under section twenty of the Merchant Shipping (Convention) Act, 1914, for the purposes therein mentioned. ^{57 & 58 Vict. c. 60. 4 & 5 Geo. 5, c. 50, s. 20.}

3. BRITISH MERCANTILE MARINE UNIFORM ACT, 1919.

(9 & 10 GEO. 5, CH. 62.)

AN ACT TO MAKE PROVISION WITH RESPECT TO THE BRITISH MERCANTILE MARINE UNIFORM.

[19th August, 1919.]

WHEREAS by an Order dated the fourth day of September, nineteen hundred and eighteen His Majesty in Council was pleased to prescribe a uniform to be worn by the British mercantile marine (which uniform, and any other or further uniform which may hereafter be prescribed by Order in Council in connection with the British mercantile marine, is in this Act referred to as the British mercantile marine uniform):

And whereas it is expedient to prohibit the wearing of such uniform by unauthorised persons, and to make such other provisions in relation thereto as are hereinafter contained:

Be it therefore enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

1.—(1) If any person, not being entitled to wear the British mercantile marine uniform, wears that uniform or any part thereof, or any dress having the appearance or bearing any of the distinctive marks of that uniform, he shall be guilty of an offence and liable on summary conviction to a fine not exceeding five pounds, or, if he wears it in such a manner or under such circumstances as to be likely to bring contempt on the uniform, to a fine not exceeding ten pounds or to imprisonment with or without hard labour for a term not exceeding one month:

Provided that this section shall not prevent any person from wearing any uniform or dress in the course or for the purposes of a stage play or representation, or a music-hall or circus performance if the uniform is not worn in such a manner or under such circumstances as to bring it into contempt.

(2) If any person entitled to wear the British mercantile marine uniform when aboard a ship in port or on shore appears dressed partly in uniform and partly not in uniform under such circumstances as to be likely to bring contempt on the uniform, or, being entitled to wear the uniform appropriate to a particular rank or position, wears the uniform appropriate to some higher rank or position, he shall be liable on summary conviction to a fine not exceeding five pounds.

2. Where the Board of Trade have, whether before or after the passing of this Act, registered under Part II of the Patents and Designs Act, 1907, any design forming part of the Copyright in distinctive marks of the uniform. **7 Edw. 7. c. 29.** British mercantile marine uniform, the Board of Trade shall, notwithstanding anything in section fifty-three of that Act, have a perpetual copyright in the design so long as it remains on the register.

Short title.

3. This Act may be cited as the British Mercantile Marine Uniform Act, 1919.

MINT.

Simla, the 30th September, 1919.

No. 2541-F.—In pursuance of sub-section 2 of section 3 of the Gold (Import) Act, 1917, the Governor General in Council is pleased to prescribe the following rates at which.

payment shall be made for gold taken possession of under the provisions of the said Act :—

Class of gold.	Rate.
(1) Gold coins coined at His Majesty's Royal Mint in England or at any Mint established in pursuance of a Proclamation of His Majesty as a branch of His Majesty's Royal Mint. Provided that such coins have not been called in by any Proclamation made in pursuance of the Coinage Act, 1870, or have not lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the said statute as the least current weight.	Rs. 11-2-0 per sovereign.
(2) All other gold not included in entry No. 1	Rs. 1 for every 9.778 grains troy of fine gold.

2. The notification by the Government of India in the Finance Department No. 2414-F, dated the 16th September 1919, is hereby cancelled.

NOTE 1.—Gold shipped to India on a through bill of lading before the 30th September 1919 will be paid for at the rates hitherto in force.

NOTE 2.—When firms or institutions have arranged to import gold into India and wish to avoid risks from possible variations in the acquisition rate before it is delivered to the Government of India, the Controller of Currency or, in the case of gold delivered at Bombay, the Accountant General, Bombay, will be prepared to contract on behalf of the Government of India to pay for the gold on delivery at the acquisition rate prevailing at the time the gold was purchased for shipment. Firms or institutions wishing to take advantage of this arrangement must declare the fact and date of purchase to the above officers without delay and as soon as they have received intimation thereof. The officer making the contract will take such undertaking as he thinks fit from the firm or institution to ship and deliver gold with all possible expedition for payment at the rate stated.

The India Office is prepared to make a similar arrangement with firms and institutions who find it more convenient to submit in London evidence of their having engaged gold for shipment to India.

SEPARATE REVENUE.

Income-tax.

No. 2551-F.

The 6th October, 1919.

RESOLUTION—By the Government of India, Finance Department.

The Government of India have from time to time received numerous representations regarding the allowances fixed in the various provinces on account of depreciation under the Income-tax Act. The criticisms levelled at the existing practice have alleged in some cases inadequacy in the rates allowed and, more generally, the hardship involved to various businesses on account of the prevalence of a variety of rates in the different provinces. Early in 1918 Local Governments were requested to submit their recommendations, after consulting expert opinion and Chambers of Commerce, and, apart from the rates which should be allowed in particular cases, their advice was invited on the fundamental question whether depreciation allowances should be calculated on the written down value, as is ordinarily done in the United Kingdom, or upon prime cost. In their replies Local Governments were practically unanimous in recommending that prime cost is for India the most convenient basis of calculation, but in other respects their views showed considerable diversity. The problem has been approached from different standpoints, some calculated depreciation on block, allowing different rates for different industries, while others calculated it on the various classes of plant employed, and this, combined with divergence in local conditions has made their specific proposals in matters of detail by no means uniform.

2. The Government of India after examining the various suggestions put forward by Local Governments prepared a tentative schedule of rates for universal application, harmonising to a considerable extent the diverse proposals which had been made. The problem having thus been focussed it appeared to them desirable to submit it to a more detailed examination, and they therefore requested the Board of Special Referees, appointed under the Excess Profits Duty Act, to take the opportunity of their visits to important commercial centres to consult representative opinion and to frame proposals in the light of the advice which they received. The Board accordingly discussed the question with commercial and industrial representatives in Calcutta, Bombay,

and Cawnpore and found it generally agreed that the normal basis of calculation should be the class of business concerned, and not the classes of plant or machinery employed. In accordance with this view, and with the advice on various details which they received, they have now proposed for the approval of Government a schedule of rates which they consider fair and likely to be acceptable to all concerned. They have, however, suggested that as the representatives consulted had not expert acquaintance with all the industries affected, the schedule which they have prepared might with advantage be published for general information. This suggestion the Government of India have adopted and the schedule is now published as an annexure to this resolution. Any criticisms or suggestions in respect of the rates per cent. proposed in the schedule should be communicated to the Secretary to the Government of India in the Finance Department, not later than the 1st January 1920.

Ordered that the Resolution be published in the *Gazette of India*.

Schedule.

Percentage allowances for depreciation on buildings, machinery and plant, under Section 9 (2) (vi) of the Income-tax Act, 1918.

Class of plant.	Rate suggested.	REMARKS.
	Percentage on prime cost.	
1. Buildings* :—		
(1) First class substantial buildings of selected materials	2½	*Double these rates may be allowed for buildings used in industries which cause special deterioration, such as chemical works, soap and candle works, paper mills.
(2) Buildings of less substantial construction ...	5	
(3) Purely temporary erections such as wooden structures	10	
2. Machinery and Plant† :—		
General rate	5	†The special rates for electrical machinery given below may be adopted, at firm's option, for that portion of their machinery.
Rates sanctioned for special industries :—		
Flour Mills, Sugar Works, Distilleries, Ice Factories, Aerating Gas Factories, Match Factories.	6½	
Paper Mills, Ship Building and Engineering Works, Iron and Brass Foundries, Electrical Engineering Works, Motor Car Repairing Works, Galvanising Works, Patent Stone Works, Oil Extraction Factories, Chemical Works, Soap and Candle Works, Lime Works, Saw Mills, Dyeing and Bleaching Works, Furniture and Plant in hotels and boarding houses, Cement Works using rotary kilns.	7½	
Plant used in connection with brick manufacture, optical machinery, glass factories, surgical and dental instruments, Telephone Companies, Collieries.	10	
Sewing machines for canvas or leather ...	12½	
Motor cars used solely for the purpose of business ...	12½	
Motor taxis, motor lorries, and motor buses ...	20	
3. Electrical Machinery :—		
(a) Batteries	15	
(b) Other electrical machinery, including electrical generators, motors (other than tramway motors), switchgear and instruments, transformers and other stationary plant.	7½	
(c) Underground cables and wires	6	
(d) Overhead cables and wires	2½	
4. Hydro-Electric concerns :—		
Hydraulic works, pipe lines, sluices and all other items not otherwise provided for in this statement.	2½	

5. *Electric tramways*—

Permanent way.—The life of the permanent-way is to be taken as 12, 14, or 16 years according to the traffic thereon. The classification is to be based on the average car mileage per mile of track per annum of the financial year preceding the year of assessment, viz. :—

- (1) Not exceeding 50,000 car miles per mile of track—16 years.
- (2) Over 50,000 and not exceeding 75,000 car miles per mile of track—14 years.
- (3) Over 75,000 and not exceeding 125,000 car miles per mile of track—12 years.
- (4) Over 125,000 car miles per mile of track—Special consideration.

Where there are special circumstances, such as exceptional gradients and the compulsory use of wood paving, etc., tending to show that the car mileage does not fairly represent the wear and tear of the track, each such case is entitled to special consideration.

Cost of renewals including setts or other paving but excluding concrete foundations should be taken at £1,400 per mile of single track until the general renewal of the track takes place and the allowance for depreciation should be computed at such a sum per annum as will, in the aggregate over the determined life of the permanent-way, be equal to the cost of renewal as above fixed.

Actual expenditure on repairs and maintenance should be charged as working expenses as and when incurred.

Cars and other Rolling Stock.—All maintenance of car bodies should be chargeable direct to revenue.

Depreciation on the cost of car trucks and electrical motors should be allowed at 7 per cent per annum.

General Plant, Machinery and Tools.—All other plant and machinery, machine tools (as distinct from loose tools, etc., which are renewals out of revenue year by year) should be bulked together and depreciation allowed thereon at the rate of 5 per cent per annum in addition to the cost of repairs.

Class of plant.	Rate suggested.	Remarks.
	Percentage on prime cost.	
6. Mineral Oil Companies :—		
A. Refineries—		
(1) Boilers	10	
(2) Prime movers	5	
(3) Process plant	10	
B. Field operations—		
(1) Boilers	10	
(2) Prime movers	5	
(3) Process plant	7½	

Class of plant.	Rate suggested.	Remarks.
Except for the following items :—		
(1) Below ground.—All to be charged to revenue *	Percentage on prime cost. ...	
(2) Above ground—(a) Portable boilers, drilling tools, well-head tank, rigs, etc....	25	
(b) Storage tanks ...	10	
(c) Pipe lines—		
(i) Fixed boilers ...	10	
(ii) Prime movers ...	7½	
(iii) Pipe line ...	10	
7. Ships :—		
(1) Ocean—		
(a) Steam ...	5	
(b) Sail or tug ...	4	
(2) Inland—		
(a) Steamers (over 120 ft. in length) ...	5	
(b) Steamers including cargo launches (120 ft. in length and under) ...	6	
(c) Tug boats ...	7½	
(d) Iron or steel flats, for cargo, etc. ...	5	
(e) Wooden cargo boats up to 50 tons capacity	10	
(f) Wooden cargo boats over 50 tons capacity	7½	

LEAVE AND APPOINTMENTS.

The 8th October, 1919.

No. 1764-F.E.—The privilege leave for 2 months granted to Mr. A. V. V. Aiyar, C.I.E., Assistant Secretary (sub *pro tem.*) to the Government of India in the Finance Department, has been extended up to the 11th October 1919.

The 9th October, 1919.

No. 1774-F.E.—Major H. B. Drake, I.M.S., has been appointed substantively as Deputy Assay Master, Calcutta, with effect from the 7th February 1919, the date of his reversion to the Assay Department.

Dr. W. A. K. Christie has been appointed to officiate as Deputy Assay Master, Calcutta, with effect from the same date.

The 10th October, 1919.

No. 1784 F.E.—Mr. F. W. Wilby, Assistant Auditor, Oudh and Rohilkhand Railway, has been granted privilege leave for 6 weeks, with effect from the 22nd September 1919.

SEPARATE REVENUE.
EXCESS PROFITS DUTY.

The 10th October, 1919.

No. 2633-F.—In exercise of the powers conferred by clause (a) of sub-section (2) of section 18 of the Excess Profits Duty Act, 1919 (X of 1919), the Governor General in Council is pleased to make the following rule, namely :—

Where the standard profits of any business of a class specified in the first column of the Schedule hereto annexed are calculated under clause (a) of sub-section (1) of section 6 of the Excess Profits Duty Act, 1919, at a percentage rate on the capital of the business as existing (X of 1919) at the end of the accounting period, such rate shall be that specified in the second column of the said Schedule for the class to which such business belongs.

Schedule.

No.	Class of Business.	Rate.
1	Cement works	12 per cent.
2	Coal Mines	13 per cent.
3	Iron and Steel works	14 per cent.
4	Tanned hides and skins... ..	12 per cent.

Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

CUSTOMS—WAR.

Simla, the 11th October, 1919.

No. 8268.—The following extract from the Board of Trade Journal, dated the 4th September 1919, is published for general information :—

GOVERNMENT NOTICES AFFECTING TRADE.

EXPORT SECTION.

EXPORT OF WOOL AND NOILS TOPS AND YARNS.

The Board of Trade (Export Licence Department) announce that applications for Licences to export the following materials to approved destinations will now be considered :—

Carbonised wool. •

British-grown wool.

East Indian wool.
 Cape wool.
 Wools privately imported from the countries of origin.
 Australasian wool purchased at Government Sales.
 Noils (except fine Crossbred Noils).
 Persian wool tops.
 Tops of 40's quality and under.
 Yarns.
 Wool waste.

Exporters should carefully note the following points:—

- (a) In applying for Licences for Australasian Wool it is necessary to quote the Lot numbers and the number of the Catalogue of the sale at which the wool was purchased.
- (b) Licences for Fine Crossbred Noils and for Tops of over 40's quality are granted only in exceptional circumstances and when specially allocated by the Supply Department.
- (c) Delay may be experienced in the issue of Licences for Yarns made wholly or partially of wool, owing to the necessity of limiting, in the interest of home manufacturers, the monthly exports of Yarn to a specific quantity.

This Notice supersedes all previous announcements, and due notice of any future changes in export policy will be given in this Journal.

Applications for export Licences, which must contain full description of the materials to be exported, should be addressed to the Controller, Board of Trade (Export Licence Department), 1, Queen Anne's Gate Buildings, Westminster, S.W. 1.

No. 8305.—In exercise of the powers conferred by section 3 of the Import and Export of Goods Act, 1916 (XI of 1916), the Governor General in Council is pleased to direct that the following amendment shall be made in the schedule appended to this Department Notification No. 7822, dated the 27th September 1919:—

MARINE DEPARTMENT.

Simla, the 10th October 1919.

APPOINTMENTS.

PERSONAL STAFF.

No. 97.—The Viceroy and Governor-General of India has been pleased to make the following appointment on His Excellency's Personal Staff, with effect from the 1st October 1919, *vice* Rear Admiral W. Lumsden, C.I.E., C.V.O., Royal Navy (retired) :—

To be an Honorary Aide-de-Camp.

Captain N. F. J. Wilson, C.M.G., C.B.E., Director, Royal Indian Marine.

No. 98.—With reference to Marine Department Notification No. 29, dated the 14th March 1919, the services of Engineer-Lieutenant-Commander G. N. Rowe, Royal Indian Marine, will continue to be at the disposal of the Government of Bengal for employment with the River Police for a further period of one year, with effect from the 6th November 1919.

RESIGNATIONS.

No. 99.—Engineer-Lieutenant J. C. Errington, Royal Indian Marine, is permitted, subject to His Majesty's approval, to relinquish his temporary commission in the Royal Indian Marine, with effect from the 20th September 1919.

A. H. BINGLEY, *Major-General,*
Secretary to the Government of India.

RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

NOTIFICATIONS.

Simla, the 7th October, 1919.

No. 3-T.-18.—In exercise of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, and in pursuance of section 47, sub-section (3) of the Indian Railways Act, 1890 (IX of 1890), as locally applied, the Railway Board sanction the following rules made by the Gondal Railway, under sub-section (1), clauses (f) and (g) of the said section for and to be applicable to the Gondal Railway System, for regulating the terms and conditions on which the Railway Administration will warehouse or retain goods at any station or depot on

the said Railway System, on behalf of the consignee or owner, and for regulating the use of rolling-stock, engines and trains on the said railway by the public :—

GONDAL RAILWAY.

I.—Rules for the Warehousing and Retention of Goods.

WHARFAGE.

1. Wharfage should be calculated :—

(1) Where freight is levied on weight—upon such weight.

(2) Where freight is levied on the vehicle in or on which the goods are carried—upon the carrying capacity of such vehicle.

Circumstances.	Time allowed free.	Commodities.	Rate per maund or part of a maund per day or part of a day in excess of the free time.	REMARKS.
On goods for despatch waiting to be consigned, <i>i.e.</i> , consignments brought to station but consignment notes not received.	Closing time of the day.	All descriptions of goods.	1 anna ...	Goods will in all cases be at owner's risk, until a receipt in the prescribed form has been granted, duly signed by an authorised Railway servant.
On goods available for delivery. Consignments not removed.	From time of arrival till closing time of the day following that on which consignments are made available for delivery.	„	1 anna ...	The goods shall be warehoused either under cover or in the open as space may be available.

2. A consignee must take delivery of goods forming part of a consignment whenever they are available for delivery notwithstanding that the remaining goods are short or damaged or have not arrived at their destination or are otherwise not available for delivery and, if the consignee does not take delivery of such goods forming part of a consignment as are available for delivery, they will be subject to wharfage charges if not removed within the time allowed for removal.

ON LUGGAGE AND PARCELS AVAILABLE FOR DELIVERY.

3. For unclaimed booked luggage and parcels, the following warehouse charge will be made if they are not removed from Railway premises within 48 hours from midnight of date of receipt :—

Rate per maund or part of a maund for 24 hours or part of 24 hours.			Minimum charge per package.		
Rs.	A.	P.	Rs.	A.	P.
0	2	0	0	2	0

ON CARRIAGES, MOTOR CARS AND PALANQUINS.

4. (a) Carriages, motor cars and palanquins left on the Railway premises over the Gondal Railway awaiting removal by consignee will, after the expiration

of 24 hours from the time they are available for delivery, be subject to a wharfage charge of Rs. 2 per carriage or motor car and Re. 1 per palanquin for each subsequent day or part thereof.

(b) A similar charge will be levied on all carriages, motor cars, and palanquins left on the Railway premises awaiting despatch order from consignor after the expiration of 24 hours from the time they are brought to the station, but until a Railway receipt is granted, the Railway does not acknowledge any responsibility in respect to such carriages, motor cars or palanquins which must be at owner's risk.

ON BIRDS, POULTRY AND ANIMALS.

5. For birds, poultry and animals, charges may be made as follows, after the expiry of 6 hours from the time they are available for delivery :—

Animal—1 anna per animal per hour or part of an hour.

Poultry—1 anna per head per hour or part of an hour.

Birds in baskets or crates, etc.—1 anna per cubic foot or part of a cubic foot per hour or part of an hour.

These charges to be in addition to any expenses entailed in feeding the birds, animals, etc.

Under any circumstances, live animals should be removed from the Railway premises within 24 hours, from the time of their arrival at destination, failing which they may be disposed of under section 56, clause 2, Railways Act IX of 1890.

NOTICE OF ARRIVAL.

6. The Gondal Railway does not undertake to send notice of arrival of goods and parcels to consignees ; and the absence of such notice will not entitle consignees to claim exemption from wharfage or demurrage or storage charges if goods and parcels are not removed within the time allowed. Endeavours will, however, be made at receiving stations to advise consignees, when practicable, of the arrival of their goods and parcels. The cost of advices sent by post will be borne by the Railway.

TREATMENT AND DISPOSAL OF UNCLAIMED GOODS AND PARCELS.

7. (a) Subject to the exception mentioned in rule (e) below, unclaimed goods (parcels and luggage) are kept on hand at the station to which booked for a period of not less than one month, during which time the notice prescribed in section 56, sub-section (1), of the Indian Railways Act (IX of 1890), will be issued if the owner of the goods or person entitled thereto is known.

(b) If not taken delivery of within a period of not less than one month after receipt at the station to which invoiced or waybilled, unclaimed goods, luggage and parcels will be sent to the Unclaimed Goods or Lost Property Office and dealt with as laid down in rule (f) below.

(c) Unclaimed articles will be liable to the wharfage and demurrage charges hereinbefore referred to, as well as to all freight and special expenditure incurred by the Railway on account of their custody and disposal.

(d) Where articles such as arms, ammunitions, explosives, intoxicating liquors, opium and its preparations and hemp drugs, the sale of which by unlicensed persons is prohibited by law, are left unclaimed in the possession of the Railway, they will be made over to the Police or Excise authorities for disposal under the laws affecting the article. When not of a dangerous, perishable or offensive character, they will, however, be retained in the possession of the Railway, for the same period as that prescribed for other unclaimed articles.

This rule, in so far as it relates to explosives, is supplemental to, and not in modification of, the rules made under the Indian Explosives Act.

(e) Perishable articles, unclaimed or not taken delivery of, will be disposed of by auction at owner's risk and expense by the Station Master of the station at which they may be left after the expiry of 24 hours or earlier if they are, or are likely to become, offensive.

(f) Public sales by auction will be held every quarter of the year of all unclaimed or lost property which has remained in the possession of the Railway over six months. At least fifteen days' previous notice of each auction will be given by advertisement in a newspaper.

(g) Any surplus proceeds arising out of the sale of lost property or unclaimed consignments after payment of all charges and expenses due to the Railway will be paid to the person or persons thereto entitled.

LOST PROPERTY.

8. (a) Lost Property found in Railway vehicles or on Railway premises will, subject to the exception mentioned in paragraph (e) above, be sent to the Lost Property Office, after 48 hours and will be dealt with in the same manner as unclaimed booked goods.

(b) Applications for the recovery of lost property should be made to the nearest Station Master, and also to the Traffic Superintendent, Jetalsar, marked on the outside cover "Lost Property."

(c) A fee of two annas for each article or package will be charged in addition to a storage charge of annas four per month or portion of a month during which it has remained in the possession of the Railway as Lost Property.

CLOAK ROOMS.

9. (a) Luggage may be placed for temporary custody in charge of the Station Masters.

(b) A Left Luggage ticket will be given to any person depositing luggage or parcels for custody in a cloak room and delivery will be made to any person presenting such receipt ticket, after which all responsibility of the Railway Administration in respect of such luggage or parcels shall absolutely cease and determine. The person presenting the ticket must sign his name on the ticket and enter the date. An Indemnity Bond should be executed by the owner in all cases of loss of Left Luggage receipts.

(c) Before a Left Luggage Ticket is given, the Luggage Ticket issued at the forwarding station in the case of luggage received by Railway must be collected.

(d) A charge of two annas per package for the first 24 hours or part of 24 hours, and one anna per package for each subsequent 24 hours, or part thereof, will be levied during which, the luggage or parcel remains in the cloak room.

For the purpose of this rule, Sunday, Good Friday and Christmas Day are not considered *dies non*. The charge will be calculated from the time the package is deposited in the cloak room. This time will be marked on the Left Luggage Ticket just below the date.

(e) The responsibility of the Railway Administration for articles left in a cloak room shall be that of a bailee under sections 151, 152 and 161 of the Indian Contract Act, 1872 (IX of 1872).

Articles deposited in cloak rooms, which are unclaimed will, after a period of one month, be transferred to the Lost Property Office and be dealt with as prescribed in rules for unclaimed packages.

II.—Rules for Regulating the Use of Rolling stock, Engines and Trains.

10.

DEMURRAGE.

Circumstances.	Time allowed free.	Rate per ton or part of a ton of carrying capacity per hour or part of an hour in excess of the free time.	REMARKS.
On vehicles ordered and waiting to be loaded by senders, or detained for consignment note or otherwise owing to default of or at the request of the sender.	9 hours of day-light from the time at which the vehicles are placed in position.	Rs A. P. 0 1 0	
On loaded vehicles waiting to be discharged by owners.	9 hours of day-light from the time at which the vehicles are placed in position for unloading.	Same rates as above	The Railway Administration will at its option unload the vehicles and charge the consignee for doing so and will also charge wharfage on the contents under rule. The Railway reserves the right of unloading owner's loads at destination immediately on arrival or within 9 hours of day-light after arrival. In such cases the cost of unloading will be borne by the Railway.

NOTES.—Day-light hours are reckoned as from 6 to 18 o'clock.

Demurrage will be charged for every hour, day or night, in excess of the free time.

Sunday, Christmas Day and Good Friday are not reckoned in charging demurrage.

DEMURRAGE CHARGE ON RESERVED CARRIAGES.

11. When, for the convenience of passengers, reserved carriages are detained at intermediate stations, a charge of 12 annas for an eight-wheeled carriage, 9 annas for a six-wheeled and 6 annas for a four-wheeled carriage per hour or part of an hour will be made.

The same charge applies for detention to carriages ordered by intending passengers and not used from the time the vehicle is available till the time when intimation is received that it is not required.

DEMURRAGE CHARGE FOR ENGINE.

12. A demurrage charge of Rs. 8 per hour or part of an hour on account of engine hire will be made for the extra hours if an engine of a public special train is detained *en route* at the party's request.

III.—Calculation of Charges.

13. In calculating wharfage and demurrage charges, fractions of one anna less than six pies shall be dropped and six pies and over shall be charged as one anna. Where the total amount of demurrage or wharfage due on any consignment is less than two annas, it shall be foregone.

IV.—General.

14. (a) In the event of goods requiring to be loaded or unloaded by owners becoming liable to both demurrage and wharfage charges, the Railway Administration may levy both demurrage and wharfage charges for such periods as the goods would be liable to such charges under these rules.

(b) If and for so long as the state of the traffic or any sudden emergency makes it necessary and after advertisement in the local newspapers, the rate of demurrage or wharfage may be increased and the free time may be curtailed.

(c) Sundays, Christmas Day and Good Friday will be reckoned in charging demurrage on all wagons made available for unloading on those days and stations will also be opened for unloading of wagons on those days so that merchants receiving wagons to their addresses which they are required to unload may do so.

This does not apply in the case of wharfage in which connection the above days will be treated as *dies non* as hitherto.

(d) Explosives or dangerous goods must be removed by the consignee from the receiving station during the 12 hours of day light after arrival; if this condition is not strictly complied with, the Railway administration may return the consignment to the consignor at his risk and expense.

(e) Should the wharfage or storage on actual weight exceed the demurrage charge at the wagon rate for the full time, the latter rate will be charged.

(f) The Railway Administration have the same lien on goods for demurrage and wharfage, and, if incurred, for unloading, as for freight; and these charges must be paid before the goods are removed.

The 10th October, 1919.

No. 1854-E.-19.—Mr. R. Peel, an officer under the Coal Transportation Officer, is appointed as Coal Certifying Authority, Bombay, with effect from the 1st September 1919.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, OCTOBER 11, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 18th March 1919.

On and after 29th March and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Simla, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777-79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India."

- 4867. I. J. Martin. *Improved rail fastening.*
- 4868. Holt Manufacturing Co. *Improvements in and relating to chain-track tractors.*
- 4869. Holt Manufacturing Co. *Improvements in and relating to chain-tracks for vehicles.*
- 4870. P. A. H. Mossay and Enclosed Motor Co., Ltd. *Improvements in dynamo electric machines.*
- 4871. J. Wells. *Improvements in tar extractors and scrubbers for gas.*
- 4872. B. Andrews and W. C. Averill, Jr. *Process and apparatus for treating hydrocarbons.*
- 4873. F. Handley-Page. *Connections for members of aircraft frames.*
- 4874. W. A. Brown and F. G. White. *Process for separating hydro-carbons and water.*
- 4875. A. Arent. *Improvements in or relating to the art of fireproofing and protectively treating materials.*
- 4876. Owens Bottle Co. *Means for making bottles.*
- 4877. F. J. J. Gibbons. *Improvements in metal window frames and sashes of the sliding sash type.*
- 4878. J. M. Larsen. *Improved process of storing fish.*
- 4879. Q. Sestini and T. Rondelli. *Improvements in or relating to the "bronsing" or colouring of metallic surfaces.*

September 25.

- 4880. Electrolytic Zinc Co. of Australasia Proprietary Ltd. *Improvements in the roasting of zinc sulphide ores preparatory to leaching.*
- 4881. Allison Burner Co. *Gas heater attachments for internal combustion engines.*

September 26.

- 4882. J. H. Morton. *Improvements in and connected with apparatus for drying vegetables and other substances or materials.*
- 4883. E. G. Jones. *Improvements in or relating to metal seals.*
- 4884. E. H. W. Weibull. *Improvements in roller bearings.*
- 4885. E. H. W. Weibull. *Improvements in roller cages for roller bearings with conical rollers.*
- 4886. F. A. Anderson, M. Deacon, and N. P. W. Brady. *Improvements in or relating to furnaces for distillation of coal, shale and other like substances.*

September 27.

- 4887. G. F. Rosario. *Electric night sighter.*
- 4888. J. A. Minnitt and J. A. Lee. *Automatic self-closing tap.*

PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, Council House Street, Calcutta, annas eight each.

- 3840. G. L. Fulton and H. S. Cullen. *An egg substitute and process of making same.*
- 4861. Lobnitz & Co., Ltd. *Improvements in slipper dredges.*

4572. S. Hlaing. *Detachable handle for baskets and the like.*
 4594. M. G. Farquhar and A. H. Hill. *Improvements in or relating to automatic fire arms.*
 4598. T. Furniss. *Improvements connected with concrete roofing slabs.*
 4664. E. Tribe. *Improvements in and connected with pipe joints.*
 4665. D. J. O'Leary. *Improvements in travelling rugs and fastenings therefor.*
 4666. Aktiebolaget Kvaefveindustri. *Improvements in processes for carrying out chemical reactions between gases and solid substances at high temperatures in continuous working.*
 4667. Aktiebolaget Kvaefveindustri. *Improvements in processes for carrying out chemical reactions in the presence of metals in a finely divided form.*
 4668. Clayton & Co. (Huddersfield), Ltd. *Improvements in machines for sweeping roads and other surfaces.*
 4670. International Radio Telegraph Co. *Improvements in wireless telegraphy.*
 4673. L. J. Martin. *Improved water tap.*
 4678. K. S. Sanghani. *Reinforced masonry arching.*
 4679. A. J. Marret. *Improvement of the process of tanning and preserving hides and skins.*
 4684. P. Fraser. *Improved process of manufacturing lithophone and alkali hydroxide.*
 4687. R. L. Datta. *Production of alkali chromates and inline.*
 4688. J. K. Porter and B. R. Emrick. *Improved well pump with stationary hollow plunger.*
 4689. A. Gilbert. *Improvements in the manufacture of book files for cards and the like.*
 4690. W. S. Young. *New or improved closet seat guard.*
 4695. N. P. Roe. *Railway block instrument cancelling key and signal lock.*
 4696. H. L. M. J. Benard. *Improvement in electric signal lights for marine or aerial navigation.*
 4697. H. L. M. J. Benard. *Improvements in and relating to signal lights for use in aerial navigation.*
 4698. H. L. M. J. Benard. *Improvement in signal lights for aerial navigation.*
 4704. L. J. Martin. *Improved railway wagon lock.*
 4705. H. L. Barraclough. *Improvements in the construction of reinforced concrete floors.*
 4706. W. R. Stewart. *An improved locking device for railway wagon doors.*
 4708. B. B. Das. *Float valve.*
 4711. H. A. Murtough. *Improved rail chair for use with flat footed rails.*
 4713. B. R. Emrick and J. K. Porter. *Improvement on well pump with stationary hollow plunger.*
 4718. E. E. Dutt. *A process for the manufacture of sodium carbonate.*
 4721. F. C. Griffin. *Improvements in sterilizing apparatus.*
 4722. W. G. Cook. *Improvements in concrete-slab buildings.*

CESSATION OF EXCLUSIVE PRIVILEGES.

The public are warned that entries under this heading must not be accepted as final, as under the provisions of Rules 9 and 11 of "The Indian Patents and Designs (Temporary) Rules, 1915," the Controller may extend the time prescribed by the Indian Patents and Designs Act, 1911, and by the Inventions and Designs Act, 1888, for paying the necessary renewal fees.

The Patent Office will supply on request definite information, so far as possible, as to the position of any particular Patent or Exclusive Privilege.

1909.

131. (Brettell and ors.)

1913.

1012. (Thomas Transmission Ltd.)

1915.

2184. (Dula.) 2185. (Dula.) 2187. (O'Donnell and anr.) 2188. (Nicholls.) 2190 (Harrison.) 2192. (James and anr.)

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the

public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India application should be made to the patent offices in the countries concerned.

5. Fees are payable in cash and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. Trade and property marks and names are not registered and medicines are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with pictures, photographs, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.

7. Printed Specifications of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AMMEDABAD . . .	R. O. Technical Institute.	HYDERABAD . . .	Revenue Department of His Highness the Nizam's Government.

H. G. GRAVES,

Controller of Patents and Designs.

BOARD OF EXAMINERS.

Text-books, etc., for sale.

List of Text-books, etc., prescribed for the examination (other than departmental) of Civil and Military officers in oriental languages (Urdu, Persian, Arabic, Hindi, Sanskrit, Assamese, Bengali and Uriya), together with annual collections of Specimens of Examination Papers, obtainable from the Board of Examiners, Calcutta, can be had from the Secretary, Board of Examiners, Calcutta.

Persian Instructor.

A fully qualified instructor, native of Persia, is maintained by the Government of India, for the convenience of officers wishing to study Persian. The services of this instructor may be obtained in Calcutta, on application to the Secretary, Board of Examiners.

Qualified Urdu Teachers.

ABBOTTABAD.—M. Q. Rahmat Ullah Khan, B. A., Assistant Master, Government High School, Abbottabad.

AGAR—MALWA.—M. Rameshwar Dayal, Officer's Munshi, Agar, Malwa, C. I.

ALLAHABAD.—

M. Shaikh Mohammad Ismail, South Malaka, Allahabad.

M. Syed Mazhar-ul-Husain, 253A, Mohtashim Ganj, Allahabad.

M. S. Athar Hussain Jafari, Head Maulavi, A. P. Mission High School, 257 Chak, Allahabad.

AMBALA.—

M. Mohd. Akbar Khan Haidari, The Oriental Lodge, Ambala.

M. Zafarullah Khan Haidari, Oriental Lodge, Ambala.

M. Chhote Lal, Lalkurti Bazar, Ambala.

M. Jawala Parshad, Regimental Munshi, Lalkurti Bazar.

M. Gulam Qadir, Karimullah's Compound, near H. M. High School, Ambala Cantonment.

M. Mohomed Khalil, Urdu Instructor, Mohalla Maimaran, Ambala City.

*M. M. Munzaffar Hamid Faruqi, Munshi Rasul Bakish Compound near Kali Bari.

AMRITSAR.—M. Mihruddin, C/o Messrs. Karamdin Bros., Hall Bazar, Amritsar.

AMROHA.—M. Khwaja Amir Ahmad Ansary, Government High School, Amroha.

BANGALORE.—

†M. Mukhtar Ahmad, 1, Gun Troop Road, Bangalore.

M. Ghulam Ahmed Sahib, 58, Dispensary Road, Bangalore (Cantonment).

*M. S. M. Abdullah Afzali, Officers' School of Instruction, Bangalore.

BANNU.—M. Mui Chand Khurana, Munshi Alim, Pensioner and Clerk to Afghan Medical Mission, Banna.

BAREILLY.—M. Hafizuddin Khan, B.A., Aqab Kotwali, Bareilly.

M. Basheer Ahmad, Bazaria Inayatganj (Old City).

BARRACKPORE.—M. Nisar Ahmad Khan, 89, Baker Mahal.

BELGAUM.—M. Ismail Babaji Bhaldar, 4221, Chandoo Mholla.

BOMBAY.—

†Mr. H. M. Anwar, Karelwadi, Thakurwar Road, Post No. 2, Bombay.

Mr. Musa Younus Hakim, Mustafa Lodge, Antop Hill, Matunga, Bombay.

Mr. Mohd. Shafi Ahmad Mazhari, M.A., Address.—Kerawala Mansion, Carnao Road, Bombay.

Mr. M. Abdul Salam, Moulvi Tola, Budaun.

CALCUTTA.—

M. A. M. F. Wahhab, Librarian, Calcutta Madrasah, 14, Zakaria Street.

M. A. M. Ubaidur Rashid, B.A., 4, Korabardar Lane, P. O. Wellesley.

M. Abdul Badi, 5, Ramankar Roy Lane.

M. Abdul Habib Khan, 12, Jamadar Khan Lane, Balligunge.

M. Abdul Karim Nashtar, 8, Jamadar Khan Lane, Balligunge.

M. Abdul Wajid, 106, Harrison Road.

M. Akmal Ali Akmal, 25, Nur Ali Lane, P. O., Entally.

M. Ashorus Sadain, Teacher, Calcutta Madrasah, 138/1, Karaya Road.

M. Azizun Nabi Khan 27, Karaya Bazar Road, Balligunge.

*M. Badruddin Ahmed, B.A., 3, Elliot Lane.

M. Badru-z-Zaman, 212/1, Linton Street.

†M. Daliluddin Ahmed, 37, Karaya Bazar Road, Balligunge.

M. Husain Mirza, 4/1, Collin Lane.

†M. Mirza S. M. K. Sultan, B.A., M.F., 11, Colootolla Street.

M. Mohd. Asam, 19, Tiljala 1st Lane, P. O. Balligunge.

M. Mohd. Gholam Kibriya Ibrat, 17/1, Noorallah Doctor's Lane, Balligunge.

M. Mohd. Israil Khan, 5, Doctor Karam Hossain Lane, Balligunge.

M. Mohd. Muslim, 12, Damzen's Lane, Chinapara.

M. Mohd. Qasim Khan, C/o H. A. Rahaman & Co., 44, Lower Chitpore Road.

M. Mohd. Qurban Ali Aari, 7, Onrait 1st Lane, Entally P. O.

M. Nyzamuddin, 12, Damzen's Lane, Chinapara.

M. Rashiduddin Ahmed Khan, 41, Gardner Lane, Entally P. O.

M. Raza Ali Wahshat, M.R.A.S., 2/1/2, Tiljala 1st Lane, Balligunge.

M. S. E. Haque, 41, Gardner Lane, Entally P. O.

M. S. M. Yunus, Baker Hostel, Calcutta Madrasah.

M. Shahabuddin Ahmad Siddiqi, 41, Gardner Lane, Entally P. O.

M. Syed Abu Zafar, 36, European Asylum Lane.

M. Syed Nawab Ali, 11, Colootolla Street.

CAMPBELLPORE.—*M. Din Mohammad Khan Talib, Officer Cadet Unit.

CAWNPORE.—

M. S. Abdul Ghani, Regimental Munshi, Garrison Battalion, Royal Irish Rifles.

M. S. M. Aminuddin, Regimental Munshi, 1st Garrison Battalion, Royal Irish Rifles.

DELHI.—M. Aziz-ur-Rahman (of Delhi), Regimental Munshi, The Fort, Delhi.

J. A. CHAPMAN,

Librarian.

**SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE,
 CINCHONA FEBRIFUGE, RESIDUAL ALKALOID
 AND QUINOIDINE.**

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. QUININE can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for *bona fide* public purposes. It is never sold to private persons or firms. CINCHONA FEBRIFUGE both in powder and $3\frac{1}{2}$ grain tablet forms and CINCHONIDINE can be purchased by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. QUINOIDINE or *Pure Amorphous Alkaloid* and *Residual Alkaloid* or *Amorphous Cinchona Alkaloid*, which contains about 40 per cent. of *Pure Amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance but private purchasers may use the V. P. P. system*, and are obtainable from the SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 16th May 1919 are as follows:—

SULPHATE OF QUININE.

For quantities 60 lbs. and above in one delivery	Rs. 24 per lb.
For quantities of not less than 6 lbs. but below 60 lbs. in one delivery	" 25 "
For any quantity less than 6 lbs.	" 26 "

SULPHATE OF CINCHONIDINE.

For quantities of not less than 6 lbs. in one delivery	Rs. 11 per lb.
For any quantity less than 6 lbs.	" 12 "

(Only small quantities available when in stock.)

CINCHONA FEBRIFUGE.

For quantities of not less than 6 lbs. in one delivery	Rs. 5 per lb.
For quantities less than 6 lbs. (when in stock)	" 6 "

CINCHONA FEBRIFUGE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.

The 2nd October 1919.

No. 1451—375.—In partial supersession of this office Notification No. 104-C-375, dated 17th July 1919, Mr. Mohan Singh Mehta, M.A., is appointed to officiate as 6th Professor, Government College, Ajmer, on Rs. 150 per mensem, the full minimum pay of the post, with effect from the 23rd July 1919, *vice* Mr. P. B. Joshi, 6th Professor, appointed to officiate as 5th Professor.

By order,

A. D. MACPHERSON, Lieut.-Col.,
First Assistant to the Hon'ble the Chief Commissioner, Ajmer-Merwara.

Abu, the 3rd October 1919.

Nc. 1462—1552.—In exercise of the powers conferred on him by Section 37 of the Indian Factories Act, XII of 1911, the Hon'ble the Chief Commissioner is pleased to make the following rules for the inspection of boilers in factories in Ajmer-Merwara :—

- (1) No boiler shall be used unless it is thoroughly examined at least once in every 12 months by a competent Inspector * nominated by the Commissioner.
- * This will be the Boiler Maker Foreman or his Assistant.

- (2) The Inspector nominated by the Commissioner shall, if he finds the boiler in a satisfactory condition, issue a certificate in the form annexed to these rules stating the permissibile working pressure and the period † during which he considers that the boiler may safely be used. No boiler shall be used except in accordance with the terms of such certificate.
- † not exceeding the maximum period allowable under rule (1).
- Penalty for a breach of these rules may extend to Rs. 200 under section 43, Factories Act.

- (3) The owner of a factory desiring a boiler to be inspected shall give not less than 14 days' notice to the Locomotive Superintendent, Bombay, Baroda and Central India Railway, Ajmer.

- (4) The fees chargeable for each inspection shall be calculated according to the following scale :—

	Rs.
Boilers up to 10 H. P.	12
" over 10 " and upto 20 H. P.	20
" " 20 " " 40 "	30
" " 40 " " 60 "	35
" " 60 " " 80 "	40
" " 80 " " 100 "	45
" " 100 "	50

And in addition thereto the Inspector shall receive an allowance at the rate of Rs. 4 for every night during which he is required to be absent from head-quarters *plus* the amount to be incurred in the hire of a suitable conveyance. The fees and allowance payable shall accompany all applications made under rule (3).

INDIAN FACTORIES ACT, 1911 [SECTION 18 (4)].

Form Prescribed for report of Examination of Steam Boiler.

Name and address of factory.

Name of occupier.

Description or distinctive number of boiler and type, and also nominal horse power of same.

Age—

The history should be briefly stated, or reference made to record in earlier reports.

Date of last hydraulic test (if any) and pressure applied.

Quality and source of feed water.

1. Boiler—

- (a) Was the boiler scaled, prepared and (so far as its construction permits) made accessible, sufficiently for thorough examination and for such tests as may be necessary in order to complete the thorough examination?
- (b) What parts (if any) were inaccessible?
- (c) What examination and tests were made?
- (d) Condition.
- (State any defects materially affecting the } External
permissible working pressure.) } Internal.

2. Mountings—

- (a) Are there proper mountings, including safety valve, water gauge and steam gauge?
- (b) Are all mountings properly maintained and in good working order?
- (c) Are the water gauges protected?

3. Permissible working pressure for the ensuing 12 months (subject to any conditions stated in paragraphs 4 and 5) calculated from di-

mensions and from the thickness and other data ascertained by the present examination, due allowance being made for condition of working if usual or exceptionally severe.

Repairs (if any) required, and period within which they should be executed.

Other observations.

I certify that on _____, I thoroughly examined the boiler above described and that the above is a true report of the result.

SUPPLEMENT TO

The Gazette of India.

No. 41. } CALCUTTA, SATURDAY, OCTOBER 11, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT TO THE GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

Proceedings of the Indian Legislative Council.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE INDIAN LEGISLATIVE COUNCIL ASSEMBLED UNDER
THE PROVISIONS OF THE GOVERNMENT OF INDIA ACT, 1915.
(5 & 6 Geo. V, Ch. xl.)

The Council met at the Council Chamber, Viceregal Lodge, Simla, on
Wednesday, the 24th September, 1919.

PRESENT :

His Excellency BARON CHELMSFORD, P.C., G.M.S.I., G.M.I.E., G.C.M.G., G.C.B.E.,
Viceroy and Governor General, *presiding*, and 45 Members, of whom
37 were Additional Members.

QUESTIONS AND ANSWERS.

The Hon'ble Mr. Sachchidananda Sinha asked :—

11 A.M.

1. “ (a) Has the attention of the Government been drawn to a contributed article in the *Indian Social Reformer* of Bombay of August 17th last, headed ‘ The Epidemic of Increased Salaries ’ and to an editorial note thereon in the same issue of that paper headed ‘ Economy in Public Expenditure ’ in the course of which it is stated that ‘ in our opinion the prospects of the success of the Reform Scheme are gravely imperilled by these measures ’ (increase of salaries) ?

Article in
the *Indian
Social
Reformer*
and *Times*
of India re
increase of
salaries.

(b) Has the attention of the Government been drawn to the following observations on the same subject in the *Times of India* in its issue of November 1918 :—

‘ Unless there are radical changes, one effect of this scheme (of Reforms) will be largely to increase the expense of the administration at the top, when any reasoned survey of the Indian administration must show that it is already too expensive at the top and not expensive enough at the bottom. It would not be unfair to describe the Indian administration as one where very large

QUESTIONS AND ANSWERS.

[*Mr. Sachchidananda Sinha ; Sir William Vincent.*]

[24TH SEPTEMBER, 1919.]

salaries, with very costly additions like migrations to the hills and other heavy expenses are provided for those at the top, whilst in very few cases are those at the bottom paid a living wage. None can study this question without being convinced that the greatest need of the day is economy at the top and greater expenditure at the bottom; unless there is a radical change in our ideas, these inequalities will be perpetuated and extended.

(c) Will Government be pleased to state the names of the various services, the scale of salaries of the members of which has been increased since the publication of the Report of the Public Services Commission, the amount of increase in each grade of the various services so affected for the better and the total additional cost to be incurred as the result of the reorganization schemes already sanctioned?

(d) Which are the services schemes for the reorganization of which are at present under consideration or in contemplation?

(e) Do Government propose to increase the salaries of the members of all the services that are as a rule recruited in Great Britain and Ireland, or is there any one of these which it is not proposed to bring under the salary-increasing reorganization scheme?

The Hon'ble Sir William Vincent replied :—

“(a) and (b) Government have seen the articles referred to.

(c) The attention of the Hon'ble Member is drawn to the reply given by the Hon'ble Mr. Howard to the Hon'ble Rao Bahadur B. N. Sarma on the 12th instant. In the case of most of the services mentioned in that reply grades have now been abolished, and it is therefore impossible to work out the definite comparison of cost asked for.

(d) All the services detailed as annexures I to XXIV of the Report of the Public Services Commission are, as the result of that Report, the subject of consideration.

(e) There is no general scheme for increase of salaries as suggested in the question.—The case of each service is being examined separately as the result of the recommendations of the Public Services Commission. The majority of the cases have been submitted for the orders of the Secretary of State; and the recommendations made refer not only to those sections of the Imperial Services, which are recruited in the United Kingdom, but also to those sections which are recruited in India, and to the provincial services. The Secretary of State has in a recent answer given in the House of Commons stated that he will deal with all these cases as expeditiously as possible, and the decisions arrived at will be made public as soon as they are communicated to the Government of India. In these circumstances, it is not possible to give any more definite information as to the proposals of the Government of India in the case of each service.”

The Hon'ble Mr. Sachchidananda Sinha asked :—

Speech delivered by the Hon'ble Sir Benjamin Robertson in connection with the Afghan War.

2. “Has the attention of Government been drawn to the following passage in the speech of the Hon'ble Sir Benjamin Robertson delivered by him on the 22nd of July last, as the President of the Legislative Council of the Central Provinces :—

‘If India would have to pay a heavy bill for the Afghan War, she will only be paying for the agitation against Government which influenced the Amir in his foolish enterprise.’

QUESTIONS AND ANSWERS.

[24TH SEPTEMBER, 1919.]

[*Mr. Sachchidananda Sinha; Sir William Vincent.*]

(b) Have Government in their possession any statement made by the Amir that he was either going to invade India or had done so in view of or because of any 'agitation against Government' by the educated classes of Indians? If so, will Government be pleased to quote the said statement, or to lay it on the table?

(c) If the answer be in the negative, do Government propose to inquire from the Hon'ble Sir Benjamin Robertson the basis or justification for the said observations and to embody the same in the reply to this question? If not, will Government be pleased to state their reasons?

(d) Do Government propose to discourage agitation by the Indian people for constitutional reforms because the Amir or any other head of a foreign State may be able to make it a pretext for embarking on a 'foolish enterprise'? If not, do Government propose to make a statement to that effect?"

The Hon'ble Sir William Vincent replied :—

"(a) The Government of India have seen a passage, which the Hon'ble Member has not quoted accurately, from the speech referred to.

(b) The Hon'ble Member is referred to paragraph 3 of the Home Department Resolution of May 10, 1919.

(c) Does not arise.

(d) The Government of India do not consider that the question of constitutional reforms is relevant."

The Hon'ble Mr. Sachchidananda Sinha asked :—

3. "Will the Government be pleased to state whether any instructions have been issued to Magistrates that they are to call for a report from the police and the Criminal Intelligence Department (commonly known as the C. I. D.), concerning any person applying for a declaration regarding either a press or a newspaper or a periodical and are to be guided by that report in deciding the question of declaration and the demand of security?"

Instructions to Magistrates re: declaration and demand of security from newspapers.

The Hon'ble Sir William Vincent replied :—

"The Government of India are not aware of any such instructions.

The Hon'ble Mr. Sachchidananda Sinha asked :—

4. "Will Government be pleased to lay on the table an up-to-date statement showing :—

(a) the total number of newspapers and periodicals and presses respectively dealt with under the Press Act of 1910;

(b) the names of such newspapers, periodicals and presses, together with the names of their printers, keepers, publishers or editors;

(c) the place, province and the language in which such papers and periodicals were or are printed, and the place at which the presses were or are located;

(d) the nature of the penalty imposed upon each under the said Act giving reasons for the same;

(e) the name of newspapers, periodicals and presses which ceased to exist as a result of the action taken; and

(f) the names of newspapers, periodicals and presses which could not start at all in consequence of the demand of security or refusal to grant the required declaration?"

Number of newspapers, periodicals and presses dealt with under the Press Act, 1910.

QUESTIONS AND ANSWERS.

[*Sir William Vincent; Mr. Sachchidananda Sinha.*]

[24TH SEPTEMBER, 1919.]

The Hon'ble Sir William Vincent replied :—

"The Hon'ble Member's attention is invited to the statements laid on the table on March 12th, 1917. Information for the years 1917-1919 will be collected and presented when ready."

The Hon'ble Mr. Sachchidananda Sinha asked :—

Papers, Journals and periodicals, proscribed by Government.

5. "Will Government be pleased to lay on the table a statement—

(a) showing the names of papers, journals and periodicals the circulation of which has been proscribed in the various provinces from time to time, the date of the order of proscription and the name or designation of the authority which passed the said order, and

(b) indicating the papers, journals or periodicals against which the ban still continues in one or more provinces?"

The Hon'ble Sir William Vincent replied :—

"The Government will cause information regarding the action taken during the past three years to be laid on the table during the Delhi Session. They trust that the Hon'ble Member will be satisfied with this limitation of the range of his inquiry."

The Hon'ble Mr. Sachchidananda Sinha asked :—

The Seditious Meetings Act.

6. "(a) Is the Seditious Meetings Act in force in the Lahore and Amritsar districts of the Punjab?"

(b) Is it not a fact that both these districts have been completely free from any disturbances for over four months?"

(c) If so, do Government propose to take any steps in the matter of the withdrawal of the operations of the said Act from these districts? If not, why not?"

The Hon'ble Sir William Vincent replied :—

"(a) and (b) The answer is in the affirmative.

(c) In view of the recent occurrences in these two districts, the Government of the Punjab considers that the unrestricted holding of public meetings might cause excitement and possibly result in disturbances. It does not therefore propose to withdraw the notifications issued under Act X of 1911 at present."

The Hon'ble Mr. Sachchidananda Sinha asked :—

Deportation of Dr. Ghosh of Peshawar to Burma.

7. "(a) Has one Dr. Ghosh of Peshawar been deported to Burma? Have any other persons been deported from Peshawar to Burma? If so, how many and when have they and Dr. Ghosh been deported?"

(b) Will Government be pleased to state the circumstances justifying the deportation of Dr. Ghosh and such other persons? How long is it proposed to keep them so deported?"

The Hon'ble Sir William Vincent replied :—

"(a) Yes. Dr. Ghosh and twelve others were deported from Peshawar to Burma on 13th of May last.

QUESTIONS AND ANSWERS.

[24TH SEPTEMBER, 1919.]

[*Sir William Vincent ; Mr. Sachchidananda Sinha ; Sir George Barnes.*]

(b) The persons deported were persons who had been active in fomenting feeling against Government and were thereby directly or indirectly assisting the King's enemies. They had created a state of excitement in the city and its environs which could not be tolerated when war was in progress on the adjacent frontier and when enemy agents were present and active in the city itself. It is reported that there was a plot for mobs to break out and damage a number of buildings and stores of vital military importance in Peshawar, on hearing that fighting had commenced at Landi Kotal. It was consequently decided to surround the city with a cordon of troops and to arrest certain prominent enemy agents, and at the same time to remove the persons referred to in the question whose activities were a support and encouragement to such agents. The arrests were effected with some difficulty. Arrangements have been made for the immediate release of ten of the thirteen men, and the other three will probably be released shortly."

The Hon'ble Mr. Sachchidananda Sinha asked :—

8. "(a) Has the attention of the Government been drawn to the following statement in an editorial paragraph headed 'Occasional Notes' in the *Statesman* of September 6th 1919 :—'The past few months have seen a prodigious investment of capital in new industrial ventures, some of them Indian controlled' ? Is this statement correct ?

Industrial ventures.

(b) Will Government be pleased to lay on the table a statement showing, year by year, the names of the joint stock limited liability and private limited liability companies registered in British India during the last two years (August, 1917 to July 1919) or up to such other period for which statistics may be available—the amount of the nominal capital of each and the constitution of the directorate of each as showing whether it is a foreign or an Indian concern ?

(c) Is it not a fact that by far the larger number of these companies and an overwhelmingly large percentage of the capital subscribed are owned and controlled by natives of the United Kingdom of Great Britain and Ireland ?

(d) Have Government in their possession any material tending to show that the announcement made by the Secretary of State for India, on the 20th of August, 1917, as to the gradual establishment of responsible government in this country, has deterred the United Kingdom capitalists from making investments in this country since the date of that declaration ? If so, will Government be pleased to state the same or to lay it on the table."

The Hon'ble Sir George Barnes replied :—

"(a) The only official knowledge which Government possess with regard to the subject-matter of the paragraph in question is contained in the monthly returns of new companies registered, issued by the Department of Statistics, copies* of which I lay on the table.

As regards the second part of the question I lay on the table* monthly returns from August 1917 to July, 1919, issued by the Department of Statistics, which give the names of the Joint Stock companies and Private Limited Liability companies registered during this period, and the amount of the authorised capital of each company. These statistical returns do not show the constitution of the directorates, but a list of directors is in each case filed with the Registrar of Joint Stock companies and is open to the public.

With regard to the third part of the question I invite the Hon'ble Member's attention to the reply given by Sir Thomas Holland on the 21st of March 1919 to a somewhat similar question asked by the Hon'ble Maharaja Sir Manindra Chandra Nandi of Kasimbazar, a copy* of which I lay upon the

*Not included in these Proceedings.

QUESTIONS AND ANSWERS.

[*Sir George Barnes ; Mr. Sachchidananda Sinha ; Sir Arthur Anderson.*]

[24TH SEPTEMBER, 1919.]

table for the Hon'ble Member's convenience. It will be seen from the figures given by Sir Thomas Holland for the six months ending the 31st of January 1919, that it was estimated that out of the 113 companies registered, 65 were promoted by Europeans, 44 by Indians and 3 by Europeans and Indians together. The Government have no reason to think that the relative proportions have varied widely during the last few months.

With regard to the fourth part Government have no reason to believe that the announcement of the 20th August 1917, has deterred capitalists of the United Kingdom from making investments in this country."

The Hon'ble Mr. Sachchidananda Sinha asked :—

The Bengal and North Western Railway.

9. "(a) Is it a fact that there was recently a strike on a fairly large scale by the employees of the Bengal and North Western Railway? If so, will Government be pleased to state the circumstances under which the strike occurred, the reasons urged therefor by the employees, the terms on which the strike was brought to a close and any other matters of public interest connected with the same?

(b) Are Government aware that there has been for a long series of years amongst the public of Bihar and of the United Provinces very great dissatisfaction with the working of the Bengal and North Western Railway and that at several sessions of the Provincial Conferences of both the above mentioned provinces, resolutions have been unanimously passed condemning the administration of that railway for the unpunctuality of its train services, the want of adequate passenger accommodation, especially for those travelling in the third class, the absence of proper arrangements for lighting the trains and platforms and supplying water to passengers at stations, and for failing to provide the necessary comforts and conveniences, such as through carriages to even first and second class passengers?

(c) If the answer be in the affirmative, what steps, if any, have been taken to bring about an improvement in the working of that line? If the answer be in the negative, do Government propose to institute an inquiry into the accuracy of the complaints enumerated above? If not, why not?

(d) Is it a fact that of the large and important lines in this country, the Bengal and North Western is the most cheaply worked and that it pays the highest dividend to its share-holders? Is there any other line of equal length which has paid during the last ten years a higher dividend? If so, which and when?

(e) Is it a fact that a large number of shares in the Bengal and North Western Railway are held by a peer or his family? If so, who is that peer, and how many shares does he or his family hold out of the total number?

(f) Are Government aware of the popular impression that the Government of India are unable to interfere with the administration of the Bengal and North Western Railway because of the great influence exerted on the Home Government by the said peer or his family? If so, is there any basis for the said impression? If not, do Government propose taking steps to improve the administration of the line? If not, why not?"

The Hon'ble Sir Arthur Anderson replied :—

"(a) The majority of workshop employees and a portion of the traffic staff of the Bengal and North Western Railway went on strike on the 28th and 31st

QUESTIONS AND ANSWERS.

[24TH SEPTEMBER, 1919.]

[*Sir Arthur Anderson ; Maharaja Sir Manindra Chandra Nandi ; Mr. R. A. Mant.*]

August, respectively. The Agent of the Railway has reported that no previous signs of disaffection had been shown nor had petitions been received from the workshop employees, while in the case of the traffic staff a new scale of pay had been framed and was about to be issued. The traffic staff resumed work from the 1st September and the revised scales of pay are now in force. The workshop staff have now resumed work unconditionally.

In reply to (b) and (c), individual complaints regarding this line have been received by the Government of India. The question of punctuality is one which receives constant attention, but the railway is a difficult one to work on account of the many junctions which exist on the system, a large proportion of which are foreign, and the consequent liability of through trains to detentions if connections are to be maintained. I may explain for the information of the Hon'ble Member that the railway is inspected on behalf of Government once a year. The Inspector has instructions to report on such matters as directly affect the public, namely, conveniences for third class passengers, waiting rooms, refreshment rooms and so forth, and copies of the reports for the year ending 31st March 1919 are laid on the table. Government take such action on these reports as they may consider necessary in the interests of the travelling public, but if the Hon'ble Member will bring to the notice of the Railway Board any specific cases in which public interests are considered to have been neglected on the Bengal and North Western Railway, they will be carefully investigated.

(d) It is not a fact that the percentage of working expenses to gross earnings is lower on the Bengal and North Western Railway than on any other important system, nor are the dividends declared by that company the highest. The ratio of working expenses to gross receipts is lower on the East Indian Railway, while dividends declared by the Southern Punjab Railway are higher than those distributed by the Bengal and North Western Railway. The Southern Punjab is, it is true, worked under special terms by the North Western Railway, but the percentage of gross receipts retained by the working railway is greater than that at which the Bengal and North Western is worked. For complete information as to the relative working costs and net earnings of Railways, I would refer the Hon'ble gentleman to the Administration Report issued by the Railway Board.

(e) and (f) Government have no information, nor are they aware that any impression such as that referred to by the Hon'ble Member exists in the public mind. It may be noted that the Bengal and North Western Railway proper has been constructed entirely out of funds provided by the general public, and does not enjoy any guarantee or other financial assistance from Government."

The Hon'ble Maharaja Sir Manindra Chandra Nandi
asked :—

10. "Will Government make a statement showing, province by province, the progress made in the matter of development of agricultural and other economic resources of the country, in pursuance of the resolutions adopted at the War Conferences held at Delhi and at the different Provincial headquarters ? "

The Hon'ble Mr. R. A. Mant replied :—

"The Hon'ble Member's question can conveniently be dealt with in two parts :—

(a) The development of agricultural resources ;

QUESTIONS AND ANSWERS.

[*Mr. R. A. Mant ; Maharaja Sir Manindra Chandra Nandi ; Sir George Barnes.*]

[24TH SEPTEMBER, 1919.]

(b) The development of other economic resources.

With regard to (a) the detailed information asked for is not in the possession of the Government of India. The failure of last year's monsoon, however, rendered it almost impossible, and the subsequent cessation of hostilities made it unnecessary to develop the agricultural resources of the country with special reference to war needs.

With regard to (b) it is impossible to say precisely which of the industrial activities of the Indian Munitions Board, of the Provincial Industries Departments, and of Controllers of Munitions were undertaken in consequence of the War Conferences, and which in pursuance of their pre-existing scheme of work. An account of all these activities is, however, given in the Indian Munitions Board Handbook which explains what has been done to develop India's industrial resources for war purposes ; describes some of the general industrial development which has taken place during and on account of the war ; and discusses the possibility of further development in future."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Imperial
Customs
Service.

11. "(a) How many subordinates have been appointed in the Customs Imperial Service by nomination, since 1910 ?

(b) How many of these are Indians ? Which posts were they selected from ?

(c) How many Indians are there at present in the Appraisers' Department of the Calcutta Customs House ? What proportion does the number bear to the total strength ? Has it come up to the figure laid down by the Secretary of State yet ?

(d) Were any of these ever promoted to the Imperial Service ? "

The Hon'ble Sir George Barnes replied :—

"(a) Since 1910, only one officer from the subordinate Customs Services has been permanently appointed to the Imperial Customs Service by nomination.

(b) He is not an Indian and was selected from the Bombay Customs Preventive Service.

(c) The present strength of appraisers in the Calcutta Custom House is 27, and the Bengal Civil List shows that out of these 8 are Indians. The Secretary of State for India has not laid down any rule regarding the number of Indians to be employed in the Appraisers Department.

(d) None of them have ever been permanently promoted to the Imperial Customs Service."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Admission
of Indians
into the
Appraisers'
Department.

12. "Will Government be pleased to state whether the orders of the Secretary of State governing the admission of Indians into the Appraisers' Department of the Calcutta Customs House have any reference to the Preventive Service as well ?

(a) Is it a fact that the Preventive Service has not been thrown open to Indians ?

QUESTIONS AND ANSWERS.

[24TH SEPTEMBER, 1919.]

[Maharaja Sir Manindra Chandra Nandi ; Sir George Barnes.]

(b) Have any applications for appointment in that service been received from Indians ?

(c) If so, will the Government be pleased to state how those applications have been disposed of ? ”

The Hon'ble Sir George Barnes replied :—

“ Rules based on the first Public Services Commission Report, and permitting the appointment of Indians to both the Appraising and Preventive branches of the Customs Service, were framed by the Bengal Government and approved by the Government of India and the Secretary of State in 1891. As regards the latter branch the Bengal Government represented to the Government of India in 1900 that preventive officers were subject to great exposure in all weathers, that the conditions of their service were such that no ordinary native of Bengal would be able to discharge the duties adequately, and that in fact no application from an Indian for appointment in the Preventive Service appeared ever to have been received by the Government of Bengal. The Government of India, while considering that there were practical objections to the appointment of an Indian, save in exceptional circumstances, to be a Preventive Officer, were of opinion that the time had come when the Government of Bengal should try the experiment of appointing more Asiatics to Appraiserships, as in Bombay. In 1909, at the instance of the Secretary of State, the Government of India invited the attention of the Government of Bengal to the above-mentioned orders, and requested them to issue necessary instructions to the Collector of Customs, Calcutta, with a view to the adoption of the principles which were decided on in 1900.

“ The Government of India have no information with regard to points (b) and (c). The control of the Preventive Service rests with the Local Government who make all appointments thereto.”

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

13. “ (a) Is it a fact that the Customs Club is housed free in a Government building and that the Superintendent of the Preventive Service is the ex-officio President of the Club ? Customs Club.

(b) Are Government aware that a rule has recently been passed by this Club rendering Indians ineligible for membership ? ”

The Hon'ble Sir George Barnes replied :—

“ (a) In 1916, the Government of Bengal made certain proposals for the construction of quarters for the junior members of the Calcutta Preventive Department subject to the condition that the scheme would not be carried out until financial exigencies permitted and the necessary funds were available. They proposed to provide for a Recreation Room, a Reading Room and a Billiard Room on the premises. The scheme was accepted by the Government of India, but, as far as they are aware, the quarters in question have not yet been constructed.

(b) The Government of India have no information on the point.”

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

14. “ (a) Is it a fact that the Preventive Officers of the Calcutta Customs House have submitted memorials to the Government of India for an increase Memorial for increase of pay by the Preventive Officers.

QUESTIONS AND ANSWERS.

[*Maharaja Sir Manindra Chandra Nandi ;
Sir George Barnes.*]

[24TH SEPTEMBER, 1919.]

in their scale of pay on the ground of their present emoluments being insufficient ?

(b) Are Government aware that qualified Indians are available for service as Preventive Officers on the existing scale of pay ? "

The Hon'ble Sir George Barnes replied :—

" (a) No memorial has been received by the Government of India from the Preventive officers of the Calcutta Customs House for an increase in their scale of pay for a number of years past until two days ago, when a memorial was received from them through the Government of Bengal for the substitution of an incremental system of pay for the present graded system, on the grounds that the latter has now become obsolete and that the present rate of pay is no longer sufficient owing to the high cost of living at the present time.

(b) The Government of India are not aware that any qualified Indians are available for service as Preventive Officers on the existing scale of pay. They understand that the question of appointing Indians to this branch of the Custom House has been engaging the attention of the Collector of Customs for a considerable time lately, and that that Officer reports that, though he has interviewed one or two likely candidates, he has not found anyone who could be regarded as suitable for the Service."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Register of
applicants
for appointment to the
Preventive
Service.

15. " (a) Is it a fact that the Superintendent of the Preventive Service keeps a register of applicants for service in the department in which they are divided into two classes :— (a) Educated and (b) Uneducated ?

(b) If so, how many of class (b) are now in the Department ? "

The Hon'ble Sir George Barnes replied :—

" The Preventive Service is under the control of the Local Government and the Government of India have no information on the subject. "

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Indian
Preventive
Officers.

16. " (a) How have the non-Indian Preventive Officers worked in the Calcutta Customs House ?

(b) How many of these have been dismissed, suspended or compelled to retire during the last twelve months for suspected smuggling or acceptance of bribes ?

(c) Are there Indian Preventive Officers in the other ports ? "

The Hon'ble Sir George Barnes replied :—

" The answer is the same as to the previous question, namely, the Preventive Service is under the control of the Local Government and the Government of India have no information on the subject."

QUESTIONS AND ANSWERS.

[24TH SEPTEMBER, 1919.]

[Mr. W. E. Crum ; Mr. R. A. Mant ;
Rai Sahib Seth Nathmal.]**The Hon'ble Mr. W. E. Crum** asked :—

17. " With regard to the statement in paragraph 132 of the Report of the Industrial Commission that there is no longer any justification for the expenditure of Indian revenue on the Imperial Institute, will Government be pleased to state :—

Expenditure of Indian Revenue on the Imperial Institute.

- (a) what annual grant is paid to the Imperial Institute ;
- (b) whether they are aware that it is held in certain quarters that the work of the Imperial Institute is of considerable value to merchants ; and
- (c) whether they will consult Chambers of Commerce before taking action in the matter ? "

The Hon'ble Mr. R. A. Mant replied :—

" (a) An annual grant of £1,300 is paid to the Imperial Institute from Indian revenues, namely :—

	£
(1) a maintenance grant to cover all charges in connection with the Indian Section other than the Scientific and Technical Department of the Institute.	1,000
(2) For the Scientific and Technical Department	... 200
(3) Half the pay of the Indian representative appointed by the Secretary of State on the Managing Committee of the Institute.	100

The institute also enjoys the interest on a special sum of £34,000 contributed by India, which was invested as an Endowment Fund.

(b) The Government of India are aware that the Imperial Institute is occasionally consulted by merchants in India, but they anticipate that inquiries on commercial subjects will in future be addressed mainly to the Indian Trade Commissioner in London who has been appointed for the special purpose of giving assistance of this nature.

(c) The Government of India are in correspondence with the Secretary of State on the subject of continuing their contributions to the Institute, and they cannot at present give any undertaking on the subject ? "

The Hon'ble Rai Sahib Seth Nathmal asked :—

18. " What is the present financial position of the Indian People's Famine Trust Fund ? How much money from the Fund has been allotted during the present scarcity and famine season and to what provinces, and what were the amounts allotted to each such province."

Indian People's Famine Trust Fund.

The Hon'ble Mr. R. A. Mant replied :—

" Owing to the absence on tour of the Honorary Secretary to the Fund I am unable to give an accurate statement of its present financial position, but I lay on the table a statement* showing the assets of the Fund on the 31st

*Not included in these Proceedings.

QUESTIONS AND ANSWERS.

[*Mr. B. A. Mant ; Rai Sahib Seth Nathmal ; Sir George Barnes ; Mr. Shafi.*]

[24TH SEPTEMBER, 1919.]

December 1918. On that date the Endowment Fund was Rs. 28,10,000 and the other assets amounted to Rs. 12,89,032-10-3. During the present famine and scarcity the following allotments have been made :—

						Rs.
Bombay	4 lakhs.
United Provinces	3 lakhs.
Central Provinces	1 lakh.
Madras	20,500."

The Hon'ble Rai Sahib Seth Nathmal asked :—

Unclaimed
balances
in Banks.

19. "(a) Is it a fact that there are large unclaimed balances left with the various banks and assurance companies throughout India, that the amounts in most cases have been unclaimed for generations past, and that the amounts have been absorbed by the banks and included in their assets ?

(b) Do Government propose to cause a return to be made by the various banks of the balances left with them as unclaimed during the past twelve years and take steps to recover the amounts as having escheated to the Crown and at the same time make legal provision absolving the banks from any future responsibility to claimants once the deposits or claims have been made over to the Government after the statutory period ? "

The Hon'ble Sir George Barnes replied :—

"The Government of India have no information regarding the unclaimed balances left with the various banks and assurance companies. The point raised by the Hon'ble Member will, however, receive consideration."

The Hon'ble Rai Sahib Seth Nathmal asked :—

The Influenza
epidemic.

20. "(a) What was the number of deaths in the various provinces during the period of last influenza epidemic ?

(b) What sum, if any, was allotted by the Government of India for the relief of distress to the various provinces ?

(c) How much money has been spent by the various Local Governments from the provincial funds, and how much by the local bodies from their own resources ?

(d) Do the Government of India propose to place at the disposal of the Local Governments substantial grants from their funds and also to instruct the Provincial Governments to help the local bodies to the fullest extent to relieve distress ? "

The Hon'ble Mr. Shafi replied :—

"(a) The number of deaths from all causes during the period of the influenza epidemic of 1918 is shown province by province and month by month in the statement* which is placed on the table.

(b) No application for financial assistance was received from any province, and consequently no allotment was made by the Government of India.

(c) The information, as far as available, is to be found in the reports of Sanitary Commissioners. Further information will be requested and the replies, when received, will be laid on the table.

QUESTIONS AND ANSWERS.

[24TH SEPTEMBER, 1919.]

[*Mr. Shafi ; Sir William Vincent ; Rao Bahadur B. N. Sarma ; Mr. H. F. Howard.*]

(d) Expenditure on combating epidemics such as influenza, forms a charge upon provincial revenues. The Government of India are able to assist by the supply of influenza vaccine. The steps which have been taken by the Government of India in this and other matters are explained in a circular letter from the Education Department no. 441, dated 14th July 1919, which was published at the time. It will be seen that Provincial Governments were asked to assist local bodies in the distribution of vaccines. It also appears from the reports of Sanitary Commissioners that during the epidemic of last year Local Governments gave assistance to local bodies. Thus, in the Central Provinces, grants amounting to Rs. 2,60,000 were made for this purpose and in the United Provinces all applications for financial assistance received from local bodies were immediately sanctioned in full."

21. "What is the number of the printing presses and newspapers against whom action has been taken (a) since the 30th March, 1919, (b) since the commencement of the war, and the nature of such action and the amount of security forfeited?"

Printing
Presses and
Newspapers

The Hon'ble Sir William Vincent replied :—

"The Hon'ble Member is referred to the answer given to a similar request for information made by the Hon'ble Mr. Sachchidananda Sinha."

The Hon'ble Rao Bahadur B. N. Sarma asked :—

22. "(a) Will Government be pleased to state whether in originally fixing the salaries of Europeans in the various departments of Government, the exchange value of the rupee was taken into consideration and, if so, at what rate it was so taken ?

Rate of ex-
change in
fixing the
salaries of
Europeans
in depart-
ments of the
Government.

(b) Will Government be pleased to state whether in fixing the increase in the emoluments of Europeans in (a) the Indian Civil Service (b) the Army and (c) the other services, the salaries and allowances and pensions payable were fixed in sterling and then converted into rupees, and, if so, at what exchange rate they were so fixed ?"

The Hon'ble Mr. H. F. Howard replied :—

"(a) Without a very exhaustive search into old records, it would not be possible to say whether, when salaries of Europeans in the various departments of Government were originally fixed, the exchange value of the rupee was taken into consideration; but the Hon'ble Member will readily recognize that not only would the search be very laborious, but even should it appear that in some cases this was a factor in deciding pay, it would have little bearing on present circumstances, since not only have rates of pay been frequently revised in the interval without reference to this factor, but the purchasing power of the rupee has greatly varied.

(b) In no case in which recommendations have been made of recent years for the increase of pay of Europe recruited members of the services has the general principle been followed of fixing salaries or pensions in sterling and subsequently converting them into rupees. Such recommendations as have been made are based on the purchasing power of the rupee in India."

THE PROVINCIAL INSOLVENCY (AMENDMENT) BILL; THE
INDIAN ARMS (AMENDMENT) BILL; THE INDIAN
COINAGE (AMENDMENT) BILL; THE CANTONMENTS
(AMENDMENT) BILL.

[*Sir George Lowndes; Sir William
Vincent; Mr. H. F. Howard; His
Excellency the Commander-in-Chief.*]

[24TH SEPTEMBER, 1919.]

THE PROVINCIAL INSOLVENCY (AMENDMENT) BILL.

11-24 A.M. **The Hon'ble Sir George Lowndes:**—"My Lord, I have the honour to present the Report of the Select Committee on the Bill further to amend the Provincial Insolvency Act, 1907."

THE INDIAN ARMS (AMENDMENT) BILL.

11-25 A.M. **The Hon'ble Sir William Vincent:**—"My Lord, I move that the Bill further to amend the Indian Arms Act, 1878, be taken into consideration."

"I may take the opportunity of informing the Council, with reference to the remarks made by the Hon'ble Major Sir Umar Hayat Khan Tiwana and the Hon'ble Mr. Sinha on a previous occasion, that we are consulting Local Governments on the specific questions referred to by them."

The motion was put and agreed to.

The Hon'ble Sir William Vincent:—"My Lord, I move that the Bill be passed."

The motion was put and agreed to.

THE INDIAN COINAGE (AMENDMENT) BILL.

11-26 A.M. **The Hon'ble Mr. H. F. Howard:**—"My Lord, I beg to move that the Bill further to amend the Indian Coinage Act, 1906, be taken into consideration."

"I need only add to what I said the other day that specimens of the new four and eight-anna nickel coins have now been prepared and are available for any Hon'ble Members to see, who would be interested to do so."

The motion was put and agreed to.

The Hon'ble Mr. H. F. Howard:—"My Lord, I move that the Bill be passed."

The motion was put and agreed to.

THE CANTONMENTS (AMENDMENT) BILL.

11-27 A.M. **His Excellency the Commander-in-Chief:**—"My Lord, I beg to move that the Bill further to amend the Cantonments Act, 1910, be taken into consideration."

The motion was put and agreed to.

His Excellency the Commander-in-Chief:—"My Lord, I beg to move that the Bill be now passed."

The motion was put and agreed to.

THE CINEMATOGRAPH (AMENDMENT) BILL ; THE INDIAN
COMPANIES RESTRICTION REPEALING BILL ; THE
INDIAN MERCHANT SHIPPING LAW AMENDMENT
BILL.

[24TH SEPTEMBER, 1919.]

[*Sir William Vincent ; Mr. H. F. Howard ; Sir George Barnes ; The President ; Rao Bahadur B. N. Sarma.*]

THE CINEMATOGRAPH (AMENDMENT) BILL.

The Hon'ble Sir William Vincent:—"My Lord, I move that the Bill to amend the Cinematograph Act, 1918, be taken into consideration. 11-27 A.M.

"This Bill has been published since I introduced it and I have received no amendments or criticisms from any Members of this Council."

The motion was put and agreed to.

The Hon'ble Sir William Vincent:—"My Lord, I move that the Bill be passed."

The motion was put and agreed to.

**THE INDIAN COMPANIES RESTRICTION REPEALING
BILL.**

The Hon'ble Mr. H. F. Howard:—"My Lord, I move that the Bill to remove the restrictions imposed on the withdrawal of capital from the money-market by Companies be taken into consideration." 11-28 A.M.

The motion was put and agreed to.

The Hon'ble Mr. H. F. Howard:—"My Lord, I move that the Bill be passed."

The motion was put and agreed to.

**THE INDIAN MERCHANT SHIPPING LAW AMEND-
MENT BILL.**

The Hon'ble Sir George Barnes:—"My Lord, I beg to move that the Bill further to amend the Indian Merchant Shipping Acts, 1859 and 1883, be taken into consideration." 11-29 A.M.

The motion was put and agreed to.

The Hon'ble Sir George Barnes:—"My Lord, I beg to move that the Bill be now passed."

At this point the Hon'ble Mr. Sarma rose.

The President:—"I am afraid the Hon'ble Member is too late. The Council has assented to the motion that the Bill be taken into consideration."

The Hon'ble Sir George Barnes:—"I think my Hon'ble friend is under the impression that we are dealing with the next Bill on the list."

The Hon'ble Rao Bahadur B. N. Sarma:—"I am sorry."

The motion was put and agreed to.

**THE IMPORT AND EXPORT OF GOODS (AMENDMENT)
BILL; THE INDIAN PAPER CURRENCY (FURTHER AMEND-
MENT) BILL.**

[*Sir George Barnes ; Rao Bahadur B. N. Sarma ; Mr. H. F. Howard.*]

[24TH SEPTEMBER, 1919.]

**THE IMPORT AND EXPORT OF GOODS (AMENDMENT)
BILL.**

11-30 A.M.

The Hon'ble Sir George Barnes :—" My Lord, I beg to move that the Bill to extend the operation of, and otherwise to amend, the Import and Export of Goods Act, 1916, be taken into consideration. "

11-31 A.M.

The Hon'ble Rao Bahadur B. N. Sarma :—" My Lord, I earnestly request the Council to take into consideration the question as to whether it would not be well to postpone the consideration of this important Bill to another date. My Lord, I must confess that I had not the Act with me when this Bill was introduced on the last occasion, and I did not realise the importance of the subject at the time. The time at my disposal was so very short, that I could hardly understand the true significance of this Bill. I venture to say that this Bill is one of the most important of the Bills that has been introduced during this Session into this Council, because it enables the Governor General in Council to continue the policy which was in force during the war and which has been allowed to be in force for six months after the war for another period of two years and a half. Under this Act XI of 1916 the Governor General in Council may by notification in the Gazette of India prohibit or restrict in any way he may specify in such notification the import or export of all or any goods or any class of goods from or to any country or place or from or to any person or class of persons. This gives very wide powers and affects the commercial community very closely. I know perfectly well that your Excellency's Government can pass an Ordinance, can also come here with its official majority and carry any measure it likes at any time it pleases. But, my Lord, I pray that sufficient time may be given to the public at large, to the agricultural community which would be affected by this Bill, as well as the Commercial community, to consider what the provisions mean and how they would be affected by them. The Bill was introduced, as I said, only last week ; it was directed to be published in English. Well it is too late for me to quarrel on that point. But where was the time for the people to consider and understand the true significance of this Bill? I submit that absolutely no opportunity has been given to the public to understand what the significance of this Bill is. Now, under this Bill the Governor General in Council

11-33 A.M.

The Hon'ble Sir George Barnes :—" May I say one word, my Lord. I understand that the Hon'ble Mr. Sarma's objection is that sufficient time has not been given, and I admit that the time has been very short. The present Act will be in force till the Delhi Session for it remains in force for six months after the end of the war and the official end of the war has not yet arrived. I am willing, therefore, to fall in with the Hon'ble Member's suggestion that the Bill should be postponed till the Delhi Session, if the Hon'ble Mr. Sarma really thinks that any purpose will be served by the postponement."

The Hon'ble Rao Bahadur B. N. Sarma :—" I thank the Hon'ble Sir George Barnes for having consented kindly to postpone the consideration of this Bill till the Delhi Session. I have studied the Bill myself and have formed certain opinions on it ; but it is for others than myself that I am speaking, and on their behalf I thank the Hon'ble the Commerce Member for his kindly consenting to postpone this Bill."

The motion was by leave withdrawn.

**THE INDIAN PAPER CURRENCY (FURTHER AMEND-
MENT) BILL.**

11-35 A.M.

The Hon'ble Mr. H. F. Howard :—" My Lord, I beg to move for leave to introduce a Bill further to amend the Indian Paper Currency (Amend-

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT) BILL.

[24TH SEPTEMBER, 1919.]

[Mr. H. F. Howard.]

ment Act, 1917, and to amend the Indian Paper Currency Act, 1918. The effect of this Bill will be clear to Hon'ble Members from the Statement of Objects and Reasons. Briefly, it proposes to give Government powers firstly to increase their issue of currency notes against securities by 20 crores, raising the maximum from 100 to 120 crores, and, secondly, to hold as part of their paper currency reserve gold acquired by the Secretary of State on their behalf if held in the United States or in transit therefrom to India.

"I wish to say at the outset that it is with great reluctance that the Government have found themselves forced to bring this measure before the Council. I think, however, that I can very shortly convince the Council that they have no other alternative. Briefly, the position is this. During the war we were obliged to meet a very large amount of expenditure by issuing short term debt. That amount of debt has since remained outstanding and has increased. Though I do not pretend that our position is as difficult or critical as it was many times during the war, it has for the past few months been extremely difficult, and in the last week or two it has become absolutely acute, so much so, that the Controller of Currency, who is responsible for the provision of funds at places where they are wanted, is finding it impossible to carry on. I have just referred to our short term debt. The amount of our treasury bills outstanding has for some time past stood at a level of about 50 crores; it dropped a little while the loan was under flotation, but it is now rising again, and we have also been obliged, during the course of the last month or so, to take large ways and means advances from the Presidency Banks; these ways and means advances amount at the present time to Rs. 13 crores. Just to show what sort of difficulty we have to meet, I shall give an account of the position with which we were faced at the commencement of the present month. Our incomings in India were estimated to be no less than 20 crores less than our outgoings, those outgoings including payment of treasury bills amounting to no less than 13 crores. The obvious ways of bridging this gap may be said to be three in number, firstly, by issuing more treasury bills, secondly, by taking further ways and means advances from the Presidency Banks and, thirdly, by securing remittances of gold or silver from the Secretary of State. As regards treasury bills, we have recently increased the rates, and we hope that it may be possible during the current month to cover the September maturities. This, however, is merely postponing the evil day, for most of the fresh bills which we are at the present moment selling are three-month bills which will mature in December. We are thus merely throwing forward our liabilities to a date when matters will probably be still more difficult for us. When the busy trade season comes on and the trade demand for money becomes brisker, there will naturally be more difficulty in meeting these bills.

"Next, as to the advances from the Banks, we took Rs. 8 crores last month and Rs. 5 crores this month; and at present it seems improbable that the Presidency Banks will let us have any more. In fact here again as the busy season goes on, it is more likely that they will have to ask us for repayment of some of the advances already outstanding. The unhappy Finance Department, therefore, is in the position of a juggler who is compelled to spend his life trying to keep a large number of plates in the air at once, none of which he can afford to allow to fall to the ground.

"Turning now to remittances of treasure, the Secretary of State has fortunately been able to secure a substantial amount of gold for us. I need not say anything about silver as, I think, Hon'ble Members are fairly cognizant of the position as regards silver. The Secretary of State has, however, secured a substantial quantity of gold for us and this is, or will shortly be, on the way to India; and we hope we will be able to go on obtaining help in this way. It is for this reason that we are asking Council to allow us to take into account as part of our currency reserve this gold after purchase and while it is in transit. It is of course far less objectionable to issue notes against gold in this way than

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT) BILL.[*Mr. H. F. Howard.*]

[24TH SEPTEMBER, 1919.]

against securities. While it is in the reserve it forms the best backing that we can have for our notes, apart from our silver rupees, and, when we come to issue the gold or to sell it, it automatically redeems the notes.

“ There is a possible fourth method of course of relieving our position, namely, to reduce the amount of Councils which the Secretary of State is now selling, but I am sure that no Hon'ble Member would in the present circumstances, difficult as the exchange position is, wish us to adopt this course. Later on, the position will, we hope (though our hopes are not always realised), become easier if the recent alterations which the Secretary of State has effected in the gold acquisition rate, and the relaxation which he has made in the control and restrictions exercised over exchange, do operate to stimulate the private import of gold. That will of course reduce the demand on us for meeting the Secretary of State's Council drawings.

“ Looking a little further forward, October, November and December are all deficit months. In December, as I have just said, we shall have a very large number of treasury bills to meet. I think that we have already about 15 crores of maturities banked up in that month. Unless, therefore, the Secretary of State is able to help us to bring back our funds from London to India more rapidly than we can at present anticipate, the time will come when we shall obviously not be able to carry on; and we shall in that case therefore be driven to fall back on a further issue of notes issued against our funds held in London which will of course then be held in the Paper Currency Reserve in the form of securities. It is just conceivable indeed that we may be able to carry on by hook or crook for another few weeks or even for a month or two; but it seems inevitable that, before this Council meets at Delhi, we shall be obliged to have recourse to the expedient which is now before the Council. We felt that it would be extremely undesirable, with this obvious necessity impending over us, to defer taking these powers till the adjournment, when we should have necessarily to proceed by Ordinance; and we thought that it was essential that we should place our position frankly before the Council, and ask them to give us the necessary powers now. I should like at this stage to express my regret that we have been obliged as it were to spring the matter on the Council at such short notice and ask them to pass this Bill through at a single sitting; but this necessity has arisen from our very reluctance to have recourse to the step we now propose till the last possible moment, and it is for this reason that we have deferred our appeal to the Council until we were absolutely forced to make it.

“ I should like, however, to assure the Council that we have no intention of using these powers prematurely. We shall only use them as we require them bit by bit, for we are as much convinced as any Hon'ble Member here present of the undesirability of increasing unduly our fiduciary issues. I can say at once that we have no intention of indulging in an indefinite issue of currency notes which would endanger the stability of our issues and lead to the risk of suspension of their encashment. During all the anxieties of the war we steadily avoided that calamity, for so it would then have been, and managed to carry on, although, as I think, everybody knows, it was a case more than once of 'touch and go.' Now we can reasonably feel confident that the spectre of inconvertibility has been safely laid. We are in a far stronger position now than at any time during the latter part of the war. I will give some comparative figures, for instance, of the amount of our reserves. At the beginning of July last year, that is, when the reserves had been greatly depleted at an anxious time, our total circulation was 115 crores; against that we held a metallic backing of 36 crores only, that representing a percentage of 31. By the middle of September last, that is to say, practically about a year ago, our circulation was 134 crores and the metallic reserve 48 crores, the percentage having risen to 36. Our total circulation is now 169 crores; against that we hold a metallic reserve of 70 crores, the percentage having

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT)
BILL.

[24TH SEPTEMBER, 1919.]

[Mr. H. F. Howard.]

risen to 41. In other words, during 15 months our metallic reserves have risen two-fold, from 36 to 70 crores. Apart from that, we are at present in a much stronger position as regards encashment in several ways. The unrest and unsettlement of the past years has passed away, the difficulties in respect of our notes have disappeared, and people have got accustomed to them. We also hope that the Secretary of State will now be sending out more gold to help us to build up our reserves, any gold that we are selling being more than set off by this, while our sales of gold should tend to reduce the demand on us for rupees. Last, but not least, of our total reserve at present of 70 crores no less than 32 crores are held in coined rupees, and we have 18½ crores of uncoined bullion, a total of 50 crores of silver, which is far more than our total metallic reserve was a year ago.

"There is, however, another aspect of these possible additions to our currency about which the Council will probably expect me to say something, since this point was raised by Mr. Mant in a debate the other day, namely, their effect on prices. Mr. Sarma, I think, hit the right nail on the head when he expressed the opinion that the real difficulty of our situation in this respect was not merely inflation of currency within India, but consisted in the great inflation of currencies and the serious rise in prices all over the world. With this view I fully agree. To put the matter in the widest way the effect of additions to the currency of an individual country with a world-wide trade is necessarily distributed or dissipated over price levels of the world as a whole. Our additions to the currency have been on a far smaller scale than the additions that have been made elsewhere. This is a very abstruse and technical matter, and I can only touch on the fringe of the technicalities of such a question. Perhaps I can best illustrate India's position by a simile. It is that of a lagoon connected by a channel with the sea. When the tide rises outside the water must flow through the channel into the lagoon, naturally causing its level to rise till it reaches the sea level. This is what would have happened in India in normal conditions. With the balance of trade setting strongly in her favour money must have flowed in in one form or another, whether through the Secretary of State's Council Bills or by the import of gold to be tendered at our currency offices in exchange for internal currency, with the result that internal prices would naturally rise. But in practice there have been restrictions on trade, and control has been exercised in various ways, with the result that the channel into our lagoon has been choked, and the water level inside has not risen as rapidly as the tide outside. We have had at the same time our local deluges, with the result that the water in the lagoon has also been added to by streams flowing down from the land—possibly set off by evaporation, where the circulation has disappeared through the hoarding of rupees. Consequently the level of our lagoon is still below that of the level outside. In other words, our price levels have not risen to the same extent as they have elsewhere.

"There is another very important factor in the price question to which I should like to refer. It is one on which Mr. Mant very rightly laid great stress the other day, it is the effect of higher exchange on prices. Much as we deplore the lack of stability in exchange and its consequences to trade, the increase has had one great counterbalancing advantage. A higher exchange is the best and most important mitigant of higher prices. I thought of pursuing my simile rather further and saying that we have in effect now constructed a lock between the lagoon and the sea, which will now prevent it from continuing to rise with the tide outside. But that would not explain exactly what has occurred, so I had better mix my metaphors and explain that the higher exchange has had the effect of causing a real change of gear between rupee prices and prices in sterling in countries outside.

"I expect some Hon'ble Members to say 'that is all very well, but what is to be the end of it?' I can only answer that there is no immediate

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT) BILL.

[*Mr. H. F. Howard ; Rao Bahadur B. N. Sarma.*]

[24TH SEPTEMBER, 1919.]

and sovereign remedy, but, I think, we may hope that as the air clears and as matters become more normal and there are signs of this, we shall gradually be able to bring back to India our reserves in London and at the same time to fund our temporary debt in India. At the same time, it is essential from the facts of our position, as I have stated there, that we should use every possible measure to conserve our financial resources. I cannot do better than quote Sir James Meston on this subject :—‘ Coupled with courageous outlay on essentials of progress, a strict economy in all non-essentials will in the near future be more necessary than it has ever been’.

“ My Lord, I do not wish to conclude these remarks on a note of pessimism. Difficult as matters undoubtedly are in many ways, we have at any rate the comfort, it may be cold comfort, that we are suffering much less from the financial aftermath of the war than almost any other country. The very difficulties to which our embarrassments have largely been due, namely, those connected with the exchanges, are in a way evidence paradoxically enough of the fundamental soundness of our position. It is more than 50 years since 10 rupees could buy £1 sterling, and generally the pronounced strength of our foreign exchanges itself shows that the purchasing power of the rupee has undergone far less depreciation than is the case with currencies elsewhere, and this fact is a sure index of India’s solvency and indeed of her high credit.”

“ There is just one word of explanation which I would like to offer before I close. This legislation is temporary legislation, because it amends Acts which are in themselves temporary Acts and lapse six months after the termination of the war. We shall of course have later on to reconsider the whole question of our currency reserves and their constitution after we have received and considered the Report of the Committee on Exchange and Currency.”

11-59 A.M.

The Hon’ble Rao Bahadur B. N. Sarma :—“ My Lord, we have listened to a very clear and lucid exposition of the whole position, and we must convey the obligations of the commercial community to the Government for making the situation clear. I am not a pessimist. We have struggled through the war, and I am sure we shall struggle hereafter also successfully. But, my Lord, I feel that we shall not be doing our duty to the Government of India or to His Majesty’s Government if we do not clearly say that our interests must be considered to be of paramount importance, and that this tinkering cannot go on very much longer, as it would involve a poor country like India in manifold difficulties. My Lord, at the Delhi Session we were looking very hopefully to the statement of the Hon’ble the Finance Member for stability in our currency. The Hon’ble Sir James Meston hoped that it might be possible even to reduce the note issue. In paragraph 75 of his speech the Hon’ble Sir James Meston said :—‘ The second task before us is some contraction of the Paper Currency. Four years ago, the effective circulation of Notes was under 60 crores : to-day it is close on 150 crores’ . Then he went on describing the various evils. ‘ Some of us would probably like to go further, and reduce the Outstanding Note circulation until we hear no more of forced discounts in the country-side and their hardships on the people ; but it is not easy to see how this adjustment can be effected until silver comes out of hoards and resumes its duty as a circulating medium. ’

“ From this speech we had at any rate some hope that the Note issue will not be added to, but we have been grievously disappointed. From 150 crores the Note issue has gone up to 169 crores in the space of about five or six months. Well, I do not say that the Government enter into this Note issuing process with an easy heart. But, my Lord, what is the real position ? We find large funds belonging to us locked up in London. We find that our exports are much in excess of our imports, and consequently large sums of money are due to us from the outside world. In the ordinary course of things it is met by our imports of bullion and we can only get the value in the form of gold or silver.

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT) BILL.

[24TH SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma; Mr. W. E. Crum.*]

because we take it that all merchandise are included under the head of 'Imports.' Now gold and silver we cannot get in the normal course of trade, because the interests of other countries will not permit of this normal channel to be used for the purpose of equalising the trade balance between India and other countries of the world. Well, then, Council Bills have to be paid. That means to say the export merchants, the agriculturists who export their produce, have to be paid either in silver coin or in Notes. Silver is also very highly priced. The net result is we multiply our currency both by way of increasing the metallic currency if possible as well as the Note Issue. We are thankful to the Government of India for so far trying to back up every Note issued by metal. That is sound and safe, but there is no going away from the fact that for every rupee we are coining, we are also issuing from the press one-rupee Notes, that is, we are increasing the Note circulation by two-fold. My Lord, there is one danger, namely, if we cannot go on multiplying silver, which is itself a danger, we go on multiplying the Notes, *i.e.*, we have to issue Note Currency in the absence of silver. That is a great danger ahead. I am afraid that even during the flotation of the recent loans printing presses were placed at the disposal of the Presidency Banks for getting the notes and the loans back from this, and I am very glad to see that the Hon'ble Mr. Howard recognises that it is very dangerous to go on like that. But what is the sequel? We are now asked to give our consent to the issue of 20 crores of rupee notes against British Treasury Bills. That means to say, not a penny worth of gold or silver need come into India to reduce the trade balance, I mean the Bills which would issue, they are in themselves good, but here we have to manufacture notes to the value of 20 crores of rupees and give them to the public to meet the demands of exports or imports. That is an extremely unsatisfactory state of things, and, I think, we shall have to tell His Majesty's Government and the Secretary of State representing our interests that they should not be allowed to go on one minute longer like this. The normal channels must be opened to the Indian public just as they are to other countries. The normal imports of gold must be the only channel.

"My Lord, the Hon'ble Mr. Howard said that it is recognised every where that to a certain extent prices of foodstuffs would rise if the currency be increased. That is acknowledged every where. Of course, its exact ratio cannot be told, but it has that effect if things are allowed to go on as at present. In a poor country like India, her commercial interests and the interests of the poor people demand that we should not add to our Note Issue or currency any longer. I therefore implore the Government to do its level best to impress upon His Majesty's Government to safeguard the interests of Indian trade and Indian agriculture which are supreme in this matter, that the normal channels should be allowed to be utilised for the purposes of reducing the Note Issue, and that we cannot afford to lock up more money in England for the purpose of multiplying our notes here and pay the people with these Notes.

"With regard to the second aspect of the question, of course the thing is not so bad. Of course, we have gold to back our Note Issue, but, I think, my remarks with regard to the increase of currency will apply to this question also. I therefore hope that it would not be considered by His Majesty's Government that the Indian public do not feel keenly this apparent neglect of our interests. I sympathise with their difficulties, but at the same time we as a poor people cannot afford to ignore our interests any longer and now that the war is over, I hope there will be no addition to this Note Issue, and that the Hon'ble Mr. Howard will find it possible not to issue Notes to the value of 20 crores of rupees as he proposes."

The Hon'ble Mr. W. E. Crum :—"My Lord, I should like first to congratulate the Hon'ble Mr. Howard on the extremely lucid exposition he

12 P.M.

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT) BILL.

[*Mr. W. E. Crum ; Mr. H. F. Howard.*]

[24TH SEPTEMBER, 1919.]

has given us of the currency position and the necessity for the present amendment, and there is no question about it that the Council must support this amendment whole-heartedly. At the same time, the position is such that I do not think it should be allowed to pass entirely without comment. Mr. Howard has told us that since July 1918 the note circulation has risen from 115 to 169 crores, and of course since pre-war days I fancy it has nearly trebled. There is a very satisfactory feature, however, of this rise since July 1918, and that is that, whereas the note circulation has risen by 54 crores, out of that 44 crores has been backed by precious metal, and the increase in security backing is only 10 crores.

"Now, my Lord, there is one point about this redundancy of currency which I do not think has been brought out, and that is that, as prices rise, so currency also must increase, and when it is said that the increase of currency in India affects the prices and thereby increases prices, it must also be borne in mind that the increase of prices outside India demand in India a great increase of currency. And therefore I do not think that we can entirely blame the Government of India for the increase of currency, because to a certain extent that is necessary.

"Then, my Lord, we have got the point that whereas before the war the treasury and other balances held in the United Kingdom were only £30 millions, they have now gone up to something over £100 millions; and by issuing Councils, as the Hon'ble Member has pointed out, which are absolutely necessary for the trade of the country, we only increase that balance on the wrong side. Well it is very necessary, and I agree with Mr. Sarma in that, that this balance should be righted as soon as possible, and I do think there is a feeling that the Secretary of State has not quite used the opportunities that he might have, both in buying silver at certain times and in buying gold. I think when the Hon'ble Mr. Howard was in Calcutta the other day the opinion was expressed in certain quarters that the Secretary of State perhaps might have looked forward to the busy season of August, September, October, when money is always wanted for export here, and that a considerable time ago he might have foreseen the possible rise in silver and bought silver. At the same time, though I understand that he is now doing everything he can to buy gold and get gold from any quarter from which it is available, I think there is a feeling that he has to some extent missed his market with regard to gold. And I would on behalf of the commercial community, very strongly urge on the Government of India that they should do everything in their power to persuade the Secretary of State to increase his purchases of gold, and as soon as possible to transfer that balance which is in England over to this side."

12-5 P.M.

The Hon'ble Mr. H. F. Howard :—"My Lord, I would like to make one or two remarks with reference to what has fallen from Mr. Sarma and Mr. Crum. The first point which I wish to mention is, the very technical one which Mr. Crum has raised, and incidentally Mr. Sarma has also raised, as to the relation between cause and effect of currency and prices. This question is always, from the nature of it, extremely difficult to answer. It is as troublesome as the old puzzle whether the first hen came out of an egg, or the process was initiated by the first hen laying an egg. But I rather intended to imply by my lagoon simile very much what Mr. Crum said, namely, that, though our successive additions to currency no doubt do cause prices to rise or facilitate their rising, they are to some extent necessitated by the rise which has taken place in prices. Let us just place before ourselves for a moment what would happen if we refrained from making such additions. It is possible that the effect of this might be temporarily to keep down prices. But what would the result of that be? The first person it would hit would be the agriculturist whom Mr. Sarma said he was anxious to help. Transactions in his produce

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT)
BILL.

[24TH SEPTEMBER, 1919]

[Mr. H. F. Howard ; the President]

would become impossible. Again, business and industries would be hampered and unemployment and discontent would follow. I do not think I need go beyond India for an example of this. I do not know whether Mr. Crum can remember as far back as 1900 or 1901. I am not certain of the exact year. That was a time about seven or eight years after the closing of the mints when large amounts of gold were being imported into India. The Government of India had thought at that time that they were not going to have to coin rupees at any rate for a considerable time. As a result of this, this gold was tendered, on arrival in India, to the Government of India at their currency offices and mints and the hungry exporter wanted rupees in return. There were no rupees, and the condition of business at that time I believe, until Government could buy silver and put more rupees into circulation, was very grave indeed. The fact is that in all these cases currency is really the flux which makes capital fluid. Unless there is enough currency, business becomes difficult and impracticable. I saw curiously enough only a day or two ago in the papers another very striking instance of this kind—where an increase in currency *followed* a rise in prices—in the case of Siam. There was a great external demand for Siam's rice, but prices of rice in Siam had risen very considerably. The cultivators wanted to sell, but they would only sell at a certain price; and as a result, in order to get out the rice at that price, it was necessary to double the note issue in a very short period of about three months. I have forgotten what the figures were; they were expressed in *tikals*, I think, a currency with which I am not very familiar.

"I should like to add a few words about what Mr. Crum said about the possibility of our bringing back our funds from London. In this matter we are rather between the devil and the deep sea. We are asked on one hand to help trade by selling Councils—we have had several pitious appeals to sell more Councils,—and, on the other hand, we are asked to move our funds back to India. The effect of selling Councils is to take our funds home. But the Secretary of State is fully conscious of the necessity of doing what he can do to help us by acquisition of the precious metals. But even without the Secretary of State in the market the price of silver has, during the last two or three months, gone up from the low fifties and even during the last day or two has crept up to 62 pence an ounce. What would have happened if the Secretary of State had been buying large quantities of silver? I can only answer Mr. Crum by asking a question myself. As regards gold, the Secretary of State is fully alive to the importance of securing gold. It is possible he might have secured certain consignments to which Mr. Crum referred, about £5 millions which are popularly believed to have gone to Japan and South America; but after all gold was practically unprocurable till about three months ago. The United States had a prohibition on its export. The Bank of England had contracts with mines within the Empire, and they would not let gold go. The Secretary of State could not get hold of it if he had wanted to. Now he has been able to make a start—I believe he has got about five millions so far—and, I hope, he will be able shortly to get considerably more."

The motion was put and agreed to.

The Hon'ble Mr. H. F. Howard:—"My Lord, I introduce the Bill and I also move your Excellency to suspend the Rules of Business to admit of the Bill being taken into consideration."

The President:—"I suspend the Rules of Business."

The Hon'ble Mr. H. F. Howard:—"My Lord, I move that the Bill be taken into consideration."

The motion was put and agreed to.

THE INDIAN PAPER CURRENCY (FURTHER AMENDMENT)
BILL; THE INDEMNITY BILL.

[*Mr. H. F. Howard ; Sir William Vincent ; Pandit Madan Mohan Malaviya ; the President.*]

[24TH SEPTEMBER, 1919.]

The Hon'ble Mr. H. F. Howard:—"My Lord, I move that the Bill be passed."

The motion was put and agreed to.

THE INDEMNITY BILL—(contd.)

12-13 P.M.

The Hon'ble Sir William Vincent:—"My Lord, I move that the Bill to indemnify officers of Government and other persons in respect of certain acts done under martial law, and to provide for other matters in connection therewith, be taken into consideration.

"The main principles of this Bill have been fully debated only a few days ago, and it would be idle for me now to waste the time of the Council by covering the same ground again. Such details as have been criticised by Hon'ble Members are the subject of amendments which are before the Council, and I need not address Council in regard to them at present."

12-14 P.M.

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord I beg to propose that the Bill be referred to a Select Committee. This is a very important Bill, my Lord, it involves very important questions of law, and, I submit, it is not a measure which should be hurried through the Council without its provisions being examined in a Select Committee. I suggest, my Lord, that the Select Committee should consist of the Hon'ble the Law Member, the Hon'ble the Home Member, the Hon'ble Sir Edward Maclagan, His Excellency the Commander-in-Chief, the Hon'ble Mr. Sarma, the Hon'ble the Maharaja of Kasimbazar, the Hon'ble Mr. Sinha, the Hon'ble Sardar Sundar Singh Majithia, the Hon'ble Mr. Crum and myself. There will be no harm, my Lord, if the Bill is delayed a little while; its provisions are so important that they ought to be examined in Select Committee. I therefore move that the Bill be referred to a Select Committee consisting of the Hon'ble Members whose names I have mentioned

The Hon'ble Sir William Vincent:—"Do I understand that the Hon'ble Member is moving an amendment to the motion?"

The President:—"Is the Hon'ble Member moving an amendment to the motion which is on the paper?"

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord I have put forward what I had to say, I do not wish to add to or subtract from it."

The President:—"What I want the Hon'ble Member to give me a clear answer to is this. Is the Hon'ble Member putting forward an amendment to the motion which is on the paper?"

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, I do not know whether I should call it a technical amendment. I am endeavouring on the motion before us to put forward the proposal that I have put forward, for the consideration of this Council. If a technical amendment is needed, my Lord, I will say that it is a technical amendment, but, I submit, that it is not necessary that there should be an amendment. On a motion made by the Hon'ble the Home Member, I am entitled to put forward the view I have done for the consideration of the Council."

The President:—"The Hon'ble Member is perfectly within his rights to oppose a motion which is before the Council, but if the Hon'ble Member wishes to move an amendment, he must move it now. I take it from the Hon'ble Member that he is opposing the motion and not moving an amendment."

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; Sir William Vincent ; the President ; Sir George Lowndes.*]

The Hon'ble Pandit Madan Mohan Malaviya :—" My Lord, if an amendment is the only proposition which is before the Council on a question like this, I put it forward as an amendment."

The Hon'ble Sir William Vincent :—" Then, my Lord, I take objection to the motion, on the ground that I have had no notice of the amendment."

The Hon'ble Pandit Madan Mohan Malaviya :—" I submit, my Lord, that the Rules do not require notice. I beg your Excellency to refer to the Rules."

The President :—" Will the Hon'ble Member refer me to the rule under which there is no necessity to give notice in the case of an amendment such as he proposes ? "

The Hon'ble Pandit Madan Mohan Malaviya :—" I think, your Excellency, that the Member who objects should show under what rule it is necessary. If the Hon'ble the Secretary of the Council will send me a copy of the Rules, I will refer your Excellency to it."

The Hon'ble Sir George Lowndes :—" May I suggest that the practice here is, when we have got a motion before the Council, your Lordship as President has only that one motion to put to the Council. It is only if an amendment is moved to it, that your Excellency can put another motion to the Council. At present there is only the one motion before the Council."

The President :—" It is true that, under rule 28, when a Bill is taken into consideration by the Council, any Member may propose an amendment of such a Bill of which three days' notice should be given. What the Hon'ble Member suggests is not an amendment of the Bill, and, I think, he is in order and the Hon'ble Member can move the amendment as he proposes. Do I understand the Hon'ble Member has moved the amendment ? "

The Hon'ble Pandit Madan Mohan Malaviya :—" My Lord, I beg to move the amendment which I have placed before the Council."

The motion was put and negatived.

Then the motion that the Bill be taken into consideration was put and agreed to.

The Hon'ble Sir William Vincent :—" My Lord, I move as an amendment—

12-22 P.M.

' That in the preamble of the Bill for the words 'it has been necessary for the purpose of maintaining or restoring order to resort to martial law' the words 'martial law has been enforced' be substituted.'

" During the debate on this Bill it was apparent from the speeches of many Hon'ble Members that the recital in the preamble was interpreted by them as a quasi-admission that this Legislative Council accepted the view that the declaration of martial law was necessary ; among other Members, my Hon'ble friend, Mr. Sinha, drew particular attention to this point. I then said that we would consider the question of amending the preamble, and the present amendment is proposed to give effect to that intention and to make it abundantly clear that there is nothing in the Bill which can in any way be interpreted

THE INDEMNITY BILL.

[*Sir William Vincent ; Rao Bahadur B. N. Sarma ; the President ; Mr. Sachchidananda Sinha ; Sir George Lowndes.*]

[24TH SEPTEMBER, 1919.]

as meaning that this Council has ratified or admitted the necessity for the enforcement of martial law.

"The amendment as proposed merely makes a statement of absolute fact, which no one can controvert, that martial law was enforced."

The motion was put and agreed to.

The Hon'ble Rao Bahadur B. N. Sarma :—"I think, my Lord, the 2nd* and 3rd* amendments on the list would fall to the ground having regard to the acceptance of the first."

The President :—"That is so. No. 4† goes as well."

The Hon'ble Mr. Sachchidananda Sinha :—"My Lord, the amendment I propose is"

The Hon'ble Sir William Vincent :—"My Lord, may I suggest that, with your Lordship's permission the Hon'ble Mr. Sinha should take up this amendment, which is really a consequential one, along with a subsequent amendment of his."

The Hon'ble Mr. Sachchidananda Sinha :—"I shall do so with your Lordship's leave. I propose that—"

'In the second clause of the preamble the word 'certain' be inserted between the words 'indemnify' and 'officers'

and I also propose

The President :—"I think if the Hon'ble Member would postpone this until he comes to the clause, it will be more convenient to take it on the clause."

The Hon'ble Mr. Sachchidananda Sinha :—"I shall do so, my Lord. I now propose that in the same clause 2 of the preamble the words 'purporting to have been ordered or done' be omitted. The reasons for the proposal are these. Acts which are either done or ordered to be done for the purpose of maintaining or restoring order are acts which we can all understand. But it is difficult to understand acts to which the words in the preamble refer, namely, acts 'purporting to have been ordered or done'. As this might cause some confusion without any substantial object being gained, so far as I know, I propose that these words be omitted."

The Hon'ble Sir George Lowndes :—"My Lord, the Government are not prepared to accept this amendment. The words are perfectly innocent in themselves, and they appear in most of the indemnity clauses, which so often find a place in our Acts. The object is to avoid any dispute as to whether an act was actually done for a particular purpose or only intended so to be done though it may not have effected that purpose. Assuming that there is any question as to whether any act was done in good faith and in the belief (we shall come to that point later) that it was necessary for a particular purpose,

The Hon'ble Rao Bahadur B. N. Sarma :—

* 2. That for the first paragraph of the preamble the following be substituted, namely :—

'Whereas for the purpose of suppressing the recent disorders in certain districts of the Punjab and in other parts of India, and restoring order therein martial law has been resorted to';

3. 'That the words 'maintaining or' in paragraph 1 of the preamble be omitted.'

† **The Hon'ble Mr. Malaviya** :—

4. 'That in the first clause of the preamble, the words 'maintaining or' be omitted.'

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Sir George Lowndes ; Mr. Sachchidananda Sinha ; Pandit Madan Mohan Malaviya ; Sir William Vincent ; Rao Bahadur B. N. Sarma.*]

its justification ought not to depend upon whether as a matter of fact the purpose was attained ; if it was intended to attain that purpose, the act ought to be covered by the Indemnity. When we come to the question of good faith, Hon'ble Members have got many amendments on the paper, and they may possibly succeed in striking out the words in that clause ; if so then it might be reasonable to omit these words ; but we could not omit them at the present stage. I am quite willing, my Lord, to defer a vote on this amendment until we have done with the 'good faith' amendments, if my Hon'ble friend thinks there is any chance of their being carried ; but I do not think there is any great chance of that. "

The Hon'ble Mr. Sachchidananda Sinha:—"As to the question of any chance of our amendments being carried, I have not the slightest hope at all ; I would not defer consideration on that account."

The motion was put and negatived.

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, I beg to move 'that in the second clause of the preamble, the words 'maintaining or' be omitted. My Lord, it is an abnormal position to my mind for which no support is found in the ancient Statutes of Parliament, though it may be found in some of the more recent enactments in some of the Colonies, that you should resort to martial law for maintaining order. Maintenance of order should be secured by the ordinary police assisted, when it may be necessary, by the military troops. I therefore submit that these two words 'maintaining or' should be omitted from the second clause of the preamble. "

The Hon'ble Sir William Vincent :—"My Lord, I submit that it is essential that these words 'maintaining or' should be retained. It will be obvious to Members of this Council that once martial law is declared, or enforced, officers of the Government have not only to suppress active disorder, but they have to maintain order as well. For instance, my Lord, supposing there was a disorderly mob about to collect for some improper purpose, it would in such circumstances obviously be necessary for the military commander to issue orders prohibiting the assembly, and, if necessary, prevent such assembly by force. Otherwise indeed his position would be an impossible one ; he would have to wait until mischief was begun and then begin to suppress it. It will be clear to the Council therefore, I hope, that the retention of these words is absolutely necessary. "

The Hon'ble Rao Bahadur B. N. Sarma:—"My Lord, I think that the Hon'ble the Home Member might reconsider this question. His objection to Mr. Malaviya's amendment is, that during the suppression of a disorder, order has to be maintained ; it can only be maintained under martial law, and consequently the words 'maintaining or' would be thoroughly appropriate, because there would otherwise be no one to maintain order during that period.

"What is mentioned here is 'or for the purposes, the general purposes of maintaining or restoring order.' That raises a large question, namely, whether in future where disorders are to be suppressed martial law can continue for the general purpose of maintaining order, if the officers charged with the duty of suppressing disorders should be indemnified under this Act in respect of acts done after the disorders had been suppressed. My submission is that this would lead to the acceptance by the Legislature of the principle that martial law can be resorted to by the Government for the purpose of maintaining order although they had suppressed disorders, and that any person who uses extreme measures

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma ; Sir George Lowndes ; Pandit Madan Mohan Malaviya.*]

[24TH SEPTEMBER, 1919.]

thereafter for maintaining order should be protected. The ordinary law is that the civil arm must meet all contingencies and maintain order once violent armed rebellion is suppressed. My submission is that we in this legislative assembly should not accept any other principle. I do not want to raise this question merely for an argumentative purpose. I submit that this Act will be quoted as a precedent. It may be open to a future Government, whenever a riot cannot be quelled, to have recourse to martial law. The police and the magistracy have the right to invite the co-operation of the military for the purpose of quelling a riot and all necessary force can be used, but the civil power and the military assisting it have to take cognisance of the fact that if unnecessary force be used the officers would be liable to punishment. I do not think there have been any cases where the officers in such circumstances have been protected by an Indemnity Act. I will quote a passage from Dicey showing that protection lasts only as long as the necessity lasts for suppressing disorder, but no longer. This is what Dicey says :—

‘ Martial law in the sense in which the expression is here used, means the power, right or duty of the Crown and its servants, or, in other words, the Government, to maintain public order, or in technical language the King’s peace at whatever cost of blood or property may be in strictness necessary for that purpose. Hence martial law comes into existence in times of invasion or insurrection where and in so far as the King’s peace cannot be maintained by ordinary means, and owes its existence to urgent and paramount necessity. The point to be borne in mind is, that the power to exercise martial law which is not ill described by an expression known to the American Courts, namely, that of ‘ War power ’ as it originates in so it is limited by the necessity of the case. The only principle on which the law of England tolerates what is called martial law is necessity, its introduction can only be justified by necessity, its continuance requires precisely the same justification of necessity and if it survives the necessity on which alone it rests for a single minute it becomes instantly a mere exercise of lawless violence.’

There are a number of other passages :—

‘ Such legal right or duty always lasts so long and so long only as the circumstances exist which necessitate the use of force.’

“ My submission is that the Government would be right in asking for the protection of their officers during the suppression of the rebellion and for the purpose of maintaining order during that period, but they cannot ask and they should not ask this Council for the acceptance of this novel principle that whenever order cannot be maintained by the police and the military force is used, its officers should be indemnified. I therefore submit that the words ‘ maintaining or ’ should be omitted in the second preamble.”

12-38 P.M.

The Hon’ble Sir George Lowndes :—“ My Lord, as I pointed out the other day, martial law steps in when the ordinary civil courts are unable, I use the words deliberately, to maintain order or to suppress disorder. The Hon’ble Pandit and the Hon’ble Mr. Sarma have suggested that the insertion of the word ‘ maintaining ’ created a new doctrine without a precedent. It is, if I may say so, nothing of the sort. It is inconceivable to me that Mr. Sarma should say this after reading the passage he did from Dicey. Let me read it again :—

‘ Hence martial law comes into existence in times of invasion or insurrection when, where, and in so far as the King’s peace cannot be maintained by the ordinary means.’

The Hon’ble Pandit Madan Mohan Malaviya :—“ What page ? ”

The Hon’ble Sir George Lowndes :—“ My Lord, I decline to be interrupted by the Hon’ble Pandit. When the ordinary courts cannot

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Sir George Lowndes; Pandit Madan Mohan Malaviya; the President.*]

maintain order or suppress disorder, you must have martial law. The maintenance of order is one of the definite objects with which martial law is put into force. The Hon'ble Pandit also said that there was no precedent for this, and yet during the past few days I have lent him and every Member of this Council who has asked for them, the South Africa Acts which are the latest examples of martial law and Indemnifying Acts. In each one of them you find that martial law was used for maintaining order. I will not trouble the Council with many extracts, I will read the first that comes to hand. Section 1 of the Act of 1900 says—my Hon'ble friend will find the same in them all—

All acts, matters and things whatsoever in good faith advised, commanded, ordered directed or done, as necessary for the suppression of hostilities or the establishment and maintenance of good order and government.'

It is the same in most of the older Acts. We are introducing nothing new, nothing without precedent."

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, the Hon'ble the Law Member quotes a sentence from Dicey in which he says that where order cannot be maintained by the civil courts martial law steps in. That is very different from saying that that sentence gives support to the proposition he advances. Our point is that you do not find this authority in the Acts of Parliament. You had some authority in the three Acts of Parliament but, my Lord, these three Acts of South Africa ought not to be a model as against the Acts of Parliament. I should like the Hon'ble the Law Member to quote any Act of Parliament in which for the purposes of maintaining order martial law has been justified. Then, my Lord, I gave a certain authority which the Hon'ble the Law Member will not disregard

The Hon'ble Sir George Lowndes :—"My Lord, may I interrupt?"

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, I object."

The Hon'ble Sir George Lowndes :—"Very well. The Hon'ble Member does not want it. It is there."

The Hon'ble Pandit Madan Mohan Malaviya :—"The Hon'ble the Law Member was afraid to let me have the page of his quotation, which is the smallest courtesy that any Member of this Council is entitled to. We are coming to bad ways."

The President :—"I quite agree. Will the Hon'ble Member proceed."

The Hon'ble Pandit Madan Mohan Malaviya :—"Thank you, my Lord.

"Now, the Earl of Halsbury in Vol. VI of the Laws of England says :—
 'The Crown may not issue commissions in time of peace to try civilians by martial law : but when a state of actual war, or of insurrection, riot, or rebellion amounting to war exists, the Crown and its officers may use the amount of force necessary in the circumstances to restore order, and this use of force is sometimes termed martial law. When once this state of actual war exists, the Civil Courts have no authority to call in question the actions of the military authorities ; but the powers of the military authorities cease and those of the Civil Courts are resumed *ipso facto* with the termination of the disorder.'

"I submit, my Lord, that this is an authority which the Hon'ble the Law Member cannot disregard or make light of, and it is entirely in support of the

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Rao
Bahadur B. N. Sarma.*]

[24TH SEPTEMBER, 1919.]

proposition which I have put before the Council, namely, that the words ' maintaining or ' should be omitted from the second clause of the preamble."

The motion was put and negatived.

The Hon'ble Rao Bahadur B. N. Sarma:—" My Lord, I beg to move that in paragraph 2 of the preamble the words ' in a reasonable belief that they were necessary ' be omitted.

" My Lord, as far as I can see, the words used in all the enactments dealing with Acts to indemnify officers are ' done in good faith as necessary for the said purpose.' I have not been able to come across these additional words ' in a reasonable belief that they were necessary.' On that ground alone I might ask the Council to follow the precedents set to us by the Legislature of various countries and drop the words ' in a reasonable belief that they were necessary', because they would lead to an inquiry of a somewhat elaborate character on which no safe conclusions can be come to. But I have a greater objection, and it is this. As the Bill stands, the person who comes into the Court to seek redress will have to show two things, first of all, the act of which he complains was not done in good faith, and, secondly, that it was not done in a reasonable belief that the act was necessary for the purpose. I would first like to ask the Hon'ble the Law Member to explain clearly for what purpose these additional words have been used, and how they would not be covered by the same words ' good faith,' and if some additional meaning is sought to be imported, what that additional meaning is. But as they stand, my difficulty is, the person aggrieved will have to prove two things instead of one thing which generally he is asked to do by almost every Legislature. Then with regard to the words ' reasonable belief.' Supposing a person has to show that an officer did not believe that an act was necessary, I think it is almost impossible for him to prove it. But you may say that the words ' reasonable belief and in good faith ' are there. There, my Lord, comes in the difficulty. Supposing in a particular community there is a belief entertained that particular measures, however wrong they may be from the moral standpoint, are necessary for achieving a certain end. Now, taking the moral atmosphere of Germany, for instance, it was considered by all alike, professors, philosophers of law, philosophers of morality, by military men and in fact by all classes, that certain measures which were condemned by the rest of humanity as non-civilized methods could be employed. Well, if you are to judge a German officer labouring under that impression, could not these words ' reasonable belief ' protect him, because he believed that they were necessary, the atmosphere in which he moved led him to believe that they were necessary also. Therefore, if you are to judge him by that standard; certainly he ought to be protected. Similarly, supposing the atmosphere in the Punjab in those days was such that the several gentlemen who were responsible felt that there must be a deviation, a departure from standards which are generally considered to be humane and civilized. I need hardly allude to the Salaaming order and several other orders that were passed to which allusion has already been made, because it will only tend to embitter feelings and do no good. There are certain orders which cannot be justified by any standard of morality. Now supposing the officers, having regard to the mental atmosphere surrounding them believed that those acts were necessary and reasonable, my Lord, will they be protected? I submit an elaborate inquiry of that description might be opened, I will not say would be opened, but might be opened, if the various theories on which States like India are held and can be held in subjection are to be brought before the law Courts. Therefore there is no precedent for it, it might lead to various difficulties, and I therefore earnestly request that these words be omitted."

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Sir George Lowndes; Pandit Madan Mohan Malaviya.*]

The Hon'ble Sir George Lowndes :—" My Lord, I regret I am unable either to omit these words or to explain any more clearly to my Hon'ble friend Mr. Sarma than I did on the last occasion what the real intention and object of the words are. We had a clear admission of the propriety of this clause in his previous speech when he asked us to adopt the actual wording of the South Africa Acts which the Hon'ble Pandit so violently disputed.

" I explained last time that the words 'in a reasonable belief that the acts were necessary' are only a translation from the wording of the South Africa Acts; we could of course use the actual words of the South Africa Acts, that is, acts 'done as necessary.' I think this means 'done as being necessary,' that is, the acts were so done because the men who did them believed that they were necessary. We do not stop there. We say 'reasonably believed' that they were necessary. We only propose to indemnify men who had a reasonable belief that their acts were necessary. I am sure the Council will accept this as at all events a fair translation of the words which my Hon'ble friend Mr. Sarma would have preferred to have in the Bill.

" Then he talked about the mental atmosphere being immaterial. He forgot, I am sure, the quotation which I read from the speech of perhaps one of the greatest Lord Chancellors in the House of Lords. I quoted it at some length and I do not propose to read it again,—it is here and my Hon'ble friend can see it if he wishes to. Lord Thurlow says that you must take into account the mental atmosphere, that you must consider the circumstances under which a man had to make up his mind as to what he should do in an extreme emergency, and if he made up his mind reasonably, you should not consider *ex post facto* whether the acts he did were necessary. The real test should be whether he had a reasonable belief at the time that they were necessary, and did them in good faith. If Hon'ble Members are going to insert amendments like this in an Act which is intended to protect officers who did their duty in good faith under very trying circumstances, I say an Indemnity Act from this Council is not worth having."

The motion was put and negatived.

The Hon'ble Pandit Madan Mohan Malaviya :—" My Lord ¹²⁻⁵ I beg to propose that—

'In the second paragraph of the preamble for the words 'and in a reasonable belief that they were necessary for the said purposes,' the following be substituted :—

'necessarily and properly, in furtherance and execution of the objects for which martial law was proclaimed as aforesaid.'

" My Lord, I have taken this clause from an Act of the laws of St. Vincent, Act No. 189 of 1862. After indemnifying certain officers against acts done by them during the prevalence of martial law, the Act proceeds—'provided always an indemnity hereby granted is granted on this supposition and condition that all such acts, matters and things shall have been done or shall be done *bona fide* necessarily and properly in furtherance and execution of the objects for which martial law was proclaimed as aforesaid.'

" Now, my Lord, I think that this is a much more reasonable provision to adopt than the one that stands at present in the Bill. Here you say that a man should have acted *bona fide*, that is in good faith, and necessarily and properly. That would include a consideration of what humanity demands. That will include also that the thing should have been done, and a reasonable belief will be implied in the phraseology I have suggested. He must act reasonably in finding out that it was necessary and in a proper way.

THE INDEMNITY BILL.

[Pandit Madan Mohan Malaviya : Sir
George Lowndes.]

[24TH SEPTEMBER, 1919.]

I hope this amendment at least may find acceptance at the hands of Government."

The Hon'ble Sir George Lowndes :—"If I heard the Hon'ble Member aright he said he had taken these words from an Act of St. Vincent. That is no doubt out of compliment to the Hon'ble Member who is in charge of the Bill. I can see no other reason for his having done so. The Act of St. Vincent goes back to 1862, that is getting on to 60 years ago now, whereas we have tried to follow a more recent model. I have nothing really to add to what I said on the last amendment. The point is this, as I tried to explain, that we do not want in this Bill to make the test whether things were or were not in fact necessary. The fact that they were unnecessary, judged *ex post facto*, is not the test for indemnity in the case of acts done under these very difficult circumstances. What we have got to find is, whether they were reasonably believed to be necessary at the time, taking into account the conditions under which the men who did them had to act. We are not going to examine them on an *ex post facto* basis, or consider, looking back now when all is over, we think they were really necessary or not. That is not my idea of an Indemnity Act. I regret Government is not able to accept this amendment."

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, we have had some novel arguments, but the most novel argument I have heard to-day is the argument of the Law Member that a thing is to be rejected because it is ancient. I fear much will have to be put aside in favour of modern ideas as to what should or should not be done. I take it that the fact that a thing is ancient is rather a recommendation. At any rate I am prepared that the matter should be considered on its merits. Let us consider which is better, the provision which is now being proposed by the Government, the paraphrase of the words 'done as necessary' of the Acts of South Africa, or the language of the enactment from which I have borrowed my phraseology, namely, that the indemnity shall be granted upon this supposition that all such acts matters or things shall be done *bona fide*, that is in good faith of course, 'necessarily and properly in furtherance and execution of the objects for which martial law was proclaimed as aforesaid.'

"If this phraseology is adopted, where it would be reasonable to extend indemnity it would be extended, but it would cut off a lot of other acts which may not have been done properly and which may not have been necessary. The Hon'ble the Law Member would not allow any discussion of the question whether certain acts were necessary or not by the phraseology which he has chosen to adopt. How is a man to know what the belief of a particular individual was when he was acting? If you put it on the ground that he should show whether the thing was necessary, that he should show that it was proper, then you are on solid ground, but you are in the regions of vagueness and uncertainty in putting in the phraseology that a thing should be done in a reasonable belief. I therefore hope that unless the Government can find some more substantial argument against my proposition than that it is somewhat ancient as compared to the provisions in the South Africa Acts, they will reconsider the position. This will mean a great change in the outlook of those who may be concerned with such cases. If you retain the phraseology 'in good faith and in a reasonable belief,' you make it a very difficult thing; if not a practical impossibility for the plaintiff to establish a case for damage against a person who may have injured or repressed him. He may come into the box and swear that he reasonably believed that this was necessary and that would be an obstacle. The Act even saves him the necessity of swearing even to that, because the third section of the Act says that that will be presumed if a certificate has been obtained by a Secretary to Government. I therefore

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ;
Sir William Vincent ; Rao Bahadur
B. N. Sarma ; the President ; Mr.
Sachchidananda Sinha.*]

think we are carrying things too far if putting the provision in the present form, and if you accept my suggestion and substitute the words 'necessarily and properly in furtherance and execution of the objects for which martial law was proclaimed;' you would leave a fair chance to plaintiffs to have the justice to which they may be entitled. I therefore press this amendment on the consideration of the Government."

The motion was put and negatived.

The Hon'ble Sir William Vincent :—"My Lord, may I again suggest that the Hon'ble Member should take up this amendment* with his amendment No. 32. I would suggest, with your Lordship's permission, that it would be more convenient to the Council. The present is a consequential amendment on the later one."

The Hon'ble Rao Bahadur B. N. Sarma :—"I have no objection to that ; even if No. 32 is rejected it comes to the same thing."

The President :—"No. 10 *will stand over."

The Hon'ble Mr. Sachchidananda Sinha :—"My Lord, I move that—"

'In clause 2 for the words 'any officer of Government whether Civil or Military,' the words 'any police officer of or below the rank of Assistant or Deputy Superintendent of Police and any soldier or non-commissioned officer of His Majesty's Army acting under the orders of their superior officers' be substituted.'

"My Lord, the reason for this amendment is obvious. In the course of his opening speech the Hon'ble the Home Member insisted repeatedly that if this Indemnity Act was not passed, it would be putting in a very serious predicament a large number of soldiers and inferior officers who had taken part in carrying out the orders of their superior officers. I, therefore, propose to limit this class by giving a definition of the officers concerned, as to who the officers will be who will be indemnified by this Act, for all acts done by them. As regards the superior officers, they will be under the common law protected for all acts done in good faith. But if it can be established that certain acts were done by them, or ordered by them not in good faith, if they committed an atrocity or something that should not be done, the law will not protect them. For this reason I propose my amendment."

The Hon'ble Sir William Vincent :—"I think when I explain to the Council what the effect of this amendment would be, every Member of this Council, every reasonable Member, including the Hon'ble mover, will be convinced that it really is an impossible amendment for acceptance. Reading the amendment, it will be seen that it would limit the protection afforded by the Bill to the case of police officers and soldiers. Now many other officers besides police officers have been engaged in the suppression of the disorders, officers both civil and military.

"I am, for instance, informed that *tehsildars* and other revenue officers have been so used. There was also an Indian Sub-divisional Officer at Kasur and there was an Indian Deputy Commissioner in one district besides European Deputy Commissioners in other districts whose services were similarly used, and there is really no reason why the protection which is given to police officers should be refused to officers of this class. Then, again, in the case even of police officers, why is an Assistant or a Deputy Superintendent of Police to be exonerated for acts done in good faith, while a Superintendent of Police is not to receive the same protection? Is that fair, is that reasonable? Is there any reason for

* **The Hon'ble Mr. Sarma :—**10 'That to paragraph 3 of the preamble the following be added 'in certain cases and subject to the limitations specified herein below.'

THE INDEMNITY BILL.

[*Sir William Vincent ; Mr. Sachchidananda Sinha ; the President.*]

[24TH SEPTEMBER, 1919.]

instance why Mr. Heron, Superintendent of Police in one of the districts, whose name I have heard quoted—I do not happen to know him myself—if he has acted *bona fide* and in the reasonable belief that his action was necessary, should not receive the protection of this Act? Is there any reason why a subaltern or commissioned officer of the Army who has had to take part in quelling these disorders and who would be excluded by this amendment, should not receive the benefit of the Act? I am sure, if he thinks over the effect of his proposal, that the Hon'ble Member will withdraw his amendment."

The Hon'ble Mr. Sachchidananda Sinha:—"I desire to say in reply that the reason why I framed the amendment in this way was that I considered that those officers who may be held to have initiated a certain policy should not receive the protection of the Indemnity Act unless of course, they can show that their acts were done in good faith. That was the only principle on which I framed my amendment. I have nothing further to say."

The motion was put and negatived.

The President:—"With the rejection of that amendment the amendment to be moved by the Hon'ble Mr. Sinha, No. 5* on the paper, with regard to the preamble, will, of course, drop."

The Hon'ble Mr. Sachchidananda Sinha:—"My Lord, I move—"

'That in clause 2 for the words 'person acting under the orders of any such officer' the words 'person acting under the orders of any Magistrate, police officer not below the rank of Deputy or Assistant Superintendent of Police, and any commissioned officer of His Majesty's Army' be substituted—

The reason for this amendment is that otherwise the private individual, for whose benefit this clause is intended, might plead that he did a certain act under the orders of a *chaukidar* or a constable. That would be certainly carrying, I would not say the joke too far, but the point too far, and, therefore, I have brought in these words to give some substance to the proposition that the officer concerned must be one of a certain standing and not anybody or everybody. On this ground I move my amendment."

1-5 P.M.

The Hon'ble Sir William Vincent:—"This is an amendment of much the same character as the last one: the acceptance of it would involve this consequence, that any person acting under the orders of, say, an Inspector of Police—and I believe an Inspector of Police was actually the senior officer present at one place, Tarn Taran, though I have not verified this point—any person acting under the orders of an Inspector of Police would not be protected, however properly he had acted, however *bona fide* his action might have been. Again, there were many places in which non-commissioned officers of the Army were placed in positions of great responsibility. Is the man who obeyed, *bona fide*, the orders of such an officer not to be protected, if he has acted properly? Was it his duty to ascertain the badges or rank of an officer giving the orders or to inquire of a Police officer 'What are you exactly? Are you an Inspector of Police or an Assistant Superintendent?' I do not think that this amendment will commend itself for one moment to this Council. And I again suggest to the Hon'ble Member that, instead of putting an amendment of this character to the vote, he should exercise a wise discretion and withdraw it."

The Hon'ble Mr. Sachchidananda Sinha:—"There is nothing to withdraw, the result will be the same. It will be defeated."

The motion was put and negatived.

* That in second clause of the preamble the word 'certain' be inserted between the words 'indemnify' and 'officer'. Vide page 1334 ante.

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Mr. Sachchidananda Sinha ; Pandit Madan Mohan Malaviya ; Sir William Vincent.*]

The Honble Mr. Sachchidananda Sinha : "This* is practically the same as the last amendment which I moved (No. 12) and, as that was not accepted, it is no good pressing this."

The motion was by leave withdrawn.

The Hon'ble Pandit Madan Mohan Malaviya :— "My Lord, I beg to withdraw my amendment †."

The motion was by leave withdrawn.

The Hon'ble Mr. Sachchidananda Sinha :— "My Lord, I move 'that in clause 2 after the words 'British India' the words 'where martial law was established' be inserted."

"My Lord, I do hope that the Hon'ble the Home Member will see his way to accept this amendment, because it will bring the preamble into consonance with the section. The preamble very properly lays down :—

'Whereas owing to the recent disorders in certain districts in the Punjab and other parts of India, martial law has been enforced.'

In section 2 no such limitation is placed and the very general and wide words 'British India' are used. It might lead to some serious difficulty if this Act were applied in other places than the districts of the Punjab or certain other places specified in the preamble. Therefore, I think, the Government might see their way to accept my amendment that the words 'British India' should be limited by the words 'where martial law was established.'"

The Hon'ble Sir William Vincent :— "My Lord, I submit this is an unsound amendment. The use of words 'martial law was established' implies in some way that a proclamation of martial law or some formal action of that kind is necessary before martial law is enforced. That is however not the fact. A proclamation of martial law is only the means by which the fact of martial law being in force is made known to the public, I presume that the Hon'ble Member meant by the words 'martial law was established' that martial law had been proclaimed."

The Hon'ble Mr. Sachchidananda Sinha :— "I mean exactly what the Hon'ble Member meant by changing the preamble himself from the words 'it has been necessary for the purpose of maintaining order to resort to martial law' into the words 'martial law has been enforced.' If he will accept the same words in this clause, I shall be quite happy to withdraw the words of my amendment 'where martial law was established.'"

The Hon'ble Sir William Vincent :— "Very well, my Lord. I am informed by my Hon'ble Colleague the Law Member that the use of the words 'where martial law was enforced' is not open to objection, and I am prepared to accept the amendment as modified."

The Hon'ble Mr. Sachchidananda Sinha :— "I am very grateful to the Hon'ble the Home Member."

The amended motion was put and agreed to.

* 13. 'That in clause 2 the words 'or purporting to have been ordered or done' be omitted.

† 'That in clause 2 the words 'maintaining or' be omitted.'

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma.*]

[24TH SEPTEMBER, 1919.]

The Hon'ble Rao Bahadur B. N. Sarma :—"My Lord, I beg to move 'that in clause 2 for the words 'the 30th of March 1919' the words 'the proclamation of martial law therein' be substituted.'

"Then the clause will run :—

'No suit or other legal proceeding whatsoever, whether civil or criminal, shall lie in any court of law against any officer of Government, whether civil or military, or against any other person acting under the orders of any such officer for or on account of or in respect of any act, matter or thing ordered or done or purporting to have been ordered or done for the purpose of maintaining or restoring order in any part of British India where martial law was enforced on or after the proclamation of martial law therein, etc.'

"This is an important amendment. From the opening words of the Hon'ble the Home Member when speaking to the previous amendment, I can see in a way what the object of putting this particular date, the 30th of March 1919, is. Now, my Lord, we are here on a very important question as to whether this Indemnity Bill is to cover acts done when the civil power was in authority, but merely asked the military to aid it in suppressing disorder as it is entitled to do under the Criminal Procedure Code, or whether it is to be restricted to acts done by officers after the proclamation of martial law.

"In the former event we come to this that it is open to the executive Government to enable its officers, civil and military, to do whatever may be done during the operation of martial law even prior to the proclamation of martial law, when civil courts are sitting and in full assumption of authority and indemnifying them thereafter. My Lord, I submit that is a very dangerous doctrine to lay down. It would be extremely mischievous if the civil authorities or the military authorities who assist them, during the time of peace when the civil authorities are in full direction of the maintenance of order, are to consider themselves as entitled to protection for their acts which are legally indefensible. It would lead to very grave consequences if officers, civil and military, were to be under that impression, or if any indulgence should be shown to the executive Government by protecting their officers in respect of acts which cannot be justified under the ordinary law of the land. I know there are certain passages which can be quoted in support of the position that martial law is after all a technical term for military law, which enforces order when there is grave necessity even though there may be no proclamation, and that proclamation might possibly be construed by constitutional writers as being intended for the protection of the public not to violate certain orders. But, my Lord, we sitting here as a Legislature, and knowing full well that the people have no real voice in the Government, should not allow the executive of the land to take such wide powers or allow executive officers in the country to believe that they can seek protection even for absolutely unjustifiable acts on theoretical grounds. I submit, therefore, that the definition of martial law put forward by constitutional writers tentatively should not be relied upon by the Government as justifying the insertion of the words '30th March 1919.' My Lord, this is a very important question, for the simple reason that martial law was confined chiefly to the province of the Punjab, though, I believe, it was in force in the Bombay presidency for a day or two and never in Delhi at all. It is admitted that before the 10th of April there was no collision between the military, the civil authorities and the people. Consequently, I cannot understand the reason for the insertion of the date 30th March. Martial law was proclaimed by His Excellency the Governor General in Council only on the 14th; it might have been intended to be proclaimed a little earlier, but the earliest date was the 14th April 1919, so far as I can see. It is just prior to that period that various acts of a highly unjustifiable character according to the people were committed. I need hardly allude to the Jallian-wala Bagh incident, the belly crawling incident or the aeroplane incident. Those were acts for which the civil and military authorities would have to justify themselves before the ordinary courts in the land in the usual way. To raise

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[Rao Bahadur B. N. Sena.]

a presumption in those cases would be, my Lord, a violent confiscation of the rights of the subject. It may be that those officers can justify themselves before the Committee of Inquiry or before a judicial tribunal; but for us, my Lord, to raise a presumption in their favour on our present information, as this Bill proposes to do, would be absolutely unjustifiable and a travesty of justice. I think, on the other hand, as to the persons who have issued these orders, who have exercised those acts in a transparently high-handed character absolutely—I do not want to prejudge matters one way or the other, but as things stand we have to go upon certain facts—I submit to enable those officers to reap the benefit of these provisions would be to ask the people to believe that the executive Government would do anything to protect its officers whatever may be their high-handedness, and however unjustifiable may be the acts. I hope and pray that the Government will have some regard for public sentiment and re-establish itself in the confidence of the people by showing clearly that it is immaterial how high the officer may be and that justice would be done. We were told that it was under the authority of the civil power that aeroplanes were used in Gujranwala, and that the incidents which occurred on the 13th April at Amritsar, were after the civil power acknowledged its inability to enforce order. Consequently, I think, it ought to be open to the judicial tribunals to go into the question as to whether by the constitutional law of the United Kingdom or India it is open to the civil power to employ aeroplanes under such circumstances or under any circumstances. My Lord, to take protection for all those acts which have been condemned in England even during the time of the war, would, I think, be going too far even in India. I hope, therefore, that the protection will be really given only in respect of acts done after martial law had been proclaimed and not a minute before. Let those officers, if any, be brought either by the Government or by the public before the judicial tribunals in the ordinary course. It is perfectly open to them to show that they acted in good faith and in a reasonable belief that they were only maintaining or restoring order and justice, that the civil power had asked them and that the civil power was justified in asking them to do so. That is a question of fact, as has been proved by constitutional writers, which has to be determined by the judicial courts, namely, the justification of any particular act done in a state of war is ultimately examinable in the ordinary courts. But in the absence of an Indemnity Act the law goes so far as to say that the justification of any act

is a question which can be brought up in a civil court. When the law is so stringent in the absence of an Indemnity Act, we ought to be very careful as to how far we interfere with the common law of the land and the statutory law of the land which lays down the policy for civil and military officers. There are the Criminal Procedure Code and the Indian Penal Code; there are various other penal laws which show clearly the limits within which officers should act during peace time, during the time the civil arm is supreme. No one will venture to say that the civil arm was not supreme before the proclamations. I therefore submit that the Council will see their way to accept my amendment which follows logically and as a natural consequence the acceptance of the principle that an Indemnity Bill follows the enforcement of martial law. The Hon'ble Sir William Vincent has told us in the beginning of his introductory speech in substance as follows 'Martial law has been proclaimed, people have acted on the faith of that; we have proclaimed on the 14th April or some such date that support will be given to every civil and military officer in enforcing order; and acting on the strength of that proclamation we are keeping our good faith with the officers who acted, and here are Hon'ble Members opposing us.' My Lord, I am not referring at all to what has been done after that promise was held out. But that promise was made only on or after the 14th April. There is another point also. Various acts committed prior to the proclamation of martial law would come within the purview of this Act, if 30th March be taken into consideration. Even taking

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma ; Sir William Vincent.*]

[24TH SEPTEMBER, 1919.]

the theory that martial law really means law which the military would enforce when the civil arm is weak or unable to maintain order, even assuming that, my submission is that these proclamations were issued for the purpose of giving notice to the people. Even taking that doctrine, my submission is that the 30th March is absolutely unjustifiable, and I hope Government will be able to accept this amendment."

-92 P.M.

The Hon'ble Sir William Vincent.—"My Lord, the Hon'ble Member now proposes that the period prescribed in this clause for the protection of officers should begin from the proclamation of martial law. If Hon'ble Members will look down the list of amendments they will see, however, that he proposes that the termination of the period during which protection should be given should be the 23rd April, a date long before our notification withdrawing martial law was issued. The date of commencement is to be postponed and the last day up to which protection is to be given is to be antedated. But, my Lord, I want to pass to very much broader objections than this to the amendment. It is one of a series of amendments intended to whittle down the whole effect of this Act. General principles were discussed in great detail in this Council lately, and there was a general consensus of opinion that the principle of the Bill should be accepted; I think there were only three or four Hon'ble members who did not take that view. In such circumstances, it is a very common move to say, 'well, if we have to pass the Bill let us make it ineffective by a succession of amendments,' and the present is one of the amendments intended to effect that object. My Lord, our view is that the whole of these disturbances are one connected whole; that they began with the disturbances of the 20th March at Delhi, and from that date onwards, from time to time, it was necessary to enforce martial law in different places. There was no definite proclamation of martial law in some places at all, nor is any proclamation the essence of the matter. The real question is, when was martial law actually enforced? The Hon'ble Member is aware of the weakness of his position when he said that various quotations would be made to prove that he was incorrect. I have a number of authorities on the point here. I will cite one, a quotation from the Law Quarterly Journal: Mr. Erle Richards, Lord Justice. 'A proclamation is not in any sense essential to the exercise of these powers; it is a convenient notification to the inhabitants that the Commander has assumed control of the district but in no way affects the legality or illegality of his action.' Then I will read a joint opinion by the Attorney General and the Solicitor General in regard to certain disturbances which arose in Canada. 'In any district in which by reason of armed bodies of inhabitants being engaged in insurrection the ordinary course of the law cannot be maintained, we are of opinion that the Governor may, even without any proclamation, proceed to put down the rebellion by force of arms'.

"There are numerous other authorities on the same question, and the law is perfectly clear. In fact, I am not aware that martial law was at any time proclaimed in the Bombay Presidency. If it was I have not seen any notification, I speak subject to correction. If that is so the effect would be if the Hon'ble Member's amendment were accepted, that the officers of Government in Bombay in those places in which martial law was enforced would not get any protection at all under the Bill. There were also certain districts in the Punjab in which the military authorities had to take over control when the civil authorities were not able to cope with the situation, and where martial law was enforced long before it was formally proclaimed by the Government of India. Thus, in Amritsar, the local military authorities in order to preserve peace, had to take over the situation long before or at any rate some time before martial law was proclaimed. The Hon'ble Member went on to say 'why were the ordinary laws, the Criminal Procedure Code and the Indian Penal Code not utilized?' 'Why did these gentlemen not look up these laws and act according to them?' That, my Lord, is exactly the position that I said in the opening debate was impossible. When there is serious disorder which the civil authorities are entirely unable to deal with, an insurrection against the King, is the officer

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Sir William Vincent ; Pandit Madan Mohan Malaviya ; Rao Bahadur B. N. Sarma ; Sir George Lowndes.*]

who has to quell it to run and look up the Criminal Procedure Code or the Indian Penal Code, to discover if there is a section that will protect him before he takes effective action ? Such a position is absurd.

“For these reasons, my Lord, it is impossible for the Government to accept the date of the proclamation of martial law as the date from which this clause of the Bill is to protect officers for *bona fide* action.”

[At this stage the Council adjourned for Lunch till 3 P.M.]

The Hon'ble Pandit Madan Mohan Malaviya :—“My Lord, the position taken up by the Hon'ble the Home Member does not come on some of us as a surprise. Hitherto we understood that an Indemnifying Bill was to be introduced in the areas where martial law had been proclaimed and because martial law had been proclaimed. But now the position taken up by the Hon'ble the Home Member is that a proclamation of martial law is not essential, and that if the military take charge of a place where there has been a disturbance, that is sufficient to bring the area in which this happened within the operation of this Bill. My Lord, it is a dangerous extension. It is meant to cover cases which could not be justified without such extension, and it is a great wrong to those who suffered in those areas where martial law had not been proclaimed.

3 P.M.

“My Lord, it is hopeless to expect that the Government will go back upon the position taken up by the Hon'ble the Home Member, but we feel that we must enter our protest against this departure. The Hon'ble the Home Member complained that the series of amendments which have been put forward by some of us had only one object, namely, to whittle down the Bill. My Lord, when we cannot entirely prevent the passing of the Bill the next best thing that we can do, is to minimise the evil which its provisions contain to safeguard the interests of the public as much as we can, and to object to as many provisions as are clearly objectionable, and to endeavour to put in as many safeguards as we may be able to press upon the consideration of the Government. I do not think the complaint that has been made by the Hon'ble the Home Member is justified. I hope that if the Government cannot see their way to accept this amendment, they will at any rate recognise that we have reason on our side, and that they have the votes on their side.”

The Hon'ble Rao Bahadur B. N. Sarma :—“My Lord, we still hope that the Hon'ble the Home Member will confine the operation of the Bill to areas where martial law had been proclaimed. The Hon'ble Pandit Malaviya has also referred to the very great danger of extending it to areas where the civil arm was exercising its jurisdiction, although the civil officers had to call in the aid of the military for the purposes of enforcing order, it being thought that the police were not able to cope with the evil. There seems to me, my Lord, another great danger, and that is this. It means that any Local Government without coming up here under the provisions of section 71 of the Government of India Act for the purpose of asking the Government of India to frame regulations for their presidencies when the ordinary law is not sufficient for the purpose, can, by virtue of the doctrine now enunciated practically extend martial law to any area within their jurisdiction the moment they feel that the civil power is temporarily unable to cope with disorder in any town or village. I think that was never intended by the constitution. Section 71 of the Government of India Act says ‘that the Local Government of any part of British India to which this section for the time being applies may propose to the Governor General in Council to draft any regulation for the peace and good government of that part with reasons for the proposed regulations.’ The Government may or may not accept this proposal ; that is quite a different matter. Here Hon'ble Members will see that the Punjab Government approached the Government of India

3-2 P.M.

The Hon'ble Sir George Lowndes :—“My Lord, I must protest again at the Hon'ble Member solemnly quoting from the Regulation section of

3-5 P.M.

THE INDEMNITY BILL.

[*Sir George Lowndes ; Rao Bahadur
B. N. Sarma ; Sir William Vincent.*]

[24TH SEPTEMBER, 1919.]

the Government of India Act which only applies to certain territories like the North-West Frontier. It has no application whatever to the Punjab, to Bombay, to Bengal or to any of the major Provinces."

1-5 P.M.

The Hon'ble Rao Bahadur B. N. Sarma:—"There was a power, I know, by which the Presidency Governments were also empowered by Statute to approach the Government of India for aid where they felt the ordinary law was insufficient. My argument does not cease to have any force even if section 71 is inapplicable to this particular case. My argument is that whether the Regulation applies to this case or not, the new doctrine that martial law can be enforced by a Governor or the head of a province and people can be handed over to the tender mercies of the military who can frame new laws, new penalties and do anything they like the moment they feel that law and order cannot be temporarily coped with with the aid of the civil force alone, is entirely a wrong doctrine. My point was that the law takes note of these difficulties where the civil arm is insufficient and makes it an incumbent duty upon the military officers to help the civil. But in all these cases prior to the actual proclamation of martial law the civil power would be responsible and the ordinary law would guide the courts in deciding the legality of the actions of men who have acted during that period. Now the constitutional writers who refer to the fundamental basis of martial law merely refer to the common basis of the power of the Crown to enforce order whether martial law is proclaimed or not. They simply say that necessity is the basis of martial law. Ordinarily, therefore, even without the proclamation of martial law the civil power has got jurisdiction to arm itself for certain purposes to quell disorders, but only so much force as is necessary should be employed. Therefore the fact that there is a common basis for the two does not, I submit, empower the executive Government to treat the two as exactly parallel and ask that the civil or the military officers who had exercised jurisdiction are entitled to seek the protection of an Indemnifying Act even before the proclamation of martial law. I would only suggest, if there be any difficulty about the fixing of dates, the words 'the enforcement of martial law' may be used so as to cover any difficulty, but I do not think that the real point would be met. But I throw out this suggestion to the Hon'ble the Home Member, because on a previous occasion instead of the words 'proclamation of martial law' he accepted the words 'enforcement of martial law'. Of course whether the words 'enforcement of martial law' would cover a particular case will be dealt with by the Tribunals when the cases come up."

The motion was put and negatived.

3-10 P.M.

The Hon'ble Sir William Vincent:—"My Lord, I move 'that in clause 2 for the words 'the commencement of this Act' the words 'the 26th of August 1919' be substituted."

"My Lord, when I moved for leave to introduce this Bill, this clause which extended the period during which special protection was afforded to our officers up to the commencement of the Act, was the subject of justifiable criticism. Since then I have again looked up the dates on which martial law was actually proclaimed and the dates on which it was withdrawn in the different areas. The dates on which it was proclaimed vary from the 13th April to, I think, the 22nd of April. The dates on which it was withdrawn vary from the 28th May to the 28th of August. I ought to explain, however, that after the 11th of June martial law was enforced only in railway lands in the Punjab, and that it was enforced there only by reason of the military requirements during the Afghan campaign. It was then obviously of paramount importance that military operations for the transport of troops and munitions should not be impeded by any disorders on the railway or by any interruption of communications.

"The areas of the Punjab in which martial law was at the time in force were disturbed areas, and there was considerable risk of communications being

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[Sir William Vincent ; Rao Bahadur
B. N. Sarma.]

interrupted if we relaxed military control of the railways : for that reason martial law was continued in the railway areas only up to midnight of the 25th of August this year, and that date has therefore been fixed upon now as a convenient date up to which the special protection afforded to our officers should be extended."

The Hon'ble Rao Bahadur B. N. Sarma:—"If this amendment is accepted my amendments entirely fall to the ground, because the amendments I have suggested, are that the operation of this Bill should be confined to the 23rd of April. The reason why I suggested the 23rd of April was that, as far as I could gather from the Press Communiqués which were quoted in the book 'Punjab Disturbances,' the disturbances ceased on that date. I see that there was real trouble with regard to railway and telegraph communications, wires being cut and so on, until about the 21st of April. I pointed out on a previous occasion that both the Communiqués of April 22nd and May 2nd showed that the Province had quieted down, although it may be as a matter of precaution the military were there to see that no further disturbances broke out. The following Communiqué was issued :—'Lahore April 22nd, situation well in hand and reports of the districts contain no disturbing items except cutting of telegraph wires near Chakki bridge, Kangra District.' 3-12 P.M.

"And then a Communiqué of May 2nd gives a list of all the occurrences with reference to the cutting of wires and the derailment of trains and so on, and as far as I could gather, the period that this covers is up to about the 21st of April. Later on the Communiqué states :—'The injury which has occurred since 21st April, but the operation of martial law had by that date already begun to have their effect and subsequent interruptions were comparatively few.'

"I shall proceed on the basis that martial law had this effect, even assuming for argument's sake that there were a few interruptions later on.

"I have stated already the fact that martial law can be legally enforced only so long as there was necessity therefor and not one moment longer. It would be a usurpation of absolute power, an exercise of lawless law, if it is kept one moment longer. I realise that you may have to keep the force active in order to guard against a future recurrence of events, but my submission is that that would have to be done under the ordinary law of the land, and martial law proper would cease to have operation the moment the disturbances are quelled, and that is a very important doctrine to maintain in a country like India, because the executive are not really controlled by the Legislature, and it is necessary that they should be chary of any attempt to keep these lawless laws in operation one minute more than is absolutely necessary. I submit that any action that might have been taken by the Government subsequent to that should be considered as having been done under the ordinary law of the land, that is under the civil power, and should not be brought within the jurisdiction of the military courts. It is only for that purpose that I have brought in this amendment that martial law should, as martial law, be considered to have ceased on the 23rd of April for the purposes of this Bill."

The Hon'ble Sir William Vincent:—"I am glad at last to obtain an admission from the Hon'ble Mr. Sarma that up to the 23rd of April there was serious disorder, because for some time in this Council a definite attempt was made to make out that nothing occurred at all but a little local rioting which was not of a serious character 3-16 P.M.

The Hon'ble Rao Bahadur B. N. Sarma:—"May I say I did not agree with the question ; I assume it was so."

THE INDEMNITY BILL.

[Sir William Vincent ; the President.]

[24TH SEPTEMBER, 1919.]

The Hon'ble Sir William Vincent:—"The Hon'ble Member may now use the word 'assume.' What he did do was to admit the fact and it is a great advance on previous statements. The Hon'ble Member went on to suggest that, at any rate, this violent form of disorder had ceased on the 23rd April. But, my Lord, I drew attention just now to the position of the Hon'ble Member in this matter. He did not wish clause (2) to take effect from the date on which the disorder began. Then he said 'No, you must stick to the date of your proclamation.' But when it is a question of determining the period during which protection by the Act should be afforded, he will not take the date on which the notification withdrawing martial law was issued. He says, 'No, you must come back to the actual facts, irrespective of the date on which martial law was withdrawn. And I maintain there was no disorder after the 23rd.' Well I suggest to the Council that this is not reasonable. Responsibility for declaring martial law rested with the Government of India, acting on the advice of the Local Government, and I read to this Council the telegram upon which we acted. The position then of our officers was this, they were aware that martial law was in force; they were therefore acting under orders. Provided that they acted *bona fide* and in a reasonable belief that their action was necessary, are they to be deprived of protection because Members of this Council may say the Government continued martial law too long, or are they not entitled to plead 'We were acting on the orders of the Government as set out in notifications which had been issued in the Gazette'? I want the Council, however, again to remember that we do not claim the protection of those men if they have acted *mala fide* or improperly; it is *bona fide* action taken in a reasonable belief that it was necessary alone that is protected. Now is it much to ask the Council to protect such men for such action during a period while the Government of India themselves rightly or wrongly declared that martial law was necessary? That is the point that I want to make to the Council. My Lord, it is often assumed that directly the military authorities have quelled the open disorder and disturbances with which they are called to deal, they must at once abrogate their authority to the civil authorities. I do not know how far that is good constitutional law, but there is good authority for the proposition that the actual presence of violent disorder is not essential to the continuance of martial law, and this has been laid down by no less an authority than Pollock, when he says 'that the absence of visible disorder and the continued sittings of the court even are not conclusive evidence of the state of peace.' There is another well known case on the point from India in which, although the courts had been open for six months and the Privy Council held that the seizure of property by the military authorities on the plea that martial law was in force, was perfectly justifiable because the war had not at the time ceased. Further, as a matter of common sense, the fact is that once you have established martial law to quell an open insurrection, it would be the height of folly, and, I think, Hon'ble Members of this Council will agree with me, it would really be the height of folly to abrogate it unless you have some reason to believe that the civil authorities could control the situation if martial law was removed. If you thought that the position was such that the military authorities would have immediately to be called in again, it would be idle to stop martial law or make over control to the civil authority. Such conduct would be doubly unwise on an occasion like the present when we were at war with a power on the frontier in close proximity to the Punjab. The date I propose for insertion in the clause, the 26th of August 1919, is actually the date on which the last notification withdrawing martial law was issued by the Government, and that is the reason for fixing that date in the Bill."

(After the Hon'ble Sir William Vincent had finished speaking, the Hon'ble Pandit Madan Mohan Malaviya rose.)

The President:—"Order, order. The Hon'ble Member has replied."

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; the President.*]

The Hon'ble Pandit Madan Mohan Malaviya:—"I was going to ask your Lordship whether I was entitled to speak, because the Hon'ble Mr. Sarma

The President:—"You should have taken the opportunity of speaking immediately after the Hon'ble Mr. Sarma.

"If this amendment of Sir William Vincent's is carried, it will involve the rejection of all amendments down to amendment No. 22."

The motion was put and agreed to.

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, 3-22 P.M.
I beg to move—

'That in clause 2 for the words 'provided that such officer or person has acted in good faith and in a reasonable belief that his action was necessary for the said purposes' the following be substituted:—

'Provided always, that the indemnity hereby granted is granted upon this supposition and condition, that all such acts, matters and things shall have been done *bona fide*, necessarily and properly, and without needless severity, in furtherance and extension of the objects for which martial law was proclaimed as aforesaid.'

"My Lord, in speaking to a similar amendment earlier in the debate, I drew attention to the fact that I have taken the language of this amendment from the Act of St. Vincent. My Lord, in this particular amendment I have introduced four words which are not to be found there, namely, 'and without needless severity'. I submit, my Lord, that it is desirable that we should substitute the amendment which I propose, in order that it might be possible for those who have suffered to have redress of their grievances. This is a measure which is being passed without the report of the Committee of Inquiry which has been appointed being laid before this Council. That imposes upon this Council the duty of more closely examining the provisions of the Bill. My Lord, if the Bill is passed as the section stands, I submit it will be very difficult for any person who has been damaged or injured by the operation of martial law to obtain a redress of his grievances, and in support of the view which I have submitted to the Council, I would invite attention to the debate that took

The Hon'ble Mr. Sarma:—

18. 'That in clause 2 for the words 'and before the commencement of this Act' the words 'up to the 23rd April 1919' be substituted.'

The Hon'ble Mr. Sarma:—

19. 'If amendment No. 18 be rejected. That for the words 'and before the commencement of this Act,' the words 'until the suppression of the disorders' be substituted.'

The Hon'ble Mr. Sarma:—

20. 'If amendment Nos. 18 and 19 be rejected. That in clause 2 for the words 'and before the commencement of this Act' the words 'during the continuance thereof' be substituted.'

The Hon'ble Mr. Sinha:—

21. 'That in clause 2 for the words from 'on or after the 30th March' to 'this Act,' the words 'during the period when martial law was in force' be substituted.'

The Hon'ble Mr. Malaviya:—

22. 'That in clause 2 for the words 'on or after the 30th of March, and before the commencement of this Act,' the words 'during the continuance of martial law' be substituted.'

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Sir
William Vincent ; the President.*]

[24TH SEPTEMBER, 1919.]

place in the House of Lords in 1818. An Indemnity Bill was to be introduced there, but before it was introduced a Committee of Inquiry had been appointed and had reported. In introducing the Bill the Duke of Montrose claimed that it was a corollary from that which had preceded it, namely, the suspension of the Habeas Corpus Act, and he urged that an Indemnity Bill was a necessary consequence of the suspension of that Act. This is the view which has been urged by the Hon'ble the Home Member and the Hon'ble the Law Member. We have been told repeatedly that an Indemnity Bill was an inevitable consequence to the introduction of martial law. Here, my Lord, what the Premier said on the discussion which was raised by Lord Lansdowne was that—

‘ after such a report as that presented to Their Lordships by the Committee, a Bill of Indemnity seemed to follow as a measure due in justice to those who had been entrusted with the difficult task of carrying the act of suspension into execution.’

And he said :—

‘ The Government were anxious to lay all the information with respect to their conduct before the Committee of the two Houses of Parliament in order that they might know how they exercised the powers entrusted to them generally and particularly, and judge from that how far they were entitled to such protection as they now came forward to apply for. They did not ask for it as a necessary consequence of the suspension of the Habeas Corpus Act, but on the ground of the belief expressed by the Committee that the powers committed by Parliament to their discretion had not been abused. That and that alone was the ground upon which they stood before Parliament and the country. The Bill did not follow as a matter of course. The conduct of Ministers had been referred to a Committee. From the report of the Committee it appeared that all the detentions which took place under the suspension were fully warranted by circumstances and if Their Lordships had any confidence in that report, they must in justice and in fairness grant the protection the Bill now proposed.’

“ Now, my Lord, let us see how these remarks have a bearing upon the proposal before us. Here martial law was proclaimed at a time somewhere between the 13th and 15th of April. This was continued up to the 26th of August. There have been many protests, many representations to Government, that the continuance, at any rate, of martial law was not justified, and it was on that ground that one of your Hon'ble Colleagues laid down the reins of his office. Now, my Lord, the Government have recognised the wisdom, the justice, of appointing a Committee of Inquiry to consider how far these matters, these complaints, were justified or well-founded. That Committee of Inquiry has not yet met. The complaints, the allegations, to which I drew attention are to be laid before that Committee and that Committee has to make its report. Assuming the Committee come to the conclusion that the introduction of martial law was justified, the next question for them to consider—and answer would be whether its continuance was justified, and, if so, up to what period of time, because every detention of every single individual—and I understand the number is over 1,000 of those who are at present in jails

The Hon'ble Sir William Vincent :—“ My Lord, may I rise to a point of order, to inquire whether this is relevant to the particular amendment before the Council ? ”

The President (to the Hon'ble Pandit) :—“ Will you show me how it is relevant ? ”

The Hon'ble Pandit Madan Mohan Malaviya :—“ In this way, my Lord, very easily. It is relevant to show that the language used in this section should be as I suggest, namely, that only acts done *bona fide*, necessarily and properly, and without needless severity, should be indemnified. The object of my remarks is to show to your Lordship that it is yet a question for the Committee to consider whether the continuance of martial law and the detention of so many prisoners who have been detained in jail was necessary,

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya; the President; Sir George Lowndes.*]

whether it was proper and whether it was carried out without undue severity during the period up to which this martial law existed

(The Hon'ble Sir William Vincent here rose again.)

The Hon'ble Pandit Madan Mohan Malaviya:—" May I finish my remarks ; I am explaining the reasons why my speech is relevant to the amendment

The President:—" I hope you will give me some better reasons, because, at present, I am not satisfied."

The Hon'ble Pandit Madan Mohan Malaviya:—" I am giving my reasons. It is for you, my Lord, to judge whether they are right or wrong. What I submit is that there are numerous persons who have been detained and who are undergoing imprisonment. In the case of many of these persons they desire to bring suits to test the validity of the detentions. If the indemnity is granted in the general terms in which it is proposed in the Bill before us, it will be a very difficult thing for them to have a chance of proving their case. If the words which I suggest are substituted, namely, that it is only those acts which have been done *bona fide*, necessarily and without needless severity, that it is only such acts which will be indemnified, then, I submit, they will have a better chance of having redress of their grievances. That is the reason of my amendment

The President:—" If you confine your remarks to the matters and things that have been done *bona fide*, necessarily and properly, and without needless severity, you will be in order, but you will not be in order if you travel outside the discussion of those words."

The Hon'ble Pandit Madan Mohan Malaviya:—" Thank you, my Lord ; I shall so confine myself.

"My Lord, from the statements laid on the table by the Hon'ble the Home Member the other day in answer to some of my questions, the Council will have seen what a large number of persons has been kept in imprisonment, and I submit that for them it will be easier to prove that certain acts were not done *bona fide*, necessarily and properly and without needless severity than it would be for them to prove that certain acts were done in good faith in a reasonable belief that those acts were necessary. For these reasons, I commend this amendment to the consideration of the Council."

The Hon'ble Sir George Lowndes:—" My Lord, this amendment has really been discussed over and over again ; and I have explained why we use the words 'acts done in good faith and in a reasonable belief that they were necessary.' It is no good my explaining them any more. If I explained the intention fifty times, the Hon'ble Pandit would not understand. There is no one so deaf as he who will not hear. The Hon'ble Pandit again cited the Act of St. Vincent, which is, I think, going back to an ancient and, if I may say so, an insignificant precedent. If the Hon'ble Pandit prefers the British Statutes, let us by all means go back to the precedent of 1780 under which all acts which were done for the suppression of rebellion were to be validated. That is the formula adopted there. If the Hon'ble Pandit thinks that it has the sanction of time, I am quite willing to follow it. We have tried to put before the Council a more modern formula and a reasonable limitation of both validation and indemnity by the clause proposed in this Bill. If the Council thinks otherwise by all means let us go back to the beginning ; not to the St. Vincent Act, which is hardly a worthy precedent for this Council to copy—let us go back to the British Statutes of the end of the 18th century. I have explained over and over again why I personally prefer the drafting

3-32 P.M.

THE INDEMNITY BILL.

[*Sir George Lowndes; Rao Bahadur
B. N. Sarma; the President.*]

[24TH SEPTEMBER, 1919.]

which has been adopted in this Bill, and, I think, it is clear why the Hon'ble Pandit objects to it. I submit the Council should not do anything of the sort."

The motion was put and negatived.

3-34 P.M.

The Hon'ble Rao Bahadur B. N. Sarma:—"My Lord, I move that in clause 2 for the concluding words 'it is hereby discharged' the words 'the provisions of this Act shall apply thereto' be substituted."

It is a formal amendment which I have moved that if there be any proceeding already pending, it should be open to the plaintiff or prosecutor to show that the officer did not act in good faith and in a reasonable belief, and I do not think the Hon'ble Member intends that an action should be dismissed without giving the party an opportunity. 'If any such proceeding has been instituted before the passing of this Act' are, I think, very wide terms; and that is the reason why I have brought forward this amendment. It is a mere formal amendment."

The Hon'ble Sir George Lowndes:—"My Lord, again, I am afraid, Government are unable to accept this amendment. The plain and simple words are 'it is hereby discharged'; those are the words which have been used in the Acts which we have copied—the South Africa Acts and others. The Council may also be interested to know the wording proposed in the Indemnity Act which is either now before Parliament or will very shortly be. It is a general Indemnity Act practically for the whole Empire in respect of things done during the war. The actual words which we have adopted are to be found in this the most recent piece of drafting available. The words there used are: 'If any such proceeding has been instituted, whether before or after the passing of the Act, it shall be discharged and made void.' We only go as far as 'discharged'; we do not think it necessary to put in the words 'made void.' I am not discussing the merits of the clause, I am only pointing out that we have followed the most modern form available."

The Hon'ble Rao Bahadur B. N. Sarma:—"My Lord, if the Hon'ble the Law Member had told me that if there be any proceeding instituted it would be governed by the provisions of this Bill and that the party would be entitled to show that the officer acted in bad faith or without reasonable belief, I would have been content. There is no use telling me that there are other Acts in which similar words were employed and that we are only following the modern drafting. The question is as to what by the use of this very wide language is intended. I do not think that it was the object to have all actions discussed apart from their merits, and therefore I brought in this amendment."

The Hon'ble Sir George Lowndes:—"My Lord, may I give the Hon'ble Mr. Sarma the fullest assurance that that is the intention. It is, I think, clear that that is the meaning of the words and nothing more."

The motion was put and negatived.

The President:—"The next three amendments are identical. The first is to be moved by Mr. Sarma, the second* by Mr. Malaviya and the third* by Mr. Sinha. The fate of the three will be decided upon the first."

The Hon'ble Rao Bahadur B. N. Sarma:—"My Lord, I move 'that in clause 3, the words from 'and all action' to the end of the clause be

* **The Hon'ble Mr. Malaviya:**—

29. 'That in clause 3 the words from 'and all action' to the end of the clause be omitted.'

The Hon'ble Mr. Sinha:—

27. 'That in clause 3 the words from 'and all action taken' to the end of the clause be omitted.'

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma; Pandit Madan Mohan Malaviya.*]

omitted.' I did not intend to move this amendment if my amendment about 'reasonable belief' and about limiting the operation of this Bill to the period covered by the martial law proclamations had been accepted, because I realised that during that period this presumption in respect of acts done by officers ought to be raised, namely, that they had acted in good faith, and it would be for the other party to show that the acts were not done in good faith, and all the precedents are in favour of that proposition. I need not go over the ground again covering the period before the actual proclamations and after the actual necessity, according to some others, had ceased. We cover the incidents in Amritsar and Gujranwala and other places which we feel justified in the extension of this presumption in favour of the officers. Those are the grounds upon which I rely for asking that these words should be deleted from this clause."

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, I will add only a few words and two opinions to what has been said by Mr. Sarma in support of this amendment. We urge that the words which we have indicated should be omitted so that the onus of proof will not be thrown upon the plaintiff or complainant, to prove that the person who assailed his honour or his liberty did not act in good faith and reasonable belief. Now, my Lord, this is in conformity with the Statutes of Parliament and the English opinion. I will cite two weighty opinions on this question.

"When the matter was being discussed in the House of Commons Mr. John Stuart Mill said :—

"There may be a public necessity in the case of rebellion requiring that certain acts not justified by the ordinary law of the country should be done, but these acts should be acts of suppression and not of punishment. Now a point which has not been noticed and to which I attach the highest importance is this—that in a case of public necessity those who act upon it, and do under the supposed necessity that which they would not ordinarily be justified in doing should be amenable to the laws of their country for so doing. As in the case of killing any person in self-defence so in the case of putting any person to death in defence of the country, the person who does it ought to have the onus thrown upon him of satisfying the ordinary tribunals of the country that the necessity existed.

"What therefore we say does not exist, and ought not to exist, and which if it does not exist we should do our utmost to put an end to, is the idea that any proceeding such as a declaration of martial law, can or ought to exempt those who act upon it from amenability to the laws of the country. We contend that the law of necessity, of which nobody denies the existence, would justify the executive in doing these things, if no such thing as martial law had ever been heard of, and that by using the term martial law you ought not to be able to get rid of all responsibility. We demand that the officers of Government of this country should not be able to escape or get out of the region and jurisdiction of the law; but, that whatever they do, if it be against the law, they should be compelled to justify. They must show the necessity which existed, not to the satisfaction of a court-martial merely, but of the regular tribunals of the country."

"Now, my Lord, I submit that this weighty opinion should have some value with the Government of India. This was the opinion of a philosopher, a statesman and a legislator. Let me quote to Council the opinion of a Judge, Chief Justice Cockburn. In discussing an Indemnity Act he laid down in no equivocal terms that 'it should be confined to acts honestly done in the suppression of existing rebellion and under the pressure of the most urgent necessity. The present indemnity is confined to acts done in order to suppress the insurrection and rebellion and the plea contains consequently the necessary averments that the grievances complained of were committed during the continuance of the rebellion and were used for its suppression and were reasonably and in good faith considered by the defendant to be necessary for the purpose; and it will be incumbent on the defendant to make good these averments in order to support his plea.'

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Mr.
Sachchidananda Sinha ; Mr. Shafi.*]

[24TH SEPTEMBER, 1919.]

"My Lord, the Bill before us would make it incumbent upon the defendant to support his plea and on the plaintiff the necessity of proving that the defendant had not acted in good faith and in the reasonable belief that his action was necessary for suppressing disorders. I submit that this is without justification and it is a pity to my mind that the Hon'ble the Law Member should have gone to the Legislature of South Africa for the clause which he has inserted in the Bill. I submit that we should adhere to the views expressed by John Stuart Mill and by Chief Justice Cockburn of leaving the onus on the person on whom it naturally and reasonably lies. Who can give evidence? The man who pleads good faith. Who can say he had a reasonable belief in a particular thing? The man who had that belief. Thus you are asking another man whom this person has assaulted or injured to give proof of the non-existence of good faith; of the non-existence of a reasonable belief. You are putting the cart before the horse; you are doing an injustice to those men who are seeking redress. I will quote the words of Lord Holland in a debate in 1818 regarding the suppression of disorder—

'After having mangled the limbs of a man without trial and without proof of guilt it was a horrible crime to deny him redress by passing an Act to protect his prosecutor.'

"The Government, my Lord, are throwing upon the plaintiff the burden of proving what it is not reasonable possibly for him to do."

8-46 P.M.

The Hon'ble Mr. Sachchidananda Sinha :—"I should like to add a word in support of this amendment. I think it will be hard on the plaintiff or the prosecutor to have to prove his case, if the clause stands as it is. The Hon'ble the Law Member said the other day that in ordinary criminal cases the burden of proof is cast on the prosecutor. This is certainly true. But he will agree with me when I say that in criminal cases the prosecutor is discharged from responsibility when he has made out a *prima facie* case. When an accused person is put on his defence then the onus is shifted to him and he must then bring his conduct within the purview of any exception of the law. Similarly, I submit that to hold the plaintiff responsible to prove not only the want of good faith but also of the reasonableness of belief in the mind of the defendant would be certainly to place upon him a burden that he cannot possibly discharge."

8-47 P.M.

The Hon'ble Mr. Shafi :—"My Lord the amendment moved by my Hon'ble friends, everyone of whom belongs to the legal profession, raises a question of law of considerable importance and, with your permission, I propose to deal with it from the strictly legal point of view. At the very outset I wish to emphasize the fact that, in order to arrive at a correct conclusion with reference to this question, it is essential for Hon'ble Members to bear in mind what clause 3 exactly enacts. Now, even a cursory analysis of this clause will make it clear that it can be divided into two parts. The first portion of this clause relates to the evidential character of the Secretary's certificate in connection with the first issue in such cases, *i.e.*, whether the action was performed under the orders of an officer of the Government. With reference to this portion of the clause, no Hon'ble Member has raised any objection whatever, and I take it that this portion of the clause is acceptable to everyone of them. The clause then proceeds :—'and all action taken for the aforesaid purposes shall be deemed to have been taken in good faith and in reasonable belief that it was necessary therefor unless the contrary is proved'. In other words, the onus of proof of absence of good faith and of a reasonable belief will be on the plaintiff or prosecutor, as the case may be. This being so, the question arises whether the position which embodied in this clause is a novel one, incapable of being supported either by general principles or by precedent, or is it a position

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[Mr. Shafi.]

which is justified by general principles as well as by authority. Now, my Lord, in the very remarkable address delivered by him the other day when the Hon'ble the Law Member made a comprehensive survey of the constitutional aspect of martial law, he cited precedent after precedent from various countries within the British Empire from which it was perfectly clear that whenever and wherever martial law had been introduced, it had invariably been followed by an Indemnity Act. Hon'ble Members will remember that he cited the corresponding clauses in these Indemnity Acts in order to show that in seeking to enact clause 3 we were not making any new departure whatever. In ordinary circumstances a reference to that speech would have been quite sufficient to meet the situation, but on this occasion I propose, with your Excellency's permission, to go a little further in order to establish three propositions. The first of these propositions is that the position which is enacted in the second portion of this clause is one which already finds place in more than one of the Acts which have been passed by the Indian Legislature; the second is that it is in perfect consonance with the statutory rules of evidence as obtaining in this country, and the third proposition is that it is justified by judicial authority. Now, turning to the first proposition, as far back as the year 1850, an Act was passed by the Indian Legislature in order to protect Judicial officers in respect of acts which may have been done without jurisdiction but in good faith, Act No. XVIII of 1850. To section 1 of that Act I beg your Excellency's permission to refer. This is what is laid down—

'No Judge, Magistrate, Justice of the Peace, Collector or other person acting judicially shall be liable to be sued in any Civil Court for any act done or ordered to be done by him in the discharge of his judicial duty whether or not within the limits of his jurisdiction; provided that he at the time in good faith believed himself to have jurisdiction to do or order the act complained of.'

"Now, my Lord, in a leading case on this section their Lordships of the Privy Council in a judgment reported in 2, Moore's Indian Appeals, at page 293, laid down the following principle. I am afraid I must correct myself. This rule was not based on this particular section, but was based on the corresponding section in 21, Geo. III, cap. 70, sec. 24. Their Lordships held that the section protecting the Provincial Magistrates in India from actions for any wrong or injury done by them in the exercise of their judicial offices does not confer unlimited protection, but places them on the same footing as those in English Courts by a similar jurisdiction and only gives them an exemption from liability when acting *bona fide* in cases in which they have mistakenly acted without jurisdiction. Trespass will not lie against a judge for acting judicially but without jurisdiction unless he knew or had the means of knowing of the effect of jurisdiction, but now mark what follows 'and it lies upon the plaintiff in every such case to prove that fact.'

"Now, my Lord, the Hon'ble Pandit thought it was very extraordinary that the onus of proving the absence of good faith should be placed upon a plaintiff in a case such as this. Your Lordship will see that this is exactly what their Lordships of the Privy Council laid down in this ruling, *i.e.*, that it will be for the plaintiff to prove that the Magistrate acted otherwise than in good faith in cases of this description.

"Turning now to section 43 of the Police Act, No. V of 1861, it enacts as follows :—

'When any action of prosecution shall be brought or any proceedings held against any police officer for any act done by him in such capacity, it shall be lawful for him to plead that such act was done by him under the authority of a warrant issued by a Magistrate. Such plea shall be proved by the production of the warrant directing, and purporting to be signed by such Magistrate and the defendant shall thereupon be entitled to a decree in his favour.'

"That is to say, under this enactment the mere production of the warrant directing the police officer to do a certain thing will entitle him to a verdict in his favour and a suit against him shall be dismissed.

THE INDEMNITY BILL.

[*Mr. Shafi.*]

[24TH SEPTEMBER, 1919.]

" Now, your Lordship will see that the provision which I have just read out is analogous to the first part of clause 3, and if we had stopped at the end of the first part, we would have been perfectly justified in doing so, because there is the precedent of the Police Act in its favour ; but in the present enactment, we do not stop there ; we go on to say that the act must have been done in good faith and so on. Therefore, it is perfectly clear that the present Act is justified by the precedent of the Police Act also.

" Turning, my Lord, to the Statutory Rules of Evidence as obtaining in India, it seems to me that it is unquestionable that the onus of proof as laid down in the clause under discussion is in perfect consonance with the provisions of the Evidence Act. Let me in this connection invite the attention of the Council to two facts. The proceedings instituted by the person against whom action has been taken will either be criminal or civil. Now in criminal cases, it is one of the fundamental principles of criminal administration in all civilised countries, that the accused must be presumed to be innocent until his guilt is established by the prosecutor so that the onus of proof lies in every criminal case on the prosecutor to establish the guilt of the accused. No authority is required for this A. B. C. of Criminal Law, but if the Hon'ble Pandit who, I believe, has given up practice for a large number of years, requires an authority, I will only mention section 101 of the Indian Evidence Act and invite his attention to illustration A below that section :—

' A desires a court to give judgment that B shall be punished for a crime which A says B has committed the crime. And the onus of proof lies on the prosecutor. '

" Now, my Lord, turning to cases of civil proceedings, sec. 102 of the Indian Evidence Act enacts as follows :—

' The burden of proof in a suit or proceeding lies on that person who would fail if no evidence at all were given on either side. '

That is the general principle laid down in the Indian Evidence Act regarding the question of onus of proof. Now if in a civil suit a plaintiff were to come into court and ask for damages against the defendant officer of Government on the ground of certain action done by that officer, it is obvious that if no evidence were produced on either side, it is the plaintiff who must fail ; his suit would naturally be dismissed if no evidence is produced on either side. And may I remind my three learned friends that this question is really concluded by authority. The case which, under these circumstances, will be instituted will be of the class of cases which are characterised as suits for damages for malicious prosecutions. It has been laid down by their Lordships of the Privy Council and by all the High Courts that even in cases where an accused person has been discharged or acquitted, whether in the Original Court or on appeal, when that person, in his own turn, comes into a civil court and asks for damages for malicious prosecution as against the prosecutor, he must, in spite of his discharge by the Criminal Court, establish three propositions. Firstly, that he was innocent of the crime with which he was charged, secondly, that the prosecution was malicious, and thirdly, and this is the most important point to which I wish to invite the attention of the Council, it is for the plaintiff to prove absence of reasonable and proper cause on the part of the defendant. That rule is obviously analogous to the rule which is embodied in the proposed clause. I need not cite in support of this position a long string of authorities which can be cited. It is sufficient for me to invite attention to only two leading authorities on this position. The Privy Council judgment in *Indian Law Reports* 25, Bombay, 322, Judgment by Lord MacNaughton, and the Calcutta High Court Judgment reported in *Indian Law Reports*, 28, Cal. 591, Judgment of Sir Francis Maclean, Chief Justice.

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Mr. Shafi ; Sir George Lowndes ; Pandit Madan Mohan Malaviya ; Rao Bahadur B. N. Sarma.*]

Therefore, my Lord, I submit that, on the ground of judicial authority, on the ground of precedent, on the ground of statutory rules of evidence, the onus is rightly placed on the plaintiff or the prosecutor in this clause when he comes into court either claiming damages or charging the accused person with an offence under the criminal law of the land, and, I submit, therefore that the principle of onus laid down in this clause is not only not extraordinary, but is the rule which already prevails, and in consequence, we are not enacting anything new."

The Hon'ble Sir George Lowndes:—"My Lord, this is not an amendment which Government can accept, and I am in some difficulty in dealing with it. My Hon'ble friend Mr. Sarma told the Council that he was willing to accept the position that it should be assumed that acts were done in good faith and were necessary until the contrary is proved in all cases of what I would call statutory law. But my Hon'ble friend would not apply the same rule to cases under non-statutory martial law. I am in a difficulty as to this, as I do not understand his differentiation between the two. Then came the Hon'ble Pandit who would not accept it at all. This is a case in which I am afraid the St. Vincent Act did not help the Hon'ble Pandit, and therefore we did not hear anything about it. The Hon'ble Pandit's argument was based on a passage which, I think, he quoted from a newspaper called the 'Servant of India' referring to an argument by Chief Justice Cockburn, not as a Judge, I understand, but in a discussion on some Indemnity Bill of which the Hon'ble Member did not give us any particulars. As far as I know, an Indemnity Bill on the lines of Lord Cockburn's argument was never passed by Parliament

4-3 P.M.

The Hon'ble Pandit Madan Mohan Malaviya:—"It was as a Judge that that remark was made by Lord Cockburn."

The Hon'ble Sir George Lowndes:—"I can carry it no further than the narrative in the 'Servant of India' which I have before me. It refers to a remark by Lord Cockburn in discussing an Indemnity Bill. I know no more about it, nor, I think, does the Hon'ble Pandit

The Hon'ble Pandit Madan Mohan Malaviya:—"May I mention that it will be found in 4 Queen's Bench Division, which is where I think that case was reported?"

The Hon'ble Sir George Lowndes:—"Again I say that, so far as I know, such an Indemnity Bill was never passed by Parliament. It was apparently a suggestion by an eminent authority as to what should be put into an Indemnity Bill, but the suggestion does not appear to have been carried into effect.

"I think the Council may be interested to hear a relevant clause of the general Indemnity Bill which is, I believe, now before Parliament.

"The clause provides, as our Bill does, for certificates that acts were done under authority and goes on to say that 'any such act, matter or thing done by or under the authority of such person shall be deemed to have been done in good faith unless the contrary is proved.'

"That is one of the terms of the Imperial Bill now before Parliament, and our clause follows it very closely."

The Hon'ble Mr Rao Bahadur B. N. Sarma:—"My Lord, my Hon'ble friend Mr. Shafi has obliged us by discoursing upon the rules of evidence and upon the previous history of enactments with regard to the onus of proof. I do not think anybody here need be told that the plaintiff or the

4-5 P.M.

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma ; Sir William Vincent ; Pandit Madan Mohan Malaviya.*]

[24TH SEPTEMBER, 1919.]

prosecutor ought ordinarily to prove his case, that the actions of the accused or defendant infringe upon some legal right, some rule of law. That he has to do. But these general dicta are a little beside the point. What we are now concerned with here is that admittedly certain actions are in violation of the ordinary law of the land. Admitting that, the question is whether we are to give protection to officers violating the law on the ground that their acts are to be presumed to have been done in good faith for the purpose of carrying out the objects of martial law. That is the real point. Therefore, in the absence of an Indemnity Bill like this, the onus would really lie upon the person pleading good faith in defence. I will only quote one passage—'A person who under martial law imprisons or kills British subjects in India must, if he is to escape imprisonment, justify his conduct by proving its necessity.'

"Here what we say is, though as a matter of fact the act may not be necessary, we shall presume that the officer believed it to be necessary, and therefore we shall exempt him from punishment. Therefore I do not see how Mr. Shaft's remarks will help us. The question is are we as a Legislature to raise this presumption in favour of all acts, only some or in favour of no acts? I took an intermediate position. It was necessary under the circumstances in which this Bill was brought in for Hon'ble Members to contend really that, in the absence of a clear proof of necessity, the onus should not be on the plaintiff, but even to an intermediate position objection has been taken by the Hon'ble Sir George Lowndes: here we have two classes of cases; one class, in which martial law has been proclaimed and in respect of which there is some doubt. Then we have another to which the ordinary law should be applied and to protect which would be a violation of the constitution. Having regard to the facts which have been so far disclosed it would be a travesty of justice to presume good faith and reasonable belief, in favour of certain officers in respect of some of the incidents which occurred before the 14th and the 16th of April 1919. I suggested that therefore no presumption should be raised in respect of acts done before the proclamation of martial law, and after the necessity therefore had ceased in the eye of the law. Of course here we are not arguing before Judges on the question of presumptions and technicalities, we are arguing whether the course suggested by the Government is expedient; whether it is politically right, whether it would not be a dangerous precedent, when we know as a matter of fact that those presumptions are not justifiable in many cases as far as our present information goes."

The motion was put and negatived.

4-10 P.M.

The Hon'ble Rao Bahadur B. N. Sarma:—"My Lord, I move that after the words 'and all action taken' in clause 3 the following be inserted:—'after the proclamation of martial law therein and during the continuance thereof.' I have really stated all my reasons with reference to this point in dealing with the previous amendment. I shall therefore not weary the Council by repeating them. I respectfully submit that a distinction must be drawn between acts committed before the proclamation of martial law and after its proclamation, and, I think, there would be grave disaffection felt by the public if Government should try to shield acts which *prima facie* must be assumed to be guilty."

The Hon'ble Sir William Vincent:—"My Lord, I have really nothing to add to what I have already said on this subject. I have explained that martial law was enforced before it was formally proclaimed in certain areas."

The motion was put and negatived.

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, I beg to move 'that in clause 3 for the words from 'and all action' to the end of the clause the following be substituted:—

'and that every act, matter and thing shall be presumed to have been done, *bona fide*, necessarily and properly, until the contrary shall be made to appear by the party complaining.'"

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[Sir George Lowndes ; Rao Bahadur
B. N. Sarma.]

The Hon'ble Sir George Lowndes :—"I think there is nothing more to be said on this point, and I shall not weary the Council by repeating my arguments."

The motion was put and negatived.

The Hon'ble Rao Bahadur B. N. Sarma :—"My Lord, a similar amendment has been thrown out by the Council, and there is no use in pressing this.* I beg to withdraw it." 4-13 P.M.

The motion was by leave withdrawn.

The Hon'ble Rao Bahadur B. N. Sarma :—"My Lord, I ask for the omission of clause 4. Clause 4 runs thus :—

'Every person confined under and by virtue of any sentence passed by a court or other authority constituted or appointed under martial law and acting in a judicial capacity shall be deemed to have been lawfully confined and shall continue liable to confinement until the expiration of such sentence, or until released by the Governor General in Council or otherwise discharged by lawful authority.'

"Of course this is partly governed by clause 6, which says :—

"Nothing in this Act shall—

- (a) apply to any sentence passed or punishment inflicted by or under the orders of any Commission appointed under the Martial Law Ordinance, 1919, or
- (b) be deemed to bar a full and unqualified exercise of His Majesty's pleasure in receiving or rejecting appeals to His Majesty in Council or to affect any question or matter to be decided therein.'

"Therefore, one class of cases really goes out, namely, those that are covered by the judgments of the Commissions appointed under the Martial Law Ordinances. I dealt at some length before with my objections to this part of the Bill and I shall not repeat them again. I shall try to summarise the various points on which I based my argument in asking the Council not to accept these convictions and sentences as being right and as deserving of confirmation. The point that was made by the Hon'ble the Home Member for bringing in a clause of this description was that, *prima facie*, these sentences might, after martial law ceased, be considered to be *ultra vires* and without jurisdiction. That therefore many persons might have to be released, and, inasmuch as inconvenient results would follow, an enactment of this description is absolutely necessary in the interests of peace and order. Well, the answer to that is two-fold. First of all, you might bring up those offenders who the Government think are really guilty and deserving of further detention before the ordinary courts. The only question would be one of expense. They may be re-arrested, and put in jail pending trial, and the interests of peace and order would not suffer in the slightest degree. The only question would be as to whether public time and public money would not be wasted by pursuing such a course. Put shortly the point is whether, on the balance of convenience, we are to confirm these convictions following precedents, or, having regard to the special methods employed in the Punjab, we should insist upon the Government bringing up the cases again wholly or partially. Hon'ble Members will see that I have got another amendment to the effect, that, at any rate in cases not covered by the Indian Penal Code or any special or local law this clause should not be applied. The objections, my Lord, are these. Assume that there was a necessity for martial law. According to many of us that necessity began, if at all, on the 14th or 16th and ceased about the

* * That in clause 2 the words 'in a reasonable belief' be omitted.'

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma.*]

[24TH SEPTEMBER, 1919.]

23rd. If the above view be correct, it was wrong both on principle and the dictates of sound policy for the Government to have established tribunals or passed any Ordinance on the 21st for the purpose of dealing with the disturbances. The questions as to the interpretation and validity of these Ordinances, Nos. I and IV, how far they are applicable and as to whether they are applicable in cases governed by the Bengal Regulation only, are really before the Privy Council, but I submit on the question before the Legislature we are not hampered by considerations which might restrict the action of the Privy Council or of any duly constituted authority. The question, my Lord, is, was there any reason for the ordinary courts of the land not trying these offenders, and if special tribunals were rightly established, their not trying the offenders with the ordinary procedure observed, at any rate after the 21st. ? If Hon'ble Members turn to the statement of trials by summary courts and area officers in the districts of Lahore, Amritsar, Gujranwala, Gujrat and Lyallpur, Hon'ble Members will find that most if not all of these convictions were late in April, and in May, June, July, and on later dates. It may be argued that martial law cannot be said to be in force when the ordinary courts are sitting for administering the law, and all writers have held that that is one of the criteria. The judicial tribunals in the Punjab were administering justice ordinarily without any interference, I take it, after the 21st. If they were administering the law after the 21st or the 23rd, was there any necessity for depriving the citizens of the Punjab of the protection of the procedure which was guaranteed to them by the Legislature deliberately in enacting the Criminal Procedure Code and other laws ? My submission therefore is that there was a violation of the fundamental principle of jurisprudence and violation of the protection given by the Legislature, when courts were constituted which could set at naught the ordinary procedure. This is my first and strong objection to our ratifying these convictions. Of course, if there was a state of war, if it was absolutely impossible for any court to sit and try cases, then certainly it would have been foolish on my part to say that the strict procedure of the Criminal Procedure Code should be adhered to. Necessity knows no law, and if the ordinary law courts cannot administer the law, there is no use of complaining that they did not. But here that was not the state of things. The courts were sitting, the courts were administering justice; there was absolutely nothing, therefore, to justify the depriving the citizens of the protection of the ordinary procedure. It is true that courts of three Judges have been appointed, but the ordinary right of appeal has been taken away. That is my second objection.

"There is a third objection, my Lord, and that is this. As things stand, in some cases the evidence was not clearly recorded; in other cases there are no clear judgments, so that it is absolutely impossible in a large number of cases—I will not say in all—for the Legislative Council, the Government or any Judges who may be appointed to consider as to whether these decisions were rightly come to. There can be no scrutiny, and therefore I submit as a matter of principle that there should be no confirmation of these sentences.

"Then, my Lord, there is another ground, and a stronger one. These martial law officers have issued various regulations the enforcement of which might or might not be justifiable during actual rebellion or the suppression thereof. But, I submit, it would not do for the Legislature sitting here deliberately to confirm sentences under martial law orders based on principles opposed to the ordinary notions of civilisation. The number of regulations apart from notices framed by these various officers and prescribing penalties was, I think, 15. Regulation 16 runs thus :—'Any person who contravenes any of the foregoing regulations shall be liable to trial by an officer authorised to dispose of an offence summarily under martial law, and such officer may sentence the offender to imprisonment,

THE INDEMNITY BILL.

[24TH SEPTEMBER 1919.]

[*Rao Bahadur B. N. Sarma ; Sir George Lowndes ; Sir William Vincent ; the President.*]

rigorous or simple, which may extend to two years or to fine not exceeding one thousand rupees or with both . . . and may also inflict whipping in addition to or in lieu of any other punishment which he is empowered to inflict.' I need hardly say that failure to salaam a European, discourtesy to a European officer and such like things had been made offences either by notice or by regulation. Therefore the point is that if by clause 3 you confirm the conviction—I know it has been confined only to cases where persons have been confined—if you confirm the conviction you necessarily ratify the legality of a provision of this description which could inflict the punishment of whipping and other punishments upon any person guilty of any infraction of martial law. We are grateful to the Hon'ble the Home Member for confining clause 3 to cases of imprisoned persons, but I would ask him to see whether we are not, as a matter of fact, in confirming the validity of these convictions, really ratifying Regulation 16 covering them all and convictions passed under regulations which cannot, I think, be ratified by any Legislature. It may be that some of the regulations are perfectly unobjectionable; but here the officers in command went and multiplied martial law offences, created offences which were not known to the law of the land, and under a comprehensive code of punishments a person can be whipped and imprisoned for any offence and in confirming the rule which inflicts the penalty you validate that rule; that is my real difficulty. When the question of the amendment of the Army Act was under the consideration of this Council, I sought to move an amendment that that punishment of whipping should be abolished. His Excellency the Commander-in-Chief was so good as to sympathise with the object of my amendment

The Hon'ble Sir George Lowndes:—"I rise to a point of order. I ask whether these remarks have anything to do with the clause of the Bill to which the Hon'ble Member has moved an amendment? It does not deal with convictions or the nature of the punishment; it only confirms sentences of confinement and nothing else."

1-25 P.M.

The Hon'ble Rao Bahadur B. N. Sarma:—"That is my real difficulty and I think that is no sufficient answer to my question. I find that in case No. 159 a person was thrashed and he was also remanded.

The Hon'ble Sir William Vincent:—"May I explain, my Lord, that this clause has nothing whatever to do with any sentence of whipping at all? I submit that the Hon'ble Member is out of order in attempting to create prejudice by bringing up this question of whipping."

The President:—"The Hon'ble Member must confine himself to the clause which he asks this Council to delete."

The Hon'ble Rao Bahadur B. N. Sarma:—"No one would be more glad if it were possible

The President:—"It is certainly possible."

The Hon'ble Rao Bahadur B. N. Sarma:—"I shall then treat it as possible, because I take it that both the Hon'ble the Law Member and the Home Member do not want to uphold the legality of that rule. It may be legal or it may be illegal, that was just the point I was driving at. My real difficulty was that you would be indirectly ratifying that rule inasmuch as there were cases in which persons were remanded to custody and the punishment of whipping to which I was alluding is provided for in the general penal clause. I know that any observation made by any Hon'ble Member in the course of the discussion would be absolutely irrelevant for the purpose of interpreting the Act

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma ; Sir William Vincent.*] [24TH SEPTEMBER, 1919.]

when it comes up before the law courts ; but I do not think that there is much use carrying the discussion further on this point.

"Then, my Lord, apart from that clause I would ask this Council to bear in mind that various offences had been created, such as selling above controlled rates foodstuffs, milk, etc., and so on, punishable in the same manner, and the preamble (paragraph 3) was not limited in its operation as is clause 4 of the Bill. Of course it may be said that the operative part of an act is the thing that matters, and it is a perfectly sound argument ; but I know the preamble is sometimes used in interpreting an Act. The preamble says—

'Whereas certain persons have been convicted by courts and other authorities constituted or appointed under martial law, and it is expedient to confirm and provide for the continuance of sentences passed by such courts or authorities.'

"It is very general ; and therefore there is danger in wide interpretation of this clause and Regulation 16. I am glad to be told at any rate that no such use would be made of it and that it was not intended to cover that part of the Regulation which provides for the punishment of whipping, etc. I shall proceed, my Lord, on that assumption. Then the question is as to the various offences not known to the law which had been created by these martial law orders, and the various terms of imprisonment ranging up to two years, etc., inflicted under these. My submission is, would it be right for us as a Legislature to confirm these convictions without knowing more, especially when we know as a matter of fact that all the materials are not before anybody on which the rightness and appropriateness of the decisions may be examined. I therefore submit that this clause should be eliminated, and the ordinary procedure should be resorted to."

The Hon'ble Sir William Vincent :—"My Lord, I hope Hon'ble Members will not conclude from what the Hon'ble Mr. Sarma has said that this clause involves the admission of the principles to which he has referred. It does not. He referred, for instance, to the sentences of whipping awarded by the military authorities for certain offences. Whatever may be the merits or demerits of such a form of punishment, every Member who reads the clause which is now under discussion will see that there is no reference in it to whipping at all, and that it does not justify such sentences. I suggest further that the introduction of the racial question and the mention of this form of punishment were made in order to create a prejudice in the minds of the Council. I can conceive of no other reason for the mention of these matters. My Lord, I have already in my opening speech explained to the best of my ability why we cannot accept this amendment. When martial law is introduced in a particular area, it is clearly necessary for the military authorities to have some means of enforcing their orders, of punishing summarily and speedily crimes directly connected with the disturbances and breaches of military regulations. I think that is a proposition that will be evident to everybody, and as a matter of fact, I believe that when martial law is enforced the normal procedure is to constitute some form of summary courts ; if indeed such courts were not constituted, there would be no authority whatever which could enforce obedience of martial law regulations. Otherwise if the offender were sent to the Civil Courts they would say 'this is not an offence under the civil law or one of which we can take any cognizance whatever.' Many of the men sentenced by these summary courts were, as I explained to the Council before, convicted of very heinous crimes, such offences as arson, the possession of stolen property, the destruction of railway lines, etc. I am very anxious not to repeat what I have said already. A large number, about 90 per cent I believe,—but I will not guarantee that statement—were tried before 1st class Magistrates whose business it is normally to try similar offences. I have already given an undertaking to this Council, further,—and I have already

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[Sir William Vincent.]

addressed the Punjab Government on the subject—that we will have the sentences of all these men revised by two High Court Judges. Further, those who have been convicted of offences which are really a violation of military regulations only, will be released by Government, provided that the facts found by the Court are not such as to justify a conviction for an offence punishable under the ordinary law. I do not know if I make myself quite clear. There are a certain number of offenders who have been definitely convicted under various sections of the Indian Penal Code. There is another class of offenders who have been convicted of breaches of military regulations. In some of the latter cases the facts found would justify the conviction of these men under the ordinary criminal law. We have cases, for instance, of extortion; one man was convicted of extorting money from a townsman on threat of giving certain information to the Police. This is a conviction that might well have been had under section 384. There is another case of indecent assault on a woman in which the conviction was recorded as a breach of military regulations; then we have cases of injuries done to railways and telegraphs. In such cases although the convictions have been recorded as breaches of military regulations, these records will only be revised in the ordinary way. Where, however, the offence consists of violation of military regulations and the facts found do not constitute an offence under the ordinary law, it is the intention of the Government—I gave the undertaking before and I give it again—to release the men immediately. I hope that will go some way towards meeting Mr. Sarma. But the amendment he proposes goes a great deal further than this, and would mean that none of these sentences of imprisonment should be validated at all. My Lord, I do not know how the military Commander can do his duty without these sentences. If anybody is whipped a large section of the public at once protests: ‘what a scandal, what a barbarous thing?’

“What then is to be done with these offenders if they are not to be imprisoned or whipped? Fining would not meet the circumstances of many cases. I have explained that Summary Courts were absolutely necessary and that proceedings in the ordinary courts would in cases in which speedy measures were necessary be an impossibility. Wherever martial law has been in force it has been the practice to constitute these courts, and it has been the practice to validate the sentences and the normal procedure to go very much further than the Bill which we have under consideration. Here, for instance, is the South Africa Act of 1915 which has been constantly quoted. It runs:—

‘The several courts martial and military and special tribunals constituted and convened by or on behalf of the Government or its officers during the period aforesaid for the trial and punishment of persons guilty of treasonable, seditious or rebellious conduct or of persons subject to military law shall be deemed to have been constituted in accordance with law, and the several sentencesare hereby confirmed.’

And goes on:—

‘Every person confined in any prison, gaol, lockup, or in any other place whatsoever under and by virtue of any such sentence aforesaid shall continue liable to be confined therein.’

The same provisions will be found in both the older South Africa Acts. In one of them there is a definite reference to offences which really consist of a breach of military regulations, the very class of offences to which the Hon’ble Member made a reference. Similarly, the Imperial Bill, which has now been quoted, says:—

‘Any sentence passed, judgment given or order made by any military court (other than a court-martial constituted in pursuance of any Statute) in connection with the present war or by any court established for the administration of justice within any territory in the occupation of any of His Majesty’s forces during such occupation or after such occupation has determined until the Court has been abolished or superseded by such lawfully constituted authority as may hereafter be established for the administration of such territory shall be deemed to be and always to have been valid.’

In asking the Council to adopt this clause we are not therefore departing from the normal procedure. It was, however, suggested in another part of the

THE INDEMNITY BILL.

[*Sir William Vincent ; Rao Bahadur B. N. Sarma ; Mr. Sachchidananda Sinha.*]

[24TH SEPTEMBER, 1919.]

argument of the Hon'ble Mr. Sarma, if I understood him aright, the point raised was that the ordinary courts were sitting and it was therefore improper to resort to summary courts—

4-40 P.M.

The Hon'ble Rao Bahadur B. N. Sarma :—"You could for the sake of the convenience of the administration multiply the officers, but the procedure would be the ordinary one."

4-41 P.M.

The Hon'ble Sir William Vincent :—"That is much the same thing, but in any case wherever military courts of this character have been constituted, it has been the universal practice, I think, to adopt a summary form of procedure. In fact this is obviously necessary if justice is to be administered quickly. In many cases where martial law has been established in the past, we know also that the Civil Courts have sat for the trial of ordinary offences concurrently with Military Courts specially constituted for the trial of offences connected with these disturbances. Finally, before I sit down, I want to point out two results of the adoption of this amendment. One is that Government would have to release a very large number of criminals, dangerous criminals, on to the country. That would be extremely unwise; and the second result would be that Council would deliberately put the Government in this position, that they would be liable to actions for wrongful imprisonment brought by a number of men who have done their best to destroy the safety of the State in a time of grave peril. That, I hope, this Council will not agree to."

4-43 P.M.

The Hon'ble Rao Bahadur B. N. Sarma :—"My Lord, I am thankful to the Hon'ble the Home Member for his promise to release persons who were merely guilty of infraction of martial law regulations, and whose cases could not have been brought up under the criminal laws of the land. I think the people must be satisfied with that promise. But, my Lord, with regard to the question as to what effect it would have on public peace if a large number of people are released, I have already answered that; they may be brought before the ordinary courts. With regard to the cases of imprisonment, I still submit there is absolutely no information whatsoever as to why the ordinary courts were not allowed to proceed or the ordinary procedure was not followed, beyond the answer that military officers could not have done it. My reply to it, my Lord, is, that the courts specially constituted to try offences only on the ground of necessity might have followed the regular forms and should have followed the form in a time of peace when there was actually no rebellion. In the interests, my Lord, of persons who may have wrongly suffered as well as of the future, I think I must press this amendment."

The motion was put and negatived.

The Hon'ble Rao Bahadur B. N. Sarma :—"My Lord, having regard to the promise we have received, I shall not press the other two* amendments on the agenda, and I beg leave to withdraw them."

The motions were by leave withdrawn.

4-45 P.M.

The Hon'ble Mr. Sachchidananda Sinha :—"My Lord, I propose that to clause 5 the following be added :—

'Such assessment by the said Judicial Officer shall be made pursuant to an inquiry conducted in the manner, so far as possible, laid down for the trial of suits in the Code of Civil Procedure'.

* **The Hon'ble Mr. Sarma :—**

32. That if amendment No. 31 be rejected the words 'and shall continue liable to confinement until the expiration of such sentence or until released by the Governor General in Council or otherwise discharged by lawful authority' in clause 4 be omitted.

33. That to clause 1 the following be added :—

'Provided that no person shall continue liable to confinement after the date of commencement of this Act unless he shall have been convicted and sentenced for some offence under the Indian Penal Code or some special or local law in force before the establishment of martial law.'

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Mr. Sachchidananda Sinha ; Sir William Vincent ; the President ; Rao Bahadur B. N. Sarma.*]

'An appeal shall lie to the High Court against such order of assessment in the manner provided for appeals from orders in the Code of Civil Procedure, the order passed by the High Court being final.'

"My Lord, this amendment does not touch at all even the fringe of the substantive provisions of the Bill. It only provides a machinery for the assessment being made, and as there is no provision of that character in this Bill, I think, my Lord, this amendment might be adopted with a view to provide a machinery for the purpose."

The Hon'ble Sir William Vincent :—"My Lord, the intention of the clause is to provide a summary remedy for persons who might consider themselves aggrieved owing to their properties having been commandeered by the military authorities. The Bill does not, as I understand, prevent a regular suit from being brought. Our intention is merely to provide a convenient remedy for the assessment of damages, and any one may seek redress in a law court. In those circumstances, if any person wishes to go to a law court and have a full trial, he may do so, but we do not think that it is desirable to prescribe the lengthy procedure of the Civil Court for an officer of the kind proposed. We do not either think it necessary to allow an appeal from proceedings of this character."

The Hon'ble Mr. Sachchidananda Sinha :—"My Lord, with regard to that part of the question which refers to appeals, I am prepared to withdraw it. But I think there should be some procedure laid down, and I have added the words 'so far as possible'. I do not, therefore, insist upon the trial being conducted in strict accordance with the Civil Procedure Code. I am prepared to withdraw the second clause about the appeal, to which the Hon'ble the Home Member objects."

The motion was put and negatived.

The President :—"I should have stated after Mr. Sarma withdrew his amendments just now, that amendment* No. 10 which stood on the agenda until these amendments were disposed of was of course dropped. It is consequential."

The Hon'ble Sir William Vincent :—"My Lord, may I point out that the same position arises with regard to an amendment of Mr. Sinha also ?"

The Hon'ble Rao Bahadur B. N. Sarma :—"My Lord, I submit that this should be accepted, because it refers to certain cases only. It refers to certain cases and subject to certain limitations only, and those words I would like to be added to paragraph 3 of the preamble."

The Hon'ble Sir William Vincent :—"If the Hon'ble Member wishes to move the amendment, I have no objection."

The President :—(To Rao Bahadur B. N. Sarma) "You move No. 10."

The Hon'ble Rao Bahadur B. N. Sarma :—"I think that will clear the position."

The President :—"Yes, Mr. Sarma is moving his amendment No. 10 which was held up until the other two amendments 32 and 33† were disposed of."

The Hon'ble Rao Bahadur B. N. Sarma :—"My Lord, the 4-40 P.M. Act deals with only certain cases, and it imposes certain limitations. Clause 4 deals with the cases only of persons who are actually confined in prison, and in order to bring it into conformity with the other provisions, I propose that to paragraph 3 of the preamble the words 'in certain cases and subject to the limitations specified herein below' be added. I therefore hope that this amendment will be accepted."

*10. "That to paragraph 3 of the preamble the following be added 'in certain cases and subject to the limitations specified herein below'."

† Vide page 1866 of these Proceedings.

THE INDEMNITY BILL.

[*Sir William Vincent; Rao Bahadur B. N. Sarma; Pandit Madan Mohan Malaviya.*]

[24TH SEPTEMBER 1919.]

The Hon'ble Sir William Vincent:—"My Lord, I may say at once that we have no objection whatever to the introduction of the words suggested by the Hon'ble Member if the insertion will please him, but they really do not make any difference in the effect of the Bill. As it will apparently gratify the Hon'ble Member, I am prepared to accept an amendment, substituting the words 'certain sentences' for the words 'sentences.'"

The Hon'ble Rao Bahadur B. N. Sarma:—"It is not a matter for gratification, my Lord, but it is a question of some importance, and I am glad that the Hon'ble the Home Member has accepted a modified form of my amendment."

The amended motion was put and agreed to.

4-51 P.M.

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, I beg to move 'that in clause 6, sub-clause (b) be omitted and the said sub-clause be inserted as a new clause 7, and that to the said new clause 7 the following be added:—

And any order made by His Majesty in Council on any appeal presented by any individual or individuals against any conviction or sentence passed by any tribunal constituted under martial law and acting in a judicial capacity or by Commissioners appointed under the Martial Law Ordinance, 1919, as to the legality, propriety or correctness of any conviction or sentence may be taken advantage of by any other person convicted by the tribunals or Commissioners aforementioned though he may not have appealed against his conviction or sentence to His Majesty in Council, if the grounds upon which any order of His Majesty in Council is based are common to or govern the case of such other persons, and the Governor General in Council shall be bound to act upon the reasons underlying the said order of His Majesty in Council in all cases governed by such order; and the High Court of Judicature established in the Province shall on an application made to that Court for that purpose decide whether any particular case is governed by the rule laid down or reasons underlying any order of His Majesty in Council.'

"My Lord, the object of my amendment should be obvious to everybody who has followed the debates during the last few days over the Punjab affairs. There is a large number of persons who have been arrested, detained, tried, convicted and are undergoing sentences. A few of these have appealed to His Majesty's Privy Council. An appeal to His Majesty in Privy Council is not an easy affair; it involves much expenditure, much local help, and everybody is not in a position to do so. Even if the public do extend their help to some persons, as I am thankful to say help has been extended to a number of persons to have their cases brought before His Majesty in Privy Council, but the number of such cases will, I fear, be small. There will still be a large number of persons who will not be able to approach the Privy Council. The cases that have been tried, many of them might probably rest upon some common ground. At any rate it is expected that the decision of His Majesty in Council about certain points will govern a number of cases, and the object of my amendment is that, where His Majesty in Council has considered the case and has expressed an opinion upon the matters involved in it, the benefit of that decision should be secured to such other persons who may have been tried by these martial law commissioners or summary courts and who may not have taken their case to the Privy Council. My Lord, I hope that this will commend itself to the Government because it would be anomalous and deplorable that when His Majesty in Council has expressed an opinion upon points which affect the cases of other persons, they should not have the benefit of that decision. I do not think the Government would wish to contemplate that situation. I venture to think that in this matter, at any rate, the Government will be in sympathy with my amendment. The second clause which I have added, clause 7, lays down, in order to make assurance doubly sure, that the Governor General in Council should be bound by the decision of their Lordships in the Privy Council in such cases and that they should be bound, on receipt of the orders of His Majesty in Council in any particular case to take action on all such cases as may be affected by it. But, my Lord, we are all human and there is no knowing whether a decision of the Government of India will satisfy the persons whose

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; Mr. Sachchidananda Sinha ; Rao Bahadur B. N. Sarma ; Sir William Vincent.*]

right or interests may be involved, and for that reason, as an assurance that everybody will have a chance of having the matter properly considered and decided, I have suggested that the High Court of Judicature established in the province should, on application made to that Court for that purpose, decide whether a particular case is governed by the rules laid down or the orders of His Majesty in Council. I hope the proposal will commend itself to Government."

The Hon'ble Mr. Sachchidananda Sinha:—"I should like to say one word, my Lord, in support of this proposal, which seems to me a very reasonable one. Otherwise, there will be great hardship entailed on a large number of people who cannot appeal to His Majesty in Council. Therefore, people here should be given the benefit of a Privy Council Judgment, if they move the High Court on the ground that the facts and circumstances in their cases are similar to those of the cases before the Privy Council, and obtain a favourable order therefrom." 4-55 P.M.

The Hon'ble Rao Bahadur B. N. Sarma:—"My Lord, I have a similar amendment against my name. It is obviously just that if the grounds of decision upon which the Privy Council set aside a conviction are common, it should apply to similar cases, and the Government or the High Court should set aside those convictions and sentences also. Of course if the grounds on which the Privy Council set aside these convictions are of a technical character, and not based upon the merits, there is nothing to prevent the Government from bringing up the offenders before the regular courts for trial. Therefore the ground of convenience should not be for keeping those men in confinement, even though their cases may be really governed by the decision of the Privy Council."

The Hon'ble Sir William Vincent:—"My Lord, if Hon'ble Members will again read clause 6 of the Bill they will see that nothing in the Bill can affect trials by commissions. Sub-clause (a) of this clause runs as follows: 'Nothing in this Act shall apply to any sentence passed or punishment inflicted by or under the orders of any Commission appointed under the Martial Law Ordinance, 1919.' 4-59 P.M.

"If Hon'ble Members will now turn to the amendment which is proposed in clause 6 by Mr. Malaviya, they will see that an important part of his amendment is entirely inconsistent with the sub-clause which I have just read. You cannot in one sub-clause of a Bill say that nothing in this Act shall affect trials before the Commissions, and in the next sub-clause go on to provide for such convictions and sentences. I do not know if I have made myself clear, but it seems to me that, as a matter of drafting and of principle, this is impossible. We are particularly anxious, and have been most careful throughout this Bill, to avoid any reference to these Commissions appointed under the Martial Law Ordinance, because we know that certain sentences from them are before the Privy Council on appeal, and that it would be manifestly improper

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, I do not want to stick to the actual wording of the amendment. If the Hon'ble Member will put it in a different form which will be acceptable, I shall be quite agreeable."

The Hon'ble Sir William Vincent:—"I am aware of the habit of the Hon'ble Member of putting a motion in an impossible form and then asking me at the last moment to put it into proper form. Well, I cannot do it at this juncture; he should have thought of this before. But I shall be able, I hope, to some extent at any rate, to meet the object which he has in view. I was for the moment trying to point out to the Council that it would be entirely inconsistent with the rest of the Bill if this amendment, as it is worded, was passed by the Council, and I cannot possibly undertake at a moment's notice to

THE INDEMNITY BILL.

[*Sir William Vincent ; Mr. Sachchidananda Sinha ; Pandit Madan Mohan Malaviya.*]

[24TH SEPTEMBER, 1919.]

after the amendment into a form in which it could be accepted. I have already accepted one amendment from Mr. Sinha to-day, and I am not at all sure that I was wise in doing so . . .

The Hon'ble Mr. Sachchidananda Sinha :—"I can assure the Hon'ble Member he was."

The Hon'ble Sir William Vincent :—"It may however meet the Hon'ble Member and others here if I explain that if there is a decision by the Privy Council in any appeal before them and any appellant is acquitted on grounds which affect the conviction of other persons who have not appealed, we shall certainly examine the cases, and if we are satisfied that the reasons set out in the Privy Council's judgment apply to any cases of the persons under confinement here, we shall give effect to the principles enunciated by the Privy Council. It follows necessarily, that if the men who have appealed to the Privy Council are acquitted on grounds which would apply to other cases, those who have not appealed will receive the benefit of the decision. But I want the Council to remember that the position of the persons to whom this Bill applies is entirely different from the position of persons tried by the Commissions. These men were tried by summary courts appointed by the military authorities. The proclamation of martial law is a statutory authority vested in the Governor General in Council, I believe, and it seems to me that the validity of the sentences of summary courts depends upon entirely different grounds from those which form the basis of the decisions of the Commissions. It is however quite possible that I may be wrong in this matter and, should the judgments of the Privy Council be decided on grounds which would indicate that the trial of these persons by summary courts was not justified, then certainly we shall have to take action to meet the decision of the Privy Council. I hope that this undertaking will meet, to some extent the wishes of the Hon'ble Member."

The Hon'ble Pandit Madan Mohan Malaviya :—"Will the Government accept the last provision that 'the High Court of Judicature established in the province shall on an application made to that Court for that purpose decide whether any particular case is governed by the rule laid down or reasons underlying any order of His Majesty in Council?'"

The Hon'ble Sir William Vincent :—"I did not deal with that point by error. I ought to have done so. I am afraid the Government cannot accept this proposal. They do not intend to allow any appeal to the High Court from summary convictions by a military court. That is an entire negation of the principles on which martial law is administered. But I have given an undertaking as to the intentions of Government in this matter, and if we do not carry it out, there are many opportunities by which Hon'ble Members of this Council or any one else can make it incumbent on us to fulfil our undertaking."

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, my amendment does not suggest that the High Court should hear appeals from the decisions of summary courts. All that I ask is that 'the High Court of Judicature established in the province shall on an application made to that Court for that purpose decide whether any particular case is governed by the rule laid down or reasons underlying any order of His Majesty in Council'. I wish the High Court to be empowered to deal with this on an application made to them, and I think that Government might see their way to accept this much."

"My Lord, as to the assurance given by the Hon'ble the Home Member, I am thankful for it. It is satisfactory, so far as it goes, and I hope that the public may not, as I fear the public may, have reason to regret that what should have been incorporated in the Bill was merely accepted as an assurance,

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; the President ; Mr. Sachchidananda Sinha ; Sir William Vincent ; Rao Bahadur B. N. Sarma.*]

and be disappointed again as they have been in the past. Your Lordship will remember, the Council will remember, that, in the matter of the Press Act, certain assurances were given about it, but the public have had to complain that they were not carried out. Therefore, I propose this for the consideration of the Government when I suggest that the wording of clause 6 might be modified. I was under the impression that the Hon'ble the Home Member had thought of some changes in the wording which he might accept. Well, my Lord, the Bill is not to be referred to a Select Committee. The difficulty of drafting becomes very great and, in view of that difficulty, I am not surprised that the wording leaves much to be desired. But the principle of it being accepted, as the statement of the Hon'ble the Home Member shows, I hope the Government will accept the amendment as it stands."

The motion was put and negatived.

The President :—The rejection of that amendment will also dispose of Mr. Sarma's amendment* No. 37.

The Hon'ble Mr. Sachchidananda Sinha :—" My Lord, I move is that in sub-clause (c) of clause 6 for the words 'against any person' the words 'against any officer of Government, Civil or Military, or any other person.'

" My Lord, the only reason for this is that the Hon'ble the Home Member explained that the Government wanted to reserve to themselves the right of proceeding against any officer, if that was necessary for the ends of justice. This amendment is intended to make that point clear."

The Hon'ble Sir William Vincent :—" My Lord, if there was anything in the amendment I should be very pleased to accept it, but it is really entirely unnecessary. It is the first time that I have ever heard that the word 'person' does not include an officer of Government."

The Hon'ble Mr. Sachchidananda Sinha :—" I wanted to be quite sure of that."

The Hon'ble Sir William Vincent :—" That is the advice I have received from the drafting Department."

The Hon'ble Mr. Sachchidananda Sinha :—" I beg to withdraw it, my Lord."

The motion was by leave withdrawn.

The Hon'ble Rao Bahadur B. N. Sarma :—" My Lord, I beg to move the following amendment, 'that the following new clause be inserted as clause 7 :—

' This Act shall be in force till the Committee appointed by the Governor General in Council to inquire into the recent disorders makes its report and for a period of three months thereafter.'

" My Lord, I gave notice of this amendment to provide against a certain contingency. Unfortunately that contingency has occurred. If my amendment that the Bill should be confined to what took place after the proclamation of martial law and during its continuance had been accepted, there might not have been very much necessity for this amendment. I shall not repeat the reasons which I have already urged for the acceptance of this amendment

The Hon'ble Mr. Sarma :—

* 37. ' At the end of clause 6 add a new clause :—

' Any person convicted and sentenced by a Court or other authority constituted or appointed under martial law and acting in a judicial capacity, including commission issued under the Martial Ordinances of 1919 shall have the benefit of any order in Council regarding the regularity, propriety or correctness of any conviction or sentence in an analogous case or cases in so far as the grounds of such order or decision may be applicable to him.

On application by any person convicted and sentenced as hereinbefore referred to, the High Court of the Province concerned shall determine whether the case of the applicant is governed by the decision of the Privy Council and pass such orders as it may deem fit.'

THE INDEMNITY BILL.

[Rao Bahadur B. N. Sarma ; Sir William Vincent.]

[24TH SEPTEMBER, 1919.]

now. All that I shall say is that we meet all the objects which the Government have in view by accepting this clause. The Government asked 'are our officers to have the sword hanging over their heads until this inquiry is over'? We have given them protection; nobody can institute any suit against them. We have also provided for the legality of all convictions and sentences during a long period. But if the Committee of Inquiry should furnish ample grounds on various questions, as to the necessity for martial law being proclaimed or as to the conduct of particular persons, high or low, before martial law was proclaimed or after it was proclaimed, it may be necessary both for the Government as well as for this Legislature to consider the question as to what protection should be afforded to those officers and to meet those contingencies. We have thrown the onus in all cases alike upon the prosecutor or the plaintiff, as the case may be. It may be that the Government or the Legislature would ask for a revision especially on the facts being ascertained by a public court of inquiry of the kind mentioned. Therefore, I submit, there are ample grounds for meeting the wishes of the people by accepting a clause of this description. We protect the officers of the Government, we provide for the legality of these trials to a certain extent, but, at the same time, the Government have appointed a Committee of Inquiry at the request of the people. That Committee of Inquiry would go necessarily into the kind of measures which were adopted by the martial law officers or others for the purpose of suppressing these disturbances, and, I think, a report of that description would help the solution of the difficulty. It may be that the inquiry will show there was absolutely no necessity for it, and in that case everybody would be satisfied that the action of the Government was right. I hope, therefore, that this amendment may meet with some luck."

5-12 P.M.

The Hon'ble Sir William Vincent:—"My Lord, there are more cogent reasons against accepting this amendment than arguments of mere convenience. It is true that many of us would be averse from going through all this troublesome discussion on the Bill again three or four months later; but the real objections to this amendment are more deeply-rooted, and, I myself am rather surprised that a gentleman who is a professional lawyer, as I understand, should have failed to realise that this passage of the Bill has absolutely no connection with the work of the Committee. The one principle upon which we have insisted and which has been accepted by this Council is, that the Report of this Committee is an administrative matter; the Committee will inquire into the conduct of officers from an administrative point of view; their report will in any case only be considered by Government in deciding what the action of the administrative authorities is to be. This Bill deals with the question of legal liability of officers and others, and has nothing to do with the report of the Committee. Let us assume for one moment that the committee reported that a man was liable to censure or should be punished. Can it be supposed for one moment that that would affect his legal liability that the report can be put in as evidence? Nothing of the kind. The two subjects are entirely distinct; the one deals with the administrative aspect of the action taken, and the other with the legal aspect of any case gone into by the Courts. It was for that reason that my Hon'ble friend, Sardar Sundar Singh, asked me whether, if the report of the Committee indicates that certain persons are liable to be censured, the Government would act on the report irrespective of the Bill, and I was able to give him an assurance that the passing of this Bill will not make any difference to that question at all.

"There is a further objection to the amendment, one of root principle, which has been discussed *ad nauseam* in this Council; it is this, that if the amendment were accepted our unfortunate officers would only obtain exemption from suit for a few months, and at the end of that time they would again become liable to suits (having had a short interregnum of peace), although they have acted *ex-hypothesi* properly and *bona fide*. A very similar question we discussed in the opening debate, and if this amendment is pressed to a division, I really do not believe that the Hon'ble Member will now receive more than one vote in support of his proposal."

THE INDEMNITY BILL.

[24TH SEPTEMBER, 1919.]

[Rao Bahadur B. N. Sarma.]

The Hon'ble Rao Bahadur B. N. Sarma :—“My Lord, the 5-15 P.M.
Hon'ble the Home Member's arguments may be extremely convincing to him and to several others, but I may assure him that the matter does not admit of such a summary disposal. I never for a moment thought that the report of the committee would be evidence in any judicial tribunal, or that that would necessarily completely govern the action either of the Government or of the Legislature. All that I said was that it would enable us to enact an Indemnity Bill that is suited to the occasion, which would satisfy the requirements of justice as well as the legitimate wishes of the people, while affording protection to those who really deserve it. We have had to proceed on assumptions to a very large extent in enacting this Bill. Ordinarily an Act of Indemnity would only follow martial law only if there was necessity for the enforcement of martial law. If an Indemnity Bill be not passed the questions whether there was necessity for the enforcement of martial law, whether there was a state of war, are questions of fact which would be adjudicated upon in a court of law. Therefore, we consented to the amendment moved by the Hon'ble the Home Member, because we felt that there were cogent reasons for an interim Act of this description. If there really was no necessity, then the question would stand upon the same footing as when the civil power takes the assistance of the military authorities for the purpose of protecting law and order. Of course, if the Legislature should still feel inclined to protect those officers even under those circumstances, it may do so; but it would not have much of a precedent in its favour. Therefore, my Lord, the decision of the Inquiry Committee would not be final and conclusive, but would help both the Government and the Legislature in arriving at sounder conclusions on questions of presumption, on questions of fact, than they are in a position to do at present, when everything must be taken for granted one way or the other. Take, for instance, the actions about which so much reference has been made, on the 13th and 14th April. We are asked to presume good faith and reasonable belief. Would it not be more satisfactory to have the explanations of the officers themselves, to have the evidence before us that they were justified in doing what they did? If they were justified, then by all means protect them by a legislative enactment. Therefore, my Lord, it is not without very sound reasons that I have brought forward this amendment. What is the cry outside? What is the legitimate cry? It is that the Government have been hurrying through a Bill simply to protect their officers, many of whom do not deserve it. It may be that the Government should do something to protect their officers before they can quite make up their minds as to what they should ultimately do. But my submission is that that should only be temporary, and they should not ask the Council as they have asked, by means of a majority, to raise certain presumptions in the way they are doing; the Council might not have done it if they had the facts more clearly. That is the reason why I ask that this Bill should be of a suspensory character, and I have behind me the opinion of very eminent men outside the Council who have been connected with the administration. There is no necessity of giving any names; but they are people who are not likely to take irrational views of things. Therefore, here is no question for professional lawyer or non-professional men. Nobody could fall into the error that this committee's report would be evidence in any court of law, or that we should necessarily act upon it. All that I said and say still is that we would have better material upon which we can proceed before enacting a measure of this description, which is sure to create dissatisfaction everywhere and which has already created dissatisfaction.”

The motion was put and negatived.

The Council then adjourned till Thursday, the 25th September, 1919, at 11 A.M.

* Bombay figures compiled from monthly mortality returns, the Provincial Sanitary report not having been received.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE INDIAN LEGISLATIVE COUNCIL ASSEMBLED UNDER
THE PROVISIONS OF THE GOVERNMENT OF INDIA ACT, 1915.
(5 & 6 Geo. V, Ch. 61.)

The Council met at the Council Chamber, Viceregal Lodge, Simla, on
Thursday, the 25th September, 1919.

PRESENT :

His Excellency BARON CHELMSFORD, P.C., G.M.S.I., G.M.I.E., G.C.M.G., G.C.B.E.
Viceroy and Governor General, *presiding*, and 47 Members, of whom 39
were Additional Members.

QUESTIONS AND ANSWERS.

The Hon'ble Mr. Sachchidananda Sinha asked :—

1. " Do Government propose to place before His Majesty's Government an expression of the views and sentiments of His Majesty's Mussulman subjects in India in the matter of the reconstitution of the Turkish Empire attendant upon the conclusion of peace ?"

The Hon'ble Sir William Vincent replied :—

" The Hon'ble Member's attention is drawn to the following passage from His Excellency the President's speech of 3rd September :—

' I have throughout done all in my power to ensure full representation of their feelings. Not only have the Government of India placed the views of Muslim India with strong emphasis before His Majesty's Government, our delegates voiced those views before the Peace Conference, and that nothing might be left undone to lend weight to their evidence, it was reinforced by three Muslims of distinction who had been specially delegated to attend the Peace Conference with them. Muslim India may, therefore, rest assured that its feelings have been given the fullest representation possible.'

From this the Hon'ble Member will see that the Government of India have done everything within their power to secure that the views of Indian Muhammadans should be given all possible consideration, and I can assure the Hon'ble Member that they will continue to do so."

QUESTIONS AND ANSWERS.

[*Mr. Sachchidananda Sinha ; Sir George Barnes.*]

[27TH SEPTEMBER, 1919.]

The Hon'ble Mr. Sachchidananda Sinha asked :—

Filling of
vacancies in
the cadre of
Superintendents of Post
Offices and
Railway
Mail Service.

2. “ (a) Have the vacancies that have occurred in the cadre of the Superintendents of Post Offices and Railway Mail Service during the last five years been filled up by promotion of officers in the lower grades? How many such vacancies have occurred, and how many have been so filled up? If all the vacancies have not been so filled up, will Government state the reason therefor? ”

(b) What measures, if any, have been taken to give effect to the recommendations of the Public Services Commission regarding the increase of salaries of the Superintendents of Post Offices and Railway Mail Service? If no steps have been taken so far, will Government be pleased to state the reason for the delay? ”

(c) Have the recommendations of the Commission in respect of the increase of salaries been carried out in the Postal and Telegraph Departments to any extent? If so, in respect of which particular offices, and why for these alone so far? ”

The Hon'ble Sir George Barnes replied :—

“(a) The vacancies that have occurred in the cadre of the Superintendents of Post Offices and Railway Mail Service during the last five years have been filled up both by the promotion of officers in the lower grades and by direct recruitment of qualified persons not already in the service of the Department. Direct recruits usually join the Department as probationary Superintendents, and in a few cases as reserve Superintendents. There were 59 vacancies during the period in question, of which 37 have been filled up by promotion of departmental subordinates, 20 by probationary Superintendents, and 2 by reserve Superintendents.

For the appointment of Superintendent of Post Offices it has always been the practice to fill up half the vacancies by the promotion of officials from the subordinate ranks, leaving half for persons not already in the service of the Department. The work of a Superintendent requires activity of mind and body, and the Royal Commission on the Public Services in India considered that a certain proportion of direct recruitment was necessary in order to secure a sufficient leaven of younger men. They suggested that an even higher rate of direct recruitment should be adopted, if experience of the working of the existing arrangement continued to prove satisfactory. It will be seen, however, from the figures given in the preceding paragraph that there has been in recent years a preponderance of promoted subordinates in the Superintendent's grade, but this is largely due to the fact that a number of promotions were given to officials who did good service in the Field.

(b) A despatch containing the views of the Government of India on the recommendations of the Public Services Commission regarding the increase of salaries of the Superintendents of Post Offices and Railway Mail Service and of other officers of the Department was forwarded to the Secretary of State on 11th June 1919, and his orders on the subject are awaited.

(c) As already stated the orders of the Secretary of State on the recommendations of the Public Services Commission have not yet been received. For this reason the Commission's recommendations have not yet been carried out in respect of any officers of the Posts and Telegraphs Department.”

The Hon'ble Mr. Sachchidananda Sinha asked :—

Action taken
against
newspapers
under the
Defence of
India Act.

3. “ Will Government be pleased to state—

(a) the number of presses and newspapers, respectively, against which action has been taken under the Defence of India Act since its enactment up to date? ”

QUESTIONS AND ANSWERS.

[25TH SEPTEMBER, 1919.]

[Mr. Sachchidananda Sinha ; Sir William Vincent ; Sir Arthur Anderson.]

(b) the nature of the action taken against each, giving reasons for the same and naming the press or the newspaper, the language and the place in which the latter was or is still published, and in the case of a press the place at which it was kept, as also the names of the keeper and publisher of the press, the editor of the newspaper and the date of the order ?

(c) whether any of these presses and newspapers—and if so, which—existed prior to 1910, and whether they were able to continue or had to stop as a result of the action taken ? ”

The Hon'ble Sir William Vincent replied :—

“ The information asked for will be collected and a Statement will, if possible, be laid on the table at the next Session of Council.”

The Hon'ble Mr. Sachchidananda Sinha asked :—

4. “ (a) Is it a fact that a punitive police have been lately imposed on the people of Peshawar ? Punitive police at Peshawar.

(b) If so, was it because of any riots or disturbances that took place in that city, and, if so, what was their nature or character ?

(c) If the answer to part (b) be in the negative, will Government be pleased to state the circumstances justifying the imposition of the punitive police ?

(d) What is the total amount of annual cost for which the people of Peshawar will be liable on account of the maintenance of the said punitive police ? and

(e) What is the period for which the punitive force has been imposed ? ”

The Hon'ble Sir William Vincent replied :—

“ (a) Yes.

(b) and (c) During April and May Peshawar city was the focus of seditious intrigues in connection with Afghan designs upon India and the agitation against the Rowlatt Act. A Committee of Union and Progress was formed which attempted to set up a revolutionary administration and attacks were planned upon the Cantonments and the Jail. The whole city was in a dangerous state and serious disturbances were narrowly averted.

(d) 1½ lakhs of rupees.

(e) 3 years. ”

The Hon'ble Mr. Sachchidananda Sinha asked :—

5. “ (a) Is it a fact that there have been several serious accidents on the Railways in India during the current year ? If so, how many, at what places and on which lines ? Accidents on Railways during the current year.

(b) What are the circumstances under which they occurred and the loss of life and the number of persons injured in each ?

(c) Have Government taken any steps to minimise the chances of such accidents ? If so, what ? If not, do they propose to do so ? If not, why not ? ”

The Hon'ble Sir Arthur Anderson replied :—

“ As regards (a) and (b) of the Hon'ble Member's question a statement* is placed on the table giving particulars of serious accidents involving loss of life

* Vide Appendix A.

QUESTIONS AND ANSWERS.

[*Sir Arthur Anderson ; Mr. Sachchidananda Sinha ; Sir William Vincent ; Pandit Madan Mohan Malaviya ; Rao Bahadur B. N. Sarma.*]

[25TH SEPTEMBER, 1919.]

or injury to passengers which have occurred during the current year and the circumstances attending each case.

(c) The circumstances of all serious accidents are carefully investigated by a Committee of Inquiry and by the Senior Government Inspectors of Railways, with the object of ascertaining the exact cause of each accident, and making recommendations for the adoption of any measures which they consider would prevent a recurrence.

The reports and recommendations of these committees and of the Government Inspectors are seen and dealt with by the Railway Board."

The Hon'ble Mr. Sachchidananda Sinha asked :—

Names of officers deputed to England and their allowances, etc.

6. "Will the Government be pleased to state (a) the names of officers who are at present on special duty in Europe, (b) the objects of their deputation, (c) the date from and the period for which they have been deputed, (d) the special allowance, if any, which each of them is receiving in addition to his emoluments, and (e) the additional cost likely to be incurred on their account for these allowances and for their passages to and back from Europe?"

The Hon'ble Sir William Vincent replied :—

"A statement* giving the information required by the Hon'ble Member is laid on the table. It does not include the names of Messrs. A. C. Chatterjee, C.I.E., I.C.S., and J. D. Engel, Chief Inspector of Factories, Bombay, who have been sent by the Government of India to the International Labour Conference at Washington as Government representative and Government Adviser, respectively."

The Hon'ble Pandit Madan Mohan Malaviya asked :—

Number of persons arrested in connection with the recent Punjab disturbances.

7. "With reference to the answer given by the Hon'ble the Home Member to a supplementary question put by me to question No. 40, at the meeting of the 10th September, 1919, will Government be pleased to ask the Punjab Government for information as to the number of persons arrested in connection with the recent disturbances in the Punjab and to supply the information to this Council?"

The Hon'ble Sir William Vincent replied :—

"The Punjab Government has been asked to supply the required information, but it has not yet been received."

The Hon'ble Rao Bahadur B. N. Sarma asked :—

Release of Darsi Chenchiah.

8. "Have any orders to release Darsi Chenchiah, Nellore, Madras Presidency, been passed? If no such orders have been passed, do Government propose to favourably consider his petition for release and the petitions of his family?"

The Hon'ble Sir William Vincent replied :—

"No orders for the release of Darsi Chenchiah have yet been passed. His case is now under consideration."

QUESTIONS AND ANSWERS.

[25TH SEPTEMBER, 1919.]

[*Rao Bahadur B. N. Sarma; His Excellency the Commander-in-Chief; Maharaja Sir Manindra Chandra Nandi; Sir George Barnes.*]**The Hon'ble Rao Bahadur B. N. Sarma** asked :—

9. "What are the war bonuses and increases in emoluments, pay, batta, ^{War Bonuses.} allowances and pensions granted since the commencement of the war, to British officers and soldiers, Indian officers and sepoys in the Indian Army, and the total cost to the treasury, under each head?"

His Excellency the Commander-in-Chief replied :—

"A statement* is placed upon the table. It is believed to be complete and gives in detail the various concessions, both permanent and temporary, which have been sanctioned for the Indian Officer and the Indian Sepoy of the Indian Army since the commencement of the war. From an examination of this statement it will be seen that a large number of the items are of such a nature that it is impossible to maintain separate accounts of their cost, and it would be equally impossible to frame any reliable estimate. In the case of British Officers and soldiers no similar consolidated statement of concessions has hitherto been drawn up, and the preparation of such a statement would involve an expenditure of time and labour which would be incommensurate with the results obtainable. Further, as in the case of Indian personnel, the war accounts have not been maintained in such a form as to render it possible to state the cost of the concessions under the heads indicated in the Hon'ble Member's question.

If the Hon'ble Mr. Sarma could make it convenient to meet either the Army Secretary or the Financial Adviser, we should be glad to explain in greater detail than is permissible within the limits of a reply to a question in Council the practical obstacles which stand in the way of giving the information in the form in which the Hon'ble Mr. Sarma requires it. And we should be glad also to give such information as may be available on any individual point which the Hon'ble Member has specially in mind."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

10. "(a) Is it a fact that a memorial praying for the grant of house-rent allowances was lately submitted by men in the local scale of the Indian Telegraph Department? If so with what result?"

Emoluments of local and general service men of the Indian Telegraph Department.

(b) Do Government propose to consider their prayer favourably?

(c) Is it a fact that in the recent revision the initial pay of the local scale has been increased only by 43 per cent, while that of the general scale has been increased by 50 per cent? If so, why so?

(d) Is it a fact that, while the training, nature of work and duties are almost the same for both the local and general service men, their emoluments differ very greatly? If so, do Government propose to consider the question of re-adjusting the emoluments of the local service men more equitably?"

The Hon'ble Sir George Barnes replied :—

"(a) and (b) Memorials praying for the grant of house-rent allowances were submitted by men in the local scale of the Indian Telegraph Department in March 1918, but it was not found possible to grant the allowances.

In my reply to a question by the Hon'ble Member on the 20th February 1918, I pointed out that the reasons for giving free quarters or house-rent allowances to the General Scale telegraphists are that these men are liable for

* Not included in these Proceedings.

QUESTIONS AND ANSWERS.

[*Sir George Barnes; Maharaja Sir Manindra Chandra Nandi.*]

[25TH SEPTEMBER, 1919.]

service throughout India. They may therefore be transferred to distant provinces, and are thus called upon to dismanle and to set up house again at short notice, usually in expensive places. Local Service men, on the other hand, remain within a restricted area, and many of them stay in one place for years together; they are thus able to settle down and obtain permanent quarters more cheaply, or to live with their relatives or friends.

(c) The fact stated by the Hon'ble Member in the first part of this question is correct. The initial pay of both the services has been increased in order to attract recruits who would be capable of rising to the more important charges now open to telegraph subordinates. A statement* is laid on the table showing the new rates of pay of telegraphists in the General and Local Services respectively, the increases which took effect from the 1st January 1919, and the percentage of increase for each year of service. The statement shows that except for the first three years of service the percentage of increase was greater in the case of the Local than of the General Service. In regard to the first three years of service, it was felt that the old rates of pay for the General Service were relatively inferior to those for the Local Service, considering that men in the General Service are liable to be transferred to any part of India and Burma.

(d) From the reply given above it will be seen that the difference of pay between the two Services is not based on the nature of their work and qualifications. The General Service men receive a higher rate of pay because they are liable to be transferred to any part of India or Burma, while the Local Service men are not sent beyond the limits of their province. The Government of India do not propose to consider the question of a re-adjustment of pay."

The Hon'ble Maharaja Sir Manindra Chandra Nandi
asked :—

Indians in
depart-
mental tele-
graph
offices.

11. "(a) Has sanction been accorded by the Secretary of State to the proposals for increasing the proportion of Indians to be employed in departmental telegraph offices, referred to by Sir George Barnes in reply to questions Nos. 15 and 20 of the 20th February, 1918 ?

(b) If so, what action has since been taken in pursuance thereof ? "

The Hon'ble Sir George Barnes replied :—

"The answer to the part marked (a) is yes.

In reply to part marked (b) Since the receipt of the Secretary of State's sanction, 467 candidates have been recruited for the signalling establishment of the Indian Telegraph Department, of whom 204 belong to the General Service and 263 to the Local Service. 217 of the total number were Indians and 250 non-Indians, inclusive of 43 women telegraphists recruited for the Local Service."

The Hon'ble Maharaja Sir Manindra Chandra Nandi
asked :—

Control of
prices of
cotton cloth.

12. "What action has been taken in the different provinces for controlling the prices of cotton cloth or for steadying the cloth market ? "

* Vide Appendix B.

QUESTIONS AND ANSWERS.

[25TH SEPTEMBER, 1919.]

[*Sir George Barnes ; Maharaja Sir Manindra Chandra Nandi.*]**The Hon'ble Sir George Barnes** replied :—

" Standard and other cloth has been supplied by the Controller of Cotton Cloth to the following Provinces in quantities which are shown in the reply to the Hon'ble Member's next question :—

The provinces are :—The United Provinces, Bihar and Orissa, Punjab, Assam, Central Provinces, Bombay, Baluchistan, Bengal, North-West Frontier Province and Delhi.

It has been sold at controlled rates in these Provinces. The Government of Bihar and Orissa also made very large purchases of imported cloth in November last when the market was at its lowest point. In October last, the Government of Bengal decided to license wholesale transactions in cloth in Calcutta and appointed a Cotton Advisory Committee which issued some 1,700 licenses and whose operations brought about a heavy fall in the price of cloth."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

13. " (a) What quantities of standard cloth have been procured by the different Provincial Governments during each month since the passing of the Cotton Cloth Act? Standard cloth.

(b) At what rates have these been sold and how do such rates compare with those at which the cheapest varieties of cloth (other than standard cloth) of equivalent size were at the same time available in the market ?

(c) What are the various agencies for the sale of standard cloth ? "

The Hon'ble Sir George Barnes replied:—

" In answer to (a) details showing the quantities of cloth supplied to the various Provinces monthly since the passing of the Cotton Cloth Act are not available. Although the Act was passed in October last, its provisions were not put formally into operation until February. Before that date a considerable amount of standard and other cloth was obtained by the Controller of Cotton Cloth on a voluntary basis. The statement* laid on the table shows the amount of cloth obtained both before and after the provisions of the Act were put into formal operation. From that statement it will be seen that the total quantity of cloth obtained upto date by the Controller of Cotton Cloth and supplied to various Provinces is 10,716 bales, amounting to very nearly twenty million yards.

In answer to (b) a statement* showing the prices paid to the mills for the two orders placed with them is laid on the table. Detailed information regarding the prices at which the cloth of the two allocations was sold in the different provinces has been called for. The prices of the ordinary lines of cloth vary so greatly in the different provinces and even in different parts of the same province, that no satisfactory comparison of the price of standard cloth with that of ordinary cloth is possible.

In reply to (c) in Bihar and Orissa, the bulk of the cloth has been disposed of by the staff of the Provincial Controller of Cotton Cloth and by the District officials. A considerable quantity has also been sold through the agency of the local Post offices. In the United Provinces, the cloth was sold at the outset by licensed wholesale and retail dealers. This arrangement was found not entirely satisfactory, and arrangements have recently been made under which the stocks of cloth on hand will be taken over by District Boards and similar agencies. In the Punjab, the greater part of the cloth has been

* *Vide* Appendix C.

QUESTIONS AND ANSWERS.

[*Sir George Barnes ; Maharaja Sir Manindra Chandra Nandi.*]

[25TH SEPTEMBER, 1919.]

disposed of by Co-operative Societies, and in the Central Provinces by District Boards and Municipalities. In the remaining Provinces, the most usual agency has been that of Government officials."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Failure on the part of Local Governments to take in sufficient supply of standardised cloth.

14. "Did any of the Provincial Governments fail to take sufficient advantage of the Cotton Cloth Act for the supply of standard cloth? If so, which are those Governments and what are the reasons for such failure?"

The Hon'ble Sir George Barnes replied :—

"The Government are not aware that any of the Provincial Governments failed to take sufficient advantage of the Cotton Cloth Act for the supply of standard cloth."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Supply of standard cloth by the Government of Bengal and other Local Governments.

15. "(a) Has the attention of Government been drawn to a speech delivered by Sir Edward Gait at a meeting of the Bihar and Orissa Legislative Council held on the 29th last, in course of which reference was made to the large saving effected to the people by the adoption of certain measures for the supply of cheap cloth?"

(b) Has the attention of Government also been drawn to a discussion in the Bengal Legislative Council on the 13th February, 1919, in connection with a resolution recommending that in connection with high price of cloth steps should be taken in Bengal on the lines adopted by the Government of Bihar and Orissa?"

(c) Did Sir Henry Wheeler in the course of the said discussion mention certain considerations as justifying the Local Government in holding their hands in the matter, and did he apprehend the possible danger of upsetting the market by the supply of standard cloth?"

(d) If so, have Government any information (i) as to how far such considerations hold good at the present moment in Bengal; and (ii) as to how far such apprehension has been realised, if at all, by the Government of Bihar and Orissa or any other Local Government that has undertaken the supply of standard cloth?"

The Hon'ble Sir George Barnes replied :—

"In answer to the parts marked (a) (b) and (c), the answer is yes.

In answer to (d) the question should be put in the Legislative Councils of the Local Governments concerned."

The Hon'ble Maharaja Sir Manindra Chandra Nandi asked :—

Price of standardised cloth in comparison with cheap varieties.

16. "How does the price of standard cloth compare with the average retail price of other cloth of the cheapest varieties of equivalent size at present available in the market in the different provinces?"

QUESTIONS AND ANSWERS.

[25TH SEPTEMBER, 1919.]

[*Sir George Barnes; Maharaja Sir Manindra Chandra Nandi.*]**The Hon'ble Sir George Barnes** replied :—

"The Hon'ble Member is referred to the reply which I have given him in relation to question No. 13. At the time the first order for standard cloth was placed with the mills, the price fixed for it was about seven or eight annas a pound lower than the wholesale price of ordinary cloth then prevailing. Prices fell immediately standard cloth was placed on the market, and the fact that it has been on sale has undoubtedly kept the price of ordinary cloth down. The latter has fluctuated considerably during the last few months, but there is every reason to believe that, throughout the operations, the price of standard cloth has been appreciably below that of ordinary cloth of similar or even inferior quality. Prices have recently fallen heavily in Bombay and the margin between the price of standard cloth which was based on the price of cotton at the time it was manufactured and the price of ordinary cloth is now very small."

The Hon'ble Maharaja Sir Manindra Chandra Nandi
asked :—

17. "Have Government any information as to the present stocks of cloth in the different provinces, and how far these are sufficient for their respective needs?" Stocks of cloth.

The Hon'ble Sir George Barnes replied :—

"The Government of India have no detailed information on this subject."

The Hon'ble Maharaja Sir Manindra Chandra Nandi
asked :—

18. "Are Government aware that the high prices of cloth have very much aggravated the present distress? If so, do the Government of India propose to direct Local Governments to take prompt action under the Cotton Cloth Act?" Action suggested under the Cotton Cloth Act.

The Hon'ble Sir George Barnes replied :—

"Government consider that, owing to the operation of the Cotton Cloth Act and other causes, the price of cloth is not now so high as to cause distress. It will be seen from the replies to previous questions put by the Hon'ble Member that Local Governments have freely taken advantage of the provisions of the Act, and it may be mentioned that the Governments of the United Provinces and of Bihar and Orissa, in which the shortage of cloth was originally most acute, have still large stocks of standard cloth on hand."

The Hon'ble Rai Sahib Seth Nathmal asked :—

19. "(a) Will Government be pleased to lay on the table a statement showing the total amount of money raised as subscriptions, donations and grants by the Imperial Indian Relief and other War Relief Funds, respectively, since 4th August, 1914, up to 31st March, 1919, or up to any date for which the complete figures are available?" Imperial Indian Relief and other War Relief Funds.

(b) What amount has so far been spent and on what different objects of relief? Will Government be pleased to state the amounts respectively spent on British soldiers and officers and Indian soldiers and officers?

QUESTIONS AND ANSWERS.

[*Rai Sahib Seth Nathmal ; Mr. H. F. Howard.*]

[25TH SEPTEMBER, 1919.]

(c) What is the actual balance now left with the various funds, and how do Government propose to control the future administration of these funds ? ”

The Hon'ble Mr. H. F. Howard replied :—

“ (a) It is assumed that the Hon'ble Member's question relates only to the Imperial Indian Relief Fund, the Bombay War and Relief Fund and the Madras War Fund, as these are the only Funds directly connected with War Relief. A statement* giving the information required by the Hon'ble Member with regard to the Imperial Indian Relief Fund is laid on the table. The other two Funds referred to above are purely local, and, beyond the printed reports which have been issued to the public, the Government of India have no information as to their proceedings.

(b) The information required by the Hon'ble Member is given in detail in the statement above referred to.

(c) The balance in the hand of the Central Fund on 30th June, 1919 amounted (in round figures) to Rs. 1,14,28,000 which will be utilized in the distribution of *post bellum* relief. Relief will, it is hoped, shortly be distributed to the various classes who have suffered through the war, and a scheme has been drawn up which aims at assisting each class and, so far as possible, each member of that class, according to their degree of necessity. The intention is to help—

(a) Indian officers, non-commissioned officers and men and followers who have been invalided out of the army on account of wounds or injuries received in the war and the widows and dependants of those who have fallen ;

(b) The widows and dependants in straitened circumstances of British officers of the Indian Army and the Indian Army Reserve and the members of certain other European services.

It has been decided that expenditure on this *post bellum* distribution of relief to European and Indian classes should be in the proportion of 1 : 3. The amount which, it is hoped, will be available for the purpose is estimated roughly at Rs. 128 lakhs. It is proposed that any balance remaining after this distribution in the hands of the Central Committee should be amalgamated with a permanent Fund which is being established, the details of which have not yet been completely settled, and which will be utilised for the relief of any cases of necessity arising primarily from the recent war, and subject to this from any future war in India.

The balance in the hand of the provincial branches on the 31st January 1919 amounted to about Rs. 6,75,500. Any amount remaining after the interim distribution of relief has been closed will be utilised in connection with the *post bellum* scheme.”

The Hon'ble Rai Sahib Seth Nathmal asked :—

Disposal of
bodies of
Indian
soldiers and
erection of
monuments.

20. “ (a) Will Government be pleased to state how the dead bodies of Indian soldiers killed in the various theatres of the war were disposed of ?

(b) Is it not a fact that in the case of British soldiers and officers killed in the war monuments or tombs have been or are proposed to be erected ? What action do Government propose to take in the case of Hindu and Muhammadan officers and soldiers so killed ? ”

QUESTIONS AND ANSWERS.

[25TH SEPTEMBER, 1919.]

[*His Excellency the Commander-in-Chief;
Mr. K. V. Rangaswamy Ayyangar;
Sir William Vincent.*]**His Excellency the Commander-in-Chief** replied :—

"As regards (a) the bodies of Indian Soldiers who were killed in action or died in various theatres of war were in most cases interred near the places where they fell.

As regards (b) the question of the erection of memorials to British and Indian soldiers is being dealt with by the Imperial Graves Commission in London, upon which India is represented by two specially selected representatives, namely, Sir Prabhaskar Pattani and Sahibzada Aftab Khan.

Designs of monuments of an appropriate character to mark the graves of Hindu, Sikh and Mussalman soldiers respectively have been prepared and sent home. The Government of India have also offered to defray the cost of a general monument to be erected in each theatre of war, to commemorate the achievements of the units, British and Indian, forming part of the Expeditionary Force despatched from India overseas.

In addition to the memorials I have mentioned, it is proposed to erect village memorials in special cases, specimens of which have been placed for inspection by the Hon'ble Members at the entrance to the Council Chamber."

The Hon'ble Mr. K. V. Rangaswamy Ayyangar asked :—

21. " (1) Is it a fact—

(a) that one Pandit Arjunlall Sethi, B.A., a Jain resident of Jaipur, was arrested in connection with the Delhi Conspiracy case in March, 1914, at Indore, where he was then working as the Honorary Principal of the Tilak Chand Jain High School? Arrest of
Pandit
Arjunlall
Sethi.

(b) that he has since then been detained in solitary confinement, and is at present in the Government Jail at Vellore Fort, Madras ;

(c) that he was informed in December last, that he would be released if he agreed—

(i) not to adopt the profession of a teacher,

(ii) not to reside within the Jaipur territory ; and

(iii) not to deliver public lectures ;

(d) that he agreed to the above conditions ; and

(e) that no final orders in his case have yet been communicated to him ?

(2) Will Government be pleased to make a statement regarding the case ? "

The Hon'ble Sir William Vincent replied :—

"(a) The person named was arrested in March 1914 on account of his suspected complicity in the Delhi Conspiracy case and the Nimej murder, in which a Sadhu and his servant were brutally murdered.

(b) On 5th December 1914 he was sentenced to five years' imprisonment by the Jaipur Durbar, who found him guilty of being concerned in political conspiracies, and of having been a danger to the public peace and being likely to be so in future. It was found impossible to keep him in adequate confinement in Jaipur, where he was likely to be a focus of intrigue and disaffection, and the Jaipur Durbar asked in 1917 for his confinement elsewhere. The Governor General in Council being satisfied that his confinement was necessary in the interests of the State, decided to issue a warrant under Regulation III of 1818, and Arjunlall Sethi has since been detained in the Vellore Central jail.

QUESTIONS AND ANSWERS.

[*Rai Sahib Seth Nathmal ; Mr. H. F. Howard.*]

[25TH SEPTEMBER, 1919.]

(c) What is the actual balance now left with the various funds, and how do Government propose to control the future administration of these funds ? "

The Hon'ble Mr. H. F. Howard replied :—

" (a) It is assumed that the Hon'ble Member's question relates only to the Imperial Indian Relief Fund, the Bombay War and Relief Fund and the Madras War Fund, as these are the only Funds directly connected with War Relief. A statement* giving the information required by the Hon'ble Member with regard to the Imperial Indian Relief Fund is laid on the table. The other two Funds referred to above are purely local, and, beyond the printed reports which have been issued to the public, the Government of India have no information as to their proceedings.

(b) The information required by the Hon'ble Member is given in detail in the statement above referred to.

(c) The balance in the hand of the Central Fund on 30th June, 1919 amounted (in round figures) to Rs. 1,14,28,000 which will be utilized in the distribution of *post bellum* relief. Relief will, it is hoped, shortly be distributed to the various classes who have suffered through the war, and a scheme has been drawn up which aims at assisting each class and, so far as possible, each member of that class, according to their degree of necessity. The intention is to help—

(a) Indian officers, non-commissioned officers and men and followers who have been invalided out of the army on account of wounds or injuries received in the war and the widows and dependants of those who have fallen ;

(b) The widows and dependants in straitened circumstances of British officers of the Indian Army and the Indian Army Reserve and the members of certain other European services.

It has been decided that expenditure on this *post bellum* distribution of relief to European and Indian classes should be in the proportion of 1 : 3. The amount which, it is hoped, will be available for the purpose is estimated roughly at Rs. 128 lakhs. It is proposed that any balance remaining after this distribution in the hands of the Central Committee should be amalgamated with a permanent Fund which is being established, the details of which have not yet been completely settled, and which will be utilised for the relief of any cases of necessity arising primarily from the recent war, and subject to this from any future war in India.

The balance in the hand of the provincial branches on the 31st January 1919 amounted to about Rs. 6,75,500. Any amount remaining after the interim distribution of relief has been closed will be utilised in connection with the *post bellum* scheme."

The Hon'ble Rai Sahib Seth Nathmal asked :—

Disposal of
bodies of
Indian
soldiers and
erection of
monuments.

20. " (a) Will Government be pleased to state how the dead bodies of Indian soldiers killed in the various theatres of the war were disposed of ?

(b) Is it not a fact that in the case of British soldiers and officers killed in the war monuments or tombs have been or are proposed to be erected ? What action do Government propose to take in the case of Hindu and Muhammadan officers and soldiers so killed ? "

QUESTIONS AND ANSWERS.

[25TH SEPTEMBER, 1919.]

[His Excellency the Commander-in-Chief;
Mr. K. V. Rangaswamy Ayyangar;
Sir William Vincent.]**His Excellency the Commander-in-Chief** replied :—

"As regards (a) the bodies of Indian Soldiers who were killed in action or died in various theatres of war were in most cases interred near the places where they fell.

As regards (b) the question of the erection of memorials to British and Indian soldiers is being dealt with by the Imperial Graves Commission in London, upon which India is represented by two specially selected representatives, namely, Sir Prabhashankar Pattani and Sabibzada Aftab Khan.

Designs of monuments of an appropriate character to mark the graves of Hindu, Sikh and Mussalman soldiers respectively have been prepared and sent home. The Government of India have also offered to defray the cost of a general monument to be erected in each theatre of war, to commemorate the achievements of the units, British and Indian, forming part of the Expeditionary Force despatched from India overseas.

In addition to the memorials I have mentioned, it is proposed to erect village memorials in special cases, specimens of which have been placed for inspection by the Hon'ble Members at the entrance to the Council Chamber."

The Hon'ble Mr. K. V. Rangaswamy Ayyangar asked :—

21. "(1) Is it a fact—

(a) that one Pandit Arjunlall Sethi, B.A., a Jain resident of Jaipur, was arrested in connection with the Delhi Conspiracy case in March, 1914, at Indore, where he was then working as the Honorary Principal of the Tilak Chand Jain High School? Arrest of Pandit Arjunlall Sethi.

(b) that he has since then been detained in solitary confinement, and is at present in the Government Jail at Vellore Fort, Madras;

(c) that he was informed in December last, that he would be released if he agreed—

(i) not to adopt the profession of a teacher,

(ii) not to reside within the Jaipur territory; and

(iii) not to deliver public lectures;

(d) that he agreed to the above conditions; and

(e) that no final orders in his case have yet been communicated to him?

(2) Will Government be pleased to make a statement regarding the case?"

The Hon'ble Sir William Vincent replied :—

"(a) The person named was arrested in March 1914 on account of his suspected complicity in the Delhi Conspiracy case and the Nimej murder, in which a Sadhu and his servant were brutally murdered.

(b) On 5th December 1914 he was sentenced to five years' imprisonment by the Jaipur Durbar, who found him guilty of being concerned in political conspiracies, and of having been a danger to the public peace and being likely to be so in future. It was found impossible to keep him in adequate confinement in Jaipur, where he was likely to be a focus of intrigue and disaffection, and the Jaipur Durbar asked in 1917 for his confinement elsewhere. The Governor General in Council being satisfied that his confinement was necessary in the interests of the State, decided to issue a warrant under Regulation III of 1818, and Arjunlall Sethi has since been detained in the Vellore Central jail.

QUESTIONS AND ANSWERS ; THE INDEMNITY BILL.

[*Sir William Vincent.*]

[25TH SEPTEMBER, 1919.]

He is not in solitary confinement, and his son is allowed to live with him. He is allowed books and the other privileges ordinarily given to State Prisoners. He has admitted that he is well treated and that he has no complaints to make.

(c) Government have informed Arjunlall Sethi that they are prepared to release him provided—

(i) he agrees not to return to Jaipur State without first obtaining the permission of the Durbar; and

(ii) that, while resident in British territory, some restrictions are placed on his movements; these will be as little irksome as possible and will be removed when it is found that his behaviour is satisfactory.

(d) and (e) Arjunlall Sethi has agreed to the above conditions and Government are now considering, in communication with his relatives, where and with whom he should be permitted to reside, as the proposals so far received have not been satisfactory."

THE INDEMNITY BILL.—(*concl.*)

11-26 A.M.

The Hon'ble Sir William Vincent:—"My Lord, I move that the Bill to indemnify officers of Government and other persons in respect of certain acts done under martial law, and to provide for other matters in connection therewith, be passed, as amended by this Council. I think most Members of this Council are relieved at the conclusion of a somewhat long and troublesome debate, and I will not detain them long. The discussion of the Bill has necessarily involved references to subjects of considerable delicacy, upon which there is great feeling on the part of many Members of this Council, but nevertheless the Council may congratulate itself, on the whole, on the self-restraint that has been manifested in the course of the debate. There was however great feeling, as I said, on both sides, and despite obvious efforts at times, it has manifested itself to a considerable degree. Nor can there be any doubt that both Europeans and Indians are deeply moved by the recent occurrences. I am glad that in spite of all this nothing has prevented the Council from arriving at a perfectly just appreciation of the requirements of the case, and that Members have recognised, generally speaking, that this Bill is a necessary measure which deals with principles, and not with individual actions. It is for that reason I believe that the Bill, which I have had the honour to move before the Council, has met with such general approval, and as I am speaking on it, I think that the Council might like to know the views of one who has taken a great interest, both in these disorders and in the measures which have been taken to suppress them. I refer to Mr. Gandhi. There are different opinions about this gentleman. Some look on him as a dangerous crank with an extraordinary amount of that Scotch quality a good conceit of himself. There are others, persons whose opinion is equally entitled to great weight, who believe him to be a man of saint-like character, selfless disposition and almost superhuman insight. Mr. Montagu himself in a recent debate described him as a man of the highest motives and the finest character, a man whom his worst enemy, if he has any enemies (he is very lucky if he has not) would agree is of the most disinterested ambitions it is possible to conceive. Well, my Lord, it is probable that a correct estimate of the character of Mr. Gandhi would lie between these various extremes, but I hope that the Council will not in any way acquire the impression that in offering these observations I am seeking to convey my own opinion about him, or the opinion of the Government. An expression of opinion would be improper. At the same time, there are certain characteristics in Mr. Gandhi which all will admit. He is not in any way predisposed to favour the policy of Government. That is certain. He has also got what is not very often

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Sir William Vincent ; Pandit Madan Mohan Malaviya.]

found in this country, the full courage of his convictions. If he thinks anything he never hesitates to tell either the Government or any one else what his views are, and for that reason, I think, it would interest the Council to hear what a leading Indian of this position and character thinks about the Bill. So far as the question of indemnity is concerned, Mr. Gandhi would go very much further than we have done. He does not refer at all to *bona fide* or reasonable belief. He assumes these, and says—'I would therefore say that rather than complain that the Bill has been prematurely brought in, we should give our best attention to the provisions of the Bill. Thus, for instance, we would allow a provision to the effect that such officers as may have given orders of firing shall not be criminally triable for murder or civilly liable for damages.' Then he goes on to say that such officers where in fault should be dealt with administratively.

"Members of this Council will see that our Bill does not go nearly as far as that. In a later letter in which he answers various persons who have attacked the Bill he writes as follows:—I am quoting from 'Young India' of the 20th September, a paper which, I believe, is now controlled by Mr. Gandhi.

'I must respectfully dissent from the view that such a Bill can only be properly passed after a Commission has reported. I venture to submit that the Bill as published is almost harmless and it is a Bill we shall be bound to pass as it is even after the Commission has reported.'

"My Lord, that opinion, take it for what it is worth, I think, supports the view which the Government has put forward throughout this debate. The Hon'ble Mr. Madan Mohan Malaviya has repeatedly referred to Mr. Gandhi as an authority of the very greatest weight, to whose views the deepest consideration is due. Well, my Lord, may we hope that on this occasion he will concur in the views of the authority whom he so much reveres. At any rate, I put it to the Council that these letters are of interest and that they support the conclusions which we have always advocated in this Council, that this Bill is a necessary and harmless measure which in no way forestalls the report of the Commission."

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, I regret I must oppose the motion that the Bill as amended be passed. I do so with all the responsibility which I feel rests upon me as an elected Member of this Council, and I do so after having heard the words of my esteemed friend Mr. Gandhi, to which reference has been made by the Hon'ble the Home Member. 11-32 A.M.

"My Lord, the Bill has to be considered on its merits. Opinions for and against it have no doubt to be weighed, and the opinion of Mr. Gandhi is entitled to weight. I am glad that the Hon'ble the Home Member has paid a compliment to Mr. Gandhi and advised us to pay great heed to his opinion. I hope, after reading this opinion of Mr. Gandhi, he will advise the Government of India, in the first instance, not to delay cancelling the order which they have maintained against Mr. Gandhi for the last many months, confining him to the Bombay Presidency, and, secondly, I hope the Hon'ble the Home Member will advise the Punjab Government and the Delhi Administration to follow suit. My Lord, that should be the least evidence of the sincerity of the appreciation of the Hon'ble the Home Member of Mr. Gandhi's position.

"Coming to the question before us, I attach, as I have said, great weight to the opinion of Mr. Gandhi; but there is a higher authority to which I have to bow, and that is the conscience that sits within me; and that conscience tells me that the Bill ought not to be passed as it stands.

"Now, my Lord, I will make my position very clear, and as briefly as I can. Your Lordship and the Council know, the whole country knows, that the Bill as it was drafted rested on the preamble wherein it was stated:—

THE INDEMNITY BILL.

[Pandit Madan Mohan Malaviya.]

[25TH SEPTEMBER, 1919.]

'Whereas owing to the recent disorders in certain districts in the Punjab and in other parts of India, it has been necessary for the purpose of maintaining or restoring order to resort to martial law.'

"My Lord, that phraseology was in conformity with well-established precedents. But our complaint was that the phrase, 'as it has been necessary,' used in this preamble was not sufficient, and that the larger phraseology of the English Statutes, to which I drew attention, should have been employed. I did not refer to 1 William and Mary to which the Hon'ble the Law Member took us back, but, as he did refer to it, so far as I remember, I may say that the phraseology used therein also supports my contention. The preamble to that Act said:—

'Whereas about the time of His Majesty's enterprize divers Lords and Gentlemen well affected to their country did act as Lieutenants, etc., though not authorised thereunto, and did apprehend and put in custody criminal and suspected persons, and did seize horses, etc., in which proceedings some force or violence, or defect of form was unavoidable which in a time of peace would not have been warrantable, and divers matters and things have been done, *all of which were allowable and necessary in regard of the exigencies of public affairs and ought to be justified*, and the parties thereto indemnified, be it enacted therefore,' etc.

Mark the language 'all of which were allowable and necessary in regard of the exigencies of public affairs and ought to be justified.'

"That was, my Lord, in 1689. I will omit the intermediate Statutes and I will come to the Statutes of 1715 in which, as I reminded the Council, it was recited in the preamble, which is the most important part of an Indemnity Bill, that the Acts which that Statute sought to justify were done during the rebellion 'in order to preserve our present happy establishment and the peace of this Kingdom and to suppress and put an end to the said rebellion.' Here, my Lord, I will say parenthetically that I regret I was wrong in saying that there was no authority for the use of the words 'maintaining or' in the Bill in the earlier Statutes of the English Parliament. My friend the Hon'ble the Law Member was right and I was wrong. But, my Lord, the language that was used was employed to show that the maintenance of peace was necessary, because there had been a rebellion or an insurrection or riots amounting to war. Now, my Lord in the Statute of 1715, after reciting the acts which had been done, it was said that whereas 'certain persons had for the purposes aforesaid, namely, in order to preserve our present happy establishment and the peace of this Kingdom and to suppress and put an end to the said rebellion, did divers acts which could not be justified by the strict forms of law, and yet were necessary, and so much for the service of the publick that they ought to be justified by Act of Parliament, and the persons by whom they were transacted ought to be indemnified, it should therefore be enacted,' etc. My Lord, my complaint was that while the draft of the Bill did use words in the preamble to show that the acts which it was sought to indemnify officers against were *necessary, i.e.,* that it was necessary to resort to martial law, the advisers of the Government had not seen fit to incorporate the next clause of these earlier Acts, that is, the one which said, that, besides being necessary, the acts were also 'so much for the service of the public that they ought to be justified by Act of Parliament.' My Lord, I need not refer to the other Statutes, namely, to those of 1745 and 1780, this is the phraseology that has been used in both of them. Now, my Lord, not only in the English Statutes but in the South African Statutes also, to which the Hon'ble the Law Member seems to have taken a great fancy, the language used was acts 'done as necessary for the suppression of hostility in or the maintenance of good or order government, or the public safety of this Colony.' That was in Act VI of 1900, when the Boer War was going on. So also in Act IV of 1902 the language used was 'done as necessary for the suppression of hostilities or the establishment and maintenance of good order and government, in or for the public safety of this Colony.' It will be clear, therefore, my Lord, that the keystone upon which the edifice of an Indemnity Bill rests in all these Statutes, whether of the English Parliament

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya ; Sir George Lowndes.*]

or of South Africa, has been the declaration by the Legislature that the acts which were done and which it was sought to justify and indemnify officers against, were acts necessary for the suppression of disorders or for the preservation of the public peace. Not only that, but the English Statutes go further and say that those acts should also have been so much for the service of the public that they ought to be justified by Act of Parliament.

"This view is supported by the opinions of some distinguished Members of the House of Lords in the debate of 1818 and by the opinion of John Stuart Mill, to which I invited attention yesterday. Now, my Lord, the position taken up by the Government in the Bill as it was introduced was that it was necessary to introduce martial law for restoring or maintaining order. What have the Government done? The Government have now taken out the words 'It has been necessary for the purpose of maintaining or restoring order to resort to martial law,' and have substituted therefor 'martial law has been enforced'. I say the Law Member and the Home Member have cut the ground from under their feet, and they have no legs to stand upon in this Council and ask that the Indemnity Bill should be passed. I should like the Hon'ble the Law Member, who is a very learned man and whose researches in law and history must be deep, to tell me of any instance where an Indemnity Bill has been put on the Statute-book of any country without its Parliament or legislative body being satisfied that the acts which had been done were necessary, just and proper

The Hon'ble Sir George Lowndes :—"Does the Hon'ble Pandit really want me to tell him?"

The Hon'ble Pandit Madan Mohan Malaviya :—"I shall feel thankful to the Hon'ble the Law Member if he will do so."

The Hon'ble Sir George Lowndes :—"Will the Hon'ble Pandit look at the St. Vincent Act that he is so much in love with?"

The Hon'ble Pandit Madan Mohan Malaviya :—"I thank the Hon'ble the Law Member. The St. Vincent Act said: 'acts which had been done *bona fide*, necessarily and properly for the suppression of rebellion. The language used there is clear

The Hon'ble Sir George Lowndes :—"The Hon'ble Pandit must refer to the preamble; he is not reading from it now."

The Hon'ble Pandit Madan Mohan Malaviya :—"You have to take the preamble and the body of the Bill together. However, my Lord, without spending more time to look up that Act of St. Vincent—I have found the preamble of the amending Act, but the original Act I am not able to lay my hands upon just at this moment—I will say that I am glad to find a change in the attitude of the Hon'ble the Law Member towards the Act of St. Vincent. It was but yesterday that he held up that Act to ridicule, and to-day he cites it as an authority for the attitude now taken up by Government. What have things come to, my Lord? What a fall, what a sad fall? My Lord, if this is the position, I say the Government have to justify the introduction of this measure, and I submit that they have left no justification whatever for it now. My Lord, the whole situation has been altered by the modification which the Government have introduced; and I submit that on this ground alone, without raising any other point, I am entitled to ask that the Council should not pass this Bill. I submit that the Government have to go further than what the preamble as it now stands lays down. It is not enough to say that, whereas martial law had been enforced, certain acts done during the course of martial law should be justified and indemnified. It is not enough to say that. You must consider what

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[25TH SEPTEMBER, 1919.]

the acts were ; and has it been shown that the acts done were such as ought to be justified and indemnified against ? The other day I referred at some length to the many allegations on the part of the people who have suffered, that it was not necessary to introduce martial law. I have referred to many opinions expressed, and I will quote one more to-day. At the end of the debate the Hon'ble the Home Member read to the Council a telegram which the Government of India had received from the Punjab Government on the 13th April last asking that martial law should be introduced in Lahore, Amritsar and certain other parts of the Punjab. Now, my Lord, that telegram stated that certain unhappy events had happened on the 10th April at Amritsar and Lahore, and that two Europeans had been killed at Kasur on the 12th. My Lord, I submit that that telegram did not state the whole truth. It stated only a part of the truth, and did not supply all the material that was necessary in order to enable a sound judgment to be formed as to whether martial law should or should not be introduced. My Lord, as a matter of fact, we have indisputable evidence that on the evening of the 10th April after the temporary stir and disturbance and the firing on certain persons on the Upper Mall and at Anarkali Bazar, everything was quiet in Lahore. The then Lieutenant-Governor was entertained at the Government House at a party that evening only a little after that time, and the Lahore correspondent of the 'Pioneer,' whose identity must be known, I think, to the Hon'ble Mr. Thompson, writing on the 20th of April (his letter was published in the 'Pioneer' of April 25th) said as follows :—

'As a matter of fact when that evening was over (namely, the evening of the 10th April) no real anxiety remained. No real anxiety remained though he adds—'although of course the rioters were still exercising their sway and on the Friday, Saturday and Sunday business and ordinary administration was practically at a standstill.'

My Lord, I am sure the identity of this writer cannot be an unfathomable mystery to the officers of Government, and writing on the 20th April, this writer stated as a matter of fact that when that evening of the 10th April was over, there was no real anxiety left. That was the state of things in Lahore ; and we have had in the official Communiqués and the 'Civil and Military Gazette' publications that after 5-30 P.M., there was quiet in Amritsar on the 10th of April. I submit, therefore, my Lord, that the telegram upon which the Hon'ble the Home Member has relied was not sufficient to justify the introduction of martial law. Nor did he say anything else to justify the introduction of martial law in Lahore and Amritsar and in several other parts of the Punjab. We have, on the other hand, allegations put forward after some inquiry which show that there was nothing to justify the introduction of martial law. It is one thing to call in the aid of the military to suppress disorder, and quite another thing to introduce martial law. There was trouble at Lahore, there was trouble at Amritsar and in certain other places. The civil authorities rightly called in the aid of the military when they thought that their forces might not be sufficient to quell the disturbances. That has been done on numerous occasions without martial law being introduced ; that will be done and ought to be done when necessary. As the Hon'ble the Law Member told us in his exposition of the law, where the civil authority finds itself unable to cope with disturbances or to quell them, it is justified in calling in the aid of the military ; and where both acting together fail to establish order or to quell the rebellion, it is then that the civil authority would be justified in handing over their charge to the military. Now, I submit that the events which have been stated show that the first stage was reached, and that the second stage was not reached. That is to say, the civil authorities with the help of the military had restored quiet in Lahore and in Amritsar and in some other places, for instance, at Kasur, and that they succeeded in restoring quiet. And that therefore it was not necessary to resort to the next step, namely, to make over charge of the towns and the population to the will of the military officers.

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

"My Lord, of the many allegations that I put forward in support of my opposition to the Bill, an attempt has been made to controvert only some and to qualify a few others. A partial attempt has been made to offer an explanation of some of the allegations of people who have suffered or of the relations of people who have suffered. Many have remained unanswered. As I said on the first day, the Government have not taken the opportunity which I offered to them of stating the facts of which they must have a better knowledge than other people. But the Government having refused to state the facts for the information of the Council, I submit, my Lord, I am entitled to assume the correctness of the allegations implied in my questions for the purposes of this debate. Council will remember that I did not profess to have any personal knowledge of the martial law incidents. I put forward these allegations on the authority of partial investigation by myself and my friends. I put forward these allegations as they were vouched for by respectable persons in whose veracity and honour I have confidence. If any of the statements are incorrect no one will be more happy than myself to be corrected. No one can be more sorry than I will be if statements in regard to which I may have been mistaken or misinformed remain uncontradicted. I therefore welcome any criticism which would throw light on the facts brought forward if they are incorrect, and I should be thankful to any gentleman who supplied correct information. But what has been the case here? Let me examine some of the statements made by way of criticism of, or reply to, what I said. I will deal with the speeches of the Hon'ble Mr. Hailey, Mr. Thompson, General Havelock Hudson and Sir George Lowndes.

"My Lord, in the admirable statement which Mr. Hailey made on behalf of the Government, he wanted us to believe that the state of things in Lahore and in Amritsar and in other places in the Punjab, where martial law was introduced, was so horrible that Government could not but resort to martial law. He told us that the Rowlatt Act agitation had created an atmosphere that was surcharged with danger. He said that the Satyagraha movement had come in and spread in the Punjab. But, my Lord, the Rowlatt Act agitation was not confined to the cities of Lahore and Amritsar. The Hon'ble Mr. Hailey is well aware, even better than I am, that there was agitation against the Rowlatt Act throughout the Punjab. He is also aware, I presume, that the Satyagraha movement had spread to all parts of the Punjab; that, generally speaking, the 6th of April was observed as a Satyagraha day throughout the Punjab. He is aware that in none of these other numerous districts of the Punjab did the agitation against the Rowlatt Act or the Satyagraha movement lead to any stir or to any insurrectionary or rebellious movement. He is aware that there was no trouble whatever in any of these places. And no trouble arose in these places, for instance, in Jullundur and all the other districts of that division, because the authorities did not interfere intemperately, but interfered sympathetically with the movement. They wisely said 'let the people give vent to their feelings regarding the Rowlatt Act; let them observe the Satyagraha day as they like.' Here, in Simla, Mr. Tollinton, the Deputy Commissioner, expressed sympathy with the attitude of the people in observing the Satyagraha day. On the day following they resumed their business in the ordinary way. I could name several other Punjab officials who acted in the same way; but perhaps I had better not. I am sure the Hon'ble Mr. Hailey, being Additional Secretary to the Punjab Government, must know that in many districts of the Punjab, where the Rowlatt Act agitation and the Satyagraha movement were as strong as in any other place, there was no trouble. I contend therefore that the circumstance to which the trouble owed its origin was the blazing indiscretion of the Punjab Government as it was then constituted, in having deported two such public men as Dr. Satya Pal and Dr. Kitchlew. That was the root of the trouble.

"I need not repeat the sequence of events here. I submit that for a proper consideration of the question that is now before the Council, it is neces-

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[25TH SEPTEMBER, 1919.]

sary for the Government to show that there was a clear necessity for the introduction of martial law. But it is not enough to show that the introduction of martial law was necessary. It may have been necessary, let us assume for argument's sake that it was necessary to introduce martial law in certain places at a certain time ; the Government have to go further and to show that it was necessary to introduce it at midnight on the 15th of April ; the Government have to show that it was necessary to introduce it in other parts of the Punjab and to maintain it up to the periods up to which it was maintained. I submit that this has not been shown by the Hon'ble Mr. Hailey. But I will not deal with the rest of Mr. Hailey's remarks, as I wish to compress my speech as much as possible. While Mr. Hailey has shown that these were anxious times in the Punjab and that the Government had to exercise vigilance, he has not shown that the situation was such that a sober-headed sympathetic Governor could not have managed it, without resorting to martial law and inflicting the many indignities and humiliations that were inflicted on the loyal people of the Punjab. In contrast to this, I drew attention to what happened at Ahmedabad. Nobody on the official side has referred to it. Perhaps because it could not be referred to except to support what I have said. Trouble arose in Ahmedabad also, but it was completely got over in two days' time by the Government of Bombay allowing Mr. Gandhi to go to Ahmedabad and advise the people. A similar course could have been pursued at Lahore and Amritsar, and, if it was found necessary to introduce martial law, it should have been got rid of at the outside within four days or six days or a week. It was certainly not necessary to expose respectable people to all the indignities and humiliations to which they were exposed, and to keep up this state of things for the inordinate period of time for which it was kept up.

" I will next deal with the Hon'ble Mr. Thompson. Mr. Thompson was the Chief Secretary to the Government of Sir Michael O'Dwyer while martial law was enforced. I can quite understand that he feels he is personally on trial, and I can therefore excuse him for importing a great deal of the personal element and unnecessary heat into the statements he put before the Council. But, my Lord, when we calmly examine his statements what do they come to ? As I said before I am never discomfited if any statement made by me in the Council or elsewhere should be found to be inaccurate. Therefore, I repeat that, if Mr. Thompson only gave me correct information in regard to incidents which I have mentioned, I should have whole-heartedly thanked him, however poignant might be my regret that I should have made an incorrect statement. Mr. Thompson said that I had said that in the Badshahi mosque meeting a C. I. D. Inspector, Ali Gauhar, had made certain remarks which had caused resentment to the persons assembled there.

" He told us that he had the file of the case before him, and that nowhere had it been stated in it that such a statement as I had made had been made, namely, that this Inspector had made certain remarks or said something which excited the people assembled there. For the benefit of Mr. Thompson and the Council, I beg to draw attention to the statement made on solemn affirmation by Inspector Ali Gauhar Khan, Criminal Investigation Department, himself in trial No. 1 of 1919 before the Martial Law Commission. He there stated :— ' We were in plain clothes in the mosque. There were several thousands of people in the mosque awaiting the people who were to address the meeting. Abdul Hai told me that he recognised me as a C. I. D. man, as my department had had him imprisoned for three months and put on security for three years. When I denied that I was a C. I. D. official, Abdul Hai went towards the pulpit and addressed the crowd saying ' the C. I. D. police had always been intruding in our meetings,' etc.

" Now the man was a C. I. D. official, and only when he denied it, Abdul Hai went to the pulpit and addressed the crowd saying that the C. I. D. police were always intruding in their meetings, etc.

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

" Now, my Lord, I am sure that Mr. Thompson would feel that my statement that the C. I. D. Inspector had made certain remarks which were resented by some persons at the meeting, was not altogether incorrect.

" I take the next point made by Mr. Thompson, that relates to the incident regarding hand-cuffing in Amritsar. Mr. Thompson wanted the Council to believe that so far as he knew nobody had been hand-cuffed there. I hope I am repeating his words correctly. Speaking with reference to the hardships to which Indians had been subjected, he also spoke of the not dissimilar inconveniences to which certain European ladies and children who had been sent to the Fort had been subjected. Now, my Lord, I would place before the Council a statement on the subject, which I have in my hands of a Barrister-at-Law who says: ' On the 21st morning I myself with Sheikh Mahomed Amin, pleader, his son and brother were taken to the Rambagh in a well guarded *bund gari* and from thence ordered to be taken to the Fort. We four were there put in a cell hand-cuffed two together. In a corner of the cell was a little heap of parched gram and a bucket of water. In the afternoon we were taken out and marched in a file with a large number of Kashmiri coolies and others to the open square inside the Fort, all hand-cuffed, two together. There we had to march round and round with European ladies and gentlemen watching the show.' I suppose this was one of the inconveniences to which the European ladies and gentlemen were exposed in the Fort.

" Now, my Lord, I will take the next point. I referred to several cases of flogging. Mr. Thompson picked up one case and said, ' Oh, they were school boys; the Head Master had asked the Military to help him in maintaining discipline amongst students by flogging some.' He overlooks the fact that even that would not justify the flogging of the students by the Military people. And he has not a word to say regarding the many other cases of flogging which are mentioned in the statement which was laid on the table by the Hon'ble the Home Member in reply to a question which I put on the subject.

" Mr. Thompson next referred to Mr. Manohar Lal's case. My Lord, I had said in regard to Mr. Manohar Lal's case that his wife and children had been turned out and were obliged to live in one of the outhouses used as servants' quarters until the bungalow had been searched about a week later. I did not state the exact period, because I did not know it. Mr. Thompson in referring to it grew very angry, and said that the wife and children of this gentleman were allowed, so far as he was aware, to return to the bungalow the next day. Now, my Lord, I have ascertained the exact facts from Mr. Manohar Lal and from others who knew it. Mr. Manohar Lal's house was locked on the 18th. His wife, an invalid lady, was turned out of the house at once. She was compelled to live in one of the outhouses on the whole of the 18th, the whole of the 19th and until late in the evening of the 20th, until the search of the house had been completed. She had not any bedding to lie upon with her, she was not allowed to take anything out of the house. Her friends sent her bedding and food, and thus she lived in an outhouse in her invalid condition for three days. Now, my Lord, if my statement that it was about a week later that they were allowed to return to the house was incorrect, Mr. Thompson, in his capacity as Chief Secretary to the Punjab Government, should have told us what the exact period was and not fulminated that this was a very serious discrepancy.

" My Lord, I should not leave Mr. Manohar Lal's case without drawing your Excellency's attention to certain other remarks Mr. Thompson made about it. He said Mr. Manohar Lal was a Trustee of the ' Tribune ', and as such he was wont to take some interest in the paper and Mr. Thompson wanted the Council to think that that was a sufficient justification for the action that had been taken against him. I am not surprised, my Lord, that this view was put

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[25TH SEPTEMBER, 1919.]

forward by Mr. Thompson, because in the letter, dated the 20th April which appeared in the 'Pioneer' to which I have referred before, I find it stated :—

'Manohar Lal, the Trustee of the 'Tribune' represents one of those cases which make one despair of educating on western lines. He gained a scholarship to England and at the 'Varsity' gained a brilliant reputation for economics. On his return to India, however, he failed to maintain the promise of his academic career, and while he has always posed as an authority on education, he has done very little practically to utilise his own talents to their full extent.'

"My Lord, it is sad to find that with the writer of the letter in the 'Pioneer,' Mr. Thompson thinks that the mere fact of Mr. Manohar Lal's being a trustee of the 'Tribune' was sufficient to put this distinguished scholar, not less distinguished than Mr. Thompson, to all the indignities, humiliation and suffering to which he and his wife were exposed !

"The next point I will deal with is the treatment of respectable citizens in Gujranwalla. Mr. Thompson read what I thought was a letter from Colonel O'Brien giving his version of the affair. My Lord, he seemed, so far as I could make out, to question the correctness of the statement that a Hindu and a Mussalman were handcuffed together by deliberate design. He said that was accidental. My Lord, I refuse to take that statement as correct. I will quote from the correspondent of the 'Pioneer' on this subject, also from a letter published in the paper of the 25th April. He said :—

'The outbreak in Gujranwalla had almost a comic opera termination. Colonel O'Brien had handed over charge to Mirza Sultan Ahmed and was in Lahore when the news came in. He immediately hurried back to his former district, and after the immediate suppression of the riot he arrested eleven leaders (including one Mangal Sen, a local financial genius) marched them in procession through the city, accompanied by a detachment of the 2-6th Royal Sussex and headed by two City Fathers—a Hindu and Mussalman respectively—who under orders shouted out to their constituents not to misbehave themselves by acts of violence. This spectacle, says the learned and large-hearted correspondent of the 'Pioneer', 'this spectacle of Hindu-Mussalman unity must have been almost as impressive as the sight of Munshi Ram preaching in the Jumma Masjid at Delhi.'

I leave the Council to judge from this quotation what were the feelings of the men whom Mr. Thompson represents, in relation to this incident, and I ask the Council not to accept the statement read out by Mr. Thompson that it was merely by accident that a Hindu and a Mussalman were handcuffed together and marched in the disgraceful manner in which they were.

"My Lord, Mr. Thompson's next point related to my reference to trials in a summary way. I have said that in certain cases notes of evidence had not been recorded. I did not say that in all cases notes had not been recorded. Mr. Thompson showed that he had before him several pages of notes of evidence in certain cases. That may be ; I never said there were no notes of evidence taken in any case. What I did say was, that it had been alleged that notes of evidence had not been recorded in a certain number of cases. I also placed before the Council certified copies of judgments in two cases, in one of which I pointed out that even the offence with which the accused was charged was not mentioned. That was a case tried by Mr. Hoyle on the 26th of May, 1919. Mr. Thompson had not a word to say about it.

"My Lord, the next incident to which I referred and to which Mr. Thompson also alluded, was the Ramnagar case, where it is alleged that the King's effigy was burnt. Mr. Thompson failed to grasp my point and did not represent me correctly. My complaint was that here was a case in which respectable, probably the most respectable, Hindu citizens of Ramnagar, were charged with having burned the King's effigy. Their position and status in society, their wealth and status, made it impossible for me to believe, and should make it impossible to be believed, that they

THE INDEMNITY BILL

[25TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

would be guilty of such foolish and wicked mischief. Their complaint was that they had not had a public inquiry which they wanted. They had not had a regular inquiry, and they urged that if they had a regular inquiry, if they had an opportunity of appeal to a higher court, the facts would have been sifted and their innocence would have been established. They urged that the case was a trumped up one, without any foundation, and that they were entitled to have the matter regularly tried. There was no martial law necessity for trying this matter in a summary way before any martial law tribunal, and my complaint was that by having been put before a martial law summary court for trial on such a charge, they were deprived of the opportunity they should have had to establish their innocence, and that they have been unjustly dealt with.

"My Lord, I must also say a word about the Lyallpur *bhusa* case. It has been said that at Lyallpur Rs. 60,000 worth of *bhusa* was set fire to by incendiaries. If this was so, it was of course a very serious mischief. But was it so? I hold in my hand a copy of an Order passed by the District Magistrate of Lyallpur on an inquiry relating to this affair. Government had evidently asked him to report under section 15-A. of the Police Act what compensation should be fixed upon for the burning of this *bhusa*. The case was taken up by Mr. G. F. deMontmorency, and the conclusion which he arrived at was, that the burning of the *bhusa* was not the result of incendiarism, committed by any of those who were believed to have taken part in the rioting, but that it was probably due to an accident. At any rate, he was unable to find that it was the act of any of those who were suspected of it. This is what he says:—

"The *bhusa* appears to have gone on fire between 8-15 P.M. and 8-45 P.M. The flare was noticed by the picket at about 8-40. . . . A few people from the factories, a few members of the Municipal Staff and the Storekeeper alluded to above were the only persons on the spot when I arrived. There was no information of any crowd having visited the stacks or of any single person having been seen near the stacks. The absence of the *chaukidar* seems to have been due to laziness, and not to have been arranged or premeditated. Neither patrol nor picket saw anything suspicious in the vicinity of the goodsynd. . . . A very exhaustive police inquiry was made; no trace of anything bearing on the burning of the *bhusa* came out. There were some approvers in the Lyallpur cases who were associates and in the secrets of those who were convicted in the Lyallpur disorders. None of these however had any information to give in regard to the burning of *bhusa* which does not seem to have formed part of the plans of their associates.

"There was a strong suspicion at the time that this was the work of an incendiary because—

- (1) similar acts had occurred elsewhere in connection with the disorders;
- (2) a plot to burn *bhusa* had been alleged to exist at Toba Tek Singh;
- (3) the fact that goods had been moved from the goodsynd the day before.

"The police inquiry has failed to connect the burning of this *bhusa* with the act of any incendiary or with any riot or rioters. Those convicted in jail in Lyallpur disorders were questioned by me. They have now after conviction no object in concealing what they know and have given information on a number of other points, but none of them have any information to give about the *bhusa*.

"I have examined the theory of whether it was the act of some villager or villagers, but no clue has been obtained."

The learned District Magistrate says that there had been several fires since April last due to cinders from chimneys, but he is not certain that this was due to that. In conclusion he says:—"I have been unable to find anything except suspicion to point to this injury having arisen from riot and unlawful assembly within the area. I am therefore unable to make the assessment contemplated in section 15A (2) (c) of the Police Act." So much for the burning of the *bhusa*. I hope that my Hon'ble friend will revise his opinion about this incident also.

"I will now come to the question of the number of deaths caused by the firing in Jallianwalla Bagh. Mr. Thompson warned the Council against accepting

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Mr.
J. P. Thompson.*]

[25TH SEPTEMBER, 1919.]

the statement communicated to me on the day I spoke last on the subject that 530 deaths had been traced and that 192 persons had been found to have been wounded. With reference to the number of deaths, he told the Council that the Government had issued a proclamation to ascertain their number, and that the number which had been reported was 291. He further told us that the Government of the Punjab had adopted every means in their power to ascertain the number of deaths in question. He said :—

‘ A proclamation was made in Amritsar and the surrounding villages inviting all persons who had any information regarding the names of those who had met with death. Instructions were issued to the local authorities there to encourage men to come forward and give the information they possessed. Every possible step was taken in that direction. The result of the inquiry was that the total number of casualties amounted to 291, and any further number suggested by anybody must be taken with great discretion.’

The Hon'ble Mr. J. P. Thompson :—“ Suspicion was the word I used, my Lord.”

The Hon'ble Pandit Madan Mohan Malaviya :—“ He used the words ‘ great suspicion ’ ; very well. But, my Lord, what are the actual facts ? I have in my hand a letter which has been published by Mr. V. N. Tiwari, Honorary Secretary of the Seva Samiti, who has been working for some time in connection with the distribution of relief in Amritsar. He writes :—

‘ The number of killed so far known to us comes up to 530 including 60 who could not be traced and, unknown and unclaimed, were cremated by certain philanthropic gentlemen.’

“ Now, my Lord, the representatives of the Seva Samiti went to Amritsar to distribute relief, and we set an inquiry on foot to find out who were the persons who had been killed or wounded in order to decide whom to give succour, and it was thus that we found out, by sending men round, the number of persons who had met with death or had been wounded. Our Secretary writes :—

‘ I have had to make from the day I came here strenuous efforts to ascertain the number of killed and wounded at the Jallianwalla Bagh. The method pursued by our volunteers has been to go from house to house in the city of Amritsar, ascertaining the names not only of the killed, but also of the wounded. I further arranged to send out volunteers to visit every single village in the districts of Amritsar, Gurdaspur, Sialkot and Lahore, so that we might give relief to their dependants in case of want. We are also advertising in the Urdu and Gurmukhi papers of the Punjab asking people to communicate to the office the names and addresses of the killed and wounded.’

It is thus, my Lord, that the number, 530, was obtained. It was not an imaginary number. It was a number obtained with at least as much care, if not much greater care, as the number reported to the authorities at Amritsar. But, my Lord, to give the authorities at Amritsar their due, I do not think they have anywhere stated that they have received the last information about the number of deaths caused. So far as I remember, I think they said that up to the date on which they sent the information to the Government of India, the number of deaths reported was 291, and, I think, it was so stated in the statement which was laid on the table. The Hon'ble Mr. Thompson need not, therefore, have asked the Council to receive the number, I stated ‘ with great suspicion.’ Receive it with caution always, but you should not refuse to believe that a larger number of deaths may have occurred simply because the official sources have told you that the number was 291. I do not wish to add even one to the number of deaths that has been caused. I cannot. The number has to be found out. Let us combine to find out the truth and let us stand by the truth.

“ Lastly, I will refer to the incident of the corpse in the Jallianwalla Bagh well. Here the Hon'ble Mr. Thompson excelled himself. Referring to my statement, he questioned its correctness and held it up as a test by which any

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

allegations placed by me before the Council or the country should be judged. My Lord, I am compelled therefore for his benefit, as well as for the information of the Council, to refer to this unfortunate incident at some length. My Lord, my esteemed friends, Pandit Motilal Nehru, Swami Shraddhanand and myself, accompanied by several other gentlemen, went to the Jallianwala Bagh, to see the locality where the massacre of so many of our fellow-men had occurred. When we were there we looked into this well, and one of my friends noticed that there was what looked like a corpse in the well. A stone was thrown at it; the thing turned up and we saw it, and the stench was so great that we all moved back from the well. When we returned home, it struck me and one of my friends, that we should bring this fact to the notice of the Deputy Commissioner of Amritsar, merely from the point of view of the sanitation of the locality. There was absolutely no political meaning in my letter to the Chairman of the Municipal Board, and there was no point to be made against the Government, assuming, which would be a wicked assumption, that we were anxious to find out facts against the Government, with the desire of *badnaming* the Government. My Lord, as the fact of a corpse being in the well had come to our notice, we thought that, as a matter of humanity to the people who were living around, we should draw the attention of the authorities to it. I therefore wrote this letter to the Chairman of the Municipal Board:—

‘I beg to draw your attention to the fact that there are still one or more corpses in the big well situate in the Jallianwala Bagh in a very advanced stage of decomposition. I visited the Bagh yesterday in the company of some friends, and we saw a corpse giving out an unbearable stench floating in the water. There are inhabited houses in the close vicinity of the well and, unless it is thoroughly cleansed and disinfected immediately, the health of the neighbourhood will suffer seriously.’

This letter was dated the 30th of June. On the 8th of July, I got a reply from the President of the Municipal Committee in which he said:—

‘In reply to your letter of 30th June 1919 reporting the existence of corpses in a well in Bagh Jallianwala, I have the honour to say that the well was thoroughly dragged by divers in the presence of the Police and ten competent witnesses. No corpses or skeletons were found, the only things discovered were some pieces of cloth and an earthen pot.

‘The well has been disused for some time, which doubtless accounts for the odour you noticed.’

“My Lord, I have to move about a good deal and could not reply to this letter till late in August, and then both my friend Pandit Motilal and I sent a letter to the Deputy Commissioner of Amritsar. In his letter my friend Pandit Motilal said:—

‘The report made by his subordinates, I have no hesitation in saying, is a wholly perverted and false account of the incident.

‘The Hon’ble Pandit Madan Mohan Malaviya and myself in company with other gentlemen of unimpeachable veracity have actually seen clearly and unmistakeably with our own eyes a dead human body in the well and no police *camouflage* will alter the fact. They may as well try to make out that no human lives were lost in the Jallianwala Bagh on the fateful afternoon of the 13th April.

‘It is not my business to inquire by what legerdemain the putrid corpse came to be substituted by ‘the loot from the National Bank,’ and the only reason why I am troubling you with this letter is that you have by writing to me for information about bribery in the Police of Amritsar evinced a desire to take the people into your confidence, a desire which is highly valued by all public men in India. This incident will, however, show what use the underlings in office make of an honest endeavour on the part of the public to bring facts to the notice of the authorities, and how ready the latter are to accept the garbled accounts of their subordinates in preference to authentic statements of facts made by persons of the position and standing of the Hon’ble Pandit Madan Mohan Malaviya. It also affords a sad commentary on the possibility of the much-talked-of co-operation between officials and non-officials.’

“My Lord, I supplemented this with a short letter, I said:

‘Pandit Motilal Nehru has now told you what he and I in the company of several gentlemen actually saw in the well at the Jallianwala Bagh, and the fact that some pieces of cloth

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[25TH SEPTEMBER, 1919.]

and an earthen pot were found when 'the well was thoroughly dragged by divers in the presence of the Police and ten competent witnesses' some days later seems to me wholly immaterial. That there was at least one corpse in the well when we visited it on the 29th June last can admit of no possible doubt, and no length of disuse of the well can account for what we saw with our own eyes. I may add that our sense of smell is sufficiently developed to distinguish between the exhalations from a decomposing corpse and the odour of a disused well.'

"My Lord, the Deputy Commissioner of Amritsar acknowledged this letter thus :—

'I thank you for your letter of August 20th. Whatever may be the true facts of the case I think I could convince you, if you could spare time on one of your visits to Amritsar to see me, that my predecessor had as good reasons for supposing you were mistaken as to what you saw in the well as he had for thinking you were correct.'

This was a letter from a gentleman to another gentleman.

"Now, my Lord, I think the facts are sufficiently clear and I need not dilate upon them. Will anybody tell me that it is impossible that the corpse which we saw had been taken out of the well before the ten competent witnesses had been summoned by the police to make a report such as was made? I leave it to every reasonable man to judge it for himself.

"Now, my Lord, I will not spend any more time upon the Hon'ble Mr. Thompson. I will only say this. He is a junior member of this Council; I am a senior member of this Council, perhaps the most senior. My Lord, the traditions of this Council have been, the old traditions of this Council are, that we treat every member who enters our brotherhood as a gentleman. I hope the Hon'ble Mr. Thompson will not compel us to depart from those traditions.

"I hope that now that I have told him the facts he will behave as a gentleman and withdraw the unworthy remarks with which he offended the dignity of this Council.

"My Lord, I will next deal with the remarks of General Sir Havelock Hudson *re*: the incidents at the Jallianwala Bagh. My Lord, it is painful to me to have to refer to these incidents. I have not known in my reading of history anything more distressing to think of than those incidents. The General has tried to give an explanation. He has not controverted the facts, he has tried to give an explanation according to the facts supplied to him. I do not impute any personal misstatement to the General. He is an honourable soldier. He has spoken according to the brief supplied to him by those who were in a position to do so, or whose duty it was to do so. But judging from the allegations which have been made to me, allegations made in many cases by persons who were actually in the Jallianwala Bagh when this tragedy occurred, I am sorry to have to say that several of the statements supplied to the General are incorrect. My Lord, the General described to us, as far as he could, the state of mind in which the military officer, who was asked to co-operate with the civil authorities, would find himself. He said: 'When the military officer had reached the place his first care would be to dispose of his troops with a view to the protection of life and property: his second would be to warn the populace as to the result if it became necessary to resort to force in suppressing any attempt at rioting. These are the steps which were in fact taken by the Officer Commanding at Amritsar. On the 11th and 12th, he reorganised his troops and on the 12th he marched a column round and through the city in order that a display of force might have its effect on the minds of the populace.' Then, my Lord, the General said that a proclamation was issued on the evening of the 12th, and on the morning of the 13th April, the Officer Commanding marched a body of troops through all the main streets of the city and announced by beat of drum his intention of using force should occasion arise. The people were permitted to collect in order to hear the proclamations. He then went on to say: 'While the troops were still in the city, information reached the Officer Commanding at about 12 o'clock that in

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919]

[*Pandit Madan Mohan Malaviya.*]

spite of his proclamation a big meeting of rebels would be held at the Jallianwala Bagh at 4-30 in the afternoon.' Now, my Lord, a meeting was no doubt held, but were the men who assembled there rebels? It is a violation of truth to say that they were. I am not saying that the General has said it; he is repeating, I take it, what has been put into him. But I say, my Lord, it is an untruth to say that the men who were assembled at the Jallianwala Bagh, —unarmed, inoffensive men, children of tender years and aged men, and the rest of them—that they were rebels. They showed nothing to justify the accusation that they were rebels. But let me proceed. The Officer Commanding received information at about 12 noon that a meeting would be held at 4-30. What did he do, my Lord? General Hudson says: 'As this place had been used before for meetings, and as large assemblies had been addressed by the heads of the agitators on the 29th March and 30th March and the 2nd April, and as a dense mass meeting had assembled here on the 6th during the *hartal* and had listened to speeches intended to bring Government into hatred and contempt, it would thus have been clear to the officer in command that he might expect deliberate defiance of his orders.' Why should any such silly thing have been clear to the officer in command? Because certain meetings had been held in this place, because certain speeches had been delivered on another occasion, and because all that had been done peacefully and without giving rise to any violence or disorder, should not the officer in command have concluded that the meeting of the people which was to assemble would disperse as peacefully as similar meetings had done before? What was there to justify the view that he should expect a deliberate defiance of his orders? Even if he did come to such a conclusion, was it not his duty to see that sufficient warning was given to the people that if they did not disperse they would be shot at? No such warning was given. I submit, my Lord, that was a great, a most sinful and criminal dereliction of duty. And what does the General say happened? The Officer Commanding at Amritsar had to decide about midday on the 13th April how he would act if the projected meeting took place in direct defiance of his authority. I say that the first thing that he ought to have done when he heard of the projected meeting was to communicate by beat of drum to the people that the meeting was prohibited, and that if they assembled in defiance of his order they would be dispersed by force. It is said that there was a proclamation made in some parts of Amritsar. The people allege, those who live there told me that the proclamation was not made in all parts of the city, but only in certain parts, and that people in the other parts did not hear of it at all or they would not have gone to expose themselves to a risk of their lives.

"The next thing, my Lord, that the General has been made to put forward is equally unsatisfactory. He has said: 'The Officer Commanding at Amritsar had to decide about midday on the 13th April how he would act if the projected meeting took place in direct defiance of his authority. After making dispositions for the safety of his command, he found that he had but a small striking force at his disposal. Realising the gravity of the situation the Officer Commanding this small force (of 50 rifles and forty men armed with kukries only and two armoured cars), marched this force straight to the Jallianwala Bagh, leaving the armoured cars behind owing to the narrowness of streets.' On reaching the Bagh his force was confronted by a vast assembly, some thousands strong, who were being harangued by a man who was standing on a raised platform.' Now, my Lord, was this force of 50 rifles and 40 men armed with kukries only such a despicable force as the general would have us believe? Was this force with all the munition it had at its disposal—I am told on the authority of a high official that 1,700 service bullets were used there, another version being that 2800 had been used—such a despicable force that it could not face a few thousands of men who were utterly unarmed? Could it by any justification be said that this force was confronted by a force of some thousands strong, as one force is confronted

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya.*]

[25TH SEPTEMBER, 1919.]

by another force ? I submit not. The General went on to say : ‘ Realising the danger it was clearly the duty of the officer to disperse this unlawful assembly.’ Very well, I will agree it was ; then this duty could have been performed by simply proclaiming to the people that if they did not disperse they would be fired on. My Lord, I referred the other day to the Riot Act passed, I think, in the reign of George I. In that Act it is provided that after a proclamation has been read to a riotous assembly to disperse, an hour must elapse from the time of reading the proclamation, before the assembly should be fired on. That was a humane provision. Do not wait for an hour, if you think you must not ; but most certainly you must make sure that the people have heard the proclamation and understood what the situation is ; and if they continue to remain where they were then fire on them, but still not in a way to kill them but to impress them with the danger to which they are exposed and to make them run away from the place. But what was the course followed here ? The General said : ‘ Realising the danger to his small force, unless he took immediate action, and being aware of the inadequacy of the measures taken to restore order on the 10th of April, he (the Officer Commanding) ordered fire to be opened. The crowd was dispersed and the force withdrew.’

“ My Lord, what a chapter of woe is concealed between these two sentences. The people were fired on. They began to run for their lives to all the corners of the Jallianwala Bagh ; and they were shot at even when they were flying. I have seen the place, and people have told me that there were heaps of corpses piled one on the top of another. The people tried to climb over the walls to save themselves from the fire. They were not allowed to escape. I am told that there was a wall of corpses raised at more than one place in the Jallianwala Bagh. I have seen a narrow lane, not wider than five feet, into which the people ran for their lives and were there shot at. I have seen a receptacle there which it was said was filled with the blood of those men who were killed or wounded. Was it necessary for dispersing the assembly, to shoot at people who were running for their lives ? When the Officer Commanding had seen that the persons assembled were running away for their lives, was it necessary to continue the firing ? Should he not have stopped it at least then ? It is well known to the military authorities, and to General Hudson, that a number of men had stretched themselves on the ground to escape being shot. One of these men told me that, while he was lying so stretched on the ground, two shots passed over him and that the third hit him in the leg and has maimed him for life. Should not these facts have been disclosed by General Hudson when he was speaking on behalf of the Government, and should not some explanation be offered for them ? My Lord, it was a most unjustifiable massacre of men which was made in the Jallianwala Bagh in the name of dispersing the assembly there. General Hudson spoke of this assembly as an organised rebellion. I do not know what to say about it. It is inexpressibly sad to hear any such expression used of men who had not the remotest idea of rebelling against the King. I have told the Council that there was one man in the assembly with a child of 7 months in his arms. There were a number of boys there of ages ranging from 12 to 18. I have seen some of the young men who were injured ; I have talked to them. They did not go to the meeting with any idea of organised rebellion ; they had no such idea. If they had any such idea they would have gone there armed at least with *lathis* ; they were entirely unarmed, innocent and helpless, and yet they were fired on. I will not attempt to characterise the whole sad affair. My feelings are too deep to permit of my doing so.

“ I will now refer to the incident of people having been made to crawl on their hands and knees. I was shocked at the ripple of laughter which passed through some parts of the Council when it was told that several men had undertaken to do this voluntarily. I should like to know whether any Member of this Council would like to voluntarily perform that process in this

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Pandit Madan Mohan Malaviya.*]

room. I will say nothing more about it. But before I leave Amritsar, I should say a word about the stopping of the electric lights and the supply of water. As a sort of explanation, I could not regard it as a justification. It was said that there was a fear that the people were going to attack the water pump station. But it was not said that there was any attack really made. It was also said that there was a rumour afloat in the city that the water had been poisoned, and so it was considered prudent to stop the supply. But the water was not stopped in the civil station, and if such a rumour had got about, should it not have been left to die of itself? Could not the residents of the city have been left to discard any such rumour, if they had heard it? Was it not the best way to kill the rumour to let the people have the water to quench their thirst and be happy? I say this is the feeblest, flimsiest explanation that was ever offered. And then what about the electric light? Was any poison introduced in it? Why was it then cut off? I have never heard such flimsy arguments used in this Council ever before. I will now come to the Gujranwala incidents. I think I have made it clear that I have no complaint personally against General Hudson. I take it that he merely put forward the case which those who were responsible for supplying him with his brief, put in his hands. But I must point out that no case has been made out for the use of the aeroplane in Gujranwala. It was said at the time in the 'Civil and Military Gazette' that 'the crowds were giving up the contest' i.e., were dispersing when the aeroplanes arrived from Lahore. Now, if the crowds had begun to disperse when the aeroplanes arrived, where was the necessity for using them? Where was the necessity for inflicting several casualties by bombs and machine guns? Where was the necessity of throwing bombs at places a mile and a half or two miles from the railway goods shed which had been set fire to? Where was the necessity of dropping bombs from aeroplanes in the villages of Gharjak, Bhagwanpur and Dhulla? The picture given of Gujranwala by General Hudson would make one think that there was a condition of war there. The difficulties of aiming from aeroplanes were brought into requisition and offered as some sort of explanation. Were there any sort of anti-aircraft machines at work at Gujranwala that the aeroplanes had to fly at great height and so missed their aims? I have been told that the bombs were dropped from no great height—perhaps from 100 feet at the outside. Would a bomb dropped from a height of 50, 60, or 100 feet fall half a mile or a mile away from the place where the object aimed at existed? The village Gharjak which I visited must be over a mile from the place where the crowd was assembled. I was told that there were some small children playing in the field where the bomb was dropped. It was mere luck that they were not hurt. I have seen the Khalsa Boarding House at Gujranwala; it is, I think, about a mile from the town proper. I have seen where a bomb fell in that institution. It was lucky that 160 students of the boarding house had just gone out then of the hostel to see the aeroplanes, or some of them might have been done to death. I saw the injuries done to the walls by the missiles. In Dhulla, a woman and a child were killed. Was this, I ask, my Lord, necessary for maintaining or restoring order at Gujranwala? I submit not. As regards the plea for the soldier which General Hudson put forward with such pathos, I will deal with it later on. I have not less regard for a soldier's life than General Hudson has; but things have to be seen in their true proportion. We have to see clearly what the duties and responsibilities of soldiers, as well as of civilians, are to the civil population at a time of disorder.

"I shall now deal with the speech of the Hon'ble the Law Member. He ridiculed the opposition to the Bill.

"He held up the Hon'ble Raja Sir Rampal Singh to ridicule and said that the speech which he delivered in this Council the other day was not written by him, but by some one else for him. My Lord, this statement was untrue, and it was a gratuitous insult offered to Raja Sir Rampal Singh. I knew that Raja Sir Rampal Singh is able to write his own speeches and does

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Mr.
Sachchidananda Sinha.*]

[25TH SEPTEMBER, 1919.]

write his own speeches ; and I wired to him asking him to come up here to be able to reply to the charge, but the Hon'ble Member evidently got my wire rather late. So he has wired to me : 'Wire too late cannot reach in time. Lowndes' attack unjustifiable and groundless ; speech was written by me, contained my views, Government is wrong.'

"Now, my Lord, the next gentleman to be attacked was Mr. Sinha. If he had made a speech which met with the approval of the Hon'ble the Law Member, he would have had the honour of being quoted as Mrs. Besant, Mr. Horniman, Mr. Sastri and Mr. Gandhi have been quoted. But he had the misfortune to express opinions which were not acceptable to the Hon'ble the Law Member at the time, and my Lord, Mr. Sinha also came in for unjust criticism. So did my friend Mr. Chanda. I will not speak of myself, for I take the criticisms of some Hon'ble Members on the Government side in a very calm and considerate manner. I know that it is a very unpleasant thing to speak the truth and even more unpleasant to hear the truth on occasions. But I try to put forward the truth according to my light. Perhaps I err sometimes in doing so. Perhaps I err more than others. If so, I am sorry for it ; but I put forward what I believe to be the truth whole-heartedly, and I shall continue to do so regardless of any frowns or criticisms from Government benches. The learned Law Member referred to us as gentlemen who came from remote places—he said one came from his palace or fortress in Oudh—I do not exactly remember the exact words he used

The Hon'ble Mr. Sachchidananda Sinha :—"From the fastnesses of Oudh."

The Hon'ble Pandit Madan Mohan Malaviya :—"Yes, from the fastnesses of Oudh ; another from Assam ; a third from Bihar ; and a fourth came from Allahabad, and he said that not a single Punjab Member had asked that the Bill should not be proceeded with. My Lord, you do a wrong to the people of the Punjab in not giving them an opportunity to elect their own representatives. You nominate such men as you like, and then you turn back upon them and say that the Members who are sitting here from the Punjab do not say that the Bill should not be proceeded with. I mean no disrespect to the Punjab members ; but if you yourself shut the popular voice out of this Council, should you turn back and make use of that fact as an argument in support of your measures ? Is this fair, my Lord ? I say it is not. I know perhaps one Member from the Punjab is elected. But how many elected Members have you given to the Punjab ? Let the people have the opportunity of returning those in whom they have confidence, and you will hear their opinions as freely expressed here as you hear the opinions of the people of the other provinces. My Lord, the Hon'ble the Law Member went on to quote Mrs. Besant, and Mr. Horniman,—and when he had not the courtesy of putting a 'Mr.' before his name,—and he or Mr. Hailey quoted Mr. Sastri. My Lord, I am sorry for the Hon'ble the Law Member that he should have to rely in support of the Bill before the Council on expressions of opinion by Mr. Horniman in his paper when the sad events of the Punjab were fresh and when it had not been investigated what the facts were ;—when the Punjab Government supported by the Government of India would not allow the real facts of the situation to leak out from the Punjab, when people were taken aback by what had happened, but had had no time and opportunity to investigate the facts. Mrs. Besant stood in the same position. I am sure if the facts were known as they are known now, neither Mrs. Besant nor Mr. Horniman, nor Mr. Sastri would adhere to the opinions which they had expressed ; the opinions they would now express would be very much modified in the light of the facts which have been published.

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

" Then, my Lord, my friend the Law Member went a little further, and speaking with the air of a Dogberry dressed in a little brief authority, he spoke of us contemptuously as self-constituted Commissioners who went from Allahabad to the Punjab. Now, my Lord, let me tell the Hon'ble Member that we are not self-constituted Commissioners. The Congress, the last Congress, was attended at Delhi by nearly 5,400 delegates from all parts of India. According to a prescribed procedure it regularly appoints every year an All-India Congress Committee as its executive. This All-India Congress Committee is representative of all sections of the people. In view of the recent events in the Punjab, this Committee met and considered the situation, and appointed a sub-committee,—of which I have the honour to be *ex-officio* President and my esteemed friend the Hon'ble Pandit Motilal Nehru a member, and of which several other distinguished Congressmen are members,—to arrange to help in the inquiry which the Government had said was going to be conducted. Now, my Lord, having been so commissioned, not by ourselves, but by a very respectable body, from whom it is an honour to take a commission, we did spend some time in the Punjab. We investigated the facts; we visited the places where these sad events had happened; we saw with regret the signs of the fires that had been set to houses and Churches; we saw also with regret and pain the signs of the killing that had been resorted to in the Jallianwala Bagh; and we heard distressing accounts of other deaths which had been caused. My Lord, we did not publish any expression of our personal opinions on the situation until we had visited these places and made inquiries. What was the next step I took? My Lord, I sent to the Government the result of my investigations, and the investigations of my colleagues, in the shape of a number of questions, and asked them to give us information on the various allegations that had been made to us.

" We thus placed the Government in the best position we could to know the facts, and if they did not know them, to inquire into them. And now that the Bill before us is being pressed by Government, I feel it my duty to oppose the Bill on the ground that these allegations should be inquired into by the Committee that has been appointed before the Bill is passed. I have said in distinct terms more than once, as the report of my speech by the official reporters will show, that the facts have to be sifted. Let them be sifted by the Committee of Inquiry which you have appointed, and when we know what the facts are, then will be the time for the Government and the Council to sit down together and weigh what are the acts which should be justified by this Council; what are the acts among those which some people had unfortunately, in the performance of their duty, to commit, and against which they should be indemnified. That is the reason why I oppose the Bill. I have during these six weeks met a number of men of the Punjab, both among those who are enjoying their freedom as we do, and those who have unfortunately been deprived of their freedom and are shut up in His Majesty's jails. I have met a number of such people and ascertained facts first-hand from them, some of the facts from the lips of the men who are condemned to death and are passing anxious days to know what will happen to them. I have not put forward these facts lightly; I feel it my duty to bring these facts to the notice of Government. Even if I had not a commission from the Congress Committee, I should have been proud and thankful to God to have gone forward to the Punjab, as a self-constituted commissioner, to find out the wrongs that had been done to my fellow-men and to bring those wrongs to light. My Lord, I owe a duty to my fellow-men. When atrocities were perpetrated in Belgium, who constituted the Commission over which Lord Bryce presided? Did the Belgian Government constitute that Commission? No, so far as I remember, it was the then Premier of England who asked Lord Bryce and others to visit Belgium and to report upon the wrongs which it was said had been perpetrated. If the Government of India did not take the steps which they were bound in duty and in honour to take; if the Punjab Government did not take the steps

THE INDEMNITY BILL

[*Pandit Madan Mohan Malaviya.*]

[25TH SEPTEMBER, 1919.]

which they were bound in honour and in duty to His Majesty the King-Emperor and the people to take, to ascertain the facts and to seek to have the proper remedies adopted, it was no sin on my part, nor on the part of my friend Pandit Moti Lal Nehru or my other fellow-workers, to go to the Punjab and to make such a sacrifice of our time and other advantages as was demanded by the situation in the cause of humanity. Now, my Lord, I appeal to all my friends, to all my friends, official as well as non-official, to look at the whole question in a fair manner. Speeches cannot explain away things. Let us combine to find out the facts. I have heard some very brilliant speeches made in this Council on these unhappy incidents ; I heard these speeches applauded, loudly applauded, by those whose points of view coincided with those of the speakers. My Lord, I have been reminded of a few lines from Milton (quoted by a writer on the atrocities in Belgium), in which he draws a terrible imagery when he says of Nature :

‘ Only with speeches fair
She woos the gentle air
To hide her guilty front with innocent snow,
And on her naked shame
Pollute with sinful blame
The saintly veil of maiden white to throw ;
Confounded that her Maker’s eyes
Should look so near upon her foul deformities.’

“ My Lord, I fear that even now some of my Hon’ble friends on the Government benches do not realise the enormity of the things that have been done. I appeal to them not to think of disposing of these by speeches, but to look closely into the facts, and if the truth be where the people allege it is, to accept the truth. George Herbert is one of your holiest of divines. He has been described as ‘groaning and growing towards heaven.’ He has beautifully expressed this sentiment, of which I make a present to my friends ; not by way of taunt, the occasion is too serious for it ; but in all humility and sincerity. Let the officers of Government and ourselves, putting aside all small feeling of jealousy, all small feeling of racial bias, let the officers of Government and ourselves combine to find out the truth. Let the truth be established in order that justice may be done. George Herbert says :—

‘ If truth be with thy friend, be with them both,
Share in the Conquest, and confess a troth’

“ If the truth is with my friends, who have put the opposite side, I say, my Lord, solemnly and deliberately, I shall bow to them and be grateful to them for establishing it. But if the truth be on the other side, for God’s sake, for the sake of our fellow-men, for the sake of truth and justice, for the good name of the British Government, let it be found and established, and let the Council be then asked to determine what acts ought to be justified and indemnified.

“ My Lord, there is only one other aspect of the question to which I have to draw attention. I am sorry I have not the strength in me at this moment to say all that I wish to say ; but I cannot conclude—I shall not be doing my duty to this Council and to His Majesty, to whom I owe allegiance, if I were to conclude without making one more earnest and final effort to prevent the Government from committing the great mistake which they are going to commit if they accept this Bill. Among the arguments advanced by the Hon’ble Sir George Lowndes, one was that an Indemnity Bill was a necessity. Your Lordship also was advised to say in your opening speech that, whatever the result of the inquiry, we were bound to protect our officers. My Lord, with great respect I beg to differ from that view. It is not correct to say that, whatever may be the result of the inquiry, an Indemnity Bill must be passed. As Lord Alverstone said in a debate in 1818 in the House of Lords—from which I quoted yesterday—‘ a legislative assembly has to be satisfied whether the acts

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

done were necessary and proper before it would indemnify those that committed those acts.

"Now, my Lord, the rights of man do not depend upon any particular charter or constitution. 'The sacred rights of man,' as Alexander Hamilton has well put it, 'are not to be searched for in old parchments and musty records; they are written as with a sunbeam in the whole volume of human nature by the hand of Divinity itself and can never be erased by mortal power.' Among these is the right to protection of life and liberty. Every single individual, however humble he may be, can claim this right of his Government. His Majesty's Government have also promised this right to every individual among his subjects. Now, my Lord, if a man has been injured, if one has been deprived of his life or limb, or liberty or honour, he or his relations have a right to seek a redress of the wrong done. If you want that a person who has suffered loss of life, limb, liberty or honour should not be able to seek any redress against that loss, you must put it on some footing which will be understood and appreciated by him. Parliament can excuse certain acts. The community, the public at large whom the Parliament or the Council represents, can take note of the events which happened, and of the circumstances in which they happened, and can say, that though certain wrongs were done, yet in view of the situation, in view of the greatest good of the greatest number, those regrettable wrongs shall be excused. The individual acquiesces in that decision, he waives his right to sue his oppressor or assailant or those who injured him. That is done with the implied consent of the person who is vitally interested in the matter. Here you are asking us to assent to a Bill which seeks to justify acts which still require investigation, to indemnify officers against acts, the legality, the propriety, the humanity, of which is still under consideration, still to be investigated. I submit, my Lord, it is an utterly wrong procedure that you are following. The keystone of an Indemnity Bill, as I have submitted, is that the introduction of martial law should have been necessary and for the benefit of the public. You have taken away that keystone and yet you want to pass the Bill. My Lord, it is not right to do so. Let me here quote to the Council the opinion of Sir James Macintosh cited at page 541 of Dicey's 'Law of the Constitution.' He says:—

'The only principle on which the law of England tolerates what is called Martial Law is necessity; its continuance requires precisely the same justification of necessity; and if it survives the necessity on which alone it exists for a single minute, it becomes instantly a mere exercise of lawless violence. When foreign invasion or Civil War renders it impossible for Courts of Law to sit, or to enforce the execution of their judgments, it becomes necessary to find some rude substitute for them, and to employ for that purpose the Military, which is the only remaining Force in the community. While the laws are silenced by the noise of arms, the rulers of the Armed Force must punish, as equitably as they can, those crimes which threaten their own safety and that of society; but no longer.'

"My Lord, martial law was introduced at midnight between the 15th and 16th of April. This Bill seeks to justify and validate acts which were done before that date. It also seeks to justify and validate acts done during all the long period during which martial law was maintained. I submit, my Lord, there is no justification for the Council to pass such a Bill, to accept such a measure.

"My Lord, the Law Member dealt with many side-issues in his long and learned speech, but he did not reply to the main points raised by me, points which have become very much stronger by the alteration made by the Government in the preamble of the Bill. I submit, therefore, that the Government are not justified in proceeding with the Bill. I may here say that the learned Law Member told the Council that the conviction in the case of Fitzgerald to

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Sir
George Lowndes.*]

[25TH SEPTEMBER, 1919.]

which I had referred had been quashed. I find on page 819, in column 820, of 27 State Trials of 1820 the following paragraph :—

‘ An application was made on the part of Fitzgerald in the Court of Exchequer to set aside the verdict obtained against him by Mr. Wright which was dismissed with full costs.’

The Hon’ble Sir George Lowndes :—“ May I explain that that is the passage I quoted from, and it appears to me to be direct authority for the statement that the conviction was quashed ?”

The Hon’ble Pandit Madan Mohan Malaviya :—“ Here is the authority.”

The Hon’ble Sir George Lowndes :—“ The Hon’ble Member knows English. As I read the passage ‘ which ’ refers to the last substantive before it.”

The Hon’ble Pandit Madan Mohan Malaviya :—“ I will again read the passage and leave it to my Hon’ble friend who knows English better than I do to say what it means :—

‘ An application was made on the part of Fitzgerald in the Court of Exchequer to set aside the verdict obtained against him by Mr. Wright which was dismissed with full costs.’

“ Now, my Lord, I will not detain the Council longer. I think what I have said is sufficient to show that the Council ought not to accept the motion of the Hon’ble the Home Member unless it is satisfied of the essential fact that there was an open rebellion, and that it was necessary to introduce martial law. This question remains to be determined by the Committee of Inquiry and therefore the Bill is premature.

“ My Lord, the learned Law Member and the Hon’ble the Home Member spoke vehemently of the duty of protecting soldiers, policemen and other officers who had acted under the orders of Government. They urged that these at least should not suffer for any error of the Government of India. I submit that this is an entirely fallacious argument, opposed to the basic principles of the constitution. It is a well-settled principle that no order of a superior officer can protect or ought to protect a subordinate in his commission of any illegal act. If a subordinate receives an order to do any illegal thing or act from his superior, it is his duty to disobey it. Even the King cannot give an order to do an illegal thing. In support of this view I would draw attention to a passage in Dicey at page 283. He says :—

‘ The legal dogma, as old at least as the time of Edward the Fourth, that, if any man arrest another without lawful warrant, even by the King’s command, he shall not be excused, but shall be liable to an action for false imprisonment, is not a special limitation imposed upon the royal prerogative, but the application to acts done under royal orders of that principle of individual responsibility which runs through the whole law of torts.’

“ My Lord, the Governor General cannot claim to exercise a higher right than His Majesty the King does, and in the case of a King, I may remind the Council that the promise given by Charles I to Strafford that ‘ not a hair of your head shall be touched by Parliament ’ was insufficient to protect that bureaucrat from the just anger of Parliament. The argument that the Council is bound in honour to protect its officers has also no force. The Council never made a promise to anybody to protect him. If the Executive made a promise, every officer ought to know the limitations on the power of the Executive, and I hope that one of the results of these deplorable incidents will be that soldiers and public officers will have learnt their duty to the people. If any officers of Government have acted in excess of their authority or without humanity, they ought to take their trial and answer a charge on that account. The Hon’ble the Law Member and the Hon’ble the Home Member specially mentioned the cases of soldiers called

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Pandit Madan Mohan Malaviya.]

upon to protect the lives and property of civilians, and said that if indemnity was not granted to them the soldiers would refuse in future to act. My Lord, I do not think that any such evil result will follow. I think the result that will follow will be a salutary one for the soldiers and for the Civilians as well. The argument is an entirely fallacious one. Soldiers have a right like other citizens to repel force by force and to take all proper steps to protect life and property. But if soldiers 'were to kill men unarmed, unresisting, and disfigure, maim or cut down women and children, if unresisting men were cut down, whether by troops or not, it would be murder, for which the parties are liable to be tried by the laws of the country.' I refer my Hon'ble friend, the Law Member, to the case of *R. vs. Burdett*, 4 B. and Al. 323 at p. 327, where the Judgment of Bayley, J. from which I have quoted is given.

"But it is said that soldiers must obey orders given by their military officers on pain of being court-martialled. Here also the law is quite clear. Soldiers are bound to obey orders, but not illegal orders, orders which are manifestly and obviously illegal such as the order to fire at Jallianwala Bagh was. I shall again refer to Dicey who puts this view very clearly. He says at p. 299 :—

'A soldier is bound to obey any lawful order which he receives from his military superior. But a soldier cannot any more than a civilian avoid responsibility for breach of the law by pleading that he broke the law in *bona fide* obedience to the orders' (say) of the Commander-in-Chief. 'Hence the position of a soldier is in theory and may be in practice a difficult one. He may, as it has been well said, be liable to be shot by a Court-martial if he disobeys an order, and to be hanged by a judge and jury if he obeys it. His situation and the line of his duty may be seen by considering how soldiers ought to act on such occasions.'

"Now I will not quote further, though what follows is very important and throws valuable light upon the question raised by the Hon'ble the Law Member. The whole law has been very well summarised by Dicey at p. 302 of his valuable book. He says :—

'The hardship of a soldier's position resulting from this inconvenience is much diminished by the power of the Crown to nullify the effect of an unjust conviction by means of a pardon. While, however, a soldier runs no substantial risk of punishment for obedience to orders which a man of common sense may honestly believe to involve no breach of law, he can under no circumstances escape the chance of his military conduct becoming the subject of inquiry before a civil tribunal, and cannot avoid liability on the ground of obedience to superior orders for any act which a man of ordinary sense must have known to be a crime.'

"I submit, my Lord, this places the legal aspect of the case in a thoroughly clear light. I will refer to only one other passage from a judgment of Mr. Justice Stephen which is found at p. 301 of Dicey's book, and which seems to me to be very apposite. It is this :—

'Soldiers might reasonably think that their officer had good grounds for ordering them to fire into a disorderly crowd which to them might not appear to be at that moment engaged in acts of dangerous violence, but soldiers could hardly suppose that their officer could have any good grounds for ordering them to fire a volley down a crowded street when no disturbance of any kind was either in progress or apprehended. The doctrine that a soldier is bound under all circumstances whatever to obey his superior officer would be fatal to military discipline itself, for it would justify the private in shooting the Colonel by the orders of the Captain, or in deserting to the enemy on the field of battle on the order of his immediate superior. I think it is not less monstrous to suppose that superior orders would justify a soldier in the massacre of unoffending civilians in time of peace or in the exercise of inhuman cruelties such as the slaughter of women and children, during a rebellion.'

"I submit, therefore, with confidence, that the view put forward by the Hon'ble the Law Member is not the correct view of the law, and I submit that both on grounds of fact and law this Bill is premature. Let, my Lord, the Government and the country wait therefore for the result of the inquiry which the Secretary of State and your Excellency's Government have agreed to institute. On the results of that inquiry being known, let the matter be

THE INDEMNITY BILL.

[*Pandit Madan Mohan Malaviya ; Mr.
J. P. Thompson.*]

[25TH SEPTEMBER, 1919.]

placed before this Council for further consideration, and let everybody concerned rest assured that every man will render all the reasonable support which ought to be given to soldiers and other public officers who have discharged their duty properly. I once more most earnestly request your Excellency not to proceed with this Bill and to let it stand over till the next Session in Delhi."

[At this stage the Council adjourned for Lunch till 3 P.M.]

The Hon'ble Mr. J. P. Thompson:—"I should be grateful, my Lord, to the Hon'ble Member for having given me such an easy task to deal with. If it is true that there are people from whom abuse is a compliment, I should thank the Hon'ble Member for the compliments he has showered on me. But I feel I do not deserve them. The heat with which he credited me was non-existent and many of the statements which he put into my mouth I never made.

"The first case that the Hon'ble Member dealt with was that of the Inspector who was assaulted in the Badshahi mosque at Lahore. He prefaced his remarks by telling us that he had sent in certain questions and that, as Government did not give him an answer to those questions, he felt justified in stating these questions to the Council in the form of facts. I should like to have heard from the Hon'ble Member, if he had been in his seat, whether the allegation against the Inspector was ever submitted in the form of a question. If it was, all I can say is that, to the best of my recollection, I have never seen it. I do not propose to deal with the quotation which he read out from the evidence of Inspector Ali Gauhar, because the ripple of laughter which went round the Council when the Hon'ble Member read it showed me that I had already a verdict in my favour. The Hon'ble Member played his trump card and found he had revoked.

"The next case he dealt with was that of the persons confined in the racquet court at Amritsar. As regards this I gave the facts as they were supplied to me. How far that explanation satisfies the Hon'ble Member or the Council is another question, but I pointed out, as the Council will remember, that if these gentlemen were subjected to hardships, there were European women and children suffering not dissimilar hardships within a very few yards of the place where they were confined.

"The next case to which the Hon'ble Pandit passed was that of the schoolboys who were flogged at Kasur. He complained, if I understood him aright, that I did not deal with many other cases of flogging. He left it to be inferred that a reference to these other cases had been contained in the question which had been disallowed and which he afterwards stated to the Council in the form of a narrative. I will read that question to the Council—"Will the Government be pleased to state if it is a fact that several schoolboys at Kasur were flogged and, if so, state their names, ages, and the number of stripes administered in each case and the offences for which they were punished." I told him that three pupils of the Municipal Boarding School were caned and three of the Islamia school. This was done by way of school discipline. At the request of the Head Master, military aid had been invoked 'to deal with continuous insubordination on the part of the boys'. I am reading from the explanation submitted by the Sub-divisional Officer. That explained what had happened in the case of the schoolboys who had been caned at the request of the Head Master. I went on to say that two other schoolboys were sent by the Commission for summary trial and received three strokes of the cane after trial by the martial law officer. I ask the Council what other explanation I could give. So far as I am aware that explanation covers the cases of flogging of schoolboys at Kasur, and it was with the flogging of schoolboys at Kasur that the question put by the Hon'ble Member dealt.

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Mr. J. P. Thompson.]

"Then, my Lord, the Pandit went on to the case of Mr. Manohar Lal. He tells us, if I understood him aright, that Mr. Manohar Lal's house was locked up for several days and that his family were compelled to live in outhouses. The facts as I understand them and as I have received them from the officers at Lahore who are familiar with the case are that Mr. Manohar Lal was arrested on the 18th April. On the evening of that day, I think, the house was shut up by the Police. When they got there, they found his family moving into outhouses, thereby indicating that they had already received instructions from Mr. Manohar Lal as to what they were to do. The house was searched on the morning of the 19th and at 1 o'clock that day his family were permitted to return to the house.

"Then, my Lord, we come to the case of Gujranwala. On this as well as other cases, the Pandit quoted certain extracts from accounts which appeared in the *Civil and Military Gazette* and he appeared to be under the impression that there was something official about them. Hon'ble Members will recollect that at an early stage in the proceedings the Pandit quoted from a publication entitled 'Punjab disturbances' which was issued by the *Civil and Military Gazette* in respect of which he definitely alleged that the publication was one which was published under the authority of the Punjab Government. I corrected him, and he pretended not to be satisfied with my explanation, but I note he did not venture to quote it as a Government publication again. My Lord, as far as I can recall, the only connection that the Punjab Government had with the publication was to protest against the inclusion of certain of its contents. The Pandit read certain extracts from one of these articles which had appeared in the *Civil and Military Gazette* on what happened at Gujranwala. The Council will remember that in his original speech he stated that respectable persons were chained together and were marched to the city two by two, headed by a Hindu and a Muhammadan 'with a view to ridicule Hindu and Muhammadan unity as was stated by Colonel O'Brien.' Now, my Lord, the passage which he quoted from the article after describing how persons had been marched through the city went on to say that this spectacle of Hindu and Muhammadan unity must have been most impressive. Would not anybody reading that article come to the conclusion that that was merely a comment of the writer? I do not see what justification the Pandit had for reading into the action of Colonel O'Brien, who was in charge of the arrests at Gujranwala, the sentiments supplied by the writer of the article in the *Civil and Military Gazette*.

"As regards the Ramnagar case I have nothing more to say. The Pandit gave no answer to the criticism which I passed on what he said at the time. All he had to offer us was the *a priori* argument that because these people were respectable they could never have taken part in such disreputable performances.

"The Hon'ble Pandit also attributed to me, if I understood him aright, certain remarks regarding the burning of a *bhusa* stack at Lyallpur. To the best of my belief, my Lord, I never touched on the incident of the burning of a *bhusa* stack at Lyallpur. I knew perfectly well what the facts were, and the Pandit, so far as I remember, asked no question about it. It is possible, I think, that it was Mr. Hailey who in another connection mentioned the case of burning a *bhusa* stack at Lyallpur, but as I do not remember exactly in what connection he mentioned it, I am unable to say how far, from the point of view of the Pandit, that mention was justified.

"I now come, my Lord, to the case of the Jallianwala Bagh at Amritsar. The Pandit told us that he received a letter from a Mr. Tiwari, stating that 531 persons had been killed including 60 who had not been traced. He did not tell us how he came to include persons who had not been traced, but he said that 531 were killed.

THE INDEMNITY BILL.

[*Mr. J. P. Thompson ; Pandit Madan Mohan Malaviya.*]

[25TH SEPTEMBER, 1919.]

" Now, my Lord, since I spoke on last Friday, another fact has come to my notice which makes it more probable perhaps than before that the details that we have got regarding the number of persons who were killed in Amritsar are very near the mark. I was informed only a few days ago by a very old resident of Amritsar that for every cemetery and every burning ground in Amritsar, there are sub-registrars who write down particulars of every corpse which is brought for disposal. Those returns are submitted to the Registrar and through him to the Health Officer. So that whether people report deaths or not there is this additional check, supplied by the cemeteries and burning grounds. I still claim, my Lord, that any deaths which were reported, which are considerably in excess of the number which we admit, namely 291, must be received with grave suspicion. I did not claim, and I do not claim now, that we know or ever shall know, the exact number of persons who were killed. But what I do say is, that the information that we have supplied is far and away the best information which is at present available, and that if the people who are collecting information for the Pandit have done their duty in responding to the invitation which was conveyed to them to give us any information which they might possess as to the number of persons who had been killed—I say that if they have done their duty—then our figures are as nearly complete as I or the Pandit can make them.

" As regards the corpse which the Pandit says he saw in the well, really the incident is hardly worth dealing with. But one thing is certain, and that is, that if there was a corpse down the well when the Pandit visited the place at the end of June, it was not the corpse of anybody who had been killed on the 13th of April. It is established by expert evidence that after $2\frac{1}{2}$ months in the hot weather a corpse would be a mere collection of bones at the bottom of a well—so that as evidence of anything which had been in there from the time when the firing took place on April the 13th, there is nothing in it at all. But it does seem to me that when the Pandit wrote to the Municipal Committee saying that there were 'still' one or more corpses down the well, it was perfectly obvious that what he was doing was trying to create horror or pity in the minds of his hearers in connection with the incident of the Jallianwala Bagh. I leave the matter to the Council, but that conclusion appears to me to be irrefutable.

" The Pandit again talked of the desire for co-operation between officials and non-officials in connection with these disturbances. I have already given you one instance in which we had invited the co-operation of those who were collecting information in regard to the number of deaths in Jallianwala Bagh. The Pandit's assertion that the number of deaths is nearly double what we found after issuing that invitation, is a strange comment on the degree of co-operation which has been offered by non-officials. I will give the Council another instance. There were, as the Pandit no doubt knows, a large number of serious allegations against the honesty of the police at Amritsar. It was said that many of them had made large sums. The Lieutenant-Governor was anxious that these allegations should be probed to the bottom, and instructions were issued that the local authorities should invite the co-operation of the Pandit and Pandit Motilal Nehru in finding out whether there was anything in them. Letters were written and the answers we received gave us no information at all. Whether any further answers have been sent since the two which I saw, I cannot say; but the first letters that were received gave us no information at all

The Hon'ble Pandit Madan Mohan Malaviya :—" I have seen no letter of the kind mentioned; nor has my friend Pandit Motilal Nehru received anything as far as I know."

The Hon'ble Mr. J. P. Thompson :—" The Hon'ble Member is certainly in a better position than I am to say whether he received a letter or not, but I understood a letter was sent to him and to Pandit Motilal Nehru who was working in close co-operation with him, and the answer that was

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Mr. J. P. Thompson ; Major Malik Sir Umar Hayat Khan.*]

received was one which gave us no assistance at all. Whether a separate letter was sent to the Pandit or not seems to me to be really immaterial.

"The last specific allegation that the Pandit made was in regard to the cutting off of the electric lights and water-supply at Amritsar by order of the General Officer Commanding. It was not really for me to justify the action taken by the military authorities. But I gave the Council what I believed to be the facts, and here again it is for the Council to say whether they are satisfied with the explanation or not. But what I said, on the information supplied to me, was that on the 10th of April—I give it in rather greater detail—on the 10th of April two out of the three feeders which give energy to the city were damaged by the mob about 1 P.M. Later on at 2-30 P.M. the mob entered the power-house and stopped the whole plant. At 7 P.M. the one remaining feeder was started. On the 11th the mob prevented a mistri from mending the two damaged feeders. That evening the power was cut off the city altogether by order of the General Officer Commanding, and remained off till the 19th. In regard to the water-supply, I mentioned the story that the supply had been poisoned. But the water was turned on again early on the 11th after having been cut off on the evening of the 10th, and it was again cut off later on the 11th and remained off till the 14th. Those were the facts and that is the explanation. How far it is a justification it is for the Council to say. That completes, my Lord, the examination of the cases with which the Pandit has dealt.

"He then went on to give me a severe rebuke for transgressing, as he said, the traditions of this Council. I think if the Hon'ble Member had been familiar with the lighter forms of English literature and especially with the literature of the comic stage, he would have avoided the 'you're no gentleman' retort. It is a retort which usually comes from a housemaid caught out in an embarrassing situation. It is hardly worthy of the dignity of this Council.

"Towards the close of his speech the Hon'ble Member quoted us some lines from Milton. It is quite in keeping, my Lord, with human nature for a disappointed man to seek refuge in great literature. His attack has failed all along the line, and I sympathise with him in his disappointment. Let me give him another quotation from the same poem which, I think, perhaps describes his situation with some appropriateness :—

'The old Dragon under ground
In straiter limits bound,
Not half so far casts his usurped sway,
And wroth to see his kingdom fail,
Swinges the scaly horror of his folded tail.'

"My Lord, the lashing of the Pandit's tail is the measure of his disappointment.

"My Lord, I have nothing more to say. But with regard to what the Pandit has said about me, what I will say is this. What this Council values above all else, and what I trust it will always value is straightforwardness and simplicity of character. And I hope that, senior or junior, there will never be a lack of Members in this Council who will be ready to protest against perversions of truth and to stamp misrepresentations for what they are."

The Hon'ble Major Malik Sir Umar Hayat Khan :—"My Lord, allow me to congratulate the Hon'ble the Home Member on the skill with which he has piloted the ship of the Indemnity Bill through the storm of discussion, no doubt, with the help of the high-skilled Legal Engineer, the Law

THE INDEMNITY BILL.

[Major Malik Sir Umar Hayat Khan.]

[25TH SEPTEMBER, 1919.]

Member and cleverly manœuvring it has saved it from the three pests, *i.e.*, mine, torpedo and submarine, with not less than 38 attempts by them.

"After the complete victory of the Right the other day the course of events was so changed that nearly all had joined the victorious camp except those whose business naturally it was not to do so and had to stick on, through thick and thin, to the opposite camp so as to justify themselves to be called 'public men.'

"Apart from few irreconcilables the majority of the population forming 90 per cent. of the Punjab would welcome the Bill and thank the Government for so many gracious acts done during the period. The Martial Law Commission of the Judges of the High Court and some other experienced men were provided to administer justice for the heinous crimes instead of first or second class Magistrates which was a great improvement on the ordinary machinery of justice. They acquitted large numbers of people who were guilty and convicted only those against whom there was sufficient evidence. The extraordinary kindness shown by His Honour the Lieutenant-Governor of the Punjab in commuting the sentences and their further reduction by your Excellency's Government has caused further satisfaction.

"Though in ordinary circumstances things would have ended here, it is gratifying that two Judges have been appointed to investigate into the cases in order to minutely sift the various facts over again which may be called an 'unprecedented kindness. In case the Privy Council accepts the appeals of the wealthier men who have approached it, the announcement by the Government that all the poorer accused will get the benefit of the above under the same circumstances is another thing of far-reaching importance. The Government has also kindly given assurances that no one appearing before the Committee will be liable to be molested by any authority or police, and their promise that all those will be released whose cases do not fall under the ordinary law, has further helped the accused. And last but not the least the grant of not only the one Indian member which was asked for but also the appointment of another Indian member in the shape of an Englishman. We call him Indian as his community has got vested rights in the country the welfare of which, I am sure, is the nearest to his heart.

"I think by all the above the Government has gone to an extent that no Government in History would have done so far for the breakers of law and order. I hope when all the above is finished, it will result in wholesale clemency except for some such whose release will amount to letting loose wolves in the flocks of sheep.

"My Lord, those of us who have been saved from a great catastrophe pray that Government will take precautions that such a thing may never recur, because if it again does so there is danger of its coming in a more complete form. This time those responsible for the Egyptian and Indian troubles and foreign invasion not being in possession of cables and having no proper communication have come one after the other and suppressed in detail but at some next time such may not be the case.

"I also hope that some battalions of Sappers and Pioncers will be trained to work as engine drivers and guards, etc., as this time the wholesale strike of the Railway employees was only just averted. Had it occurred as it was arranged transport of reinforcements, food-stuff and other provisions to the Frontier would have been greatly hampered.

"My Lord, there is a section which believes that this our august assembly was to an extent directly or indirectly responsible for the recent troubles by their utterances. One of the leading arguments of the Council in defence of some of the accused was that their inflammatory speeches for which they were being punished and which roused the public feelings for the acts committed did not go half the way as some of those delivered in your Excellency's presence,

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Major Malik Sir Umar Hayat Khan ;
Mr. Sachchidananda Sinha.]

and people wonder whether there is any regulation which could be put in force to moderate such language and, if there is such, what is the cause that this remedy is not applied when certain portions of certain speeches reach the extent of creating hatred among the classes and go a long way to bring the Government established by law into contempt. I think all the above is being governed by the ordinary law of the land.

"The defence of a public prosecutor against the argument of Mr. Hussan Imam that such speeches in the Council were meant for a responsible class, while those of the accused were for the ordinary public, is a poor argument and falls to the ground as the next day a speech here is public property and the extremist papers, like one or two of those we have got in our province, intensify them by their comments on them.

"I have only put forward this as an appeal on behalf of the general rural public of the Province so that such happenings may not recur and the lives of the innocent people, English as well as Indians may not be lost as well as those at the Frontier either in action, or through epidemics.

"My Lord, all the arguments used to-day have been already put forward on the day when the Hon'ble Pandit Malaviya first spoke on this Bill, and though he does not believe in what the other people say, the others have the same right to say that they do not believe in the allegations that he has put forward. For instance, the Gujranwala case was discussed the other day. The railway line was broken and the police and other people at Gujranwala were absolutely helpless till the evening. If troops were sent from Lahore, it is such a long distance, that they could not possibly have reached that day, nor could they come by train, as, I have already said, the railway line was broken. There was no other possible way to help the authorities at Gujranwala that day except by aeroplane. I hear the people were in the act of opening the prison and letting out all the prisoners when the aeroplanes arrived.

"About Lahore, it is said, my Lord, that everything was quiet. I wish my Hon'ble friend the Pandit Sahib was there at the time. Just as he has seen certain things and believes in them, I think he should also believe in us who saw that the conditions were such that if the military were not there, there would have been many other acts committed.

"As the military were there and suppressed the disturbance, we cannot say there was nothing. Of course nothing happened or could have happened because there was force to suppress it, but it was only that force which kept things quiet.

"With these few remarks, I hope the Bill will be passed."

The Hon'ble Mr. Sachchidananda Sinha :—"My Lord, I hope this unequal struggle between the official members and the non-official members of this Council will soon be over ; for my part, I find it rather too trying for my nerves. The debate has been going on now for three or four days, and almost everything which could be said for or against the measure has been put forward by the advocates of the respective sides. It seems that at the end of the discussion we are as far off from coming to an agreement as we were when the Bill was introduced.

"The motion before the Council now is that the Bill be passed. Under ordinary circumstances I should have held it unjustifiable at this late hour to prolong the agony by making any lengthy observations, but the matter, my Lord, is of such great and grave importance, that I do not think I shall be justified in recording my vote without giving, howsoever briefly, my reasons for the action which I propose to take. When the Bill was introduced and leave was sought for its introduction, some of us felt compelled to oppose that. What has happened since then that the Hon'ble Member should feel justified

THE INDEMNITY BILL.

[*Mr. Sachchidananda Sinha.*]

[25TH SEPTEMBER, 1919.]

in asking us to-day to give our assent to the Bill? We tried to improve the Bill to the best of our lights by sending in 38 amendments. Far from feeling grateful to us for trying to improve his Bill, the Hon'ble the Home Member, with that emotional Celtic temperament to which I referred the other day, actually charged us with trying to whittle down the Bill. That, my Lord, was the unkindest cut of all. When we come here to assist him with our experience, with our guidance, those are the thanks which we get in this Council. Now, lest your Lordship and the Council may think that in dilating at some length on the difficulties and the misfortunes of Indian non-official members of this Council, who have to oppose official views, I am at all exaggerating, I shall, with your Lordship's leave, read out two or three sentences, not from an Indian paper, moderate or extremist, but from a well-known Anglo-Indian paper of Calcutta, called 'Looker-on'. This is what the writer in 'Looker-on' says of our most piteous condition:—'I am always struck by the pathetic aspect of the incident when an Indian Councillor gets up on his hind legs'—those are his words, not mine—and debates a motion eloquently and cheerfully, knowing all the while that the division which he has succeeded in forcing must go against him. It requires a certain amount of assurance, not to say spiritual pluck—the words are 'spiritual pluck' not 'spirituous pluck'—'to do, as many Indian debaters do, without giving an unedifying exhibition of temper, spleen and despair'.

"Now, my Lord, under those circumstances, I am particularly grateful, speaking for myself, that of the 38 amendments which were moved by us, the Hon'ble the Home Member was graciously pleased to accept one of mine. Afterwards, he made an observation, however, which deprived his action of its little grace, that he was not sure that he had been wise in accepting my amendment. I ventured to assure him then and there that this was the wisest act he had done, if not in his life, at least in the course of this debate. I am also grateful to him, my Lord, particularly, for accepting my suggestion in my opening speech and amending the words of the preamble by dropping the words 'that it was necessary to declare martial law' and putting in the words 'where martial law was enforced'. My Lord, did he suspect then that the Hon'ble Pandit would take advantage of that to build his argument on that, because he had withdrawn from that position of there being the necessity for martial law being declared, therefore the whole Bill must fall through? Well, my Lord, grateful as I am for these two acceptances on his part, I do not think that the rejection of our 37 amendments justifies him in asking me to give my moral assent to the Bill.

"My Lord, I shall, with your Lordship's leave, refer to one or two observations which have been made by official members in the course of the discussion. I shall first say a word about the incursion of the Hon'ble Mr. Shafi. I confess I do not understand what on earth made him intervene in this debate. I thought he was the Education Member, concerned with the carrying out of educational policy, with certain sanitary matters and possibly also with ecclesiastical affairs, but of this last I am not sure. What he has got to do with the declaration of martial law and an Indemnity Bill, I cannot for the life of me understand. I suppose he was most anxious to support the Government. I believe some of us, when we cross the floor from this side to that, undergo some sudden changes in our views and sentiments, and I dare say that is what made him support the Government. He did so, however, by reading out section 101 of the Evidence Act and sundry old reports of Privy Council cases, and he tried to teach us the A. B. C. of the law of evidence. He said it was surprising that we, lawyers in this Council, did not even know what he called the A. B. C. of that law and he tried to explain it to us as best he could. I was gratified, however, that he did not go on to the D. E. F. and the X. Y. Z., as, otherwise, we might have been here all night. He laid down the proposition that what appears in clause 3 of the Indemnity Bill in regard to the rule of evidence and the burden of proof is a most elementary principle to

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Mr. Sachchidananda Sinha.]

be found in all the laws and the prophets. Now, if that be so, and the Hon'ble Member's argument be sound, what is the good of having that specifically provided for in this Indemnity Bill at all? If that is the Common Law, if that is the Statute Law, if that is the Privy Council ruling, I suppose any court would act up to it without there being a specific provision. As, however, the Hon'ble the Law Member has taken particular care to put in that provision here, I have a suspicion that it is not after all such a small thing, a mere A. B. C. as the Hon'ble Mr. Shafi was anxious to make out.

"My Lord, I shall, with your Lordship's leave, refer to one or two observations of the Hon'ble the Law Member. I most gratefully acknowledge that, during the debates in this Council, he has been exceptionally kind and encouraging to me, and he has never said a word about me of which I need make any grievance. My friend the Hon'ble Pandit Madan Mohan Malaviya thought that I had been rather severely handled by the Hon'ble the Law Member on the last occasion; but in a debate, as in love and war, I think all is fair, and I make no grievance of that. But he did make one or two observations, not in regard to me personally, but in regard to certain matters, which I think need a reply. May I say that it seemed to me rather an ungracious act on the part of the Hon'ble the Law Member to have made certain adverse comments, in the absence of the Hon'ble Raja Sir Rampal Singh, about his speech, the more so as the Hon'ble Raja Sir Rampal Singh had made that speech not on the motion about the Indemnity Bill, but on a previous occasion in regard to the constitution of the Punjab Inquiry Committee? However, I felt gratified at this reference and the gratification was due to the fact that I did want that some official member of this Council should protest against speeches supposed to be written by friends, because I have a shrewd suspicion that as often as not the speeches made by some non-official members in the Council supporting Government are written by friends. Therefore, I am grateful to the Hon'ble the Law Member for raising the point; and, in future, when a suspicion crosses his mind that some speech on the Government side by a non-official member may have been written for him by a 'friend,' I hope he will not forget to take that fact into consideration in assessing the value of the speech.

"Now, my Lord, I was also amused, as one who is a lawyer by profession, to see the lengths to which some of us, even members of your Excellency's Executive Council, are driven in a debate when harassed from pillar to post, as happened to the Hon'ble the Law Member yesterday. When the Hon'ble Pandit Malaviya quoted once or twice from an Act of St. Vincent, the Hon'ble the Law Member pooh-poohed it, as if to refer to an Act of St. Vincent was something like *lese majesté* to Sir William Vincent; but to-day he himself, in reply to the Hon'ble Pandit, referred to the same Act, which he repudiated yesterday as something insignificant and worthless. That is all, my Lord, which I have to say in regard to the observations of the Hon'ble the Law Member.

"I shall now say something, my Lord, about the Hon'ble the Home Member's observation. I think it is but fair to say that his speeches in this Council on this rather controversial measure have been, on the whole, very conciliatory, indeed; and so far as I am personally concerned, I have got no grievance to make against the wording or the spirit of them. But I take exception not to his manner but to his matter. I confess I was very agreeably surprised this morning to hear him quote, of all persons, the great Indian leader, Mr. Gandhi. This was in the same strain in which the Hon'ble the Law Member quoted Mrs. Besant and Mr. Horniman—I do not know if he quoted Mr. Tilak; perhaps he did not. Well, Mr. Gandhi is certainly a gentleman whose observations are entitled ordinarily to the very greatest respect. But the Hon'ble the Home Member tries to make much of Mr. Gandhi's observations as in this particular instance they suit his purpose. It is, I presume, from

THE INDEMNITY BILL.

[Mr. Sachchidananda Sinha.]

[25TH SEPTEMBER, 1919.]

Young India that he quoted this morning. Is he aware that in *Young India* Mr. Gandhi has been writing week in, week out, on the Punjab situation, taking up the case of each particular person convicted, and saying in terms absolutely unequivocal that there has been a great travesty of justice and that all these persons have been put to very great inconvenience and trouble by the arbitrary conduct of the officials? I only desire to say that I hope that these observations also of Mr. Gandhi will carry equal weight with the Hon'ble the Home Member when he comes to deal with the cases of these persons.

"Now, my Lord, there is one thing more I would like to say. In my opening speech on this Bill, I said that the Indian view was that, whereas Government were fully justified in resorting to effective measures for putting down the riot or disturbance or rebellion, call it what you like, the steps taken for that purpose went far beyond the requirements of the situation, and that in the name of putting down the disturbances and maintaining or restoring order, measures were carried out which were oppressive and tyrannical. This, I said, was the Indian view. I sedulously refused to go, my Lord, into the facts of the case, and I assured you that I had kept an open mind on the subject. But I find that my friend, Mr. Malaviya, on the one side, and Mr. Hailey and Mr. Thompson and General Hudson on the other, have put forward in this Council different versions of the facts. I am now in a better position to make up my mind as to the facts, after having heard both sides. I listened very carefully, my Lord, to the statements of fact of these gentlemen, both on the last occasion and to-day; and making every allowance for an inherent, unconscious bias in my own mind as an Indian, I have tried to place myself in a detached position, and I venture to say that leaving aside every statement of the Hon'ble Pandit and accepting as gospel truth the statements made by the official members in this Council,—Mr. Hailey, Mr. Thompson and General Hudson—there is, to my mind, a clear admission made by these gentlemen that things were done which, to use the mildest language, should not have been done. I shall not say one single word about the observations of Mr. Malaviya. I shall take it that they are incorrect and inaccurate. Let us, however, take the statements made here before your Lordship and this Council by Mr. Hailey, Mr. Thompson and General Hudson as the truth. I shall not traverse the ground in detail; but I shall take one or two instances and the explanations which the official members have offered to this Council. I hope every member of this Council will consider the matter apart from any ideas of race or nationality. Has Mr. Thompson's explanation satisfied the Council that the arrest of Mr. Manohar Lal, a Barrister-at-Law, late Minto Professor of Economics in Calcutta, a distinguished scholar, a favourite pupil of Professor Marshall of Cambridge, and his detention for, I believe, nearly a month, and then his being discharged without being brought to trial, was a right course to adopt? Mr Thompson said Mr. Manohar Lal was a trustee of the *Tribune*, and it was supposed that as a resident trustee in Lahore he had taken an active part in inspiring the writings in that paper. Well, now, I will ask 'Is it fair, is it right that because a man happens to be a resident trustee of a newspaper, assuming even that it is seditious, when once the editor has been brought to trial, the editor who alone was responsible before law, the trustee should be arrested and placed in detention for a month and then let go without any case being started against him?' I venture to submit, my Lord, any question of race or nationality apart, that that is not the way of treating a British subject. I am glad that Sir Michael O'Dwyer did not go beyond arresting the resident trustee and did not order the arrest of the readers of the paper as well, because in that case I might have been arrested too as one of them. I am glad that he drew the line at the resident trustee and did not extend his order to the readers of the paper. I say that just to show, my Lord, that the explanation offered by Mr. Thompson does not satisfy me at all and I have given my reasons therefor.

"I shall now take an instance from the statement of General Hudson. Fortunately in his case I am in a better position, because I find that the Civil

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Mr. Sachchidananda Sinha ; Lieutenant-General Sir Havelock Hudson.*]

and *Military Gazette* has published what it calls 'the full text' of his speech. From this full text, I shall take up one point, namely the unfortunate assault on Miss Sherwood and the orders passed in consequence thereof. General Sir Havelock Hudson admitted 'the issue by the officer in command at Amritsar of orders that any persons who wished to pass the scene of the assault on Miss Sherwood should be made to crawl on their hands and knees': as 'something was required to strike the imagination.' He continued 'It is easy to criticize the orders issued by the officer in command at Amritsar, but the circumstances were altogether exceptional and the punishment though humiliating was not such as to cause danger to life or physical hurt.' And he then added; 'No compulsion was brought to bear on any individual to submit to the order. The order remained in force for a period of five days. There is good reason for the belief that except for the party of prisoners already mentioned, those who were subject to the order came voluntarily to submit to it for the sake of notoriety or martyrdom.' That is the explanation that the Hon'ble General Hudson gave. The facts are not denied. The Hon'ble Pandit Malaviya, who among his many virtues does not unfortunately possess the saving grace of humour, complained to the Council in tones of bitter anguish that when that was said by General Hudson a titter of laughter went round the Council. I should think that but for the restraining influence exercised by your Lordship's presence the Council would have indulged in a loud guffaw. Who could, my Lord, accept with equanimity the statement that human beings preferred to crawl on their hands and knees to obtain 'notoriety or martyrdom'? This was ordered, General Hudson said, to strike the imagination

The Hon'ble Lieutenant-General Sir Havelock Hudson:—"I think the passage which was referred to as raising a loud guffaw was not that quoted by the Hon'ble Member. It was the one that the men went on their hands and knees that raised the titter."

The Hon'ble Mr. Sachchidananda Sinha:—"There was something about hands and knees."

The Hon'ble Lieutenant-General Sir Havelock Hudson:—"The person went three times on his hands and knees."

The Hon'ble Mr. Sachchidananda Sinha:—"My contention is that if this explanation did not evoke a loud guffaw, it should have done so. Now, my Lord, speaking seriously, I venture to ask the Council whether it is right to defend this action, whether His Majesty's Indian subjects should be made to crawl on their hands and knees because some other persons had been guilty of committing some nefarious deed. I ask whether such a thing should be sanctioned. Whatever the Hon'ble Pandit may have said, General Hudson said that that was done to strike the imagination! I do not know anything about striking the imagination, but what I do know and feel is, that those who were made to crawl on their hands and knees must have left the place with a bitter sense of rancour rankling in their hearts. If General Hudson meant that this may be called striking the imagination, all I can say is that when he joined the Army the imaginative literature of England lost a great deal.

"Thus there is no doubt, my Lord, that things have been done which should not have been done. My Lord, such being the case and the Government having withdrawn from the preamble the statement as to the necessity of the declaration of martial law, the question is whether the Bill should be passed. Nothing having happened since the introduction of the Bill to induce me to change my mind about it, I believe I am justified in voting against it. Your Lordship will remember that on the last occasion when I ventured to take up the time of the Council, I maintained that public opinion was insistent that the Bill should be either withdrawn or put off for some time. Now when I refer to public opinion, I am afraid of a recurrence

THE INDEMNITY BILL.

[*Mr. Sachchidananda Sinha ; Sir George Lowndes.*]

[25TH SEPTEMBER, 1919.]

of what happened then. The Hon'ble Mr. Macpherson, in the course of his manuscript eloquence, said that, I represented only a small section of the Bihar and Orissa public, while he himself represented a large one. But as I explained the other day, when I talked of Indian public opinion I referred to the classes who alone can at present speak out their minds. I shall not, however, refer on this occasion to Indian public opinion; if I did so I could show that Sir Sivaswami Iyer, who was a member of the Madras Executive Council, has been publishing articles in various papers strongly opposing the passage of the Bill at the present moment. I shall, with your Lordship's permission, quote some passages from an article in a well-known Anglo-Indian paper—the *Indian Daily News*. The article is from the pen of one who has himself been a high official, and has acted as Standing Counsel to the Government of India. The paper is owned and edited by Mr. Graham, and the article in question shows how this debate has struck the mind of an independent European in this country. This is what he says:—

'The debate now proceeding at Simla is a fair sample of the way India has been governed in the past. The Government adopt an attitude and defend that attitude to the last gasp. They accept nothing, listen to nothing and decline to budge. They do not listen to Mr. Crum or Mr. Sarma or the 'resuscitated' Pandit. They get the Associated Press to give a full account of Sir William Vincent's 'testy' speech as *Capital* calls it, which is in their opinion so convincing that it has only to be read to be accepted as Gospel. Of course it is not, for it is merely an angry gabble, but Simla sticks to its opinion and lives on.'

I omit the concluding words of the sentence for fear they may be considered unparliamentary. The writer then proceeds as follows:—

'The main fact that strikes one reading the debate now proceeding about the Indemnity Bill is that the bureaucracy and the Government of India are playing the same old game, namely, absolute inability to yield to suggestion, to accept compromise, and eagerness to play all the trumps, which they have dealt themselves. This is the spirit that invited the Reforms, this imperviousness to reason, this contempt for opposition and this extreme use of every controversial weapon they had helped themselves to in the past. This debate has once more shown the Government of India in its obdurate and obstinate condition and in its best form of stolid opposition.'

I do not say, my Lord, that I accept every word of it, but it shows how this debate strikes a European critic of the Government, a man who has occupied the high position of Standing Counsel in the Calcutta High Court. Therefore, my Lord, I venture to submit that we are not so unjustified, as some of the official members would like to make out, in asking your Lordship's Government to postpone this measure for the time being, at any rate till the Punjab Inquiry Committee submits its report. But as your Lordship's Government are unwilling to accede to our request, I feel justified in recording my vote against the Hon'ble Member's motion that the Bill be passed."

4-2 P.M.

The Hon'ble Sir George Lowndes:—"My Lord, if the only speech against the Bill to-day had been that of the Hon'ble Mr. Sinha, it would not have been necessary for me to trouble the Council for long. His speech was made in the lighter vein that I am afraid carries us a very little way. But we have had a long and powerful speech from his leader Pandit Malaviya. He gave us a bountiful display to-day, but we sitting in this Council Chamber cannot be swayed by beautiful words or impressive sentences.

"We are here as the responsible Government of a great country, and we have got to carry on that Government not with our hearts but with our heads. I will only say for myself,—it may be a rash thing to say,—that not one word of that extremely eloquent speech carried conviction to my mind. I said on the last occasion when I addressed this Council, that it was necessary for the Hon'ble Pandit as a preliminary to certain proceedings outside this Council to make a great display, and it may be that that is again the explanation of the necessity for it to-day. But I venture to suggest that nine-tenths of what my Hon'ble friend said had no bearing whatsoever on the question before this Council. Let me reiterate it again. It has been said, almost to weariness already, that what we are considering here is not whether acts which are

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Sir George Lowndes ; the President ; Pandit Madan Mohan Malaviya.]

alleged to have been unnecessary, which are alleged to be *mala fide*, are to be protected, but whether indemnity is to be granted in respect of acts which were *bona fide* and which are held to have been necessary. It is no good to get up and reel out a string of so-called facts which the speaker pretends are outside the principle of the Bill. If they are, we are not concerned with them. They will be judged in another place. What we are concerned with here is simply the case of a man who has acted *bona fide* as a servant of Government or under the orders of a servant of Government. If he has done what was necessary for the maintenance or restoration of order, is he to be indemnified? I venture to think that I did not exaggerate when I said that nine-tenths of the Hon'ble Pandit's speech had nothing whatever to do with that point. But here again, as on a previous occasion, I am glad to be able to follow the lead of my Hon'ble friend Mr. Sinha, and I need do no more than quote his words, which I hope, I have taken down accurately. 'I shall not say a word about Mr. Malaviya's statements.' I shall take them all as inaccurate.' Those are the words which Mr. Sinha used just before he sat down and they suit me down to the ground.

"But let me turn to one or two arguments in the remaining tenth of the speech which, I think, necessitate some answer. There were in the Hon'ble Pandit's speech, many, no doubt unconscious, perversions of fact. Let me refer to one of them at least. The Hon'ble Pandit said that the Bill seeks to validate all the acts that were done,—he put it in two parts—prior to the 15th April and subsequent to the time when the disturbances had ceased. But this Council has been told over and over again that we are not proposing to validate any of those acts. It was, if I may say so, a confusion which has run through the Hon'ble Pandit's mind from the very commencement of this debate, a confusion between validation and indemnity. I explained just now what the proposed indemnity is and how far it goes. Validation is something quite different. The English Acts which my Hon'ble friend has quoted, the South African Acts which he has quoted, validate all acts which were done under Martial law. We do not propose to do this. Validation in this Bill, let me repeat once more, is confined to the validation of the sentences of men who are now in jail and whom we, as a responsible Government, consider that we cannot in the public interest release. That is the utmost extent to which validation goes under this Act, and it is no good to try and pervert facts and put forward to the public that we are trying to validate every act which has been done under Martial law; to say so is a perversion of facts

(Here the Hon'ble Pandit got up to interrupt the Hon'ble the Law Member.)

The President:—"The Council has listened to the Hon'ble Member with unexampled patience. It is now his business to exercise that same patience towards the Hon'ble the Law Member."

The Hon'ble Pandit Madan Mohan Malaviya:—"May I explain a fact?"

The President:—"I think the Hon'ble Pandit has had 6½ hours of this Council's time and should now let the Hon'ble the Law Member have a little time of the Council."

The Hon'ble Sir George Lowndes:—"Let me explain another thing which seems not to have struck the minds of many lawyers in this Council. My Hon'ble friend Mr. Sinha suggested that he knew all about law and there was no necessity for my Hon'ble Colleague in this Council to lecture him,—I think that was the word he used,—on the law. I do not doubt that my Hon'ble friend knows all about it; though it is sometimes convenient to forget what one knows. Now let me remind him what is the position with regard to validation. We propose to indemnify only the officers of Government against the consequences of acts they have done, and not to validate the acts themselves.

THE INDEMNITY BILL.

[Sir George Lowndes ; the President.]

[25TH SEPTEMBER, 1919.]

We leave any remedy there may be against Government entirely open. If there is any complaint to be made in a civil action, any claim to damages open, let the man who complains sue Government, let him take his chance in the courts; we all know how the Government is sued,—in the name of the Secretary of State. Have we attempted by this Bill to preclude actions against the Secretary of State? Are not we responsible? Have not we from the very first as a Government taken responsibility for what we have thought to be necessary? Any act that has been done unjustly, contrary to orders, *mala fide*, unnecessarily, the man who did it must answer for; it was outside the scope of his agency. But for any act done under our orders Government must be responsible. We are the principal, he was merely our agent; such remedy as there may be, must be against the principal. There are many lawyers in this Council besides my Hon'ble friend Mr. Sinha, but I feel certain that even he must be well acquainted with the maxim, *Respondet superior*. Let Government answer; it is we who have ordered these things to be done. If they were reasonable, in accordance with the necessities of the case, we must be responsibly. We have not attempted by the Bill to preclude any possible action against Government. So far as validation goes, we are, as I said, validating nothing but existing sentences. One would also have thought that it might have been worth while for one or other of those who have spoken to-day to refer to the pledge that has been given that everybody who is now in jail merely for a breach of a martial law regulation and nothing more, will be released. That is, it appears to me, a concession which answers a great deal of the most eloquent portion of the Hon'ble Pandit's speech.

"But my Hon'ble friend began with one of the most astounding arguments I have ever heard in any law court or even in this Council. He is much in love with the preambles of Acts, and he quoted from the preambles of the English Acts about acts that were necessary, and recitals that the putting in force of martial law was necessary; and he said that this is the only foundation for an indemnity. It is only justified if you can assume that martial law has been necessary. My Hon'ble friend went on to point out somewhat disingenuously I thought, that we had, of course at his request, omitted the word 'necessary' from the preamble. Then came the astounding argument that because we had omitted the word 'necessary' from the preamble, therefore Government must give up the whole Bill. That is an argument which is solemnly addressed to a Council of some half a hundred reasonable men. Will it carry conviction to any man in this Council or outside it? I think the Hon'ble Pandit did not even refer to the reason why the recital of necessity which was in the English Act to which he referred was omitted here. Is it that he does not understand the reason for it, the reason why we have omitted the word 'necessary' from the preamble? Even the Hon'ble Mr. Sinha did not venture to suggest that Government does not believe martial law was necessary. I can only say that, speaking for myself as a responsible member of this Government, I have not the least doubt that it was necessary. But why did we leave out the recital of this at the request of the Hon'ble Pandit? Because it was said that there is a Commission coming out to examine that question and it would not be fair to prejudice it by putting this into the preamble . . .

(The Hon'ble Pandit Malaviya rose to make a remark.)

The President:—"Order, order, the Hon'ble Member must sit down."

The Hon'ble Sir George Lowndes:—"That is the reason why the reference to necessity was omitted from the preamble, and not because we have had the least doubt that it was necessary. In the case of the English Act of 1789, to which the Hon'ble Pandit referred, there was no commission coming, and the conclusion of reasonable men was that if

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Sir George Lounides.]

was necessary and therefore the recital of this appeared in the preamble of the Bill. But my Hon'ble friend's predilection, if I may so put it, for preambles was so great that he proceeded in the course of his argument to tell the Council that you do not find any recital of necessity in the South Africa Acts. I am glad that I am able to say that the Hon'ble Pandit in this respect is absolutely correct. The Council will perhaps be amused to know why it is correct,—it is because no South Africa Act ever has a preamble. But in dealing with the South Africa Acts it was much more convenient for the Hon'ble Pandit to quote from the operative part of the Act, which he proceeded to do, without saying that he was doing so. In this case he quotes from the operative part of the Act because it suits him. When he is dealing with the English Act of 1789, as I pointed out on the previous occasion, he quoted only from the preamble and not from the operative part, because the operative part of this 1789 Act validated all acts done, whether they were necessary or not. Apparently, the—what shall I say—the necessities of elocution produce this unfortunate result, that when it pays the Hon'ble Pandit to quote one particular part of an Act, he quotes it; when it does not pay to quote that, he quotes the other part. I protest that is not a scheme, either of argument or logic to which I have been brought up.

“Then my Hon'ble friend went on, with a magnanimity which I admire, to defend his absent friend,—I hope I did not err again in that expression—his absent friend Raja Sir Rampal Singh. No one regrets more than I do, and I said it on a previous occasion, that the Hon'ble Raja Sir Rampal Singh has not been able to stay for this debate. But I am afraid I cannot recognise the fact that an Hon'ble Member is not able to stay for the whole of the Council proceedings as disentitling me to reply to arguments he has used. The Hon'ble Pandit tells us that he has taken the trouble to send Raja Sir Rampal Singh a telegram asking him whether he had written that speech (of course it was a written one, we know that) and Raja Sir Rampal Singh has unblushingly admitted that he had. I accept the statement; I have no doubt that it is true, and I do not doubt that his was the hand that wrote it, but I am still inclined to think that though the hand was the hand of Esau, the voice was the voice of Jacob. But let me give that point up. But what does the Hon'ble Pandit's contradiction mean? It was not a statement of fact on my part. The Council will no doubt remember that all I said was that I thought the most charitable interpretation of Raja Sir Rampal Singh's speech was that it had been written for him by a friend. I always like to be charitable, but the Hon'ble Pandit now has told me that there is no room for charity and I must now take what the Hon'ble Raja said in all its baldness as a statement of fact by a gentleman from Oudh (who is not here to tell us anything more about it) as to the condition of the Punjab at a particular time. The Hon'ble Pandit went on to suggest that I was quite unjustified in referring to Mr. Chanda having come from Assam. Well I doubt if there was anything particularly unparliamentary in that reference, but the argument was a very simple one, and I will repeat it for the Hon'ble Pandit's benefit. I was not arguing that the Punjab wanted this Bill; that has been sufficiently explained by one of my Hon'ble friends opposite. All I was dealing with was the question ‘was there or was there not at the time we put martial law into force a state of affairs in the Punjab that the ordinary civil arm could not cope with?’ And I said that it was a remarkable fact that, with all these members here from the Punjab, men of weight, men of standing, men of honour, men of truth, that there was not one who could get up in this Council and say the situation was not one of that sort, and that it was only Hon'ble Members from Assam, from Oudh, and from Madras, who made that statement? We have plenty of members in this Council who come from the Province where those things were taking place and who knew—it was not the case of having an opinion—who knew for certain whether it was necessary to put martial law in force for the restoration of order or not, and I would still ask the Council to judge whether that is not an argument of some weight.

THE INDEMNITY BILL.

[Sir George Lowndes.]

[25TH SEPTEMBER, 1919.]

You have them all here; do you believe they are untruthful, do you believe that they do not know what was going on in the Punjab? And yet I say there is not one who knows the facts who states that there was not a situation such as the civil arm could not deal with. And I repeat, it wanted a gentleman from Madras, a gentleman from Assam to say it—perhaps I must not say again the Special Commissioners from the United Provinces because that appeared to arouse some indignation on the part of my Hon'ble friend the Pandit. I really thought he was a self-constituted commissioner at that time, but he has told us he was a constituted commissioner by some body (I do not mean some person, but some body) of which he gave the name though I was unable to catch it. I am quite willing to assume that he was appointed a special commissioner by some body to inquire into the facts in the Punjab. But there again it does not affect the argument. The argument is that the Punjab people who know do not say this; the only people who say there was no rebellion there are people from outside who have only second-hand information. I apologise sincerely to the Hon'ble Pandit if I have over-stepped the bounds of courtesy by referring to him as a special commissioner for this purpose, and I am the more anxious to make the apology in that I understand from what he has told us to-day that a considerable portion of his duties was merely sanitary! The Hon'ble Pandit also referred to my having mentioned Mr. Sinha in this connection. There, I think, he is mistaken. I think he is confusing his two allies in this Council, Mr. Sinha and the Hon'ble Mr. Ayyangar. I do not doubt that he will offer suitable apologies afterwards. But I did not refer to Mr. Sinha in this connection. My Hon'ble friend Mr. Sinha had made no statement whatever on the subject of the situation in the Punjab; he very carefully abstained from doing this, and if I may say so, wisely. And here again, the larger part of the Hon'ble Pandit's speech on this point was a mere perversion of my argument. I was not dealing with the question whether this Bill was necessary. I was dealing solely with the constitutional question whether, when martial law was proclaimed, a situation had arisen which necessitated its use, nothing else.

“With regard to the second portion of my Hon'ble friend's argument which dealt with certain questions of law, we know that under my Hon'ble friend's auspices a number of cases have gone to the ultimate court of appeal of the Empire, the Privy Council, and are lying there for decision. I do not propose to answer my Hon'ble friend on these legal points. I will only say let them be urged in the Privy Council. As no doubt they will be; and let their Lordship's attribute what weight to them they deserve. I am content at all events that they should judge upon them between him and me.

“The real point which the Council have got to consider,—I venture to reiterate it once more, but for the last time I hope—is ‘Do Hon'ble Members regard it as the first duty of Government to enforce law and order in this country and to protect the lives and property of its citizens?’ If they do recognise that that is the duty of Government, if Hon'ble Members wish that their lives and their property should be protected, and wish Government in cases of emergency to employ the ultimate force of the Army for that purpose, then they must, at the first possible opportunity, indemnify those who in carrying out the orders of Government have acted *bona fide* and in the belief that what they have done was reasonably necessary for the purpose. If Hon'ble Members think that it is not the duty of Government to protect their lives and property, if they do not wish that done, then let them refuse an Indemnity Act. But if they do that, they cannot expect protection when these great emergencies, these great crises, arise.

“Some reference was made by the Hon'ble Pandit to martial law in Bombay. Have Hon'ble Members forgotten the ghastly fate that overtook an Indian in connection with those disturbances? Have they forgotten how the mob seized one of their own community, a *mamlatadar*, soaked him in kerosine, set fire to him and burnt him alive? That is a fate which overtook,

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Sir George Lowndes ; Rao Bahadur B. N. Sarma.*]

not a European bank manager, not a European lady missionary, but one of their own community. If they do not wish their lives and their property protected by Government, I venture to suggest that that is a fate that may overtake any one of them on the next occasion.

"Then the Hon'ble Pandit referred to the legal position of soldiers under martial law and he read us out quotations from law works on the point which, I am afraid, did not appeal to me very much, because the answer is so obvious: It is because soldiers may find themselves in this extraordinary position, of having on the one hand to fulfil the orders of their Commanding Officers on pain of being tried by court martial, and on the other of being tried by the civil courts, it may be for murder, if they do,—it is because of this extraordinary position in which the soldier may find himself, that it is necessary to indemnify them. That is the reason and the object to a great extent of indemnifying them against actions, indemnifying them against suits and against criminal prosecutions. It is perfectly immaterial for the Hon'ble Pandit to read out long citations about the legal position of soldiers. I hardly cared to listen to them,—the answer is so clear. It is because of that position that it is necessary to pass an Indemnity Act and has been so held in the other cases where martial law has been enforced throughout the Empire.

"There is much more to which I should have liked to reply in many passages of the Hon'ble Pandit's speech; but we are now on the second day of this debate nearly at eventide, and, I think, it would be kinder if I left the rest unanswered. I do not want the Council to think that it is because there is no answer to the points that have been made by him, but only because it seems to me at this hour not to be worth attempting."

The Hon'ble Rao Bahadur B. N. Sarma:—"My Lord, we have listened with rapt attention to the powerful speeches which have been delivered by the Law Member in defence of the policy of the Government. All the points that have been raised have been threshed out for two days, and I do not propose to go into the facts at any length in order to justify the vote that I have to record on this motion. All that I ask is, that the Government Members should not be uncharitable in interpreting the attitude that some of us have had to take and have still to take with regard to this Bill on the facts which have been so far placed before us in this Council. I allude to that for the simple reason that, during the course of the debate, more than one reference has been made to the opposition of a few individuals in this Council to the introduction of this Bill and, later on, to their attempting to whittle down the measure, when they did not succeed in effecting their original object. 4-27 P.M.

"My Lord, if there was opposition to the introduction of the Bill, there were ample grounds therefor; it is not necessary to repeat them. What we were entitled to do after the Bill was introduced was to make it, if possible, one which would be acceptable both to the Government as well as to the people. The primary object, we were told, of this Bill was to protect, not the Government, not the higher officials who initiated the policy, but the officers who executed, who carried out, the objects of the policy which was enunciated by the Government. I agree that the object is one to which no general exception can be taken. I said that these officers should not be allowed to be sued during the interval which may elapse before the Legislative Council is in a position to make up its mind as to the exact form the Bill should assume. Therefore it was that, both at the introductory stage, as well as when the Bill was brought up for consideration, I suggested the enactment of a provision that no suit should be entertained until the inquiry was over and a reasonable time elapsed, when the Government and the public would be in a position to sift the facts for themselves and arrive at fairly accurate conclusions. I felt, my Lord, that the object of the Government would be achieved without at the same time offending the susceptibilities, the reasonable susceptibilities of the people, and

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma.*]

[25TH SEPTEMBER, 1919.]

I made the suggestion in the hope that we should re-establish the Government in the confidence of the people.

“My Lord, the law need not be stated over again. In the absence of an Indemnity Bill it is acknowledged on all hands that the officers who may be put on their trial would have to show that there was a necessity for the particular measures that they took. Judicial Courts would be the proper tribunals to dispose of that question and also of the question as to whether martial law was necessary. That is a question of fact. But in all civilised countries these martial law proceedings have been followed by Indemnity Acts making it unnecessary for judicial tribunals to consider the question as to whether martial law was necessary. Therefore, when we render it unnecessary for the judicial tribunal to go and ascertain as a question of fact whether martial law was necessary, it is necessary that we as the Legislative Council should come to some rational conclusion on that subject. It is all the more necessary in a Council of this description, where the Legislative Council is virtually the Executive Government. That is the reason why, my Lord, we, as the representatives of the people, thought it was our bounden duty to defend the rights of the people to the utmost in so far as it was compatible with securing the necessary objects the Government had in view, namely, the protection of its officers before the facts were thoroughly sifted. My Lord, that course was not allowed to us. Then, accepting the position that we should have to protect the officers and the soldiers, the question that we had to consider was as to whether on the facts that were placed by the Hon'ble Pandit Madan Mohan Malaviya before the Council and controverted to a certain extent by the official members, on those facts as I say accepted for the time being as correct, was there any alternative for the Members of Council but to ask the Government to stay their hands and not to afford protection to all and sundry alike ?

“The Hon'ble the Law Member says we do not want it, we only raise the presumption in all these cases but leave it open to the persons aggrieved to show that the presumption is unreasonable. My Lord, I venture to say that no such presumption should be raised especially in the case of certain acts which have been the subject of discussion in this Council. If people grumble and are dissatisfied that undue presumptions have been made in favour of such actions, I do not think we can say that such grumbling or dissatisfaction is unreasonable. We felt it would be wrong to do so and that, my Lord, was the reason why we prayed, we begged, we implored that all actions prior to the proclamation of martial law should be excluded from the purview of this Bill.

“The Government wish to cover every act that cannot be justified in this Council to the satisfaction of some of us by raising this presumption. Therein lies the difficulty of some of us seeing eye to eye with the Government. The Government cannot believe that our object was merely to whittle down the measure so as to make the protection nominal, illusory and absolutely meaningless. Allusion has been made more than once to the circumstance (and the elucidation of the facts here is a sufficient answer) that people from other provinces should come forward and build up theories and enunciate principles, and advance facts which they can only know second-hand. Whatever justification there may have been for the charge before this debate, I venture to say that everyone, whether he comes from the Punjab or from outside, is now in a position to express his opinion. We now know what took place in the Punjab if we did not know before. I venture to reiterate what I said before, that members from outside the province of the Punjab should have been grossly remiss in the discharge of their duties if they had only looked upon this as a Punjab problem. It is rightly regarded as an all-India problem. It is true that we here who represent the people are at the present moment in a hopeless minority. Of the 13 non-official members elected by Provincial Legislative Councils we have only 4 ; of those who are elected by

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Rao Bahadur B. N. Sarma.]

communal bodies there are 7, of those nominated only 2, of whom one was nominated by the Punjab Government after the disturbances. It is true that public opinion outside the Council Chamber is not adequately represented here and has never been. My Lord, there is one significant argument that has been used by the Law Member now and on a previous occasion by the Home Member, that some of the matters dealt with by the Hon'ble Pandit Malaviya would afford a good electioneering cry, but that they were hardly relevant to the subject under discussion. The significance of the admission is this, that any member who does not defend the position as we defend it would have no chance with any constituency, and therefore that in advancing the arguments which have been used, we are really voicing public opinion. The Government seems to be therefore aware that what has been stated by us represents faithfully sentiments which rightly or wrongly are cherished by the people throughout the country. My Lord, there were certain passages-at-arms between the Hon'ble Pandit and the Hon'ble Mr. Thompson and the Hon'ble the Law Member. We have listened with some pain to the debate on these points. We have tried our level best to base our judgment on the material facts practically admitted by both sides. Nothing has been said either now or before this which really controverts the facts as stated by the Pandit. On relevant questions there has been no substantial contradiction. There may have been some trivial incidents, some matters not of essential importance which may have been inaccurate. Such being the state of things we have tried, we have asked the Government to stay their hand in protecting all their officers until the public inquiry sets the matter at rest. The main line of the argument of the Hon'ble the Home Member, as well as the Law Member, was: 'Do you want the Government to uphold order or not; if you want the soldiers to protect your life and property, then you cannot expect them to do so unless you protect them.' We do not quarrel with the premises. The Hon'ble the Home Member particularly appealed to the aristocracy. But even the professional classes have a stake in the country, and I do not therefore think that that was a very happy appeal, made as it was to a particular section of this legislative assembly. Everyone here has a stake in the country and is expected to look at the problem in a proper perspective and in just proportions. We know we should do nothing to weaken the hands of the Government especially in a country like India; but what we want is justice to all alike; we do not want any officer to be harassed by vexatious and unnecessary actions; but, my Lord, at the same time the golden mean has to be observed; where certain facts have been divulged which necessitate an inquiry, all I say is the protecting cloak should not be cast on all alike equally. It is because vital constitutional principles are at stake that we have taken so much trouble to weary the Government and the Legislative Council. We feel that this Council should not pass a final Act of Indemnity unless it is satisfied that there was necessity for martial law in the Punjab. We think that this Legislative Council should not lend weight of its authority to the proposition that the executive Government, whenever they feel that the civil arm is unable to cope with an emergency, should call in the aid of the military and allow them to do what they like. We do not want an extension of the martial law doctrine to cases which occurred in peace and before the proclamations thereof. We do not want to accept here as a body the doctrine that martial law can be enforced or can be kept in force one minute longer, for the suppression of rebellion, whether armed or unarmed, the moment the rebellion is suppressed. Martial law cannot and ought not to be used for the mere purpose of maintaining order in the community. No Government is worth the name of Government if it cannot maintain order, by the civil power, once violent dis-

THE INDEMNITY BILL.

[*Rao Bahadur B. N. Sarma ; Sir William Vincent ; Mr. K. V. Rangaswamy Ayyangar.*]

[25TH SEPTEMBER, 1919.]

turbances are suppressed ; and it would be a dangerous doctrine to uphold that we may indemnify all the acts of Government the moment the Governor of a province says that he cannot maintain order, not merely without the aid of the military, but without the enforcement of martial law. That question, my Lord, is one of essential importance as to how long martial law can be kept in force, and here we have grave reasons for thinking that although the Government of India might have been justified, on the representations made by the Punjab Government—and when it was not in a position to ascertain the accurate position—and I am sorry that the Chief Justice has dragged himself in here, although it may be that the Government of India might have been justified in issuing its preliminary orders, there was no justification for keeping it in force for three months, and more, and most of the trials held in that period should not be upheld and ratified by this Council. We are thankful to the Hon'ble the Home Member for conceding to us that all those found guilty of infractions merely of Martial Law Ordinances would be released, provided they do not at the same time come under some provision of the Penal Code, special or local law . . .

The Hon'ble Sir William Vincent :—“ My Lord, the Hon'ble Member said Martial Law Ordinances. I think he means Martial Law Regulations.”

The Hon'ble Rao Bahadur B. N. Sarma :—“ I beg your pardon, I meant Martial Law Regulations. We are thankful for that concession, and it is a real concession and the other one is that the cases of those who have not appealed to the Privy Council would also be governed by the principles and grounds of the Privy Council decision. It cannot but be acknowledged that that to a certain extent obviates some of the objections we had to the passing of the Bill. But, to my mind, the constitutional principles that are at stake, especially in a country like India, are of such vital importance that we as a legislative body would not be justified in passing a Bill of this description finally, pending the inquiry into the necessity for the enforcement of martial law its duration, the measures adopted and as to the acts of individual officers who *prima facie* on the evidence before us here must be presumed to be guilty until the contrary is shown.”

The Hon'ble Mr. K. V. Rangaswamy Ayyangar :—“ My Lord, if the views of people like us, residents of even distant parts, though we may be, should be agreeable to Government, then these will be said as emanating from people with a stake in the land and all that. But now as they are not quite agreeable the Hon'ble Raja Sir Rampal Singh is said to come from a distant talukdari village in Oudh in the United Provinces, and I come from the distant religious regions of Madras, far away from the Punjab, the scene of tragic action. The presentation of the case by the official apologists, my Lord, only goes to confirm the popular view that a very grave crime has been committed in the Punjab. If for the reasons put forth by the Official Members we are asked to give our assent to indemnify the officers, then we have to say we are sorry, we cannot give our consent.

“ Our friend the gallant member, Hon'ble Lieutenant General Sir Havelock Hudson, said the other day in defending the Jallianwala Bagh incident.

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Mr. K. V. Ranganamby Ayyangar.*]

" On reaching the Bagh his force was confronted by a vast assembly some thousands strong, who were being harangued by a man who was standing on a raised platform. It was clearly the duty of the Officer in Command to disperse this unlawful assembly. Realising the danger to his small force unless he took immediate action and being well aware of the inadequacy of the measures taken to restore order on the 10th of April, he ordered fire to be opened. The crowd was dispersed and the force was withdrawn. I cannot do better than commend the views which have been so beautifully expressed by the 'Leader.' It questions :—

' How simple and innocent do these words sound? But a world of tragedy lies hidden behind them. Did the officer in command ask the crowd to disperse? Did he inform the meeting that it was an unlawful assembly? Did he inquire what the meeting was about? Did he notice that any one carried any arms? Did the meeting show an attitude of defiance or hostility? Did any section of it advance in a menacing manner against his force? Did he ascertain whether any seditious speech was being delivered to incite the people to revolt? These questions must be answered in the negative, for if the General could have urged any one of them in the affirmative he would not have failed to do so in defence. The officer realised the danger to his small force. Was he under the influence of a hallucination, or of some strong passion which clouded his reason and distorted his judgment? He ordered his men to open fire. How many volleys were fired? One, two, three or more? He is silent. He gives no information. Were they fired in quick succession or at intervals to see what effect they produced? No information. Was the firing continued even after the crowd had begun to fly wildly? Was the avenue of escape left for such a huge crowd? The dark deed was done, and the force was withdrawn. What became of the dead and wounded? That was no concern of the General. Were the dead and wounded counted? Was any ambulance provided? It was after four months that the Government took into its head to inquire how many were killed.'

" Then with regard to the crawling incident in Amritsar, Lieutenant-General Hudson tells us that men crawled voluntarily!! Does he expect any one to believe this? This is not so. People were forced by soldiers to crawl. It is certainly an act of intentional degradation. Then comes the question of bombing in Gujranwala. This has no justification. Bombing continued for two days over an area of several miles. This has been compared to bombing in war time! In war there are aircraft guns which fire against aeroplanes, and therefore aeroplanes have to fly high. In Gujranwala aeroplanes could fly very low and could aim. Yet they hit all sorts of distant objects, including a college hostel.

" I come from distant Madras and I am minimising the situation. There are so many respectable people in the Punjab and its neighbouring places who would bear testimony to the cruel actions committed in the Punjab. It is too late for me to read what so many have to say, and I will read only one portion of the account given by Mr. Alfred Nundy :—

' By 8-30 P.M. on April 10th, that is within an hour of the so-called riot all were quiet in Lahore, and no further disturbances occurred after that. It was on Tuesday, the 15th April, that martial law was proclaimed in the whole of Lahore district, and it is therefore necessary to record if anything took place between the evening of the 10th April and the 15th April to warrant the resort to such an extreme measure. An official Communiqué mentions an incident on the 12th, when it is alleged brickbats were thrown at the troops marching through the city. But no mention of this is made either by the 'Civil and Military Gazette' or the Associated Press correspondent. Anyhow, considering quiet was restored on the evening of the 10th April, and there was no disturbance after that, was there any justification, apart from the desire to terrorise the people, to pass through the crowded and narrow lanes of the city, especially as all the vantage grounds were occupied by the military? Was it meant that women or children who threw the brickbats and what was the age or sex of those killed or wounded? No information is vouchsafed on these points, and has it struck the Government that it was thus laying itself open to the imputation that it was callous or indifferent to the

THE INDEMNITY BILL.

[*Mr. K. T. Rangaswamy Ayyangar.*]

[25TH SEPTEMBER, 1919.]

feelings of the people? But surely the throwing of a few brickbats in the city could not have endangered the safety of Government or of the people, or of their property so as to justify the introduction of martial law. Thus we come to see what the open rebellion was.'

"Perhaps this is the reason why open rebellion is left out in the preamble of the Bill and the word 'disorders' is substituted.

'Again Mr. Nundy says :—'The Punjab Government Proclamation dated April 26th stated that martial law was declared only where heinous crimes, murder or arson had been committed. What were the heinous crimes committed by the people of Lahore between the 10th and 14th of April? None has been published. But Sir M. O'Dwyer wanted martial law, not because of any open rebellion, but because he was very keen about paying off old scores and teaching a lesson to men who had been a thorn in his side, who were guilty of the grave crime of political agitation, which he thinks should have no place in the Punjab, if not in the whole of India. The ordinary courts were slow and unsatisfactory, but martial law courts with their summary procedure were just adapted to deal with such miscreants, and they did it all with a vengeance. And yet Englishmen profess to be shocked when an old man indignantly tells them they are not quite as civilized as they imagine themselves to be. Why was the mob at Lahore going from the city to the Civil Lines? The official Communiqués ignore this matter. This is a very important matter which should be gone into by the Committee of Inquiry. Then Mr. Lloyd George said in the course of a speech that his heart thrilled with pride on hearing the greatest Labour Orator of Europe state at the recent Labour Conference: 'There are two methods of dealing with the labour situation, one is the Russian method, and the other the English method.' Will his heart thrill again with pride on reading the exploits of Sir M. O'Dwyer, the latest exponent of the English method in India?'

"Let me say what Mr. Norton, an impartial Englishman opines about martial law trials :

'The authorities are making it difficult for the Indian to retain his faith in the wisdom of his rulers of the sanity of their programme. Journalists and lawyers primarily unconnected with an act of violence during the riots have been relegated to trial to what is practically a drumhead court-martial and there refused the privilege of being defended by counsel of their own choice Though martial law had been proclaimed at Lahore the Civil Tribunals were still left open and no legitimate argument has been or in my view can be raised in defence of a policy which tore batches of men away from the protection of the established courts of the country and handed them over to the mercy of the tribunal from whose summary methods there was no right of appeal. He asks why citizens of education and position physically unconnected with the riots in the north have been snatched from the court of municipal law, and subjected to summary courts of procedure; why the ordinary safeguards have been denied them; why such counsel were forbidden to take notes of evidence; why the accused has been deprived of the usual protective accompaniment of an appeal; why they were not permitted to be represented by the counsel of their own choice; why a barrier was erected in favour of the professional men residing at Lahore; why those who have been convicted have been subjected to sentences which are brutal exhibitions of superior force unredeemed by one tinge of judicial balance. The punishment adjudged is indicative of the mental frame and intellectual attitude of the judges to whom those unfortunates were confided.'

"Even the ancestors of the present bureaucracy in India, as was pointed out by my friend and colleague the Hon'ble Mr. Tej Bahadur Sapru, by a Statute of Henry IV had fully recognised the right of freedom of choice by the accused and of the persons by whom he wished to be represented legally. Yet in the 20th century we hear of the accused being denied the choice of their own counsel; while the sentences, as observed by Mr. Norton, 'are such as those which mark the ferocity of the Huns, and which no English judge would dare to emulate even against the Germans in England.'

"Serious allegations have been made against individual officials of callous excesses, such as gratuitous acts of insolent provocation, indiscriminate firing

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Mr. K. V. Rangaswamy Ayyangar ; Sir William Vincent.*]

of men, against whom no case of rioting has yet been made out. So long as these charges are not disposed of by a competent and impartial Commission of Inquiry, any attempt to exculpate the alleged offenders will be regarded by impartial observers and the aggrieved Indian public alike as an act of flagrant injustice, undertaken and executed in contemptuous defiance of public sentiment. It will violently outrage the feelings of hundreds of bereaved families to alleviate whose sufferings and to soothe whose afflictions no attempt of any sort has yet been made by the Government.

"No one denies that in cases of civil wars and rebellions the duty of no one is more onerous than that of public servants, and if they are led by conscientious considerations of high morality, law and order, to commit excesses of law, it is the duty of the Crown to protect them. But if misguided, misinformed and possibly prejudiced public servants get themselves excited, or wilfully and wantonly exaggerate the dangers of the situation and thus plead plausible justification for using the powers of a giant, it is equally the duty of the Crown to protect its subjects against such flagrant abuse of the authority with which such servants are invested.

"It is one thing, however, to exonerate officers. It is quite a more serious thing to deny innocent sufferers the ordinary remedy that the law of the land provides. It is not easy to see what good purpose the Bill will serve beyond emphasising the already existing suspicions of the public that the authorities have become conscious of the guilt of their agents, and they are compelled to rush to their rescue, as accessories after the fact.

"The Bill before the Council is taken as giving the crowning touch to the many acts that have been done to defy public opinion in the country during the last few years. The Government knows the feelings of the country fully well about this Bill, and I need not enlighten them any more.

"I cannot but close my speech without repeating what Lord Morley wrote : 'Your mention of martial law in your last private letter really makes my flesh creep, but martial law is only a fine name for suspension of all laws, and would not snuff out murderous clubs in India any more than the same sort of thing in Italy, Russia and Ireland.' And he added, 'it would be neither more nor less than a gigantic advertisement of national failure.' Quite true, it is a gigantic national failure now. Evidently there seems to have been, since then, a change of principle in those responsible for the administration of the country."

The Hon'ble Sir William Vincent:—"My Lord, before I address myself to the main motion, I should like to reply to two remarks of Mr. Sinha. I regret that he is not here, but it is not my fault that he is absent. The Hon'ble Member began by complimenting me, perhaps undeservedly, on the moderate tone I had adopted throughout the debate. He went on immediately afterwards, however, to cite with approval, with gusto, if I may say so, an extract from some paper, which condemned in no measured terms, the whole of the substance and language of my speech. This does not seem to me reasonable.

"I am content, however, to leave the matter to the decision of Council. I do not think that any Member here can say that I have been intemperate in my language in this debate.

"The Hon'ble Mr. Sinha then went on to suggest that, as I had quoted Mr. Gandhi in regard to the Indemnity Bill, I should remember also that Mr. Gandhi had repeatedly found fault with the convictions and sentences of various persons. My Lord, we are having these cases examined, but may I point out to the Council that, although Mr. Gandhi condemned these convictions, in spite of his feelings on that point, he has still supported this Bill? That is a fact which many Members of this Council might do well to remember. I did not quote him as an authority for whom I myself had any very great respect, but the Hon'ble Pandit Madan Mohan Malaviya having cited him frequently in this Council, as a man of the greatest weight and one

THE INDEMNITY BILL.

[Sir William Vincent.]

[25TH SEPTEMBER, 1919.]

almost inspired, I hoped that I might use the name of Mr. Gandhi in appealing to him and to other Members of this Council to support the Bill.

“Turning to other speakers, my Lord, may I say that in my opinion the whole debate on this motion to pass the Bill has resolved itself into an occasion for a discussion of totally irrelevant matters? All kinds of details have been brought up which really are not before the Council at this stage at all. Many Members have indeed taken the opportunity of the motion to answer criticisms that have been made of their speeches on previous occasions, and a part of the day at least was spent in recriminations. Statements of fact made on one side were almost inevitably answered by others, and the result has been, however, that the Council has been invited indirectly by some Members, like the Hon'ble Mr. Malaviya, and almost directly by others, such as the Hon'ble Mr. Thompson, to come to definite conclusions on inadequate information and *ex parte* statements, as to particular incidents during these risings. You have one member saying one thing; another saying something quite different; on many occasions neither of them speaking from first-hand knowledge; and on their statements this Council is asked to condemn or justify the conduct of individual officers. I use the word ‘condemn’ deliberately—I took down one statement used by the Hon'ble Mr. Madan Mohan Malaviya when he said that a particular officer was guilty of criminal dereliction of duty—I put it emphatically to the Council that such a statement is neither fair nor reasonable. These are matters for the Committee. I will take one incident which has been repeatedly referred to, this unfortunate Jallianwala Bagh affair. My Lord, no one deplores the loss of life on that day more than the Government. It has been, and must be to all of us, a source of great distress, and it does not really make so very much difference from this point of view whether the number killed was 300 or 500. In either case the loss of life is serious enough in all conscience and greatly to be regretted. But we have no right in this Council either to justify or condemn that action. It is not part of our duty; it does not come within the scope of the Bill. General Hudson has, it is true, put before the Council certain considerations relating to this occurrence, but as I understood him—he was merely attempting to put the matter as it might have appeared to a military officer at the time and was not in any way putting his personal views before the Council. That is the way I understood his remarks. I mention this because his statements have been made the ground for attacks on him; and it was suggested he sought to justify what was done. I do not think that the Council, when they have considered the position, will for one moment accept that as a fair presentment of his intention. What I ask the Council to do now is, not to prejudge this matter in any way, neither to condemn nor to justify any action, neither to say a man is innocent nor to say he is guilty until the proper time for such a decision shall arrive. Does this question come within the scope of this debate? Is there anything in the Bill that justifies a man or condemns a man? I maintain there is nothing. All that the Bill enunciates is a principle. It does not say that a man is justified or blameworthy for his conduct on any particular occasion. It leaves that to the Court to decide from a legal point of view. In so far as administrative action is concerned, that is also a question outside the Bill altogether, which can be decided, as I have repeatedly explained to this Council, only after the Report of the Committee is received. What could be fairer? The question whether an officer acted *bona fide* or not is left to be decided from the legal point of view by the Courts save for this provision, that there is a presumption that he has acted *bona fide* and reasonably. Let me take the case again of Jallianwala Bagh. What is the position? If the action of any particular officer is found to be unjustifiable, if all the allegations made to-day are true, what will be the result? It will be a matter for the Court, either the Court will find it justifiable and reasonable or unjustifiable and unreasonable, in which latter case the normal legal results will follow. Similarly, so far as administrative action is concerned, if the action was unjustifiable, then undoubtedly the Committee will condemn it. But is it fair to any officer to condemn him behind his back,

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Sir William Vincent.]

unheard and without his having an opportunity of making a statement and offering his explanation? Is it fair to him to come here and make statements which affect his character, his honour, his sense of justice, and his sense of humanity?

“My Lord, the Hon'ble Pandit Madan Mohan Malaviya made an admittedly powerful speech; many parts of it were very powerful, but I submit that it was, as I have tried to point out to the Council, both irrelevant to the motion before us now and unjust to many who are not here. The Hon'ble Member in the course of the debate made more than one reference to the Almighty and to his conscience. I wish, my Lord, that it would induce him to be fair to others. I regard the whole of his speech, however, as a desperate attempt by creating prejudice to recover a position that was really lost. The whole principle of this Bill had been accepted by the Council on the understanding, as I say, that the question of *bona fides* or *mala fides* was to be decided by the Courts. When that principle has been accepted, the Hon'ble Member again attempts to prejudice the minds of the whole Council by citing specific incidents, the merits of which are really not before this Council at all.

“My Lord, the Bill has however been attacked as premature for more weighty reasons than these. It was said—at least if I understood the argument correctly—it was said ‘you should pass no Indemnifying Bill because the Legislature has had no opportunity of satisfying itself as to the actions taken.’ The answer to this argument seems to be very simple. We are not dealing with individual actions or specific actions at all. We are dealing with principles, that is, the principles upon which a man in such circumstances ought to be indemnified. If Council will not give a Government officer even this qualified indemnity, then he is liable in the courts for any action which is not legal or justifiable by the strict law though it may have been proper and necessary. Such an argument, namely, that you should not pass an Act of Indemnity until you are satisfied as to the character of the act indemnified, would be of some weight and more could be said in favour of it, if we were here granting complete indemnity and completely validating all that has been done. My Lord, that is exactly what we are not doing, and the reason we are not doing more is because we do not think it would be right to ask for more complete indemnification at present. If Council will look at the older Acts, either the English Acts or the Indian Act of 1860, they will see that these Acts give complete indemnity to everybody for any acts done in suppressing disorders irrespective of any question of *bona fides*. The indemnity we propose to give is however definitely qualified, for reasons I have given, namely, because we cannot with the Committee coming on ask Council to pass a more comprehensive Act. By taking our present course, we leave it to the Courts to decide whether a particular action was *mala fide* or wrong from the legal point of view; and from the administrative point of view, we await the report of the Committee of Inquiry. My Lord, it is said that the words ‘reasonable belief’ mean nothing, to my mind the meaning is perfectly simple. The only legal definition of the term, I know, is in the Indian Penal Code, where reasonable belief is defined as belief for which there is sufficient cause. I will read the exact words ‘A man is said to have reasonable belief if he has sufficient cause to believe it, but not otherwise.’

“Another objection taken to the passing of the Act now is, that the preamble has been altered since the Bill was introduced. This point has been dealt with so ably by my Hon'ble Colleague, that I really do not think I need dilate on it at any length. But I should like to put one aspect of it to the Council. First, we were told that by retaining the original words in the preamble we were making this Council admit that martial law was necessary. Well, we said ‘All right; we will alter the preamble; we do not want to

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[*Sir William Vincent ; Pandit Madan Mohan Malaviya.*]

commit you to any such admission'; and we modified that portion of the preamble to which objection was taken. The next day two new objections are put forward, the first by the Hon'ble Mr. Malaviya who says 'You cannot pass the Bill because you have withdrawn that statement from the preamble,' though we did so to meet objections of non-official Members. The second was by the Hon'ble Mr. Sinha who said 'Oh, you have now admitted that martial law was not necessary.' Hon'ble Members have heard the whole of the discussion, and I leave it to them to decide whether they think that either of these arguments is of any weight.

"My Lord, it has been repeated more than once in this debate that martial law was not necessary. The facts are before the Council, and I do not want to reiterate anything which has been said already; but I have here a short statement of some of the leading outrages that occurred in the Punjab which, I think, will be interesting. There were 7 murders of Europeans, 15 serious assaults, some of them murderous, there were 44 cases of arson; there were 34 cases of serious tampering with railway lines, any one of which might have caused a grave accident—I am quoting from information supplied to me—and there were 132 cases of cutting telegraph wires or destruction of telegraph posts and insulators. I think that with this additional information before it, this Council will conclude that there was some reason at least for supposing that this was not a case of ordinary disorder, for crimes of this kind are not committed in cases of local rioting.

"The Hon'ble Mr. Ayyangar (I wish I could make myself heard by him), indeed, went so far as to suggest that martial law was instituted merely because Sir Michael O'Dwyer wished to pay off old scores. I have read out to the Council the telegram that we received from the Punjab; the Council have heard from Mr. Hailey and from others well acquainted with the facts including my friend, the Hon'ble Major Umar Hayat Khan, what the actual position was. Is it generous, is it fair, is it honest, in these circumstances, for an Hon'ble Member of this Council to come forward and make or quote an allegation against Sir Michael O'Dwyer of that character, to stab him in the back in this way? For myself I may say that I have heard many unfair things said in this Council—but I have never heard a more cowardly attack in the whole course of my experience.

"Then we had another allegation by the Hon'ble Pandit Malaviya to which I wish to make some reference. He made what was to my mind a very serious statement. An allegation that the telegram from the Punjab Government to the Government of India did not state the truth

The Hon'ble Pandit Madan Mohan Malaviya:—"The whole truth, I said."

The Hon'ble Sir William Vincent:—"The Hon'ble Member said 'truth' first, though he subsequently corrected it. I took down the words . . .

The Hon'ble Pandit Madan Mohan Malaviya:—"My Hon'ble friend did not take the words down accurately. I said 'the whole truth.'"

The Hon'ble Sir William Vincent:—"I maintain that what the Hon'ble Member first stated was 'truth'; he corrected it later. I submit in any case that there was no justification for such an allegation against the late Lieutenant-Governor of the Punjab. There is nothing whatever in the speech of the Hon'ble Member which can be held to be justification of such a serious accusation as that. Whatever were the exact words used—the truth or the whole truth the insinuation is that Sir Michael O'Dwyer deliberately withheld facts from the Government of India, and I maintain that there is no information before Council to lead us to think that there is any basis at all for such a suggestion.

THE INDEMNITY BILL.

[25TH SEPTEMBER, 1919.]

[Sir William Vincent ; the President.]

"Then it was said that the declaration of martial law was really due to unsympathetic treatment of the people by the Punjab Government. If that statement is correct, my Lord, what was the case in Bombay? Was Sir George Lloyd unsympathetic? We have heard nothing but praise of Sir George Lloyd's conduct throughout, yet we know that martial law was enforced in parts of Bombay for a short time, at any rate, and we do know that the most deplorable excesses were committed there. The Council has heard of this unfortunate Mamlatdar who was burnt alive.

"The fact is, my Lord, that in many of these cases where martial law is declared, it is easy to criticize the action taken and often the measures taken deprive the authors of evidence of the necessity for them. This is very well put in the Report of the Commission on the Jamaica Rising—in the following words: 'how much easier it is to decide such a question after than before the event, and sometimes the success of the measures adopted for the prevention of an evil deprives the authors of those measures of evidence they would otherwise have had of their necessity.' I maintain that this has been a great deal the position in the Punjab. The very success of the measures taken has deprived the authorities of evidence of their necessity.

"But, my Lord, we are not now deciding whether martial law was necessary or not, but whether in any case to protect our officers when they have acted *bona fide*? It was for this reason I deprecated the discussion of the necessity for martial law in this Council altogether. I asked the Council then to forbear from discussing that question, because it necessarily must come before this Committee of Inquiry. The position I have always taken up is, that we believe that martial law was necessary, but whether it was necessary or not, we must protect our officers who have acted *bona fide*; and I have never yet heard any argument which has satisfied me that I was wrong on that point. We do not seek to indemnify our officers for specific acts; we are not doing so either administratively or in respect of legal liability; we are only laying down principles on which indemnity should be granted. I am told, however, that officers need no such protection, and that they must depend on their protection under the common law. This point has also been dealt with by the Hon'ble the Law Member, and I will only say to Council that these references to legal dogmas leave me cold. The real question is a simple one on which any man of sense can judge for himself. Each Member of this Council must judge whether a soldier or any officer of Government who carried out the orders of his superior or did his duty in suppressing these disorders *bona fide* and honestly is or is not entitled to be indemnified against legal liability for his action. There is no good citing legal dogmas and constitutional theories in such circumstances. The question is 'are you going to afford the man reasonable protection or not?'

"Well, my Lord, I have placed all the facts relating to the Bill before the Council. I maintain now that it is a perfectly fair and reasonable measure, that it is entitled to receive the support of this Council, and I now leave the issue with all confidence in the hands of Hon'ble Members."

The motion that the Bill, as amended, be passed was put and agreed to.

The President:—"The Council has now come to the end of another Session. It is usual for the Viceroy to address Members of Council both at the beginning and at the end of the Session; but I think that, in the circumstances of this particular Session, especially in the circumstances of these last two days, Members would prefer on this occasion to adjourn and not to be kept here a moment longer than the necessity demands, and as a matter of fact it is only three weeks since I addressed the Council most exhaustively on all the various subjects which have been of public interest during the past few months since the last Session. Since that date no new subject has come to the fore, nor has there been any development in any of those matters with which I dealt

THE INDEMNITY BILL.

[*The President.*]

[25TH SEPTEMBER, 1919.]

very fully on that occasion. It only remains for me this evening to thank Hon'ble Members for the work which they have done during the present Session and to wish them God-speed and a safe return to their homes.

The Council will now adjourn *sine die*."

SIMLA ;

The 9th October 1919. }

H. M. SMITH,

Offg. Secretary to the Government of India,
Legislative Department.

APPENDIX A.

[Referred to in answer to Question No. 5.]

Serious Accidents on railways during 1919

Date.	Place.	Railway.	No. killed.	No. injured.	Particulars and cause of the accident.
30th January 1919	Spintangi ...	North Western	4 (camel men)	8 (camel men)	Camel special. Owing to neglect of special working rules by the train staff the train rolled back on a down grade and was derailed in a slip siding.
17th April 1919	Between Harriah and Malakwal	Ditto	2 (including fireman)	1 (sepoy) ...	Train was derailed owing to a portion of the permanent way having been removed by raiders during the night.
19th June 1919	Between Firozabad and Makhampur.	East Indian	Not possible to give any accurate figures of the actual loss of life but it is believed to have been about one hundred.	47 (including 3 Railway servants).	Collision between a Passenger and a goods train due to driver of the goods train having started with a wrong authority to proceed.
29th June 1919	Kimana ...	North Western	41 ...	44 ...	Collision between a Mail and a goods train in station yard. Driver of Mail train is said to have entered yard against signals and is being prosecuted.
4th July 1919	Kharindwa	East Indian	...	11 (including 3 railway servants).	Collision between a passenger train and an Empty Coaching Special due to defective outer signal and breach of shunting rules by station staff.
7th August 1919	Maonda ...	Bombay, Baroda and Central India.	2 (attendants)	8 (attendants)	Collision between two portions of a Special Goods Train which had parted.
1st September 1919	Between Uchhri and Chhab.	North Western	18 ...	42 ...	During the night train ran into a land slip which had blocked the line.

APPENDIX B.

[Referred to in answer to question No. 10].

Statement showing the new rates of pay of telegraphists in the general and local services, respectively, the increases which took effect from the 1st January 1919 and the percentages of the increases for each year of service.

Year of Service.	General Service.			Local Service.

APPENDIX D.

[Referred to in answer to question No. 19.]

Statement of Income and Expenditure of the Imperial Indian Relief Fund.

Central Fund.—(a) The total sum received by way of subscriptions by the Central Committee of the Imperial Indian Relief Fund from the date of its inception up to the 30th June 1919 was, in round figures, Rs. 2,00,48,000. The interest upon the sums placed at fixed deposit amounted to about Rs. 12,02,000, bringing the total income of the Fund on that date up to Rs. 2,12,50,000.

Provincial Branches.—Complete figures of the amounts retained by the Provincial Branches of the Fund out of subscriptions to the Relief Fund are only available up to January 1919, at which date the total stood at about Rs. 14,86,500. This money was retained for the relief of acute distress among the poorer classes of the civil population arising directly out of the war and through no fault of their own.

(b) The expenditure incurred by the Central Fund up to the end of June 1919 amounted to Rs. 98,22,000 (in round figures), the principal items of expenditure being :—

- (1) Through the agency of Brigade Area Committees or Soldiers and Sailors Families Association:—

Rs.

(i) Grant of relief to Indian officers, men and public followers, returned from the front and proceeding to their homes on sick leave, at the rate of Rs. 75 to each officer and Rs. 25 to each Indian soldier or follower. This concession was withdrawn in January 1917	22,55,000
(ii) Donation of Rs. 100 to the family and dependants of each Indian officer and of Rs. 50 to the family of each Indian soldier or public follower who died or was killed on active service. Similar donations were granted six months after the date of the first donation, and also a third donation in really necessitous cases requiring immediate relief	40,01,000-
Donation of Rs. 100 and Rs. 50 to each Indian officer and soldier or public follower respectively who was invalided out of the service.	
(iii) Discretionary relief to the families of Indian soldiers and followers who proceeded on field service	3,99,000
(iv) Donation of Rs. 200 (with a further donation of the same amount after 6 months) to the family or dependent residing in India of a British soldier or military clerk, who dies or is killed on field service, and the payment of Rs. 200 to a British or Anglo-Indian soldier or military clerk resident in India who has been invalided out of the service permanently disabled	49,000
(v) Administrative expenditure in connection with the above items	33,000
(2) Sums placed at the disposal of Local Governments and Administrations for the relief of distress among certain classes of dependants of Indian soldiers during the summer of 1919	3,39,000
(3) Grants-in-aid to the Soldiers and Sailors Families Association	3,90,000
(4) Extra medical comforts for the sick and wounded	3,70,000
(5) Donations to the Officers' Families Fund in England	2,91,000
(6) Donations to the Indian Soldiers Fund	1,00,000

	Rs.
(7) Donations to the Indian Comforts for Troops Fund ...	5,04,000
(8) Donations to the St. John Ambulance Association ...	64,000
(9) Distributions to officers and crews of vessels sunk by the enemy ...	1,07,000
(10) Assistance to convalescent officers ...	7,30,000
(11) Donations to the Queen Mary's Technical School for disabled Indian Soldiers, Bombay ...	29,000
(12) Relief to the families of Postal and Telegraph employees who had proceeded on active service ...	20,000

Of the above items, Nos. 1(i), (ii) and (iii), (2), (6), (9) and (11) are concerned with relief to Indian classes, Nos. 1(iv), (3), (5) and (10) with relief to European classes, and the others with relief to both classes combined. The total sum spent on the relief of these classes therefore amounts to :—

	Rs.
Indians ...	72,30,000
Europeans ...	14,66,000
Indian and Europeans ...	9,58,000

Of the sum retained by Provincial Branches, the expenditure incurred up to the end of January 1919 amounted to about Rs. 8,11,000. It has since been decided that relief from this source should not be confined to the civil population, but should also include discretionary relief to the dependants and families of Indian soldiers in really necessitous cases demanding immediate assistance. The money spent by Provincial Branches has been for the most part on Indians.

*Includes previous weeks. The actual number of cases and deaths during the week ending September 27th were 289 and 234, respectively.

During 4 weeks of September 4,834 deaths were registered as compared with 6,945 in the corresponding weeks of 1918, and a mean for the month of 21,607. In Bombay Presidency and Mysore State and the Central Provinces September is the month in which mortality increases very rapidly. In the Bombay Presidency this September 1,347 deaths have been recorded against a mean of 14,332; in Mysore State 691 against a mean of 1,395; and in the Central Provinces 536 against a mean of 1,339.

SIMLA :

The 9th October 1919.

F. H. G. HUTCHINSON, LIEUT.-COL., I.M.S.,

Sanitary Commissioner with the Government of India.

H. SHARP,

Secretary to the Government of India.

No. 1078.

GOVERNMENT OF INDIA.

DEPARTMENT OF EDUCATION

Simla, the 1st October 1919.

RESOLUTION.

READ—

Despatch from the Secretary of State for India, no. 191 (Public), dated the 5th November 1915.

Circular to local Governments and Administrations, no. 160, dated the 22nd February 1916.

Introductory.

1. On the 12th October 1915 a memorial on the subject of the education

Occasion of the Resolution.

of girls in India was presented to His Majesty's Secretary of State for India by

an influential deputation. The memorial emphasised points which had long caused anxiety to the Government of India—the insignificant number of girls under instruction, the disparity in this respect of the condition of the male and female portions of the population and the consequent danger to the social well-being of the Indian community. It recommended the formation of a representative committee to enquire into the whole subject. Mr. Chamberlain, in welcoming the deputation and agreeing with it as to the importance of the subject, observed that similar representations had apparently not been made in India, indicated that the times were not propitious for the launching of schemes which carried serious financial consequences and left the question of a committee to be decided by the Government of India. The memorial was forwarded by the Secretary of State with his Public despatch no. 191, dated the 5th November 1915. The Government of India deemed it preferable to invite local Governments to obtain the opinions of competent persons, local bodies, existing committees and other authorities and to forward them with an expression of their own views. The replies have been received and furnish a mass of valuable evidence upon a difficult subject.

It was the intention of the Government of India to place their views on this important subject together with those of the local Governments before the public by means of a Resolution. Various causes led them to postpone this action. The issues connected with the education of boys, which, as explained in their circular letter no. 750, dated the 2nd September 1918, had long been under consideration, the questions of organisation raised by the Report on Indian Constitutional Reforms, and finally the desire to await the views of the Calcutta University Commission, all these afforded ample reason for delaying their pronouncement upon so vital and so difficult a matter. Though these causes still to some extent operate, it is now possible roughly to forecast the influences which will affect education, and the Government of India are no longer willing to withhold their pronouncement upon the conclusions at which they have arrived. The replies sent by local Governments with their enclosures run to great length. It has therefore been decided not to reprint them, though it is possible that some local Governments may desire to publish

them. The views of the Calcutta University Commission are now public property and an off-print of the chapters dealing with the education of women has been made.

2. Even now those conclusions can be put forward only with the reserve demanded in a subject regarding which

Need for elasticity.

it is difficult to dogmatise for the whole

of India. In their Resolution no. 301-C. D., dated the 21st February 1913, the Government of India recognised that the existing customs and ideas opposed to the education of girls require different handling in different parts of the country and hesitated to lay down general lines of policy which might hamper local Governments. They contented themselves with commending five points for consideration. They adhere to those general propositions, which, especially that regarding the type of education to be imparted, will be found repeated in the present Resolution also.

3. The difficulties which retard the education of girls in India are too well-known to require elaborate repetition.

Causes of backwardness.

The Calcutta University Commission have

emphasised those arising from early marriage, *purda* and the distrust of western education. In doing so, they have described the condition of things prevalent in Bengal. Not all those difficulties are found or at least found in an equal degree in all parts of India, in some of which, for instance, the institution of *purda* is for the most part unknown. But the extent to which obstacles arising from these causes, from conservatism, from ideas of caste, etc., influence the result, is evident from the fact that only 0.9 per cent. of the Hindu female population in India and 1.1 per cent. of the Muhammadan is under instruction; while among Europeans and Anglo-Indians, Indian Christians and Parsees, the percentages are 23, 8.3 and 14.6 respectively. The paucity of educated girls in the larger communities is a matter of profound concern to the Government, as it was to the deputation which waited upon the Secretary of State. The disparity between the numbers respectively of boys and girls under education constitutes, as that deputation remarked, a grave danger to social well-being. The problem is as yet hardly an educational one. It has its roots in the very fabric of society and only a radical change in the life, customs and ideals of the country will effect its solution.

4. Nevertheless the progress that has been made is far from negligible. The

Recent progress.

total number of girls at school at the time of the Education Commission of 1882 was

127,000. In 1915-16—the year in which the deputation waited upon the Secretary of State—it was 1,185,000 and in 1917-18 it was 1,261,000. Expansion in recent years has been partially checked by the effects of the war. But it is noticeable that in ten years between 1907 and 1917 the number almost doubled. In 1882, again, the proportion of girls to boys under instruction was 1 to 20. In 1917-18 it was 1 to 5.3. This expansion has been due largely to the labours and enthusiasm of a number of philanthropic individuals and societies and partly to a gradual improvement in public sentiment in some of the urban areas. It is also largely due to the constant pressure and perseverance of the educational officers of Government, male and female, who in the face of much discouragement have maintained their efforts for further development—sometimes in the face of apathy and suspicion. The question has been reviewed from time to time as by the Commission of 1882 and in the Government of India resolutions of 1904 and 1913. Programmes of expansion were requested from the local Governments in 1911 and 1913 and the subject has been carefully considered in recent years by the provincial Governments. Conferences have been held, opinions collected, policies outlined, special committees appointed, new schools opened, new arrangements made for training and inspection and new subjects introduced into the curricula.

5. Thus the expansion in numbers has grown with enhanced rapidity in

Hopeful signs for the future.

recent periods and the interest taken in the subject has increased. It is on the

interest evinced by the public in the education of girls that future development primarily depends. As the Calcutta University Commission have pointed out,

the paucity of private effort (as distinct from Government and missionary effort) in the matter of the post-elementary-training of girls which characterises Bengal is not discoverable in all parts of India; and in the city of Bombay alone there are nine private high schools for girls. Indeed in some parts of the Bombay Presidency private effort has manifested itself in a remarkable manner. The success of two women's colleges in Madras is conspicuous and significant. Improvements in the quality of the education of the male sex are calculated to produce a corresponding influence in the attitude towards the upbringing of women. The loosening in some areas of the joint family system will force younger women, no longer under the tutelage and often the conservative influence of their elders, to seek in education some equipment against the calls made upon them by a new environment. The gradual changes, social and economic, which are slowly permeating the country are bound to have their effect and will in the course of time more and more be reflected in public opinion.

6. Turning to certain characteristics of the educational system which are

Educational difficulties.

often regarded as inimical to the development of girls' education, it must be admitted that the influence of such defects as exist is very small in comparison with that of the larger causes which have been mentioned above and, with the disappearance of those causes, such defects are likely to find their own remedy. The chief difficulties which may be termed educational are the following:—

- (i) The difficulty of providing an adequate supply of competent teachers. Resort is still necessary, and is for many years likely to be necessary, to the employment of foreigners and members of the domiciled community. Their services are expensive. Indian Christians are also available; but in many places, it is understood, orthodox opinion prefers instruction by members of the faith professed by the majority of the pupils. Hindu and Muhammadan women adopt the teaching profession only in small numbers. The employment of men in girls' schools is generally deprecated.
- (ii) The unsuitability of the curriculum. It is frequently asserted that the curriculum for girls too closely follows that for boys. Over half a million girls are studying in boys' schools; and for these it is not easy to devise any suitable system. In secondary schools there is a tendency on the part of many parents to oppose any course save that laid down for the university matriculation. Elsewhere attempts have been made to introduce a variety of courses. The question whether these attempts go far enough is discussed below.
- (iii) The dominance of the examination system. This defect prevails only in post-elementary institutions and to a much lesser extent in middle than in high and collegiate institutions. But the extent to which, at least in Bengal, it affects higher instruction is forcibly pointed out by Sir Michael Sadler's Commission. Secondary education for girls, says their Report, "labours under exceptional difficulties in Bengal; it is surrounded by prejudices; it is distorted, even more unnaturally than the education of boys, by the malign influence of the examination fetish." The Commission "feel that the schools must be saved from the desolating domination of the examination system which now mischievously influences all their work."

In addition to these three main defects, there are others of minor importance. In the following paragraphs the different grades of education will be considered and suggestions made for improvement with special reference to the difficulties mentioned in this and in preceding passages.

Primary Education.

7. More than nine-tenths of the girls under instruction are in the primary stage. Of a total of 19,395 primary

Management by local bodies.

schools, 554 are managed by Government, 3,106 by local bodies and 15,735 by private agency. Of these last, 13,067 are in receipt of aid from public funds. The Government of India have laid down the principle that local bodies should assume a more direct responsibility for

the evolution and management of primary education. In their circular letter no. 873, dated the 19th September 1914, they suggested the withdrawal, whenever this is reasonably feasible, of such restrictions as at present exist on the activities of local bodies regarding such matters as the provision of buildings, the hours of attendance, the grant of holidays, the rates of pay, the levy of fees, the disbursement of grants-in-aid, the creation and filling up of appointments, the punishment and dismissal of teachers and (subject to certain conditions) the opening and closing of schools. Difficulties have been anticipated by some of those consulted in the application of these suggestions to girls' schools. Some local bodies have not evinced much interest in the education of girls. There is a tendency to subordinate it to that of boys. Expert opinion is often lacking. On the one hand Government, on the other some special sort of agency, is regarded as a suitable organisation for the management of institutions. The Government of India have carefully considered these opinions. Where Government already manages schools, they have no desire to see the system radically altered, since the existence of such institutions evinces the interest of Government in this branch of education and sometimes results in the maintenance of model institutions. Still less do they desire to interfere with privately managed schools, the good work done by many of which they are glad to recognise. But in view of the relation between boys' and girls' education, the advisability of engaging local sentiment and interest to the utmost and the policy of strengthening local bodies by the delegation to them of large and important functions, the Government of India maintain that those bodies, already constituted as the proper agencies for the diffusion of elementary instruction, must continue to be such in the case of girls and that upon their enthusiasm and the capability for management which they display the future of girls' primary schools will largely depend. The same remarks apply to the divisional boards recently set up in Burma where there are no district boards.

8. At the same time the Government of India realise that local bodies, as at present constituted, may sometimes be found lacking in zeal for girls' education and in the particular experience which would enable them successfully to handle it. There is no objection therefore to the establishment of advisory committees or to the inclusion of persons versed in the problem of girls' education as supernumerary members on the educational committees to which local bodies ordinarily delegate some portion of their functions. It is desirable that in such matters, the assistance of ladies should, so far as possible, be utilised.

9. The most important matter for consideration in the education of girls is its wider expansion. Recent legislation has placed new powers in the hands of local bodies in certain provinces. In Bombay, Bengal, the United Provinces, the Punjab and Bihar and Orissa some classes of local bodies can now elect for compulsory elementary education in the case of boys; and in Bombay and the United Provinces the provision for compulsion can be extended to girls. It is hoped that these measures will bear fruit. In the meantime, however, local Governments and local bodies would do well to collaborate in the work of surveys for expansion. The Government of India are aware of the difficulties of the question. The grounds which lead to the opening of a Government or board school often consist in the belief that there is some demand for education at the centre selected. The results are sometimes disappointing and it is occasionally found necessary to close the school in order to obviate waste of funds. It is suggested that even at the risk of incurring expenditure which, in the first instance, might appear unremunerative, it would be well to create opportunities for education upon some systematised plan, such as the founding of a girls' school in every centre which contains a secondary boys' school whether of the middle or the high grade. Other systems will doubtless suggest themselves to local Governments as guides.

10. In order to obviate the possibility that educational benefits may in some places be monopolised by those classes of the community which have enjoyed the larger share of them in the past, it will be necessary to keep a watchful eye upon the interests of the depressed and less fortunate classes. It is to be recognised, however, that in some cases the feeling against association with certain castes is

more strongly accentuated in the case of girls than of boys. Such feeling, if it were to be ignored in favour of the principle of free admission for all, might result in the occasional collapse of a school. While, therefore, it cannot be denied that maintenance or assistance from public funds involves the right of any child to admission to an institution, some reasonable discretion to be exercised in unavoidable cases must in practice be left to local authorities and the establishment of special schools for lower castes may be found necessary in some areas.

11. Since no measure is to be overlooked which promises even a possibility of success in prosecuting this most important object, the Government of India would emphasise not only the foundation of new schools, grant of scholarships, etc., but also the retention and, if necessary, the further development of other measures which are at present found in different provinces. Thus, over 5,00,000 girls study in boys' schools. The defects of such an arrangement are fully appreciated; but in default of more adequate arrangements, it seems desirable that facilities should be offered for small girls in boys' schools where girls' schools are not to be found. Such devices, however, can in no case be regarded as a substitute for the foundation of girls' schools and it is doubtful whether the offer of special grants for girls studying in boys' schools should be retained at any centre where a girls' school is opened.

12. The general practice hitherto has been for a local Government through its Department of Public Instruction to prescribe for adoption such courses as the Department considers generally suitable, with or without a certain measure of latitude for local or individual needs. There is a good deal of public criticism of this arrangement on the grounds, *firstly*, that the courses do not allow sufficient variety and, *secondly*, that they are not properly adapted for the special use of girls. In regard to both these criticisms it is to be remembered that the bulk of the girls under primary education—over 95 per cent—are in the lower primary or most rudimentary stage of education, and that if, as is inevitable, they are first taught to read, write and figure in their own vernacular the margin for a variety of subjects either in the lower or in the upper primary stage is very narrow. The period during which girls are at school is very short and their attendance often irregular, so that out of the several additional subjects which are usually suggested for their instruction, it is impossible to expect that more than two or three at the most could be taught adequately in one school, even when teachers competent to handle them are to be found, without hopelessly overloading the curriculum and subjecting to a degree of study incompatible with their physical powers even the few girls who proceed beyond the rudimentary stages. It is however the duty of Departments of Public Instruction to review from time to time the schemes of study so that these may correspond as far as possible with modern ideas and local opinion and to suggest for the higher primary classes a limited number of alternative courses. For the rest, the procedure laid down in the circular of the 19th September 1916, already alluded to, should be followed. Account should be taken of the fact that any such alternatives are meant primarily for schools where girls alone are taught and of the varying needs of different classes and tracts and of town and country; and it would add to the authority of these schemes if they could be set forth after consultation with intelligent unofficial opinion. The courses having thus been devised, the local bodies concerned would be at liberty to prescribe for the classes concerned—both in their own schools and in those to which they give aid—the particular subjects to be studied, provided of course that the staff possesses the qualifications necessary for the teaching of those subjects.

13. Two special points arise in connection with the curriculum. It is Desirability of special text books; and of a matter for consideration whether it religious instruction. would not be well to produce special text-books suitable for girls in the higher classes of primary schools. In some provinces the production of special text-books is believed to have been attended with success. Second, there is a growing feeling against the exclusion of religious teaching and observances from school life, and the feeling is more

accentuated in the case of girls than in that of boys. In Government and board schools such teaching cannot ordinarily be given in school hours; but the codes in several provinces admit of facilities for religious teaching out of school hours and when there is a demand for such teaching local arrangements may be made as far as possible to meet it. In Hindu schools the teaching of elementary Sanskrit, of tales from the epics or of religious music is often advocated with the object of introducing a religious element into the teaching. In schools predominantly Muhammadan the reading of the Koran is demanded and facilities for this can generally be given. The Government of India are of opinion that it would not be advisable to lay down any uniform system to be followed in all localities in respect of religious teaching either for boys or for girls but they feel that in the case of girls a rather greater degree of elasticity can be given to the curriculum in this respect and local bodies should do what they reasonably can to meet genuine local sentiment in the matter.

Secondary Education.

14. Of the girls at school something less than two per cent. are in the secondary stage, but the influence of this stage of education on the future of the country is very considerable and the problems which it presents are among the most difficult in the educational administration of the country. The management of the existing secondary schools is almost entirely in private hands, Government having but few schools of its own and local bodies fewer still, though the bulk of the schools receive financial aid from Government. In the case of boys, primary education is quite as much as local bodies can undertake. They may be expected to interest themselves in girls' primary education also. In these circumstances and for various reasons they cannot be expected to do anything substantial for girls' secondary education. It will probably be necessary therefore that the general control and supply of funds should rest with the Government, but this need not involve the management by Government of any large number of schools. The working of secondary education among girls is a matter of some delicacy in which a special degree of elasticity and personal feeling is required which Government can seldom hope to provide as adequately as private societies or individuals, and the general form of management should as at present be of a private character, aided by funds from Government, and under Government inspection and control. It would seem advisable, where possible, to associate with the Education Department one or more advisory committees, consisting as far as possible of ladies, similar to that previously constituted by the Government of Eastern Bengal and Assam. Such committees would be unnecessary where secondary schools are under fairly effective managing boards, and the personnel of the advisory committees would largely be a repetition of that of the managing boards of the several schools. Efforts, however, might be made to induce the school authorities so to constitute their own boards as to render them, as far as possible, responsive to local public opinion as regards the character of the education to be imparted in the schools.

15. There is no point upon which there is greater diversity of opinion than the character of the secondary education which should be imparted to girls. As in other countries, there are two main schools of thought. The difference between them is for various reasons more marked in India than elsewhere. The one school would bring up girls on lines as similar as possible to those laid down for boys and would prepare them for a university career. The other would prepare girls primarily for home life and hold that women should be educated in all that concerns enlightened mothering, a good standard of maternal physique, better care of infancy, appropriate feeding, care and management of children, effective attention to children's diseases, and generally to their physical condition, good sanitary environment and other matters of domestic concern.

16. This question has been discussed at length in the opinions which reached the Government of India as a result of their reference. The Government of India have also had the advantage of the views of the Calcutta University Commission.

University Commission on this subject and on that of the collegiate education of women. The portions of the report of the Commission which deal with this subject are chapters XIV and XXXVI, together with certain recommendations in chapter LII. The condition of things, which the Commission reviewed in Bengal, is not entirely reproduced in other parts of India, although the inadequate number of girls' schools may be regarded as a common feature.

17. The Commission recognise as already in existence two types of secondary schools. They suggest that in future schools should be so organised as to meet, on the one hand, the needs of the majority who will spend their lives in the *zenana* and whose education will cease at an early age and, on the other hand, those of the small but important minority who will take to professional service or play a part in the progressive section of Indian society. Both these types would fall under the general control of a body which the Commission call the Board of Secondary and Intermediate Education. It is an important part of their proposals that this board should generally manage the education now classed as secondary and also that which at present ends with the Intermediate examination. They propose, however, for schools for the former type of girls (which they denominate *pardanashin* schools) a special body acting under the board and consisting very largely of women. For girls of the second type they consider that the maintenance of schools of the existing pattern will still be necessary and that the standard of attainment should as nearly as possible correspond with that of boys' schools. At the same time the subjects of the course might with advantage be modified so as to avoid too sharp a differentiation between the *pardanashin* and the non-*purda* school. The Commission have recommended the creation of a standing committee on girls' education which would be advisory to the Secondary and Intermediate Board and which would frame the curricula and conduct the examinations for these schools. The Government of India have not yet fully considered the various proposals of the Commission. They recognise that the creation of *pardanashin* schools will be a matter of difficulty and of very great expense and they do not overlook the obstacles which in some parts of India have stood in the way of what is now known as the system of *zenana* classes. They fully accept however the two principles which underlie the proposals of the Commission, namely, the modification of the curriculum in order to suit the needs of girls and women of different classes and, secondly, the utilisation of the advice of ladies in formulating a suitable system of instruction. They also heartily endorse the statement of the Commission that the *pardanashin* school will eminently be a field for the munificence of enlightened Indians, without whose aid and encouragement schools of this type are scarcely likely to come into existence or to thrive.

18. The oppressive effect of examinations upon girls has been a matter of constant complaint. The Government of India endorse the view of the Commission that in the case of *pardanashin* schools there should be some form of examination at the end of the course, but that it should not be compulsory and that it should be differentiated from the corresponding examination for boys and conducted in part through oral tests by competent women visiting examiners; and that in non-*purda* schools it would be the duty of the Secondary and Intermediate Board to ensure that the standards of attainment represented by the examination correspond to those of the examination for boys, though this would not imply the use of identical papers, nor preclude the use of oral tests or the weighing of records of school work, which in view of the small number of pupils concerned would be specially practicable and easy.

19. The remarks made above apply especially to high schools. But for a long time to come the middle school will represent an institution of great importance in the education of girls, seeing that in view of the paucity of high schools, the great expense involved in their maintenance and the social causes which still hamper progress, the middle school is likely often to remain the only institution to which the majority of girls who desire education above the

elementary stage can aspire and beyond which it will be impossible for many of them by reason of social exigencies, etc., to proceed. Opinions are divided regarding the stage at which the teaching of English should commence. This is one of those matters in which the Government of India consider that respect should be paid to local opinion. It is obvious, however, from reports which have reached them that the value of English education among girls is much appreciated and they would strongly urge upon local Governments the advisability of establishing a close network of Anglo-vernacular middle schools which will provide women suitable for training as teachers of lower classes and will perhaps more than any other type of institution disseminate an interest in the advancement of girls' education.

Collegiate Education.

20. The number of girls at present studying in Arts Colleges is 914. The Calcutta University Commission have declared that the intermediate classes do not properly form a part of collegiate or university education. If this proposition is accepted (and it had previously been put forward by various authorities in India) then the number of girls who are doing real university work is infinitesimal—in the three colleges in Calcutta the Commission found that there are only 53 students attempting such work. The Government of India, however, are impressed with the success (already mentioned) of the two women's colleges in Madras.

21. Among the recommendations of the Commission are the following. In view of the small number of girls concerned, the work of the intermediate and degree stages might continue to be carried on under the same direction and by the same teachers, though, so far as possible, the intermediate work should be done by school methods and should also be developed at some selected high schools. There is need for inclusion in university courses for girls of subjects which are likely to appeal specially to women. A Board should be constituted in the reorganised University of Calcutta on lines (similar to the standing committee advisory to the Board of Secondary and Intermediate Education), which would organise the provision of advanced education and make proposals regarding the adaptation of the degree courses to the needs of women, subject to the approval of the academic authorities of the University. On the difficult subject of economy in university training for women the Commission emphasise the need of co-operation among the colleges. They consider that, while university classes should as a matter of principle be open to qualified women students, under existing circumstances such facilities will be very little used. The conditions which prevail in Bengal in this respect are not to be found in all portions of India. In Bombay and elsewhere a certain number of women study in men's colleges and this is particularly the case in professional colleges. The Government of India, however, fully realise the desirability of instituting separate collegiate institutions for women staffed by women, but with arrangements, if necessary, for lectures in certain subjects by the professors of neighbouring men's colleges. Their views upon the other recommendations of the Commission must naturally await the consideration of the Commission's proposals for university education as a whole.

Training of teachers.

22. It is desired on all hands that schools should be staffed by trained women teachers; but the number of Indian ladies who are willing to teach or capable of doing so is yet limited. The number of these under training has indeed shown an appreciable increase during recent years and now stands at 3,096 as against 2,234 in 1915. These numbers, however, are altogether inadequate. It is therefore often unavoidable to employ to a large extent the services of mission societies, of English ladies specially recruited and trained, of members of the domiciled community and of Indian Christians. The labours of these classes of workers are responsible for much of the progress which has already been made.

Naturally, however, there is a feeling in many quarters that Indian girls should be instructed by those of their own race and creed. A considerable number of European ladies at present employed in education in India are actually engaged in the preparation of Indian women for this profession.

23. The Calcutta University Commission recognise that women teachers

Source of supply.

of two types are required—those capable of doing high school work and of teaching through the medium of English and those who teach in primary schools and the lower classes of secondary schools. The Government of India consider that the supply of the second class of teachers will best be met from among the pupils of the middle schools which they would like to see established after the pupils have undergone a supplementary course of training; and from the Widows' Homes which have been established in several parts of India. These sources of supply, however, should not be utilised to the exclusion of the existing training schools, which, on a limited scale, are doing most useful work.

As regards teachers of higher type, the Commission recognise that, if their programme of development is to be carried out, the necessary recruits can at present only be obtained from Britain or America. This remark, however (written in application to the Presidency of Bengal, though undoubtedly applicable to a large degree elsewhere), is tempered by the recognition that the more orthodox section of Indian society fears the unsettling influence of western women and that for the *purdanashin* type of schools there must be a large increase in the number of well-educated Indian women teachers. The Government of India are fully alive to the advantage of supplementing the efforts of Government by the service of competent private bodies in the task of training women teachers. They incline also to the view of the Commission that this work should not be treated as apart, that it can be carried on as a portion of the ordinary teaching work of schools and university courses and that education may fitly form a subject in the courses leading to the intermediate and degree stages. In this connection, the following passage from chapter XXXVI of the Commission's Report is quoted:—

“We would suggest (1) that post graduate classes in the university department of education which we shall propose should be thrown open to women equally with men; (2) that education should be introduced as one of the subjects for the degree, and that instruction for this purpose should be provided by the three Calcutta women's colleges in co-operation; (3) that an introduction to the methods of teaching should be also made one of the possible subjects at the intermediate stage, as has already been suggested in the case of intermediate colleges for men, and that this option should be offered in all the women's colleges; (4) that training for the L. T. diploma and for the B. T. degree should be given in the women's colleges on a co-operative system, under the direction and advice of the university department of education, which might afford much assistance.”

Professional Training.

24. Apart from the training of teachers it has been recognised by many

Training for the medical profession.

authorities, including the Calcutta University Commission, that the profession in which there is greatest need for women is the medical. After discussing the difficulties of the situation and the proposal, now abandoned, to exclude women from the Calcutta Medical College, the Commission conclude that all the existing arrangements are little better than makeshifts and that until Hindu and Mussalman society has materially modified its attitude on the training of women no real solution for this problem will be possible. They consider, however, that one obstacle should be removed, namely, the difficulty of obtaining the requisite preliminary training. While it would be very expensive to provide this in any single college it might be possible to arrange for some concentration of effort among the women's colleges in Calcutta. Another suggestion made by the Commission is that as the student will later on attend mixed classes in the medical colleges it might be possible to make use of some of the teachers in the laboratories provided for men in the preliminary medical subjects. These suggestions are endorsed by the Government of India and the attention of the Governments both of Bengal and of other presidencies and provinces is invited to them.

Conclusion.

25. In some of the opinions received by the Government of India it is contended that the progress of female education is not primarily a matter of money but of social development, and it is urged that in many cases schools have been opened but have failed to attract scholars. By many others it is held that the expansion of girls' education is mainly a matter of finance and that if only more money can be spent on schools and on the training of teachers the number of scholars will rapidly advance. There are doubtless parts of the country in which the former of these views is a correct representation of facts. There are tracts, however, where substantial sums of money can be spent usefully in starting new schools, in strengthening the inspectorate, in experimenting with widows' homes, secondary schools of the types described above, and the like. Where anything can be done by the expenditure of money in such cases it is hoped that local Governments and local bodies will be liberal in doing what their resources permit. At its present stage the education of girls needs more financial fostering than that of boys; primary education must mainly be free; scholarships and studentships must be given more lavishly; grants-in-aid must be calculated more generously; and the greater expensiveness of secondary education has to be practically recognised. For part of the expenditure involved it is hoped that private endowments may be forthcoming, and so far as public money is required the responsibility rests primarily with the provincial Governments and the local bodies concerned. The Government of India have of late years given considerable grants to help in various educational activities, more especially in primary education and the training of teachers, and the utilisation of these grants is by no means confined to the education of boys. But since the impending changes in the relations between Imperial and Provincial finance will in all probability involve the complete dissociation of the former from educational expenditure in the provinces, the provincial and local agencies will become not merely primarily but exclusively responsible for the future development of the education of girls. It will rest with them to decide how far they will be able to devote public money to furthering this form of education, and it is hoped that the suggestions which have been put forward in the preceding paragraphs will be of assistance in indicating the objects on which such money can most usefully be spent and the directions in which the education of girls can most profitably be guided. Hitherto the difficulty has often been not so much in the actual provision of funds as in the discovery of opportunity for their fruitful expenditure. There can be little doubt that in future such opportunities will largely increase. Although it has to be admitted that the total number of girls under education is at present infinitesimal, the progress made in the last few years is significant, the interest now evinced in the subject is a hopeful sign and the enhanced rate of development in the education of boys, especially in its higher branches, is bound to influence favourably the popular attitude towards the education of girls. There is every reason, therefore, to hope that the demand for girls' education and the supply of means to foster its growth may in the future so react upon each other as to provide for an early and substantial development of this important factor in the progress of India.

Government of Madras.

Ditto Bombay.

Ditto Bengal.

Ditto the United Provinces.

Ditto the Punjab.

Ditto Burma.

Ditto Bihar and Orissa.

The Hon'ble the Chief Commissioner, Central Provinces.

The Hon'ble the Chief Commissioner, Assam.

The Chief Commissioner of Coorg.

The Hon'ble the Chief Commissioner and Agent to the Governor-General, North-West Frontier Province.

The Chief Commissioner of Delhi.

The Home Department.

The Foreign and Political Department.

The Finance Department.

Ordered, also, that the Resolution be published in the Supplement to the *Gazette of India*.

Order.—Ordered, that a copy of the

above Resolution be forwarded for in-

formation to the local Governments and

Administrations and the Departments of

the Government of India noted on the

margin.

H. SHARP,

Secretary to the Government of India.

No. 1539.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

Simla, the 9th October 1919.

RESOLUTION.

The undermentioned gentlemen, who have been appointed in England to the Indian Civil Service by nomination under the Indian Civil Service Temporary Provisions Act, are, under the orders of the Governor General in Council, allotted to the Provinces shown against their names:—

Captain J. B. Kindersley, D.S.O.	...	Bengal.
Mr. W. R. Tennant	...	United Provinces.
Mr. R. J. S. Dodd	...	Punjab.
Mr. H. G. Wilkie	...	Burma.
Mr. R. B. Beevor	...	Bihar and Orissa.
Mr. D. J. N. Lee	...	Central Provinces.
Mr. C. S. Mullan	...	Assam.

2. The Governor General in Council is further pleased to direct that Captain Kindersley and Mr. Mullan shall on arrival at Bombay ascertain from the Resident Under Secretary to the Government of Bombay whether any orders as to their destination await them. In the absence of any such orders Captain Kindersley and Mr. Mullan should proceed to Calcutta and report themselves to the Chief Secretary to the Government of Bengal. Mr. Beevor should on arrival at Bombay inquire from the Resident Under Secretary to the Government of Bombay whether any orders as to his destination await him. In the absence of any such orders he should at once proceed to Patna (Patna Junction Railway Station) and there report himself to the Chief Secretary to the Government of Bihar and Orissa or in his absence to the Commissioner of the Patna Division.

3. Messrs. Tennant, Dodd and Lee should ascertain on arrival at Bombay from the Resident Under Secretary to the Government of Bombay whether any orders as to their destination await them. In the absence of such orders Mr. Tennant should proceed at once to Allahabad and report himself to the Chief Secretary to the Government of the United Provinces, Mr. Dodd should proceed to Lahore and report himself to the Chief Secretary to the Government of the Punjab and Mr. Lee should proceed to Nagpur and report himself to Chief Secretary to the Chief Commissioner, Central Provinces.

4. Mr. Wilkie should on arrival at Rangoon report himself to the Chief Secretary to the Government of Burma.

Order.—Ordered that a copy of this Resolution be forwarded to the Local Governments and Administrations concerned for information and guidance. Also that the Resolution be published in the Supplement to the *Gazette of India* and that a copy be forwarded to each of the gentlemen named therein.

W. F. RICE,

Additional Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 9th October 1919, based on the Indian Daily Weather Reports of the period.

1. The monsoon was on the whole considerably more active than usual in northeast India, the central parts of the country and the Peninsula.

2. *Burma.*—In Lower Burma rain fell locally on all the days except the 5th; in Upper Burma there was local rain on the 2nd and 5th, with a few falls on four other days.

Northeast India, including Orissa.—Nearly general rain fell in Assam on the 2nd, 5th, 6th, 7th and 8th, in Orissa on the 4th, and in Bihar on the 2nd and 3rd; local falls were recorded on one other day in Assam and on three other days in the other two sub-divisions. Local rain fell in Chota Nagpur on the 3rd, 4th, 6th and 7th. In Bengal rainfall was local on the 4th, but occurred only at a few stations on the remaining days of the week.

The United Provinces, Central India and the Central Provinces.—Rainfall was nearly general in Central India East on the 3rd, in the east of the United Provinces and of the Central Provinces on the 4th, and in the west of the Central Provinces on the 2nd and 4th; it was local on two other days in all these areas. There was local rain in Central India West on the 2nd. In the west of the United Provinces Dehra Dun was the only station in the plains that reported rain during the week.

Northwest India.—Weather was dry except for a light fall at Sonamarg and a moderate fall at Surat.

The Peninsula.—There was nearly general rain in the Konkan on the 2nd, 3rd, 5th and 6th, in the Madras Deccan on the 4th and 8th, and on the north Madras coast on the 3rd and 4th; local falls occurred on one other day in the Madras Deccan and on three other days on the north Madras coast. In Malabar rainfall was nearly general on the 2nd and occurred locally on five other days. Local rain fell in the Bombay Deccan on the 2nd and 3rd, in Hyderabad on the 2nd, 4th, 6th and 7th, and in Mysore on the 3rd and 6th, while a few falls were recorded in these sub-divisions on one, three and four other days respectively. In southeast Madras rain was restricted to a moderate fall at Madura and Cuddalore, and to a fairly heavy fall at Madras.

3. The chief amounts of rainfall reported were as follows :—

October 2nd. Port Blair 1·20", Akyab 2·04", Dibrugarh 1·15", Sibsagar 1·02", Cherrapunji 4·63", Balasore 1·45", Mymensingh 1·92", Indore 1·65", Khandwa 2·24", Hoshangabad 1·00", Ratnagiri 2·40" and Malegaon 1·25".

„ 3rd. Victoria Point 1·25", Mergui 1·26", Cherrapunji 1·15", Hazaribagh 0·91", Bahraich 1·54", Nowgong 1·11", Saugor 1·69", Pachmarhi 1·29", Bijapur 0·73", Mercara 0·99", Cocanada 1·62", Vizagapatam 1·75" and Gopalpur 1·35".

„ 4th. Akyab 1·01", Lashio 2·28", Jessore 1·10", Balasore 0·90", Benares 0·73", Sutna 0·77", Amraoti 3·15", Seoni 1·22", Nagpur 2·60", Pendra 3·35", Parbhani 0·50", Madura 0·66" and Gopalpur 0·96".

October 5th. Kyaukpyu 1·83", Bhamo 1·35", Dhubri 1·28", Cherrapunji 7·99",
Sutna 0·92", Amraoti 2·37", Karwar 1·09", Raichur 0·68" and
Vizagapatam 3·02".

„ 6th. Dibrugarh 3·82", Sibsagar 1·32", Dhubri 1·27", Cherrapunji 23·25",
Ratnagiri 0·90", Marmagao 1·02", Karwar 1·81" and Mangalore
0·97".

„ 7th. Victoria Point 2·47", Dibrugarh 1·15", Dhubri 3·14", Silchar 1·24",
Cherrapunji 2·10", Jalpaiguri 1·50", Hazaribagh 0·91", Daltonganj
2·22", Raipur 2·85", Mangalore 2·28", Sholapur 0·99", Nizamabad
and Raichur each 0·49", Hyderabad 0·41" and Kurnool 1·35".

„ 8th. Victoria Point 2·16", Moulmein 2·92", Sibsagar 1·00", Dhubri 1·66",
Dinajpur 2·65", Jalpaiguri 1·30", Cuttack 1·82", Naya Dumka 0·88",
Chanda 0·89", Karwar 1·00", Mangalore 0·98", Madras 1·42",
Cuddapah 0·96" and Masulipatam 1·20".

4. The week's rainfall was 20 per cent. or more in excess in Assam, Bihar and Orissa, Central India, Berar, the Central Provinces, the Konkan, Hyderabad, the Madras Deccan, and the Madras Coast North; and was 20 per cent. or more in defect in Upper Burma, the United Provinces West, the Punjab East and North, Rajputana, the Bombay Deccan, Mysore and Madras Southeast. It was either equal to the normal or differed from it by less than 20 per cent. in the Bay Islands, Lower Burma, Bengal, the United Provinces East, Kashmir, Gujarat and Malabar. No rain usually falls at this time of year in the Punjab Southwest, the North-West Frontier Province, Baluchistan and Sind.

The rainfall from the 2nd May to date is 20 per cent. or more in defect in the Bay Islands, Kashmir and Sind; and is 20 per cent. or more in excess in Chota Nagpur, Baluchistan, Rajputana West, Central India and the Central Provinces West. In the remaining divisions the rainfall of the period differs from the normal by less than 20 per cent.

Division.	RAINFALL DATA FOR WEEK ENDING ON 9TH OCTOBER 1919.			RAINFALL DATA FROM 2ND MAY TO 9TH OCTOBER 1919.			PERCENTAGE DEPARTURE FROM NORMAL.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
4th October 1919.

Burma.—During the week light to moderate rain fell throughout Lower Burma and wet zone. In Upper Burma and in dry zone no rain fell. Transplanting of winter rice is approaching completion in Lower Burma and in irrigated tracts of Upper Burma. In Upper Burma harvesting of early sesamum is practically completed. Picking of cotton has commenced. Cultivation of miscellaneous crops is progressing. Standing crops are generally in good condition. The health of cattle is fair. The price of unhusked rice and white rice in Rangoon remains stationary at Rs. 150 and 385, respectively.

Assam.—During the week the weather was seasonable and favourable. Plucking of tea continues. Harvesting of jute is nearly finished and that of autumn rice and transplantation of winter rice are practically finished. Cultivation of mustard and pulses has begun. Prospects of crops are fair. Cattle disease is reported from four districts. The price of common rice has begun to fall.

Bengal.—During the week the rainfall was light in western districts and generally moderate elsewhere. More rain is needed on high lands in Western Bengal. Good rainfall in Eastern Bengal districts during the latter part of September facilitated transplanting of winter rice and steeping of jute. Damage done by cyclone to standing crops was probably not so great as was originally anticipated. Weeding of winter paddy and steeping and washing of jute are nearing completion. Preparation of tillage for next spring crop and their sowing has commenced in some districts. The average price of common rice has slightly risen. Total number of persons receiving gratuitous relief in the Brahmanbaria Subdivision of Tipperah was 6,155.

Famine report not received.

Bihar and Orissa.—During the week rain was general over the Province, the fall being mostly moderate, but was heavy in parts of Ranchi and the Santal Parganas. More rain is wanted in parts of Angul, Puri and Singhbhum. Harvesting of autumn crops continues. Preparation of lands for sowing of spring crops is going on. Standing crops are doing well. The daily average number of persons on test works was 759 in Angul and 240 in Singhbhum. Gratuitous relief was given to 18,922 persons in Bhagalpur, 9,862 in the Santal Parganas, 8,226 in Angul, 7,780 in Cuttack, 6,782 in Puri, 355 in Hazaribagh and 708 in Ranchi. The number of persons attending relief works was 257 in Bhagalpur, 1,361 in the Santal Parganas and 1,179 in Angul. The price of common rice has risen in five districts, fallen in five and remained stationary in the remaining districts. The average price of local common rice at headquarters was 5.37 seers a rupee against 5.48 seers in the preceding week and that of maize was 8.48 seers against 8.38 seers in the preceding week. Cattle disease is reported from ten districts. During the week ending the 27th September 23,711 persons were given gratuitous relief and 8,806 attended test works in eleven Feudatory States of Orissa:—viz., Athgarh, Baramba, Dhenkanal, Hindol, Narsinghpur, Nayagarh, Talchar, Tigiria, Bamra, Daspalla and Khandpara.

*The weekly report on famine for week ending the 27th September is as follows:—*Famine tracts are unchanged. For week ending Saturday, the 27th September, in Angul including undeclared areas test workers were 2,845, relief workers 892, and persons gratuitously relieved 9,130, total under relief 12,867. In Bhagalpur sadr relief workers were 529, and persons gratuitously relieved by poor houses, orphanages, village doles and kitchens 7,769, total under relief 8,298. In Banka relief workers were nil and persons gratuitously relieved by poor houses, village doles and kitchens 12,099. In Deoghar relief workers were 2,796 and persons gratuitously relieved by village doles 10,611, total on relief 13,407, grand total under relief 46,671. Prices of rice were as before. Relief measures are adequate. General health is good.

United Provinces.—Good rain fell in most of the eastern and central districts. Preparation of land for spring crops and harvesting of autumn crops continue. Sowing of gram and potatoes and picking of cotton has commenced in places. The condition of standing crops and of agricultural stock is good. Prospects are favourable. Cattle disease is slight. Fodder, water and market supplies are sufficient. Prices are stationary. Relief operations have now been closed.

Punjab.—During the week the weather remained practically dry. Rain is urgently wanted for spring sowings and for unirrigated standing crops which are suffering from want of rain. The condition of standing crops is generally good on irrigated and average on unirrigated areas. Picking of cotton and reaping of maize, bajra, etc., continue. Expected yield is normal to good. Sowings of gram and oilseeds continue and are normal on irrigated and below normal on unirrigated areas. Cattle are healthy and fodder and water are sufficient. Prices are generally stationary and above scarcity rates. Prices of wheat :—Rawalpindi 6½, Ambala 6½, Ferozepore and Lyallpur 7 and Lahore 7½ seers per rupee.

North-West Frontier Province.—The week was rainless. Sowings of rapeseed, vegetables and gram and picking of cotton and harvesting of rice are in progress. Standing crops are generally average but crops are reported to be withering on unirrigated areas in one district through lack of rain. Prices of wheat :—Peshawar 7½ and Dera Ismail Khan 7½ seers per rupee.

Jammu.—During the week no rain fell. Prices are stationary. Fodder is sufficient.

Kashmir.—The weather was generally dry and mild. Autumn crops are being gathered. Prices are fluctuating. Fodder is sufficient. Cattle are healthy except Gurez.

Rajputana.—No rain fell during the week. Rain is needed in Marwar and Dholpur. The weather was hot and occasionally cloudy. Harvesting of autumn crops is in progress. Lands are being prepared for spring sowings. Pasturage and water are abundant. The condition of agricultural stock is improving. Cattle disease is reported in some places of Merwar and Dholpur. Prices are stationary or falling slightly.

Central India—During the week the rainfall was general. Autumn crops are being weeded and harvested. Lands are being prepared for spring crops. Sowings have commenced in Gwalior. Standing crops and their probable outturn are in fair to good condition except where they have been damaged by excessive rain. Agricultural stock is generally good except cattle disease is reported in parts of Gwalior, Bhopal, Baghelkhand and the Southern States. Prices are high.

*The weekly report on famine in Bundelkhand is as follows :—*Distress is not acute. Numbers on relief works are gradually decreasing. People are reverting to agricultural operations. No wandering or emaciation is reported. Relief measures are adequate. Suspensions of land revenue are being granted. Takavi advances are sufficient. The public health is generally good. Prices range from 5 to 7½ seers per rupee save in Bijawar, Chatarpur and Garrauli where *kodon* is available at 8 seers per rupee. The number of persons on relief in thousands :— works 3.3, gratuitous 8, total 11.3.

Central Provinces.—During the week the weather was hot and cloudy with occasional showers of rain all over the Province which benefited standing crops in some districts and facilitated preparation of lands for spring sowing. Ripening of rice, *kodon* and pulses continues and ploughing of fields for spring sowings is well advanced. Sowing of linseed and gram has started in places. Picking of cotton has commenced in parts of Berar. Prospects of autumn crops are at present quite satisfactory and a full outturn is anticipated over a large part of the province. Except for rinderpest in sporadic form in Chanda and Raipur agricultural stock is in good condition. Variations in prices are irregular with a tendency to fall.

Federatory States :—Light rain was received in the States. Autumn crops are in good condition. Sowings of spring crops have begun.

*The weekly report on famine and scarcity is as follows :—*The public health is good except for a little malaria. Gratuitous relief was closed at the end of September except in the Raipur and Drug districts. Prices of food-grains are stationary. Numbers on works in famine districts were 13,489. Numbers on works in scarcity districts were 5,854. Numbers on gratuitous relief were 5,444.

Bombay.—Good rain fell during the week in the Presidency Proper. More rain is needed in parts of Kaira. Standing crops are flourishing except in parts of Nawabshah where they have been slightly damaged by insects and in parts of Khandesh where they have been damaged by heavy rains. Harvesting of early crops continues except in the Deccan. Spring preparations have commenced in some places. Fodder supply is sufficient. Green grass is plentiful. Agricultural stock is generally sufficient. Cattle are in good condition. Prices of food-grains are high but generally steady.

*The weekly report on famine and scarcity is as follows :—*Good rain fell during the week in affected districts of Ahmednagar, Poona, Bijapur, Belgaum and Kathiawar.

Agency. The rainfall was general and beneficial to standing crops except in parts of Ahmednagar and Poona where they have been damaged by excessive rain. Spring sowing is in progress in Poona, Bijapur and Belgaum. Two relief works still continue in Ahmednagar. Numbers on relief works on the last day of the week ending 4th October were:—works 3,550 and dependents 1,930. Numbers on gratuitous relief including village servants were 18,728. The public health is generally good. Water-supply is adequate. The condition of cattle is satisfactory. Prices of food-grains are still high.

Hyderabad.—During the week the rainfall was general and copious. The average 3 inches and 46 cents. Recent rains have improved prospects of standing crops. Autumn crops which are in fair to good condition are being harvested and are undamaged by rain. Spring sowing is in general progress. Cattle disease is reported in the Nalgonda, Warangal and Adilabad districts. Prices of grains continue high. *Juar* sells at 3½ seers per rupee in Raichur district.

The weekly report on famine is as follows:—The rainfall during the week was general and copious and is improving the situation. Prospects have become hopeful. The number of persons on relief works is decreasing. Emaciation in Telingana taluqs is much decreased. Cheap grain shops continue in Hyderabad city and one in the Warangal district. Land revenue has been suspended in affected parts. Taqavi is being advanced for wells and other agricultural purposes. Government fodder Depôts are still supplying fodder in affected parts of Mahrattwara. Prices of staple grains continue high. Rice sells at 3½ seers and *juar* 5½ seers per rupee. The number on relief in thousands for week ending 25th September—works 19, gratuitous relief 32, total 51.

Mysore.—During the week the rainfall was fair to good. Standing crops are in fair condition. Cattle are generally healthy. Water and fodder are available. Prices are high and fluctuating. Prospects of season are fair. Harvesting of rice and sugarcane has commenced in parts with outturn fair.

Coorg.—The week was slightly wet. Transplantation of rice is completed except in one Taluk. Picking of cardamum and reaping of dry crops continue. Cattle are generally healthy. Water and fodder for cattle are available. The public health is fair. Prices of food-grains are high.

Madras.—During the week the rainfall was very heavy in Sandur, heavy in Vizagapatam Littoral, Godavari, Kistna, Kurnool, Banganapalle, Anantapur, Cuddapah, Chingleput, Madras West Coast and Travancore; good in Ganjam, Guntur, Bellary, Nellore, South Arcot, Chittoor, North Arcot, Salem, Trichinopoly, Tanjore, Pudukotai and Cochin and light or fair elsewhere. Standing crops are in fair condition generally. Harvesting of paddy and dry crops is limited with outturn generally fair. Sowing of second crop is proceeding in West Coast and that of early paddy and dry crops is progressing elsewhere. The condition of cattle is generally good. Water is sufficient except in Ganjam, Vizagapatam, Godavari, Deccan, Chingleput and West Coast. Pasture is sufficient except in parts of five districts. Fodder is insufficient in parts of eight districts. Prices are generally steady or falling. Prospects are fair generally.

The weekly report on famine in Ganjam is as follows:—Relief works 27 in Goomsur, 6 in Udayagiri, 34 in Kallikotta and Attagada, 3 in Humma, Biridi, Palur and 1 in Ronabha are in progress. Labourers and small agriculturists are mostly affected. People are resorting freely to works and their physical condition is generally fair. Relief measures are adequate. Cloth distribution is being provided by private charity. The price of rice in Goomsur is 4.5 seers, in Udayagiri 4.5 and Chatrapur 4 seers and that of *ragi* in Chatrapur 7.2 seers per rupee. Numbers on relief works were 59,088, gratuitous relief incomplete figures 70,625, total 1,29,713.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

RESOLUTION.

POLITICAL.

No. 2168.

Simla, the 14th October 1919.

The Governor General in Council, with the approval of the Secretary of State, has decided to appoint a committee to investigate the recent disturbance in Bombay, Delhi and the Punjab, their causes, and the measures taken to cope with them.

The Government of India have succeeded in securing as President the Right Hon'ble Lord Hunter, lately Solicitor-General for Scotland and now Senator of the College of Justice in Scotland.

The following have agreed to serve as members :—

- (1) The Hon'ble Mr. Justice G. C. Rankin, Judge of the High Court of Calcutta.
- (2) The Hon'ble Mr. W. F. Rice, C.S.I., I.C.S., Additional Secretary to the Government of India, Home Department.
- (3) Major-General Sir George Barrow, K.C.M.G., C.B., I.A., Commanding the Peshawar Division.
- (4) The Hon'ble Pandit Jagat Narayan, B.A., Member of the Legislative Council of the Lieutenant-Governor of the United Provinces.
- (5) The Hon'ble Mr. Thomas Smith, Member of the Legislative Council of the Lieutenant-Governor of the United Provinces.
- (6) Sir Chimanlal Harilal Setalvad, Kt., Vakil of the High Court, Bombay.

(7) Sardar Sahibzada Sultan Ahmed Khan, Muntazim-ud-Doula, M.A., LL.M. (Cantab.), Bar-at-law, Member for Appeals, Gwalior State.

The Hon'ble Mr. H. G. Stokes, C.I.E., I.C.S., Secretary to the Government of Madras, has been appointed as Secretary to the committee.

The committee, which will submit its report to the Government of India, is expected to assemble at Delhi about the end of October. It will conduct its inquiries in public, but any part of its proceedings may be conducted *in camera* if the President considers such a course desirable in the public interest.

Persons who desire to be called as witnesses should apply in writing to the Secretary, c/o Home Department, Government of India, Simla, giving their full names and addresses together with a brief memorandum of the points in regard to which they desire to give evidence. It will of course rest with the committee to decide what evidence they will hear.

ORDER.—Ordered that a copy of the above resolution be published in the *Gazette of India* and communicated to all local Governments and Administrations for information.

Also that a copy be forwarded to the Secretary of the committee for information.

W. S. MARRIS,

Secretary to the Government of India.

CUSTOMS—WAR.

The 18th October, 1919.

No. 8582.—The following Board of Trade list, dated the 12th September 1919, on the subject of prohibitions of export from the United Kingdom, is published for general information :—

BOARD OF TRADE,
EXPORT LICENCE DEPARTMENT,
1, QUEEN ANNE'S GATE BUILDINGS,
WESTMINSTER, S. W. 1,
12th September, 1919.

LIST OF EXPORT PROHIBITED GOODS, &c., 12TH SEPTEMBER 1919.

This List cancels all similar lists and supplements issued by the Export Licence Department prior to the above date.

	Page.
List A and B	2053
List C	2056
List D and E	2057
Open General Licences for Exports :	
APPENDIX No. 1	2057
General Information with regard to Export Regulations to certain countries in Europe and on the Mediterranean	2059
Trade with Germany and Austria Hungary	2063
Transhipment in the United Kingdom	2064

This consolidated "List of Export Prohibited Goods" is amended and issued fortnightly. Exporters who desire to have copies of each list posted to them during the current year can do so on payment of a registration fee of 2s. 6d. for one copy of each issue. Should more than one copy of each issue be required an additional payment should be made at the rate of 2d. per copy for each month up to end of the current year.

Exporters who desire to have their names placed on the register should make application to the Stationery Clerk, Export Licence Department, enclosing Money Orders payable to the Export Licence Department, Board of Trade.

IMPORTANT NOTICE.

Application Form A for Licence to Export.

The Export Licence Department, having regard to the circumstances now existing, and subject to any further notification which it may hereafter become necessary to make, notifies Exporters that answers need only be given to the undermentioned questions which are set forth in the above-mentioned form of application.

- (a) Full name and address of consignor.
- (b) Name and address of person or company to whom the licence is to be sent.
- (c) —1. Proposed date of despatch of goods.
2. Port of intended shipment in this country or post office of despatch.
- (d) Prospective port and country to which the goods are to be exported.
- (e) Route by which the goods are to be forwarded to ultimate destination.
- (f) Full name and address of consignee abroad.
- (g) State whether previous application has been made for all or part of the consignment, &c.
- (h) Full description of goods—quantity, weight, value, number and description of packages and the shipping marks.
- (i) Any special reasons in support of your request for a licence to export these goods.

Instructions Nos. 1, 6, 7, 9 and 12 on page 4 of Application Form A are now cancelled.

P.S.—Should it be desired that in any exceptional case an answer should be given to any questions set forth in the Application Form but not appearing above, a notification will be addressed to the applicant concerned after the receipt of the relative application.

Application Form B for General Licences.

The use of Application Form B for making application for licence to export goods in several consignments over a certain period is no longer necessary. Form A can now be used when making application for either specific or general licence, provided that if a general licence is required a statement to that effect is endorsed on the Application Form A.

Applications for licences and all correspondence should be addressed to :—

The Controller, Export Licence Department,

1, Queen Anne's Gate Buildings,

Westminster, S. W. 1.

List A and B.

Y.

- Yarns, *see* Wool.
 (A) Yeast ; (8-9-16) (22-6-17) (28-2-19).

LIST C.

By Order of Council dated 1st October, 1918, as amended by Order of Council of the 24th December, 1918, the 7th January, 1919, the 7th February, 1919, the 11th February, 1919, the 28th February, 1919, the 11th April, 1919, the 29th April, 1919, and the 16th May, 1919, ALL GOODS [other than (1) printed matter and (2) personal effects accompanied by their owners] are prohibited from export to All Destinations in European Russia (except Russian ports on the Black Sea) and in other Foreign Countries in Europe and on the Mediterranean, except France and French Possessions, Italy and Italian Possessions, Belgium, Portugal, Greece, Serbia, Roumania, Iceland and the Faroe Islands, Spain, Morocco, Palestine and Syria as far north as a line from Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive, Czecho-Slovakia, Alsace-Lorraine, Luxembourg and the portions of Austria-Hungary in the

occupation of the Armies of the Associated Governments, Occupied Rhineland territory, and to all Ports in any such Foreign Countries.

LIST C comprises **ALL GOODS** not included in List A or B, excepting the following goods, which may be exported without licence :—

- (1) Printed matter ;
- (2) Personal effects accompanied by their owners.

In addition to the above countries, trading is permitted with the following countries, to which List 'C' goods may be exported without licence (*see*, however, Lists D and E, below) :—

Turkey, Bulgaria, Russian Black Sea ports, Austria, Hungary, Jugo-Slavia, Montenegro, Albania, Bosnia, Herzegovina, Dalmatia, and Arabia.

Goods on List C may also be exported to the following countries without licence (*See* page 2056) :—

Denmark, Holland, Norway, Sweden, Switzerland, Esthonia, Finland, Germany, Lottland, Lithuania, and Poland.

List D.

By Order of Council dated 21st March, 1919, as amended by Order of Council of the 11th April, 1919, the 15th April, 1919, and the 9th May, 1919, the following goods on List D* are prohibited from export to Turkey, Bulgaria, ports on the Black Sea (not including Roumanian ports), Austria, Hungary, Jugo-Slavia, Montenegro, Albania, Bosnia, Herzegovina, Dalmatia, and Arabia.

Aircraft of all kinds, including aeroplanes, airships, balloons and their component parts, together with accessories and articles suitable for use in connection with aircraft.	Field-glasses.
Apparatus which can be used for the storage or projection of compressed or liquefied gases, flame, acids or other destructive agents capable of use in warlike operations and their component parts.	Gases for war purposes.
Armour plates.	Guns and machine guns.
Armoured motor-cars.	Gun mountings.
Arms of all kinds, including arms for sporting purposes and their component parts.	Limbers, military wagons of all descriptions.
Barbed wire and implements for fixing and cutting same.	Harness or horse equipment of a military character.
Camp equipment, articles of, and their component parts.	Implements and apparatus designed exclusively for the manufacture of munitions of war or for the manufacture or repair of arms or of war material for use on land or sea.
Clothing and equipment of a distinctively military character.	Mines, submarines and their component parts.
Electrical appliances, adapted for use in war, and their component parts.	Projectiles, charges, cartridges and grenades of all kinds and their component parts.
Explosives specially prepared for use in war.	Range-finders and their component parts.
	Searchlights and their component parts.
	Submarine sound signalling apparatus.
	Materials for wireless telegraphs.
	Torpedoes
	Warships, including boats and their component parts of such a nature that they can only be used on a vessel of war.

LIST E.

In addition to the goods contained in List D, the following goods on List E* are prohibited from export to Bulgaria.

All articles for use in transportation on land.	Locomotives and rolling stock.
Saddle or pack animals, vehicles, motor-cars, bicycles, and their component parts.	Telegraphs and telephones and their component parts, and materials for use therewith.

APPENDIX No. 1.

GENERAL LICENCES FOR EXPORTS.

An Open General Licence has been issued, permitting the exportation of the following goods (without application to the Export Licence Department) to all destinations except those foreign destinations to which goods on List C (*see* page 2056) are prohibited from export.

Alpaca, and noils, waste and yarns thereof.	Bird seed.
Beans, imported, other than Soya, Locust or Chinese horse beans.	Blanc-mange powder.

* Many goods on the above Lists are already on List A or B.

Cake mixture.	Gloy.
Camel hair, and noils, waste and yarns thereof.	Koffio.
Cashmere, and noils, waste and yarns thereof.	Lactol.
Cement for building and engineering purposes.	Lactogol.
Chillies.	Mango chutney, tomato chutney, and tomato ketchup.
Cocoa and milk, coffee and milk, chocolate and milk, sweetened or unsweetened, in tins.	Marmite.
Coffee, the following varieties :—	Mince-meat and mince pies.
Pernambuco.	Mixtures and preparations containing not more than 10 per cent. aniline colour, not otherwise prohibited.
West African.	Mohair and noils, waste and yarns thereof.
Liberian.	Paisley flour.
Rio.	Paint, other than gold paint.
Bahia.	“ Phosto ” animal food.
Victorian.	Pudding powder.
Custard powder.	Puddings.
Dates.	Vanilla custard.

SAMPLES.

An open general licence has been issued which permits the free export of all *bond-fide* samples of prohibited goods to all non-enemy destinations, and to enemy territory with which trade is now permitted (*see* page 2056). Samples exported under this licence may be used only for genuine sample purposes, *i.e.*, for obtaining orders from foreign buyers, and may not be sold except with the written consent of the Export Licence Department, but such consent may be dispensed with when it is desired to sell the articles in the country of destination after they have fulfilled their purpose as samples. Exporters will be required to satisfy the Customs Authorities that the goods presented for export under this licence are *bond-fide* samples, and to make a declaration to that effect on the relative shipping documents.

This notice only applies to samples of goods which require licences for export to the particular destination concerned.

In addition, the consent of the Export Licence Department is not required for the sale of samples which, though within this scheme at the actual time they were exported, could be exported outside the scheme at the actual time of the proposed sale.

OPEN GENERAL LICENCE FOR THE EXPORT OF EXPLOSIVES, DOUBLE-BARRELLED GUNS, ETC.

An Open General Licence has been issued for the export of cartridges, charges, &c., industrial explosives, double-barrelled guns and sporting rifles, to the destinations given below, to which, therefore, exports may be made subject to the usual Customs formalities without applications for specific licences to the Export Licence Department :—

British Possessions and Protectorates.

French Possessions and Protectorates.

United States of America.

South America.

Africa.

Japan and Korea.

Asiatic Russia.

France, Belgium, Spain, Portugal, Greece, Italy, Serbia, Roumania, Norway, Sweden and Denmark.

The issue of this licence does not relieve exporters from the necessity of obtaining import permits from the country of destination in cases where local regulations render such a course necessary.

Albania.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D except as provided in Note (iii), page 2062. Any available route may be adopted at the option of the exporter.

There is no parcel post service at present.

Alsace-Lorraine.

Licences are only required for goods on Lists A and B. Goods may be exported by any available route at the option of the exporter.

There is no parcel post service at present.

Arabia

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in note (iii) page 2062).

See page 2062.

Asia Minor (*see* Turkey).

Austria, Hungary.

Trade is now permitted with all portions of the late Austro-Hungarian Empire.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in note (iii), page 2062).

Goods may be exported *via* any available route.

Parcels will now be accepted by the Post Office for transmission to Austria (States of Upper and Lower Austria, Styria, Carinthia, Salzberg, Northern Tyrol, Vorarlberg and Liechtenstein, Trentino, Istria and Dalmatia).

For the portions of the late Austro-Hungarian Empire now incorporated in Italy, Czecho-Slovakia, Poland and Jugo-Slavia, *see* notes applicable to those countries.

See also page 2062.

Belgium.

Licences are only required for goods on Lists A and B.

Belgian import licences are required in respect of arms of all kinds, sugar, wheat (grain and flour) and coal.

Bulgaria.

Licences are required for goods on Lists A, B, D and E. Licences will not, as a rule, be granted for goods on Lists D and E except as provided in Note (v).

Any available route may be adopted at the option of the exporter.

Czecho-Slovakia (including any portions of Silesia and Galicia now allotted to Czecho-Slovakia).

This territory consists, broadly speaking, of the former Austrian provinces of Bohemia and Moravia.

Licences are only required for goods on Lists A and B.

Goods may be exported *via* Hamburg and the Elbe, provided they are consigned to the Commission Commerciale Teycho-Slovaque, Hamburg, for account of the actual consignee in

Czecho-Slovakia. A duplicate set of shipping documents should be forwarded in advance to that Commission. Goods may also be exported *via* any other available route.

Exporters should satisfy themselves in all cases that the goods are not subject to any Czecho-Slovakia import prohibition.

Denmark.

Licences are only required for goods on Lists A and B.

No certificates from the Danish Associations need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Danish import prohibition.

Esthonia (principal port—Reval).

Licences are only required for goods on Lists A and B. The support of the Esthonian Legation is no longer required.

There is no parcel post service at present.

Finland.

Licences are only required for goods on Lists A and B. Exporters should instruct their consignees to obtain any import licence that may be necessary.

Any available route may be adopted at the option of the exporter.

France.

Licences for exports are only required for goods on Lists A and B. Exporters are warned that French import licences are required for many classes of goods. Full information may be obtained from the French Customs Office, Bank Buildings, Kingsway, London, W.C. 2.

Germany.

Licences are only required for goods on Lists A and B.

Goods may be exported by any available route at the option of the exporter.

An import licence is required for the importation by parcel post into unoccupied Germany of goods other than newspapers, periodicals, books, and foodstuffs. Before goods other than those mentioned are despatched, therefore, the sender should apply to the Imperial Commissary for Export and Import Licences, Luetzowufer 6-8 Berlin, W. 10, with a view to ascertaining whether the German Authorities are actually prepared to admit the parcel.

For the occupied territory in the Rhineland (*see* Note (ii), page 2062).

Greece.

Licences are only required for goods on Lists A or B. Any available route may be adopted at the option of the exporter.

Holland.

Licences are only required for goods on Lists A and B.

Consignment to the Netherlands Oversea Trust is no longer necessary.

Italy.

Licences are only required for goods on Lists A and B. Exporters are warned that Italian import licences are required for many classes of goods; full information may be obtained from the Italian Government Commission, West Africa House, Kingsway, W.C. 2.

Any available route to Italy may be adopted at the option of the exporter.

Jugo-Slavia.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in Note (iii), page 2062).

Any available route may be adopted at the option of the exporter.

There is no parcel post service at present, except to Dalmatia.

Lettland (Latvia) (principal port—Libau).

Licences are only required for goods on Lists A and B. Applications to export goods on Lists A and B will be considered in the usual way.

There is no parcel post service at present.

Lithuania (principal port—Riga).

Licences are only required for goods on Lists A and B. Applications to export goods on Lists A and B will be considered in the usual way.

There is no parcel post service at present.

Luxembourg.

Licences are only required for goods on Lists A and B.

Goods may be exported by any available route at the option of the exporter.

Montenegro (see Jugo-Slavia).**Norway.**

Licences are only required for goods on Lists A and B.

No certificates from the Norwegian Associations, or other form of guarantee, need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Norwegian import prohibition.

Palestine.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Poland (including any portions of Silesia and Galicia now allotted to Poland).

Licences are only required for goods on Lists A and B.

Exporters should satisfy themselves in all cases that the goods are not subject to any Polish import prohibition, *see note (iv)*, page 2062.

There is no parcel post service at present.

Portugal.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Roumania.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Exporters should satisfy themselves in all cases that the goods are not subject to any Roumanian import prohibition.

Russia (Asiatic).

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Russia (European).

(a) *Northern District—approached via Archangel* or the Murman Coast.*

Licences are required for all goods, except "free" goods (a list of which can be had on application to the Stationery Clerk, Export Licence Dept.) except "foodstuffs" on List C. All goods imported into Northern Russia must be for consumption in the districts of Archangel and Murmansk, and they must be consigned to the British Supply Mission at Archangel or Murmansk for account of a sub-consignee. Exporters are warned that import licences must be obtained by consignees from the Archangel Government before they can take delivery of the goods.

(b) *Southern District—approached via Batoum and Novorossisk on the Black Sea and Taganrog on the Sea of Azov.*

Licences are only required for goods on Lists A, B and D.

There is no parcel post service at present.

(c) *Other Districts.*

No licences are being granted at present.

Serbia.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

There is no parcel post service at present.

Spain.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Sweden.

Licences are only required for goods on Lists A and B. No certificates from the Swedish Handels Kommission, or other forms of guarantee, need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Swedish import prohibition.

Switzerland.

Licences are only required for goods on lists A and B. Consignment to the Société Suisse de Surveillance Economique is no longer necessary.

Any available route may be adopted at the option of the exporter.

With regard to exports to Switzerland under the British Re-export Scheme, goods may now be exported without licence, and without consignment to H. M. Consul at St. Gall, but it will be necessary for exporters to communicate with the Department of Import Restriction, 22, Carlisle Place, S.W.1, in connection with the necessary import certificate for the re-admission of the goods into this country.

* It is understood that there are no shipping facilities for Archangel at present.

Syria (as far north as a line from Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive).

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

A Parcel Post Service is in operation as far north as Alexandretta but not east of Aleppo.

Turkey (including Asia Minor).

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D except as provided in Note (iii), page 2062.

Any available route may be adopted at the option of the exporter.

Parcels for civilians in European Turkey (Constantinople) are accepted if they are addressed "Poste Restante, British Army Post Office, Constantinople," and parcels for civilians in Smyrna are accepted if they are addressed "Poste Restante, British Post Office, Smyrna."

Notes.

FOODSTUFFS.

(i) Food-stuffs should be regarded as including all articles intended for use as human food including articles to be manufactured into human food and including beverages and spices.

OCCUPIED RHINELAND TERRITORY.

Crefeld), Grevenbroich, Hainsberg (Rheinland), Hülchrath, Jülich, Kaldenkirchen, Kempen (Rhein), Linn, Mörs, München-Gladbach, Neuss, Odenkirchen, Randerath, Rheydt, Steinstrass, Stolberg (Rheinland), Viersen, Wevelinghoven, Xanten.

GOODS ON LIST D.

(iii) Consideration will be given to applications in respect of the following goods on List D, if there is clear evidence that the shipments are destined for commercial purposes:—

Barbed wire and implements for fixing and cutting same.

Camp equipment, articles of, and their component parts.

Clothing and equipment of a distinctly military character.

Electrical appliances, adapted for use in war, and their component parts.

Military wagons of all descriptions.

Harness or horse equipment of a military character.

EXPORTS TO POLAND.

(iv) In order to facilitate the re-establishment of commercial relations between Great Britain and Poland, the Polish Commercial and Financial Agency, 88, Kingsway, London W.C.-2, has been duly authorised to issue Import Permits. The applicant for an Import Permit must fill in the four forms with which he will be supplied, and return them with the original invoice and four copies thereof.

It must be noted that all goods intended for Poland must be addressed to :—

The Polish Government Import and Export Commission, Elektoralna 2, Warsaw (for the ultimate consignee).

The charges for this Import Permit are five shillings stamp duty, and £1 per thousand pounds sterling of the total value of the goods to be imported, which must be paid upon receipt of the Permit.

The Import Permit does not exempt the goods from any Customs dues or other taxes imposed by the Polish Government.

Due notification will be given of any alteration in these regulations.

TRADE WITH GERMANY, AUSTRIA, HUNGARY AND ARABIA.

In view of the raising of the blockade, the Board of Trade have issued General Licences under the Trading with the Enemy legislation authorising, with certain reservations, the resumption of trade with Germany, Austria, Hungary, and Arabia.

The Licences do not remove the existing restrictions upon the payment of debts and the return of property due or deliverable to persons in Germany, Austria, Hungary, and Arabia in respect of pre-war transactions.

The Licences do not permit the importation from Germany, Austria, Hungary or Arabia of any goods included in the Prohibition of Import Proclamations and not covered by a General Licence issued under those Proclamations. Information with regard to imports into the United Kingdom can be obtained from the Import Restrictions Department, 22, Carlisle Place, S.W. 1. Further, Export Licences must be obtained from the Export Licence Department, 1, Queen Anne's Gate, Westminster, S.W. 1, before goods included in Lists A and B of prohibited exports are shipped to those countries, but no licences are required in respect of goods included in List C.

The text of these General Licences is as follows :—

The Board of Trade, on behalf of His Majesty, and in pursuance of the powers reserved in the Trading with the Enemy Proclamations and all other powers thereunto them enabling, do hereby give and grant licence to all persons and bodies of persons resident, carrying on business, or being in the United Kingdom, to trade and have commercial and financial transactions with persons or bodies of persons resident or carrying on business in Germany-Austria-Hungary :

Provided always that any licence which may be necessary in respect of any transaction under any prohibition of export or prohibition of import for the time being in force in the United Kingdom or in respect of any remittance of money out of the United Kingdom covered by * Regulation 41D of the Defence of the Realm Regulations is first obtained :

Provided also that this licence shall not permit any person or body of persons to pay to or for the benefit of any person or body of persons resident or carrying on business in Germany-Austria-Hungary any sum of money which by the terms of the Trading with the Enemy Amendment Acts, 1914 and 1915, or either of them, is required to be paid to the Custodian appointed under the Trading with the Enemy Amendment Act, 1914, but such sums of money must be paid to the said Custodian.

Provided further that this licence shall not permit any person or body of persons to pay or deliver any sum of money or property which is, or but for the war, would have been due or deliverable to any person or body of persons resident or carrying on business in Germany-Austria-Hungary in respect of a transaction entered into before the outbreak of war.

A General Licence with regard to Arabia has been issued, dated the 12th August 1919.

URGENT ORDERS.

The Board of Trade, Export Licence Department, announces that, in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which require immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Export Licence Department the licence will be granted.

The telegrams should be addressed to "Orders, c/o Advantage, Stock, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory or from Territory in the occupation of troops of the Associated Governments, the consignee need not be stated ; and it will be sufficient merely to give the country of destination. A reply of 24 words (1/3) must be prepaid.

* Regulation 41D of the Defence of the Realm Regulations is now cancelled.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 4, Queen Anne's Gate Buildings, Westminster, S.W. 1.

Transshipment in the United Kingdom.

The provisional approval of the Export Licence Department should be obtained before the following goods are brought to this country for transshipment :—

Bacon, ham and lard of all kinds.

Butter and Cheese.

Cereals on Section "A" of the list of prohibited exports.

Animal feeding stuffs on Section "A" of the list of prohibited exports.

Seeds, oils and fats on Section "A" of the list of prohibited exports.

It is not now necessary to make application to the Collector of Customs at the transshipment ports on Form S. 90 for the transshipment of any goods except those specified in the following list :—

Foodstuffs for animal or human consumption which are on Section "A" or "B" of the list of prohibited exports (including tea, coffee and cocoa).

Seeds, oils and fats on Section "A" of the list of prohibited exports.

Synthetic dyestuffs.

Ergot.

Quinine sulphate.

Caustic potash.

Potassium carbonate.

Wool, raw, and mixtures thereof.

Wool-tops and mixtures thereof.

Woollen and worsted yarn and mixtures thereof.

GENERAL.

The 18th October, 1919.

No. 8475.—Rai Bahadur A. K. RESIGNATIONS.

VOLUNTEER FORCE

*United Provinces Horse.**1st (Southern) Regiment.*

No. 3111.—Lieutenant Arthur Wernicke Smart resigns his commission. Dated 31st March 1917.

REWARDS.

No. 3112.—The Governor-General in Council is pleased to sanction the grant of the following reward for gallantry or devotion to duty in the field while serving with the British Salonika Force :—

Awarded the Indian Order of Merit (2nd class).

No. 989 Havildar Farid Khan, 1st Battalion, 19th Punjabis.

For conspicuous gallantry on the 16th January 1919 in pressing forward at the head of his section under very heavy fire. His total disregard of danger on this and former occasions was of the greatest assistance to his platoon commander and an example to his men. This non-commissioned officer was killed in action. His widow, if any, is admitted to the pension of the order, with effect from the date of his death.

No. 3113.—The Governor-General in Council is pleased to sanction the grant of the following reward for gallantry and devotion to duty in the field while serving with the Mesopotamian Expeditionary Force :—

Awarded a Bar to the Indian Distinguished Service Medal.

Subadar Hukmi, 48th Pioneers.

The award of the Indian Distinguished Service Medal was published in Army Department Notification No. 728, dated the 4th August 1915. The second award of the Indian Distinguished Service Medal published in Army Department Notification No. 2086, dated the 3rd June 1919 is hereby cancelled.

SUPPLEMENT TO

The Gazette of India.

 No. 42. } . CALCUTTA, SATURDAY, OCTOBER 18, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

COTTON PRESS RETURN.

No. 23 of 1918-19.

PREFATORY NOTE.

THE COTTON SEASON, 1918-19.

In the Final Cotton Forecast, published on the 19th February, 1919, the yield of the crop of 1918-19 was estimated at 3,671,000 bales on an area of 20,497,000 acres, as compared with 4,065,000* bales on an area of 25,298,000 acres, the final (revised) estimates of the preceding year, a decrease of 10 per cent in the outturn. There were 1,915,000 bales of cotton pressed in the pressing factories, and 454,000 bales of unpressed cotton received in the spinning mills, from 1st September, 1918, to 15th August, 1919, as against 1,619,000 bales and 528,000 bales, respectively, during the corresponding period of last year, showing an increase of 18 per cent in the case of presses, but a decrease of 13 per cent in the case of mills. Too much stress should not be laid on the accuracy of these returns as a means of checking the forecast estimates of outturn, as there is at present no system in vogue of furnishing complete returns from all the presses and mills in India. The figures for the Indian States are, as will be seen from the footnotes to the tables, generally incomplete, and have therefore been excluded for the purpose of comparison.

* The trade estimate is, however, 4,204,000 bales. (Net exports 1,410,000 bales, mill consumption 2,044,000 bales and extra-factory consumption 750,000 bales.) The estimate of mill consumption is based on returns furnished by mills to the Millowners' Association, Bombay. The previous method of calculating mill consumption from the returns of yarn produced by mills, and furnished under the Cotton Excise Duties Act, has been discarded in favour of the Millowners' returns.

I.—Cotton Press Return for India in the half-month ending 15th August, 1919.

(Season 1918-19, i.e., from 1st September, 1918, to 31st August, 1919.)
